TRADEMARK DETAILS

Trademark Type

Design

Visual Representation

Trademark Description

The trademark consists of an imprint depicting a rectangle with its longer sides horizontal, inside which is inserted, in a central position, a circular figure, said rectangle having inserted inside it, at right and at left, proximate to the shorter sides, two small circular figures partially superimposed upon two small rectangular figures that extend horizontally with their ends exiting from each circular figure to the right and left, so as to evoke a buttonhole and its button.

Goods

Class 09

(1) Eyeglasses; sunglasses; anti-glare glasses; goggles for sports; swimming goggles; eyeglass and sunglass cases; eyeglass and sunglass lenses; eyeglass and sunglass frames; eyeglass and sunglass chains; eyeglass and sunglass cords; pince-nez; pince-nez cases; pince-nez chains; pince-nez cords; pince-nez mountings; correcting lenses [optics]; contact lenses; containers for contact lenses; ski goggles; spectacle cases; optical lenses; binoculars; binocular cases; monoculars; opera glasses; telescopes; blank optical discs; optical glass; magnifying glasses; magnifying glass cases; objectives, namely camera lenses; smartglasses; 3D spectacles; electronic game software for cellular phones; electronic game software for hand-held electronic devices; computer game software, recorded; computer game programs; computer software, recorded, namely computer e-commerce software to allow users to perform electronic business transactions via a global computer network, computer software for inventory management; computer programs, downloadable, namely downloadable computer games; floppy disks drives; computer software platforms, recorded or downloadable, namely computer software for database

management; downloadable graphics for mobile phones; computer screen saver software, recorded or downloadable; computer game software, downloadable; headsets for playing video games; head-mounted displays; personal computers; cases adapted for personal computers; notebook computers; hand-held computers; cases adapted for hand-held computers; carrying cases adapted for computers; tablet computers; protective cases for tablet computers; covers for tablet computers; laptop computers; cases for laptops; bags adapted for laptops; sleeves for laptops; docking stations for laptops; wrist rests for use with computers; computer mice; mouse pads; computer keyboards; printers for use with computers; computer peripheral devices, namely trackball input devices; monitors [computer hardware]; carrying cases for radio pagers; radio cases; radios; mobile phones; lanyards [straps] for cellular phones; covers adapted for cellular phones; cases adapted for cellular phones; antennas for cellular phones; cellular phones; smartphones; protective covers for smartphones; protective cases for smartphones; electronic pagers; electronic book readers; protective cases for electronic book readers; cordless telephones; cordless telephone holders; telephone receivers; telephones; video telephones; cell phone straps; batteries for cellular phones; microphones for cellular phones; loudspeakers for cellular phones; earphones for cellular phones; battery for cellular phones; battery charger cases for cellular phones; in-ear headphones; headphones; headphone cases; hands free kits for telephones; hands free kits for cellular phones; smartwatches; protective films adapted for smartphones; selfie sticks [hand-held monopods]; selfie sticks for use with smartphones; virtual reality headsets; selfie lenses; personal digital assistants [PDAs]; devices for the projection of virtual keyboards, namely multimedia projectors; ear pads for headphones; data gloves; trackballs [computer peripherals]; downloadable emoticons for mobile phones; stands adapted for laptops; foldable smartphones; wireless speaker microphones; smart speakers; wearable speakers; selfie ring lights for smartphones; mobile phone screen protectors; mobile phone ring holders; mobile phone ring stands; headsets; portable battery chargers for use with smartphones; holders adapted for mobile telephones and smartphones; in-car telephone handset cradles portable speakers; cooling pads for laptop computers; dashboard mats adapted for holding mobile telephones and smartphones; multi-purpose cameras; disposable cameras; cases adapted for cameras; cameras [photography]; digital cameras; television cameras; camcorders; carrying cases specially adapted for cameras and photographic equipment; lanyards [straps] for cameras; digital photo frames; exposed slide film cases; slides [photography]; video screens; home theater projectors; protective helmets for sports; riding helmets; clothing and footwear for protection against accidents, irradiation and fire; gloves for divers; visors for helmets; dust protective masks; blank compact discs; blank DVDs; holders and cases for compact discs and DVDs; protective carrying cases for portable music players; music and video player cases, namely carrying cases for digital music players and digital video players; digital music players; loudspeakers; compact disc players; cases adapted for CD players; DVD recorders; DVD players; cases adapted for DVD players; portable MP3 players; cases for portable MP3 players; covers for portable MP3 players; portable compact disc music players; prerecorded magnetic tapes, cartridges and disks, namely prerecorded audio tapes featuring music; walkie-talkies; antennas, namely cell phone, television and car antennas; audiovisual teaching apparatus, namely, slide projectors, video projectors; exposed films; transmitters of radio frequency, satellite and telephone electronic signals; television sets; electronic publications, downloadable, namely journals and brochures in the field of computer and video games, leatherware and clothing; blank magnetic data carriers being CD-ROMs and hard disks, sound recording discs, namely, blank DVDs for sound and video recording; prerecorded audio discs; prerecorded DVDs containing audio and video clips, music, movies, television shows, documentaries, cartoons; blank audio and video tapes; sound recording carriers, namely audio tape recordings; video recorders; video cassettes; USB flash drives; electronic key fobs being remote control apparatus; teaching robots, namely humanoid robots with artificial intelligence; USB

web keys; USB dongles [wireless network adapters]; credit card-style USB flash drives; time clocks [time recording devices]; counters, namely coin counting machines; rulers namely measuring rulers; teaching apparatus in the field of sewing and clothing manufacturing; appliances for measuring the thickness of leather; barometers; thermometers, not for medical purposes, namely laboratory thermometers, infra-red thermometers; calculating machines; pocket calculators; chronographs [time recording apparatus]; scales with body mass analysers; pedometers; directional compasses; egg timers [sandglasses]; microscopes; bar code readers; navigation apparatus for vehicles, namely car navigation computers; magnetically encoded key cards; electronic agendas; cases for electronic agenda; covers for electronic agendas; coin-operated musical automata [juke boxes]; magic lanterns; holograms; electronic interactive whiteboards; interactive touch screen terminals; decorative magnets; electronic pens [visual display units]; lanyards [straps] especially adapted for holding cellular phones, MP3 players, cameras, video cameras, eyeglasses, sunglasses, magnetic encoded cards; nose clips for divers and swimmers; blank integrated circuit cards being smart cards; sports whistles; electronic pocket translators; hand-held electronic dictionaries; optical fibres [light conducting filaments]; snorkels; telecommunication apparatus in the form of jewellery, namely smart watches; climate control digital thermostats; padlocks, electronic; weight belts for divers; earpieces for remote communication; parking sensors for vehicles; ticket printers; video projectors; downloadable e-wallets; credit card terminals; biometric passports; electronic passports; biometric identity cards; remote control apparatus, namely video monitor controllers, wireless controllers to remotely monitor and control the function and status of computers; downloadable computer software for smart home hubs for the operation of smart home devices; downloadable cryptographic keys for receiving and spending crypto assets; downloadable computer software for managing cryptocurrency transactions using blockchain technology; baby monitors; audio baby monitors; video baby monitors; baby scales; protective helmets for children for sports; educational software for children.

Class 18

(2) Boxes of leather or leatherboard; travel cases of leather or leatherboard; straps of leather [saddlery]; card cases [notecases]; credit card cases [wallets]; calling card cases; furniture coverings of leather; business card cases; document cases; bags, namely envelopes, pouches of leather, for packaging; labels of leather; clothing for pets; collars for pets; bags for carrying animals; nose bags [feed bags]; harness bridles; leather, unworked or semi-worked; moleskin being imitation of leather, fur; raw skins; leathercloth; vegan leather; handbags; evening purses [handbags]; reusable shopping bags; leather shopping bags; wheeled shopping bags; duffle bags; waist bags; Boston bags; shoulder bags; travelling trunks; beach bags; clutch bags; attaché cases; school bags; school satchels; schoolchildren's backpacks; randsels [Japanese school satchels]; bags for sports; garment bags for travel; purses; wallets; pocket wallets; carrying cases for documents; key cases; key bags; key wallets; briefcases; pouches, of leather, for packaging; luggage; pouches for holding make-up, keys and other personal items; shoe bags for travel; all-purpose sports bags; saddle bags; knapsacks; backpacks; rucksacks; haversacks; overnight suitcases; vanity cases, not fitted; hat boxes for travel; hat boxes of leather; handbag frames; key cases of leather; shoulder belts [straps] of leather; leather straps; pouches of leather; suitcases; suitcases with wheels; travelling bags of leather; bags for campers; bags for climbers; conference folders; conference portfolios; tote bags; motorized suitcases; baggage tags; baggage tags of paper; credit card cases [fitted holders]; handbag frames; all-purpose reusable carrying bags; toilet bags, not fitted; suitcase packing organizers; sew-on tags of leather for clothing; adhesive tags of leather for bags; sling bags for carrying infants; slings for carrying infants; pouch baby carriers; backpacks for carrying infants; infant carriers worn on the body; umbrellas for children; reins for

guiding children; umbrellas; parasols; walking sticks; mountaineering sticks; harness fittings; golf umbrellas; umbrella covers; hiking sticks; trekking sticks.

Class 35

Retail and wholesale services, also on-line, of detergents, soaps, hair lotions, non-medicated cosmetics and toiletry preparations, non-medicated dentifrices, perfumery, essential oils, bleaching preparations and other substances for laundry use, cleaning, polishing, scouring and abrasive preparations; retail and wholesale services, also on-line, of candles, eyeglasses, sunglasses, anti-glare glasses, ski goggles, goggles for use in sport, swimming goggles, eyeglass and sunglass cases, eyeglass and sunglass lenses, eyeglass and sunglass frames; retail and wholesale services, also on-line, of eyeglass and sunglass chains, eyeglass and sunglass cords, pince-nez, pince-nez cases, pince-nez chains, pince-nez cords, pince-nez mountings, correcting lenses [optics]; retail and wholesale services, also on-line, of holders, cases, covers for cell phones, laptops, MP3 players and tablet computers; retail and wholesale services, also on-line, of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely camera cases, cameras; retail and wholesale services, also on-line, of apparatus and instruments for recording, transmitting, reproducing or processing sound and images, namely computer software and programs, recorded and downloadable media being downloadable digital content being music videos and music audios, blank digital or analogue recording and storage media being blank CDs and DVDs, mechanisms for coin-operated apparatus being for computer games and video games, cash registers, calculating devices, namely calculators, computers and computer peripheral devices, diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming, fire-extinguishing apparatus; retail and wholesale services, also on-line, of lighting fixtures, electric lamps, precious metals and their alloys, jewellery, precious and semi-precious stones, horological and chronometric instruments, key rings, key fobs, key cases, key holders, key bags; retail and wholesale services, also on-line, of paper and cardboard, printed matter, namely printed material, photographs, stationery and office requisites, bookbinding material, photographs, stationery and office requisites, adhesives for stationery or household purposes, drawing materials and material for artists, paintbrushes, instructional and teaching materials, plastic sheets, films and bags for wrapping and packaging, printers' type, printing blocks; retail and wholesale services, also on-line, of all-purpose carrying bags, leatherware in the nature of wallets, leather and imitations of leather, animal skins and hides, luggage and carrying bags, umbrellas and parasols, walking sticks, whips, harness and saddlery, collars, leashes and clothing for animals; retail and wholesale services, also on-line, of furniture, mirrors, picture frames, ropes and string, nets, tents and tarpaulins, awnings of textile or synthetic materials, sails, sacks for the transport and storage of materials in bulk, padding, cushioning and stuffing materials, raw fibrous textile materials and substitutes therefor; retail and wholesale services, also on-line, of textiles and substitutes for textiles, household linen, curtains of textile or plastic, bed throws, table

