Trademarks Journal

2025-09-24 — Vol. 72 No. 3700

Trademarks Journal

Vol. 72 No. 3700

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Colour Claim

Colour is claimed as a feature of the trademark. The letters of the mark ACTEMIUM are blue. The upper oval shape to the left of the letter A in the mark is green. The lower oval shape to the left of the letter A in the mark is blue.

Goods

Class 07

(1) Machines, machine tools and their parts, namely conveyors, grippers, vibratory bowls, rotating trays, shielding hoods being machine parts; electric welding machines; hydraulic presses for stamping; dipping and quenching machines for metal products; machine coupling and transmission components, except for land vehicles; transmission belts for machines; power-operated sanding machines; collating machines; robotic arms for assembling; deburring machines for mechanical parts; assembly line conveyor machinery; hydraulic and pneumatic motors for industrial machinery, namely for continuous processes, machine tools and assembly machines; brakes for industrial machinery; hydraulic and pneumatic cylinders; mufflers for motors and engines; blending machines for chemical processing; industrial mechanical presses.

Class 09

(2) Apparatus for emitting, recording, transmitting or reproducing sound and images, namely sound amplifiers, sound bars, electrical cables for transmitting sound and images, sound mixers, sound recording discs, image scanners, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location, image intensifier tubes; magnetic recording media in the form of hard drives, CDs, DVDs, CD-ROMs, magnetic stripe cards for recording data, films, photographs, music, sound and images in the manufacturing, gas, oil, chemistry, environmental, agri-food and pharmaceutical industries; magnetic data carriers in the form of optical discs containing information in the manufacturing, gas, oil, chemistry, environmental, agri-food and pharmaceutical industries; computer database servers; computer memory expansion modules; software for processing data from recorded programs in the

manufacturing, gas, oil, chemistry, agri-food and pharmaceutical industries; software for creating, managing, updating and using databases; logistics management software packages in the manufacturing, gas, oil, chemistry, environmental, agri-food and pharmaceutical industries; software and computer programs for document management and for data collection and acquisition in the manufacturing, gas, oil, chemistry, environmental, agri-food and pharmaceutical industries; computer software and programs for connecting management systems, namely computer-aided design/manufacturing software; downloadable software for instant messaging and electronic mail services; software for monitoring computer network access and activity; software for the transmission of computer data in the manufacturing, gas, oil, chemistry, environmental, agri-food and pharmaceutical industries; scientific and electrical control apparatus and instruments, namely heavy and light current circuits, distribution boxes for electrical power, electricity conduits, electricity ducts, electrical connection boxes, electrical relays and transformers; measuring apparatus and instruments, namely meters for measuring electrical resistance, meters for measuring electric current, counters for measuring gas flow rate, electromagnetic measuring detectors; signalling apparatus and instruments, namely digital signage monitors; continuity and insulation defect inspection tools, namely continuity testers and insulation resistance meters; remote detection apparatus, namely laser object detectors for use on vehicles, optical character recognition apparatus and optical fibre detectors; universal tension and compression testing machines.

Class 11

(3) Fluorescent, infrared, LED indoor and outdoor lighting apparatus, ; electric heating apparatus for industrial buildings and processes; steam generating apparatus, namely steam generators, steam generating installations; electric and gas apparatus for cooking, namely industrial ovens and furnaces; refrigeration apparatus for industrial process refrigeration, namely, in the agri-food field; apparatus for drying, namely industrial drying kilns, chemical fibre drying machines, plywood drying machines; apparatus for ventilating, namely ventilation hoods, circulating fans; air conditioning apparatus, namely central air conditioning installations for industrial use, industrial air conditioning radiators, air conditioning systems, fans for air conditioning units, reversible heat pumps; air conditioning apparatus, namely installation of ventilation as air conditioning for constructions, air conditioning installations for land and water vehicles and for household purposes; water distribution installations in the nature of automatic water dispensers for use in industrial processes; municipal waste water purification installations; solar collectors and accumulators; heat pumps; electrically powered heat exchangers for industrial use; automatic temperature regulators for industrial central heating radiators; furnaces for use in the industry of glass, ceramics, for drying and firing for commercial use; garbage incinerators; industrial air filtering units for removing dust from the air; refining towers for distillation.

Services

Class 35

(1) Computer database management services, business administration and supervision for the operation of computer networks for others on behalf of their owners; computer file management; computer data entry services and computer data processing services in the manufacturing, gas, oil, chemistry, agri-food and pharmaceutical industries; advisory service in database and computer file management; updating and maintenance of data in computer databases; business appraisals; business productivity expert services; advisory services for business management in various fields; assistance in the management of commercial and industrial businesses; economic forecasting.

Class 37

(2) Construction of buildings; public works, namely construction of airports, dams, roads, plants for the manufacturing, gas, oil, chemistry, environment, agri-food and pharmaceutical industries; rural works, namely installation of rainwater drainage systems, water well drilling, septic tank servicing; electrical system installation; power line installation; installation and restoration services for all industrial items and equipment, namely pressure and temperature sensors, flow meters, level sensors, gas and smoke analyzers.

Class 42

(3) Technological research and development services for others in various industries, namely the manufacturing, gas, oil, chemistry, environmental, agri-food, pharmaceutical, marine and road transport industries; tests, measurements and laboratory analysis of dimensions, constraints, vibration, impacts, temperature, electrical fields and magnetic materials used in the field of construction of buildings; technical consulting, expertise and analysis services in the field of computer networks; technical consulting, expertise and analysis services for the transmission of data in the manufacturing, gas, oil, chemistry, environmental, agri-food, pharmaceutical, marine and road transport industries; development (design) of software and software packages intended for control systems for industrial manufacturing; development (design) of computer software packages for use in the creation of production information systems including the management, optimization and tracking of production and manufacture operations in the industrial field.

Goods

Class 11

(1) Apparatus for lighting, namely, lighting fixtures, heating, cooling, and air conditioning, namely, air conditioners with a secondary heating function, and air filters for heating, ventilating, and air conditioning (HVAC) systems for residential and commercial buildings, humidifying, namely, humidifiers, dehumidifying, namely, dehumidifiers, ventilating, namely, ventilating fans, cooking, namely, cooking ovens for household and professional purposes, cooking grills, cooking ranges, and cooking stoves, refrigerating, namely, electric refrigerators, washing, drying, namely, combination dryer-washers, plumbing, water supply, and sanitary purposes, namely, bathtubs, sinks, showers, and toilets; light bulbs, lighting fixtures, and standard lamps, furnaces, heaters, namely, residential furnaces, water heaters, humidifiers, dehumidifiers, air conditioners, portable electric fans, and fireplaces, cooking ovens for household and professional purposes, stoves, ranges, and toasters, refrigerators and freezers, clothes dryers, hot tubs, bathtubs, showers, and sinks, and fixtures for the foregoing.

Class 12

(2) Bicycles, electric bicycles, wheelchairs, camera drones, drones with aerial photography feature, namely, photography drones, civilian drones, golf carts, land vehicles, namely, cars, all-terrain vehicles, motorcycles, mopeds; engines and electric motors for land vehicles, bicycles, motorcycles, and mopeds; components, parts, and accessories for land vehicles, namely, cars, all-terrain vehicles, bicycles, motorcycles, and mopeds, namely, wheels for bicycles, motorcycles, and land vehicles, steering wheels, engines for land vehicles, motors for bicycles and land vehicles, vehicle suspension springs, bicycle accessories, namely, handle bars, chains, brakes, pedals, tires, tire tubes, rims and structural parts therefor.

Class 16

(3) Paper, printed matter, namely, printed calendars, printed publications in the field of computer software and tablet computers, books, magazines, periodicals, newsletters, newspapers, brochures, booklets, pamphlets, manuals, journals, leaflets, advertising and promotional material, namely, advertising catalogues, magazines, newsletters, brochures, periodicals, and signs of paper, maps, atlases, typefaces, printing type and printing fonts, photographs, paper and writing

stationery, stickers, artists' materials, namely, artists' brushes, easels, moulds, palettes, pens, pencils, and sketch books, non-encoded credit cards, debit cards, gift cards, and prepaid purchase cards.

Class 25

(4) Clothing, namely, casual and athletic clothing, footwear, namely, casual and athletic footwear, and headgear, namely, baseball caps and hats.

Class 28

(5) Toys and games, namely, action figures and accessories, electronic action toys, musical toys; scale model bicycles being playthings; playing cards; electronic hand-held game units; battery powered computer games with LCD screen, hand-held electronic video games, and computer and video game apparatus, other than coin operated or those adapted for use with television receivers, namely, arcade games and apparatus for use with an external display screen or monitor namely video game consoles; body-building apparatus, fitness and exercise machines and equipment, namely, exercise equipment for use in pilates and weight lifting.

Services

Class 36

(1) Financial services, namely, financing of purchases; financial transaction services, namely, providing secure commercial transactions and payment options using a mobile device at a point of sale; bill payment services; providing secure payment for commercial transactions, credit and debit card services; credit card authorization, payment verification, and credit card, debit card, and electronic check transaction processing services; electronic payment and funds transfer services, namely, processing of secure electronic payment transactions over public computer networks to facilitate electronic commerce.

Class 39

(2) Travel and tourism information and guide services, arranging of travel tours, travel clubs, travel booking, ticketing, and reservation services, namely, travel booking and reservation services provided in relation to a customer loyalty or frequent buyer scheme, travel route planning services, transportation-and traffic information, namely, driving directions for travel purposes, parking location and reservation services, namely, reservation of parking spaces, providing travel, tourism, geographic, and destination information, maps, travel route planning, traffic, parking, and road condition information, and driving, walking, biking, and mass transit directions via computers, telecommunication networks, mobile phones, hand-held devices, namely, hand-held computers, and wireless satellite navigation devices, providing interactive electronic maps via a website, providing information via a website and an online searchable computer database with travel, tourism, geographic, and destination information, maps, travel route planning, traffic, parking, and road condition information, namely, driving directions for travel purposes, and driving, walking, biking, and mass transit directions, providing information, news, and commentary in the field of travel and tourism through the internet, providing reviews of travel and tourism logistics providers, GPS navigation services, interactive online vehicle routing by computers and telecommunications networks on data networks to avoid traffic and weather conditions and to locate available parking spaces, rental of navigational systems, namely, rental of GPS equipment for navigational purposes, transportation services, namely, transportation of goods and passengers by air and land, passenger and pet transportation booking, ticketing, and reservation services, transportation of passengers by air and land, transportation information services, namely, providing information relating to car transport, emergency motor vehicle towing and roadside assistance services, management of motor vehicle traffic flow through advanced communications network and

technology, rental, leasing and sharing of motor vehicles, bicycles, motorcycles, and mopeds, taxi transport services, providing information via a website and an online searchable computer database for booking and reserving transportation services, namely, transportation of goods and passengers by land, connecting drivers and passengers, and for scheduling and dispatching motor vehicles, namely, reservation and booking of transportation for passengers, providing information, news, and commentary in the field of transportation of goods and passengers by land, providing reviews of transportation providers for goods and passengers by land, warehousing, rental of warehouses, physical storage of documents and recording media in which electronic, digital and multimedia data, namely, photographic images, digital graphics, digital images, audio, namely, music, video, namely, video clips, webcasts are recorded, packaging, pick-up, transportation, delivery by land and air, and storage of goods, packages, parcels, and messages, courier services, providing information via a website and an online searchable computer database featuring information regarding delivery services by land and air and booking for delivery of goods, collection of recyclable goods, distribution of electrical, hydrogen, wind, and solar energy to residential and commercial users, parking garage services and parking space rental, namely, rental of vehicle equipment and accessories, namely, charging stations for electric vehicles, gift wrapping, filling of gas tanks services, boat rental, marine rental, namely, rental and leasing of ships and boats, car transport, information, advisory and consultancy services relating to all the aforesaid.

Class 43

(3) Restaurant, café, cafeteria, bar, cocktail lounge, coffee and juice bar, ice cream parlor, pizza parlor, and catering services; providing restaurant takeout services; providing food and drink via a mobile truck; providing conference, banquet, and social function facilities; restaurant reservation services; providing information from an interactive database and website in the field of restaurants, dining, alcoholic beverages, cocktails, cooking, and recipes; providing information, advice, news, reviews, and commentary in the field of restaurants, dining, alcoholic beverages, cocktails, cooking, and recipes; hotel reservation services; travel agency services, namely, making reservations and booking for temporary lodging; concierge services, namely, booking agency services for hotel accommodation; sommelier services; providing information, advice, news, reviews, and commentary in the fields of dining and accommodations for travel.

Visual Representation

Colour Claim

Colour is claimed as a feature of the trademark. The outer ring of the circle is yellow. Inside that ring are the words "LITTLE RED RIVER CREE NATION" in yellow font on a red background. Inside that is another yellow ring. Inside the second yellow ring there is a blue background. Over top of the blue background is a red and white fox sitting on a brown hill outlined in yellow. Also on top of the blue background are the faces of a brown bison with yellow horns and a grey nose and a white eagle with a yellow beak. Beneath the circle hang seven yellow and white feathers, outlined in brown. There are small patches of blue between the feathers where they adjoin the circle. The circle is outlined in brown where the feathers are not touching the circle.

Services

Class 36

(1) leasing, management, and acquisition of multi-family housing units; management of apartment houses; real estate and housing management; rental of houses; rental of residential housing; Property management services, namely the maintenance of business and residential properties;

Class 37

(2) Road installation and maintenance of services; residential and commercial real estate construction, development and building services; development and construction of multi-family housing units; road cleaning; road construction services; road paving; road sanding services; road sealing and stripping;

Class 39

(3) Utility services in the form of water supplying and water distribution to members of the Little Red River Cree Nation;

Class 41

(4) Organizing, arranging and conducting of cultural activities, workshops and education facilities to members of the Little Red River Cree Nation;

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric wires, electric switches, electrical connection boxes, electric control panels, electronic control circuits, electricity meters, electric connectors, electric capacitors, electric transformers, electrical cables; computer hardware and downloadable computer software for sending, receiving, storing, recording, displaying and reproducing digital images and digital audio recordings; blank magnetic computer tapes and discs, blank audio discs; blank hard discs; blank compact discs, blank dvds, dvds containing recordings of television shows and movies; Mechanisms for coin-operated devices, namely, for amusement machines, arcade games and vending machines; Cash registers, calculating machines, computer hardware for data processing, computers; Computer software for connecting computers and for enabling cloud computing, and computer software to enable unified electronic messaging services, namely, voice calling, video telephone, video conferencing, voice mailing, text messaging, screen sharing, and digital file transfer between computer users; telecommunications, telephonic and communications apparatus and instruments, namely, telephones, mobile and fixed location telephones, video telephones, smartphones, GPS receivers and transmitters; radio telephones, mobile and fixed telephones; mobile phones; portable telecommunications apparatus, namely portable telephones; smartphones; cases for telephones; headsets for telephones; handheld, mobile and tablet computers; wearable electronic telecommunication and computing devices, namely, wearable cameras, wearable computers in the nature of smart watches, smart bracelets, smart necklaces, smart rings, smart safety glasses, smart wristbands that communicate data to other necklaces, smart wristbands that communicate data to smartphones, wearable computers in the nature of smart glasses, wearable cameras for wireless transmission, wearable activity trackers; computer hardware and downloadable computer software for sending, receiving, storing, displaying and reproducing voice messages, digital music files, and digital images; personal digital assistants, wireless cell phones; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; digital voice signal processors; computer networking and data communications equipment, namely network interface cards, computer

network servers, computer network adapters, computer network switches, computer network interface cards and boards, computer networking hardware, multiplexers, optical multiplexers, telecommunications multiplexers, and video multiplexers; computer hardware for data processing, and computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; electronic databases containing downloadable digital images and photographs, graphics and videos featuring television shows and movies, computer and video games; software to enable the transmission of digital images and graphics to mobile telephones; computer hardware for telecommunications; computer hardware for telecommunications, GPS transmitters, video transmitters, satellite transmitters, telephone transmitters, optical transmitters, cables for electrical and optical signal transmission, ethernet cables, high definition multimedia interface cables and transceivers; modems; network routers; broadband Internet Protocol (IP) electronic encryption units for use in mobile networks, wireless broadband cellular communication base station transmitters, receivers and network interface devices, base stations for indoor and short range coverage, portable base stations that may be moved to and deployed at a location on a temporary basis, two-way wireless broadband communication services provided within automotive vehicles, namely providing two-way messaging and voice communication via a global computer network and radio wide area network (wan) routers, and operating software and hardware; digital-to-analog converters, television decoders, and computer software for unlocking mobile phones; set-top boxes and personal video recorders, and computer software used to set-up, calibrate and update set-top boxes and personal video recorders; satellite receivers, signal amplifiers, satellite antennas, satellite transceivers, satellite transmitters, cable television transmitters, and cable television receivers; computer hardware for database management; microprocessors and semi-conductors; computer central processing units; sound cards; network interface cards; motherboards; graphics processor units; wireless handheld telecommunication units and devices, namely, tablets, wireless phones, mobile phones, smart phones, computers, portable telephones, video telephones, radios, smart watches, usb dongles, gps trackers, wearable activity trackers, video cameras, cameras, personal digital assistants, handheld, mobile and tablet computers for the synchronisation, transmission, recordal, storage and manipulation of data and/or voice; remote controls for electric and electronic devices for cell phones and televisions; personal digital assistants; electronic sensors, namely pedometers, altimeters and personal weighing scales; barcode and quick response code readers and scanners; downloadable digital sound and video recordings featuring music, ring tones, electronic games, videos, MP3 recordings, graphics, photographs and artworks; blank secure digital (SD) memory cards; downloadable digital media content, namely films, television programmes, radio programmes, videos, images, music, text messages, data being photos, images, graphics and ringtones, provided in electronic form from a computer database, the Internet and communications network; satellite dishes for satellite transmissions, satellite aerials, satellite antennas, satellite processors, satellite radios, satellite receivers, satellite telephones, satellite transceivers, satellite transmitters; computer and video games, namely downloadable games programs; downloadable electronic publications in the nature of newsletters, books, magazines, editorials, newspapers, reports, digital manuals, cartoons, periodicals and journals; machine readable data carriers, namely, blank magnetic, digital and optical discs, and blank USB flash drives; battery chargers for mobile phones; battery chargers for smart phones; battery chargers for mobile computers; battery chargers for tablet computers; battery chargers for smart watches; battery chargers for smart watches, smart bracelets, smart necklaces, smart rings, smart safety glasses, smart wristbands that communicate data to other electronic devices, smart wristbands that communicate data to smartphones; battery chargers for wearable activity trackers; battery chargers for wearable computers in the nature of smart glasses; batteries for smart watches, smart bracelets, smart necklaces, smart rings, smart safety glasses,

smart wristbands that communicate data to other electronic devices, smart wristbands that communicate data to smartphones; batteries for wearable activity trackers; batteries for wearable computers in the nature of smart glasses; batteries for mobile phones; batteries for smart phones; batteries for mobile computers; batteries for tablet computers; batteries for smart watches; external battery pack for use with smart phones, mobile phones, tablet computers and smart watches; peripheral equipment for televisions and computers, namely, keyboards, modems, speakers, digital cameras, webcams, microphones, cable television receivers, loudspeakers; computers, namely, laptop and notebook computers; electronic personal organisers; global positioning system (GPS) satellites; global positioning system (gps) navigation computer hardware; desk or car mounted units incorporating a loud speaker which permits hands-free use of a telephone handset; in-car telephone handset cradles; instructional software and educational software containing topics of instruction in the field of information technology; data meters; smart meters, namely, water meters, gas meters, electric current meters, electricity meters, energy meters, for tracking and monitoring energy usage; sound level meters, flow meters, frequency meters, vibration meters, proximity sensors, temperature meters for household and industrial purposes, pressure meters and meters for testing humidity; blank and pre-recorded magnetic cards, namely, credit cards, SIM cards, magnetically encoded gift cards; cards containing microprocessors; telephone cards, namely, pre-paid encoded electronic chip telephone calling cards; credit, encoded and magnetically encoded debit and payment cards; credit, debit and payment cards; telephone credit cards; magnetically encoded cards, namely credit, debit and payment cards, key cards; computer application software provided via computer and communication networks for maintenance and updating of computer software on handheld telecommunications units and devices, namely, personal digital assistants, wireless cell phones, mobile phones, cellular phones, smartphones, video phones, handheld mobile and tablet computers; data communications software, namely computer programs for connecting to remote computers and computer networks, and for providing multiple user access to a global information network; application software, namely application software for mobile devices and mobile telephones, namely downloadable computer application software for purchasing applications for mobile phones, tablet computers and handheld electronic devices for enabling peer-to-peer networking and file sharing, for conducting and co-ordinating communications among mobile telephone users sharing information and audio data via mobile phone networks for account and bill management of a cellular and mobile data service plans, for access to a consumer loyalty scheme; downloadable computer software applications, namely, downloadable computer software for updating computer software in the fields of mobile telephones, provided in electronic form via computer and communication networks, downloadable computer software for accessing downloadable electronic publication in the nature of directories; computer software and application software for the synchronization, transmission and sharing of voice messages, videos, and calendar and digital media content between one or more portable electronic devices and handheld electronic devices, and for purchasing applications for handheld computers, tablet computers and handheld electronic game devices; operating system software; downloadable computer software for streaming videos from digital media content sessions, computer software for the transmission and encryption and storage of text messages, videos, photographs, graphics, music and digital files on and over communication networks; computer software platforms for social networking, and computer software to enable sharing information in electronic form via computer and communication networks in the fields of news, financial data, computer games, music, live musical concerts and sporting events, movies, television shows, and news and sports webcasts; computer search engine software; downloadable computer software for interactive televisions for recording television programs, viewing television program schedules, accessing television streaming services, interacting with television set-top boxes; computer software for editing images, sound and video; facial, speech, voice and gesture recognition

software, and facial analysis software; computer software for use in electronic access control systems for interlocking doors; software for computer security, including antivirus, firewalls, antispyware, anti-spyware, web filtering; computer software for anti-intrusion alarms, and machine learning software used in computer intrusion networks detection programs; virtual private network operating software; computer software for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index, sleep patterns, locations, attitude, weather and temperature; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; anti-theft alarms, other than for vehicles electronic tags for inventory control purposes, bar code scanners, and labels with integrated radio frequency identification [RFID] chips; anti-collision sensors for vehicles; electronic devices being wireless item locators and electronic devices being wireless radio based item locators; apparatus for sending and receiving information from movable property, namely, electronic devices used to locate lost objects employing radio frequency, global positioning systems (GPS), cellular communications; software for the remote control, monitoring and command of home appliances and lighting systems, and remote controls for portable telephones, smartphones, tablet computers, televisions and lighting systems; alarm devices and installations, namely carbon monoxide and carbon dioxide sensors, fire and smoke detectors, motion detectors, anti-intrusion alarms, and theft alarms; satellite navigation systems and software for satellite navigation systems; computer systems comprised of computer software to enable downloading and updating of computer software in vehicles; electronic access control systems for mobile phones, smart watches, laptop and tablet computers, and biometric access control systems, biometric fingerprint scanners, biometric hand scanners, and biometric retinal scanners; electronic apparatus for identifying persons, namely, biometric scanners, biometric hand readers and biometric voice controllers; closed circuit television systems; cameras, television cameras and video recorders for closed-circuit television; optical and photographic apparatus, namely, cameras, optical sensors, video cameras, lens filters for cameras, camera filters, cameras incorporated in smartphones, cameras incorporated in tablet computers, cameras incorporated in computers, cameras incorporated in drones; electronic speedometers; electronic odometers; electronic tachometers; cruise controls for motor vehicles and electronic speed controllers; kilometre recorders for vehicles; electric or electronic sensors for vehicles, namely, vehicle mounted GPS sensor for determining the rate of motion for a vehicle, electronic proximity sensors for vehicles, vehicle safety equipment, namely, back-up sensors and cameras; electronic sensors, namely, temperature sensors, vibration sensors, infrared sensors, touchscreen sensors, LED position sensors; sirens; electric locks for vehicles; remote control apparatus, namely, remote controls for radios and televisions; electronic keys for vehicles; electronic key fobs being remote control apparatus; mobile applications for remotely unlocking and opening vehicle doors, hoods, sunroofs, convertible tops, and trunks; wireless headsets and intercom systems for motorcycle helmets; Global Positioning System [GPS] transmitters and receivers; global positioning system (GPS) for vehicles consisting of computers, computer software, transmitters, receivers, and network interface devices for determining or signalling vehicle location, locations of site, travel routes, time, traffic conditions, presence of emergency vehicles and hazard conditions; systems for communication between vehicles and road infrastructures, namely integrated circuit electronic toll cards, navigation computers for cars, heads-up displays for motor vehicles, proximity sensors, dashboard cameras and car video recorders; cameras, video monitors and display monitors and sensors to detect road markings and distance; Global Positioning System [GPS] consisting of computers, computer software, transmitters, receivers, and network interface devices, and navigation apparatus for vehicles in the form of on-board computers, rearview cameras and distance sensors; parking sensors for vehicles, rearview cameras for vehicles, proximity sensors for vehicles; vehicle on-board computers; on-board electric, electronic and optical equipment for vehicles, namely,

