Read the information below before completing the form:**Privacy notice:**

Agriculture and Agri-Food Canada (AAFC) is committed to protecting the privacy of your information. The personal information on the 2026 Interim payment form is collected under the authority of Section 4 of the *Farm Income Protection Act* and will be used exclusively for the purposes of administering your participation in the AgriStability program; determining your eligibility for benefits; verifying the information submitted; issuing tax receipts; administering benefits under other federal (including AAFC), provincial and territorial programs, auditing, analyzing, and evaluating the AgriStability program and other farm income and special assistance programs by the Administration, AAFC, the provincial or territorial governments or third parties engaged for that purpose.

Personal information will be handled in accordance with the *Privacy Act*. You have the right to the protection and correction of, and access to, your personal information. For personal information under the control of AAFC, these rights may be exercised by contacting the AAFC Access to Information and Privacy Director at aafc.atip-aiprp.aac@agr.gc.ca. You also have the right to file a complaint with the Office of the Privacy Commissioner of Canada concerning AAFC's handling of your personal information. Details of the collection, use, disclosure, and retention of personal information are described in the Personal Information Bank, the Net Income Stabilization Account (NISA), AAFC PPU 183.

Certification:

By submitting the Interim payment form, you:

- certify that the information you provided on the form is complete and correct and understand that it is a criminal offence to make a false statement in application for program benefits and any declarations made are subject to audit
- certify that you have completed at least six months of farming activity and a production cycle in the program year, or could not for reasons beyond your control
- understand and agree that as a condition of receiving an Interim payment, you must participate in AgriStability and submit a complete 2026 AgriStability form by the deadline to be entitled to any AgriStability benefits
- understand that any Interim payment of AgriStability program funds will be deducted in the calculation of your final AgriStability program payment
- agree to repay any overpayment amount received as an Interim payment if the amount exceeds your final 2026 AgriStability program payment, and understand that interest will be charged on overpayment
- understand any amount you owe to the Crown will be subtracted from an Interim payment
- understand and agree that the person you identified as your contact person may receive information relating to your form from the Administration and may instruct the Administration to modify the information on your form
- consent to the use and disclosure of the information contained in this form to officials from Agriculture and Agri-Food Canada and the provincial/territorial department responsible for agriculture to administer your application for AgriStability, and for the purposes of audit, analysis and evaluation of the AgriStability program
- consent to the use of any information you submitted to the AgriStability or AgriInsurance (production or crop insurance) agencies to administer this application
- understand and agree that the information you submitted may be combined with information of other participants to determine your Interim payment
- consent to the disclosure of information pertaining to you and your financial affairs to the other participants being combined with your information

The business risk management program applicant acknowledges that individuals who are subject to the provisions of the *Conflict of Interest Act* (S.C. 2006, c. 9, s.2), the Conflict of Interest Code for Members of the House of Commons, the Ethics and Conflict of Interest Code for Senators, the Values and Ethics Code for the Public Sector or any other conflicts of interests or values and ethics codes applicable within provincial or territorial governments or specific organizations, shall not derive any direct benefit resulting from this application unless the provision or receipt of such benefit is permitted in such legislation, policy or codes.

Before you start

Use this guide to complete your 2026 AgriStability Interim payment form.

Review this guide to make sure you fill out your form correctly. Providing correct information on your form helps us to calculate your benefits accurately and prevents processing delays.

Once we receive your completed form, we will send you an Interim Calculation of Program Benefits Notice showing how we calculated your benefit.

This guide gives you general information. For complete program rules, see the AgriStability Program Guidelines at agriculture.canada.ca/agristability.

If you have questions on completing the form, contact us toll-free at 1-866-367-8506.

AgriStability overview

AgriStability is a voluntary program that provides support when you experience larger income losses.

AgriStability is based on margins:

- Program margin - your allowable income minus your allowable expenses adjusted for changes in purchased inputs, receivables, payables and inventory.
- Reference margin – an average of your program margins for the past five years with adjustments made to reflect significant changes to the size or structure of your farm. We drop the highest and lowest years and average the remaining years.

Generally, you will receive an AgriStability payment when your program margin in the current year falls more than 30% below your reference margin. AgriStability covers 80% of your decline that is beyond the 30%.

Your 2026 reference margin will be calculated as follows:

- if you participated in the program in any of the past four years, we will calculate your reference margin using the program margins for the previous five years. The highest and lowest program margins are dropped and the remaining three are averaged. This is called an Olympic average.
- if you did not participate in the program for the past four years, we will calculate your reference margin using an average of the three previous program margins. We will continue to calculate your reference margin using three previous program margins until you have five years of historical information on file.
- if you did not have farming activity in one or more of the five previous years, your reference margin will be calculated using an average of the three previous years. If you did not have farming activity in any of the three previous years, we will create margins for any missing years using industry averages.

Participation overview

Participants include:

- individual producers
- landlords in a crop or livestock share joint venture*
- partners in a partnership
- corporations
- co-operatives
- communal organizations
- estates
- trusts
- limited partnerships**
- Status Indians and Band farms farming on a reserve

*If you farm as a landlord you are eligible only if you are in a joint venture with the tenant and your share of the allowable expenses is reasonable for your share of the allowable income.

**Limited partnerships are eligible to participate as an entity provided the partners have reported farming income (loss) for income tax purposes by the final filing deadline for the program year.

To participate in AgriStability, you must:

- farm in Canada
- complete a minimum of six consecutive months of farming activity and a production cycle, unless you experienced a disaster
- enrol in the program, pay your fee and file a form by the applicable deadlines
- file an income tax return reporting farming income (loss) to the Canada Revenue Agency by the final filing deadline for the program year (except Status Indians farming on a reserve in Canada who are exempt from filing a tax return)*

*If you are a Status Indian farming on a reserve and you are not required to file an income tax return, send us your farming income (loss) information you would have otherwise reported for income tax. We will assume you have a December 31 fiscal year-end.

Generally, you are eligible for AgriStability if you farm in Canada and earn income from producing primary agricultural products such as:

- grains, oilseeds and specialty crops
- horticulture
- livestock

Agricultural products that you produce and process on your farm may also be eligible, for example strawberries made into jam. For complete program rules, see the AgriStability Program Guidelines at agriculture.canada.ca/agristability.