cover, clothing, footwear, headwear; retail and wholesale services, also on-line, of lace, braid and embroidery, and haberdashery ribbons and bows, buttons, hooks and eyes, pins and needles, artificial flowers, hair decorations, false hair, carpets, rugs, mats and matting, wall hangings; retail and wholesale services, also on-line, of games, toys and playthings, video game apparatus, gymnastic and sporting articles, decorations for Christmas trees, smokers' articles; presentation of goods on communication media, for retail purposes, namely advertising the goods and services of others; providing commercial information and advice for consumers in the choice of products and services, namely providing information about the goods and services of others via telecommunication networks for advertising and sales purposes; sales promotion for others, namely promoting the sale of credit card accounts through the administration of incentive award programs; outsourcing services, namely, outsourcing of electronic commerce and human resources services; procurement services for others namely purchasing goods and services for other businesses; demonstration of goods, namely home demonstrations selling clothing; shop window dressing; sponsorship search; business inquiries, namely advice and information concerning commercial business management; providing business information services in the field of incorporation and trademarks; administrative processing of purchase orders; organization and management of customer loyalty programs; administration of consumer loyalty programs; auctioneering; auctioneering services provided on the Internet; commercial administration of the licensing of the goods and services of others; provision of an online marketplace for buyers and sellers of goods and services; organization of fashion shows for promotional purposes; organization of events, exhibitions, trade fairs, namely fashion trade show exhibitions and fashion shows for commercial, promotional and advertising purposes; organization of trade fairs for commercial or advertising purposes; organization of television advertising events; arranging and conducting of promotional and marketing events, namely organization of fashion shows for promotional purposes; event marketing, namely organization of fashion exhibitions for commercial and advertising purposes; reception services for visitors [office functions]; news clipping services; public relations; online advertising on a computer network, namely advertising on the Internet for others; advertising of goods and services on the Internet and by means of mobile telephony services and by electronic mail, namely advertising the goods and services of others through all public communication means; bill-posting; rental of advertising space; publicity material rental, namely rental of exhibition stands; dissemination of advertising matter for others via an on-line electronic communications network; advertising agency services; modelling for advertising or sales promotion; writing of publicity texts for others; publication of publicity texts; promoting the sale of fashion goods through promotional articles in magazines; distribution of samples for publicity purposes; distribution and dissemination of advertising materials for others, namely leaflets, prospectuses, printed material, samples; advertising planning services; promotional services, namely advertising services, namely advertising agencies; business merchandising display services; search engine optimization for sales promotion; website traffic optimization; consultancy regarding advertising communication strategies; consultancy regarding public relations communication strategies; social media strategy and business marketing consulting services; outdoor advertising, namely preparing and placing outdoor advertisements for others; media relations services; commercial lobbying services; layout services for advertising purposes; direct mail advertising; advertising services to create brand identity for others; promotion of goods through influencers; business management and organization consultancy; consultancy and advisory services in the field of business strategy; business management consultancy relating to strategy, marketing, production, personnel and retail sale matters; business management assistance; advice in the field of business management and marketing; accounting advisory services; import-export agency services; economic forecasting; marketing research; market studies; business investigations, namely conducting business and market research surveys for

others; opinion polling; targeted marketing, namely direct marketing of the goods and services of others; influencer marketing; business consulting services for digital transformation; franchising services in the nature of providing business management assistance in the establishment and operation of industrial or commercial enterprises; assistance in the development and management of a commercial enterprise, namely business management assistance, providing operational business assistance to enterprises; providing an on-line commercial information directory on the Internet; compilation of information into computer databases, namely statistics; administrative services for the relocation of businesses; business auditing; book-keeping; accounting; personnel placement and recruitment; personnel management consultancy; secretarial services; rental of vending machines; business management of hotels; photocopying services; business management of performing artists; computerized business record keeping services; promotion of goods and services through sponsorship of sports events, namely promoting the goods and services of others by arranging for sponsors to affiliate their goods and services with soccer competitions; providing market intelligence services; gift registry services; consumer profiling for commercial or marketing purposes; providing user reviews for commercial or advertising purposes in the field of clothing and accessories; telephone switchboard services.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the word BIN in green, and underlined by a green line ending on its right side in a green circle that partially covers the blue word CONNECT; the expression BY NANOLIKE, in blue, appears below the green line.

Goods

Class 09

Data acquisition and processing apparatus for the remote monitoring, tracking and control of industrial and logistics operations as well as industrial equipment, namely computer hardware, smart terminals, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; apparatus for the collection and processing of computer data related to product storage and supply chains, namely computer hardware, smart terminals, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; downloadable and recorded computer software and applications for industrial automation and logistics, for the remote monitoring, tracking and control of product inventory and supply chain management; computer software and applications for supply chain management; software for controlling industrial and logistics operations, namely logistics software for the remote control of product inventory and supply chain management; electric installations in the nature of electric apparatus comprising computer hardware and downloadable and recorded software for the remote monitoring, tracking and control of product inventory management, industrial and logistics operations, software and applications used on mobile devices for on-site logistics management; electric data processing apparatus and instruments for weighing and measuring liquids and performing product inventories, namely, electronic weighing scales for industrial use, electronic flow meters, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; data processing apparatus, namely connected level indicators and level gauges for liquid levels and product inventory levels; connected sensors and transmitters

indicating level, load, filling and weight in containers, silos, tanks, intermediate bulk containers and industrial tanks in order to determine, track, control and manage liquid volumes and product inventory; connected filling level detectors for silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for locating silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for the control of input and output, equipment, liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for the collection, treatment and transmission of data related to the location, filling, control and monitoring of silos, tanks, intermediate bulk containers and industrial tanks; logistics software in the nature of software for flow tracking and the storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks in the context of product inventory and supply chain management; apparatus, namely computer hardware and downloadable and recorded software used to remotely view liquid and industrial product inventory levels in silos, tanks, intermediate bulk containers and industrial tanks; remote control apparatus, namely controllers for video monitors, for weight, temperature, humidity, position, volume, level sensors, for measuring devices, for weight, temperature, humidity, position and volume detectors and instruments, connected for the monitoring of levels, loads, filling and weights of liquids and for industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for security alerts related to supply chains; electronic apparatus, namely video surveillance cameras and downloadable and recorded software for temperature control and monitoring in silos, tanks, intermediate bulk containers and industrial tanks; electronic systems for temperature control, other than for medical use, in the nature of weight, temperature, humidity, position, level and volume controllers for silos, tanks, intermediate bulk containers and industrial tanks; interactive computer databases for supply chain management and optimization, namely for use in locating, filling, controlling and monitoring liquid and product inventory levels in silos, tanks, intermediate bulk containers and industrial tanks; software and application featuring a decision-making tool for procurement, logistics, flow management and storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks in the context of supply chain management; downloadable and recorded computer software for supply chain management optimization and product storage for industrial and logistics operations; downloadable and recorded software and computer hardware for data aggregation, analysis and processing for procurement, logistics, flow and storage management of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks by incorporating a collective work and communication environment that enables collaborative work and communication as well as resource and data pooling; temperature sensors, humidity sensors, level sensors, volume sensors, weight sensors and position sensors, electronic apparatus, namely computer hardware and downloadable and recorded software for planning, executing, integrating, optimizing, tracking procurement, logistics, flow management and storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks.

Services

Class 42

Scientific and technical analysis and research in the field of remote monitoring, tracking and control of the management of product inventory and supply chains as well as industrial equipment, namely, computer hardware, smart terminals, position sensors, liquid level sensors and product inventory level sensors, weight sensors, volume sensors; research regarding the computerized automation of industrial and logistics processes in the field of product inventory and supply chain

management; monitoring services for industrial and logistics processes, namely provision of technology information updates for downloadable and recorded software for industrial process control and inventory monitoring via global computer networks; design and development of software and applications for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; software as a service [SaaS] for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; maintenance and upgrading of software and applications for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial products inventory in silos, tanks, intermediate bulk containers and industrial tanks; computer platform as a service [PaaS] for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; artificial intelligence platforms being software as a service [SaaS] for supply chain management for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; provision of artificial intelligence computer programs on data networks for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; design, development and programming of software and applications for inventory management; data automation and collection services using proprietary software for service data evaluation, analysis and collection [computer services], related to supply chains, and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; recovery of computer data, storage of electronic data and hosting of computer databases related to third-party supply chains and related to the monitoring of levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; development, hosting and maintenance of computer databases related to third-party supply chains and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; cloud storage for electronic data related to third-party supply chains and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; technical consulting services related to the implementation and use of hardware and software for supply chain management and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; provision of online non-downloadable software used for supply chain management and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; testing services to determine supply chain conformity; technological research for industrial and logistics processes; development and testing of methods, algorithms and computer software for supply chain management; data automation and collection services using proprietary software for service data evaluation, analysis and collection [computer services], for supply chain management, and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; expert services in the nature of quality control and engineering services for others in the field of supply chain management and downloadable and recorded software for the remote monitoring of levels, loads, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark is in the colour red.

Goods

Class 01

(1) Carbon black for industrial purposes; carbon, namely, activated carbon, carbon for filters, carbon compounds, absorbing carbons; silicon carbide; carbides; chemical intensifiers for rubber; industrial chemicals for use in the manufacturing of absorbing carbons; carburizing agents, namely, activated charcoal, activated carbon, sodium chloride, carbonic acid gas, chemical preparations for facilitating the alloying of metals; graphite, namely, natural graphite for industrial purposes, artificial graphite for industrial purposes, absorbent graphites, absorbent expandable graphites, natural graphite; graphite for negative-electrode material of lithium ion secondary batteries; graphite in raw or semi-finished form for use in manufacture; graphite for negative-electrode material of secondary batteries, graphite for batteries and graphite for electrodes; non-

metallic minerals; unprocessed artificial resins for industrial purposes; unprocessed plastics in all forms; ceramic granules and powders for sintering.

Class 02

(2) Carbon black as pigment; pigments for color inks, namely, organic pigments, inorganic pigments; pigments, namely, pigments for use in the manufacture of tires, automobiles, and printing ink; paints, namely, paint pigment powders, paint for use in industrial building construction, paints for use in the automobile industry, paints for industrial equipment and machinery; printing ink.

Class 07

(3) Semiconductor manufacturing machines and apparatus and their parts and fittings, namely, semiconductor making machines, semiconductor wafer processing equipment, robots and robotic arms for semiconductor manufacturing, ion implanters for semiconductor manufacturing machines and systems, filters and purifiers for removing contaminants from gases used in the semiconductor industry, epitaxial reactors for semiconductor manufacturing machines and chemical vapor deposition [CVD] reactors for semiconductor manufacturing machines; cleaning machines for cleaning electronic components, ceramic and glass components, plastic formed products and metal processed components; chemical processing machines and apparatus and their parts and fittings, namely, separating machines for chemical processing, granulating machines for chemical processing, calcining machines for chemical processing, filtering machines for chemical processing, extracting machines for chemical processing, blending machines for chemical processing, sorting machines for chemical processing, kneading machines for chemical processing, grinding mills for chemical processing; electric discharge machine and their parts and fittings; continuous casting machines and their parts and fittings; moulds being parts of machines for use in the manufacture of rubber goods, moulds being parts of machines for processing plastics, moulds being parts of machines for use in the manufacture of molten metal; metalworking machines and tools and their parts and fittings; machines for the metallurgy industry and their parts and fittings, namely, iron pellet casting machines, ore concentrating machines; construction machines and their parts and fittings, namely, metalworking machines, painting machines, semiconductor manufacturing machines, electric washing machines for industrial purposes, fodder mixing machines, compression moulding machines, centrifugal compressors, and pneumatic transporters; elevators and their parts and fittings; loading-unloading machines and apparatus and their parts and fittings, namely, loading dock levelers, loading beams being parts of machines, robotic arms for loading, hydraulic loading dock levelers, unloading cranes; rocket engines, not for land vehicles, and their parts and fittings; non-electric prime movers, not for land vehicles, and their parts and fittings; parts of non-electric prime movers for land vehicles; exhaust gas treating device for internal combustion engine and their parts and fittings, namely, fuel injection devices for internal combustion engines, combustion chambers being engine parts, fuel and air mixture regulators being parts of internal combustion engines, gas filters for motors, pressure regulating valves, compressed air dryer filters for vehicle engines, fuel valves for engines, catalytic converters for exhaust gases of internal combustion engines, hydraulic filters for vehicle engines, pump control valves, fuel and vapor separators for use in vehicle engines; brushes being parts of machines and their parts and fittings, namely, carbon brushes for electrical machines, dynamo brushes, rotary brushes for machines; brake linings for machines; brake pads, other than for vehicles, namely, antifriction pads for machines, brake pads for machines used in industrial manufacturing; clutches, other than for land vehicles, namely, clutches for industrial machinery; brakes for industrial machines; machine coupling and transmission components, not for land vehicles; solar cell manufacturing machines and apparatus and their parts and fittings, namely, laminating machines for industrial use, solar cell power generators, solar-powered electricity

generators, machines for manufacturing rubber; agricultural machines and agricultural implements and their parts and fittings, namely, replacement parts for excavators, namely, replacement parts for excavating machines, vacuum excavators and hydro excavating machines, machine coupling and transmission components, other than for land vehicles, and parts therefor, power transmission belts for machines, motors and engines used in industrial applications, parts of agricultural seeder machines, namely, tuning rings and meter rollers, agricultural reaper machines, specially adapted parts for electric power generators, fertilizer distributing machines, specially adapted parts for centrifugal compressors, couplings for agricultural implements, fertilizer manufacturing machines, agricultural elevators, tilling machines for agricultural purposes, automatic conveyor belts, machines and installations, rotary hoes for agricultural machines, rotating centres being parts of machines, center drill bits being parts of machines, agricultural land fertilizing equipment.