electric batteries, mileage recorders, radios for vehicles, on-board cameras, on-board electronic systems for providing driving and parking assistance in land vehicles, cruise controls for vehicles, displays for vehicles, audio speaker systems for vehicles, automatic indicators of low pressure in vehicle tyres, automatic vehicle speed control devices, autonomous driving control systems for vehicles, including land vehicles; computerized vehicle engine analyzers, vehicle security systems, electronic control systems for automobile climate control, electronic controllers for vehicle mirrors, interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions; downloadable computer application software for maintaining and updating software and applications for vehicle navigation; computers and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants and its environment for vehicle security and safety; parking sensors for vehicles, namely, electronic obstacle detection device sensors to aid parking for vehicles; parking sensors for vehicles, rearview cameras for vehicles, electric reversing alarms for vehicles, blind spot mirrors and proximity alarms, and heads-up displays for motor vehicles; pre-collision detection and collision avoidance systems, namely, on-board computers; electronic immobilisers for vehicles; in vehicle touch screen computer systems; devices for remote location of vehicles; watches that communicate data to smartphones; computer application software to allow merchants to customize computer display screens for sales promotion and product demonstration purposes; sim cards; telematics apparatus, namely vehicle tracking systems and vehicle tracking devices; computer software to enable telematics in-vehicle communication service providing wireless vehicle navigation and tracking, road and traffic information, and driver safety information; haptic sensors, haptic equipment and apparatus, namely tactile monitors, screens, electronic displays, switches, sensors, smart glasses and virtual or augmented reality glasses and headsets and holographic projectors; haptic sensors, equipment and apparatus, namely touchscreen monitors, display screens, electronic touchscreen displays, touch sensitive switches, projected capacitive touch sensors, smart glasses and virtual and augmented reality glasses and headsets and 3D holographic projectors, and virtual reality software for playing computer games, for pilot training, for cinematography, and for training in the field of security; virtual reality computer software, namely software for setting up, operating, configuring and controlling virtual reality wearable computer peripheral; virtual reality glasses, virtual reality goggles, virtual reality headsets; augmented reality software, augmented reality game software, namely software for setting up, operating, configuring and controlling augmented reality wearable computer peripherals, namely augmented reality headsets, augmented reality glasses, augmented reality goggles; computer hardware modules for use with the Internet of Things [IoT]; computer hardware modules for use in electronic devices using the Internet of Things [IoT]; computer software for use in implementing the Internet of Things [IoT]; computer communications software, namely network operating system programs for mobile phones, and subscriber identification module [SIM] cards; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; operating system software; software for computer security, including antivirus, firewalls, antispyware, anti-spyware, web filtering and intrusion detection software; customer software for use in the field of customer relationship management (CRM); voice command and recognition software, speech to text conversion software, and software applications for digital voice signal processors-enabled software applications; instant messaging software and Internet messaging software; downloadable computer software for online appointment scheduling, and for making hotel, restaurant, theatre and airline reservations; computer software for personal information management, namely for notetaking, for viewing and editing meeting agendas, for viewing, editing, accessing and publishing documents and notes, and for organizing and viewing digital images and photographs, and for reminding users of dates and events; computer software and application

programming interface (api) for controlling, monitoring and operating a network of interconnected electronic devices between wirelessly connected machines, smart phones, electronic touch screen devices, computers, hand-held computer and tablet computers and home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms, via the Internet; chatbot computer software and application software for simulating conversations, for providing business management information for appointment scheduling, and for booking hotel reservations, and ticket reservations of seats for entertainment, sporting and cultural events; downloadable computer software and application software in the field of artificial intelligence (AI) for processing information, replying to customer questions, scheduling appointments, making reservations; artificially intelligent chatbot computer software and application software for providing customer support and customer services; customer service chat robot software; humanoid robots with artificial intelligence; electronic apparatus, namely, home automation hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices, namely, home and kitchen appliances, industrial machinery, computer systems, smart phones, electronic touch screen devices, computers, hand-held computer and tablet computers and home entertainment electronics, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms in the Internet of Things incorporating artificial intelligence; electronic controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and home security systems and personal security alarms, via the Internet; electronic controllers to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; motion-activated remote controls for interactive video games; interactive video game remote control units; computer software for use in connection with the transmission of voice messages; computer software, and digital cameras, modems, scanners, video recorders, computer keyboards, computer mouse, joysticks for use with computers, other than for video games, stylus pens for use with touch screens for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; wireless controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and home security systems and personal security alarms, via the Internet; touchscreens; parental control software for preventing, restricting, and limiting access to webpages, Internet sites, mobile Internet applications and television stations on electronic devices, namely, cell phones, tablet computers, laptops, and televisions; communication network apparatus, namely, virtual private network [VPN] hardware; wide area network [WAN] hardware; network access server hardware; e-commerce software to allow users to perform electronic business transactions via a global computer network; smartwatches.

Services**Class 38**

Telecommunications services, namely, provision of telecommunication access to films and television programmes, music, movies, television shows, music videos, news and sports webcasts, transfer of electronic data interchange by telecommunication networks, providing third parties with access to telecommunication infrastructure, namely, satellites, antennas, fixed and mobile telephone networks and the Internet; transmission of voice messages, computer data, graphics, images, audio and video recordings by means of telecommunications networks, wireless communication networks, and the Internet; mobile and fixed telecommunication services, namely fixed and mobile telephone services, satellite television, satellite telephone and satellite radio services, cellular telephone services, mobile radio telephone services, radio facsimile transmission, radio paging services and Internet radio broadcasting; wireless electronic transmission of voice messages; voice messaging and voicemail services; electronic mail services for data and voice; leasing and rental of radio pagers, radio telephones and facsimile machines; rental of radio and television broadcasting facilities and video conferencing facilities, rental of telecommunication towers, radio antennas, satellite antennas; leasing of telephone circuits; transmission of radio programmes; voice over IP services; providing access to a global computer network and Internet access provider services; telephone and mobile telephone message collection and transmission; electronic delivery of audio clips and images; automatic telephone answering services; personal numbering services; lending of computer hardware for telecommunications; provision of Internet services, namely Internet access services; internet service provider (ISP) services; telecommunication of information, namely providing access to a web, mail and news portal, and providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; electronic mail services; providing Internet access via fibre optic broadband networks and telephone carrier services by means of fibre optic cables; providing Internet access via wireless broadband networks; Internet telephony services, wireless mobile telephone services and voice over Internet Protocol [VoIP] services; integrated service digital network (isdn) services; providing access to mobile Internet portals; provision of telephone directory services; telecommunication services, namely, location-based cellular and digital text messaging services; provision of wireless application protocol services including those utilising a secure communications channel, namely, transmission and reception of audio clips, music videos, music, movies, television shows, digital images and photographs, via wireless application protocols [WAP] over a telecommunications network; call screening services; telecommunications bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; data interchange services; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, via the Internet, and via a global computer network; streaming of digital media content, namely films, television programmes, radio programmes, music videos, music, text messages, computer data, digital images and photographs, graphics and downloadable ringtones, via the Internet or a global computer network; delivery of digital media content, namely films, television programmes, radio programmes, music videos, music, text messages, computer data, digital images and photographs, graphics and downloadable ringtones, via the Internet or a global computer network; transmission of digital photos and video via cellular telephones; transmission of images over the Internet; providing electronic transmission of images and photographs, text messages, audio clips, videoclips and multimedia via a global computer network; broadcasting of films and television programs via a video-on-demand service, and broadcasting of television news programs, and of radio and television programs; providing advisory and consultancy services in the field of broadcasting of television and radio programmes; broadcast and transmission of television programmes; broadcast and transmission of radio programmes; streaming of audio and video content via the internet, other computer networks, wireless networks and electronic communication

networks; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; transmission of news and current affairs information; delivery of digital music by telecommunications; providing access to social networking websites; video text services, video conferencing services, interactive video text services; cellular text messaging services, digital text messaging services, videotext messaging services, wireless digital messaging services, wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs and digital images in the fields of news, financial data, computer games, music, live musician concerts and sporting events, movies, television shows, and news and sports webcasts over the internet and via wireless and cellular networks; unified messaging services; voicemail services; providing access to a global computer network and providing access to a website providing users with secure remote access to private computer networks; video conferencing services; video telephone services; providing telecommunications connections to the Internet in a café environment, in shopping centres, in restaurants, and in public spaces and public infrastructure, and providing multiple-user wireless access to the Internet; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; provision and operation of electronic conferencing; rental of access time to electronic bulletin boards, and to global computer networks, and to computer databases featuring electronic books, periodicals, magazines, catalogues, electronic computer manuals; providing access to web, mail and news portal, and to websites featuring educational content in the fields of telecommunications, information technology, environmental sciences, financial services and careers advice; providing access to a platform for real-time measurement of input, output and consumption of electricity, water, gas and oil, sound levels, vibration levels, proximity, electro-magnetic frequency, radiofrequency, temperature, pressure and humidity; wireless communication services, namely wireless electronic transmission of information and data in the field of vehicle operational parameters, driving conditions, road conditions, and vehicle location to a remote call centre for emergency assistance; emergency response services, namely, sending electronic alert notices via the Internet, global communications networks, mobile communications networks and wireless networks; email transmission of data and documents via computer terminals and via cellular telephones; provision of access to Internet platforms for the purpose of e-commerce transactions; providing access to databases, providing access to an electronic bulletin board, and providing access to a global computer network; the provision of access to global computer networks, wireless networks and cellular networks for the reception, transmission, regeneration and sharing of digital data and digital documents being voice messages, text messages, audio and video recordings; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, and streaming of audio and video via the Internet featuring music, movies, news and sports, and transmission of audio-visual clips and recordings over the Internet, over a wide-area network, and over a local area network; providing access to databases; database network interconnection services, namely providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; electronic exchange of computer data via a global computer network; providing multiple-user access to a global computer information network; providing information about radio and television broadcasting; providing access to a web site providing users with secure remote access to private computer networks, and providing access to a computer network operating system for connecting between independent telecommunications and computer networks for sharing of website traffic; telecommunications services, namely, providing access to a website permitting users to transmit over local and global computer networks text messages, computer graphics, online content in the nature of photographic images, multimedia messages containing audio and video content, namely, animated graphics, animated photographic images, user uploaded video clips, movies and

television programs, and providing access to a website permitting users to live stream user uploaded video clips and video messages via the Internet, global communication networks and wireless networks and providing online communication links that transfer website users to other local and global web pages; network roaming services provided as part of wireless Internet services; providing consultancy services for telecommunications services, namely, provision of telecommunication access to films and television programmes, music, movies, television shows, music videos, news and sports webcasts, transfer of electronic data, transfer of musical sound recordings by telecommunication networks, providing third parties with access to telecommunication infrastructure, namely, satellites and antennas, fixed and mobile telephone networks and the Internet; transmission of voice messages, computer data, graphics, images, audio and video recordings by means of telecommunications networks, wireless communication networks, and the Internet; providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; providing telecommunications connections and networks for use with the Internet of Things [IoT]; providing access to e-commerce platforms on the Internet.

METHOD CANNABIS

Trademark Type

Standard Characters

Goods

Class 03

(1) Non-medicated skin care preparations containing cannabis extracts for human consumption, namely oils and tinctures;

Class 05

(2) Topical skin creams, salves, ointments and transdermal patches containing derivatives of cannabis for medicinal purposes, namely for maintaining general health and well being; skin care preparations containing cannabis extracts for human consumption, namely oils and tinctures, capsules for medicinal purposes; oils, tinctures and sublingual sprays containing cannabis extracts for medicinal purposes and for oral human consumption; capsules containing cannabis extracts for human consumption, for medicinal purposes; rectal and vaginal suppositories containing cannabis extracts for medicinal purposes;

Class 29

(3) Cannabis oil for food; butter infused with cannabis; edible oils and tinctures and sublingual sprays containing cannabis extracts for oral human consumption;

Class 30

(4) Edible cannabis, namely candies, cookies, cakes, brownies and chocolate bars; capsules containing cannabis extracts for oral human consumption;

Class 31

(5) Fresh cannabis; cannabis plants; cannabis plant seeds;

Class 32

(6) Non-alcoholic beverages infused with cannabis, namely non-alcoholic beer, non-alcoholic beer flavored beverages, bottled water, carbonated beverages, carbonated soft drinks, non-alcoholic cider, energy drinks, flavored waters, fruit drinks and juices, fruit-flavoured beverages, honey-based beverages, iced fruit beverages, protein-enriched sports beverages, smoothies, sparkling

water, sports drinks, vegetable-based beverages and non-alcoholic wine; oils and tinctures containing cannabis extracts for adding to non-alcoholic beverages for human consumption, not for medicinal purposes;

Class 34

(7) Dried cannabis; promotional products, namely, lighters and ashtrays; paraphernalia relating to the use of cannabis, namely, storage containers, smoking pipes, vaporizers, grinders and rolling papers;

Services**Class 35**

(1) Retail sale and wholesale distribution of cannabis;

Class 40

(2) Processing of cannabis;

Class 41

(3) Production of podcasts relating to cannabis and cannabis use; educational services, namely providing educational information regarding the use of cannabis via a website; providing news, editorials and opinions concerning cannabis via a website or podcast;

Class 44

(4) Cultivation of cannabis;

Goods

Class 01

(1) chemical products for industry, namely, acetone, acetylene, acrylic polyols, chlorine; colour-brightening chemicals for industrial purposes, namely, chemical products for brightening dyestuffs; chemical products for brightening dyestuffs, namely, chemical dyes for color vibrancy for industrial purposes, namely, optical brightening agents; preparations for maintenance and preservation of bricks; ceramics, except of paints and oils, namely, compositions for the manufacture of technical ceramics; wall protection agents, namely, chemical sealants used for buildings which penetrate through walls for fire prevention, size for walls, protective coatings for use on brickwork, cement, concrete, masonry and cement-alternative walls; priming preparations, namely, size for finishing and priming; chemical additives for fungicides; glues and adhesives for industrial purposes, namely, adhesives for affixing wall tiles, for applying wall coverings, for ceiling tiles, for floor tiles; adhesives for ceramic tiles; binders, namely, lignin for use as a binder, and adhesives for gypsum tiles; adhesives for stones, terracotta tiles and glaze tiles; growing substrates, namely, water absorbing geocomposite substrates for crops in pots, greenhouses, hotbeds, gardens; fertilizers; bonding and priming preparations for use in furniture construction; impregnating preparations except of paints, namely, leather-impregnating chemicals, textile-impregnating chemicals; glass putty

Class 02

(2) Dyes, namely, alizarin-based dyes, aniline-based dyes, clothing dyes, dyes for use in industrial building construction; paints and varnishes, namely, acrylic paints, aluminium paints, anti-corrosion

paints, artist's paints, paints and varnishes used in industrial building construction; gum resins; surface impregnates, namely, shellac for use as a surface coating, paint sealants for exterior building surfaces, paints for use as waterproofing coatings on the surfaces of buildings, plaster, clinker tiles, gypsum blocks, tiles and sandstone; silicon-based surface impregnates, namely, silicone-based paint for buildings;

Class 17

(3) Insulation materials, namely, bamboo fibres for insulation, ceramic enamel fibre insulation, felt insulation; mineral wool as insulator; synthetic resins, namely, artificial resins, semi-processed; insulation paints; insulation putty; insulating floor coverings

Class 19

(4) stone, namely, granite, marble used as building material, travertine for building and construction purposes, sandstone, limestone, slate; building stone; artificial stone; works of stonemasonry, namely, structural monuments of stone; stone products, namely, artificial stone, building stone, crushed stone; bonding materials, namely bonding mortar for stone production; statues and works of art made of stone, concrete, plaster, or marble; asphalt; dressed timber; building timber; bricks; façade bricks; construction glass, namely, building glass; gypsum tiles; ceramic tiles; clinker tiles; glazed ceramic tiles; terracotta tiles; upholstered cladding tiles, wood-based cladding tiles, gres tiles, namely porcelain floor tiles; cladding for building industry, namely, façade claddings not of metal for building; cladding tiles, namely, wall claddings not of metal for building; figurines made of stone, concrete or marble; non-metallic rigid pipes used in building industry, namely, non-metal drain pipes, plastic water pipes; non-metallic transportable buildings, namely, wood greenhouses and sheds; building wood-like boards, namely, wood pulp board for building; building wood-like discs, namely, wood pulp discs for building;

Class 20

(5) Non-metallic packaging, namely, packaging containers of plastic or wood; non-metallic pallets; non-metallic containers, namely, plastic packaging containers for commercial or industrial use, shipping containers of plastic or wood; shelving units and storage cabinets; wooden boxes; decorative articles made of imitation of wood, cork, namely, decorative boxes, decorative baskets

Class 27

(6) Wallpapers; floor coverings and insulation linings, namely, floor mats, floor carpets, floor rugs, decorative floor coverings

Services

Class 39

Freight services, namely, freight brokerage, freight forwarding, freight loading, freight transportation by air, boat, rail and truck; rental of means of transport, namely, car rental, boat rental, bicycle rental, aircraft rental; warehousing; warehouse rental

Goods

Class 09

(1) Computer software and software applications for biometric user identity verification and authentication; computer software and software applications for user identity verification and authentication; downloadable software in the nature of a mobile application for biometric user identity verification and authentication; downloadable software in the nature of a mobile application for user identity verification and authentication; downloadable software development kits (SDK) comprised of application program interfaces, programming tools, and documentation for developing and customizing software in the field of biometric human identification and authentication; apparatus and instruments, namely, scanners and readers, voice and facial recognition systems consisting of computer software and hardware for the identification and automatic recognition of persons, finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric characteristics; computer software for the identification and automatic recognition of persons, finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric characteristics; authenticating systems consisting of computer hardware and computer software for checking and identifying biometric data, namely, persons, finger and palm prints, characteristics of the iris, veins and voice, facial and body features; computers and computer software for biometric devices, namely scanners, readers, voice and facial recognition systems, for use in identifying and authentication of persons; biometric system computer software for identifying and authentication of persons; computer software for detecting persons; computer software for interpreting finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric data for the purposes of identifying individuals; optical, optoelectronic and electroacoustic sensors for taking finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric characteristics; electronic card readers; magnetic coded card readers; smart card readers; biometric computer terminals; biometric electronic payment terminal; biometric electrical

terminal blocks; electronic locks, security systems and access control devices, namely digital and electronic scanners, readers, voice and facial recognition systems comprised of facial recognition scanners and readers, audio and image processors, interactive display panels capable of facial and voice identification, image sensors, video cameras, touch keypads, and computer software for operating facial and voice recognition systems, all for the purpose of controlling access to buildings; devices for controlling access to buildings, namely, software for controlling, monitoring and managing electronic locks, doors, security gates, keypads, electronic key fobs and passes for keyless entry all for the purpose of controlling access to and within homes and buildings; devices for controlling access to buildings, namely, security systems in the nature of access control and alarm monitoring systems, security alarms and building security systems; devices for controlling access to buildings, namely, access and security systems for buildings consisting of central control panels for security alarms, video cameras, motion detectors, motion sensors, heat sensors, infrared sensors for detecting intruders, biometric retinal scanners, biometric fingerprint and hand readers, biometric fingerprint, hand, and eye scanners, optical scanners and electronic readers for verifying and identifying facial and body features, electronic identification tags, electronic security tags, building entry point control gates; devices for controlling access to buildings, namely, home security systems, electronic access control systems for interlocking doors; electric locks and devices for controlling access to buildings, namely, electronic control systems for door and gate locking systems; data processing equipment for checking finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric characteristics for access control, namely, magnetically encoded card reader, fingerprint scanners, voice detectors, iris and vein scanners, optical scanners and electronic readers for facial and body features and other biometric characteristics, encoded identity cards, encoded smart cards containing programming used to identify the user and access systems; computer systems consisting of computer and computer software for protecting information and communications in connection with checking finger and palm prints, characteristics of the iris, veins and voice, facial and body features and other biometric characteristics; computer software for processing the signal used for detecting and identifying persons and the biometric characteristics of persons in the field of security and controlling access; electronic devices comprised of optical scanners, electronic readers and computer software for detecting and identifying fraudulent documents; optoelectronic sensors for taking information on stationary and moving vehicles; fixed, portable and on-board data processing equipment, namely kiosks, handheld devices, stand alone and counter top units, containing hardware and software for use on land, air and sea vehicles in connection with forensic security and transport applications for medico-legal applications; electronic terminals for the purposes of securing game, lottery and betting applications; optoelectronic sensors for gathering bar code, numbers and date information on game, lottery and betting tickets; electronic readers for checking and identifying the authenticity of financial digital data related to banking and credit information, credit cards, and financial transactions; electronic readers for checking and identifying the authenticity of digital documents; electronic readers for checking and identifying the authenticity of personal digital data related to an individual's personal identity, legal status, and personal and household information; electronic readers for checking and identifying the authenticity of corporate digital data related to company records and reports, corporate filings, incorporation certificates, payroll records and reports, and human resources records and reports; computer software and electronic devices, namely, mobile phones, smart phones, cellular phones, portable computers, tablet computing devices, optical scanners and electronic readers for checking and identifying digital data in the nature of voice, text, images, audio and video recordings by optical readers, microphones, gyroscopes, accelerometers and computer processors; optical character recognition apparatus, biometric fingerprint and hand readers, biometric fingerprint, hand, and eye scanners, optical scanners and electronic readers for verifying and identifying facial and body features and

other biometric characteristics, all of the aforementioned devices used for the authentication and identification of digital data in the nature of voice, text, images, audio and video recordings by optical readers, computer software and computer processors; reader computer software, computer terminals, and electronic devices, namely, cameras, electronic readers, and optical and image scanners, which authenticate and identify a machine-readable area on passports, visas, identity cards, driving licenses, health cards, voting cards, resident cards, permits to stay, professional health cards and other personal administrative documents that have an electronic chip that can transmit data for the purpose of verifying an individual's identity; computer software and electronic devices, namely, cameras, electronic readers, and optical and image scanners for identification, via a password, of an individual's identity; apparatus and instruments comprised of computer software, computer terminals and electronic readers for controlling and processing data, namely, for acquisition, verification, storage, generation of databases and transmission of digital data relating to an individual's personal identity, legal status, and personal and household information; apparatus and instruments comprised of computer software, computer terminals and electronic readers for controlling and processing data, namely, for acquisition, verification, storage, generation of databases and transmission financial digital data relating to banking and credit information, credit cards, and financial transactions; apparatus and instruments comprised of computer software, computer terminals and electronic readers for controlling and processing data, namely, for acquisition, verification, storage, generation of databases and transmission corporate digital data relating to company records and reports, corporate filings, incorporation certificates, payroll records and reports, and human resources records and reports; computer software for checking and identifying secured digital personal, corporate, and financial data by acquisition, processing, verification, storage, generation of database and transmission; chip cards, namely, blank electronic chip cards and encoded chip cards for developing and loading applications onto user terminals; encoded electronic chip cards for access and communicating with data network users; equipment for processing data, namely, encoded electronic chip card terminals and parts for the aforementioned goods; computer programs and operating systems for chip cards, namely, software used in identification and detection systems for the purposes of identifying individuals, authentication of documents and locating and identifying of vehicles; apparatus comprised of computer software, computer terminals and electronic readers for testing chip card effectiveness, functionality and operability; installations for handling chip cards, namely, chip card readers; apparatus for printing, namely, printers for printing identity cards, health cards, voting cards, resident cards, licenses, permits, and passports; downloadable mobile applications for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices for checking and identifying voice, text, images, audio and video recordings by readers and computer processors; downloadable and recorded computer application software for use with wearable computers, smart phones, monitors, displays, computer hardware, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, computer peripheral devices, portable media players and digital electronic communication devices for checking and identifying voice, text, images, audio and video recordings by readers and computer processors

Class 16

(2) Printed matter, namely, paper and cardboard for use in the manufacture of identity cards, telephone cards, checks, credit and bank cards, passports, visa documents, driving licenses, health cards, voting cards, resident cards, permits to stay, professional health cards and other personal administrative documents that comprise a machine-readable area; printed cards and personal administrative documents without magnetic coding of paper and cardboard for sale to

issuing organizations, that comprise a machine-readable area, namely, identity cards, telephone cards, checks, credit cards, bank cards, passports, visa documents, driving licenses, health cards, voting cards, resident cards, permits to stay, and cards for indicating the credentials of medical professionals;

Services

Class 38

(1) Telecommunications, namely, providing multiple user access to a global computer network; providing electronic telecommunication connections, namely, providing electronic transmission of text, electronic mail, audio recordings, video recordings, digital images, and personal, corporate, and financial data via a global computer network; providing telecommunications connections to the internet and databases; providing information about telecommunications, namely, mobile telephone services and Internet access provider services; telecommunication consultation in the nature of technical consulting in the field of electronic transmission of audio, text and visual data; consulting in the field of telecommunication services, namely, transmission of voice, audio, text, visual data, electronic mail, audio recordings, video recordings, digital images, personal, corporate, and financial data, and documents via global computer networks, mobile phones, cellular phones, smart phones, tablet computers; consultancy, information and advisory services relating to the aforesaid services;

Class 42

(2) Software as a service featuring software for biometric user identity verification and authentication; software as a service featuring software for user identity verification and authentication; services and advice in the field of controlling persons' access, namely, providing a secured-access, members only website featuring technology that gives members the ability to enter into a protected online area in order to conduct financial services activities and facilitate e-commerce transactions; design, research and development of computer programs and computer software for interpreting finger and palm prints, characteristics of the iris, veins, voice, facial and body features and other biometric characteristics in the fields of access control and authentication of persons; research, design and development of on-line computer software systems to check previous histories of persons' past history and background; research, design and development of electronic data security systems to check previous histories of persons' past history and background; design, research and development of computer programs and computer software for electronic identification; automation services for computers, namely, data automation and collection service using proprietary software to evaluate, analyze and collect service data; conversion of data from physical to electronic media; design, installation, maintenance and updating of computer software for data processing; cryptography services; encoding of identity documents; advice, information and consultation in connection with the aforementioned services, namely, computer security consultancy, computer consultation in the field of computer security, information technology consultation, advice relating to the design of computer hardware and technical advice relating to operation of computers; hosting of electronic databases in the field of biometric electronic access data, biometric identification, identity verification and authentication; data encryption services, data decryption services, and authentication of personal identification information; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; data security services; data security, protection and restoration services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile and network resources based on assigned credentials;

computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification of data via blockchain; data authentication via blockchain; including all of the aforementioned services for use in connection with payment systems; consultancy, information and advisory services relating to the aforesaid services;

Class 45

(3) Identification verification services, namely, providing authentication of personal identification information; personal background investigation services using alphanumeric and biometric data; providing authentication of personal identification information namely, consultation in the fields of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; identification verification services, namely, providing authentication of personal identification information via secure storage and via the Internet; personalization services for documents, namely, providing authentication of personal identification information; providing user authentication services in e-commerce transactions; providing authentication of personal identification information [identification verification services], including using biometrics, facial recognition, finger print authentication, voice recognition and other types of authentication based on measurement and analysis of unique physical and behavioral characteristics; safety, security and enforcement services, namely, armed escorts and security personnel for commercial shipping and private watercraft; security services for the physical protection of tangible property and individuals; rental of equipment for safety, rescue, security and enforcement, namely, rental of security surveillance robots and security camera surveillance equipment; security services and public events security services, namely, provision of technological solutions in the nature of biometrics for protecting tangible property and individuals; on-line social networking services; consultancy, information and advisory services in relation to the aforesaid services;

Class 16

(1) Biodegradable packaging containers for food products made of paper coated with compostable bioplastic; biodegradable packaging containers for food products made of paper laminated with film made of compostable bioplastic; biodegradable garbage bags of plastic; biodegradable plastic shopping bags; biodegradable general purpose plastic bags; biodegradable plastic film for packaging.