Interim payment overview

The 2026 interim payment is an advance on your final 2026 benefit, based on an estimate of your program year and reference margins. If you receive a 2026 interim payment, you must file the following forms by the final deadline (with penalty) of September 30, 2027, otherwise you will have to repay your interim payment:

- a 2026 final AgriStability form
- a 2026 income tax return reporting farming income (loss) to the Canada Revenue Agency

Because we estimate your margins to calculate your interim payment, it is important that you provide the most accurate information possible. If your estimates are not accurate, your interim payment may be greater than your final payment and you will have to repay the overpayment.

To help prevent overpayments, we generally base interim payments on 50% of the estimated final benefit. We do not issue payments for less than \$250.

Once we process your form, we will send you an Interim Calculation of Program Benefits Notice showing you how we calculated your benefit.

You may adjust the information on your interim payment form by the later of:

- 30 days from the date of your Interim Calculation of Program Benefits Notice or
- March 31, 2027

Since your interim payment is only an estimate of your 2026 final benefit calculation, you cannot appeal this interim calculation. You can only appeal your final benefit calculation.

Steps to participate

Step 1: Enrol in 2026 AgriStability and pay your fee

- If you participated in AgriStability for the 2024 or 2025 program year, we will automatically issue you a 2026 Enrolment Notice and enrol you in the program.
 - If you did not participate in AgriStability for both the 2024 and 2025 program years, you must either complete a 2026 New and rejoining participant information form or submit your interim payment form to us before the April 30, 2026 enrolment deadline to enrol in the program for 2026. If you submit your 2026 interim payment form before enrolling, we will consider this as your intention to enrol in the 2026 AgriStability program. We will issue an Enrolment Notice to you.
- Pay your fee by the deadline shown on your Enrolment Notice.

Step 2: Complete the 2026 AgriStability Interim payment form

- Return your completed form to us by March 31, 2027.

Step 3: File your final 2026 AgriStability form by the deadline

- The initial deadline to file your form without penalty is June 30, 2027.
- The final deadline to file your form with a late filing penalty is September 30, 2027.

Step 4: File an income tax return by the 2026 program deadline

- File a 2026 income tax return reporting farming income (loss) to the Canada Revenue Agency by September 30, 2027.

Important deadlines

April 30, 2026

- deadline to enrol for 2026 AgriStability

March 31, 2027

- deadline to file your 2026 AgriStability Interim payment form

June 30, 2027

- initial deadline to file your 2026 AgriStability form without a late filing penalty

September 30, 2027

- final deadline to file your 2026 AgriStability form with a late filing penalty
- deadline to file your 2026 income tax return reporting farming income (loss) to the Canada Revenue Agency

We will reduce your benefit by \$500 for each month (or part of a month) you submit your form between the initial and final deadline dates.

If your late filing penalty is more than your payment we will reduce your payment to zero. We will not apply the late filing penalty balance to the next program year.

If a deadline falls on a Saturday, Sunday, or public holiday, you have until the next business day to send the information.

Where to send your completed form

Send your completed form:

using My AAFC Account:

Using My AAFC Account is the quickest and most secure way to send us your form.

- upload your form and send it as an attachment using the Messages feature in the online My AAFC Account portal
- sign in or sign up to access your My AAFC Account at: agriculture.canada.ca/my-aafc-account

by mail:

AgriStability
PO Box 3200
Winnipeg MB R3C 5R7

by fax:

toll-free 1-877-949-4885

Completing your form

To participate in AgriStability, we must assign you a participant identification number (PIN). The PIN uniquely identifies your farm operation and protects the privacy of your information.

If you previously participated in AgriStability or AgriInvest, you have a PIN. If not, we will assign one to you. Keep the number handy as you will need it for future contact and participation.

- Report actual amounts if you have completed your 2026 fiscal period. If not, report estimated amounts on your interim form.

Operation number (#)

If you have more than one farming operation:

- complete a form for each operation
- number each operation
- send all forms together

If you have participated in AgriStability before, number the operations in the same order as the last time you applied.

Participant identification

Name and participant identification number (PIN)

Enter your first and last name, or business name (if applicable) and PIN. You have a PIN if you are an AgriStability or AgriInvest participant.

If you are a new participant without a PIN, see 1a.

1a) New participant

If your answer is “Yes”, complete Schedule 1 – Additional Information (sections a, b, and c) and Schedule 2 – Worksheet for 2025 Reference Margin.

1b) Change in information

If your answer is “Yes” to any of the questions in this section, complete the related sections on Schedule 1 – Additional Information to update your information.

Other information

2a) Production cycle

Indicate if you completed a production cycle on at least one of the commodities you produce.

If your answer is “No”, tick if you were unable to complete a production cycle on at least half of your farm’s total production because of disaster circumstances such as:

- flooding
- disease
- drought

You must complete a production cycle to be eligible for AgriStability. If you could not complete a production cycle because of disaster circumstances, we may waive this condition.

A production cycle includes at least one of the following:

- growing and harvesting a crop
- the process of rearing livestock
- buying and selling livestock for feeding and finishing

2b) Federal public office holder or employee of Agriculture and Agri-Food Canada (AAFC)

If you or anyone involved in completing this form is a current or former federal public office holder or employee of AAFC, answer “Yes” to this question.

Answer “Yes” if at least one of the shareholders, members, or partners of your farming arrangement is a current or former federal public office holder or employee of AAFC.

2c) AgrilInsurance (crop or production insurance)

Tick if you produced commodities that are insurable under AgrilInsurance (crop or production insurance), even if you did not insure them.

If your answer is “Yes”, indicate if more than half of your insurable crop acres are insured at 70% or higher.

If you insured more than half of your insurable crop acres at 70% or higher, you may be eligible for a benefit if you have a negative margin. A negative margin occurs when your allowable expenses are greater than your allowable income for the current program year.

2d) 2025 AgriStability application

Tick if you have completed a 2025 AgriStability form.

