Trademarks Journal

2025-10-15 — Vol. 72 No. 3703

Trademarks Journal

Vol. 72 No. 3703

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Trademark Types

Three-dimensional (3-D)

Position

Visual Representations

Trademark Description

The mark for which a trademark registration is sought (hereinafter "The Mark") is a combination of signs, namely, a three-dimensional shape and its position on an automobile. The Mark consists of the three-dimensional shape shown in solid outline, and the position of this shape on an automobile as shown in the visual representations, namely, the central part of the front face of a

three-dimensional vehicle, between the headlights. The dashed lines do not form part of The Mark but are included merely to show the positioning of the three-dimensional shape. The visual representations depict different views of The Mark.

Territorial Restriction

Registration is restricted to the province of Ontario.

Registrability Recognized

Registrability recognized under the *Trademarks Act*.

Goods

Class 09

(1) 5G & EMF Quantum Equalized Technology device, namely, a resin block in which a combination of Himalayan crystals, semi-precious stones, precious and non-precious metals are arranged for the purpose of emitting, transmuting and neutralizing electromagnetic waves, namely, wi-fi signals, 2G signals, 3G signals, 4G signals, 5G signals, microwave signals, walkie talkie signals, UHF signals, VHF signals, FM and AM signals, all megahertz signals, very low frequency signals in the vicinity of the device for therapeutic, wellness purposes as well as for the purpose of chromotherapy, namely, a method of treatment that uses the visible spectrum of electromagnetic radiation to promote health; life-energy tables, namely, therapeutic tables having a 5G & EMF Quantum Equalized Technology device, namely, a resin block in which a combination of Himalayan crystals, semi-precious stones, precious and non-precious metals are arranged for the purpose of emitting, transmuting and neutralizing electromagnetic waves, namely, wi-fi signals, 2G signals, 3G signals, 4G signals, 5G signals, microwave signals, walkie talkie signals, UHF signals, VHF signals, FM and AM signals, all megahertz signals, very low frequency signals in the vicinity of the device for therapeutic, wellness purposes as well as for the purpose of chromotherapy, namely, a method of treatment that uses the visible spectrum of electromagnetic radiation to promote health; covers for electric outlets; Computer software containing topics of instructions in health care, physical, mental and emotional wellness, self-relief technique, meditation, spirituality, self-awareness, healing process, intuition and consciousness development; Instructional computer software for use with electromagnetic wave generators, electronic magnetostrictive equipment, namely, wave generators, wave sensors and wave analyzers, and electronic waveform generators

Class 11

(2) led lamps;

Class 14

(3) Jewellery; Precious and semi-precious metals; jewellery made of a resin epoxy that contains metals, minerals, and quartz crystals, semi-precious stones, gold metal, silver metal, copper metal, aluminum metal, iron metal, brass metal, titanium metal, copper coils; key rings; model figures ornaments of precious metal; works of art of semi-precious metals, precious-metals, semi-precious and precious metals

Class 16

(1) Laminates, namely, resin-saturated laminated papers; Plastic laminate sheets and panels to be affixed to surface of kitchen and bathroom cabinets.

Class 19

(2) Laminates namely decorative laminates, decorative mouldings, doors, namely non-metal interior doors and non-metal kitchen doors; Door frames, not of metal; profiles, namely, non-metal crown and decorative mouldings use for kitchens and bathrooms for room decoration; non-metal laminated door, building and wall panels; non metal Slat Wall panel.

Class 20

(3) Doors, namely, cabinet doors for furniture cabinets; Cabinet surfaces, namely, composite panels, particleboard and fiberboard for use in further manufacturing cabinets, drawers and profiles, Furniture moldings, namely, bedroom furniture moldings, dining room furniture moldings, living room furniture moldings, kitchen furniture moldings, bathroom furniture moldings, office furniture moldings; Cabinet drawers for furniture cabinets; Furniture shelves, Shelving; Edge banding for furniture or for cabinet doors for furniture cabinets; laminated resin-saturated papers and plastic laminated sheets to be affixed to the surface of cabinets.

Class 06

(1) Metal ores; common metals and their alloys, ores; non-electric cables and wires of common metal; metal hardware, namely nuts and bolts; clips of metal for cables and pipes; collapsible tubes of metal; metal racking structures for supporting tubes; metal heating ducts; metal fuel oil hoses; clips of metal for tubes; elbows of metal for connecting gas piping to gas appliances; ducts of metal for air-conditioning installations; ducts of metal for ventilating installations; metal pipes and tubes; industrial metal hoses; valves of metal for water pipes; ventilating ducts of metal; pipes of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; couplings of metal for tubing; metal couplings for fire hoses; metal pipes for liquid and gas transfer; metal hoses for agricultural use; metal hoses for plumbing use; metal hoses for swimming pools; metal valves for controlling the flow of fluids in pipelines; metal valves for controlling the flow of gases in pipelines; pipe fittings [junctions] of metal; non-electric ducting conduits of metal; pipe spacers of metal; fittings of metal for pipes; pipe tubes of metal; collars of metal for fastening pipes; metal pipes for liquid and gas transfer; metal conduits for liquid and gas transfer; metal tubes for gas; metal air conditioning ducts; insulated pipe supports of metal; pipe extensions of metal; ducts of metal for housing ventilation pipes; junctions of metal for pipes; hose hangers of metal; metal hose clamps; metal hose fittings; wall hooks of metal for pipes; pipe muffs of metal; elbows of metal for pipes; pipework of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; pipe support sleeves of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils; joint connectors (metal -) for pipes; pipe unions of metal; branching tubes of metal for pipelines; flexible tubes of metal for use in drainage, central heating installations, gas transfer, water and for transporting media such as engine oil, exhaust gases from engines, coolants and hydraulic oils