Class 17

(2) Biodegradable plastic pellets for use in manufacturing; plant-based thermoplastic compounds in pellet form for use in manufacture of biodegradable plastic; thermoplastic compounds in pellet form for use in manufacture of biodegradable plastic; extruded plastics in the form of pellets for use in manufacturing.

Class 20

(3) Agricultural and industrial packaging containers of biodegradable plastic; biodegradable plastic boxes for agricultural and industrial packaging purposes.

Services

Class 35

(1) Promoting and raising awareness about non-profit organizations, cooperatives and technical resource groups (TRGs) before governmental, community and financial bodies for the purposes of mobilizing and creating partnerships in the context of the real estate development and real estate management of community housing for seniors comprising the provision of adapted health care so that they can continue living at home. Real estate development in the field of community housing for seniors comprising the provision of adapted health care so that they can continue living at home. Consolidation of purchases and services for residents of community housing for seniors so that they can get better prices based on volume, optimize purchase operations and reduce financial risks related to purchases.

Class 36

(2) Real estate management of community housing for seniors comprising the provision of adapted health care so that they can continue living at home. Financing of community housing development projects for seniors and land acquisition for the construction of community housing for seniors. Advisory services for non-profit organizations, proxy cooperatives and technical resource groups (TRGs) so that their projects to develop and manage community housing for seniors be sustainable. Rental of housing, bedrooms and multi-purpose spaces in community residential housing for seniors.

Class 41

(3) Development and provision of training in the field of the quality of services and care provided to seniors intended for stakeholders and personnel involved in the management of community housing in order to ensure the quality of services and care provided to seniors.

Class 42

(4) Design of communication tools intended for stakeholders involved in the management of community housing for seniors in the form of how-to guides, video segments, webinars, diagrams, summary reports, visual presentations and interactive information provided on the Internet.

Class 43

(5) Operation of community housing for seniors comprising the provision of adapted health care so that they can continue living at home.

Goods

Class 06

(1) Metal ores; common metals and their alloys, ores; non-electric cables and wires of common metal; metal hardware, namely nuts and bolts; clips of metal for cables and pipes; collapsible tubes of metal; metal racking structures for supporting tubes; metal heating ducts; metal fuel oil hoses; clips of metal for tubes; elbows of metal for connecting gas piping to gas appliances; ducts of metal for air-conditioning installations; ducts of metal for ventilating installations; metal pipes and tubes; industrial metal hoses; valves of metal for water pipes; ventilating ducts of metal; pipes of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; couplings of metal for tubing; metal couplings for fire hoses; metal pipes for liquid and gas transfer; metal hoses for agricultural use; metal hoses for plumbing use; metal hoses for swimming pools; metal valves for controlling the flow of fluids in pipelines; metal valves for controlling the flow of gases in pipelines; pipe fittings [junctions] of metal; non-electric ducting conduits of metal; pipe spacers of metal; fittings of metal for pipes; pipe tubes of metal; collars of metal for fastening pipes; metal pipes for liquid and gas transfer; metal conduits for liquid and gas transfer; metal tubes for gas;

metal air conditioning ducts; insulated pipe supports of metal; pipe extensions of metal; ducts of metal for housing ventilation pipes; junctions of metal for pipes; hose hangers of metal; metal hose clamps; metal hose fittings; wall hooks of metal for pipes; pipe muffers of metal; elbows of metal for pipes; pipework of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; pipe support sleeves of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; joint connectors (metal -) for pipes; pipe unions of metal; branching tubes of metal for pipelines; flexible tubes of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils.

Class 07

(2) Metal working machine tools; power operated tools; motors, other than for land vehicles, namely motors used in commercial, light commercial, and residential heating, ventilation and air conditioning; propulsion mechanisms, other than for land vehicles, namely, industrial engines; machine coupling and transmission components (except for land vehicles); agricultural implements other than hand operated hand tools, namely, incorporators; catalytic converters for the exhaust gases of internal combustion engines; waste gas conduits being parts of machines; exhaust gas treatment systems for diesel engines; waste gas return valves being parts of machines; metal branching pipes being parts of engines; adaptors for pipes being parts of machines; intake manifolds for motors; fittings for engine boilers; exhaust manifold for engines; automotive exhaust pipe; exhaust pipes for land vehicles; bellows being parts of machines; drilling rigs for drilling offshore wells; exhaust bypasses being structural parts of machines for automotive vehicles; exhaust bypasses being parts of motors and engines; metal joints for pipes being parts of machines; metal joints for tubes being parts of engines; exhaust expansion joints being parts of electric motors, not for land vehicles; bellows being exhaust expansion elements, being parts of electric motors, not for land vehicles; bellows for fuel pumps, being parts of electric motors, not for land vehicles; bellows for Piezo-injectors, being parts of electric motors, not for land vehicles; bellows for pressure sensor glow plugs, being parts of electric motors, not for land vehicles; clamp connectors for piping being parts of machines; crankcases for machines, motors and engines; hydraulic circuits for machines; hydraulic valves being parts of machines; fuel injection systems for engines; manifolds being parts of machines; manifolds being parts of engines; heat sinks for use in machines; couplings, other than for land vehicles for machines; couplings of metal for hydraulic apparatus for machines; metal joints for tubes being parts of machines; hoses (metal -) for transferring hydraulic power in machines; swaging machines for use in the assembly of hoses; swaging machines for use in the preparation of hose assemblies; tubes being fitted parts of machines; sound absorbers [silencers] being parts of vehicle exhaust systems; sound absorbers [silencers] being parts of exhaust systems for machines; hoses (metal -) for use in hydraulic systems in machines; non-metallic pre-insulated bonded pipes being parts of machines; bending machines for tubes; pipes being fitted parts of machines; machine tools, namely, casing cutters; machine tools for use in binding hoses; hoses (non-metallic -) for transferring hydraulic power in machines; exhaust gas recirculation [egr] valves for motors and engines; automotive intake manifolds; oil coolers for motors; compressors as parts of machines, motors and engines; non-electric coupling sleeves being parts of engines for land vehicles.

Class 09

(3) Scientific, nautical, navigating, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely cameras; sound recording apparatus, namely sound processors, echo sounding devices,

digital sound processors, sound amplifiers, electric controls for programmable sound generators; sound transmission apparatus, namely sound projectors and amplifiers, sound processors, sound mixers; sound reproduction apparatus, namely sound level meters, sound projectors and amplifiers, blank CD-ROMs for sound recording; sound processing apparatus, namely digital sound processors, sound mixers; image recording apparatus, namely video cameras, digital cameras for industrial use, web cameras; image transmission apparatus, namely remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; image reproduction apparatus, namely image scanners, fingerprint imagers, thermal imaging cameras; image processing apparatus, namely computer programs and software for image processing; data recording apparatus, namely electronic data recorders for machine and engine parts, digital event recorders for seismic data; data transmission apparatus, namely data transmission cables, wireless device for transmitting electronic data being earbuds; data reproduction apparatus, namely data compression software; data processing apparatus, namely computer software to automate data warehousing, computers for use in data management; digital media, namely, pre-recorded DVDs, downloadable audio and video recordings, providing information in the field of industrial metal goods; downloadable computer operating software for use in processing, protecting, managing, sharing and storing data in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; blank digital or analog recording and storage media, namely, blank USB's, blank CD's and blank DVD's; cash register; calculator; fire extinguishers; educational apparatus, namely, blocks used as teaching aids for modelling chemical compounds; DVD recording apparatus; blank magnetic data carriers, data processing equipment, namely couplers; computers; battery boxes; exhaust gas temperature gauges; downloadable computer application software for managing, operating and connecting the internet of things [iot] enabled devices for use in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for use in remote meter monitoring of water, gas and electricity and energy consumption in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; digital panel meters; real-time data processing devices for photographs and videos, namely computers, image scanners; electrical ducts; meters for measuring electric current; automotive battery chargers, chargers for electric batteries for electric vehicles; electronic sound level meters; electronic surveillance cameras; microcontrollers for internet of things [IoT] enabled devices; housings adapted for electrical current switches, housings adapted for electric light switches, housings adapted for electric power generator, housings adapted for electric power switches, housings adapted for electric power generator, housings adapted for electric storage batteries, housings adapted for electric power distribution units, housings adapted for electric power converters, housings adapted for electric wire and cable, housings adapted for electric transformers, housings adapted for electric annunciators, housings adapted for electrical conductor cables, housings adapted for electrical conductors for transformers, housings adapted for electrical connectors, housings adapted for electric current control devices; intelligent gateway routers for real-time data analysis; central processing unit (CPU) coolers for electronic components; coolers for computers, namely fans, pastes, heatsinks and radiators; coolant-temperature sensors; downloadable computer software for the integration of artificial intelligence and machine learning for viewing, monitoring and analysing video streams and to receive alert notifications in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; air/fuel ratio gauges; optical cables; distance sensors; motion sensors;

laser distance meters; laser distance sensors; electronic distance meters; electromagnetic measuring detectors; coordinate-measuring machines; measuring tapes; fuel consumption measuring apparatus, namely fuel consumption flow meters; diesel oil emission testers; downloadable real-time collaborative editing [rtce] platforms software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; fire hose nozzles; calibration sensors for measurement of the flow rate and volume of liquid hydrogen, of exhaust gas flow, of movement of components, of temperature; downloadable computer software for computer-aided engineering [cae] in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable product lifecycle management software for use in cost benefit analysis, for quality management and for the forecast of the expected replacement of components in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable predictive maintenance software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; solar energy collectors for electricity generation; photovoltaic solar modules for production of electricity; sprinkler systems for fire protection; particle emission monitoring and flow measuring instruments; sheaths for optical fibre cable; downloadable computer maintenance software; software for operating an online shop; software for evaluating customer behaviour in online shops; downloadable mobile application software for social networking services; downloadable ring tones for mobile phones; downloadable computer software for authorizing access to databases; downloadable electronic data files featuring maintenance information in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; directories [electric or electronic]; downloadable computer software platforms, application software, and programs all for planning, calculation and design of pipeline systems, of plant parts and of flexible pipe elements, of pipe expansion joints and pipe supports; downloadable computer software development tools; downloadable software for tablet computers for authorizing access to databases, for estimating costs, for planning, calculation and design in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software designed to estimate costs in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer programmes for processing production and performance data collected from machines, in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; document management software; downloadable computer software for the transmission of photographs, video files, graphics, audio data, text files, downloadable digital files containing text, customer information, financial information, information regarding service providers, in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for the management of information relating to the production and performance of machines in the field of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for moderation of electronic bulletin boards; computer programs used for electronic cash

register systems; downloadable computer programs for project management in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for implementing and recording financial transaction in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; computer software for application and database integration; electronic tags for goods; electronic security tags for goods; audiovisual teaching apparatus, namely, computer hardware; digital recording computer hardware; wireless computer keyboards; decoding computer hardware; downloadable electronic ships logs; encoding and decoding hardware and software; electronic interactive whiteboards; electronic encryption units; electronic notebooks; notebook computers; laptop computers; electronic decoding label readers; demagnetizing apparatus for magnetic tapes; wireless computer keypads; communications equipment, namely, telephones; multifunctional devices which incorporate copier and facsimile functions in the standalone mode; multifunction keyboards; optical encoders for the serial collection of data inputs and converting them into a single encoded output; linear and rotary optical encoders for use with microprocessors and semi-conductors; optical transmitters; speech recognition computer hardware computer keyboards; time programmers being computer hardware; components for electrical mains in the nature of electric wires; smart glasses; electronic door alarms; computer mice; electronic components for computers; computer cabling; computer chips; computer network hardware; computer buses; computer memory modules; computer servers; computer hardware; computer screens; computers and computer hardware; microcomputer apparatus; computer touchscreens; touchpads for computers; portable hard disk drives for computers; covers for tablet computers; keyboards for tablets; tablet docking stations; computer hardware for telecommunications; computer networking and data communications computer hardware; digital organizers; electronic diaries; electronic agendas; magnetic encoders, namely, devices converting analog signals into digital ones using magnetic fields; disk drives for computers; usb flash drives; electronic payment terminals; automated teller machines [atm]; money sorting apparatus; point of sale apparatus; electronic cash registers; automatic cash registers; money counting and sorting machines; bar code readers; downloadable computer software for dissemination of advertising; electronic advertising displays; luminous signs used for advertising; software for embedding online advertising on websites; mechanical signs used for advertising; software for designing online advertising on websites; software for renting advertising space on websites; commercial monitors; downloadable machine learning software for advertising; encoded charge cards; magnetically encoded charge cards; downloadable customer relation management [crm] software; customer relationship management software (crm); computer communication software to allow customers to access bank account information and transact bank business; encoded loyalty cards; downloadable social networking software; electronic mail servers; mail server software; electronic mail and messaging software; application software for social networking services via internet; downloadable community social networking software; software for gps navigation systems; downloadable industrial process control software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; gesture recognition software; downloadable software for diagnostics and troubleshooting of computer issues; downloadable mobile device applications for industrial process control monitoring in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable software applications for use with three dimensional printers; safe load indicator; computer hardware modules for use in electronic devices using the internet of things [iot]; water sprinkling devices for fire control; water level indicators for vehicles; oil-water level sensors; gas

and liquid level indicators; water temperature gauges; water temperature regulators; water level indicators; water leakage detection alarms; water meters; scientific apparatus for determining the water content in petroleum products; gasometers [measuring instruments]; gas sensors; gas alarms; gas concentration monitor; gas flow meters; gas flow monitors; gas consumption monitor; alarms for the detection of inflammable gases; fuel cells; fuel cell electrodes; electronic modules for fuel regulating; combustion gas detectors; fire sensors; fire detectors; flame detectors; fire detection software; fire modeling and simulation software; sprinkler apparatus [automatic] for fire extinguishing; sprinkler systems for fire protection; fire extinguishing apparatus for automobiles; electric control devices for heating management; carbon monoxide detectors; carbon dioxide detectors; telemetry devices for motor vehicles; fluid level measuring apparatus for use in motor vehicles; air pollution measuring devices; software to control building environmental, access and security systems; motion sensor; virtual reality headsets; sensors for monitoring physical movements; vibration gauges; vibration sensors; downloadable industrial software used to control and automate industrial machines in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; electrical industrial controls utilizing adaptive remote control for industrial processes used in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering comprising computer hardware; downloadable virtual and augmented reality software to create and view 3d virtual reality plans, models, and technical specifications for use in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; computer programs for network management; downloadable communication and networking software, namely computer software to enable sharing information in electronic form via computer and communication networks for training simulation and for education in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering.

Class 11

(4) Shower hoses; shower hoses for hand showers; flues and installations for conveying exhaust gases; supports adapted for use with solar heating tubes; fittings for flues; sanitary water conduit fittings; heat trace cables; vent covers [parts of air conditioning installations]; flexible pipes being parts of bath plumbing installations; flexible pipes being parts of shower plumbing installations; flexible pipes being parts of sink plumbing installations; taps for pipes and pipelines; heating elements, heating modules; ventilating fans for industrial purposes; air conditioning apparatus; refrigerating cabinets; heat exchangers for chemical processing; coils as parts of cooling installations; pipes being parts of sanitary installations; diesel fuel line heaters; taps being faucets; household tap-water filters; ventilation [air-conditioning] installations for vehicles; air ventilating apparatus for vehicles; air purification units; safety accessories for gas pipes, namely, flashback arrestors and reverse flow check valves; tap-water purifying apparatus; boiler pipes [tubes] for heating installations; coils as parts of distilling, heating or cooling installations; sprinkler systems for irrigation; spigots for pipes and pipelines being parts of sanitary installations; valves being parts of sprinkler systems; heat exchangers, other than parts of machines; corrugated pipes of metal being parts of sanitary installations; tubular heating elements; pipe line cocks; pipe laying cocks; coils being parts of cooling installations; coils being parts of heating installations; coils being parts of distilling installations; flexible pipes being parts of basin plumbing installations; heat exchangers for the removal of exhaust gases; flues for heating apparatus; hvac systems (heating, ventilation and air conditioning); heating boilers; fireplace dampers; flexible heating elements for automobile

seats; vehicle hvac systems (heating, ventilation and air conditioning); water filtration apparatus for the deionization of water; ventilators for automobiles; air conditioners for vehicles; solar energy powered heating installations; spouts being plumbing fittings; plumbing fixtures, namely, shower sprayers; sanitizing apparatus for linens using ultraviolet light, ozone sterilization and low pressure techniques; filters for use with HVAC units; flexible strip wound pipes of metal being parts of sanitary installations; sliding plate fire dampers; plastic elbow bends for pipes being parts of sanitary installations; spray nozzles being parts of water supply installations.

Class 12

(5) Land vehicles; apparatus for locomotion by land, air or water, namely boats; crankcases for components for motor cars (other than for engines); crankcases for land vehicle components, other than for engines; automobiles and structural parts therefor; hydraulic brake cables for vehicles being conduits in the form of pipes, tubes and hoses, which serve to transport the brake fluid; powertrains, namely, engines and motors, for land vehicles; automobile engines; parts and fittings for land vehicles; parts and fittings for air and space vehicles; airplanes; structural parts for airplanes; aerodynamic wings for airplanes.

Class 09

Computer hardware, computer software for image processing, proximity sensors, velocity sensors, motion sensors, scan radars for use in the management and monitoring of mass of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form, volume, quantity and distribution in apron feeders, surge bins, silos, storage chambers and rock hammer machines and for the automation of rock hammer machines, feeders and reclaimers; electronically downloadable data files containing information on measurements of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form from position sensors, radar sensors and radar scans to be used in management and supervision of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form in apron feeders, surge bins, silos and storage chambers; computer hardware, computer software, electronic black boxes for recording data, computer software for image processing, proximity sensors, velocity sensors, motion sensors, radars, radar displays, all the aforementioned for reading, recording, storing, and transmitting electronically stored data on mass, volume, quantity and distribution of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form in apron feeders, surge bins, silos and storage chambers; measurement devices for monitoring mass, volume and quantity of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form; safety markers, safety signals, luminous or mechanical, acceleration sensors, camera sensors, distance sensors, motion sensors, optical sensors, position sensors, timing sensors, ultrasonic sensors for safety, life-saving and collision avoidance near and around rock processing plants, rock hammer machines, feeders and reclaimers; the aforementioned goods relating exclusively to quarrying, mining, coal, iron and steel industry

Services

Class 42

Computer and technology services for the management and monitoring of mass, volume, quantity and distribution of bulk materials in the nature of dry solid substances in powder, granular, or lumpy form in apron feeders, surge bins, silos, storage chambers and industrial rock hammer machines and for the automation of industrial rock hammer machines, feeders and reclaimers; electronic data warehousing and quality control in the field of monitoring and management of bulk

materials in the nature of dry solid substances in powder, granular, or lumpy form in apron feeders, surge bins, silos and storage chambers; design and maintenance of computer software for volume and mass in the field of material processing and industrial machines; configuration of electronic control systems for industrial rock hammer machines, reclaimers, feeders, surge bins, silos and storage chambers, namely for condition, location and system control; design and development of computer databases for storing data on bulk material, volume and mass; the aforementioned services relating exclusively to quarrying, mining, coal, iron and steel industry

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) white and yellow is/are claimed as a feature of the mark. The mark consists of the word "EGGMANIA" in a stylized font, with "EGG" in white and "MANIA" in yellow, above the wording "SUNDAY HO YA MONDAY ROZ KHAO ANDE" in a white stylized font. Beneath "EGGMANIA", the second "G" of "EGG" is the shape of an egg, in white with a yellow yolk. The color black appearing in the mark is background coloring, and is not part of the mark.

Foreign Character Translation

The translation provided by the applicant of the word(s) SUNDAY HO YA MONDAY ROZ KHAO ANDE is Be it Sunday or Monday, eat eggs every day.