If your answer is “No”, complete Schedule 2 – Worksheet for 2025 Reference Margin. We need this information to calculate your interim payment.

The Schedule 2 worksheet does not replace your final 2025 AgriStability form. If you enrolled for the 2025 program year, send your final 2025 AgriStability form by the program deadline.

Farming operation**3a) Fiscal period**

Enter the year, month and day for the beginning and end of your farm’s taxation year. Your farm’s 2026 fiscal period must end in the 2026 tax year.

3b) Combined operations

AgriStability is a whole farm program. That means we may combine your farm with another farm even if that operation reports separately for income tax.

Combining ensures that AgriStability benefits are paid to farms that have decreases in income for reasons beyond their control, not because of business or tax planning decisions.

Generally, you should tick “Yes” to this question if:

- your farm is legally, financially, or operationally dependent on another farming operation
- all or some of the transactions between the farms are not at fair market value and not clearly defined, or
- the farms share the same land or equipment

Individuals in a partnership do not need to be combined.

If your answer is “Yes” to this question, provide the farm’s PIN. If there are more than three farms, attach a sheet listing the other PINs. We cannot process your form until we receive information from all the farms that are being combined.

3c) Partners

Each partner in a partnership must report 100% of the partnership's income, expenses and production. We calculate the benefits for each partner based on their share of the partnership. Enter your percentage share of the partnership.

Enter the PIN, name or corporation name and percentage share for each partner involved in the partnership. If there are more than four partners, attach a sheet listing the information for the other partners.

Program year farming activity

This section helps us estimate your 2026 income and expenses. Report actual or estimated amounts for your 2026 fiscal period on your interim form.

4a) Program year payments

Enter the total payments you received or expect to receive for the loss of your production of allowable commodities for:

- AgrilInsurance (crop or production insurance)
- other program payments
 - for a list of program payments, see the Program payment list on page 18
 - for programs not listed, attach a note to your form showing the program name and total expected payment amount. If you do not know the exact amount of the payment, provide an estimate.

If you receive a program payment after you receive an interim payment, we will include this amount in income when we process your final 2026 form.

4b) Allowable expenses

This section shows if you have or expect to have a significant increase or decrease in your expenses. The expense categories listed are those that commonly vary from year to year.

If you do not expect to have a significant increase or decrease for each category, tick the "No Significant Change" box. We will estimate the expense based on the information you provided in prior years.

If you expect to have a significant increase or decrease for any of the expenses listed, enter:

- the total amount of the expected expense (not just the increase or decrease) or
- "0" if you have a significant decrease which brings an expense to zero

Enter only the expenses related to your 2026 production. Do not include amounts paid in 2026 for prior year expenses.

Example

You have a December 31 year-end. You apply \$45,000 worth of fertilizer in the spring of 2025 but do not pay for it until 2026. As this expense relates to your 2025 production, do not report it on your 2026 interim form.

4c) Productive capacity decrease due to disaster circumstances

Indicate if you had a decrease in your productive capacity of crops or livestock because of a disaster. A decrease in productive capacity means a decrease in the total amount that you can produce on your farm.

4d) Crop production

The information you provide in this section is used to estimate your crop income and productive capacity.

Code and crop description

Use the Interim code list on page 20 to report all crops by code and description that you harvested or expect to harvest in your fiscal period. If your crop is not listed, leave the code blank and provide a detailed crop description.

Grain production

Report each grade or variety of crop separately. For example, report CWRS No. 1 wheat separately from CWRS No. 2 wheat.

Organic production

Report your crop as “organic” only if it is Certified Organic. We may ask for your organic certification.

Acres

Report the number of acres of crops that you harvested or expect to harvest.

If you grow a multi-stage crop, see the multi-stage crop section for more information on how to report the acres. For commodities not measured by acres, use the standard unit of measurement for that commodity.

Example

Greenhouses and nursery operations (including floriculture) report in square metres.

Maple syrup operations report in hundreds of taps producing. If you have 350 taps producing, report 3.5 (350/100).

Crop share

If you are a tenant in a crop share, or a landlord in a joint venture crop share, report your share of the acres and estimated production.

Example

You rent 300 acres in a crop share agreement. You receive 2/3 of the crop and pay 2/3 of the allowable expenses. Your landlord receives the remaining 1/3 of the crop and pays 1/3 of the allowable expenses. The rented land produced 300 tonnes of wheat. You report your 2/3 share of both the acreage and the production:

- 200 acres
- 200 tonnes of wheat

Your landlord reports his 1/3 share of both the acreage and the production:

- 100 acres
- 100 tonnes of wheat

Unharvestable acres

If you grew a commodity and expected to harvest it in your fiscal period, but could not for reasons beyond your control, report the commodity, acres and enter ‘zero’ as the production (tonnes) estimate.

Multi-stage crops

Multi-stage crops are commodities that take longer than one year to reach full production. Because multi-stage crops are grown over several years, there are different inventory codes to reflect the stage of production.

Report all the acres of your crop based on their stage of growth, even if you did not harvest the crop in your fiscal period. Use the Interim code list on page 20 to report the stage of production for your commodity.

Multi-stage crops include:

- highbush blueberries
- grapes
- sod
- echinacea
- ginseng
- Christmas trees

In New Brunswick and Nova Scotia, multi-stage crops also include:

- low bush blueberries
- cranberries

Highbush blueberries and grapes

Start reporting your acres in the year you plant.

Lowbush blueberries

Start reporting your acres once you have cleared the land and started nurturing the plants. When you start producing blueberries, report your acres based on their stage of growth. Continue reporting your acres in the years you burn/mow/sprout.

Sod

Report your estimated sod acres (seeded, growing, and harvested) based on their expected stage of growth at the end of your fiscal period.

Example 1

You seeded 150 acres at the end of 2026 and will harvest them in 2027. Report 150 acres using code 6941, Sod, acres seeded. Your estimated production is zero.

Example 2

You seeded 150 acres in 2025 but will not harvest those acres until 2027. Report 150 acres using code 6943, Sod, acres growing. Your estimated production is zero.

If you harvested and then re-seeded the same sod acres in your 2026 fiscal period, report the acres twice.

