SECTION I

SCOPE OF ANALYSIS

This report is based on a detailed examination of documents covering imports of fabrics included in Statistics Canada Import Commodity Code 377-73 "Polyester/cotton broad woven fabrics, not elsewhere specified".

The documents examined were selected by a sample as follows. The shipments were divided into three groups (strata) on the basis of their ledger values (the value, for customs purposes, of the shipment). Stratum 1 consisted of shipments with values of \$15,000 and over; Stratum 2 of those with values between \$5,000 and \$14,999; and Stratum 3 of shipments valued at less than \$5,000.

All shipments from Stratum 1 were examined. One sixth of those of Stratum 2; and one-eighteenth of Stratum 3 were selected for examination, using systematic sampling from random starts. Results in this report are based on the examined invoices, those of Strata 2 and 3 being multiplied by six and eighteen respectively.

In all 2,010 invoices were examined (20 per cent of the total invoices). These accounted for 66 per cent of the total value of imports in this product class in 1980.

SECTION II

RECONCILIATION

The value in this analysis does not correspond to official Statistics Canada figures for a number of reasons. Reconciliation of the two total figures is given below. Note that the residual difference (\$520,000) is somewhat less than the expected standard deviation: this indicates that the difference could well be attributed to the use of sampling.

<u>Values accounted for:</u>	\$
Invoices referred to products which should have been in other commodity codes	3,727,747
Missing: documents not available	1,424,066
<u>Difference in definition of value</u>	
Import Analysis Directorate uses selling price; Statistics Canada values are for Customs purposes	77,810
Values analyzed in this report	<u>73,506,670</u>
Total values accounted for as above	78,736,293
Total preliminary Statistics Canada value	<u>78,216,121*</u>

Difference of total values \$ 520,172 (= 0.7% of the total)
Expected standard deviation of total value, due to sampling (approx.) \$600,000.

NOTE: *The values published by Statistics Canada in December 1980 were \$78,349,000, compared to their preliminary value, above, of \$78,216,000. Statistics Canada's figures are subject to revision; changes will be reflected in the normal way: i.e., "pink sheets", which are located in the front section of catalogue 65-007.

SECTION III

ANALYSIS OF IMPORTS

Based on the sampling technique described in Section I, imports of polyester/cotton broad woven fabrics during the period January to December 1980 amounted to \$73,506,670.

This Section III includes three tables of information; Table 1 shows imports by country of origin; Table 2 imports by end use and Table 3 by fabric state. Each table is listed in descending order of dollar value and is preceded by a summary.

NOTES

The following notes refer to all tables and summaries in this analysis.

Width, weight and/or quantity figures were, in some cases, not available and are indicated by a dash.

All quantity and value figures are rounded.

Dollar values shown are based on selling price F.O.B. plant, in Canadian dollars.

N.F.I. Not further identified

* Less than 0.5 per cent of total value.

(1) The widths indicated were in most cases the actual sizes. However, in certain cases it was necessary to group widths that were not considered standard with standard sizes e.g. 40 through 46 = 45 etc. All calculations were based on actual widths.

(2) Other countries in descending order of value are: Philippines, Hungary, Singapore, Thailand, France, Yugoslavia, Spain, Austria, United Kingdom, Italy, Hong Kong, Portugal, Czechoslovakia, Portuguese Asia, Israel, Indonesia, Australia, Belgium-Luxembourg, Switzerland.

SECTION IV

SAMPLING AND ESTIMATES

Accuracy of Results

Since some of the shipments were selected using random sampling, figures in the tables do not correspond exactly to the results which would have been obtained if all shipments had been examined. The probable range of error depends on such factor as the number of shipments examined, their similarity or otherwise, etc.

The following summary shows the probable range of error for various values shown in the tables in Section III.

<u>Value in Table</u>	<u>Typical Relative Standard Deviation (%)</u>
\$ 73 million	0.7%
\$ 44 million	1%
\$ 10 to 40 million	1 to 2%
\$ 4 to 10 million	2 to 3%
\$ 1 to 4 million	3 to 6%
\$ 500 thousand to \$ 1 million	6 to 8%
\$ 300 thousand to \$ 500 thousand	8 to 10%
\$ 100 thousand to \$ 300 thousand	10 to 20%
Under \$ 100 thousand	Over 20%

In most cases (approximately two thirds or more), the true result will be within plus or minus one relative standard deviation of the values shown in the tables. In rare cases (less than one in twenty) the true value will be more than two relative standard deviations from the table value.

For example, in Table 1 imports from West Germany are shown as about \$1,703,000. From the above summary, the relative standard deviation is probably around 5%, or \$85,000. So it is probable (two chances out of three) that actual imports from West Germany were in the range \$1,618,000 to \$1,788,000, and it is very likely (95% sure) that those imports were within two standard deviations - that is between \$1,532,000 and \$1,874,000.

SECTION V

IMPORT MARKET CONCENTRATION - POLYESTER/COTTON BROAD WOVEN FABRICS

JANUARY TO DECEMBER 1980

<u>Country of Origin</u>	<u>Total Value</u> (\$,000)	<u>MARKET SHARES</u>		
		<u>Top 3 Importers</u> (-)	<u>Top 5 Importers</u> % of Value -	<u>Top 10 Importers</u>)
United States	43,744	11	15	25
Japan	7,336	44	53	67
Malaysia	6,978	53	62	75
Taiwan	4,977	45	56	74
People's Republic of China	4,146	26	38	61
South Korea	1,801	43	61	90
West Germany	1,704	51	60	79
Other Countries	2,822	25	34	52
	<u>73,507</u>			

The above figures show, for each country, the value of imports by the largest three, five and ten importers of polyester/cotton broad woven fabrics. The market shares of these importers are shown as percentage of imports from their country by all importers.

SECTION VI

FOREIGN EXPORTERS TO CANADA

Major exporters to Canada of products shown in Section III of polyester/cotton broad woven fabrics for the period January to December 1980 accounted for approximately 66 per cent of the value analyzed. The remaining 34 per cent is from exporters with values of less than 0.5 per cent.