Goods

Class 06

(1) Metal shelter structures for motor vehicles; transportable car shelters made of metal; metal storage shelters; metal animal shelters; metal canopies [building materials] for motor vehicles; metal canopies [building materials], namely, canopy frames of metal; metal storage sheds; containers of metal for storage of goods; general purpose metal storage containers; metal greenhouses; greenhouse frames of metal; metal gates; tool chests of metal, empty; tent frames of metal, namely, tent poles of metal

Class 07

(2) Attachments for vehicles, namely, grapple buckets for moving earth and loose objects; tractor-towed agricultural instruments, namely, skeleton grapples, root rake grapples and stump buckets; attachments for vehicles, namely, skeleton grapple buckets for demolitions and sifting and clearing rocks, limbs and other unwanted debris; root rake grapples for removing unwanted roots, tree limbs and debris; attachments for vehicles, namely, snow ploughs and snow buckets for moving snow, bulldozer blades for earth moving machines, stump buckets for removing tree stumps, tree scoops for tree transplanting, digging rakes for raking machines and used for agriculture and gardening, digging buckets being backhoe buckets, rotary brooms for snow removal, electric brooms; power tillers; street sweepers; trenchers being trench diggers; flail mowers; hydraulic hammers; hammer drivers being pile drivers; hammer drivers being power operated post drivers; pneumatic hammers; wood chippers; compactor plates being earth compacting machines; compactor plates being ground surface finishing and compacting machines; concrete floor saw; concrete vibrators; construction rammers being machines; gas-operated power generators; mobile electric power generators; water pumping units for industrial purposes; water suction pumps; gas-powered pumps for removing semi-trash water; high pressure washers; stump grinders being tree stump cutters; log splitters, namely, machines for cutting and splitting logs for firewood; air compressors; car lifts; motorcycle lifts being power-operated lifts for moving, parking and storing motorcycles; shop industrial machine presses; shop hydraulic presses for metalworking; shop drill

presses; powered tire changer machines for land vehicles being automatic tire removing and installing machines; powered tire changer machines being power-operated tire removing and installing machines

Class 09

(3) Dynamic wheel balancer machines

Class 12

(4) Attachments for vehicles, namely, fork tines extensions for forklifts

Class 19

(5) Non-metal animal shelters; non-metal shelter structures for motor vehicles; transportable car shelters not made of metal; non-metal residential and agriculture storage shelters; garden sheds of non-metallic materials; prefabricated, non-metal storage sheds; greenhouses, transportable, not of metal; canopies, not of metal and not of textile; greenhouse frames, not of metal

Class 20

(6) Plastic storage containers for commercial or industrial use; workbenches; storage tanks of wood; tool chests, not of metal, empty; warehouse storage racks; workbenches of metal; service carts of metal

Class 22

(7) Canopies of textile; tents

Services**Class 35**

Wholesale sales of shelter structures for vehicles, storage shelters, residential and agriculture storage shelters, animal shelters, canopies, tents, prefabricated garages of metal, prefabricated garages not of metal, garden sheds, storage sheds, storage shelves, storage containers of metal, storage containers not metal, warehouse storage racks, greenhouses, greenhouse frames, metal gates, gates not of metal, storage tanks of wood, tool storage chests, service carts, workbenches, workbench stations, tent frames, grapple buckets for moving earth and loose objects, tractor-towed agricultural instruments being skeleton grapples, skeleton grapple buckets for demolitions and sifting and clearing rocks, limbs and other unwanted debris, tractor-towed agricultural instruments being root rake grapples, root rake grapples for removing unwanted roots, tree limbs and debris, snow ploughs, snow buckets for moving snow, bulldozer blades for earth moving machines, tractor-towed agricultural instruments being stump buckets, stump buckets for removing tree stumps, tree scoops for tree transplanting, digging rakes for raking machines and used for agriculture and gardening, digging buckets being backhoe buckets, fork tines extensions for forklifts, bulldozer tractors, lawn tractors, tractors being agricultural equipment, excavators, rotary brooms for snow removal, electric brooms, power tillers, street sweepers, trenchers being trench diggers, flail mowers, hydraulic hammers, hammer drivers being pile drivers, hammer drivers being power operated post drivers, pneumatic hammers, wood chippers, compactor plates being earth compacting machines, compactor plates being ground surface finishing and compacting machines, concrete floor saw, concrete vibrators, construction rammers, gas-operated power generators, mobile electric power generators, water pumping units for industrial purposes, water suction pumps, gas-powered pumps for removing semi-trash water, high pressure washers, stump grinders being tree stump cutters, log splitters namely machines for cutting and splitting logs for firewood, air compressors, car lifts, auto shop equipment, car oil drainer, motorcycle lifts being power-operated lifts for moving, parking and storing motorcycles, shop industrial machine presses, shop hydraulic presses for metalworking, shop drill presses, powered tire changer machines for

land vehicles being automatic tire removing and installing machines, powered tire changer machines being power-operated tire removing and installing machines, dynamic wheel balancer machines, prefabricated shower rooms of metal, prefabricated, shower rooms not of metal, and garden equipment and supplies; retail sale of shelter structures for vehicles, storage shelters, residential and agriculture storage shelters, animal shelters, canopies, tents, prefabricated garages of metal, prefabricated garages not of metal, garden sheds, storage sheds, storage shelves, storage containers of metal, storage containers not metal, warehouse storage racks, greenhouses, greenhouse frames, metal gates, gates not of metal, storage tanks of wood, tool storage chests, service carts, workbenches, workbench stations, tent frames, grapple buckets for moving earth and loose objects, tractor-towed agricultural instruments being skeleton grapples, skeleton grapple buckets for demolitions and sifting and clearing rocks, limbs and other unwanted debris, tractor-towed agricultural instruments being root rake grapples, root rake grapples for removing unwanted roots, tree limbs and debris, snow ploughs, snow buckets for moving snow, bulldozer blades for earth moving machines, tractor-towed agricultural instruments being stump buckets, stump buckets for removing tree stumps, tree scoops for tree transplanting, digging rakes for raking machines and used for agriculture and gardening, digging buckets being backhoe buckets, fork tines extensions for forklifts, bulldozer tractors, lawn tractors, tractors being agricultural equipment, excavators, rotary brooms for snow removal, electric brooms, power tillers, street sweepers, trenchers being trench diggers, flail mowers, hydraulic hammers, hammer drivers being pile drivers, hammer drivers being power operated post drivers, pneumatic hammers, wood chippers, compactor plates being earth compacting machines, compactor plates being ground surface finishing and compacting machines, concrete floor saw, concrete vibrators, construction rammers, gas-operated power generators, mobile electric power generators, water pumping units for industrial purposes, water suction pumps, gas-powered pumps for removing semi-trash water; high pressure washers, stump grinders being tree stump cutters, log splitters namely machines for cutting and splitting logs for firewood, air compressors, car lifts, auto shop equipment, car oil drainer, motorcycle lifts being power-operated lifts for moving, parking and storing motorcycles, shop industrial machine presses, shop hydraulic presses for metalworking, shop drill presses, powered tire changer machines for land vehicles being automatic tire removing and installing machines, powered tire changer machines being power-operated tire removing and installing machines, dynamic wheel balancer machines, prefabricated shower rooms of metal, prefabricated, shower rooms not of metal, and garden equipment and supplies; online sale of shelter structures for vehicles, storage shelters, residential and agriculture storage shelters, animal shelters, canopies, tents, prefabricated garages of metal, prefabricated garages not of metal, garden sheds, storage sheds, storage shelves, storage containers of metal, storage containers not metal, warehouse storage racks, greenhouses, greenhouse frames, metal gates, gates not of metal, storage tanks of wood, tool storage chests, service carts, workbenches, workbench stations, tent frames, grapple buckets for moving earth and loose objects, tractor-towed agricultural instruments being skeleton grapples, skeleton grapple buckets for demolitions and sifting and clearing rocks, limbs and other unwanted debris, tractor-towed agricultural instruments being root rake grapples, root rake grapples for removing unwanted roots, tree limbs and debris, snow ploughs, snow buckets for moving snow, bulldozer blades for earth moving machines, tractor-towed agricultural instruments being stump buckets, stump buckets for removing tree stumps, tree scoops for tree transplanting, digging rakes for raking machines and used for agriculture and gardening, digging buckets being backhoe buckets, fork tines extensions for forklifts, bulldozer tractors, lawn tractors, tractors being agricultural equipment, excavators, rotary brooms for snow removal, electric brooms, power tillers, street sweepers, trenchers being trench diggers, flail mowers, hydraulic hammers, hammer drivers being pile drivers, hammer drivers being power operated post drivers, pneumatic hammers, wood chippers, compactor plates being earth compacting machines,

compactor plates being ground surface finishing and compacting machines, concrete floor saw, concrete vibrators, construction rammers, gas-operated power generators, mobile electric power generators, water pumping units for industrial purposes, water suction pumps, gas-powered pumps for removing semi-trash water, high pressure washers, stump grinders being tree stump cutters, log splitters namely machines for cutting and splitting logs for firewood, air compressors, car lifts, auto shop equipment, car oil drainer, motorcycle lifts being power-operated lifts for moving, parking and storing motorcycles, shop industrial machine presses, shop hydraulic presses for metalworking, shop drill presses, powered tire changer machines being automatic tire removing and installing machines, powered tire changer machines being power-operated tire removing and installing machines, dynamic wheel balancer machines, prefabricated shower rooms of metal, prefabricated, shower rooms not of metal, and garden equipment and supplies

Goods

Class 08

(1) Razors, and parts and fittings for the aforesaid goods; Electric shavers, and parts and fittings for the aforesaid goods; shavers, and parts and fittings for the aforesaid goods; battery powered shavers and beard trimmers, and parts and fittings for the aforesaid goods; hair trimmers, beard trimmers, hair clippers, and parts and fittings for the aforesaid goods; apparatus for shaving and trimming body hair namely, electric and battery-powered hair trimmers, and parts and fittings for the aforesaid goods; electric nasal and ear hair trimmers, and parts and fittings for the aforesaid goods; epilators, namely, hair-removing tweezers, and parts and fittings for the aforesaid goods; blades and shaving foils for electric shavers, and parts and fittings for the aforesaid goods; hair clippers, and parts and fittings for the aforesaid goods; cleaning devices for shavers, hair trimmers, hair clippers and beard trimmers, and parts and fittings for the aforesaid goods; replacement heads for shavers, hair trimmers, hair clippers and beard trimmers, and parts and fittings for the aforesaid goods; electric and non-electric depilation appliances, and parts and fittings for the aforesaid goods; cases and holders for electric and battery-powered hair trimmers, electric nasal and ear hair trimmers, hair-removing tweezers and electric and non-electric depilation appliances, and parts and fittings for the aforesaid goods; intense pulsed light and laser hair removal devices for in-home use, and parts and fittings for the aforesaid goods

Class 09

(2) Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely, sensing and signaling devices, namely, optical sensors, motion sensors, proximity sensors, radiation detectors, infrared sensors, alarm strobe lights and alarm control panels for measurement and quality control of materials processing, and parts and fittings for the aforesaid goods; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely, power switches, power transformers, voltage regulators, distribution boxes for electrical power, and electric control panels, and parts and fittings for the aforesaid goods; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data namely, computers and cameras, and parts and fittings for the aforesaid goods; Electric apparatus for recording, sending,

transmission, switching, receiving, reproduction and processing of sounds, signals, symbols and images namely, computers, sound processors, digital voice signal processors, video processors, and parts and fittings for the aforesaid goods; sensors for recording, processing, sending electronic alerts to end users, transmission, audio switching, storing electronic currents and output of messages, namely, the wireless transmission of radio relay messages, acoustic information and data, and parts and fittings for the aforesaid goods; weighing, measuring, signalling, checking apparatus and instruments, namely, pressure sensors for shavers, and parts and fittings for the aforesaid goods; downloadable computer search engine software, and parts and fittings for the aforesaid goods; recorded and unrecorded machine-readable data carriers, namely, blank USB flash drives, blank hard disks, blank tapes for storage of computer data for personal health apparatus information, namely, electric shavers, and parts and fittings for the aforesaid goods; data processing devices and data processing programmes for controlling and operating personal health apparatus, namely computer hardware for data processing, downloadable computer software and mobile application software for use in tracking, processing, and displaying personal health data and educating consumers in the field of personal health, computer software and software applications for accessing medical and health information, and parts and fittings for the aforesaid goods; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media, namely pre-recorded DVDs featuring personal health information; downloadable computer software programs and software applications for mobile phones and other handheld mobile digital electronic devices, namely, computer tablets, personal digital assistants, and laptop computers, downloadable mobile software applications to monitor and control the functioning of other electronic devices in the field of personal health; computer software for accessing, browsing and searching online databases; recorded computer software and firmware that support usage of products, namely operating system programs, data synchronization programs and application development computer software programs for personal and handheld computers in the field of personal health, parts and accessories for the aforesaid goods; monitoring apparatus, namely, wireless controllers for the remotely monitor and control the function and the status of computers, excluding video gaming apparatus; audio monitors; digital video monitors; digital signage monitors to be connected with television sets, digital signage monitors to be connected with television receivers; monitors (hardware), namely, computer monitors; Smart speakers; display screens, namely, electronic touch display screens, flat panel display screens, liquid crystal display screens, computer display screens; Smart audio speakers with virtual personal assistant capabilities; video screens; liquid crystal displays for use with beauty care apparatus; downloadable computer hardware and software for machine-to-machine (M2M) communication namely, computer software that enables point to-point communication between machines, sensors and hardware over cellular and wired networks; downloadable computer hardware and software using artificial intelligence for use in emulating machine-to human communication; speech-to-text conversion software and computer hardware; downloadable computer hardware and software for use in management of customer information in the field of personal health; downloadable computer software for connecting computers and for enabling cloud computing; downloadable computer software enabling users to create, save, and launch sequences of commands and logic within and between computer operating software applications and computer operating software systems to maintain functionality of customer electronic devices; computer software for personal information management; computer software used to process voice commands, and create audio responses to voice commands; computer software for voice command and recognition, for speech-to-text conversion, for personal information management; voice recognition apparatus, namely, mobile phones, computers, and tablet computers; digital voice recorders; wireless communication devices for voice, data or image transmission, namely, wireless computer hardware for telecommunication; software for optical character recognition;

voice recognition software; speech to text conversion software; downloadable voice-enabled software applications for mobile phones, namely, computer software for monitoring usage of products in the field of personal health; Smartwatches featuring digital personal assistant software; downloadable mobile application software that enables users of computers and mobile devices to share information and images, to form virtual communities and to engage in social networking; downloadable computer application software for wireless handheld devices, namely downloadable mobile application software for tracking, monitoring and remote control of cameras; downloadable computer software for use in operating electrical medical and beauty care apparatus for use in the field of personal health; downloadable computer application software for mobile phones, namely, software for providing information on hair care and beauty; hydration sensors for measuring hair temperature and moisture content; skin and hair care sensing and monitoring devices for use in personal health care, not for medical purposes, incorporating sensing technology for skin and hair care apparatus and instruments, namely, sensors to monitor shaver battery level and blade status of the shaver, and hair temperature and moisture content; sensors, namely, proximity sensors, temperature sensors, pressure sensors, motion sensors, smoke sensors; electric current switches; optical transmitters; optical sensors; electric wireless devices with sensors namely, remote temperature sensors, touchscreen sensors; software for use in the field of personal health namely, software applications for mobile devices for accessing medical and health information; computer software programs, namely, downloadable mobile software application for setting, tracking, and monitoring health and wellness goals of users; electronic data communications apparatus with interactive functions, namely, interactive touch screen terminals for use with all of the aforesaid goods; handheld digital electronic devices for the sending and receiving of digital data, for use as a handheld computer, personal digital assistant electronic organizer incorporating software for informational retrieval; electronic voice command and recognition apparatus, namely, headphones and earphones with remote controls for controlling the operations of computers, internet services, software applications, handheld computers, tablet computers, wearable electronic activity trackers, audio and video players and recorders

Services

Class 42

(1) Scientific and technological services related to health and wellness, namely, scientific research in the field of health and wellness, and design and development of computer and wearable technology hardware and software for monitoring health and wellness; services for facilitating the capturing, combining and connecting of personal health data in a cloud or platform, namely, cloud hosting provider services, platform as a service featuring software platforms for capturing, combining, and connecting personal health data; skin and hair care medical testing and screening for scientific research purposes; cloud-based platform for searching structured and unstructured data for healthcare analytics; design, development and maintenance of computer systems and software for machine-to-machine (M2M) communication; design, development and maintenance of computer systems and software for management of customer information; web hosting of software as a service [SaaS] in the field of digital health services; providing software as a service [SaaS] services featuring non-downloadable software for the remote management and control of portable computers and wireless communication devices; software as a service [SaaS] services featuring software for managing data storage management for archiving business, corporate, and personal records and documents; software as a service [SaaS] services featuring computer development platforms that enable software developers to design, test, deploy, manage, and monitor internet of things (IoT) devices, namely, machines, sensors and hardware, all for machine-to-machine (M2M) communication; software as a service [SaaS] services featuring software for using artificial intelligence for emulating machine-to-human communication; application service provider (ASP)

services featuring computer software and providing online non-downloadable software, namely, computer software used to process voice commands and create audio responses to voice commands; hosting of computer software platforms of others on the Internet; platform as a service (PAAS) featuring downloadable computer software platforms for industrial and commercial purposes being related to personal health and health technology medical devices for the transmission of electronic data namely video, music, images, text and sound in the fields of personal health and skincare

Class 44

(2) Provision of information in the field of personal health and wellness via an Internet website portal, all aforesaid services provided via the internet and a cloud-based digital healthcare platform, all aforesaid services for facilitating the capturing, combining and connecting of personal health data delivered from personal health measurement devices, namely, smart phones and smart watches, and self-generated health data; medical and healthcare analysis services, namely, health coaching of a user, making lifestyle suggestions, and recommendations relating to nutrition, sleep, stress, and exercise based on personal health data, physiological parameters and contextual information in the fields of skin and hair care, all aforesaid services provided via the internet and a cloud-based digital healthcare platform, all aforesaid services for facilitating the capturing, combining and connecting of personal health data delivered from personal health measurement devices, namely, smart phones and smart watches, and self-generated health data

(4) Smart speakers; audio speakers; audio and audio frequency amplifiers; wireless earbuds; earbuds; earphones and headphones; wireless speakers; wireless device for transmitting and

receiving electronic data being earbuds; wireless adapters for computers and audio equipment; download mobile applications for controlling wireless headsets, wired earphones, USB dongle being wireless network adapters, audio speakers, amplifiers, wireless headsets for smartphones, earphones and headphones, wireless network speakers, wireless transmitters and receivers, wireless adapters for computer and audio equipment, and apparatus for recording, transmission or reproduction of sound; batteries for electronic devices namely earphones, headphones, audio and wireless speakers and amplifiers; battery chargers for earphones, headphones, audio and wireless speakers and amplifiers; electrical power supplies for earphones, headphones, audio and wireless speakers and amplifiers; renewable battery system to provide backup power for earphones, headphones, audio and wireless speakers and amplifiers; battery jump starters; solar panels for the production of electricity; charging appliances namely computer hardware and software for rechargeable equipment; computer servers for use in connection with recharging portable electronic equipment; electric charging cables, namely computer cables, cable adapters and batter cables; audio cables; battery cables; battery packs for power tools; USB cables; data cables; smart base stations, namely, battery chargers for cell phones, tablets, and smart devices, and smart computer docking stations; power charging stations, namely, chargers for cell phone batteries; electrical sockets; electric plugs; power strips; electric switches; power switches; light switches; electric smart plugs; digital multimeters; backpacks adapted for use with solar battery charging apparatus; electric flood sensors for household and industrial purposes; electric motion sensors; electric door and electric window sensors for household and industrial purposes; smoke detectors; carbon monoxide detectors; motion detectors; fire alarms; electric door bells; thermostats; downloadable mobile applications that provide a dashboard of user-personalized health and wellness calculation in the fields of diet, weight loss and diet planning; downloadable mobile applications for tracking personal health, fitness and wellness data; downloadable mobile applications software for controlling chargers and electrical appliances; baby monitor; video projectors; electronic data recorders for computers; computer hardware and software for monitoring and alerting remote sensor status via spread spectrum transmission; computer hardware and software for monitoring and alerting remote sensor status via the internet or via transmitters and receivers; emergency signal transmitters; electronic card readers and controllers for controlling access to a premises; radio frequency identification credentials, namely, cards, stickers and tags; radio-frequency identification readers; home automation control devices of electronic control systems for home monitoring for lighting, HVAC, security, safety and other home monitoring and control applications; electronic locks for safety and other home monitoring and control applications; portable electronic devices namely cell phones, earphones, headphones, audio and wireless speakers for wireless voice, data or image transmission; fire sprinklers; thermometers not for medical use; phone camera kit comprised primarily of camera mounts, camera tripods, camera lenses, lens clips, monopod, camera case, electric charging cables, and battery chargers and also containing lens cleaning cloth; stands adapted for mobile phones, cell phone cases, and cell phone straps; home theater systems comprising DVD players, audio speakers, and audio amplifiers; biometric voice recognition systems ; downloadable and recorded computer software intelligent music systems for recording, transmission, and reproduction of sound; audio conversion products, namely, analog to digital converters; personal digital voice assistants; wireless communication devices namely cell phones, speakers, earphones and headphones for voice, data, or image transmission; multi room audio device, namely, audio speakers; fitness trackers, namely, wearable activity trackers; wearable digital electronic devices, namely electronic watches for monitoring activity; wearable electronic devices, namely, computers, activity trackers, smart rings, smart watches, cameras, and digital electronic devices for the recording, organizing, transmitting, manipulating, storing, reviewing, sending and receiving of data, text, image, audio, and video files; webcams; computer scanners; odometers; televisions; camera

hardware systems for internet protocol video surveillance; wireless computer mice; computer keyboards; cameras; mobile phone protectors, namely, screen protectors comprised of tempered glass, PVC, polycarbonate, and polyethylene terephthalate adapted for use with mobile phones, tablets, and cases for mobile phones and tablets; cell phone cases; battery cases; protective cases for rechargeable electric batteries; housings specifically for rechargeable electric batteries used in mobile phones, digital audio and video players and tablet computers; electrical controllers for governing the electrical output of rechargeable electric batteries in protective cases for use with electronic devices, namely, mobile phones, digital audio and video players, personal digital assistants, e-book readers, handheld computers, tablet computers, electronic organizers, electronic notepads and cameras; laptop stands; monopods for cameras and smartphones; wireless headsets; video monitors; head-up displays for use in automobiles, namely, transparent electronic displays for providing navigational and operational information; voice integrated dashboard cameras for vehicles; USB dongles being wireless network adapters; computer hardware, namely, USB dongles being wireless network adapters; computer network hub; USB hubs; computer hardware, namely, USB dongles being wireless network adapters and wireless routers; wireless devices such cell phones, headphones and earphones for voice and data transmitters and receivers; information devices, namely, digital voice signal processors with virtual personal assistant capabilities; downloadable software for the home automation of electronic control systems for HVAC for devices comprising wireless and wired controllers, controlled devices and software for lighting, HVAC, safety, security and other home monitoring and control applications; personal digital voice assistant, namely, stand-alone voice controlled information devices comprised of cloud-connected and voice controlled personal data assistants and personal digital assistants; downloadable and recorded computer software, namely, portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating and reviewing data, text, audio and image files; wireless controllers to monitor and control the functioning of other electronic devices; transparent electronic screens for voice, data, or image transmission; touch screens; wireless communication devices namely cell phones, speakers, earphones and headphones for voice, data or image transmission; computerized vehicle engine analyzer; video systems comprised of video screens, video cables, and DVD players and televisions for use in cars; distance sensors ; flat panel television and television display monitors for use in cars; electronic weighing smart scales for personal use; mounts for GPS navigation devices; dashboard cameras; dashboard mounts for mobile phones; protective helmets for sports; diving equipment, namely, helmets; diving equipment, namely, protective diving shoes; goggles for sports; snow goggles; swimming goggles; pet goggles; goggles for industrial and commercial safety; eyewear, namely, sunglasses, eyeglasses, lenses, frames, cases, and eyeglass accessories therefor; product testing equipment, namely, environmental testing chambers commercial products with temperature, humidity and pressure controls; vibration testing chambers for commercial products with temperature and humidity controls; testing chambers for commercial products with thermal shock means; environmental simulation chambers for drying, curing and aging of commercial product samples; Apparatus for controlling patient body temperatures, namely, water flow, temperature and resistance testers for verifying operating parameters; corrosion testers; apparatus and instruments for generating clean air; electrically operated air suction apparatus for recording pollutants in treatment, processing and production machines and installations.

Class 11

(5) Solar powered lights, namely, electromechanical devices for identifying and redirecting natural light for providing natural lighting indoors; LED lamps; LED light strips for decorative purposes; LED mood lights; lighting fixtures; flashlights; headlamps, namely, portable headlamps; motorcycle lights; bicycle lights; rear lights for vehicles; electric lanterns; electrically heated clothing;

electrically heated socks; garment steamers; air purifiers; electric coffee machines; electric espresso machines, electric coffee percolators, moka pots; capsule coffee machines; sous vide machines, namely thermal immersion circulators for cooking; dehumidifiers; humidifiers; air fryers; electric cooking ovens; electric grills; portable electric heaters; portable refrigerators; street lamps; wall lamps; wall lights; ceiling fans; chandeliers; lamp bases; Decorative lamps for interior lighting; lamps for festive decoration; light bulbs; light diffusers; book lights; candle lamps; ceiling light fittings; ceiling lights; desk lamps; flood lights; overhead lamps; pen lights; pendant lighting fixtures; reading lights; battery-operated night lights; utility lighters for lighting grills, fireplaces and candles; vehicle reflectors; vehicle turn-signal light bulbs; faucets, namely, bar sink faucets, kitchen faucets, lavatory faucets, roman tub faucets and faucet handles featuring digital valves, control valves, and interactive sensors and remote controls therefor; shower and tub fixtures, namely, shower heads, bath tub spouts, hand held shower heads and slide bars for supporting hand held shower heads, and shower head sprayers featuring digital valves, shower control valves, and remote controls and interactive sensors therefor; water filtering apparatus, namely, membrane modules for removing dissolved and suspended materials from liquids, and replacement cartridges and filters therefor; air purifiers and air purification units.

Class 14

(6) Jewelry; gems; jewelry made in whole or significant part of ammolite; finished and unfinished jewelry made in whole or significant part of ammolite; feng shui jewelry made in whole or significant part of ammolite; ornaments of precious metal in the nature of jewelry; precious and semi-precious crystal stones and beads for use in jewelry; precious stones; pearls; jewelry boxes; clocks and watches; mechanical and automatic watches; parts for watches; parts for clocks; sports watches; watch and clock springs; watch bands; watch bands and straps; watch boxes; watch bracelets; watch cases; watch chains; watch clasps; watch crowns; watch faces; watch fobs; watch glasses; watch movements; watch pouches; watch straps made of metal or plastic.