Class 09

(4) Electrodes and their parts and fittings, namely, fuel cell electrodes, graphite electrodes, electrodes for laboratory research; graphite electrodes and their parts and fittings; electric furnace electrodes and their parts and fittings; fuel cell separators and their parts and fittings; fuel cells and their parts and fittings; solar cells and their parts and fittings; power distribution and control machines and apparatus and their parts and fittings, namely, electrical power distribution blocks, power distribution panels, electrical power connectors, electrical power testers, electronic power converters, electric power distribution units, electronic power transformers, power modules for sequential control, electric current control devices, semiconductor power elements, power distribution boxes, uninterruptible power supply apparatus, power connectors, electrical connectors for power converters, static power converters, power limiters, electric power converters, distribution boxes for electrical power, power inverters, power distributing boxes, electric control panels, power switches, voltage stabilizing power supply, power transformers, electric power switches, electrical charge controllers, inverters for power supply, power amplifiers, power line conditioners, electronic controllers for use with power converters, power inverter, power system meters, voltage regulators for electric power, modules for photovoltaic power generation, remote control transmitters, power controllers for fuel cells, specially adapted parts for fuel cell power generation modules for automobiles, instruments and apparatus for controlling electric current, namely, electrical controllers for magnetic bearing control; telecommunication machines and apparatus and their parts and fittings, namely, computer hardware for telecommunications, telecommunications circuit board units, telecommunications switchboards, optical fiber telecommunications apparatus, electrical transformers, resistors, and capacitors for telecommunication apparatus, waveguides being telecommunications components, satellite transmitters, radio transmitters, audio and video receivers, optical receivers, electrical connection boxes, computer central processing units; electric resistors and their parts and fittings; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical transformers, electric cables, electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications, electrical connectors, electricity conduits, electric transformers, direct electrical current monitoring modules, multimeters for measuring electrical resistance, electronic industrial controls for motion failure detectors, electrical terminators, electrical charging station meters for electrical monitoring, alternating electrical current monitor modules, multimeters for measuring electric current, electrical relays and transformers, distribution transformers, electric connectors, electrical distribution substation, cameras; silicon carbide wafers; semi-conductor wafers; electronic machines and apparatus and their parts and fittings, namely, electronic circuits, parts and fittings for fuel cells, electronic integrated circuits, electrical converters, electric wires and cables, electrical distribution boxes, accumulators being electrical storage batteries, electrical receptacles, electrical plugs and

sockets, electronic computers, electronic cables, connectors for electronic circuits, connecting electrical cables, electrical circuits, electronic connectors for circuit boards, diode assemblies, transistors, particle generators, electric current switches, electronic circuits, electronic power transformers; sounding rocket and their parts and fittings; satellites and their parts and fittings; furnaces for laboratory experiments and their parts and fittings; laboratory apparatus and instruments and their parts and fittings, namely, microscopes and parts thereof, sonar equipment and parts thereof, parts and fittings for hydrogen electrolyzers, laboratory calipers, laboratory racks, laboratory glassware, laboratory pipettes, laboratory scales and balances, laboratory thermometers, laboratory devices, namely flow cytometers, laboratory photochemical reactors, laboratory storage tubes, sliding squares being measuring instruments, graphite crucibles for laboratory use; measuring or testing machines and instruments and their parts and fittings, namely, plastic testing machines, metal compression testing machines, surface roughness testing machines and instruments, universal tension and compression testing machines, calculating machines, adding machines, central processing units for wearable computer hardware, infrared thermometers for checking electrical equipment, optical microscopes for materials testing, pressure sensors, electronic temperature controllers for industrial furnaces, calibrating devices for calibrating atomic absorption spectrometers, measuring transducers, meters for measuring electrical resistance, carbon nanotubes for use in extremely small scale electronic and mechanical applications, temperature sensors, micrometer screws for optical instruments, recorded computer software utilizing adaptive control for industrial processes, electromagnetic measuring detectors, computers, multimeters for measuring electrical voltage, electronic components for integrated circuit cards.

Class 11

(5) Heat treat furnaces and their parts and fittings, including electrodes and nipples for electrodes adapted for heat treat furnaces; nuclear reactors and their parts and fittings, including electrodes and nipples for electrodes adapted for nuclear reactors; graphite crucibles for industrial use, except for laboratory use, namely, curing ovens for industrial use; electric furnaces for industrial purposes and their parts and fittings, namely, electrodes and nipples for electrodes adapted for electric furnaces; industrial furnaces and their parts and fittings, including electrodes and nipples for electrodes adapted for industrial furnaces; heating elements; garbage incinerators; heat exchangers, other than parts of machines; drying apparatus, namely, drying ovens, industrial drying ovens, air dryers, chemical fiber drying machines.

Class 12

(6) Clutch mechanisms for land vehicles; brake linings for land vehicles; brake pads for land vehicles; brakes for land vehicles; machine elements for land vehicles, namely, suspension systems for land vehicles, axles for land vehicles, couplings for land vehicles, brake linings for land vehicles, transmissions for land vehicles, brake pads for land vehicles, motors for land vehicles, pneumatic or hydraulic linear actuators for land vehicles, structural parts for land vehicles, tires for land vehicles; ships and their parts and fittings; aircraft and their parts and fittings; railcars and their parts and fittings; automobiles and their parts and fittings; two-wheeled motor vehicles and bicycles, namely, electric scooters, mopeds, bicycles, and their parts and fittings.

Class 19

(7) Carbon heat resistant brick; refractory products for industrial furnaces, namely, refractory cement, refractory concrete, refractory bricks, refractory aggregates, ceramic bricks for use in refractory furnaces, refractory furnace linings, not of metal; carbon heat resistant paints, non-metallic minerals, ceramics, glass and wood used as building and construction materials; carbon heat resistant materials, namely, refractory bricks, not of metal, used as building and construction

materials; cement and cement products, namely, cement mixes, cement blocks, filling cement, hydraulic cement, alumina cement, jointing cement, magnesia cement, asphalt, silica cement, asbestos cement, pozzolanic cement, portland cement, plaster, mortar, concrete; building glass; fired refractory materials, not of metal, namely, refractory bricks, refractory mortars, refractory castable mixes, refractory clay, refractory concrete, refractory cement, refractory sands, underclay for refractory use; pitch; non-metallic minerals for building or construction; foundry molds, not of metal, of ceramic and plastic, non-metal forms for use in casting, not of metal; non-metallic minerals for building and construction comprising graphite semi-worked materials; non-metallic minerals for building and construction comprising carbon semi-worked materials; non-metallic minerals for building and construction comprising silicon carbide semi-worked materials; non-metallic semi-worked minerals for building and construction.

TOKAI CARBON

Goods

Class 01

(1) Carbon black for industrial purposes; carbon, namely, activated carbon, carbon for filters, carbon compounds, absorbing carbons; silicon carbide; carbides; chemical intensifiers for rubber; industrial chemicals for use in the manufacturing of absorbing carbons; carburizing agents, namely, activated charcoal, activated carbon, sodium chloride, carbonic acid gas, chemical preparations for facilitating the alloying of metals; graphite, namely, natural graphite for industrial purposes, artificial graphite for industrial purposes, absorbent graphites, absorbent expandable graphites, natural graphite; graphite for negative-electrode material of lithium ion secondary batteries; graphite in raw or semi-finished form for use in manufacture; graphite for negative-electrode material of secondary batteries, graphite for batteries and graphite for electrodes; non-metallic minerals; unprocessed artificial resins for industrial purposes; unprocessed plastics in all forms; ceramic granules and powders for sintering.

Class 02

(2) Carbon black as pigment; pigments for color inks, namely, organic pigments, inorganic pigments; pigments, namely, pigments for use in the manufacture of tires, automobiles, and printing ink; paints, namely, paint pigment powders, paint for use in industrial building construction, paints for use in the automobile industry, paints for industrial equipment and machinery; printing ink.

Class 07

(3) Semiconductor manufacturing machines and apparatus and their parts and fittings, namely, semiconductor making machines, semiconductor wafer processing equipment, robots and robotic arms for semiconductor manufacturing, ion implanters for semiconductor manufacturing machines and systems, filters and purifiers for removing contaminants from gases used in the semiconductor industry, epitaxial reactors for semiconductor manufacturing machines and chemical vapor

deposition [CVD] reactors for semiconductor manufacturing machines; cleaning machines for cleaning electronic components, ceramic and glass components, plastic formed products and metal processed components; chemical processing machines and apparatus and their parts and fittings, namely, separating machines for chemical processing, granulating machines for chemical processing, calcining machines for chemical processing, filtering machines for chemical processing, extracting machines for chemical processing, blending machines for chemical processing, sorting machines for chemical processing, kneading machines for chemical processing, grinding mills for chemical processing; electric discharge machine and their parts and fittings; continuous casting machines and their parts and fittings; moulds being parts of machines for use in the manufacture of rubber goods, moulds being parts of machines for processing plastics, moulds being parts of machines for use in the manufacture of molten metal; metalworking machines and tools and their parts and fittings; machines for the metallurgy industry and their parts and fittings, namely, iron pellet casting machines, ore concentrating machines; construction machines and their parts and fittings, namely, metalworking machines, painting machines, semiconductor manufacturing machines, electric washing machines for industrial purposes, fodder mixing machines, compression moulding machines, centrifugal compressors, and pneumatic transporters; elevators and their parts and fittings; loading-unloading machines and apparatus and their parts and fittings, namely, loading dock levelers, loading beams being parts of machines, robotic arms for loading, hydraulic loading dock levelers, unloading cranes; rocket engines, not for land vehicles, and their parts and fittings; non-electric prime movers, not for land vehicles, and their parts and fittings; parts of non-electric prime movers for land vehicles; exhaust gas treating device for internal combustion engine and their parts and fittings, namely, fuel injection devices for internal combustion engines, combustion chambers being engine parts, fuel and air mixture regulators being parts of internal combustion engines, gas filters for motors, pressure regulating valves, compressed air dryer filters for vehicle engines, fuel valves for engines, catalytic converters for exhaust gases of internal combustion engines, hydraulic filters for vehicle engines, pump control valves, fuel and vapor separators for use in vehicle engines; brushes being parts of machines and their parts and fittings, namely, carbon brushes for electrical machines, dynamo brushes, rotary brushes for machines; brake linings for machines; brake pads, other than for vehicles, namely, antifriction pads for machines, brake pads for machines used in industrial manufacturing; clutches, other than for land vehicles, namely, clutches for industrial machinery; brakes for industrial machines; machine coupling and transmission components, not for land vehicles; solar cell manufacturing machines and apparatus and their parts and fittings, namely, laminating machines for industrial use, solar cell power generators, solar-powered electricity generators, machines for manufacturing rubber; agricultural machines and agricultural implements and their parts and fittings, namely, replacement parts for excavators, namely, replacement parts for excavating machines, vacuum excavators and hydro excavating machines, machine coupling and transmission components, other than for land vehicles, and parts therefor, power transmission belts for machines, motors and engines used in industrial applications, parts of agricultural seeder machines, namely, tuning rings and meter rollers, agricultural reaper machines, specially adapted parts for electric power generators, fertilizer distributing machines, specially adapted parts for centrifugal compressors, couplings for agricultural implements, fertilizer manufacturing machines, agricultural elevators, tilling machines for agricultural purposes, automatic conveyor belts, machines and installations, rotary hoes for agricultural machines, rotating centres being parts of machines, center drill bits being parts of machines, agricultural land fertilizing equipment.