Class 07

(2) Metal working machine tools; power operated tools; motors, other than for land vehicles, namely motors used in commercial, light commercial, and residential heating, ventilation and air conditioning; propulsion mechanisms, other than for land vehicles, namely, industrial engines; machine coupling and transmission components (except for land vehicles); agricultural implements other than hand operated hand tools, namely, incorporators; catalytic converters for the exhaust gases of internal combustion engines; waste gas conduits being parts of machines; exhaust gas treatment systems for diesel engines; waste gas return valves being parts of machines; metal branching pipes being parts of engines; adaptors for pipes being parts of machines; intake manifolds for motors; fittings for engine boilers; exhaust manifold for engines; automotive exhaust pipe; exhaust pipes for land vehicles; bellows being parts of machines; drilling rigs for drilling offshore wells; exhaust bypasses being structural parts of machines for automotive vehicles; exhaust bypasses being parts of motors and engines; metal joints for pipes being parts of machines; metal joints for tubes being parts of engines; exhaust expansion joints being parts of electric motors, not for land vehicles; bellows being exhaust expansion elements, being parts of electric motors, not for land vehicles; bellows for fuel pumps, being parts of electric motors, not for land vehicles; bellows for Piezo-injectors, being parts of electric motors, not for land vehicles; bellows for pressure sensor glow plugs, being parts of electric motors, not for land vehicles; clamp connectors for piping being parts of machines; crankcases for machines, motors and engines; hydraulic circuits for machines; hydraulic valves being parts of machines; fuel injection systems for engines; manifolds being parts of machines; manifolds being parts of engines; heat sinks for use in machines; couplings, other than for land vehicles for machines; couplings of metal for hydraulic apparatus for machines; metal joints for tubes being parts of machines; hoses (metal -) for transferring hydraulic power in machines; swaging machines for use in the assembly of hoses; swaging machines for use in the preparation of hose assemblies; tubes being fitted parts of machines; sound absorbers [silencers] being parts of vehicle exhaust systems; sound absorbers [silencers] being parts of exhaust systems for machines; hoses (metal -) for use in hydraulic systems in machines; non-metallic pre-insulated bonded pipes being parts of machines; bending machines for tubes; pipes being fitted parts of machines; machine tools, namely, casing cutters; machine tools for use in binding hoses; hoses (non-metallic -) for transferring hydraulic power in machines; exhaust gas recirculation [egr] valves for motors and engines; automotive intake manifolds; oil coolers for motors; compressors as parts of machines, motors and engines; non-electric coupling sleeves being parts of engines for land vehicles

Class 09

(3) Scientific, nautical, navigating, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely cameras; sound recording apparatus, namely sound processors, echo sounding devices, digital sound processors, sound amplifiers, electric controls for programmable sound generators; sound transmission apparatus, namely sound projectors and amplifiers, sound processors, sound mixers; sound reproduction apparatus, namely sound level meters, sound projectors and amplifiers, blank CD-ROMs for sound recording; sound processing apparatus, namely digital sound processors, sound mixers; image recording apparatus, namely video cameras, digital cameras for industrial use, web cameras; image transmission apparatus, namely remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; image reproduction apparatus, namely image scanners, fingerprint imagers, thermal imaging cameras; image processing apparatus, namely computer programs and software for image processing; data recording apparatus, namely electronic data recorders for machine and engine parts, digital event recorders for seismic data; data transmission apparatus, namely data transmission cables, wireless device for transmitting electronic data being

earbuds; data reproduction apparatus, namely data compression software; data processing apparatus, namely computer software to automate data warehousing, computers for use in data management; digital media, namely, pre-recorded DVDs, downloadable audio and video recordings, providing information in the field of industrial metal goods; downloadable computer operating software for use in processing, protecting, managing, sharing and storing data in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; blank digital or analog recording and storage media, namely, blank USB's, blank CD's and blank DVD's; cash register; calculator; fire extinguishers; educational apparatus, namely, blocks used as teaching aids for modelling chemical compounds; DVD recording apparatus; blank magnetic data carriers, data processing equipment, namely couplers; computers; battery boxes; exhaust gas temperature gauges; downloadable computer application software for managing, operating and connecting the internet of things [iot] enabled devices for use in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for use in remote meter monitoring of water, gas and electricity and energy consumption in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; digital panel meters; real-time data processing devices for photographs and videos, namely computers, image scanners; electrical ducts; meters for measuring electric current; automotive battery chargers, chargers for electric batteries for electric vehicles; electronic sound level meters; electronic surveillance cameras; microcontrollers for internet of things [IoT] enabled devices; housings adapted for electrical current switches, housings adapted for electric light switches, housings adapted for electric power generator, housings adapted for electric power switches, housings adapted for electric power generator, housings adapted for electric storage batteries, housings adapted for electric power distribution units, housings adapted for electric power converters, housings adapted for electric wire and cable, housings adapted for electric transformers, housings adapted for electric annunciators, housings adapted for electrical conductor cables, housings adapted for electrical conductors for transformers, housings adapted for electrical connectors, housings adapted for electric current control devices; intelligent gateway routers for real-time data analysis; central processing unit (CPU) coolers for electronic components; coolers for computers, namely fans, pastes, heatsinks and radiators; coolant-temperature sensors; downloadable computer software for the integration of artificial intelligence and machine learning for viewing, monitoring and analysing video streams and to receive alert notifications in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; air/fuel ratio gauges; optical cables; distance sensors; motion sensors; laser distance meters; laser distance sensors; electronic distance meters; electromagnetic measuring detectors; coordinate-measuring machines; measuring tapes; fuel consumption measuring apparatus, namely fuel consumption flow meters; diesel oil emission testers; downloadable real-time collaborative editing [rtce] platforms software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; fire hose nozzles; calibration sensors for measurement of the flow rate and volume of liquid hydrogen, of exhaust gas flow, of movement of components, of temperature; downloadable computer software for computer-aided engineering [cae] in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable product lifecycle management software for use in cost benefit analysis, for quality management and for the forecast of the expected