Class 15

(7) computer keyboard cases

Class 18

(8) Backpacks; backpacks adapted for use with solar-powered chargers ; briefcases; pocketbooks being billfolds; satchels; suitcases; backpacks for pets; business card cases; clothing for pets; dog collars; gentlemen's handbags; handbags for ladies; harnesses for guiding children; knitting bags for carrying and holding knitting supplies; leather leashes; men's clutch bags; mesh shopping bags; multi-purpose purses; rubber parts for stirrups; sports bags; sports packs; suitcases with wheels; travel bags; trekking sticks; umbrellas and parasols; waist bags; walking sticks; wallets, not of precious metal; travel bags; baby carriers worn on the body , namely, baby carriers worn on the body and attached with shoulder and waist straps to wearers, infant inserts in the nature of accessories specially designed for baby carriers worn on the body in the nature of padded cushions that can be inserted into said carriers and which provide additional support to newborns and young babies; accessories for baby carriers worn on the body in the nature of waist expanders, namely, fabric inserts for waist straps used to attach baby carriers worn on the body to wearers, waist pouches, namely, fanny packs, tote bags, back sacks, and travel bags used in connection with and as part of baby carriers worn on the body baby backpacks; baby carrying bags ; bags for carrying babies' accessories; Infant carriers worn on the body; watch straps made of leather.

Class 21

(9) Electric aromatherapy oil diffusers

Class 25

(10) T-shirts; shirts; tank tops; tops being clothing; sweatshirts; sweaters; raincoats; cardigans; pullovers; sport jerseys; jackets; coats; rain jackets; shell jackets; vests; ponchos; kimonos; underwear; sport singlets; slips being undergarments; panties; underpants; drawers being clothing, namely undergarments; briefs; boxer briefs; bras; pajamas; socks; warm-up suits; skirts; bodysuits; leotards; unitards; dresses for women; pants; sweatpants; shorts; trousers; tights; leggings; knitwear being clothing, namely, shoulder wraps, head wraps, shirts, sweaters, dresses, neck warmers, muffs hats, gloves, mittens, and scarves; waterproof jackets and pants; athletic uniforms; dance clothing, namely, bras, jackets, pants, shorts, close-fitting one-piece garment, Jumpsuits, sweaters, tights, leotards, shirts, skirts, leg warmers, tank tops; bathing suits; beach coverups; beach shoes; swimsuits; bikinis; clothing for children, namely, body suits, caps, coats, beach coverups, dresses, gloves, hats, headbands, headwear, namely hats and toques, jackets, leg warmers, leggings, leotards, pants, scarves, shirts, shorts, shoulder wraps, skirts, socks, sweat pants, sweat shirts, sweaters, t-shirts, tank tops, tights, toques, underwear, vests, sun visors, warm up suits; shoulder wraps being clothing; head wraps being clothing; arm warmers being clothing; neck warmers; gloves being clothing; muffs being clothing; mittens; belts being clothing; bandanas being neckerchiefs; scarves; wristbands being clothing; sandals; shoes; soles for footwear; headwear, namely, toques; headbands being clothing; caps being headwear; hats; cap peaks; caps with visors; berets; hoods being clothing; ear muffs being clothing; visors being headwear for athletic use; bodices; brassieres; camisoles; combinations of clothing, namely, paired shirts and pants, body suits and underclothing; corselets; casual and athletic footwear; jerseys; lingerie; petticoats; scarves; shawls; slips being underclothing; sports jerseys and breeches for sports; sports singlets; sweat-absorbent underwear; teddies being underclothing; sandals and beach shoes; ski suits; ski boots; beach hats; gloves as clothing; riding gloves; ski gloves; girdles; sleep masks; parkas.

Class 28

(11) Plush toys; toy windmills and toy mobiles; construction toys and blocks; toy figures; toy furniture; toy screwdrivers for assembling construction toys; base plates and simulated road plates for construction toys; toy vehicles; toy model train sets; puzzles; toy friction motors for toy vehicles; toy electric motors; children's multiple activity toys; educational plastic blocks with numbers or geometric shapes; [moved to class 9]; Christmas tree decorations; toy construction blocks and connecting links therefor; toy construction kits; toy animals; toy foliage; toy cranes; toy road plates; kits for assembling toy; baby multiple activity toys; toy building blocks; infant's rattles; dolls; doll house furnishings; accessories for dolls; playsets for dolls; playset buildings; educational games; toy model train sets; toy railroad tracks; bath toys; ride-on toys; push toys; pull toys; infant's stacking toys; board games; jigsaw puzzles; educational construction toys sets comprising gears, pulleys, beams, wheels, connectors, electric motors, sensors and/or pneumatic cylinders for assembling and controlling the construction toys; construction toy sets and carrying cases or storage cases ; motorized toy model construction kits; golf clubs, golf balls, golf gloves, golf club grips, golf bags, golf tees, head covers for golf clubs, golf ball markers; appliances for gymnastics, namely, asymmetric and high bars, balance beams, rings, springboards; archery bows; badminton rackets; balls for games; board games; body building apparatus, namely exercise weights, free weights, weight lifting machines; climbers' harness; controllers for game consoles; exercise equipment, namely, inflatable balls; fishing tackle; football elbow pads; gyroscopes and flight stabilizers for model aircraft; Knee pads for athletic use; ordinary playing cards; portable games with liquid crystal displays; roller-skates; skateboards; Snow skis; Snow sleds being sports articles;

swimming rings; tabletop games; tennis racquets; toy drones; toy robots; athletic wraps for supporting wrists during exercise; yoga straps; sport armbands specially adapted for personal electronic devices, namely, mobile phones and MP3 players.

Services

Class 35

Retail and wholesale store services featuring clothing, footwear, headwear, yoga and athletic accessories, yoga equipment, athletic equipment, bags, baby carriers, baby strollers, vitamins, dietary and nutritional supplements, perfume, cosmetics, electronics, education, jewelry and watches, glasses and sunglasses, electrical generators and tools, product testing equipment; online retail and wholesale store services featuring clothing, footwear, headwear, yoga and athletic accessories, yoga equipment, athletic equipment, bags, baby carriers, baby strollers, vitamins, dietary and nutritional supplements, perfume, cosmetics, electronics, education, jewelry and watches, glasses and sunglasses, electrical generators and tools, product testing equipment; arranging and promoting special sales events of others in the fields of technology, e commerce, electronics, education, jewelry and watches, glasses and sunglasses, clothing, skincare, perfume, bags, strollers, electrical generators and tools, yoga, physical fitness, meditation, healthy living, mindfulness, goal setting, leadership development and personal development; promotion of goods and services of others through sponsorship of sports events; business assistance, namely, outsourcing services in the field of business analytics and operation; sales demonstration of goods for others; shop window dressing; sales promotion for others by means of website information and public relations campaigns; promotional sponsorship of athletic events for athletes and others; advertising services for promoting public awareness of the benefits of physical activity; administration of consumer loyalty programs; providing online advertising space and marketing services for the products and services of others in the fields of technology, e commerce, electronics, education, jewelry and watches, glasses and sunglasses, clothing, skincare, perfume, bags, strollers, electrical generators and tools, and yoga accessories; business management services and marketing consulting services; promoting, advertising and marketing online web sites of others; providing targeted marketing services and retargeting advertising services for brands and social media influencers; promoting and marketing the goods and services of others via electronic messaging, text messaging, and social media; business administration services in the field of customer management; consulting services for the management and compilation of computerized databases in the field of customer relationship management; optimization services of online websites for third parties; search engine and web site optimization

Measuring apparatus and measuring instruments, namely, computer hardware and software for measuring contamination levels and hygiene levels in hospitals, measuring apparatus and instruments namely, computer hardware and software for measuring contamination levels and hygiene levels of medical devices; distance measuring instruments, namely, distance sensors; distance measuring instruments, namely, electronic distance meters; acoustic measuring apparatus namely, noise level meters; signal amplifiers; receivers for electronic signals, namely, GPS receivers; receivers for electronic signals, namely, radio receivers; transmitters for electronic signals, namely, GPS transmitters; transmitters for electronic signals, namely, radio transmitters; transmitters for electronic signals, namely, short range transmitters; transmitters for electronic signals, namely, long range transmitters; routers for audio, video and digital signals, namely, wireless routers; safety sensors, namely, carbon monoxide detectors, smoke detectors, and combination carbon monoxide and smoke detectors; wireless transmitters for electronic signals, namely, radio transmitters; wireless transmitters for electronic signals, namely, short range transmitters; electronic devices being wireless item locators; computer hardware for data processing; barcode scanners; optical scanners; hand-held electronic scanners; downloadable computer software for the recording, collection, processing of information in the areas of nursing, hospital occupancy and discharge management, as well as reprocessing and cleaning of medical devices, hospital and nursing supplies, patient rooms and premises; downloadable mobile application for the recording, collection, processing of information in the areas of nursing, hospital occupancy and discharge management, as well as reprocessing and cleaning of medical devices, hospital and nursing supplies, patient rooms and premises; downloadable computer software for the evaluation and optimization of workflow processes in the field of nursing, hospital occupancy and discharge management; downloadable mobile application for the evaluation and optimization of workflow processes in the field of nursing, hospital occupancy and discharge management; downloadable computer software for resource management and quality management in the field of

nursing, hospital occupancy and discharge management; downloadable mobile application for resource management and quality management in the field of nursing, hospital occupancy and discharge management; downloadable computer software for use with distance sensors for measuring distance and time between two people in close proximity to each other; downloadable computer software for monitoring and analyzing the condition and readiness of medical devices; downloadable mobile application for monitoring and analyzing the condition and readiness of medical devices; downloadable computer software for controlling and documenting the reprocessing of medical devices, hospital and nursing supplies, patient rooms and premises for sanitation and hygiene; downloadable mobile application for controlling and documenting the reprocessing of medical devices, hospital and nursing supplies, patient rooms and premises for sanitation and hygiene; downloadable computer software for tracking the location of people, objects, medical devices, beds and bed accessories using GPS data; downloadable mobile application for tracking the location of people, objects, medical devices, beds and bed accessories using GPS data; downloadable computer software for personnel resource planning, in the field of nursing and accommodation of hospital guests; downloadable mobile application for personnel resource planning, in the field of nursing and accommodation of hospital guests; downloadable computer software for reporting defects and damages on hospital and medical care premises; downloadable mobile application for reporting defects and damages on hospital and medical care premises; downloadable computer software for creating and tracking maintenance schedules, testing and calibration deadlines for medical devices; downloadable mobile application for creating and tracking maintenance schedules, testing and calibration deadlines for medical devices; Labels with machine-readable codes; Labels with integrated RFID chips; downloadable electronic publications, namely, digital work instructions for the daily cleaning of hospital and medical care premises and medical devices, operating instructions, maintenance manuals; stationary computers being desktop computers; mobile computers; tablet computers; smartphones; downloadable computer software for hospital document management; downloadable computer software for hospital inventory management; downloadable computer software for project management, namely, for managing hygiene levels, status and processes in hospitals; downloadable interactive software for tracking, collecting, processing, extracting and analysing information in the field of nursing, hospital occupancy and discharge management, as well as management of reprocessing and cleaning of medical devices, hospital and nursing supplies, patient rooms and premises; electronic publications delivered online by databases, global computer network facilities and the internet in the fields of nursing, hospital occupancy and discharge management, management of reprocessing and cleaning of medical devices, hospital and nursing supplies, patient rooms and premises; downloadable computer software that allows transmission of sound, graphics, text and data, namely, video, voice, images and graphics over communications networks to desktop computers, mobile computers, tablet computers and smartphones; downloadable scientific and medical data, namely, images, text and information, via the internet; electric and electronic communication apparatus and instruments namely, radio transmitters; electronic telecommunications apparatus and instruments namely, telephone sets.

Services

Class 41

(1) Arranging and conducting of training courses in the field of nursing, hospital occupancy and discharge management, as well as reprocessing and cleaning of medical devices, hospital and nursing supplies, patient rooms and premises; conducting employee training, namely, providing online, non-downloadable training videos in the field of cleaning, reprocessing and maintenance of medical devices; providing online videos, not downloadable, especially training videos in the area of cleaning, reprocessing and maintenance of medical devices.

Class 42

(2) Technological services, namely, electronically tracking computer chips located on furniture, beds, cushions, mattresses using computer technology, real-time location services and GPS navigation systems; Technological services, namely, electronically tracking computer chips located on apparatus for artificial respiration, medical apparatus for the treatment of sleep apnea, namely, an upper airway stimulator, microelectrical therapeutic apparatus for use in relieving pain, namely, microelectronic neurostimulation apparatus for use in relieving pain, wound drainage apparatus, wound suction apparatus using computer technology, real-time location services and GPS navigation systems; technical consulting in the field of hospital hygiene; technical advice and guidance regarding the reprocessing of medical devices and medical equipment; Server hosting; Server administration; Technical consulting related to server administration, especially in hospitals; web hosting; software as a service (SaaS) provided for accessing the hygiene status of hospitals and medical devices; Technical support related to computer software and applications; technical support related to computer software and applications being troubleshooting of computer software problems; technical support in the field of telecommunications technology, namely, monitoring technological functions of computer networks systems; providing technical support to customers in setting up desired views for monitoring process flows in the areas of nursing, occupancy and discharge management; Design and development of computer hardware and computer software; Computer software advisory services; advice in the field of design of computer hardware; Rental of computer hardware and computer software, computer devices and computer equipment; Maintenance and updating of computer software; Support and consulting related to the development of computer systems, databases and applications; Telecommunications engineering consultancy and technical advice in the field of the Internet; providing online, non-downloadable software that enables users to store, organize, edit, track, monitor, and share documents, information, data, images, speech, and signals, in the healthcare field; providing temporary use of non-downloadable software applications accessible via a web site that enables users to store, organize, edit, track, monitor, and share documents, information, data, images, speech, and signals in the healthcare field.

Connected televisions with integrated internet features; television monitors; computers; mobile computers; mobile communications devices, namely, tablet computers, mobile phones, mobile hotspot and mobile communication hubs; computer monitors; computer touch screens; joysticks for use with computers, other than for video games; computer keyboards; telephones; speakerphones being telephones with speaker and microphone; video display monitors; video cameras; computer network adapters; electric cables; microphones; tablet computers, smart home hubs, smart phones, smart terminals, smart TVs, and smart watches used for receiving and reading text, images and sound through wireless Internet access; monitors for television and radio signal transmitters and receivers; set-top boxes; electronic controllers for use with power converters; electronic controllers for tablet computers, personal computers, desktop computers and mobile phones to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; audio-video receivers; remote controls for television receivers; headphones and earphones; remote controls for portable and handheld electronic devices and computers, namely, tablet computers, mobile phones and computers; wireless controllers to monitor and control the functioning of tablet computers, personal computers, desktop computers and mobile phones; wireless communication devices, namely, tablet computers, mobile phones, mobile hotspot and mobile communication hubs, for voice, data and image transmission; biometric voice recognition and gesture recognition computer software and downloadable cloud-based software for enabling multiple users to stream, share, view, and manipulate, namely, through a touch screen, gesture recognition camera, a keyboard, a mouse, audio and video content from computers, laptop computers, tablet computers, mobile phones over wireless and Ethernet networks to a computer connected to an electronic display panel, flat panel display, liquid crystal display, monitor, projector, display wall and display table; computer hardware, namely, voice controlled personal assistant devices, namely, personal data assistants and personal digital assistants; voice controlled audio speakers, voice controlled information devices, namely, portable computers and portable communications devices, namely, tablets, mobile phones, watches with computer and display functions, and mobile computing devices, namely tablet computers and mobile phones; voice controlled home automation electronic control devices, namely, lighting controls, audio and

video receivers, HVAC controls, humidity controls, security and camera systems controls, entry system controls, remote controls for operating alarm systems, electronic window covering controls, electronic appliance controls, gaming system controls; computer hardware and downloadable biometric voice recognition and gesture recognition software used for the control of tablet computers, mobile phones, mobile hotspot and mobile communication hubs; digital signage; interactive computer kiosks comprising of computers, computer hardware, computer peripherals, digital displays and computer operating software for use in providing directory assistance; gateway routers in the nature of computer control hardware; electric, electronic and electrochemical oxygen monitors, not for medical purposes and pressure, humidity, temperature sensors for environmental use; environmental monitoring system comprised of meters and sensors that measure pressure, humidity, temperature and includes alarm and reporting functions

Services

Class 38

(1) Telecommunication services, namely, providing computer network access via fiber optic networks and wireless networks; telecommunications services, namely, electronic transmission of streamed and downloadable audio and video files via computer and other communications networks, providing on-line electronic bulletin boards for the transmission of messages among computer users in the field of consumer product information; web casting services; electronic exchange of messages via a global computer network; telecommunication services namely, electronic transmission of streamed and downloaded audio and video and multimedia content files via computer and other communications networks; providing an online Internet forum for the transmission of messages and information; providing online chat rooms for social networking; providing access to databases; providing telecommunication connectivity services for the transfer of images, messages, audio, visual, audiovisual and multimedia audio and visual files among e-readers, mobile phones, portable electronic devices, tablets and computer; streaming of audio, visual and audiovisual material via the Internet or other computer or communications network; electronic and wireless transmission and streaming of digital media content for others via global computer networks to handheld computers, laptops, and mobile electronic devices

Class 42

(2) Computer technical support services, namely, for accessing mobile troubleshooting information and remote data management for wireless delivery of digital audio and visual content to handheld computers, laptops, tablet computers and mobile phones; software as a service (SAAS), namely, hosting software for use by others for collecting and processing activity log and event data from devices and web sites; providing a virtual computer environment through cloud computing via the Internet; providing temporary use of nondownloadable computer software for managing computer access server applications, constructing an Internet platform for electronic commerce, designing, managing, and monitoring on-line forums for discussion, providing temporary use of non-downloadable Internet browser software; providing temporary use of on-line non-downloadable software for enhancing mobile access to the Internet via computers, mobile computers, and mobile communications devices, namely, tablet computers, mobile phones, mobile hotspot and mobile communication hubs; computer services, namely, creating on-line virtual communities for registered users to participate in discussions, obtain feedback, form virtual communities, and engage in social networking

Class 07

(1) Compressors for industrial machinery, and structural parts therefore; sealing gaskets being parts of engines and motors, and structural parts therefore; valves [parts of machines], in particular butterfly valves and disc valves; bearings [parts of machines], in particular rolling bearings and slide bearings; transmission mechanisms other than for land vehicles, namely, transmissions for machines, and structural parts therefore; bevel gears with motor; hydraulic actuators; pneumatic actuators; electric motors for machines, and structural parts therefore; electric generators; ventilators in the nature of ventilation valves being parts of machines, and structural parts therefore; heat exchangers being parts of machines, and structural parts therefore; devices for heat recovery in the nature of heat exchangers being parts of machines, heat sinks for use in machines, and structural parts therefore; waste gas conduits, namely, valves being parts of machines, and structural parts therefore; air filters being parts of machines and engines and structural parts therefore; pressure cylinders (hydraulic and pneumatic cylinders), being parts of machines; pumps, in particular liquid pumps; taps, clack valves and throttle valves being parts of machines, engines and motors; sound absorbers, being parts of machines; thermal fluid flow machines in the nature of agitators for circulating liquid media and gases and structural parts therefore; machines for fluidisation and spraying of powdery media, being parts of machines, namely powder coating spray guns, thermal spray guns being parts of machines, and structural parts therefore; control mechanisms for machinery and engines, namely, hydraulic valves being parts of machines and engines; conveyor devices and installations, namely, conveyor lines, conveyor belts, assembly line conveyor machinery; conveyors [machines]; drives for conveyors; electric driving motors for machines; equipment for mechanical engineering, namely conveyors being machines, cargo handling machines, lifting cargo lifting derricks, mechanical railed lifting conveyors, hoisting drums, all for use in manufacturing plants, robotics, heating and cooling systems and transport systems for processing materials and for manufacturing, and which is remotely controlled, tuned, optimized and monitored in connection with cloud computing, cloud networks and IoT (internet of things) communications; exhausters being suction ventilators in the nature of air suction pumps; hydraulic and pneumatic control valves being parts for machines;

machine parts, namely cylinders for industrial machinery, brakes for industrial machines, belt drives, belt pulleys, clutch levers, namely, clutches for industrial machinery, drive mechanisms, namely, variable speed drives for machines, industrial process controllers [hydraulic], namely, hydraulic valves being parts of machines, pressure regulating valves being parts of machines, regulators, valves being parts of machines, heat exchangers; machines for the supply of air, namely, air compressors for pneumatically driven pumps; mufflers as part of vehicle exhaust systems; mufflers for motors and engines; process control mechanisms for manufacturing installations, namely, hydraulic and pneumatic valves being parts of machines; screw conveyors; spray nozzles being parts of paint spraying machines; paint spraying machines; fluid supply and disposal installations, namely, electric pumps being parts of machines, engines and motors, diffusion pumps, and circulating pumps all for installations and apparatus using high-pressure media; tools for machines, namely, machine tools for the metalworking industry, taps, reamers, and broaches all being machine tools; Air filtering machines for removing pollutions, dust, solvents and particulate material from air flows; centrifugal separators for separating particles from gas or separating liquids from gas; centrifugal separators for separating particles from fluids by means of a centrifuge; dry scrubbers for the cleansing of exhaust gas, being parts of machines; wet scrubbers for the cleansing of exhaust gas, being parts of machines; venturi scrubbers; injection grids in the nature of engine injectors for adding particles and liquids to gas, being parts of machines; nozzles in the nature of dispensing valves being machine parts for dispensing particles and liquids and gas; metal grids conducting electricity, especially for use in exhaust gas aftertreatment systems, being parts of machines, namely particulate air filters for exhaust systems for internal combustion engines; electrodes conducting electricity, especially for use in exhaust gas aftertreatment systems, being parts of machines, namely particulate air filters for exhaust systems for internal combustion engines; condensers for liquifying gases and vapors, namely, heat exchangers being parts of machines; demisters, being parts of machines, namely, condensate separators; quenches being machines for cooling down gases by means of adding coolant, namely, pumps for cooling engines; marine engines for propelling ships, boats or other marine vessels; exhaust gas treatment equipment for marine engines; pressure regulators, namely, pressure valves being parts of machines.