Class 09

(4) Electrodes and their parts and fittings, namely, fuel cell electrodes, graphite electrodes, electrodes for laboratory research; graphite electrodes and their parts and fittings; electric furnace

electrodes and their parts and fittings; fuel cell separators and their parts and fittings; fuel cells and their parts and fittings; solar cells and their parts and fittings; power distribution and control machines and apparatus and their parts and fittings, namely, electrical power distribution blocks, power distribution panels, electrical power connectors, electrical power testers, electronic power converters, electric power distribution units, electronic power transformers, power modules for sequential control, electric current control devices, semiconductor power elements, power distribution boxes, uninterruptible power supply apparatus, power connectors, electrical connectors for power converters, static power converters, power limiters, electric power converters, distribution boxes for electrical power, power inverters, power distributing boxes, electric control panels, power switches, voltage stabilizing power supply, power transformers, electric power switches, electrical charge controllers, inverters for power supply, power amplifiers, power line conditioners, electronic controllers for use with power converters, power inverter, power system meters, voltage regulators for electric power, modules for photovoltaic power generation, remote control transmitters, power controllers for fuel cells, specially adapted parts for fuel cell power generation modules for automobiles, instruments and apparatus for controlling electric current, namely, electrical controllers for magnetic bearing control; telecommunication machines and apparatus and their parts and fittings, namely, computer hardware for telecommunications, telecommunications circuit board units, telecommunications switchboards, optical fiber telecommunications apparatus, electrical transformers, resistors, and capacitors for telecommunication apparatus, waveguides being telecommunications components, satellite transmitters, radio transmitters, audio and video receivers, optical receivers, electrical connection boxes, computer central processing units; electric resistors and their parts and fittings; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical transformers, electric cables, electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications, electrical connectors, electricity conduits, electric transformers, direct electrical current monitoring modules, multimeters for measuring electrical resistance, electronic industrial controls for motion failure detectors, electrical terminators, electrical charging station meters for electrical monitoring, alternating electrical current monitor modules, multimeters for measuring electric current, electrical relays and transformers, distribution transformers, electric connectors, electrical distribution substation, cameras; silicon carbide wafers; semi-conductor wafers; electronic machines and apparatus and their parts and fittings, namely, electronic circuits, parts and fittings for fuel cells, electronic integrated circuits, electrical converters, electric wires and cables, electrical distribution boxes, accumulators being electrical storage batteries, electrical receptacles, electrical plugs and sockets, electronic computers, electronic cables, connectors for electronic circuits, connecting electrical cables, electrical circuits, electronic connectors for circuit boards, diode assemblies, transistors, particle generators, electric current switches, electronic circuits, electronic power transformers; sounding rocket and their parts and fittings; satellites and their parts and fittings; furnaces for laboratory experiments and their parts and fittings; laboratory apparatus and instruments and their parts and fittings, namely, microscopes and parts thereof, sonar equipment and parts thereof, parts and fittings for hydrogen electrolyzers, laboratory calipers, laboratory racks, laboratory glassware, laboratory pipettes, laboratory scales and balances, laboratory thermometers, laboratory devices, namely flow cytometers, laboratory photochemical reactors, laboratory storage tubes, sliding squares being measuring instruments, graphite crucibles for laboratory use; measuring or testing machines and instruments and their parts and fittings, namely, plastic testing machines, metal compression testing machines, surface roughness testing machines and instruments, universal tension and compression testing machines, calculating machines, adding machines, central processing units for wearable computer hardware, infrared thermometers for checking electrical equipment, optical microscopes for materials testing,

pressure sensors, electronic temperature controllers for industrial furnaces, calibrating devices for calibrating atomic absorption spectrometers, measuring transducers, meters for measuring electrical resistance, carbon nanotubes for use in extremely small scale electronic and mechanical applications, temperature sensors, micrometer screws for optical instruments, recorded computer software utilizing adaptive control for industrial processes, electromagnetic measuring detectors, computers, multimeters for measuring electrical voltage, electronic components for integrated circuit cards.

Class 11

(5) Heat treat furnaces and their parts and fittings, including electrodes and nipples for electrodes adapted for heat treat furnaces; nuclear reactors and their parts and fittings, including electrodes and nipples for electrodes adapted for nuclear reactors; graphite crucibles for industrial use, except for laboratory use, namely, curing ovens for industrial use; electric furnaces for industrial purposes and their parts and fittings, namely, electrodes and nipples for electrodes adapted for electric furnaces; industrial furnaces and their parts and fittings, including electrodes and nipples for electrodes adapted for industrial furnaces; heating elements; garbage incinerators; heat exchangers, other than parts of machines; drying apparatus, namely, drying ovens, industrial drying ovens, air dryers, chemical fiber drying machines.

Class 12

(6) Clutch mechanisms for land vehicles; brake linings for land vehicles; brake pads for land vehicles; brakes for land vehicles; machine elements for land vehicles, namely, suspension systems for land vehicles, axles for land vehicles, couplings for land vehicles, brake linings for land vehicles, transmissions for land vehicles, brake pads for land vehicles, motors for land vehicles, pneumatic or hydraulic linear actuators for land vehicles, structural parts for land vehicles, tires for land vehicles; ships and their parts and fittings; aircraft and their parts and fittings; railcars and their parts and fittings; automobiles and their parts and fittings; two-wheeled motor vehicles and bicycles, namely, electric scooters, mopeds, bicycles, and their parts and fittings.

Class 19

(7) Carbon heat resistant brick; refractory products for industrial furnaces, namely, refractory cement, refractory concrete, refractory bricks, refractory aggregates, ceramic bricks for use in refractory furnaces, refractory furnace linings, not of metal; carbon heat resistant paints, non-metallic minerals, ceramics, glass and wood used as building and construction materials; carbon heat resistant materials, namely, refractory bricks, not of metal, used as building and construction materials; cement and cement products, namely, cement mixes, cement blocks, filling cement, hydraulic cement, alumina cement, jointing cement, magnesia cement, asphalt, silica cement, asbestos cement, pozzolanic cement, portland cement, plaster, mortar, concrete; building glass; fired refractory materials, not of metal, namely, refractory bricks, refractory mortars, refractory castable mixes, refractory clay, refractory concrete, refractory cement, refractory sands, underclay for refractory use; pitch; non-metallic minerals for building or construction; foundry molds, not of metal, of ceramic and plastic, non-metal forms for use in casting, not of metal; non-metallic minerals for building and construction comprising graphite semi-worked materials; non-metallic minerals for building and construction comprising carbon semi-worked materials; non-metallic minerals for building and construction comprising silicon carbide semi-worked materials; non-metallic semi-worked minerals for building and construction.

Trademark Description

The mark consists of the wording "GRIDSPERTISE ACCELERATING YOUR ELECTRIC FUTURE" in fancy pink and blue-turquoise characters written on two different lines and to the right of two broken circles in pink and in blue-turquoise colours, having their broken sides facing each other; the broken side of the pink circle exposing a lighter pink background; the word "grids" and the word "pertise" of the wording "GRIDSPERTISE" are respectively in pink and blue-turquoise colours; the wording "ACCELERATING YOUR ELECTRIC FUTURE" is in smaller characters and in blue-turquoise colour, under the wording "GRIDSPERTISE".

Colour Claim

Colour is claimed as a feature of the trademark. Blue-turquoise and pink. The colour blue-turquoise is in the word "pertise" of the wording "GRIDSPERTISE", in the wording "ACCELERATING YOUR ELECTRIC FUTURE" and in one of the two broken circles; the colour pink is in the word "grids" of the wording "GRIDSPERTISE" and in one of the two broken circles.

Goods

Class 04

(1) Fuels and illuminants, namely, renewable transportation fuels; gases for use as illuminants, namely natural gas; motor fuels, namely gasoline and diesel fuels; propane fuel; and gaseous hydrogen fuel; fuel gas; lighting fuel; fuels for domestic heating; fuel oil.

Class 09

(2) Communication equipment, namely, communications software for monitoring and managing electrical charging stations and networks; apparatus and instruments for measuring power, namely, bidirectional meters for electricity monitoring, conventional electricity meters, electrical charging station meters for electrical monitoring, and electromagnetic flow meters; gas meters;

external wiring transmission apparatus, namely, electrical distribution substations, electrical conductors for transformers, high voltage transformers, and power transformers; cable for telecommunications, namely, audio cables; fiber-optic cables; covers for fiber optic cables; optical transmitters for use with fiber-optic cables; optical cables; light conducting filaments; coaxial cables; ethernet cables; audio cables; fiber-optic telecommunications apparatus, namely, multiplexers for fibre-optic communications networks and fibre optic light and image conduits; equipment for data communication and computer networks, namely, computer hardware for data processing, computer firmware for remote monitoring of function of hardware and computer networks and computer network-attached storage [NAS] hardware; fiber-optic receivers; nonlinear fiber-optics.

Services

Class 37

(1) Installation and repair services relating to domestic appliances provided with an electricity consumption communication, control and monitoring system via a telecommunication system; installation, cleaning, repair and maintenance services, namely, cable laying, underwater cable laying, land cable laying, application of coatings to cables, underground cable laying, submarine cable joining services; installation, cleaning, repair and maintenance services of cables for internet access; installation of hardware and cables for internet access; optical transmitter services for use with fiber-optic cables, optical cables, light conducting filaments [fiber-optic], fiber-optics for maintaining polarization, coaxial cables, ethernet cables, acoustic conductors, fiber-optic telecommunications apparatus, apparatus for data communications and networks, fiber-optic receivers, nonlinear fiber-optics.

Class 38

(2) Interactive communications services on energy, namely, providing access to online forums for communication on topics of general interest;; telecommunication services, namely, providing computer network access via fiber-optics networks; provision of access to the internet and to computer communications; communication via fiber-optic networks; telecommunications services, namely providing fiber optic networks; communications by computer terminals, namely, electronic exchange of messages via a global computer network; distribution of data or audiovisual images via a global computer network or the internet, namely, electronic exchange of images via a global computer network and provision of electronic data interchange (EDI) services; provision of access to databases; personal communication services (PCS); radio, telephone and telegraph communications services; telecommunications services, namely, providing computer network access via fiber optic networks; providing access to a platform for real-time multimedia communications via a website on the internet; telephone services; broadcasting audio material on the internet; transfer of information and data via on-line services and the internet, namely, providing multiple user access to global computer information networks for the transfer and dissemination of information and files; electronic exchange of messages via a global computer network; transmission of videos, films, images, texts, photographs, games, user-generated content, audio content and information via the internet.