replacement of components in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable predictive maintenance software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; solar energy collectors for electricity generation; photovoltaic solar modules for production of electricity; sprinkler systems for fire protection; particle emission monitoring and flow measuring instruments; sheaths for optical fibre cable; downloadable computer maintenance software; software for operating an online shop; software for evaluating customer behaviour in online shops; downloadable mobile application software for social networking services; downloadable ring tones for mobile phones; downloadable computer software for authorizing access to databases; downloadable electronic data files featuring maintenance information in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; directories [electric or electronic]; downloadable computer software platforms, application software, and programs all for planning, calculation and design of pipeline systems, of plant parts and of flexible pipe elements, of pipe expansion joints and pipe supports; downloadable computer software development tools; downloadable software for tablet computers for authorizing access to databases, for estimating costs, for planning, calculation and design in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software designed to estimate costs in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer programmes for processing production and performance data collected from machines, in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; document management software; downloadable computer software for the transmission of photographs, video files, graphics, audio data, text files, downloadable digital files containing text, customer information, financial information, information regarding service providers, in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for the management of information relating to the production and performance of machines in the field of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for moderation of electronic bulletin boards; computer programs used for electronic cash register systems; downloadable computer programs for project management in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable computer software for implementing and recording financial transaction in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; computer software for application and database integration; electronic tags for goods; electronic security tags for goods; audiovisual teaching apparatus, namely, computer hardware; digital recording computer hardware; wireless computer keyboards; decoding computer hardware; downloadable electronic ships logs; encoding and decoding hardware and software; electronic interactive whiteboards; electronic encryption units; electronic notebooks; notebook computers; laptop computers; electronic decoding label readers; demagnetizing apparatus for magnetic tapes; wireless computer

keypads; communications equipment, namely, telephones; multifunctional devices which incorporate copier and facsimile functions in the standalone mode; multifunction keyboards; optical encoders for the serial collection of data inputs and converting them into a single encoded output; linear and rotary optical encoders for use with microprocessors and semi-conductors; optical transmitters; speech recognition computer hardware computer keyboards; time programmers being computer hardware; components for electrical mains in the nature of electric wires; smart glasses; electronic door alarms; computer mice; electronic components for computers; computer cabling; computer chips; computer network hardware; computer buses; computer memory modules; computer servers; computer hardware; computer screens; computers and computer hardware; microcomputer apparatus; computer touchscreens; touchpads for computers; portable hard disk drives for computers; covers for tablet computers; keyboards for tablets; tablet docking stations; computer hardware for telecommunications; computer networking and data communications computer hardware; digital organizers; electronic diaries; electronic agendas; magnetic encoders, namely, devices converting analog signals into digital ones using magnetic fields; disk drives for computers; usb flash drives; electronic payment terminals; automated teller machines [atm]; money sorting apparatus; point of sale apparatus; electronic cash registers; automatic cash registers; money counting and sorting machines; bar code readers; downloadable computer software for dissemination of advertising; electronic advertising displays; luminous signs used for advertising; software for embedding online advertising on websites; mechanical signs used for advertising; software for designing online advertising on websites; software for renting advertising space on websites; commercial monitors; downloadable machine learning software for advertising; encoded charge cards; magnetically encoded charge cards; downloadable customer relation management [crm] software; customer relationship management software (crm); computer communication software to allow customers to access bank account information and transact bank business; encoded loyalty cards; downloadable social networking software; electronic mail servers; mail server software; electronic mail and messaging software; application software for social networking services via internet; downloadable community social networking software; software for gps navigation systems; downloadable industrial process control software in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; gesture recognition software; downloadable software for diagnostics and troubleshooting of computer issues; downloadable mobile device applications for industrial process control monitoring in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; downloadable software applications for use with three dimensional printers; safe load indicator; computer hardware modules for use in electronic devices using the internet of things [iot]; water sprinkling devices for fire control; water level indicators for vehicles; oil-water level sensors; gas and liquid level indicators; water temperature gauges; water temperature regulators; water level indicators; water leakage detection alarms; water meters; scientific apparatus for determining the water content in petroleum products; gasometers [measuring instruments]; gas sensors; gas alarms; gas concentration monitor; gas flow meters; gas flow monitors; gas consumption monitor; alarms for the detection of inflammable gases; fuel cells; fuel cell electrodes; electronic modules for fuel regulating; combustion gas detectors; fire sensors; fire detectors; flame detectors; fire detection software; fire modeling and simulation software; sprinkler apparatus [automatic] for fire extinguishing; sprinkler systems for fire protection; fire extinguishing apparatus for automobiles; electric control devices for heating management; carbon monoxide detectors; carbon dioxide detectors; telemetry devices for motor vehicles; fluid level measuring apparatus for use in motor vehicles; air pollution measuring devices; software to control building environmental, access and security systems; motion sensor; virtual reality headsets; sensors for monitoring physical