Class 09

(2) optical measuring, measuring, signalling, display and checking (supervision) instruments for monitoring gas and liquid flows and for monitoring machine functions, namely, gas sensors for monitoring gas concentration, gas flow monitors, liquid concentration meters, fluid flow meters; automatic throttle valves for pressure control; pressure transmitters; pressure gauges; capsule element pressure gauges; pressure sensors; thermocouples; temperature indicators; temperature probes; laboratory thermometers; infrared thermometers; resistance thermometers; bimetallic strip thermometers; revolution counters; apparatus for monitoring the vibration of rotors, namely, vibration meters; vibration gauges; vibration sensors; gas measuring apparatus, in particular flowmeters; transformers, in particular ignition transformers; fire sensors; fire detection devices, namely, fire detectors; spark fuel cell electrodes; electronic display instruments, namely, electronic display interface monitors; frequency converters; optical lenses made of quartz; recorded and downloadable computer-software for monitoring and controlling air purifying machines for air pollutant removal, not in connection with marking the goods; computer regulating and control software for regulating and controlling air purifying machines for air pollutant removal; computer software for controlling gas and liquid flow meters, for controlling gas burners and for controlling heat exchangers; LAN [local area network] access points for connecting network computer users; apparatus for transmitting data and data communication, namely, computers; apparatus for vibration measuring and vibration monitoring and machine monitoring purposes, namely, vibration

meters, vibration sensors; application software for cloud computing services, namely, computer software for connecting computers and for enabling cloud computing, not in connection with marking the goods; computer application software for the planning and control of air purifying machines for air pollutant removal for use in industrial production processes and machines by means of a cloud; computer application software for monitoring data transmission in the field of cloud infrastructure management and automation, not in connection with marking the goods; data processing apparatus with artificial intelligence, namely computers; audio-recorders; video-recorders; augmented reality software for use in mobile devices for integrating electronic data with real world environments; communication interface units, namely computer network interface hubs, switches and routers; communication networks in the nature of local area network [LAN] computer cards and wireless local area network [WLAN] computer cards for connecting portable computer devices to computer networks; computer communication software for connecting computer and for enabling cloud computing, not in connection with marking the goods; computer communication software for managing and controlling access to global computer networks, not in connection with marking the goods; computer database servers for operating data entry and data output terminals; computer operating programs for data processing, data transmission and data analysis; computer operating programs for data storage; computer operating programs for network operating systems; computer software for mobile phones, namely, computer operating programs for controlling industrial machinery; computer software for operating the remote controls of network [LAN] computer cards and wireless local area network [WLAN] computer cards for connecting portable computer devices to computer networks; computer utility programs for data compression, computer programs for accessing online databases; data and image processing software for making three dimensional models; data collection devices, namely, electronic data recorders for land vehicles; data compression software; data loggers and recorders, mobile data terminal (MDT); data networks and networks for data transmission in the nature of computer network-attached storage [NAS] hardware, network servers; data storage devices, namely, blank hard discs and memory expansion cards; data storage media for smartphones, namely, memory expansion cards; devices for cloud computing, cloud networks or IoT (internet of things) for mechanical engineering, namely, computer network servers, network access server hardware; devices for computer networks and data communication, namely, computer network servers, network access server hardware; devices for network management control, namely, computer network servers, network access server hardware; diagnostic apparatus and installations constructed thereof, namely, diagnostic instrument composed of video and still image cameras for use in the collection of industrial condition and diagnostic data; digital data storage media, namely, blank hard discs and memory expansion cards; downloadable software applications for use with three dimensional printers; electric control panels for dryers for drying and hardening lacquers and paints on lacquered and painted objects; electronic sensors and sensor controllers, namely, pollutant sensors; electronically stored data in the nature of blank magnetic discs contains information in the field of industrial machinery diagnostic test results; encryption devices in the nature of electronic encryption units; hardware and computer hardware, computing equipment namely, computers and databases for computer systems in form of recorded compact discs containing information in the field of industrial machinery maintenance schedules; interface devices, namely, computer network interface hubs, switches and routers; Computer network-attached storage [NAS] hardware, local network [LAN] computer cards; optical sensors; computer hardware for data duplication; instruments for physical measurements, namely, barometers, voltmeters, manometers, hygrometers; radio transmission devices, namely radios; recorded content (recorded data) in the nature of recorded compact discs containing information in the field of industrial machinery maintenance schedules; remote control transmitters; remote control receivers; remote control transmitters; safety devices, namely light barriers, shielding hoods and

actuating devices therefor, namely, electric linear actuators; thermopile infrared digital sensors, optical sensors, thermal sensors, motion sensors, and pollutant sensors all for measurement technology related to cloud computing, cloud networks or IoT (internet-of-things); thermopile infrared digital sensors, optical sensors, thermal sensors, motion sensors, and pollutant sensors all for measuring technology; Interactive computer software for the exchange of information in the field of industrial machines performance and maintenance schedules among computer users; virtual reality software for simulating the performance of remote maintenance of industrial machines; downloadable computer software and application software for mobile phones for operating and controlling electric control panels for industrial machinery; computer software for authorizing access to databases; Computer software for connecting computers over a local computer network; software for data processing, namely computer software for database management; Computer software for reviewing data research in the field of industrial machinery; augmented reality software for use in mobile phones for integrating electronic data with real world environments; software for graphical user interfaces; Computer software for operating host computers and network gateway; software for industrial applications, namely, computer operating programs for industrial machinery; Computer operating system software for industrial process control; Computer operating system software for numerical control; Computer software for predictive maintenance for use in the field of industrial machinery maintenance; Computer operating system software for use in conjunction with industrial production and production planning; tablet monitors; electric measuring transducers, namely displacement, vibration speed and acceleration transducers; gas composition sensors; none of the aforementioned goods being in connection with the marking of goods; none of the aforementioned software being in relation to the marking of goods.

Class 11

(3) Air purifying apparatus and machines, namely, air purification units; apparatus and machines for conditioning, in particular for cooling, heating, humidifying, dehumidifying and purifying of air flows namely, air conditioners, industrial furnaces, industrial humidifiers, industrial dehumidifiers, commercial air purifiers, and gas scrubbers; air purification installations for removing pollution, dust, solvents and particulate material from air flows; gas purification machines; drying apparatus and installations, namely industrial ovens; heat exchangers not being parts of machines; fans for air conditioning units; air filters for air cleaning units, in particular air filters in the form of honeycombs made from plastics or ceramic; air filtering installation, thermal incineration installations, in particular afterburning installations, namely, incinerators; chimney flues; air driers; apparatus and installations in the nature of curing ovens for industrial use for drying and hardening of surface coatings on objects by means of hot air; pipe line spigots; air filters for heating and cooling registers; cooling apparatus, namely, industrial ceiling fans; cooling installations for liquids, namely, water cooling towers; cooling machines and installations, namely, evaporative air coolers; damper registers being heat registers; dehumidifying apparatus, namely air dehumidifiers; flexible pipes being parts of basin plumbing installations; fluid filters for cooling apparatus, namely, water filtering units for industrial use; gas filters for heating apparatus, namely, gas purification machines; hot air apparatus, namely, industrial gas dryers for the purification of deuterium containing fluids; humidifying apparatus, namely, air humidifiers; installations and apparatus for exhaust air purification, namely air purification units in particular for removing dust and aerosols and solvents from an air stream; pressure water tanks; regulating accessories for water and gas apparatus and pipes, namely heat regulators being parts of heating installations; steam pipes being pipes for steam generating apparatus, namely, heating boilers; steam pipes for steam generating apparatus, namely, pipes specifically adapted for use with steam generators; ventilating fans; water filtering units for industrial use; water supply installations, namely, water supply pipeline; chimney flues for

heating apparatus and separators for the cleaning and purification of exhaust gases; refrigerating installations for gases; freezing equipment for cooling down industrial gas, namely, electric freezers; Exhaust industrial air purifiers.

Services

Class 37

(1) Assembly services relating to the installation of industrial machines, namely, air conditioners, industrial furnaces, industrial humidifiers, industrial dehumidifiers, commercial air purifiers, and gas scrubbers; installation services for industrial machines, namely, air conditioners, industrial furnaces, industrial humidifiers, industrial dehumidifiers, commercial air purifiers, and gas scrubbers; building, assembly relating to the installation, installation, maintenance and repair of industrial installations, namely, optical frequency metrology devices, heat exchanger installations, heat recovery installations and exhaust gas treatment installations in the nature of gas purification machines; advisory services in relation to the installation of fire prevention equipment; advisory services relating to building demolition; advisory services relating to the alteration of buildings; application of protective coatings for buildings; assembling [installation] of building framework, namely, building framework construction; beneath ground construction work relating to foundation laying; bricklaying; building construction and repair; building construction consultancy; building insulating services; construction of industrial furnaces; construction of manufacturing and industrial buildings; construction of steel fabrications, namely the construction of buildings and structures using structural steel work; construction of steel structures for buildings; construction of ventilation shafts; construction of walls; building construction and cleaning of buildings services; construction of industrial factories; installation of conveyors; installation of energy-saving apparatus, namely, installation, maintenance and repair of energy generation equipment; installation of lighting systems; installation, maintenance and repair of compressors, air pumps, vacuum pumps, air blowers, air filters, alternators, pressure regulators and oil separators; installation, maintenance and repair of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; maintenance of water pollution control equipment; pipe installation services; installation of plants for manufacture of industrial products; pump repair; repair and maintenance of conveyors; repair and maintenance of painting machines and apparatus namely, paint spraying machines; repair and maintenance of power distribution and control machines and apparatus, namely power switches and electric control panels for industrial machines; storage tank cleaning; maintenance of industrial production plants and facilities.

Class 38

(2) Communication services, namely, transmission of voice, images, graphics, audio, video, and multimedia by means of wired and wireless networks; data streaming, namely, providing streaming audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website; providing access to electronic publications containing information about networks via computer; providing on-line forums for exchange of data among computer users; provision of access to an internet platform; provision of access to clouds, namely, a worldwide computer network, web pages and internet portals; provision of access to databases containing computer programs in data networks; provision of access to databases containing data and documents that are stored electronically in central files for remote consultation; provision of access to databases in computer networks; provision of access to global computer networks and the internet; provision of access to portals on the internet for the collection and analysis of machine and system data for manufacturing purposes; provision of data telecommunication services in connection with cloud computing for mechanical engineering; provision of telecommunications connections for telephone hotlines and call centers; renting and arranging access times to

databases and clouds on the internet, namely providing access to databases and cloud internet platforms; telecommunications via computer terminals, namely, email transmission of data and documents via computer terminals, telematics, namely, telematic in-vehicle communication service providing wireless vehicle navigation and tracking, satellites, radios, telegrams, telephones; voice mail services; wireless radio and television broadcasting.

Class 42

(3) Engineering, in particular in the fields of exhaust gas purification, air pollution control, plant construction engineering and environmental engineering; engineering surveys; preparation of reports relating to technical research services for air purifiers manufacturing and air purification; planning and design of industrial installations, namely, optical frequency metrology devices, heat exchanger installations, heat recovery installations and exhaust gas treatment installations in the nature of gas purification machines; technical analysis of large amounts of data with respect to the relationships between data, technical targeted data search in the nature of data mining services; chemical analysis; chemical engineering; cloud computing featuring software for operating the remote controls of network [LAN] computer cards and wireless local area network [WLAN] computer cards for connecting portable computer devices to computer networks; cloud computing services featuring software for use in database management in the field of air pollution control; computer programming for data processing; computer security system monitoring services; computer software consultancy; computer system design; computer technology consultancy; computer virus protection services; computerized data storage, namely, electronic data storage for archiving business records; consultancy and research services in the fields of mechanical engineering and computers; consultancy in the design and development of computer hardware; consulting and information services relating to computer hardware and software architecture and infrastructure design; consulting in the field of computer ; consulting services in connection with computer programming; consulting services in connection with human-machine interfaces and machine-machine interfaces for software; consulting services relating to quality control testing of production plants and facilities, namely, providing quality control consultancy for the computer software development industry; creating and maintaining web sites; creation of control programs for automated measurement, assembly, adjustment and related visualization; data conversion of electronic information, namely, conversion of physical data and documents into electronic media format; data warehousing, namely, cloud computing providing software for database management; design and design of homepages and websites; design and development of computer cluster configurations; design and development of computer hardware and software for industrial applications; design and development of computer hardware for the processing industry; design and development of computer systems; design and development of navigation systems; design and development of operating software to access and use a cloud computing network; design and development of route planning software; design and development of software; design and development of software for mechanical engineering and for automated production (CAD/CAM); design and development of software for the control and operation of numerically controlled machine tools; design and development of virtual reality software; design and implementation of network web pages; design of installations for application of coatings to vehicles and vehicle parts and components; design, development, maintenance and updating of software for process control; development of computer equipment; development of computer-based networks; development of data programs being computer software; electronic data storage for archiving corporate records; computer engineering and engineering services in the field of design and development of computer programs and software for data processing for use on or in conjunction with numerically controlled machine tools; engineering services related to the design and development of programs and software for data processing for use on or in conjunction with numerically controlled machine

tools; mechanical engineering services related to the design of machine tools; mechanical and industrial engineering services relating to robotics; mechanical and industrial engineering services for the analysis of machines; extracting information from large data collections in the nature of data mining; cloud hosting of electronic databases; hosting of databases; hosting of platforms on the internet; implementation, installation, maintenance and updating of software; information services in the field of computers and computer software design and development; infrastructure as a service (IaaS), namely, hosting software of others on a virtual private server; installation of software, in particular software for transport technology applications; computer programming services; maintenance of software; maintenance of software for communication systems; maintenance of software, in particular software for transport technology applications; mechanical research in the field of machine building and mechanics, namely, mechanical engineering; data migration services; monitoring of network systems in the nature of technical support, namely, monitoring technological functions of computer network systems; planning and technical development of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; planning of automobile production plants; construction planning of installations for removing pollution, dust, solvents and particulate material from air flows; construction planning of production facilities; process monitoring for quality assurance, namely, providing quality assurance in the construction industry; programming of operating software for the use of a cloud computing network and access to it; programming of operating software to access and use a cloud computing network; programming of software for data processing; programming of software; project management in the field of IT, namely, computer software project management services; providing technical advice relating to energy-saving measures; provision of online information on industrial analysis and research in the field of air purifiers for industrial purpose; providing quality control consultancy for the computer software development industry; research and development of new products for others; research in the field of software engineering services for data processing programs; research relating to mechanical engineering; safety technology services relating to land vehicles, namely, automotive safety testing and consultation, namely, conducting crash tests and providing advice, information and reports; server hosting; technical services and IT services related to the analysis of data namely, data mining services; services in the field of data security; services of an application service provider (ASP), namely, hosting software of others on a virtual private server; services of an industrial designer; services related to computer-aided industrial analysis, namely, computer programming for industrial testing equipment; computer software engineering services related to IoT (internet of things) in the field of mechanical engineering; computer software engineering services related to technical data analysis; data encryption services; software as a service (SaaS) services featuring software for operating the remote controls of network [LAN] computer cards and wireless local area network [WLAN] computer cards for connecting portable computer devices to computer networks; technological consultancy and technical project planning in the field of mechanical engineering for industrial manufacturing; technical design services relating to cooling appliances and installations; technological consultancy services in the field of software engineering services for data processing programs; technological consulting in the field of mechanical engineering analysis; updating of computer software; vehicle roadworthiness testing; web hosting; hosting of platforms on the internet.

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely, microscopes, pipettes, flasks, test tubes, cameras, photographic lenses, camera filters, photometers, slide plates, slide projectors, telescopes, eyeglasses and sunglasses, magnifying glasses, video viewers, namely, video monitors and video tape players, flash lamps for photography, television screens, picture enlarger projectors, video tape recorders, loadmeters, namely, ammeters, speed indicators, namely, speedometers, fuel level gauges, temperature gauges; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling the distribution and use of electricity, namely, electric wires, electric switches, namely, automatic transfer switches, dimmer switches, electric flasher switches, electric light switches and power switches, electric fences; apparatus and instruments for recording, transmitting, reproducing and processing sound and images, namely, computers, computer screens, computer keyboards, printers, telephones, telecopiers, televisions; magnetic data carriers, namely, blank magnetic tape, recording discs, namely, blank floppy discs, blank audio compact discs, blank audio digital discs, blank compact discs, blank hard discs, blank laser discs, blank digital audio discs, blank digital versatile discs, pre-recorded floppy disks and CD ROMS containing information in the field of electronic commerce in the field of retail store and wholesale store services, online trading in which seller posts products to be auctioned and bidding is done via the Internet, data management, namely, processing, updating, storing, retrieving and maintenance of data in computer databases, telecommunications, namely, television and radio broadcasting, entertainment, namely, movies, television shows and music videos, education, namely,

educational videos in the field of computers, finance, insurance, property development, property management and computer technology information; mechanisms for coin-operated vending machines; cash registers, calculators, electronic data processing equipment namely, computers and printers for use with computers; computer peripherals, namely, external disk drives, printers, scanners, speakers, microphones and webcams; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; computer programs for use in financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances and marketing information management, all in the field of e-commerce and business and authenticating the identity of a payer; software for processing electronic payments to and from others; authentication software for verification of online payment and transfer of funds; downloadable computer software for facilitating online trading in the field of e-commerce in the field of retail store and wholesale store services in which seller posts products to be sold and purchased via the Internet; downloadable computer software for posting information, creating electronic product catalogs, responding to requests and placing and fulfilling orders for products, services and business opportunities via local and global computer networks, for use in document management, for searching, browsing and receiving transmissions of text, electronic documents, graphics and audiovisual information on local and remote area networks and global computer networks, on intranets, or on directories of information available on computer networks, for use in software development and web authoring, for use in exchanging information via global computer networks and online from a computer database and the internet, for business use for financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances, and marketing information management, for data mining, for high-speed massive e-commerce data processing, and for data customization, all of the foregoing for use by third parties in connection with an interactive website in the field of e-commerce; computer software in the form of an application for mobile devices and computers, for use in database management, for use as a spreadsheet, for word processing, for recording, collecting, organizing, storing, archiving, reproducing, searching, retrieving and displaying digital data in the field of e-commerce, data management, customer relationship management, entertainment, education and telecommunications provided via the Internet; computer software for interactive entertainment, which allows users to customize the viewing, listening, and playing experience by selecting and arranging the display and performance of audio, video and audiovisual elements; instant messaging software; file sharing software for electronically exchanging data, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips via computer, mobile, wireless and telecommunications networks; computer software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts, voice messages via an application for mobile devices and computers; computer software for processing images, graphics, audio, video, and text; downloadable computer software to facilitate the electronic transmission of information and data, namely, data collected from public opinion polls, customer transaction records, membership records, product inventory records, customer preference, customer credit rating and sellers' credit rating, in the field of electronic commerce, namely, operation and management of online retail stores and wholesale stores, online trading services in which seller posts products to be auctioned and bidding is done via the Internet, user generated documents, voice messages, and photographs namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music

videos, television programs, clips of movies and television programs, video messages and user uploaded video clips to mobile phones and computers over the Internet; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing and controlling remote computers and computer networks; downloadable cloud-computing software for deploying virtual machines to a cloud computing platform, managing virtual machines on a cloud computing platform for users' participation in web-based meetings and classes, with access to data, documents, images and software applications through a web browser, for accessing, viewing and controlling remote computers and computer networks for general storage of data, database management and internet security; downloadable cloud-based software for general storage of data, database management, accessing databases and internet security; downloadable cloud-computing software for deploying virtual computer systems to a cloud computing platform, managing virtual computer systems on a cloud computing platform for general storage of data, database management, accessing databases and internet security in the field of business management, e-commerce, retail store and wholesale store services, transportation, accommodation, and travel agency services; computer applications for streaming audio materials, video materials, videos, music and images; downloadable computer games, pictures, motion pictures, movies and music; digital music downloadable from the Internet; downloadable audio, visual, and audiovisual files and recordings, featuring multimedia entertainment programs, namely video files, audio files, films, movies and television programs featuring children's entertainment, family entertainment, drama, action, adventure and fantasy; on-line downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, informational materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; downloadable electronic publications, namely, newspaper and magazine articles, essays and academic papers, and instructional books, charts, diagrams and video files in the fields of telecommunications, namely, television and radio broadcasting, navigating the Internet, training, namely, arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars, business assistance, namely, facilitating business transactions via an electronic marketplace for the buyers and sellers and goods and services via local and global computer networks, sales methods, sales management, social selling, sales improvement, developing sales promotional campaigns for others, lead generation sales, sales training, and marketing in the field of business management and e-commerce in the field of retail store and wholesale store services; computer software for image, graphics and word processing, semi-conductors; semi-conductor integrated circuits; semi-conductor memory chips; semi-conductor memory controllers; semi-conductor memory integrated circuits; semi-conductor processor chips; semi-conductor processors; microcontrollers; microcontroller units; low power microcontrollers; circuit chips; computer chips; central processing units; RISC-V computer chips and central processing units; computer chips and central processing units with instruction set architecture; notebook computers; laptop computers; portable computers; handheld computers; tablet computers; personal digital assistants; personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players and DVD players; mobile telephones; smart phones; digital cameras; batteries and battery chargers for notebook computers, laptop computers, portable computers, personal digital assistants, personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players, DVD players mobile telephones, smart phones and digital cameras; computer workstations, comprised of computer, monitor and printer; computer servers; computer and telecommunications networking hardware namely, computer network adaptors, switches,

routers and hubs; wireless and wired modems and communication cards and devices, namely, cable modems, computer fax modem cards, external modems, internal modems, modem cables, modems; cases adapted for laptop computers and computers; computer hardware and computer firmware for controlling large overhead variable message signs on highways, computer firmware for database management, namely, assuring accuracy and stability of data information, namely, customer transaction records, membership records, product inventory records, customer preference, customer credit rating, sellers' credit rating, in the field of electronic commerce in the field of retail store and wholesale store services, online trading and data management, namely, namely, processing, updating, storing, retrieving and maintenance of data in computer databases, computer firmware for programming of function of hardware and network of computers and remote monitoring of function of hardware and network of computers; compact discs containing music; telecommunications apparatus, namely, network telephone, electronic facsimile machines, handheld computers, personal digital assistants and mobile phones; mouse mats; mobile phone handsets; mobile phone parts and fittings; alarm systems, namely, personal security alarms, burglar alarms, fire alarm systems; security cameras; mobile radios and television broadcasting equipment, namely, transmitters, amplifiers, television cameras and monitors, camcorders, namely, video camera recorders and video teleprompters; cameras; video cameras; headphones; telephone earpieces; stereo and computer speakers; Global Positioning System (GPS) apparatus and equipment, namely, computer software, transmitters, receivers and hand held units, for automotive, aviation and marine uses and vehicle tracking; computer, electronic and video games programs and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; set top box; remote controls, namely, remote controls for televisions, remote controls for home audio sets, remote controls for video players, namely, CD players, DVD players and MP4 players; data storage programs, namely, downloadable software used for the storage of electronic data and documents and data on hard discs, compact discs, tapes and optical discs; fire extinguisher; spectacles and sunglasses; outdoor signboards of metal (luminous); encoded or magnetic bank credit, debit, cash and identification cards; automatic teller machines, cash dispensers; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; encoded key cards; 3D spectacles; memory cards for video game machines; digital media streaming devices, namely, set-top boxes, digital video recorders, MP3 players, MP4 players, computers, laptops, tablets, smart phones.

Services

Class 42

Industrial analysis and research services in the field of computer hardware and software systems of others; technical project studies in the field of troubleshooting of computer hardware and software problems provided online, by email and by telephone; hosting a website featuring technology that enables users to share information and advice; design and development of computer hardware and software; research and development relating to semi-conductor, semi-conductor integrated circuits, semi-conductor memory chips, semi-conductor memory controllers, semi-conductor memory integrated circuits, semi-conductor processor chips, semi-conductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V computer chips and central processing units, computer chips and central processing units with instruction set architecture; software as a service (SaaS) provider, namely, computer software applications for others for facilitating business transactions in the field of electronic commerce software for retail store services, wholesale store services and online trading services in which seller posts products to be auctioned and bidding is done via the Internet, SaaS provider for technical support services in the form of troubleshooting of

computer hardware and software, and troubleshooting of telecommunications, namely, satellite network, wireless computer network, telephone communications network, cable network and cellular network, electronic billing and payment processing services, providing virtual computer systems and virtual computer environments through cloud computing, namely, management of cloud computing systems and applications for others, cloud design and architecture maintenance and software for cloud storage and network management; application service provider (ASP) services, namely, hosting computer software applications of others; web portal services, namely, hosting an internet website portal containing an interactive computer database featuring movies programming, previews, trailers, sports, concerts, celebrity and entertainment news and other related information; application service provider (ASP) services for providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services, namely, providing backup computer programs and facilities, troubleshooting of computer software problems to end users by means of telephone or global computer network; computer support services [programming and software installation, repair and maintenance services] in relation to creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer technology advice on programming and software installations, repair and maintenance provided to Internet users by means of a support hotline; computer support services [programming and software installation, repair and maintenance services] relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design of personal digital assistants and personal media players; design of mobile telephones and smart phones; design of digital cameras; information technology (IT) services in the field of troubleshooting of computer hardware and software problems provided online, by email and by telephone; computer support services, namely, programming and software installation, repair and maintenance services in connection with transmitting information, data, documents, and images over the Internet, in relation to design, maintenance and updating of computer system software; computer programming; computer system integration services; computer system analysis services; computer programming in relation to the defence against virus; programming, installation, repair and maintenance of computer system software; computer network services for exchanging of data, namely, computer network configuration services, computer network integration services, computer network security services; computer software design; computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; cloud computing provider services for general storage of data; providing on-line non-downloadable computer software and computer applications for streaming audio materials, video materials, videos, music and images; providing technical information in the field of computer software, computer hardware and computer programming at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; design and development of search engines; design of computer codes; development of computer codes; coding of messages, namely, computer code conversion for others, writing of computer code, computer programming, coding and decoding; conversion of physical data and documents into electronic media format; material testing and evaluation services; computer network security services; providing quality assurance services in the field of computer and data security; computer technological services in relation to the verification of online business transactions, namely, the provision of online software development tools to facilitate electronic business transactions via a global computer network; computer security services relating to providing access control to

computers, electronic networks and databases; data security services (firewalls) relating to data transmission and of transactions via computer networks; consultancy services in the field of security for computers and computer networks; technological consultancy in the field of computer security relating to securing computer network communications by means of a global computer network; computerized communication network security services; providing information in the fields of technology and software development via a global computer network and computerized communication network security and computer security for the transmission of data and information, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips, via radio, telephone lines, satellite, cable network and wide area network; consulting services in the fields of navigating the Internet, world wide web and computerized communication network security services, information security services namely, remote monitoring of systems against security threats; authentication services for computer security; online authentication of electronic signatures; off-site data backup; electronic data storage, namely, archiving business documents, personal documents and corporate documents; providing information on computer technology and programming via a website; cartography services; rental of entertainment software; architectural design services; interior designing of buildings, offices and apartments; Scientific and technological services and research and design relating to semi-conductor, semi-conductor integrated circuits, semi-conductor memory chips, semi-conductor memory controllers, semi-conductor memory integrated circuits, semi-conductor processor chips, semi-conductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V computer chips and central processing units, computer chips and central processing units with instruction set architecture; consultancy, information and advisory services relating to the aforesaid services.

