Import Class 375-39

SECTION I

SCOPE OF ANALYSIS

This report by Import Analysis Directorate (IAD), Industry, Trade & Commerce is based on a detailed analysis of imports of nylon broad woven fabrics during the period January to December 1980. These fabrics are included in Statistics Canada Import Class 375-39 "Nylon broad woven fabrics".

Nylon broad woven fabrics are presently being produced in Canada. However Statistics Canada does not provide separate data on Canadian production or shipments.

SECTION II

RECONCILIATION

In this report, only shipments valued at \$5,500 and over were analyzed. This resulted in coverage of 27 per cent of all reported shipments during the period, and 69 per cent of the total dollar value of imports reported by Statistics Canada.

There is a difference of \$5,435,389 between our reported value of \$11,885,173 and Statistics Canada original published value \$17,321,000 (rounded, actual value is \$17,320,562). This difference is explained as follows:

	<u>January to December 1980 Dollar Values</u>	
	<u>Analyzed by IAD</u>	<u>Originally Published by Statistics Canada</u>
Reported Values	\$ 11,885,173	\$ 17,321,000
Documents not available for our analysis	635,906	
Documents belonging to other commodity classes and excluded	1,209,702	
Documents covering individual shipments valued at less than \$5,500; not included in our analysis	<u>3,589,781</u>	
TOTAL	\$ 17,320,562	\$ 17,321,000*

NOTE: \* - Statistics Canada's figures are subject to revision; changes will be reflected in the normal way, i.e. "pink sheets" which are located in the front sections of catalogue 65-007.

SECTION III

ANALYSIS OF IMPORTS

Full details of the analysis are provided in the following tables.

- NOTES:
- Other Countries above includes Romania, Taiwan, Poland, Philippines, France, Italy, Hong Kong, Belgium, Barbados, Czechoslovakia and India.
  - (1) - The widths indicated were in most cases the actual size. However, in certain cases it was necessary to group widths that were not considered standard with standard sizes e.g. 40 through 46 = 45 etc. All calculations were based on the actual width.
  - (2) - Confidential - Included in End Use-Not Specified.
  - \* - Aggregated in order to preserve confidentiality.
  - Dollar values shown are based on selling price F.O.B. plant, in Canadian dollars.
  - All figures are rounded.
  - The above notes refer to all tables included in this analysis when applicable.