Class 39

(3) Distribution of energy, namely, utility transmission services of electricity and electric power; distribution of energy, namely, distribution of electrical energy to residential and commercial users; distribution of energy, namely, public utility services in the form of electricity distribution; distribution of energy, namely, distribution of solar energy to residential and commercial users; distribution of energy, namely, distribution of wind energy to residential and commercial users; professional consultancy services relating to the distribution of power and electricity.

Class 42

(4) Scientific and technological services in the field of energy; computer services, namely, providing information about design and development of software, and computer systems and networks; telecommunication network design project and planning; engineering and design services in the field of bi-directional energy distribution and electrical engineering; consultancy regarding energy-saving; professional consultancy relating to energy-saving; technological consultancy in connection with energy production and use; environmental monitoring of areas for waste storage; creation of control programs for electric function control modules and activation modules; technical advice related to energy-saving measures; provision of information relating to the design and development of computer software, networks and information systems; design of electric circuit boards; design of storage systems, namely, providing engineering consulting services for the development of energy capture systems; electrical network engineering services for the design of electrical systems; technical design and planning of power stations; technical design and planning of telecommunications networks; design and development of systems for renewable energy generation; design and development of software for controlling, regulating and monitoring solar energy systems; engineering drawing; conducting research and technical project studies relating to the use of natural energy; research relating to analysis of waste; industrial research, namely, research and development in the field of energy transfer performance; analysis and testing services of electrical engineering apparatus; advisory services relating to energy consumption; technological consultancy services in the field of alternative energy generation; engineering services relating to electrical energy production; technical design of power stations; electrical engineering services; information technology services, namely, technological consulting services in the development and operation of advanced energy metering infrastructure (AMI) systems using smart grid technology and technological consulting services in the development and operation of advanced energy meter data management systems (MDMS) using smart grid technology; development of testing apparatus for electric cables; development of electricity assemblies; development of integrated energy concepts; development of energy and electricity management systems; testing of apparatus in the field of electrical engineering; monitoring of computer systems via remote access to ensure proper operation; testing, analysis and monitoring of telecommunication signals; software design, namely, design and implementation of computer hardware and software systems; development of software; maintenance and updating of software; integration of computer systems and networks; development, programming and implementation of software; software system integration engineering.

Colour Claim

Colour is claimed as a feature of the trademark. The wording HH WORK WEAR is in black and the slash between the words WORK WEAR is in orange.

Goods

Class 09

(1) Floatation vests, life belts and life jackets, including self-inflating life belts and jackets; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire extinguishers; protective clothing for the prevention of accident or injury; safety goggles; safety spectacles; safety footwear for protection against accident or injury; safety boots and shoes for protection against accident or injury; protective vizors and face shields for protection against accidents; safety helmets; sports eyewear, eye shields for athletic use, goggles for sport; downloadable mobile application for tracking workouts and fitness activities; computer application software for mobile and desktop digital devices, namely, software that allows users to view and purchase a wide range of goods and third-party services and access price-comparison information, discount information and product reviews; wearable activity trackers for monitoring and displaying pulse rate, calories burned, physical activity levels, and the quality of rest; pedometers; portable global positioning system (gps) device

consisting of position sensors; GPS receivers and transmitters; downloadable audio and audiovisual recordings in the field of exercise, sports, and fitness; telephones; computer game; cameras; spectacles; sunglasses; glasses cases; leather cases, wallet cases, carriers and holders adapted for glasses and sunglasses; accessories for mobile phones, namely armbands, belt clips, holsters, hard cases, soft cases and silicone cases, screen shields specially adapted for mobile phones; binoculars; mobile phones, mobile phone chargers; leather cases for mobile phones; cases, holders, straps, carriers for mobile phones; cases, holders, straps, carriers for tablet computers and MP3 players; mouse mats; downloadable virtual goods, namely computer programmes featuring clothing, footwear, headwear, eyewear, bags, sports bags, backpacks, sports equipment, safety equipment and textiles, for use online and in online virtual worlds; downloadable virtual goods, namely, digital images, digital clothing, and digital graphic designs authenticated by non-fungible tokens created with blockchain technology to represent a collectible item.

Class 18

(2) All-purpose carrying bags; bags for sport; duffel bags, briefcases, purses, wallets, card cases, credit card cases, travel luggage, garment bags for travel, key cases, hat boxes of leather and imitation leather, trunks, valises, unfitted vanity cases, harnesses and saddlery, harnesses for guiding children; collars, leads and harnesses for pets; leather and imitation leather laces, leather and imitation leather straps, shoulder belts, animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harnesses and saddlery; articles of clothing, collars, leads and harnesses, for pets; purses; pocket wallets; travelling bags and travelling sets [leatherware]; rucksacks, hand bags, satchels, conference folders; back frames for carrying children.

Class 25

(3) Clothing, namely, shirts, fleece jackets, fleece vests, mittens, gloves; outerwear, namely, jackets, vests, coats, parkas, pants, neck gaiters; outerwear especially adapted for skiing, sailing, hiking and mountaineering, namely, jackets, vests, coats, parkas, pants; rainwear; underwear; sports underwear; gloves [clothing]; belts [clothing]; braces [suspenders] for clothing; scarves; neckerchiefs; footwear, namely athletic footwear, outdoor winter footwear, outdoor summer footwear, ski footwear, sports footwear, casual footwear, work boots, work shoes, sandals and slippers; spats; headwear, namely beanies, ski hoods, hats, caps being headwear, rain hats, balaclavas.

Services

Class 35

Advertising for others in the field of clothing, arranging and conducting trade show exhibitions in the field of clothing and outdoor apparel; retail sales services for protective clothing and headgear for the prevention of accident or injury, safety goggles, safety spectacles, protective footwear for the prevention of accident or injury, safety boots and shoes, protective vizors and face shields for protection against accidents, safety helmets, ear defenders and earmuffs, eye protection wear for sports, eye protectors, goggles, life jackets, computer software, telephones, computer programs, computer games, computer peripherals, battery chargers, photographic equipment, eyewear, spectacles, sunglasses, glasses cases, leather cases, wallets, carriers and holders adapted for glasses and sunglasses, accessories for mobile phones consisting of armbands, belt clips, holsters, hard cases, soft cases and silicone cases, screen shields, binoculars, mobile phones, mobile phone chargers, leather cases for mobile phones, cases, holders, straps, carriers for mobile phones, hands free devices for mobile phones, cases, holders, straps, carriers for tablet computers and MP3 players, mouse mats, bags, briefcases, purses, wallets, card cases, credit

card cases, travel luggage, garment bags for travel, key cases, hat boxes of leather and imitation leather, trunks, valises, unfitted vanity cases, harnesses and saddlery, child harnesses, collars, leads and harnesses for pets, leather and imitation leather laces, leather and imitation leather straps, shoulder belts, animal skins, hides, trunks and travelling bags, umbrellas, parasols and walking sticks, whips, harnesses and saddlery, child harnesses, articles of clothing, collars, leads and harnesses, for pets, purses, pocket wallets, garment bags for travel, travelling bags and travelling sets, bags, rucksacks, hand bags, satchels, folders, back frames for carrying children, textiles and textile fabrics, including plastic coated textile fabrics, cushion covers, curtains, bed covers, duvets, duvet covers, bed linen, blankets, pillowcases, quilts, travelling rugs, picnic blankets, textile coasters, table linen, pillowcases, cushion covers, valances, pillows, curtains, face towels, bath towels, towels [textile], sleeping bags, sleeping bags, tents for camping and mountaineering, camping mattresses, camping furniture, camping stoves, portable pots and pans for camping, clothing, footwear, headgear; retail store services featuring virtual goods, namely, clothing, footwear, headwear, eyewear, bags, sports bags, backpacks, sports equipment, safety equipment, textiles, sleeping bags, tents for camping and mountaineering, camping mattresses, camping furniture, camping stoves, portable pots and pans for camping, electronic goods; online retail store services featuring virtual goods, namely, clothing, footwear, headwear, eyewear, bags, sports bags, backpacks, sports equipment, safety equipment, textiles, sleeping bags, tents for camping and mountaineering, camping mattresses, camping furniture, camping stoves, portable pots and pans for camping, electronic goods, images and videos for use in virtual online environments and virtual online fashion shows; customer loyalty reward programs offering discounted goods; operation of consumer loyalty program.

Goods**Class 07**

(1) Sorting installations and apparatus, namely sensor-based sorting machines for sorting of foods, metals, minerals, gemstones, coal, fuels, foreign materials, recycled materials, namely paper, plastics, glass, rubber and other recycled materials; Sensor-based waste sorting equipment for the separation of recyclable materials such as polymers, plastics, metals, automotive and electronic waste, wood and textiles where the sorting steps may include mechanical, pneumatical, electromechanical waste feeding machine mechanisms and waste ejector machine mechanisms; optical sorting equipment with optical sensors, namely visible, near-visible, infrared, X-ray and laser illuminators and detectors; waste compacting machines; waste grinding machines

Class 09

(2) Electromagnetic sorting equipment with optical sensors, namely visible, near-visible, infrared, X-ray and laser illuminators and detectors; computer software for sensor data processing namely for recognizing, identifying and organizing waste, foods, metals, minerals, gemstones, coal, fuels, paper, plastics, glass, rubber, electronic waste, natural materials, wood, textiles, ore, contaminants, and hazardous materials; data processors, namely image processors, video processors, digital signal processors, neural network processors, spectral analysis and processors; electronic speed controllers for sorting installations; computer hardware to transmit and view spectral data and digital images and to transmit and view information on spectral data and digital images; spectrum analyzers, namely optical spectrometers used to recognize material types and material properties; diffractive optical elements, namely, diffractive gratings and synthetic composite holographic gratings for use in spectrum analyzer

Services**Class 40**

(1) Sorting of foods, metals, minerals, gemstones, coal, fuels, foreign materials, recycled materials, namely paper, plastics, glass, rubber and other recycled materials; sorting of waste; recycling of waste and trash; Processing and transformation, namely, cleaning, refining, filtering, composting, compacting, flattening, shredding, breaking up, granulating, pressing, stamping, cutting, polishing,

melting, hardening, inspecting, analyzing and/or sorting or classifying of waste, polymers, plastics, wood, metals, minerals, gemstones, coal, fuels, paper, glass, rubber, electronic waste, automotive waste, natural materials, textiles, ore, contaminants, and hazardous materials; destruction of waste and trash; color separation services; Providing information relating to the recycling of waste and recycle materials such as information on inspecting, analyzing and/or sorting or classifying of waste, polymers, plastics, wood, metals, minerals, gemstones, coal, fuels, paper, glass, rubber, electronic waste, automotive waste, natural materials, textiles, ore, contaminants, and hazardous materials

Class 42

(2) Engineering services in the field of industrial sorting apparatus, mechanical research and development in the field of machines for industrial sorting of goods including installation construction, namely, sorting plant engineering; design, development and analysis of computer hardware, computer systems, electronics and software for use in industrial sorting apparatus; computer software design for others, namely, creation of sorting algorithms within the framework of computer programs and fixed- circuit hardware; consultancy and design for the use of computer software for sensor data processing and material classification; computer software installation, updating and maintenance for sensor data processing and material classification, remote monitoring of sorting installations for remote analysis and control functions for sorting operations and remote maintenance, namely, remote computer network technical monitoring and software maintenance services; industrial analysis services, namely, computer software technical performance monitoring

Trademark Description

The mark consists of the word "MODINE" with an upside down swoosh mark above the letter "M" and an upright swoosh mark under the letter "M" above the words "ENGINEERING A CLEANER, HEALTHIER WORLD".