movements; vibration gauges; vibration sensors; downloadable industrial software used to control and automate industrial machines in the fields of construction of industrial plants, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; electrical industrial controls utilizing adaptive remote control for industrial processes used in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering comprising computer hardware; downloadable virtual and augmented reality software to create and view 3d virtual reality plans, models, and technical specifications for use in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering; computer programs for network management; downloadable communication and networking software, namely computer software to enable sharing information in electronic form via computer and communication networks for training simulation and for education in the fields of plant construction, pipeline construction, device engineering, mechanical engineering, power generation, automotive engineering, technical building equipment, aerospace engineering

Class 11

(4) Shower hoses; shower hoses for hand showers; flues and installations for conveying exhaust gases; supports adapted for use with solar heating tubes; fittings for flues; sanitary water conduit fittings; heat trace cables; vent covers [parts of air conditioning installations]; flexible pipes being parts of bath plumbing installations; flexible pipes being parts of shower plumbing installations; flexible pipes being parts of sink plumbing installations; taps for pipes and pipelines; heating elements, heating modules; ventilating fans for industrial purposes; air conditioning apparatus; refrigerating cabinets; heat exchangers for chemical processing; coils as parts of cooling installations; pipes being parts of sanitary installations; diesel fuel line heaters; taps being faucets; household tap-water filters; ventilation [air-conditioning] installations for vehicles; air ventilating apparatus for vehicles; air purification units; safety accessories for gas pipes, namely, flashback arrestors and reverse flow check valves; tap-water purifying apparatus; boiler pipes [tubes] for heating installations; coils as parts of distilling, heating or cooling installations; sprinkler systems for irrigation; spigots for pipes and pipelines being parts of sanitary installations; valves being parts of sprinkler systems; heat exchangers, other than parts of machines; corrugated pipes of metal being parts of sanitary installations; tubular heating elements; pipe line cocks; pipe laying cocks; coils being parts of cooling installations; coils being parts of heating installations; coils being parts of distilling installations; flexible pipes being parts of basin plumbing installations; heat exchangers for the removal of exhaust gases; flues for heating apparatus; hvac systems (heating, ventilation and air conditioning); heating boilers; fireplace dampers; flexible heating elements for automobile seats; vehicle hvac systems (heating, ventilation and air conditioning); water filtration apparatus for the deionization of water; ventilators for automobiles; air conditioners for vehicles; solar energy powered heating installations; spouts being plumbing fittings; plumbing fixtures, namely, shower sprayers; sanitizing apparatus for linens using ultraviolet light, ozone sterilization and low pressure techniques; filters for use with HVAC units; flexible strip wound pipes of metal being parts of sanitary installations; sliding plate fire dampers; plastic elbow bends for pipes being parts of sanitary installations; spray nozzles being parts of water supply installations

Class 12

(5) Land vehicles; apparatus for locomotion by land, air or water, namely boats; crankcases for components for motor cars (other than for engines); crankcases for land vehicle components, other than for engines; automobiles and structural parts therefor; hydraulic brake cables for vehicles being conduits in the form of pipes, tubes and hoses, which serve to transport the brake

fluid; powertrains, namely, engines and motors, for land vehicles; automobile engines; parts and fittings for land vehicles; parts and fittings for air and space vehicles; airplanes; structural parts for airplanes; aerodynamic wings for airplanes

Telematics apparatus and terminals, namely controller area network buses (CAN bus), transceivers, transponders, radio frequency antennas and computer servers for use with aerial platforms, aerial work lifts and telehandler lifts; machine-to-machine applications [M2M], namely computer software and hardware for the real-time remote management of aerial platforms, aerial work lifts and telehandler lifts; interface cards for computers, computer interface cards, hub interface cards for computer networks for aerial platforms, aerial work lifts and telehandler lifts; global positioning system (GPS) consisting of computers, software, transmitters, receivers and network interface devices for tracking the location of aerial platforms, aerial work lifts and telehandler lifts; computer hardware for network-attached storage [NAS] devices for the collection, storage, transmission and archiving of information relating to the location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts; distance sensors, position sensors, liquid level sensors, motion sensors, optical sensors, pressure sensors, proximity sensors, temperature sensors, acceleration sensors, thermal detectors, timing sensors, velocity sensors, transponders, electronic industrial controls for motion failure detectors, heat detectors, laser object detectors, magnetic object detectors, global positioning system [GPS] transmitters, long range transmitters, radio frequency transmitters and remote control transmitters for the remote operation and monitoring of the activity and status of aerial platforms, aerial work lifts and telehandler lifts; software for computers for the inventory management of a fleet of aerial platforms, aerial work lifts and telehandler lifts; software for the analysis, treatment and management of information relating to the location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts; software for tracking the location of aerial platforms, aerial work lifts and telehandler lifts; software for transmitting location information for tracking aerial platforms, aerial work lifts and telehandler lifts; software for the monitoring, analysis and remote diagnostics related to the condition and operation of aerial platforms, aerial work lifts and telehandler lifts; maintenance software for aerial platforms, aerial work lifts and telehandler lifts, namely for receiving and interpreting error codes and providing resolution instructions, for providing predictive maintenance schedules and providing alerts based on elapsed time of operation, for monitoring