Example

If you harvested and then reseeded 150 acres, report 150 acres using code 6945, Sod, acres harvested and 150 acres using code 6941, Sod, acres seeded. Report your estimated production for the harvested acres. Report zero production for the seeded acres.

Echinacea and ginseng

Report acres in the establishment stage until the year of harvest. If you expect to harvest the acres, report them as root harvested.

Cranberries

Report acres in the establishment stage until production starts. This stage can last up to three years.

Christmas trees

There are two types of Christmas tree operations:

- tree farms
- managed natural tree stand

Tree farms plant their seedlings in a greenhouse, garden or tree farm, and maintain them until harvested.

Report your total acres of trees based on their stage of growth at the end of your fiscal period.

To report your trees, use:

- nursery codes for the seedlings you grow in your greenhouse or garden prior to transplanting to your tree farm
- code 6960 for the seedlings or trees you planted on your tree farm the first year (establishment stage)
- code 6961, 6962, 6963, and 6964 to report your seedlings or trees based on their stage of growth

Report your expected production amount based on the number of trees you intend to harvest and sell.

Managed natural tree stand operations select trees from an existing forest and actively maintain them until harvest.

Report the acres of trees that you intend to actively maintain as either pre-harvested (in the ground) or harvested (removed from the ground). Base the number of acres you report on 1,000 trees per acre.

Example

If you expect to have 9,500 pre-harvested trees at the end of your fiscal year, report 9.5 acres (9,500/1,000).

For pre-harvested acres, report zero for expected production.

For harvested acres, report your expected production amount based on the number of trees harvested and intended for sale.

Summerfallow, pasture and wasteland

Report your expected summerfallow, pasture or wasteland acres on the designated lines.

Unseedable acres

Report all acres that you planned to seed but could not because your land was too wet or dry to seed.

Example

At the beginning of the year you intended to grow canola on 300 acres. However, you only seeded 200 acres because of flooding. In your crop production for canola, report 200 for the number of acres and 100 as unseedable acres.

Production (tonnes expected)

Report the quantity of crop you expect to produce in tonnes. For commodities not measured by tonnes, use the standard unit of measurement. For example, report maple syrup in litres.

Snowed-under crops

If you could not harvest some or all of your crop at the end of your fiscal period because it was snowed under, report:

- the total acres for the crop using the inventory code for that crop
- the estimated production that you may be able to harvest next year

Standing crops

If your farm always has a standing crop at the end of your fiscal period (for example: July 31), do not report the standing crop.

If your farm has an unexpected standing crop because you could not harvest it before the end of your fiscal period, include the expected standing crop in production (tonnes).

Production intended for sale (tonnes)

Report the quantity of crop you intend to sell (in tonnes). Do not include production that you intend to use on-farm for feed or seed.

If you report a multi-stage crop and the crop is not ready to harvest in the fiscal period, report zero.

Price per tonne (\$)

Use the Interim code list on page 20 to find pricing for your commodity. There are two categories of pricing.

For codes marked with an “X”, we have developed interim prices to value these commodities. You can provide your own price only if:

- your method of marketing the commodity was very different from the general marketing practice or
- the commodity is very different from the commodity listed

If you provide your own price, send copies of your receipts or documents to support the price.

For codes not marked with an “X”, enter your own price in the space provided.

In both cases, we will decide if these prices are reasonable for your farm.

4e) Livestock production

The information you provide in this section is used to estimate your livestock income and productive capacity. Report actual or estimated amounts for your 2026 fiscal period on your interim form.

Do not report an animal more than once on the form.

Before you complete this section, you will need to know how to calculate animal feed days.

Animal feed days

Animal feed days are based on the (number of expected animals) x (number of expected days each animal will be fed). Report the total number of feed days for the fiscal period; not the number of feed days per animal.

Example	
100	expected animals fed
x 90	expected days
9,000	feed days

Livestock lease agreements

If you lease animals but do not take 100% of the revenue from the animal, report only your share of the agreement.

Example

If you lease 100 cows but take only 60% of the calf crop, report only 60 cows (60% of 100) using code 8004. Next, report 60 calves under # of calves born.

For further instructions, see the livestock categories listed below.

Code

Most livestock codes and categories are pre-printed on the form. See Other production on page 16 for instructions to report any livestock commodities not listed.

Productive animals:

Cow/Calf (code 8004)

Do not report cows from your dairy operation in this section. See Other production on page 16 for more information.

Number (#) of cows that calved

Report the number of cows that calved or you expect to calf.

Number (#) of calves born

Report the number of calves that were born or you expect to be born. Do not include calves that died or were held over from your previous fiscal period.

Number (#) of calf feed days

Calf feed days begin after weaning and end with the earlier of:

- the sale of the animal or the estimated time of sale or
- the end of your fiscal period

Report the number of calf feed days for calves born or you expect to be born that were weaned and fed. See the instructions on page 12 on how to calculate animal feed days.

Enter zero if you do not have or expect to have any calf feed days.

Average wean weight

Report the average wean weight of your calves in pounds.

Hog production (codes 8751 and 8760):

Number (#) of sows that farrowed (codes 8751 and 8760)

Report the number of sows that birthed or you expect to birth.

Calculate the average number of sows that birthed or you expect to birth by dividing the births by your average birthrate per sow for the fiscal period.

Example

10,000	births
÷ 23	average birthrate per sow
435	average number sows that birthed

Number (#) of animals born (codes 8751 and 8760)

Report the total number of piglets born or you expect to be born. Do not include piglets that died. Report a birth only once in either of these two categories depending on your type of operation (either farrowing or farrow to finish).

Average wean weight (code 8751)

Report the average wean weight of the piglets for “Hogs, Farrowing”.

Feeder livestock:

Feeder cattle (codes 8066 and 8068)

The feeder categories include animals born on the farm that were held over from the previous fiscal period and animals purchased in your current fiscal period.

Number (#) of animals fed (codes 8066 and 8068)

Report the number of animals you fed or expect to feed that had an appreciable gain in your fiscal period (a 90 kg/200 lbs weight gain or a minimum of 60 days on feed).

