Trademark Description

The mark consists of figures and words. The mark is a quadrangle, with bronze upper and lower borders, the background of which is divided into two parts by a diagonal: the background near the upper border is green, covered with stylized cloud-shaped patterns; the background near the lower border is covered with alternating gray and white parallel diagonals. Standing out against the green background is a stylized three-legged dragon in bronze with different intensities, the outer border and ridges on the dragon's body are white, the dorsal line is green. In the upper left next to the dragon's paw is a translucent green circle, inside the circle showing the words "GOLD MEDAL" and faint motifs in green. At the bottom, superimposed on part of the dragon's tail is the word "BIA SAIGON SPECIAL" expressed in 3 lines, in which the word "BIA SAIGON" in white shadows black, the word "SPECIAL" in bronze shadows black, and the Vietnamese word "BIA" means "BEER" in English. To the left of the word "BIA" is "EST." white stands for the word "ESTABLISHED". To the right of the word "BIA" is "1875" in white. Below the word "SPECIAL" are three decorative patterns in the shape of a gray circle located next to each other, flanked by two gray barley branches bent in the curve of the circle. Superimposed on three circles is the stylized, italic green words "Yakima Hops", which "Yakima" has no meaning. Below the three circles is the words "PREMIUM QUALITY BEER FROM VIETNAM" in green.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The mark consists of a rectangle with the two bronze outlines at the top and bottom; the rectangle is divided by a diagonal line into two unequal portions in which the larger portion is green with a pattern of curves in gray, and the smaller portion is gray with white diagonal parallel lines; in the middle of the rectangle consists a stylized dragon device in bronze and white; to the upper left of the dragon is an award logo with the design and the words "INTERNATIONAL BEER AWARDS GOLD MEDAL" all in dark green; the words "BIA SAIGON" are presented in two lines in white with black borders, the word "EST." and numeral "1875" are presented in white above the letters "S" and "N" of the word "SAIGON", the word "SPECIAL" is presented in bronze with black outline, the words "YAKIMA HOPS" and "PREMIUM QUALITY BEER FROM VIETNAM" appear in green; and in the background of the words "Yakima Hops" appears an awards logo in grey.

Disclaimer

Certification Mark Standard

TSM is a globally recognized sustainability program that supports mining companies in managing key environmental and social responsibilities. Individual facilities evaluate their environmental and social performance based on the standard and then have the results externally verified and publicly reported. Participation in the TSM program is mandatory for TSM partner organizations that have signed TSM agreements. Participation is also open to mining companies that have requested to utilize the TSM standard and paid the per-facility subscription fee in full. Participating mining companies are those that are members of TSM partner organizations, who must use the standard to evaluate domestic mine performance. Use of the TSM standard by members in jurisdictions outside of their national boundaries is welcome but strictly voluntary. This standard requires adherence to the following Protocols: 1. Indigenous and Community Relationships Building strong relationships with our communities of interest, in particular Indigenous communities, is a fundamental component of TSM. The indicators of the Indigenous and Community Relationships Protocol are supported by detailed criteria to determine whether: · Processes are in place to identify communities of interest, including Indigenous communities and organizations. · Processes have been established to support the development and maintenance of

meaningful relationships with communities of interest. · Mining facilities are actively building meaningful relationships and implementing engagement and decision-making processes with Indigenous communities. · Processes have been established to mitigate adverse community impacts and optimize social benefits generated from facilities. · Processes are in place to respond to incidents, concerns, and feedback from communities of interest.

2. Safety and Health Protecting the health and safety of employees, contractors and communities is deeply ingrained in the culture of the mining industry. The indicators of the Safety and Health Protocol determine whether a facility:

- Has made senior management accountable for the safety and health of employees and contractors.
- Has processes in place to prevent incidents.
- Sets safety and health targets for continuous improvement and meets them.
- Monitors and publicly reports safety and health performance.
- Conducts risk-based training for all employees, contractors and visitors, and fosters a culture of safety.

3. Crisis Management and Communications Planning The Crisis Management and Communications Planning Protocol provides mining companies with the tools needed to effectively manage and communicate about a crisis at a facility or at the corporate level. Where the crisis is caused by a physical emergency, such as a fire or flood, the tools offered in this protocol are intended to work in conjunction with emergency response plans at the facility. The indicators of the Crisis Management and Communications Planning Protocol determine whether a company's corporate office and facilities:

- Have developed crisis management and communications plans and have teams in place to support the execution of these plans.
- Engage with local emergency responders such as fire, police and ambulance.
- Regularly review crisis management and communications plans and conduct crisis simulation training exercises.

The Crisis Management and Communications Planning Reference Guide provides recommendations, suggestions and examples to support companies in implementing this protocol.