battery status and providing alerts, for detecting hazardous behaviours and providing alerts, for setting operational limits and flagging and analyzing the operation, kinematics and elevation of aerial platforms, aerial work lifts and telehandler lifts; software for the remote control of aerial platforms, aerial work lifts and telehandler lifts; computer databases containing information relating to the location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts; remote control transmitters, remote control receivers and remote controls for aerial platforms, aerial work lifts and telehandler lifts; heat detectors, heat regulators, heating meters, pressure meters, pressure recorders, pressure transmitters, pressure switches; liquid level indicators, level gauges, pressure gauges, strain gauges, temperature gauges, angle gauges, marine depth finders, dial gauges, feeler gauges, go/no-go gauges.

Services

Class 37

(1) Provision of information related to the repair and maintenance of aerial platforms, aerial work lifts and telehandler lifts; installation, maintenance and repair of computer hardware in the nature of telematics apparatus and terminals.

Class 38

(2) Telematics communication services with machines offering wireless navigation and tracking of aerial platforms, aerial work lifts and telehandler lifts; email transmission of data and documents via computer terminals; services for the electronic transmission and remote transfer of information relating to location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts via computer terminals; provision of access to a computer database containing information relating to the location, activity, status and operation of aerial platform machines, aerial work lifts and telehandler lifts; provision of email alerts via the Internet regarding the tracking, status and operation of aerial platforms, aerial work lifts and telehandler lifts; transmission of text messages and transmission via electronic mail of information relating to the location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts; transmission of data and documents via computer terminals relating to the location, activity, status and operation of aerial platforms, aerial work lifts and telehandler lifts; rental of telematics apparatus and terminals, namely rental of modems, global positioning system (GPS) transmitters and receivers, transponders, and radios; transmission of text messages and transmission via electronic mail of information and decision support materials for the remote management in real time of aerial platforms, aerial work lifts and telehandler lifts, via computer terminals.

Class 42

(3) Administration services, namely application service provider featuring an application programming interface (API) for the synchronization, storage, archiving and backup of data on cloud servers for the administration of a fleet of aerial platforms, aerial work lifts and telehandler lifts; cloud hosting provider services for the administration of a fleet of aerial platforms, aerial work lifts and telehandler lifts; decoding of messages and data collected by telematics apparatus and terminals; creation, maintenance, archiving and updating of databases for the management of a fleet of machines; creation, maintenance, archiving and updating of databases containing information relating to the location, activity, status and operation of machines; development, installation and maintenance of software for managing a fleet of machines; development, installation and maintenance of software for the analysis, treatment and management of messages and data relating to the location, activity, status and operation of machines; development, installation and maintenance of software related to the location of machines; development, installation and maintenance of software for transmitting machine location data; development, installation and maintenance of software for the monitoring, analysis and remote diagnostics of the

status and operation of machines; development, installation and maintenance of software for machine maintenance; development, installation and maintenance of software for remote control; computer platform as a service [PaaS] for inventory management of a fleet of aerial platforms, aerial work lifts and telehandler lifts; recovery of computer data relating to the location, activity, status and operation of machines.

Class 09

(1) Electric apparatus for controlling, monitoring, managing and adjusting lighting products, namely, electrical control systems for lighting systems, occupancy sensors, namely, electronic devices which detect the presence of occupants and control the lighting system accordingly, light-emitting diode [LED] monitors, electric transformers, downloadable software and downloadable mobile application software for controlling, monitoring, managing and adjusting electric control systems for lighting, downloadable software and downloadable mobile application software for the automation of electric control systems for lighting; Electric apparatus for controlling, monitoring, managing and adjusting mains power equipment, namely, electrical controls for heating systems, water level sensors, downloadable software and downloadable mobile application software for controlling and managing water heaters; Electric apparatus for controlling, monitoring, managing and adjusting power supply, namely, electronic controllers for use with power converters, voltage stabilizing power supply, uninterruptible power supply apparatus, inverters for power supply, low power microcontrollers, DC input power supplies, AC/DC power supplies, power transformers, downloadable computer software applications to manage uninterruptible power supplies and batteries, software for monitoring electrical power; Electric apparatus for controlling, monitoring, managing and adjusting water chemicals for pools and spas; Electric apparatus for controlling, monitoring, managing and adjusting equipment for pools and spas, namely, electric motor control units for swimming pool, spa, water park and fountain pumps, water level sensors, water temperature gauges, electromechanical controls for swimming pools, solenoid valves,