Report the number of feeders held over from the previous fiscal period or purchased during your current fiscal period that you sold as feeders or you expect to sell as feeders.

Group the animals that you sold or expect to sell based on their sale or estimated sale weight.

Example

If you fed and sold 50 feeder cattle (up to 900 lbs) in the first 7 months of the year, and fed or expect to feed another 50 feeder cattle (up to 900 lbs) for the last 5 months, record 100 animals fed as feeder cattle (up to 900 lbs), use code 8066.

Do not include breeding animals, culls, animals that have not been weaned or animals born in your fiscal period.

Number (#) of animal feed days (Codes 8066 and 8068)

Report the number of animal feed days you have or expect to have during your fiscal period. See the instructions on page 12 for how to calculate animal feed days.

For purchased cattle, animal feed days begin the later of:

- the day you bought the animal or
- the start of your fiscal period

For animals born on-farm in the previous fiscal period, animal feed days begin the later of:

- the weaning date of the animal or
- the start of your fiscal period

For both purchased cattle and animals born on-farm, animal feed days end the earlier of:

- the sale of the animal or the estimated time of sale or
- the end of your fiscal period

Do not include calves born in your fiscal period or calves held over from the previous year that you sold or expect to sell as calves, breeding animals, or culls.

Enter zero if you do not have or expect to have any animal feed days.

Feeder hogs (codes 8762 and 8761)

Report purchased hogs in this category. Do not include breeding animals, culls, weaned animals born in your fiscal period and births reported under the farrowing and/or farrow to finish categories

Number (#) of animals fed (codes 8762 and 8761)

Report the number of animals you fed or you expect to feed during your fiscal period.

Group the animals you sold or expect to sell based on the sale weight in your fiscal period.

Example

If you fed and sold 50 feeder hogs (over 50 lbs) in the first 7 months of the year and fed or expect to feed another 50 feeder hogs (over 50 lbs) for the last 5 months, record 100 animals fed as Hogs, Feeders (fed over 50 lbs), use code 8761.

Do not include breeding animals, culls, animals that have not been weaned, animals born in your fiscal period or animals previously reported in a farrow to finish operation.

Number (#) of animal feed days (codes 8762 and 8761)

Report the number of animal feed days you have or expect to have during your fiscal period. For Hogs, nursery (up to 50 lbs), use code 8762 and for Hogs, feeders (over 50 lbs), use code 8761. See the instructions on page 12 for how to calculate animal feed days.

For purchased hogs, animal feed days begin the later of:

- the day you bought the animal or
- the start of your fiscal period

For animals born on-farm in the previous year, animal feed days begin the later of:

- the weaning date of the animal or
- the start of your fiscal period

For both purchased hogs and hogs born on-farm, animal feed days end the earlier of:

- the sale of the animal or the estimated time of sale or
- the end of your fiscal period

Do not include farrow to finish operations, farrowing operations, breeding animals and culls in the number of animal feed days.

Enter zero if you do not have or expect to have any animal feed days.

Custom fed livestock:

Cattle (code 8133) and hogs (code 8749) number (#) of animal feed days

Report the number of animal feed days you have or expect to have during your fiscal period for custom fed animals. See the instructions on page 12 for how to calculate animal feed days.

Enter zero if you do not have or expect to have any animal feed days.

Supply managed commodities:

Egg production (codes 7663 and 7664) number (#) of producing hens

Report the number of producing hens or the number expected to produce.

Dozens of eggs produced

Report the dozens of eggs produced or expected to produce.

Estimated price (\$)

Enter your estimated price “per unit” for your production. We will decide whether the price is reasonable for your farm.

Poultry (codes 7650 and 7862) number (#) of kilograms of quota

Report the number of kilograms of quota you have or expected to have.

Number (#) of kilograms produced

Report the number of kilograms you produced or expected to produce.

Estimated price (\$)

Enter your estimated price “per kg” or “per unit” for your production. We will decide whether the price is reasonable for your farm.

Other production:

Refer to the Productive capacity list on page 41 to find the codes and units required to report “other” commodities that are not specified on the “Livestock production” section of the form.

If your commodity is not listed, leave the code blank.

List other estimated livestock production in as much detail as possible. For example, list “lambs born” or “wool produced” rather than just “sheep”.

If you produce purebred livestock, indicate “purebred” in the description line to ensure we assign the correct value to your production.

For commodities not measured by number of head, report your yield based on the standard unit of measurement for the commodity. For example, report PMU production on a per contracted gram basis. Be sure to indicate the type of unit.

Use the Interim code list on page 20 to find pricing for your commodity. There are two categories of pricing.

For codes marked with an “X”, we have developed interim prices to value these commodities. You can provide your own price only if:

- your method of marketing the commodity was very different from the general marketing practice or
- the commodity is very different from the commodity listed

If you provide your own price, send copies of your receipts or documents to support the price.

For codes not marked with an “X”, enter your own price in the space provided.

In both cases, we will decide whether these prices are reasonable for your farm.

Schedule 1 - Additional information

Complete Schedule 1 only if:

- you answered “Yes” to section 1a) on page 1 of the interim form
- you answered “Yes” to any question in section 1b) on page 1 of the interim form

a) Participant identification

Enter your first and last name, or your business name (if applicable), address, email address, daytime phone number and fax.

If you are an individual producer, provide your social insurance number (SIN). Your SIN is collected and used only when issuing a taxable benefit, under the authority of Sections 10 and 11 of the *Farm Income Protection Act*.

Provide your 9 digit business tax number if you have been assigned one. Corporations must also provide the RC reference number. If the operation is a trust or communal organization, provide the trust taxation number.

If you are a Status Indian, provide your social insurance number or business number.

b) Contact person

Complete this area if you grant permission to someone else (such as your spouse, common-law partner, or accountant) to provide or ask for more information about your form. We will call your contact person if we have a question. We will send correspondence to both you and your contact person.

Enter the first and last name of your contact person, their business name (if applicable), address, daytime phone number and fax.

You must provide your contact person's information each time you send a form. This information will not be carried forward from last year. If you leave this area blank, we will contact you directly if we have a question.

c) Business structure

Enter your fiscal period.