Goods

Class 02

(1) Spray-applied corrosion-inhibitors in the nature of preservative coatings designed to protect heat exchangers being parts of machines, and heat exchangers for residential, commercial and industrial use; protective coatings for rust prevention and corrosion control

Class 03

(2) Chemical cleaners directed to the HVAC industry, namely aerosol spray and liquid for cleaning condenser coils of air filters for air conditioning, heating and air filtration units; lime descalers for household purposes and for the HVAC industry

Class 07

(3) Air cooled condensers for air conditioners, for vehicles, refrigeration condensers, data center, industrial and process applications; refrigerant compressors and refrigerator compressor racks; radiators for engines; refrigerated vending machines; oil coolers and radiators for commercial and passenger vehicles

Class 09

(4) Downloadable computer software for the electric control of refrigeration cabinets, chambers, containers, condensers, compressors; capacitors, namely, condensing units, and capacitors, namely, condensers used in industrial refrigeration applications; laboratory equipment, namely, ultra low temperature refrigeration units being temperature controllers for cooling and refrigeration

applications for use in scientific research; central processing unit coolers; refrigeration systems controls being thermostats; battery thermal management systems comprised of batteries and software for controlling energy management systems for electric vehicles, and software for controlling energy management systems for electrical systems for commercial, off-road, and construction vehicles, farm vehicles, and passenger vehicle

Class 11

(5) HVAC systems for use in commercial buildings, residential buildings, vehicles, and laboratories; heat exchangers not being part of machines, namely, condensers, heater cores, radiators, water coils, evaporators, oil and gas coolers for residential and commercial air conditioners, dehumidifiers, and refrigeration systems; heat exchangers being parts of air conditioning systems for vehicles, namely, condensers and evaporators; refrigeration equipment, namely, process chillers for industrial process cooling, cooling towers, air handlers and portable thermoelectric units combining an air cooler and a food and beverage cooler; packaged refrigeration systems, namely, refrigerators for commercial use; refrigerated self-service cases; walk-in coolers; evaporators for industrial refrigeration applications; refrigerated reach-in coolers; ice making machines; refrigeration systems, namely, refrigerators transportable by vehicle or sea transport; heat exchanger coils and tubing specifically adapted for refrigeration equipment, namely, process chillers, cooling towers, unit coolers, air handlers, fluid coolers, refrigerating display cases, and walk in coolers; electric heating elements; heat exchanger coils and tubing therefor, not being parts of machines; heat exchanger coils not being part of machines and not for medical use; coated metal substrate component for air conditioners, particularly coated condensers and evaporators; commercial air conditioning and heat pump units; rooftop HVAC systems for use in commercial buildings to filter, heat, cool, and dehumidify air; air conditioning and heat pump units; gas-fired water heaters for non-residential commercial use; gas fired and hot water space heaters for residential, commercial or industrial use; commercial air conditioning and heat pump units; gas fired heaters for greenhouses; ventilation systems for heating, ventilation and air conditioning for schools and commercial use

Services

Class 37

(1) Maintenance of HVAC systems, namely, applying a spray corrosive-resistant coating to HVAC cabinets for the purpose of protecting the internal components and maintenance of outdoor HVAC cabinets

Class 40

(2) Applying coating for metal substrates, particularly coating heat transfers fins for air conditioner condensers, evaporators, and related components and other metal parts.

Class 42

(3) Providing online non-downloadable computer software to select heat exchangers for air conditioning, refrigeration, industrial and vehicular systems

Class 07

(1) Wood grinding machines; wood planing machines; woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; circular saws [for woodworking]; disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; edging tools being rotary sanding machines for shaping edges; lathes [machine tools]; machine tools being lathes; machine tools for boring being boring machines for metalworking; machine tools for drilling being drilling machines for metalworking, electric drills; machine tools for grinding being grinding tools for grinding machines; machine tools for parting being machine tools for wood cutting machines; machine tools for sawing being power saws; machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; machine tools for woodworking machines; metalworking machine tools; milling tools, namely, machine tools for milling machines;

planing tools, namely, machine tools for planing machines for metalworking; precision grooving tools being cutters for milling machines]; precision parting tools being metalworking machine tools; reamers being machine tools; routers being power tools; saws being metal sawing machines; saw-tooth setting machines for lumbering or woodworking saws; tools for machine tools, namely, bits for mining machines, electric routers, and power drills; industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; pressure regulating apparatus, namely pressure switches being parts of machines; mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; regulators, namely, valved being parts of machines; valves being parts of machines; industrial robots for processing and shaping wood; industrial robots for sewing; industrial robots for shaping glass, metal, plastic material, and wood; industrial robots for working wood and metal; industrial robots for shaping metal; industrial robots for shaping plastic material; industrial robots for shaping wood; robots for machine tools for metalworking machines; assembly line conveyor machinery; automatic conveyor installations; band conveyors; batch sorting machines, namely, machines for sorting workpieces made of wood; belt conveyors; conveyors; guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; hydraulic conveyors; indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; industrial conveyors; industrial robots being conveyors for use in the handling of workpieces; industrial robots for working wood; lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; loading and unloading machines, namely cranes; machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; machines for turning being turning tools for metalworking machine tools; overhead conveyors; pneumatic conveyors; robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; roller conveyors; rotating screw conveyors; screw conveyors; holders for machine tools for metalworking; materials handling machines, namely, high-bay storage machine stackers; workpiece clamping attachments, namely clamping bushings being parts of machines; wood carving machines; assembly machines, namely, conveyor belts and assembling machines for furniture; automotive engine blocks; boring machines for use in woodworking; dividing machines; drilling machines, namely, wood drilling machines, drilling machines for metalworking; drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; edge sealing machines for industrial use; edgers in the nature of wood shaping machines; engine mounts being mounts for metalworking machines; plywood finishing machines; plywood gluing machines; grinding machines for metalworking; jointers being woodworking machines; laminators, namely, laminating machines for industrial use; laser engraving machines for woodworking; machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; machining centres; metal machining centres; milling machines; numerically controlled machining stations consisting of boring machines for metalworking; packaging machines; painting machines; planing machines for metalworking; pressing machines for industrial

purposes, namely, industrial machine presses; sanding machines; sanding machines for woodworking; sealing machines, namely, heat transfer presses; shaping machines for metalworking and compression and injection moulding machines; stacking machines, namely, high-bay storage machine stackers; trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; turning machines being lathes; veneer manufacturing machines.

Class 09

(2) Electronic sensors, namely, pressure sensors, proximity sensors, temperature sensors, and distance sensors; Electronic process controllers, namely, electric control panels, and temperature switches for industrial process control; programmable controllers, namely, programmable electric control panels; sensor controllers, namely for sensors for determining position, velocity, acceleration, and temperature; smart manufacturing system controls comprised of computer hardware and computer software for industrial process control; infrared sensors; internet of things [IOT] sensors being touchscreen sensors; measuring, detecting, monitoring and controlling devices, namely, motion detectors, power controllers for fuel cells, electronic speed controllers; optical sensors; pressure sensors; proximity sensors; temperature sensors; vibration sensors; business technology software for use in managing and controlling industrial machinery maintenance schedules; downloadable cloud computing operating system software for managing and controlling virtual machines on the computer networks; computer operating system software application for use in implementing the internet of things [IOT]; computer-aided engineering [CAE] software; computer-aided manufacturing [cam] software; downloadable computer software for process optimization, for industrial process control, and for computer-aided design/computer-aided manufacturing [CAD/CAM] in the field of furniture; enterprise resource planning [ERP] factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; industrial controls incorporating software, namely, industrial process control software; industrial process control software; industrial software, namely, industrial process control software; manufacturing software, namely, computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; mechanical engineering software, namely, computer software for industrial process control and process optimization in the field of mechanical engineering; optical barcode recognition [OBR] software, namely, computer operating programs for scanning, recognizing, and validating printed barcodes, labels, and alphanumeric text; predictive maintenance software, namely, computer software for use in managing and controlling industrial machinery maintenance schedules in industrial process control; process controlling software, namely, industrial process control software; production support software, namely, computer operating system software for monitoring and controlling factory manufacturing processes; robotic process automation [RPA] software, namely, operating system software for monitoring and controlling communication between computers and automated machine systems; smart manufacturing software, namely, computer operating system software for controlling and configuring the operation of manufacturing machinery; smart manufacturing software, namely, factory automation software for integrating manufacturing machine operations, tracking problems and generating production report; downloadable and recorded computer operating system software for diagnostics and troubleshooting in the field of industrial robots, metalworking, and wood-working machines.

Services

Class 37

(1) Installation services of assembly machines, namely, conveyor belts and assembling machines for furniture; installation services of automotive engine blocks; installation services of boring machines for use in woodworking; installation services of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; installation services of dividing machines; installation services of drilling machines, namely, wood drilling machines, drilling machines for metalworking; installation services of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; installation services of edge sealing machines for industrial use; installation services of edgers in the nature of wood shaping machines; installation services of engine mounts being mounts for metalworking machines; installation services of wood and metal feeding machines for machines for wood and metal shaping; installation services of plywood finishing machines; installation services of plywood gluing machines; installation services of grinding machines for metalworking; installation services of jointers being woodworking machines; installation services of laminators, namely, laminating machines for industrial use; installation services of laser engraving machines for woodworking; installation services of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; installation services of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; installation services of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; installation services of machining centres; installation services of metal machining centres; installation services of milling machines; installation services of numerically controlled machining stations consisting of boring machines for metalworking; installation services of packaging machines; installation services of painting machines; installation services of planing machines for metalworking; installation services of pressing machines for industrial purposes, namely, industrial machine presses; installation services of sanding machines; installation services of sanding machines for woodworking; installation services of sealing machines, namely, heat transfer presses; installation services of shaping machines for metalworking and compression and injection moulding machines; installation services of sorting machines for industry, namely, machines for sorting workpieces made of wood; installation services of stacking machines, namely, high-bay storage machine stackers; installation services of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; installation services of turning machines being lathes; installation services of veneer manufacturing machines; installation services of wood carving machines; installation services of wood grinding machines; installation services of wood planing machines; installation services of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; installation services of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; installation services of circular saws [for woodworking]; installation services of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; installation services of edging tools being rotary sanding machines for shaping edges; installation services of lathes [machine tools]; installation services of machine tools being lathes; installation services of machine tools for boring being boring machines for metalworking; installation services of machine tools for drilling being drilling machines for metalworking, electric drills; installation services of machine tools for grinding being grinding tools for grinding machines; installation services of machine tools for parting being machine tools for wood cutting machines; installation services of machine tools for sawing being power saws;

installation services of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; installation services of machine tools for woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of metalworking machine tools; installation services of milling tools, namely, machine tools for milling machines; installation services of planing tools, namely, machine tools for planing machines for metalworking; installation services of precision grooving tools being cutters for milling machines; installation services of precision parting tools being metalworking machine tools; installation services of reamers being machine tools; installation services of routers being power tools; installation services of saws being metal sawing machines; installation services of saw-tooth setting machines for lumbering or woodworking saws; installation services of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; installation services of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; installation services of pressure regulating apparatus, namely pressure switches being parts of machines; installation services of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; installation services of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; installation services of regulators, namely, valved being parts of machines; installation services of valves being parts of machines; installation services of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; installation services of industrial robots for shaping metal; installation services of industrial robots for shaping plastic material; installation services of industrial robots for shaping wood; installation services of robots for machine tools for metalworking machines; installation services of assembly line conveyor machinery; installation services of automated robotic handling apparatus for loading and unloading of goods, namely, installation of loading and unloading machines; installation services of automatic conveyor installations; installation services of band conveyors; installation services of batch sorting machines, namely, machines for sorting workpieces made of wood; installation services of belt conveyors; installation services of conveyors; installation services of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; installation services of hydraulic conveyors; installation services of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; installation services of industrial conveyors; installation services of industrial robots being conveyors for use in the handling of workpieces; installation services of industrial robots for working wood; installation services of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; installation services of loading and unloading machines, namely cranes; installation services of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; installation services of machines for turning being turning tools for metalworking machine tools; installation services of overhead conveyors; installation services of pneumatic conveyors; installation services of robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; installation services of roller conveyors; installation services of rotating screw conveyors; installation services of screw conveyors; installation services of holders for machine tools for metalworking; installation