electromechanical controls for water heaters, chemical dosing systems, downloadable computer software and mobile application software for monitoring and controlling chemical monitoring and sanitation systems for hot tubs, pools, downloadable software for measuring, monitoring and conserving water usage; Control apparatus and computer software for lighting systems, namely, electronic control system for lighting systems, electronic control gears [ECGs] for LED lamps and light fixtures, light dimmers, lighting control panels, lighting control software for use in commercial and industrial facilities; Optical control apparatus, namely, optical control system for directing and focusing lighting systems in certain directions, for synchronizing lighting systems with music or colour shows; thermal control apparatus, namely, swimming pool thermometers, sensors for determining temperature, water temperature gauges, electronic circuits for light control systems; Apparatus for linking wireless devices, namely, smart home hubs, USB hubs, computer network adapters, and providing user control via remote and computer, downloadable computer software and mobile application software for operating smart home hubs for connecting, integrating and controlling networked consumer electronic devices, home devices, lighting controls and temperature controls via a wireless computer network; Lighting installations, namely, accessories, parts and components of lighting fixtures, namely, electric cables and wires, lighting controls, light switches and electric light dimmers.

Class 11

(2) Apparatus for lighting, heating and water supply and accessories, parts and components thereof, namely, led underwater lights for swimming pools and spas and landscape lights, led lighting fixtures, led lamps, outdoor lighting fixtures, heaters for swimming pools, installations for heating swimming pools and spas, pumps, filters and heaters sold in combination for use in swimming pools or hot tubs, water filtering units for pools and spas, water returns fittings for pools and spas, water jets for use in pools and spas, eyeball water jets for use in pools and spas, bubblers for use in pools and spas, electric lamps, led light bulbs; Electric apparatus for controlling, monitoring, managing and adjusting equipment for pools and spas, namely, swimming pool chlorinating apparatus, spa air blowers, led underwater lights for swimming pools.

Services

Class 37

(1) Technical and product support services for monitoring, control, sensor and automation systems used in connection with lighting, mains power equipment, namely, pumps, water equipment for pools and spas, namely, electric motor control units for swimming pool, spa, water park and fountain pumps, water level sensors, water temperature gauges, electromechanical controls for swimming pools, solenoid valves, electromechanical controls for water heaters, chemical dosing systems, downloadable computer software and mobile application software for monitoring and controlling chemical monitoring and sanitation systems for hot tubs, pools, downloadable software for measuring, monitoring and conserving water usage, swimming pool chlorinating apparatus, spa air blowers, led underwater lights for swimming pools and lighting fixtures, power supply, namely, electronic controllers for use with power converters, voltage stabilizing power supply, uninterruptible power supply apparatus, inverters for power supply, heat pumps and swimming pool chlorinating apparatus.

Class 42

(2) Application service provider featuring application programming interface (API) software for environmental monitoring, control, and automation; Computer services, namely, design and development of nondownloadable software and mobile applications, design and hosting of websites featuring technology for use in monitoring, controlling, sensor and automation systems; Application service provider featuring application programming interface (API) software for

monitoring, control, sensor and automation of lighting, mains power equipment including pumps, heaters for swimming pools, installations for heating swimming pools and spas, water filtering units for pools and spas, water returns for pools and spas, water jets for use in pools and spas, eyeball water jets for use in pools and spas, bubblers for use in pools and spas, water level sensors, appliances and lighting fixtures, power supply, namely, electronic controllers for use with power converters, voltage stabilizing power supply, uninterruptible power supply apparatus, inverters for power supply, low power microcontrollers, DC input power supplies, AC/DC power supplies, power transformers, water chemicals for pools, electric motor control units for swimming pool, spa, water park and fountain pumps, water level sensors, water temperature gauges, electromechanical controls for swimming pools, solenoid valves, electromechanical controls for water heaters, chemical dosing systems; Providing online, nondownloadable computer software for mobile phones, tablets, handheld computers, personal digital assistants, tablet computers, namely, software for monitoring, controlling and automation of lighting systems

Goods

Class 01

(1) Chemical preparations for use in the manufacture of pharmaceuticals; chemicals used in photography, as well as in agriculture, horticulture and forestry; fertilizing preparations; chemical substances for preserving foodstuffs; diagnostic reagents namely antibodies, for medical-scientific research use; detergents for industrial use; reagent paper for scientific or research use; sensitized paper, foils and films; media for chromatography, namely buffers, solvents, eluents, regeneration solutions, equilibration solutions, standards; carrier materials, namely, diatomaceous earth for use as a chemical carrier, microscopic carrier beads with chemically attached DNA fragments for use in testing the operation of equipment for analyzing air for the presence of harmful biological substances, especially suitable for immunochromatography; testing kits for scientific purposes, predominantly consisting of reagents, especially ELISA tests; proteins, namely, serum proteins being animal and vegetable albumin as a raw material, serum proteins being globulin for industrial purposes, plant hormones, and enzymes, namely, diagnostic enzymes for in vitro use in biochemistry, enzyme preparations for use in the manufacturing of pharmaceuticals, biofuel industry, chemical industry, detergent industry, food industry, beverage industry, enzyme substrates for scientific purposes, enzymes for use in the food industry, enzymes for use in the beverage industry, enzymes for use in the manufacturing of biopharmaceuticals; nucleic acids, especially proteins produced by biochemical and genetic engineering methods, namely, nucleotides for use in biochemistry, clinical chemistry, microbiology, nucleotides and nucleic acids for use in the manufacturing of biopharmaceuticals and pharmaceuticals, food industry, nucleotides and nucleic acids for use in the manufacturing of veterinary products, beverage industry, biofuel industry, chemical industry.