If you are a Status Indian farming on a reserve and you are not required to file a tax return, we will assume you have a December 31 fiscal year-end.

Main farmstead location

Enter the province/territory where all or the majority of your gross farming income was earned over the previous five years.

See the "Regional code list" on page 43 for a list of rural municipalities, counties and districts.

Leave these fields blank if you farm in Newfoundland and Labrador or the Northwest Territories.

Farm type

Select all that apply.

If you are a Status Indian farming on a reserve or a Status Indian Band farm, provide your Band number.

d) Change to business structure

If your business structure has changed since the last time you participated in the AgriStability program, complete this section.

Schedule 2 - Worksheet for 2025 reference margin

Complete Schedule 2 only if:

- you answered "Yes" to section 1a) on page 1 of the interim form
- you answered "No" to section 2d) on page 1 of the interim form

Use the most recent AgriStability and AgriInvest Harmonized Guide to complete this worksheet. For a copy of the guide, visit agriculture.canada.ca/agristability.

If you need assistance, call us toll-free at 1-866-367-8506.

Program payment list

Report amounts for any program payments listed below that you have received or expect to receive in your 2026 fiscal year:

- as Other program payments in section 4a) of the interim form
- include amounts for any AgriRecovery payments not listed below that are allowable income for AgriStability

Program payment
AgriRecovery bee assistance payments (allowable portion)
AgriRecovery drought assistance payments (allowable portion)
AgriRecovery feed assistance payments (allowable portion)
AgriRecovery flood assistance payments (allowable portion)
Canadian Food Inspection Agency (CFIA) payment for allowable commodities
Canadian Food Inspection Agency (CFIA) payment for other amounts
Canadian Food Inspection Agency (CFIA) payment for supply managed commodities
COVID-19 – AgriRecovery livestock set aside programs
COVID-19 – Other assistance payments (allowable portion)
COVID-19 – Temporary foreign worker subsidy payments
COVID-19 – Wage subsidy payments for arm's length salaries
Crop cover protection program
Cull breeding swine program (all provinces)
Dairy direct payment program (DDPP)
Livestock feed insurance program
On farm climate action fund (allowable portion)
Other AgriRecovery program (allowable portion)
Polar vortex industry recovery program (allowable portion)
Post tropical storm Dorian response program
Prairie watershed climate program (PWCP) (allowable portion)
Private insurance proceeds for the replacement of allowable commodities
Private insurance proceeds for the replacement of allowable expense items
Resilient agricultural landscapes program (RALP) (allowable portion)
Waterfowl/wildlife damage compensation – Grains, oilseeds, and special crops
Waterfowl/wildlife damage compensation – Horticulture
Waterfowl/wildlife damage compensation – Other commodities
Alberta
2021 Canada – Alberta hog recovery initiative
2021 Canada – Alberta livestock feed assistance initiative (allowable portion)
British Columbia
2021 Canada – British Columbia flood recovery program for food security
2021 Canada – British Columbia wildfire and drought recovery initiative (allowable portion)

Program payment
Manitoba
2021 Canada – Manitoba herd management drought assistance program
2023 Canada – Manitoba bee mortality assistance program
Canada – Manitoba livestock feed and transportation drought assistance
Canada – Manitoba livestock transportation drought assistance
New Brunswick
New Brunswick lime transportation assistance program
New Brunswick livestock genetic enhancement initiative
Newfoundland and Labrador
Newfoundland and Labrador livestock insurance program
Nova Scotia
2016 Canada – Nova Scotia fire blight initiative
2018 Nova Scotia frost loss program
Nova Scotia apiculture sustainability growth and health program
Nova Scotia genetic improvement program
Nova Scotia season response program
Ontario
2021 Canada – Ontario dry weather AgriRecovery initiative
Canada – Ontario grapevine winter injury initiative (2021-2022)
Canada – Ontario overwinter bee colony loss replacement initiative (2021-2022)
Ontario special beekeepers fund
Prince Edward Island
2018 Canada – PEI fall harvest recovery initiative
2020 PEI potato seed recovery program
2022 Canada – PEI surplus potato management response plan
Fiona agriculture support program (PEI)
Saskatchewan
2016 Canada – Saskatchewan bovine tuberculosis assistance initiative
Saskatchewan cattle and hog support program

Interim code list

Shaded areas show which codes can be used by province to report your production.

For codes marked with an “X” in your province: We have developed interim prices to value these commodities. You can provide your own price only if your method of marketing the commodity was very different from the general marketing practice or the commodity is very different from the commodity listed.

If you provide your own price, send copies of your receipts or documents to support your price.

For codes not marked with an “X” in your province: Enter your own price.

Crops

Apples

Code	Description	MB	NL	NB	NS	NT	YT
5030	Apples						
5031	Apples, organic						

Barley

Code	Description	MB	NL	NB	NS	NT	YT
5100	Barley			X	X		
5233	Barley, CW select six-row						
5238	Barley, CW select two-row						
5101	Barley, feed (>=48 lbs./bu.)	X					
5102	Barley, feed (42 lbs./bu. to 47 lbs./bu.)	X					
5195	Barley, feed (off board)						
5200	Barley, organic						
5205	Barley, organic six-row						
5206	Barley, organic six-row, pedigreed						
5210	Barley, organic two-row						
5211	Barley, organic two-row, pedigreed						
5204	Barley, organic, feed						
5215	Barley, pedigreed seed						
5220	Barley, pedigreed seed six-row						
5225	Barley, pedigreed seed two-row						

Berries

Code	Description	MB	NL	NB	NS	NT	YT
5000	Blackberries						
5060	Blueberries, highbush (non-bearing year)						
5059	Blueberries, Highbush (planting year)						
5061	Blueberries, Highbush (years 1 to 2 of production)						
5062	Blueberries, Highbush (years 3 to 6 of production)						