4. Preventing Child and Forced Labour The Preventing Child and Forced Labour Protocol requires companies to verify that processes are in place to ensure that neither child nor forced labour, as defined by the relevant International Labour Organization conventions, occur at facilities that implement TSM. The indicators of the Preventing Child and Forced Labour Protocol require companies to verify that:

- There are processes in place commensurate to jurisdictional risks to ensure that forced labour is not used, that no child under the age of 15 is employed, and that no child under 18 engages in particularly hazardous work.
- Supply chains and recruitment agencies are monitored for human trafficking and forced labour, where there is a high risk of forced labour.

5. Biodiversity Conservation Management TSM supports mining companies in adopting best practices in biodiversity conservation management through all stages of a mine's life cycle. The indicators of the Biodiversity Conservation Management Protocol determine whether a facility:

- Has made formal commitments to manage biodiversity at the site.
- Has identified significant biodiversity aspects and is implementing action plans.
- Partners with interested stakeholders on conservation planning.
- Publicly reports on its biodiversity activities and performance.

6. Tailings Management Tailings facilities are necessary components of mining activity, but it is crucial that these facilities be managed responsibly to protect human safety and the environment. TSM tailings management guides are used around the world. These include A Guide to the Management of Tailings Facilities (the Tailings Guide) and Developing an Operation, Maintenance and Surveillance Manual for Tailings and Water Management Facilities (the OMS Guide). The guides outline best practices in safe tailings management for facilities and the Tailings Management Protocol measures adherence to these guides, determining whether a facility:

- Has a policy and commitments in place to safely manage tailings facilities.
- Has implemented a tailings management system that conforms with the guides mentioned above.
- Has assigned accountability for tailings management to both a senior executive and the company's board of directors.
- Conducts an annual tailings management review.
- Has implemented an Operation, Maintenance and Surveillance Manual that conforms with the OMS Guide.

7. Water Stewardship The Water Stewardship Protocol includes a

set of performance indicators to measure water management at the mine site and engagement in multi-stakeholder activities to govern and manage watershed activities. The indicators of the Water Stewardship Protocol determine whether a facility:

- Has a commitment and accountabilities in place and has communicated to relevant communities of interest to support water stewardship.
- Has implemented an operational water management system.
- Participates in watershed-scale planning.
- Conducts water reporting focused on performance outcomes at the site level.

8. Climate Change The TSM Climate Change Protocol is designed to support mining companies in managing their climate-related risks and opportunities, including associated mitigation and adaptation strategies, target-setting, and reporting. The indicators of this protocol determine whether a company has:

- Corporate commitments, governance, and processes at the board and management levels to support the consideration of climate change implications in business strategy.
- Facility-level systems to manage energy, GHG emissions, physical climate impacts and adaptation.
- Facility-level energy and GHG emissions performance targets and annual reporting on energy, GHG emissions, potential physical climate impacts, and adaptation measures.

Trademark Description

The mark consists of a circular ring with a clear center, and inside the ring, an abstract letter "F" comprising only the two horizontal strokes of the letter "F" and not the vertical stroke of the letter "F". The two horizontal strokes have their left-hand sides start at a not-visible vertical line transecting the ring, and the horizontal strokes angle up slightly as the strokes extend to the right. The upper horizontal stroke connects with the inside surface of the circular ring, and the lower horizontal stroke is parallel to the upper horizontal stroke. It extends for about half of the inner radius of the circular ring, such that it does not touch the circular ring.

Colour Claim

Colour is claimed as a feature of the trademark. The words "Fleury Michon" are white and appear inside a green (PANTONE* 348) rectangle. Two white lines also appear, one on the upper part and one on the lower part of said green rectangle. Under the words "Fleury Michon", there is a small, curved, light green (PANTONE* 368) line, above a larger, curved, red (PANTONE* 485) line alluding to a smile. The black part of the background of the image does not form part of the mark and is merely intended to highlight the white lines. *PANTONE is a registered trademark.

Trademark Description

The mark consists of the phrase BIG KIDS' MEAL, with BIG KIDS' appearing above the word MEAL, which is situated under the word KIDS', all in yellow stylized text shaded in black with a shadow effect and a light reflecting effect on the letter B of the word BIG and the letter M of the word MEAL. Directly to the left is a round design featuring an animated yellow chicken with large round eyes, black irises and white sclera with a grey outline. The chicken has an open mouth with red lips, red jowls, and a red Mohawk/comb. The chicken design is contained within a grey circle and an outer black circle. The literal element "DAVE'S HOT CHICKEN" surrounds the chicken design. The literal element "EST. 2017 HOLLYWOOD BLVD." is displayed in the lower right area of the mark, to the right of the chicken design. All the wording is in black.