Trademark Description

The mark consists of three overlapping triangular mountains where the mountains become progressively taller from left to right.

Goods

Class 09

(1) Downloadable computer software namely computer utility programs for file management, computer utility file storage programs, computer utility file compression programs; computer hardware and software manuals in electronic form recorded on computer media; computer data privacy protection software to create, implement, assign and manage the computer business practices of others, computer operating software for data discovery and data classification and to create security and privacy reports; software for document investigation and review namely OCR (Optical Character Recognition) for scanned documents.

Class 16

(2) Cardboard and paperboard boxes for storage of business records, vital records, microfilms, microfiches, computer disks, computer tapes, computer software, computer data, audiotapes, optical disks, films, master recordings, blueprints, medical records and x-rays.

Class 20

(3) Plastic containers for storage of digitized blueprints, digitized medical records, microfilms, microfiches, computer disks, computer tapes, computer software, computer data, audiotapes, optical disks, films, master recordings and X-rays.

Services

Class 35

(1) Inventory management and control services for business and other records in both electronic and paper form; business project development and management services relating to the organization, maintenance, management, storage, retention, and coding of business records; duplication of documents; business consulting and project management services for others for business purposes in the fields of organization, maintenance, management, storage, retention, filing, and retrieval of business records; maintenance of business records, vital records, computer database information, and archival business records; business records management, namely, maintenance of business records, including films and master recordings; providing office functions in the nature of filing, retrieval, organization, maintenance, and management of business records; preparing business reports regarding the status and activity of the documents and computer media; providing staffing for others for purposes of records management, document management and information services; online backup tape management system services for business purposes, namely, tracking the location of computer back-up tapes for others; preparing business reports regarding the status and activity of the computer back-up tapes; business management services relating to the destruction and shredding of business records, vital records, computer data, audiotapes, films, master recordings, medical records, X-rays and archival materials and records; business consulting, namely, providing advice about best practice industry standards in regard to electronic document management; business consulting and advisory services related to customized business requirements and best practice industry standards applicable to retention and management of business records; public document retrieval services for business records; maintaining a database of business records, medical records and archival business records; business management services relating to the destruction and shredding of documents and records.

Class 37

(2) Cleaning of film, film recording discs and sound recording discs and rejuvenating film by means of reconditioning and photochemical processes; technical support services, namely, troubleshooting in the nature of the repair of computer hardware; maintenance of computer hardware.

Class 38

(3) Facsimile retrieval services for business and other records; electronic transmission of data and documents, namely, business records and other records, via computer terminals; providing secure email services.

Class 39

(4) Storage of paper documents and physical storage of electronically-stored data or documents; transportation of documents and records via trucks and vans; physical storage of electronic media, namely, storage of data recorded on optical, digital and magnetic media; document storage management services, namely, physical storage of electronically stored data and documents; transportation of documents, computer hardware and software for business records via truck; document pick-up and delivery services by non-electronic means; physical storage of business documents; warehousing of personal property and objects of art for others, storage of personal property and objects of art for others, pick-up and delivery of personal property, and objects of art

for others via truck; transportation logistics services in the nature of scheduling the delivery and pickup of documents and computer media; transportation logistics services in the nature of scheduling the delivery and pickup of computer back-up tapes; physical storage of medical records, films, audio recordings, and archival business records.

Class 40

(5) Consulting services relating to the destruction and shredding of documents and records; destruction and shredding of documents, business records, vital records, computer database information, audiotapes, films, master recordings, medical records, X-rays and archival materials and records; document and computer media preservation services, namely, treatment of materials in the nature of paper documents and plastic computer media disks by means of archivally-sound storage containers, climate-controlled environments, proper application of metadata in order to track information on media, tape-baking, moisture removal, distilled-water cleaning, heat application for preservation purposes; destruction of business records, vital records, computer database information, computer hardware, medical records, films, master recordings, and archival materials and records; document and record shredding services; destruction and shredding services for business records, vital records, computer data, medical records, films, master recordings, and archival materials and records; film heat application namely laminating; remastering of films from one format to another.

Class 41

(6) Film and sound recording services.

Class 42

(7) Computer services, namely, data backup and recovery and restoration services; providing temporary use of on-line non-downloadable software via a global computer network for database management; providing temporary use of on-line non-downloadable software via a global computer network for use in connection with digital business files archiving; providing temporary use of on-line non-downloadable software via a global computer network for use in connection with compliance with legal, regulatory and business requirements and standards applicable to retention and management of data; electronic data storage for archiving business documents, personal documents and corporate documents; document scanning services; providing temporary use of non-downloadable software for use in cloud-based storage, namely, providing backup computer programs for protection of SaaS applications, recovery and archiving electronic customer data; electronic storage of data, namely, remote online backup of electronic data; electronic data storage for archiving business documents, personal documents and corporate documents; electronic storage of electronic media, namely, storage of music, photographs and artwork recorded on magnetic discs, optical discs and digital discs; technical consulting and computer project management services for others in the field of information security technology; computer services, namely, backup services for computer hard drive data, data recovery and archiving electronic data; technical support, namely, monitoring network systems and providing back-up computer programs and facilities; computer services, namely, software as a service (SaaS) services featuring software that assists with file and application backup, file and application recovery, file and application transfer or migration between computers, file and application restoration and file, and identification and inventory installation of computer software; updating of computer software; consultation services in the field of information security technology; technological consulting services in the field of computer hardware systems; remote computer backup services; remote online backup of electronic computer data; computer performance testing services for others; computer disaster recovery planning; electronic data back-up services; document scanning services; cloud computing software database management and for general storage of data; cloud computing

featuring software that provides for predictive mechanisms and content analytics, content processing, analysis and visualization of information, and content mining from disparate information sources, and for providing automated solutions to enable organizations to integrate disparate information and content; cloud computing featuring software for use in data and content analytics, namely, for storing, managing and analyzing structured, semi-structured and unstructured data and content and for performing advanced analysis and modeling of diverse multi-structured data and content, building data and content software applications, and performing complex large scale analytics on data and content; cloud computing featuring software for searching, identifying, collecting, aggregating, filtering, ranking, processing, merging, visualizing, storing, sharing, managing, reporting and analyzing data and content in batch mode or real time, and for enabling users to access, view, analyze, share and report data and content from multiple sources; cloud computing featuring software for managing machine-to-machine (M2M) and internet of things (IoT) communications and interactions; cloud computing featuring software for use in accessing, analyzing, automating, bookmarking, collecting, displaying, distributing, editing, identifying, indexing, integrating, linking, modifying, organizing, processing, retrieving, searching, sharing, storing, transferring, transmitting and viewing content, data, digital assets, documents, records and information; cloud computing featuring software for use in document management, database management, project tasks management, organizational tasks management; cloud computing featuring software for use in the field of knowledge management to host computer application software for creating searchable databases of information, data and content and for searching and retrieving information from databases and computer networks; cloud computing featuring software for use in providing a document retrieval system and a document and data and content management system; cloud computing featuring software for use in document and data and content storage, organization and retrieval; cloud computing featuring software for archiving, aggregating and classifying, databases, images, digital assets, documents, records, information; cloud computing featuring software for use in records management; cloud computing featuring software for use in the field of searching, compiling, sorting, organizing and interfacing documents; cloud computing featuring software for use in search and content analytics; providing online non-downloadable software for use in managing human resources organizational governance of employee tasks; providing online non-downloadable computer software for use in managing human resources organizational governance, business risk management, business risk assessment, personnel incident investigation and management, troubleshooting to diagnose computer software problems, personnel incident case management, internal accountancy audit, managing human resource policies and procedures, personnel information collection, software to enable data policy compliance of third-party user data, database management; information analysis and interpretation namely, consultation services for developing computer systems, databases and applications; cloud computing featuring software for information extraction and entity extraction from data and content; virus scanning services for electronic information and transmissions; duplication of computer programs; format conversion services, namely, conversion of CDs into digital formats, and conversion of data or documents from physical to electronic media; document data transfer from one computer format to another; conversion of business data and other documents from physical to electronic media, scanning and format conversion services, namely, electronic scanning of photographic images, artwork, and medical x-rays and films and format conversion in the nature of data conversion of electronic information and data conversion of computer programs and data, not physical conversion; consulting and project management services for others in the fields of information security technology, data center operations, computer programming; computer programming for others in the fields of organization, maintenance, storage, management, retention and destruction of business records, vital records, computer data, audiotapes, medical records, films, master recordings, archival materials and

records; provision of disaster recovery computer facilities, namely, the leasing of computer hardware and software; computer services, namely, data backup and recovery services; technical support, namely, monitoring network systems, providing back-up computer programs and facilities, and troubleshooting computer software; providing temporary use of on-line non-downloadable software via a global computer network for use in connection with digital archiving services, namely, the capture of personal, business and corporate files; computer services that assist with digital file and software application backup, digital file and software application recovery, digital file and software application transfer and migration between computers, digital file and software application restoration and digital file software application and hardware audit, and inventory, namely consulting in the field of configuration management for computer hardware and software; installation of computer software; providing back-up computer programs and facilities; disaster recovery services for data communications systems; computer data recovery services; computer disaster recovery planning; data warehousing; providing data center services, namely, leasing space, power, cooling, infrastructure and on-site remote hands management of information technology systems; rental of decentralized cloud storage facility for containerized data centers of others; hosting a website featuring technology that allows users to manage the pickup, delivery, transport, and storage of goods and personal property; computer services in the nature of software escrow services, namely, providing electronic storage of source code, data, and other proprietary information for others; document data transfer from one computer format to another of business records, vital records, computer data, medical records, films, master recordings, and archival materials and records; conversion of data or documents from physical to electronic media of business records, vital records, computer data, medical records, films, master recordings, and archival materials and records; computer network security services; Transferring audio and moving images from analog to digital namely document data transfer and conversion from one media to another; film scanning.

Class 45

(8) Services regarding protection of intellectual property, namely, intellectual property watch services; security services namely monitoring of burglar and security alarms, security guarding for facilities; reviewing industry standards and practices to assure compliance with legal and regulatory policies namely regulatory compliance auditing and regulatory compliance consultancy in the field of data protection; consulting and advisory services regarding compliance with legal and regulatory policies; conducting electronic legal discovery services in the nature of reviewing emails and other electronically stored information that could be relevant evidence in a lawsuit via global computer networks for lawyers and corporations.

Colour Claim

Colour is claimed as a feature of the trademark. The colours blue and teal are claimed as a feature of the mark. The mark consists of the stylized word KLEPSYDRA in blue. The letter "Y" has a design of inverted triangle in teal within it. Stacked below the wording is the word TECHNOLOGIES in teal.

Goods

Class 09

(1) Computer software for producing financial models; computer software for the storage of data and information, namely audio, video, voice, images, text, and graphics in the field of artificial intelligence and machine learning; image recognition software; computer software for developing, building, and operating consumer blockchain applications; computer software to automate data warehousing; software for the integration of artificial intelligence and machine learning in the field of big data; image management software; downloadable image management software; software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer hardware, namely intelligent gateway network device that connects various devices to the cloud, local servers, and other devices, acting as a bridge between IoT devices and a central management system; computer operating system software for data storage systems and software-defined storage; computer programs for providing an all-around view for a vehicle; downloadable software for operating a virtual reality cinema; downloadable computer programs using artificial intelligence for machine learning for financial transactions; downloadable computer programs using artificial intelligence for machine learning for processing of medical data in the field of healthcare; downloadable computer programs using artificial intelligence for machine learning for air and ground surveillance; downloadable software featuring machine learning using artificial intelligence for business data analysis; downloadable software featuring machine learning using artificial intelligence for consumer data analysis in the

field of advertising; virtual assistant software; downloadable computer software using artificial intelligence for autonomous navigation for driverless cars; downloadable computer software using artificial intelligence for autonomous navigation of vehicles; downloadable software featuring machine learning and artificial intelligence for data analysis in the fields of healthcare, biomedical and genomic research; computer software for robotics programming using artificial intelligence for real-time data analysis for use in the field of robotics; downloadable computer software using artificial intelligence for feature extraction and object tracking for air and ground surveillance; computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics for use in the fields of satellites, humanoid and autonomous robots and civilian drones; artificial intelligence and machine learning software for providing onboard vision navigation for satellites and drones; computer applications for automatic vehicle driving control; computer applications for vehicle navigation control systems; computers for managing control devices for aircraft; computer applications for automated car parking control; computer applications for automated vehicle parking control; software for optical character recognition; computer software for audibly controlling a computer and the operation thereof; computer applications for autonomous driving control electronic systems for vehicles; on-board electronic systems in land vehicles for providing parking assistance; on-board electronic systems in land vehicles for providing driving assistance; computer systems for automated vehicle control; facial analysis software; satellite imagery photo-interpretation software; software for GPS navigation systems; recorded computer software for safe vehicle driving; recorded computer software for safe car driving; computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; computer software to operate vehicles; computer software for the compilation of satellite positioning data; computer software for the transmission of satellite positioning data; computer software for the collection of satellite positioning data; computer software for the processing of satellite positioning data; computer software for the dissemination of satellite positioning data; gesture recognition software; facial recognition software; geographic information system [GIS] software; image processing software for in-vehicle cameras; downloadable universal peripheral interface (UPI) software that supports interaction between digital electronic multi-media devices; computer software for global positioning systems; robotic process automation [RPA] software, namely automated software robots for automation of repetitive tasks; computer programs to operate vehicles; software for GPS navigation systems; software for satellite navigation systems; software for electronic driving assistance systems; vehicle control software; vehicle control assistance software; computer programs for use in autonomous control of vehicles; computer programs for use in the autonomous navigation of vehicles; downloadable computer software for autonomous robots and drones for use in controlling and operating autonomous robots and drones; downloadable computer software device drivers for use in controlling movement in autonomous robots; electronic device software drivers that allow computer hardware and electronic devices to communicate with each other for use in robots; computer software for encryption of digital files; computer software for utility, security and encryption of digital files; decoder software; augmented reality game software; virtual reality game software; downloadable augmented reality software for battle and ground vehicle training simulation; downloadable augmented reality software for educational training for battle and ground vehicle training; downloadable augmented reality software for locating vehicles and creating maps; augmented reality software for use in mobile phones and hand-held computers for integrating electronic data with real world environments; downloadable augmented reality software for use in mobile phones and hand-held computers for locating vehicles and creating maps; augmented reality software for creating maps; virtual reality software for medical teaching; downloadable virtual reality software for educational training for battle and ground vehicle training; downloadable virtual reality software for battle and ground vehicle training simulation;

downloadable virtual and augmented reality software for locating vehicles and creating maps; downloadable virtual reality software for battle and ground vehicle training; computer software, namely virtual reality software to enable teleconferencing services; data processing equipment, namely, computers, laptops, tablet computers, computer servers, and network servers; teaching apparatus, namely computer hardware; computers; downloadable computer software for voice recognition; downloadable data processing software, namely computer software for image and video processing for deep learning, machine learning, artificial intelligence, artificial neural networks, and machine vision; embedded operating software; data processing software programs for high performance data processing for use in the fields of aerospace, humanoid and autonomous robots, and automotive industries; downloadable application software for satellite signal processing; satellites; global positioning system (gps) consisting of computers, transmitters, network interface devices, gps receivers, antennas, and lcd large-screen displays; GPS transmitters; GPS receivers; downloadable computer software for creation, development, and testing in the fields of improvement of robot functionality, satellites, vehicle navigation; computer software for the operation of camera drones, namely electronic video surveillance products, for detecting, immobilizing, and defending airspace against drones; computer software and hardware for the operation of unmanned aerial vehicles, counter-drone systems for defense, electronic decoy systems, ground laser defense systems, smart ordinance systems for tracking shots fired and tracking firearm degradation and weapon fire control systems; missile guidance system, namely sensors, computers and other technologies, namely active radar systems and military lasers for guiding missiles; flight path controls for projectiles; satellite apparatus, namely, processors, receivers, transmitters, antennas; satellites for scientific purposes; computer software for use as an application programming interface (API) for use in the fields of robotics, satellites, vehicle navigation; satellites for transportation.

Class 12

(2) Delivery drones; pilotless aircraft; space vehicles; remotely operated vehicles for underwater inspections; autonomous underwater vehicles for seabed inspections; vehicles, namely, automobiles; wheeled military vehicles; civilian drones; military drones; autonomous vehicles.

Services

Class 42

Software creation; creation of computer programmes for data processing; development of computer software programs for the processing of data; software development; development of virtual reality software; development of computer database software; image processing software development; design of computer hardware and software; design of computer programs and software relating to aircraft; design of financial information system software; design of graphic software systems; computer software design; design of computer database software; design of virtual reality software; design of non-downloadable computer operating system software; design of software for compression and decompression of multimedia contents; design of software for digital signal processing; smartphone software design; image processing software design; design, development and programming of computer software; design and development of computer hardware and software; design and development of computer software architecture; design and development of computer programs for data processing; design and development of navigation systems; design and development of software in the field of mobile applications; design and development of computer software for vehicle simulation; software design and development; design and development of operating software for accessing and using a cloud computing network; design and development of virtual reality software; design and development of computer game software and virtual reality software; design and development of computer software for use

with medical technology; design and development of computer software for supply chain management; design and development of image processing software; design and development of operating system software; design and development of computer database software; design and development of software and hardware for signal amplification and transmission; software engineering; computer software research; computer programming for telecommunications; programming of software for database management; telecommunications software engineering; EDP programming namely, programming of software to manage and automate the exchange of data electronically; computer programming for data processing and communication systems; computer programming for data processing; programming of data processing equipment namely development and creation of computer programs for data processing; advisory services relating to computer programming; advice and development services relating to computer software; data warehousing; data mining and blockchain services; data mining and blockchain services; rental of computer hardware and computer software; rental of computer software; rental of software for data processing; software as a service (SAAS) namely software to manage, connect, and operate internet of things (IOT) electronic devices featuring software for accessing, reading, and tracking information in the field of AI applications for Internet-of-Things on a blockchain; software as a service (SAAS) featuring software for running cloud computing based applications, namely software for cloud processing and for collecting, monitoring, filtering and processing sensor data from networked devices in the Internet of Things; software as a service [saas] services featuring software for machine learning, deep learning and deep neural networks; software as a service [SaaS] services namely software for use in designing and developing machine learning and deep learning solutions for use in the field of deep neural networks; software as a service [SaaS] namely software for design and development of deep learning solutions; software as a service (SAAS) namely software to manage, connect, and operate internet of things (IOT) electronic devices, namely electronic hardware that connects wirelessly to the internet or a local network, allowing transmission and receiving data, featuring AI applications for collecting, monitoring, filtering and processing sensor data; non-downloadable artificial intelligence based software and software development solutions, namely, providing software programs for pattern discovery, recognition, classification, segmentation, regression, decision support and visualization for all sectors of business; technological advisory services relating to data processing; computer software consultancy; encryption of digital images; encryption, decryption and authentication of information, messages and data; coding of messages being computer programming; compression of data for electronic storage; digital compression of computer data; decoding of data; document data transfer from one computer format to another; data encryption and decoding services; engineering services, namely telecommunications hardware engineering for telecommunications and data networks; engineering services relating to computers; engineering services relating to robotics; engineering services relating to data processing technology; engineering services relating to data processing software; quality control relating to computer software; technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; industrial analysis and research services in the field of Edge AI, computer vision, namely AI that enable computers to interpret images and videos and robotics; research in the field of data processing technology; software engineering services for data processing programs; design and development of data processing systems; consulting in the field of cloud computing networks and applications; platform-as-a-service (paas) featuring software for running cloud computing based applications; computer software technical support services; data security consultancy; data security services; technical research projects and studies in the field of deep space exploration; technical data analysis services, namely, computer data analysis; data encryption services; research in the field of data processing computer software; rental of data processing programs; programming of data processing programs; design of data processing

computer hardware; development of data processing computer hardware; maintenance of data processing software; preparation of data processing programmes; design services for data processing systems; creating programmes for data processing; computer programming; scientific computer programming services; engineering consultancy relating to computer programming; engineering services relating to computer programming; research relating to computer programming; technical consultancy services relating to computer programming.

Visual Representation

Trademark Description

The trademark is composed of the word element "yepp", written in yellow dots on a black panel. Below this element there are the word elements "Between" and "Friends", written in regular characters in yellow. To the left of the panel a grey shadow can be seen.

Colour Claim

Colour is claimed as a feature of the trademark. The words "BETWEEN FRIENDS" and the circles forming the words "YEPP BETWEEN FRIENDS" are yellow-green neon. The words appear on a black quadrangular shaped background simulating a three-dimensional computer screen, the left outer surface of which is gray.

Class 01

(1) Chemicals for use in industry for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; chemical preparations for use in industry for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; unprocessed plastics; unprocessed artificial resins; tempering and soldering preparations; adhesives for the building industry and for use in the automotive industry, vehicle industry, aviation and space travel industry, marine vehicle industry, transportation systems industry; putties and other paste fillers for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles.

Class 06

(2) Building and construction materials and elements of metal for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; unwrought or semi-wrought common metals; modular building units (metal); metal lattices; reinforcing materials of metal for building and for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; shaped metal portions for the manufacture of

interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; shaped metal sections for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; profiled metal sections (semi-finished) for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; extrusions of metal for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; common metals, unwrought or semi-wrought; building materials of metal, namely, lightweight products based on honeycomb core for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; building materials of metal, namely, lightweight building construction materials for use as basis materials in construction of flat and shaped sandwich structures for construction of aeroplane bodies, car body panels, railway and boat interiors

Class 12

(3) Parts and fittings for vehicles, namely interior and structural parts for boats and ships, automobiles, vans, trucks, trains and for air and space vehicles.

Class 17

(4) Plastics in extruded form for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; plastics in the form of bars, blocks, pellets, rods, sheets, films, granules, tubes, shaped parts and profiled parts for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; packing and insulating material, namely, moulded foam, acoustical insulation, electrical insulation, insulation; packing and insulating material, namely heat, acoustical and vibration insulation composite insulating shield for automotive, vehicles, marine vehicles, aviation and aerospace vehicles, railroad vehicles; packing and insulating material, namely railway track insulators; packing and insulating material, namely thermal insulation; packing and insulating material, namely fire-resistant insulated panels; packing and insulating material, namely vibration damping materials of rubber, plastic materials, metal materials and of plastic material and metal material composites; packing and insulating material, namely insulation materials for aircraft, motor vehicles, marine vehicles, aviation and aerospace; flexible plastic pipes for conveying water, gas, oil, liquids, powder materials, granulated materials; corrugated plastic pipes; plastics insulating materials, namely, plastic films for electrical insulation; insulation materials for pipes; semi-processed

plastics; carbon fibre reinforced plastic profiles; plastic materials, semi-finished, namely expanded plastic material for use in manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; plastic materials, semi-finished, namely contoured parts, flat parts, shaped parts for use in manufacture in of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles, especially plastic fiber reinforced materials; plastic materials for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; plastic sheeting used in the construction industry as a vapor barrier; shock-absorbing buffers of rubber; vibration dampers of rubber and of plastic materials and of metal materials and of plastic and metal composite materials, especially materials of volume expanded plastic materials being impregnated with resins materials; insulating materials made of glass fibers, plastic fibers, mineral material fibers, metal materials and made of plastic and metal composite materials; fibres impregnated with synthetic resins for use in manufacture; synthetic resins, semi-processed; semi-worked polymer resins, namely artificial resins in extruded form, in the form of bars, blocks, pellets, rods, sheets, films, granules, tubes for use in commercial or industrial manufacturing; semi-worked polymer resins, namely artificial resins semi-processed; synthetic fibres, other than for textile use; caulking materials.

Class 19

(5) Non-metallic building materials for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; building materials (non-metallic) made of composite materials for the manufacture of interior, exterior and structural parts of vehicles, motor vehicles, automobiles, vans, trucks, rail vehicles, marine vehicles and for air and aerospace vehicles, loading ramps, container parts and buildings and for the manufacture of laminates, panels, sheets, honey comb cores, inserts, reinforcements, pipes, doors and extruded profiles; non-metallic rigid pipes for construction made of plastic materials, PVC, resin materials; non-metallic rigid pipes for conveying water, gas, oil, liquids, powder materials, granulated materials.

(1) Computer hardware for data processing; computers; computer monitors for computer programs; downloadable computer programs for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data to render medical diagnoses, perform medical examinations and medical vital sign monitoring; downloadable computer programs for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data for use in operating medical diagnostic equipment, medical examination equipment and medical monitoring equipment; recorded computer programs for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data to render medical diagnoses, perform medical examinations and medical vital sign monitoring; recorded computer programs for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data for use in operating medical diagnostic equipment, medical examination equipment and medical monitoring equipment; software for medical diagnoses, medical examinations and medical monitoring; software for medical diagnostic equipment, medical examination equipment and medical monitoring equipment; software for capturing, storing, processing, evaluating and reproducing medical data; electronic databases for capturing, storing, processing, evaluating and reproducing medical data; electronic databases containing medical data; stored and downloadable electronic publications containing medical data, medical findings, medical evaluations, and medical opinions; all the aforementioned medical-related goods for use only on human patients.