Berries

Code	Description	MB	NL	NB	NS	NT	YT
5063	Blueberries, Highbush (years 7 to 9 of production)						
5064	Blueberries, Highbush (years 10+ of production)						
5004	Blueberries, lowbush						
5099	Blueberries, low bush (burn/mow/sprout)						
5095	Blueberries, lowbush (establishment stage)						
5098	Blueberries, lowbush (mature/full production)						
5096	Blueberries, lowbush (primary production-1st and 2nd harvest crop)						
5097	Blueberries, lowbush (secondary production-3rd and 4th harvest crop)						
5006	Cranberries						
4990	Cranberries (establishment stage)						
4991	Cranberries, 1st year of production						
4992	Cranberries, 2nd year of production						
4993	Cranberries, 3rd year of production						
4994	Cranberries, 4+ years of production						
5007	Currants, black						
5009	Currants, red						
5010	Elderberries						
5012	Gooseberries						
5016	Loganberries						
5018	Raspberries						
5020	Saskatoon berries						
5022	Sea buckthorn, berries						
5024	Strawberries						

Buckwheat

Code	Description	MB	NL	NB	NS	NT	YT
5240	Buckwheat, no. 1						
5242	Buckwheat, no. 2						
5244	Buckwheat, no. 3						
5246	Buckwheat, organic						
5248	Buckwheat, pedigreed seed						

Canary seed

Code	Description	MB	NL	NB	NS	NT	YT
5250	Canary seed	X					
5252	Canary seed, organic						
5254	Canary seed, pedigreed seed						

Canola

Code	Description	MB	NL	NB	NS	NT	YT
5260	Canola, Argentine						
5262	Canola, Argentine, no. 1	X					
5264	Canola, Argentine, no. 2	X					
5266	Canola, Argentine, no. 3						
5268	Canola, Argentine, organic						
5270	Canola, Argentine, pedigreed seed						
5272	Canola, Argentine, sample						
5274	Canola, Polish						
5276	Canola, Polish, no. 1	X					
5278	Canola, Polish, no. 2	X					
5280	Canola, Polish, no. 3						
5282	Canola, Polish, organic						
5284	Canola, Polish, pedigreed seed						
5286	Canola, Polish, sample						
5259	Rapeseed, high erucic acid						

Caraway seed

Code	Description	MB	NL	NB	NS	NT	YT
5290	Caraway seed						
5292	Caraway seed, organic						
5294	Caraway seed, pedigreed seed						

Chickpeas

Code	Description	MB	NL	NB	NS	NT	YT
5300	Chickpeas, desi, no. 1	X					
5302	Chickpeas, desi, no. 2	X					
5303	Chickpeas, desi, no. 3						
5304	Chickpeas, desi, organic						
5306	Chickpeas, desi, pedigreed seed						
5330	Chickpeas, feed						
5310	Chickpeas, large kabuli (average), no. 1	X					
5312	Chickpeas, large kabuli (average), no. 2	X					
5314	Chickpeas, large kabuli (average), no. 3						
5316	Chickpeas, large kabuli, organic						
5318	Chickpeas, large kabuli, pedigreed seed						
5322	Chickpeas, small kabuli, no. 1	X					
5324	Chickpeas, small kabuli, no. 2	X					
5325	Chickpeas, small kabuli, no. 3						
5326	Chickpeas, small kabuli, organic						
5328	Chickpeas, small kabuli, pedigreed seed						

Corn

Code	Description	MB	NL	NB	NS	NT	YT
5340	Corn, grain	X		X	X		
5342	Corn, grain, organic						
5344	Corn, grain, pedigreed seed						

Dry beans

Code	Description	MB	NL	NB	NS	NT	YT
5368	Beans, black						
5370	Beans, black, no. 1

8063	Cattle, semen						
8004	Cow/calf	X					
8208	Dairy calves						
8066	Feeder cattle (fed up to 900 lbs)	X					
8268	Feeder dairy cattle (fed up to 900 lbs)						
8068	Finished cattle (fed over 900 lbs)	X					
8270	Finished dairy cattle (fed over 900 lbs)						
8074	Purebred cow/calf						

Cattle

Code	Description	MB	NL	NB	NS	NT	YT
8276	Purebred dairy calves						
8130	Purebred feeder cattle (fed up to 900 lbs)						
8132	Purebred finished cattle (fed over 900 lbs)						

Commercial game animals

Code	Description	MB	NL	NB	NS	NT	YT
7510	Alpaca						
7518	Alpaca, fibre						
7560	Llama						
7568	Llama, fibre						
8435	Red deer						
8425	Red deer, bulls producing velvet						
8431	Red deer, semen						
8506	Reindeer						
8860	Wild boar						
8856	Wild boar, finishers						

Dairy

Code	Description	MB	NL	NB	NS	NT	YT
8200	Dairy quota, butterfat						

Deer

Code	Description	MB	NL	NB	NS	NT	YT
8414	Deer						
8415	Deer, feeders						
8419	Deer, semen						

Elk

Code	Description	MB	NL	NB	NS	NT	YT
8458	Elk						
8463	Elk, custom fed						
8473	Elk, feeders						
8469	Elk, semen						
8472	Elk, velvet produced						

Goats

Code	Description	MB	NL	NB	NS	NT	YT
8914	Goats						
8915	Goats, custom fed						
8910	Goats, feeder						
8924	Purebred goats						

Horses

Code	Description	MB	NL	NB	NS	NT	YT
8564	Horse						
8465	Horses, feeders						
8561	Horse, semen						
8572	Pregnant mare urine produced (PMU)						
8580	Purebred horse						

Poultry

Code	Description	MB	NL	NB	NS	NT	YT
7650	Chickens, broilers						
7664	Chickens, eggs for consumption						
7663	Chickens, eggs for hatching						
7653	Custom fed chicken pullets						
7710	Ducks						
7702	Ducks, broilers						
7766	Geese						
7752	Geese, broilers						
7799	Partridge						
7793	Partridge, broilers						
7803	Pheasant, ring neck						
7811	Pheasant, ring neck, broilers						
7807	Pheasant, white						
7813	Pheasant, white, broilers						
7894	Quail						
7888	Quail, broilers						
7824	Squab						
7866	Turkey						
7862	Turkeys, broilers						