Class 05

(2) Pharmaceuticals, namely, biopharmaceuticals for the treatment of cancer, pharmaceuticals for the treatment of eye diseases and conditions, pharmaceutical anti-viral agents, human vaccines, antibacterial pharmaceuticals, namely, antibiotics, pharmaceutical anti-viral agents, human vaccines; veterinary preparations, namely, antioxidant supplements for animals, digestive enzymes used to treat small intestinal diseases, food allergies, exocrine pancreatic insufficiency,

and pancreatic disease all for veterinary purposes; preparations for medical purposes, namely, medicated bath preparations for the treatment of irritated, itching, and inflamed skin, diagnostic preparations for in vitro testing for medical use, diagnostic preparations for medical laboratory use; dietetic substances adapted for medical use for general health and wellbeing, dietetic substances adapted for medical use for the prevention and treatment of gastrointestinal diseases and disorders, dietetic substances adapted for medical use for the prevention and treatment of iron deficiency and anaemia in humans; infant formula; plasters for medical purposes, materials for dressings, namely, wound dressings, surgical dressings; dressings, medical; prophylactics, namely, tooth prophylactics, cerebral hemorrhage prophylactic agents; teeth filling material and dental impression materials for medical purposes; disinfectants for medical instruments; diagnostics, especially antibodies, for medical purposes; x-ray contrast agents; sanitary articles for women, namely, sanitary napkins, sanitary tampons, sanitary preparations for medical use for the treatment of autoimmune diseases, specifically psoriasis, arthritis and Chron's disease; diapers, namely, incontinence diapers, baby diapers, adult diapers; medicated oral care preparations in the nature of medicated toothpaste, medicated oral care gels; adhesives for dentures; dental mastics; medicinal herb infusions for reducing cholesterol; vitamin enriched chewing gum; detergents for medical purposes; medicated hair care preparations for hair growth; medicated skin care preparations for use as a moisturizer; pharmaceutical, veterinary or diagnostic preparations and substances produced by biochemical and/or genetic engineering methods, namely, radioactive pharmaceutical preparations for in vivo diagnostics or therapeutic use, pharmaceutical preparations for the treatment of psychiatric diseases and disorders, namely, mood disorders, anxiety disorders, cognitive disorders, schizophrenia, psychoses, bipolar disorder; diagnostic chemical reagents for medical purposes; therapeutic chemical reagents for medical purposes; tests and test kits for medical and pharmaceutical purposes, consisting of chemical medical diagnostic reagents and assays for testing of bodily fluid for use in disease detections, namely, sepsis, human papilloma virus, Lyme disease, Human Immunodeficiency Virus, tuberculosis; room deodorizing preparations for household, commercial or industrial use; air deodorizing preparations.

Services

Class 40

(1) Custom manufacture of pharmaceutical, veterinary and diagnostic preparations and substances; custom manufacture of biopharmaceuticals; processing of biopharmaceutical materials for others; consultancy services relating to custom manufacturing processes of chemicals for use in the medical field, vaccines, pharmaceutical, veterinary and diagnostic preparations and substances.

Class 42

(2) Scientific and technological services, namely, scientific and technological research, analysis, testing and development in the field of biomanufacturing and in the pharmaceutical field and design relating thereto; industrial analysis in the nature of analysis of industrial fluids, industrial x-ray inspection services and industrial research services in the field of industrial fluids and industrial x-ray research; chemistry services and biochemical services, namely, chemistry consultation, biochemistry consultation, research in the fields of chemistry and biochemistry; services of medical, bacteriological and chemical laboratories; medical and biochemical research services; development of pharmaceutical, veterinary and diagnostic products and substances and methods for the manufacture thereof, in particular using biotechnological and genetically-engineered means; consultancy in the fields of pharmaceutical research and development, veterinary preparations research and development and laboratory diagnostics sector; quality control for the pharmaceutical industry; quality control of pharmaceuticals.

Class 44

(3) Medical diagnostic services; emergency medical assistance; consultancy and information services relating to biopharmaceutical products.

Goods

Class 09

Computer software, namely, computer software for use in managing and operating customer contact centers to optimize workplace efficiency and enhance customer engagement, namely computer software for initiating, integrating, routing, controlling and monitoring inbound and outbound customer contact via multi channel communications, namely, public switch telephone networks (PSTN), VoIP telephone, email, IM, SMS text, social media and facsimile; Computer software for the management and control of telecommunications systems used by customer contact centers comprised of interactive voice response networks (IVR) and unified messaging; Computer software for utilizing the automatization of customer contact centers, namely, automated attendants and automated call centers; Computer software used for intelligent contact routing via telephone, email, web, chat, IM, SMS text, social media and facsimile; Computer software used to support the activities of contact center customer service representative and contact center managers; Computer software used to manage web chat, interactive voice response networks (IVR), unified messaging, real-time and historical contact center report generation and customer contact blending by managing both inbound and outbound telephone calls and inbound and outbound contacts via multi-channel communications, namely, public switch telephone networks (PSTN), VoIP telephone, email, IM, SMS text, social media and facsimile; Computer software for creating desktop and management tools for customer contact centers; Computer software for the integration of customer relationship management (CRM integration); Computer software for use in connection with customer contact centers, namely, computer software for providing workplace management, database management, facilities management, resource management, managing programs and events, contact surveys and performance management; Computer software for developing and designing websites; Computer software for invoice generation and payment services via online or voice telephone; Computer software for the automatic application of

administrative fees to invoices; Computer software for creating, performing and managing surveys and polls via automated phone, SMS or email; Computer software for managing and selling products online; Computer software for tracking and monitoring services, namely tracking properties, their owners and tenants and parking stalls and their owners; Computer software for the administration of a discount program, namely, computer software to automatically apply discounts to customer accounts; Computer software for organizing and managing volunteers; Computer software for providing business management and staffing services, namely, risk reduction and injury prevention; Computer software for telecom expense management (TEM), namely, expanding corporate mobile phone rates to friends and family.