services of materials handling machines, namely, high-bay storage machine stackers; installation services of workpiece clamping attachments, namely clamping bushings being parts of machines; repair and maintenance of assembly machines, namely clamping bushings being parts of machines; repair and maintenance of automotive engine blocks; repair and maintenance of boring machines for use in woodworking; repair and maintenance of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; repair and maintenance of dividing machines; repair and maintenance of drilling machines, namely, wood drilling machines, drilling machines for metalworking; repair and maintenance of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; repair and maintenance of edge sealing machines for industrial use; repair and maintenance of edgers in the nature of wood shaping machines; repair and maintenance of engine mounts being mounts for metalworking machines; repair and maintenance of wood and metal feeding machines for machines for wood and metal shaping; repair and maintenance of plywood finishing machines; repair and maintenance of plywood gluing machines; repair and maintenance of grinding machines for metalworking; repair and maintenance of jointers being woodworking machines; repair and maintenance of laminators, namely, laminating machines for industrial use; repair and maintenance of laser engraving machines for woodworking; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; repair and maintenance of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; repair and maintenance of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; repair and maintenance of machining centres; repair and maintenance of metal machining centres; repair and maintenance of milling machines; repair and maintenance of numerically controlled machining stations consisting of boring machines for metalworking; repair and maintenance of packaging machines; repair and maintenance of painting machines; repair and maintenance of planing machines for metalworking; repair and maintenance of pressing machines for industrial purposes, namely, industrial machine presses; repair and maintenance of sanding machines; repair and maintenance of sanding machines for woodworking; repair and maintenance of sealing machines, namely, heat transfer presses; repair and maintenance of shaping machines for metalworking and compression and injection moulding machines; repair and maintenance of sorting machines for industry, namely, machines for sorting workpieces made of wood; repair and maintenance of stacking machines, namely, high-bay storage machine stackers; repair and maintenance of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; repair and maintenance of turning machines being lathes; repair and maintenance of veneer manufacturing machines; repair and maintenance of wood carving machines; repair and maintenance of wood grinding machines; repair and maintenance of wood planing machines; repair and maintenance of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; repair and maintenance of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; repair and maintenance of circular saws [for woodworking]; repair and maintenance of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; repair and maintenance of edging tools being rotary sanding machines for shaping edges; repair and maintenance of lathes [machine tools]; repair and maintenance of machine tools being lathes; repair and maintenance of machine tools for boring being boring machines for

metalworking; repair and maintenance of machine tools for drilling being drilling machines for metalworking, electric drills; repair and maintenance of machine tools for grinding being grinding tools for grinding machines; repair and maintenance of machine tools for parting being machine tools for wood cutting machines; repair and maintenance of machine tools for sawing being power saws; repair and maintenance of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; repair and maintenance of machine tools for woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of metalworking machine tools; repair and maintenance of milling tools, namely, machine tools for milling machines; repair and maintenance of planing tools, namely, machine tools for planing machines for metalworking; repair and maintenance of precision grooving tools being cutters for milling machines; repair and maintenance of precision parting tools being metalworking machine tools; repair and maintenance of reamers being machine tools; repair and maintenance of routers being power tools; repair and maintenance of saws being metal sawing machines; repair and maintenance of saw-tooth setting machines for lumbering or woodworking saws; repair and maintenance of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; repair and maintenance of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pressure regulating apparatus, namely pressure switches being parts of machines; repair and maintenance of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of regulators, namely, valved being parts of machines; repair and maintenance of valves being parts of machines; repair and maintenance of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; repair and maintenance of industrial robots for shaping metal; repair and maintenance of industrial robots for shaping plastic material; repair and maintenance of industrial robots for shaping wood; repair and maintenance of robots for machine tools for metalworking machines; repair and maintenance of assembly line conveyor machinery; repair and maintenance of automated robotic handling apparatus for loading and unloading of goods, namely, maintenance and repair of loading and unloading machines; repair and maintenance of automatic conveyor installations; repair and maintenance of band conveyors; repair and maintenance of batch sorting machines, namely, machines for sorting workpieces made of wood; repair and maintenance of belt conveyors; repair and maintenance of conveyors; repair and maintenance of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; repair and maintenance of hydraulic conveyors; repair and maintenance of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; repair and maintenance of industrial conveyors; repair and maintenance of industrial robots being conveyors for use in the handling of workpieces; repair and maintenance of industrial robots for working wood; repair and maintenance of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; repair and maintenance of loading and unloading machines, namely cranes; repair and maintenance of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator

conveyors; repair and maintenance of machines for turning being turning tools for metalworking machine tools; repair and maintenance of overhead conveyors; repair and maintenance of pneumatic conveyors; repair and maintenance of robotic mechanisms, namely, lifting cranes for the transport of goods and elevator conveyors; repair and maintenance of roller conveyors; repair and maintenance of rotating screw conveyors; repair and maintenance of screw conveyors; repair and maintenance of holders for machine tools for metalworking; repair and maintenance of materials handling machines, namely, high-bay storage machine stackers; repair and maintenance of workpiece clamping attachments, namely clamping bushings being parts of machines.

Class 42

(2) Industrial engineering consultancy services; mechanical engineering services; software installation; software creation; development of computer hardware; computer software consulting; design and development of computer software for supply chain management; technical project planning in the field of woodworking machines and furniture manufacture; technical project planning in the field of industrial and mechanical engineering; computer software development; updating of software; industrial and mechanical engineering services for the analysis of machinery; research and development services in the field of industrial and mechanical engineering; design of manufacturing methods, namely, design, development and programming of software for use in automated manufacturing; development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (CAD/CAM); providing quality control for the computer software development industry; quality control testing services for industrial machinery; industrial engineering services relating to machine tool design; industrial engineering services relating to robotics; process monitoring for quality assurance, namely, quality control testing services for industrial machinery; computer aided industrial analysis services in the field of industrial and mechanical engineering services for others; design and development of computer software for process control; tool design; industrial design services; software design and development; software as a service (SaaS) for real-time reviewing, analysis, and evaluation of the quality of services provided by others in the field of customer service; software as a service (SaaS) featuring computer software to integrate manufacturing machine operations, track problems and generate production reports; software as a service (SaaS) featuring computer software for process optimization and for industrial process control; creating, maintaining, and updating computer software; development of computer software for computer aided design/computer aided manufacturing [CAD/CAM]; design and development of software for inventory management.

Claims

Priority Filing Date: October 17, 2022, Country or Office: EUIPO (EU), Application No: 018777145 in association with the same kind of goods and in association with the same kind of services

Application Number 2,262,532
International Registration Number 1734199
Language of Application English

Filing Date 2023-04-05

APPLICANT AND AGENT DETAILS

Applicant

Mirantis, Inc.
900 E. Hamilton Ave., Suite 650
Campbell CA 95008

Class 09

(1) Downloadable computer software and hardware for providing compute, storage and networking resources in a datacenter; downloadable software for controlling compute, storage, and networking resources in a datacenter; downloadable software for provisioning, managing, testing and updating multiple cloud computing environments from a single interface.

Class 16

(2) Printed certificates; printed matter, namely, paper signs, books, manuals, curricula, newsletters, informational cards and brochures in the field of information technology.

Services

Class 35

(1) Business consultation in the field of information technology; and consultation services in the field of employee recruitment, training and short-term placement.

Class 38

(2) Providing an on-line forum for users to discuss questions, share ideas and contact support in the field of information technology; Providing on-line electronic bulletin boards for transmission of messages among computer users concerning information technology.

Class 41

(3) Educational services, namely, conducting programs in the field of computer infrastructure and software services; Educational services, namely, providing training of information technology professionals for certification in the field of software installation and management; IT training services in the field of cloud computing.

Class 42

(4) Computer programming and software design; Computer services, namely, integration of private and public cloud computing environments; Computer software consulting; Computer technology support services, namely, help desk services; Consulting in the field of information technology

relating to cloud computing; Design and development of computer software; Installation and maintenance of computer software; Platform as a service (PAAS) featuring computer software platforms for controlling compute, storage, and networking resources in a datacenter; Providing on-line non-downloadable software for controlling compute, storage, and networking resources in a datacenter; Research, development, design and upgrading of computer software; Software development in the field of management of computing infrastructure; Technical advice relating to operation of computers; Technical support services, namely, troubleshooting of computer software problems; Updating and maintenance of computer software.

Class 09

(1) Downloadable software in the nature of downloadable virtual goods in the nature of image files of carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, and water bottles all authenticated by non-fungible tokens (NFTs); downloadable software in the nature of downloadable virtual goods in the nature of image files of clothing and headgear, headwear, cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit, sports drinks, mineral and aerated water as well as other non-alcoholic beverages all authenticated by non-fungible tokens (NFTs); downloadable software in the nature of downloadable virtual goods in the nature of image files of fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages all authenticated by non-fungible tokens (NFTs); downloadable software in the nature of downloadable virtual goods in the nature of image files of carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, and water bottles for use in online environments, virtual online environments, extended virtual reality environments, and metaverses; downloadable software in the nature of downloadable virtual goods in the nature of image files of clothing and headgear, headwear, cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit for use in online environments, virtual online environments, extended virtual reality environments, and metaverses; downloadable software in the nature of downloadable virtual goods in the nature of image files of sports drinks, mineral and aerated water as well as other non-alcoholic beverages for use in online environments, virtual online environments, extended virtual reality environments, and metaverses; downloadable software in the nature of downloadable virtual goods in the nature of image files of fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages for use in online environments, virtual online environments, extended virtual reality environments, and metaverses; downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling images files

of virtual goods, namely, carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, and water bottles; downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling images files of virtual goods, namely, clothing and headgear, headwear, cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit; downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling images files of virtual goods, namely, sports drinks, mineral and aerated water as well as other non-alcoholic beverages, fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages; downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling virtual goods in the nature of image files of carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, and water bottles, all authenticated by non-fungible tokens (NFTs); downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling goods in the nature of image files of clothing and headgear, headwear, cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit, all authenticated by non-fungible tokens (NFTs); downloadable software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling goods in the nature of image files of sports drinks, mineral and aerated water as well as other non-alcoholic beverages, fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages, all authenticated by non-fungible tokens (NFTs); software and apps, namely, downloadable software for creating, modifying, and sharing images files of virtual goods; software, namely, downloadable computer software for creating and managing image files of virtual goods authenticated by non-fungible tokens (NFTs); software, namely, downloadable computer operating software for virtual environments and virtual worlds; software, namely, downloadable computer game software for virtual environments and virtual worlds; software and apps, namely, downloadable computer application software for creating image files for use in virtual environments; software and apps, namely, downloadable computer application software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling images files of virtual goods; software, namely, downloadable software for sending and receiving image files authenticated by non-fungible tokens (NFTs); software and apps, namely, downloadable interactive multimedia software featuring audio, video, and written information for consumers on the subject of dietary supplements, nutritional supplements, energy gels, powder drink mixes, drink concentrates, drink powders, nutrition, health, wellness, and fitness; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for providing information about and facilitating the purchase of dietary supplements, nutritional supplements, energy gels, powder drink mixes, drink concentrates, and drink powders; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for analyzing user data, health conditions, and health goals to provide recommendations for dietary supplements, nutritional supplements, energy gels, powder drink mixes, drink concentrates, drink powders, nutrition, health, wellness, and fitness; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for health, wellness, and fitness tracking; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for facilitating community forums and support

channels; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for health, wellness, and nutrition tracking and assessment; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for calculating timing of and reminders to taking dietary supplements, nutritional supplements, energy gels, powder drink mixes, drink concentrates, and drink powders; software and apps, namely, downloadable computer application software for mobile phones, tablets, smart phones, computers, smart watches, and handheld computers, namely, software for tracking orders, viewing order history, and managing purchases in the fields of dietary supplements, nutritional supplements, energy gels, powder drink mixes, drink concentrates, drink powders, nutrition, health, wellness and fitness

Class 21

(2) Insulated containers and bottles for food or beverages sold empty; water bottles sold empty

Class 30

(3) Cereal bars; oat bars; bars based on wheat; high-protein cereal bars; snack bars containing a mixture of grains, nuts and dried fruit [confectionery].