Ranch furs

Code	Description	MB	NL	NB	NS	NT	YT
8610	Chinchillas						
8639	Fox						
8664	Mink						
8689	Rabbits						

Ratites

Code	Description	MB	NL	NB	NS	NT	YT
7731	Emu						
7779	Ostrich						
7829	Rheas						

Sheep

Code	Description	MB	NL	NB	NS	NT	YT
8974	Purebred sheep						
8964	Sheep						
8965	Sheep, custom fed						
8925	Sheep, feeders						
8978	Wool						

Swine

Code	Description	MB	NL	NB	NS	NT	YT
8749	Hogs, custom fed	X					
8760	Hogs, farrow to finish	X					
8763	Hogs, farrowing	X					
8761	Hogs, feeders (fed over 50 lbs)	X					
8762	Hogs, nursery (fed up to 50 lbs)	X					
8771	Hogs, semen						

Productive capacity list

Use this list to identify codes and the units to report your production and/or productive capacity for “other” commodities not listed in section 4e) of the form.

Code	Description	Production	Productive capacity
7510	Alpaca	Number of animals born	Number of females that have birthed
7518	Alpaca, fibre	Number of lbs produced	Nothing to report
7602	Beeswax	Number of lbs produced	Nothing to report
7906	Bison	Number of animals born	Number of females that have birthed
7935	Bison, custom fed	Number of animal feed days	Number of animal feed days
8063	Cattle, semen	Number of straws sold	Number of straws sold
7658	Chicken, pullets	Number of animals fed	Number of animals fed
8610	Chinchillas	Number of animals born	Number of females that have birthed
7653	Custom fed chicken pullets	Number of animals fed	Number of animals fed
8208	Dairy calves	Number of calves born	Nothing to report
8200	Dairy quota, butterfat	Number of kgs produced	Number of kgs of butterfat/day
8264	Dairy quota, milk	Number of hectoliters produced	Number of hectoliters of milk
8414	Deer	Number of animals born	Number of females that have birthed
8415	Deer, feeders	Number of animal feed days	Number of animals fed
8419	Deer, semen	Number of straws sold	Number of straws sold
7710	Ducks	Number hatched	Number of producing hens
7702	Ducks, broilers	Number sold	Number sold
8458	Elk	Number of animals born	Number of females that have birthed
8463	Elk, custom fed	Number of animal feed days	Number of animal feed days
8473	Elk, feeders	Number of animal feed days	Number of animals fed
8469	Elk, semen	Number of straws sold	Number of straws sold
8472	Elk, velvet produced	Number of lbs produced	Number of bulls producing
7731	Emu	Number animals born	Number of females that have birthed
7934	Feeder bison (fed over 700 lbs)	Number of animal feed days	Number of animals fed
7932	Feeder bison (fed up to 700 lbs)	Number of animal feed days	Number of animals fed
8268	Feeder dairy cattle (fed up to 900 lbs)	Number of animal feed days	Number of animals fed
8270	Finished dairy cattle (fed over 900 lbs)	Number of animal feed days	Number of animals fed
8639	Fox	Number of animals born	Number of females that have birthed
7766	Geese	Number hatched	Number of producing hens
7752	Geese, broilers	Number sold	Number sold
8914	Goats	Number of animals born	Number of females that have birthed
8915	Goats, custom fed	Number of animal feed days	Number of animal feed days
8910	Goats, feeder	Number of animal feed days	Number of animals fed
8771	Hogs, Semen	Number of straws sold	Number of straws sold
7614	Honey bees	Number of lbs of honey produced	Number of hives producing
8564	Horse	Number of animals born	Number of females that have birthed
8561	Horse, semen	Number of straws sold	Number of straws sold
8465	Horses, feeders	Number of animal feed days	Number of animals fed
7618	Leaf cutter bees	Number of gallons of bees pollinating	Number of gallons of bees pollinating
7560	Llama	Number of animals born	Number of females that have birthed

Code	Description	Production	Productive capacity
7568	Llama, fibre	Number of lbs produced	Nothing to report
8664	Mink	Number of animals born	Number of females that have birthed
7779	Ostrich	Number of animals born	Number of females that have birthed
7799	Partridge	Number hatched	Number of producing hens
7793	Partridge, broilers	Number sold	Number sold
7803	Pheasant, ring neck	Number hatched	Number of producing hens
7811	Pheasant, ring neck, broilers	Number sold	Number sold
7807	Pheasant, white	Number hatched	Number of producing hens
7813	Pheasant, white, broilers	Number sold	Number sold
8572	Pregnant mare urine produced (PMU)	Number of grams produced	Number of grams contracted
8074	Purebred cow/calf	Number of calves born	Nothing to report
8276	Purebred dairy calves	Number of calves born	Nothing to report
8130	Purebred feeder cattle (fed up to 900 lbs)	Number of animal feed days	Nothing to report
8132	Purebred finished cattle (fed over 900 lbs)	Number of animal feed days	Nothing to report
8924	Purebred goats	Number of animals born	Nothing to report
8580	Purebred horse	Number of animals born	Nothing to report
8974	Purebred sheep	Number of animals born	Nothing to report
7894	Quail	Number hatched	Number of producing hens
7888	Quail, broilers	Number sold	Number sold
8689	Rabbits	Number of animals born	Number of females that have birthed
8435	Red deer	Number of animals born	Number of females that have birthed
8425	Red deer, bulls producing velvet	Number of lbs produced	Number of bulls producing
8431	Red deer, semen	Number of straws sold	Number of straws sold
8506	Reindeer	Number of animals born	Number of females that have birthed
7829	Rheas	Number hatched	Number of producing hens
8964	Sheep	Number of animals born	Number of females that have birthed
8965	Sheep, custom fed	Number of animal feed days	Number of animal feed days
8925	Sheep, feeders	Number of animal feed days	Number of animals fed
7824	Squab	Number hatched	Number of producing hens
7866	Turkey	Number hatched	Number of producing hens
8860	Wild boar	Number of animals born	Number of females that have birthed
8856	Wild boar, finishers	Number of animal feed days	Number of animals fed
8978	Wool	Number of kgs produced	Nothing to report