Class 10

(2) Apparatus, devices and systems composed of individual devices for medical purposes, namely, medical apparatus that directly processes physiological data for preventing or reversing heart failure or that processes scanned images of measured physiological data for preventing or reversing heart failure; medical diagnostic equipment, namely, medical instrument that directly processes physiological data for cardiovascular diagnostics or that processes scanned images of measured physiological data for cardiovascular diagnostics; medical monitoring equipment,

namely, heart monitors that directly processes physiological data to render medical diagnosis or that process scanned images of measured physiological data; diagnostic apparatus, namely, medical instruments that directly process physiological data for cardiovascular diagnosis or that process scanned images of measured physiological data for cardiovascular diagnostics; monitoring apparatus for medical purposes, namely, heart rate monitors that process scanned images of measured physiological data; medical diagnostic apparatus, namely, medical instruments that directly process physiological data for diagnosing heart disease or that processes scanned images of measured physiological data for diagnosing heart disease; medical monitoring apparatus for medical purposes, namely, heart pacemakers that rely on processing scanned images of measured physiological data; replacement parts of the aforesaid goods; all the aforesaid goods for use only on human patients; medical apparatus and instruments, namely, medical imaging apparatus that processes scanned images of measured physiological data; computerized medical apparatus and instruments, namely, medical imaging apparatus that directly process measured physiological data or that processes scanned images of measured physiological data; apparatus for controlling and monitoring health, namely, medical apparatus that directly process measured physiological data or that processes scanned images of measured physiological data for monitoring vital signs of patients; electrical or electronic sensors that directly process measured physiological data or that process scanned images of measured physiological data for detecting, collecting, recording and transmitting health variables being patient monitoring sensors and alarms.

Services

Class 38

(1) Providing telecommunications access to facilitate the uploading of information, namely, variations in body pulse and heart rate, via the Internet.

Class 42

(2) Providing online non-downloadable computer software for organizing medical data for use in the field of health monitoring; providing online non-downloadable computer software for use in evaluating results of and generating reports based upon medical diagnosis; providing online non-downloadable computer software for use in medical coding; computer software design; computer software consultancy; digitization of documents; medical research; cloud computing provider services for general storage of data; cloud computing providing software for database management; hosting a website providing virtual computer systems through cloud computing; providing virtual computer systems and virtual computer environments through cloud computing; software as a service (saas) provider featuring software for running cloud computing based applications; clinical trials; software as a service (SaaS) for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data to render medical diagnoses, perform medical examinations and medical vital sign monitoring; software as a service (SaaS) for directly processing physiological data to render medical diagnosis or for processing scanned images of measured physiological data for use in operating medical diagnostic equipment, medical examination equipment and medical monitoring equipment; electronic data storage for archiving patient health records.

Class 44

(3) Medical and medical diagnostic services; medical analysis for the diagnosis and treatment of persons by processing directly measured physiological data or by processing scanned images of measured physiological data utilizing an artificial intelligence computing platform and generating reports, diagnostics and recommendations therefrom; medical screening; health counselling in the field of cardiovascular health; medical diagnostic services, namely diagnostic analyses for medical purposes; health care consultancy services in the field of medical diagnostics; health risk

assessment and medical monitoring services; provision of information related to health and medical information related to wellness; provision of a website with information related to health and medical information related to well-being; automated, based solely on software application, telemedicine services; automated, software application only based, telemedicine services; automated, software application only based, telemedicine service; automated, software-application-only, medical diagnosis; automated, software-application-only, medical examination; automated medical data analysis for medical purposes based solely on software applications; automated personal medical data analysis for medical purposes based solely on software applications; automated, based solely on software applications, preparation of health assessment reports; automated, based solely on software applications, preparation of expert opinions for health risk assessment; automated, based solely on software applications, data retrieval services relating to medical information; automated, based solely on software applications, documentation of personal medical findings on data carriers and files; automated telemedicine services based solely on software applications; all of the foregoing medical-related services for use only on human patients; medical and medical diagnostic services including measuring variations in body pulse and heart rate; medical analysis services, namely, measuring and analyzing variations in body pulse and heart rate.

Rustico

Colour Claim

Colour is claimed as a feature of the trademark. The colours green, light green, dark green, black, white, brown, light brown, grey, dark grey, yellow, orange, red, pink, purple, blue, light blue, beige, teal and dark teal are claimed. The portion "Rustico" is dark green with a dark green underline. The "i" has white shading in the dot. The sky portion is red on the top and orange on the bottom. The tree leaves are green, light green and yellow. The trunk, branches and roots of the tree are brown with light brown, black and white shading. The ground portion is yellow. The leaves on the ground in the centre under the tree are green. The leaves on the ground on the right are light green. The leaves on the ground on the left portion are green and yellow. The person bent over is wearing a blue headscarf. Their shirt is purple with white and light blue sleeves. Their pants are teal with dark teal stripes and white and blue cuffs. Their socks are white and their shoes are grey. Their hair is yellow with black outlining. They have a white complexion with pink cheeks. Their eyes are white and blue with a black pupil. Their hands are white with beige shading. The person on the right is wearing a green hat, a purple undershirt, a pink shirt with light green sleeves with green shading and a white collar. Their pants are blue. Their shoes are blue. Their hair is brown. They have a white complexion with pink cheeks and yellow shading on the nose. Their eyes are

white with a black pupil. Their hands are white with yellow shading on the top hand and beige shading on the bottom hand. The person on the bottom right portion is wearing a black, yellow, orange and red hat with a green patch on the front. Their eye mask is black. Their shirt is teal with dark blue sleeves with black shading and white cuffs. They have a yellow earring. Their complexion is white with pink cheeks and grey, white and yellow shading. Their hands are white with yellow shading and they are holding a brown item. The horse is black with grey shading along the body, face and ears. The eyes are white and red with a black pupil. The reins and bridle are white and black. The saddle is black, teal and white. The cart is grey outlined in white with a black border and dark grey shading. The cart has designs in a partial circle in white, outlined in black with a white partial portion, outlined in black. In the centre of the circle is a red band, with the centre being white and outlined in black. The inner portion of the cart is dark green with a grey interior and outlined in red.

Trademark Description

The mark consists of a thick circle design with the words "LOGITECH G REFURBISHED DEVICE" and "LOGITECH G REFURBISHED DEVICE" separated by two dots on the inside of the thick circle. A stylized "G" with the stylized word "LOGITECH" appear in the center of the circle.

Goods

Class 09

(1) Computer and electronic equipment, namely, computer hardware; computer hardware for use with mobile phone and computer tablet applications; computer peripherals, namely, keyboards, mice, trackballs and wireless electronic controllers all for use with consumer electronic equipment; decoding boxes in the nature of set top boxes, set top boxes; downloadable computer software for classifying, transmitting, receiving, processing, visualizing, and controlling computer applications and electronic data, namely, text, images, audio and video files via the internet in the field of consumer electronics; downloadable computer software for reproducing, processing and streaming audio-visual media recordings, and multimedia content, namely, text, images, audio and video files

via the internet in the field of consumer electronics; downloadable computer software for audio calling, video calling and remotely collaborating via the internet in the field of consumer electronics; downloadable computer software for controlling the operation of audio recorders and digital video cameras; downloadable computer software for viewing and searching for audio files, video files, audio-visual media recordings, films, digital photographs, digital images and other multimedia content, namely, text; computer game programs; downloadable computer software for sharing audio-visual media recordings and multimedia content, namely, text, images, audio and video files in electronic form via the internet in the field of consumer electronics; digital electronic data recorders for recording texts, data, images, audio and video files; downloadable computer software for recording, classifying, transmitting, receiving, processing, and examining texts, data, images, audio and video files via the internet in the field of consumer electronics; computer hardware for recording, classifying, transmitting, receiving, processing, reading and viewing, and examining texts, data, images, audio and video files; wireless mice, keyboards, and remote controls for use with televisions, computers, and set-top boxes; computer cursor control devices, namely, computer mouse; touch pads; electronic drawing and sketching whiteboards; electronic whiteboards; computer keyboard controllers; video devices, namely, computer software and computer hardware for audio and video enhancement sold as an integral part of web cameras and video cameras; digital cameras and web cameras; wearable cameras, camera module for mobile phones, security cameras; audio and sound system devices, namely, audio speakers, mobile speakers, wireless speakers, headsets, headphones, earbuds and microphones; audio conduit, namely, acoustic conduits; amplification and monitoring units, namely, audio amplifiers; acoustic separation units; audio mixers; telephony equipment, namely, headsets, headphones, earbuds and microphones for use with computers and telephones, telephones, mobile phones, videophones; video-conferencing equipment, namely, video-conferencing cameras, speakerphones, computer monitors, televisions; digital writing systems for computers and mobile phones primarily composed of digital light pen and embedded computer operating system software; remote controls for controlling tvs, video players, video recorders, stereos, speakers, amplifiers, entertainment systems, home lighting systems, personal computers; protective cases for computer peripherals, namely, computer keyboards, computer mice, webcams, microphones, headsets, earbuds, computer speakers, battery chargers for laptop computers, and security cameras; protective cases for mobile phones, battery charging cases for mobile phones, car dashboard mounts for mobile phones; mobile phone accessories, namely, headphones; keyboards for mobile phones; mobile keyboards and control devices for mobile platforms, namely, keyboards for smartphones and tablets; protective cases for tablet computers; keyboards for tablet computers; computer peripherals for accessing and transmitting data and content among consumer electronics devices, televisions, and displays, namely, wireless routers; computer peripherals for digital watches, namely, smartwatch bands, smartwatch straps, watch batteries, cases adapted for holding smartwatches, and charging docks for smartwatches; downloadable computer software and computer programs for connecting computers to a peripheral device, namely, computer keyboards, computer mice, webcams, microphones, headsets, earbuds, computer speakers, battery chargers for laptop computers, and security cameras; computer software and computer programs for manipulating and controlling images from web cameras and digital cameras; downloadable computer software and computer programs for producing sound; computer software and computer programs for handwriting and character recognition; downloadable computer software and computer programs for electronic transmission of electronic data, namely, text, images, audio and video files across local area networks, wide area networks, and global computer networks in the field of consumer electronics; remote controls for the control of motion sensors, digital door locks, electric light switches, lights, radios, televisions, stereos, audio recorders, digital video cameras, home appliances, motorized blinds and temperature control; downloadable software for the home automation of electric control

systems for motion sensors, digital door locks, electric light switches, radios, television, stereos, audio recorders, digital video cameras, home appliances, motorized blinds, temperature control, lighting and consumer electronics; computer monitors; audio, video and radio transmitters; audio, video and radio receivers; stereo tuners and radio signal tuners; audio and video recorders; audio and video players; radios; microphones; light-emitting electronic pointers in the nature of a wireless remote pointer; notebook computer stands; notebook computer docking stations; computer docking stations; number keypads, namely, number keypads on computer keyboards; battery packs for consumer electronics; electric and electronic computer cables; wearable computer hardware comprised of computer display screens and embedded operating system software for measuring fitness, self-improvement and data-gathering; electronic temperature sensors; motion sensors for security lights; computer hardware and software for use in activating and deactivating electrical lights; downloadable electronic instruction manuals in the field of consumer electronics; wireless chargers and charging pads for computer mice; charging stands, namely, chargers for smartphones, tablet computers, smartwatches, and headphones; gaming mouse pads.

Class 28

(2) Video game control devices, namely, remote controls, joysticks, video game steering wheels, all for use with computer and video game console platforms; game controllers in the nature of keyboards specially adapted for playing video games and gaming mice, all for use with computer and video game consoles.

Services**Class 35**

Providing consumer information regarding refurbished consumer electronic products; online retail store services featuring refurbished electronic products.

Downloadable software in the nature of a mobile application for use in connection with utilities, namely, for providing information and analyzing data on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; downloadable software in the nature of a mobile application utilizing artificial intelligence and machine learning for use in connection with utilities services and assets, namely, for providing customers with access to utility account data and allowing customers to pay utility bills; downloadable software for computing energy usage, savings, distribution, transmission, measurement, and forecasting; global positioning system (GPS) transmitters and receivers; downloadable software utilizing artificial intelligence, and machine learning for use with utilities, namely, for providing information and analyzing data on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; downloadable software utilizing artificial intelligence and machine learning for providing contextual prediction, personalization, and predictive analytics in the field of energy usage, energy savings, energy distribution, energy transmission, and energy measurement; downloadable software utilizing artificial intelligence and machine learning for providing intelligent data services in the nature of analyzing metrics on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting and processing large volumes of data in the field of energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement,

performance of electric and gas utilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; downloadable simulation software for modeling, planning, designing, operating, and optimizing utilities services transmission of electricity and natural gas, electric and gas utilities facilities, energy grids, renewable energy grids, energy distribution, energy transmission, energy measurements, and also for energy forecasting; downloadable computer software for use as an application programming interface (API) for use in connection with utilities, namely, for providing information and analyzing data in the field of energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; downloadable software development kits (SDK) for the development of cross platform applications, namely, computer software for assisting developers in creating program code for use in multiple application programs; cameras; multiple purpose cameras; video cameras; optical sensors; proximity sensors; telecommunications transmitters, namely radio frequency transmitters, and remote control transmitters; downloadable computer software development tools to create software applications to be used on computer systems and hardware platforms.

Services

Class 35

(1) Business consulting services in the fields of renewable energy, energy usage, energy savings, energy distribution, energy transmission, energy measurement, and energy forecasting; tracking and monitoring energy consumption for others for account auditing purposes.

Class 38

(2) Telecommunications services, namely, personal communication services; interactive broadcasting and webcasting of audio and video over the Internet and telecommunications networks in the field of energy usage, energy savings, energy distribution, energy transmission, and energy measurement; communication services, namely, transmission of voice messages, audio content, visual images and multimedia content by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; providing an online forum for users and applications to share and transmit information concerning public utilities services and related assets via electronic media, namely telecommunications networks, wireless communication networks, the Internet, information services networks and data networks

Class 39

(3) Providing information in the fields of energy distribution and transmission of electricity; software for vehicle route planning; travel route planning.

Class 42

(4) Research, design and development of computer hardware and software; computer services, namely, assisting others with the operation of computer systems and computer networks featuring energy transmission, distribution, and management software for use with utilities, energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, utilities assets, utilities repairs, route optimization, data optimization, customer service, energy finance, and energy forecasting; providing on-line non-downloadable software for computing energy usage, savings, distribution, transmission, measurement, and forecasting; providing on-line non-downloadable software utilizing artificial intelligence and machine learning for

use in connection with utilities services and assets, namely, for providing customers with access to utility account data and allowing customers to pay utility bills; providing on-line non-downloadable software for use with utilities, namely, for providing information and analyzing data on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; providing temporary use of online non-downloadable simulation software for modeling, planning, designing, operating, and optimizing utilities services transmission of electricity and natural gas, electric and gas utilities facilities, energy grids, renewable energy grids, energy distribution, energy transmission, energy measurements, and energy forecasting; providing temporary use of online non-downloadable software utilizing artificial intelligence and machine learning for use with public utilities for providing information in the field of energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; providing temporary use of online non-downloadable software utilizing artificial intelligence and machine learning for providing contextual prediction, personalization, and predictive analytics in the field of energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; providing temporary use of online non-downloadable software utilizing artificial intelligence and machine learning for providing intelligent data services in the nature of analyzing metrics on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting and processing large volumes of data in the field of energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; platform as a service (PAAS) featuring computer software platforms for use with utilities, namely, for providing information and analyzing data on energy usage, renewable energy, energy savings, energy distribution, energy transmission, energy measurement, performance of electric and gas utilities facilities, repairs of electric and gas utilities, route optimization, electric and gas utilities and energy usage data optimization, customer service in connection with electric and gas utilities installation and maintenance, energy finance, and energy forecasting; research and development of computer software.

Goods

Class 06

(1) Metal formwork and parts therefor for concrete construction, namely, formwork beams, wall forms and formwork shuttering, all made of metal; metal formwork and support structures of metal for formwork for use in concrete construction, namely, adjustable footholds and supporting heads made of metal; tension jacks of metal for steel reinforcement, tension links, anchors, metal consoles for use in concrete construction, metal clamping wedges, metal tensioning wedges, tapers of metal, concrete forming snap ties of metal, nuts, anchor plates, bolts, structural joint connectors of metal for floors and walls, connecting brackets of metal for buildings, steel connectors for formwork panels, metal tubing for formwork and reinforcement in concrete construction, rails of metal, fittings of metal for building, all the aforesaid good being of metal for use in scaffolding and formwork.

Class 19

(2) Non-metallic formwork and parts therefor for concrete construction, namely, shuttering boards made primarily of wood or plastic.

Goods

Class 09

Apparatus for recording, transmission or reproduction of data, namely, microphones, digital audio workstations, sound cards, video recorders, radio transmitters, digital cameras; data processing equipment, namely, computers; downloadable computer software platforms for use in securing digital communications in the field of communication security, data security, data leak prevention and preventing human error; computer hardware; downloadable electronic publications in the field of communication security, data security, data leak prevention and preventing human error.

Services

Class 38

(1) Telecommunication access services for providing multiple-user access to a global computer network, electronic data transmission of digital files, namely, digital emails and electronic documents via a global computer network, telecommunications services for providing multiple-user access to a global computer network, providing electronic transmission of secure e-mail, providing virtual private network (vpn) services in the field of communication security, data security, data leak prevention and preventing human error, informational services and consultancy on the aforesaid services, all the aforesaid services whether or not provided via electronic channels, including the Internet.

Class 42

(2) Design of computers and design, maintenance, repair of computer software, design and development of wireless communication systems for transmission and reception of voice, data and video, software as a service (saas) services featuring software for use in securing digital communications in the field of data security, data leak prevention and preventing human error, secure electronic storage, namely, emails and electronic documents, server hosting, computer security consultation; informational services and consultancy on the aforesaid services, all the aforesaid services whether or not provided via electronic channels, including the Internet.

Class 45

(3) Legal aid services, legal research, analysis and consultancy in the field of security, safety and risk assessment; health and safety risk assessment; data theft consultancy services, consultancy in the field of privacy and safety laws, regulations and requirements information, informational services and consultancy on the aforesaid services, all the aforesaid services whether or not provided via electronic channels, including the Internet.

Goods

Class 06

(1) Construction elements made of metal, namely, fabricated metal components for foundations for housings, cases, signals being metal posts, metal plates, metal sheets, and roofing of metal, and cantilevers being cantilevered brackets of metal; construction elements, namely, cantilevers in the nature of metal beams, poles and masts; cantilevers being materials of metal for railway construction; metal storage shelter; metal podiums in the nature of prefabricated metal platforms; metal decking, namely, decking boards and gratings of metal; retention walls being fences of metal

Class 09

(2) Instrument housings, instrument houses, instrument boxes and cases specially adapted for housing for instruments for accumulating, conducting, controlling, measuring, regulating, switching, transforming electricity, namely, electric power switches, railway signals, electric relays, electric control panels, and chargers for general purpose batteries; electric shunt boxes, electrical enclosures being junction boxes, and electrical terminal boxes.

Services

Class 40

Metal fabrication and finishing services for others.

Authorisation For Use

Consent from McMaster University is of record.

Goods

Class 01

(1) Chemical products for industrial and scientific purposes, namely, chemicals for absorbing carbon and carbon dioxide (CO₂); unprocessed synthetic resins, unprocessed plastics; compost, manures, fertilizers; biological preparations for use in industry and science, namely, biologically-engineered microbes for use in the production of industrial chemicals; none of the foregoing goods being silicon products.

Class 06

(2) Alloys of common metal; transportable metal housings, metal containers for storage or transport; metal alloys for buildings, vessels, fixed and mobile installations.

Class 07

(3) Carbon capture apparatus and installations, namely, equipment in the form of electric water pumping units for industrial purposes, carbon and carbon dioxide (CO₂) filtering machines, and air compressors and parts and fittings for all the aforesaid goods; centrifuges and parts and fittings for all the aforesaid goods; centrifugal separators and parts and fittings for all the aforesaid goods; industrial remote-controlled robots for underwater examination and parts and fittings for all the aforesaid goods; machines for generating gas by electrolysis and parts and fittings for all the aforesaid goods; installations for utilization of emission capture process, namely, emission reduction units for motors and engines, namely, EGR valves and structural parts therefor and parts and fittings for all the aforesaid goods.

Class 09

(4) Apparatus and instruments for controlling, distributing, transforming, accumulating, regulating or controlling the process of capturing emissions, namely, apparatus and instruments for use in the generation, transmission, distribution, supply and storage of carbon, carbon dioxide (CO₂), carbon emissions, and greenhouse gas emissions; downloadable computer programs for use in data

processing, namely, downloadable computer programs for collecting, analyzing, and organizing data in the fields of carbon capture, carbon emissions, and greenhouse gas emissions; computers; downloadable computer software for use in data processing, namely, downloadable computer software for collecting, analyzing, and organizing data in the fields of carbon capture, carbon emissions, and greenhouse gas emissions; equipment for the process of capturing emissions, namely, gas sensors, pressure sensors, and carbon emissions detectors; electronic control equipment and instruments for use in the generation, transmission, distribution, supply and storage of carbon emissions, namely, gas sensors and gas meters, carbon dioxide monitors, electrical controllers, accumulators, electric current switches, power distribution boxes; computers and microprocessor-based equipment for industrial purposes for the production and storage of carbon emissions, namely, microprocessor-based hardware systems used to reduce power consumption during the production and storage of carbon emissions; carbon emission measuring apparatus and instruments and carbon capture dispensing equipment, namely, gas sensors and pressure sensors, automatic electronic control valves for regulating the flow of gases and liquids; downloadable software for use in the fields of energy and carbon emissions capture, namely, software for logging, storing, and analyzing carbon emissions data from offshore structures; electric cables and electric wires; inspection equipment, namely, electronic equipment for inspection and detection of carbon and carbon dioxide (CO₂).

Services

Class 35

(1) Business management consultancy; business organization consulting; business management and administration assistance; business consulting, management and planning services in the fields of environmental science, carbon capture and storage and greenhouse gas emissions; promotional services, namely, promoting the services of others in the fields of environmental science, carbon capture and storage and greenhouse gas emissions.

Class 37

(2) Construction of plants and stations for the capturing and storage of carbon dioxide (CO₂); installation, maintenance and repair services of stations and plants for handling co₂; construction and maintenance of carbon capture facilities, namely, plants and stations for the capturing and storage of carbon dioxide (CO₂).

Class 39

(3) Consultancy and advisory services relating to the transfer, distribution, supply and storage of co₂; consultancy and advisory services relating to the transport and storage of co₂.

Class 40

(4) Production of energy, namely, power, electricity and current production; gas production; upcycling, waste treatment and waste disposal, namely, destruction of waste, recycling of waste, treatment of chemical waste, treatment of waste water and waste sorting services; processing of hydrocarbons, namely, processing of oil, gas and carbon based chemicals; treatment of industrial waste to sequester carbon, namely, waste gas treatment service; generation of electrical power using carbon sequestration; processing and capture of carbon from emissions; processing of dry gas and natural gas condensates; biomass gasification services, namely, gasification of organic materials; consulting in the field of carbon capture for others using direct air capture technology and processing of natural gas; consultancy and advisory services relating to the generation of co₂; consultancy and advisory services relating to process of co₂; consultancy and advisory services relating to the processing and handling of co₂.

Class 42

(5) Architectural services; interior design consultancy; technical consultancy in the field of environmental science; research in the field of environmental protection, namely, research in the fields of carbon capture and storage, greenhouse gas emissions and technologies for carbon capture and reduction of greenhouse gas emissions; information and consultancy relating to research in environmental sciences, greenhouse gas emissions, carbon capture and storage and related technologies; consulting services in the fields of energy measurement to improve energy efficiency; conducting scientific feasibility studies and professional consulting services relating to scientific research in the field of power and energy supply; consulting regarding scientific research in the field of energy, namely, consultancy relating to the technical and scientific analysis of carbon capture infrastructure development, environmental engineering services and research relating to deep water technology; planning and layout design services in the field of machinery and machine tools, namely, pipelines, pressure gauges, pressure regulators, pressure valves, cementing tools, downhole equipment, machines and equipment for subsea engineering installations; platform services (paas) featuring computer software platforms for collecting, analyzing, and organizing data in the fields of carbon emissions and carbon capture; providing a web hosting platform on the internet for collecting, analyzing, and organizing data in the fields of carbon emissions and carbon capture; design and development of computers and computer programs; software as a service [saas] featuring software for use in collecting, analyzing, and organizing data in the fields of carbon emissions and carbon capture; consumer product safety testing services in the field of products for capturing carbon emissions; industrial research in the fields of carbon capture, carbon emissions, and greenhouse gas emissions.