Services

Class 35

(1) Retail services regarding carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, water bottles, clothing and headgear, cereal bars; retail services regarding oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit, sports drinks, mineral and aerated water as well as other non-alcoholic beverages; retail services regarding fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages; online retail store services featuring virtual goods, digital goods, digital assets, digital collectibles namely virtual goods, digital goods, digital assets, digital collectibles namely carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, water bottles; online retail store services featuring virtual goods, digital goods, digital assets, digital collectibles namely clothing and headgear, cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit; online retail store services featuring virtual goods, digital goods, digital assets, digital collectibles namely sports drinks, mineral and aerated water as well as other non-alcoholic beverages, fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages; provision of online marketplaces for buyers and sellers of virtual goods, digital goods, digital assets, digital collectibles, digital tokens and non-fungible tokens (NFTs) in relation to carbonic hydrates, sugar, syrup, gels with carbonic hydrates for use as food supplements, insulating containers and bottles, water bottles, clothing and headgear; provision of online marketplaces for buyers and sellers of virtual goods, digital goods, digital assets, digital collectibles, digital tokens and non-fungible tokens (NFTs) in relation to cereal bars, oat bars, bars based on wheat, high-protein cereal bars, snack bars containing a mixture of grains, nuts and dried fruit, sports drinks, mineral and aerated water as well as other non-alcoholic beverages; provision of online marketplaces for buyers and sellers of virtual goods, digital goods, digital assets, digital collectibles, digital tokens and non-fungible tokens (NFTs) in relation to fruit beverages and fruit juices, syrups and other concentrates for making beverages, preparations, powders and concentrates for making beverage and nutritionally fortified beverages.

Class 41

Trademark Description

The mark consists of a partial square with the word "HYAXIOM" partially inside the square.

Goods

Class 07

(1) Mobile electric power generators; mobile electric generators using hydrogen and fuel cell technology for heating and air conditioning by using hydrogen and fuel cell technology; hydrogen-based electric generators for heating and air conditioning using fuel cell technology.

Class 09

(2) Fuel cells; electrochemical devices, namely, fuel cells; electrochemical devices configured for energy storage, namely, electrolyzers; fuel cells configured for energy storage; fuel cells and structural parts thereof, fuel cell control systems comprised primarily of pressure sensors, ammeters and automatic valves, and structural parts thereof; electric control devices for energy management, namely modules, computers, boards, wires, relays, and fuses for fuel cell electricity production and electrolyzer hydrogen production; computer programs for energy management, namely downloadable computer programs that enable electricity production for fuel cells and hydrogen production electrolyzers; testing and measuring equipment for use in testing the performance and efficiency of fuel cell equipment; charging stations for electric vehicles equipped with fuel cells and hydrogen-based generators.

Class 11

(3) Hydrogen-generation equipment and components, namely, hydrogen generators, hydrogen purifiers, hydrogen purification membranes, fuel processors, and steam reformers; fuel cell power plants; fuel cell power plants configured for recouping energy in pipeline applications, namely,

natural gas pipelines; fuel cell power plants configured for capturing carbon emissions; fuel cell power plants configured for hydrogen production; fuel cell power plants configured for hydrogen separation; fuel cell power plants configured for energy storage.

Services

Class 35

(1) Business operation of power generation equipment and facilities for others featuring fuel cells and hydrogen-based electric generators for heating and air conditioning using fuel cell technology; wholesale and retail store services featuring fuel cells and hydrogen-based electric generators for heating and air conditioning using fuel cell technology; wholesale and retail store services of hydrogen as renewable energy.

Class 36

(2) Financing of power plants and fuel cells for others.

Class 37

(3) Installation, repair and maintenance of fuel cells, hydrogen-based electric generators for heating and air conditioning using fuel cell technology, and related structural parts, control systems, energy management and storage systems therefor; repair and maintenance of charging stations services using fuel cells and hydrogen-based generators.

Class 40

(4) Generation of power, for heating and air conditioning through operation of equipment and installations of fuel cells and hydrogen-based generators; production of hydrogen; production of fuel cells; custom manufacture of hydrogen-based electric generators for heating and air conditioning using fuel cell technology, and related structural parts, control systems, energy management and storage systems therefor; custom manufacture of testing and measuring equipment for use in testing hydrogen, fuel cells, hydrogen-based generators of electricity with fuel cell technology; providing technical information in the field of chemical manufacturing, namely, hydrogen, and fuel cells; providing technical information in the field of power generation, namely, hydrogen-based electric generators for heating and air conditioning using fuel cell technology.

Class 42

(5) Scientific and technological services, namely, scientific research in the field of electrochemistry, electrochemical device performance, fuel cell technology, hydrogen production, material science, system engineering; remote monitoring of the functioning and use of electrical equipment, namely, fuel cells and hydrogen-based electric generators for heating and air conditioning using fuel cell technology; providing engineering services in the field of energy efficiency related to fuel cells equipment and hydrogen-based electric generators for heating and air conditioning using fuel cell technology; technical consultation in the field of environmental science, electrical and energy engineering, design for others in the field of energy engineering, designing and testing of energy products for others, namely, fuel cells and hydrogen-powered electricity generators; computer programming; computer programming for estimating and controlling the most appropriate distribution of electrical power, for heating and air conditioning; computer programming for energy management.

Design

Visual Representation

The logo for PichiAvo is displayed in a bold, black, stylized font. The letters are thick and rounded, with a playful, slightly irregular design. The 'P' and 'A' are particularly prominent, with the 'A' having a unique shape that integrates with the 'V'. The overall impression is one of a modern, artistic brand identity.

Colour Claim

Colour is claimed as a feature of the trademark. Black. The trademark consists of the designation "PICHIAVO" in fanciful characters in black

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the word SILO in red, and underlined by a red line ending on its right side in a red circle that partially covers the blue word CONNECT; the expression BY NANOLIKE, in blue, appears below the red line.

Goods

Class 09

Data acquisition and processing apparatus for the remote monitoring, tracking and control of industrial and logistics operations as well as industrial equipment, namely computer hardware, smart terminals, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; apparatus for the collection and processing of computer data related to product storage and supply chains, namely computer hardware, smart terminals, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; downloadable and recorded computer software and applications for industrial automation and logistics, for the remote monitoring, tracking and control of product inventory and supply chain management; computer software and applications for supply chain management; software for controlling industrial and logistics operations, namely logistics software for the remote control of product inventory and supply chain management; electric installations in the nature of electric apparatus comprising computer hardware and downloadable and recorded software for the remote monitoring, tracking and control of product inventory management, industrial and logistics operations, software and applications used on mobile devices for on-site logistics management; electric data processing apparatus and instruments for weighing and measuring liquids and performing product inventories, namely, electronic weighing scales for industrial use, electronic flow meters, position sensors, liquid level sensors, product inventory level sensors, load sensors, filling level sensors, weight sensors, pressure sensors; data processing apparatus, namely connected level indicators and level gauges for liquid levels and product inventory levels; connected sensors and transmitters

indicating level, load, filling and weight in containers, silos, tanks, intermediate bulk containers and industrial tanks in order to determine, track, control and manage liquid volumes and product inventory; connected filling level detectors for silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for locating silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for the control of input and output, equipment, liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for the collection, treatment and transmission of data related to the location, filling, control and monitoring of silos, tanks, intermediate bulk containers and industrial tanks; logistics software in the nature of software for flow tracking and the storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks in the context of product inventory and supply chain management; apparatus, namely computer hardware and downloadable and recorded software used to remotely view liquid and industrial product inventory levels in silos, tanks, intermediate bulk containers and industrial tanks; remote control apparatus, namely controllers for video monitors, for weight, temperature, humidity, position, volume, level sensors, for measuring devices, for weight, temperature, humidity, position and volume detectors and instruments, connected for the monitoring of levels, loads, filling and weights of liquids and for industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; electronic apparatus, namely computer hardware and downloadable and recorded software for security alerts related to supply chains; electronic apparatus, namely video surveillance cameras and downloadable and recorded software for temperature control and monitoring in silos, tanks, intermediate bulk containers and industrial tanks; electronic systems for temperature control, other than for medical use, in the nature of weight, temperature, humidity, position, level and volume controllers for silos, tanks, intermediate bulk containers and industrial tanks; interactive computer databases for supply chain management and optimization, namely for use in locating, filling, controlling and monitoring liquid and product inventory levels in silos, tanks, intermediate bulk containers and industrial tanks; software and application featuring a decision-making tool for procurement, logistics, flow management and storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks in the context of supply chain management; downloadable and recorded computer software for supply chain management optimization and product storage for industrial and logistics operations; downloadable and recorded software and computer hardware for data aggregation, analysis and processing for procurement, logistics, flow and storage management of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks by incorporating a collective work and communication environment that enables collaborative work and communication as well as resource and data pooling; temperature sensors, humidity sensors, level sensors, volume sensors, weight sensors and position sensors, electronic apparatus, namely computer hardware and downloadable and recorded software for planning, executing, integrating, optimizing, tracking procurement, logistics, flow management and storage of liquids and industrial products in silos, tanks, intermediate bulk containers and industrial tanks.

Services

Class 42

Scientific and technical analysis and research in the field of remote monitoring, tracking and control of the management of product inventory and supply chains as well as industrial equipment, namely, computer hardware, smart terminals, position sensors, liquid level sensors and product inventory level sensors, weight sensors, volume sensors; research regarding the computerized automation of industrial and logistics processes in the field of product inventory and supply chain

management; monitoring services for industrial and logistics processes, namely provision of technology information updates for downloadable and recorded software for industrial process control and inventory monitoring via global computer networks; design and development of software and applications for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; software as a service [SaaS] for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; maintenance and upgrading of software and applications for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial products inventory in silos, tanks, intermediate bulk containers and industrial tanks; computer platform as a service [PaaS] for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; artificial intelligence platforms being software as a service [SaaS] for supply chain management for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; provision of artificial intelligence computer programs on data networks for supply chain management and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; design, development and programming of software and applications for inventory management; data automation and collection services using proprietary software for service data evaluation, analysis and collection [computer services], related to supply chains, and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; recovery of computer data, storage of electronic data and hosting of computer databases related to third-party supply chains and related to the monitoring of levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; development, hosting and maintenance of computer databases related to third-party supply chains and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; cloud storage for electronic data related to third-party supply chains and for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; technical consulting services related to the implementation and use of hardware and software for supply chain management and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; provision of online non-downloadable software used for supply chain management and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; testing services to determine supply chain conformity; technological research for industrial and logistics processes; development and testing of methods, algorithms and computer software for supply chain management; data automation and collection services using proprietary software for service data evaluation, analysis and collection [computer services], for supply chain management, and software for the monitoring of the levels, load, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks; expert services in the nature of quality control and engineering services for others in the field of supply chain management and downloadable and recorded software for the remote monitoring of levels, loads, filling and weight of liquids and industrial product inventory in silos, tanks, intermediate bulk containers and industrial tanks.

Position

Visual Representation

Trademark Description

The trademark consists of the position of the colours orange and grey applied to the visible portions of a tire grapple attachment for heavy machinery. The portions of the tire grapple attachment shown in dashed outlines do not form a part of the trademark and merely show the position or placement of the trademark on the goods.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the combination of the colours orange and grey. The grapping jaws are orange and the support structure along which the grapping jaws travel are grey. The triangular actuator plate adjacent to the support structure is orange.

Goods

Class 07

Design

Visual Representation

The trademark 'ALLFUN' is displayed in a bold, black, sans-serif font. The letters are thick and blocky, with a slightly irregular, hand-drawn feel. The 'A' and 'F' are particularly prominent, with the 'F' having a thick vertical stem and a horizontal top bar. The 'L' is also thick and blocky. The 'U' and 'N' are rounded and thick. The overall impression is one of a strong, memorable brand name.