Services

Class 42

Consulting services in the field of design and development of computer software and hardware for use in the monitoring of customer contact centers, customer relationship management, workforce optimization and customer contact Center reporting; software as a service (SAAS) services, namely, hosting software for use by others for use in managing and operating customer contact centers and workforce optimization capabilities, namely, computer software for initiating, integrating, routing, controlling and monitoring inbound and outbound customer contacts via multi-channel communications, namely, public switch telephone networks (PSTN), VoIP telephone, email, IM, SMS text, social media and facsimile; providing temporary use of non-downloadable software for controlling telecommunication systems utilized by customer contact centers comprised of central and private telephone switches, interactive voice response units (IVR) and telephone dialers; providing temporary use of non-downloadable software used for intelligent contact routing via telephone, email, web, chat, IM, SMS text, social media and facsimile; providing temporary use of non-downloadable software used to support the activities of contact center customer service representatives and contact center managers; providing temporary use of non-downloadable software used to manage web chat, interactive voice response (IVR), unified messaging, real-time and historical contact center report generation and customer contact blending by managing both inbound and outbound telephone calls and inbound and outbound contacts via multi-channel communications, namely, public switch telephone networks (PSTN), VoIP telephone, email, IM, SMS text, social media and facsimile; providing temporary use of non-downloadable software used to create desktop and management tools for customer contact centers; providing temporary use of non-downloadable software used for the integration of customer relationship management (CRM Integration); providing temporary use of non-downloadable computer software for use in connection with customer contact centers, namely, providing temporary use of non-downloadable computer software providing workforce management, database management, facilities management, resource management, managing programs and events, contact surveys, and performance management; providing temporary use of non-downloadable computer software for developing and designing websites; providing temporary use of non-downloadable computer software for invoice generation and payment services via online or voice telephone; providing temporary use of non-downloadable computer software for the automatic application of administrative fees to invoices; providing temporary use of non-downloadable computer software for creating, performing and managing surveys and polls via automated phone, SMS or email; providing temporary use of non-downloadable computer software for managing and selling products online; providing temporary use of non-downloadable computer software for tracking and monitoring services, namely tracking properties, their owners and tenants and parking stalls and their owners; providing temporary use of non-downloadable computer software for the administration of a discount program, namely, computer software to automatically apply discounts to customer accounts; providing temporary use of non-downloadable computer software for

organizing and managing volunteers; providing temporary use of non-downloadable computer software for providing business management and staffing services, namely, risk reduction and injury prevention; providing temporary use of non-downloadable computer software for telecom expense management (TEM), namely, expanding corporate mobile phone rates to friends and family; software as a service (SaaS) featuring software in the fields of membership business management, namely, the integration of interactive voice response networks (IVR) and unified messaging services.

Goods

Class 09

(1) Digital technology platform, software development components and software solutions, namely, recorded and downloadable software that enables users to optimize the functionality of internal combustion engines and hybrid and electric battery vehicle power management, and to manage energy and electrical power use in industrial facilities and processes, commercial and residential buildings, in infrastructure, utilities, data centers, machinery, electric vehicles and electrified aircraft; software, namely, recorded and downloadable software that enables users to manage energy and electrical power for improving energy efficiency and reliability and to manage the availability, reliability and optimization of electrical power in industrial facilities and processes, commercial and residential buildings, in infrastructure, utilities, data centers, machinery, electric vehicles and electrified aircraft; Systems primarily comprised of, electric power switches, electric relays, electric converters, electric control panels, computer display monitors, switchgear being electric switches, circuit protection in the nature of circuit breakers, electric fuses, network gateways, and electric current control devices; Internet servers that incidentally provide data, downloadable software and visualization for electrical power management, facility and process management.

Class 12

(2) Transmissions for land vehicles; differential gears for land vehicles; torque converters for land vehicles; electric drives for vehicles.

Services

Class 42

Design and development of an energy management system for electric vehicles; technological consulting services in the development and operation of advanced energy meter data management systems (MDMS) using smart grid technology; technological consulting services in the development and operation of advanced energy metering infrastructure (AMI) systems using smart grid technology; design and development of energy distribution networks; consultancy in the field of design and development of energy distribution networks within buildings and the infrastructure of building; consultancy relating to technological services in the field of power and

energy supply; energy usage management information services; computer project management services for maintenance, repair and overhaul of electrical and industrial equipment being power distribution and monitoring equipment, power quality equipment, power maintenance equipment, and telecommunication equipment used in construction projects.

Goods

Class 07

(1) Industrial robots, namely robotic arm mechanisms consisting of robotic grippers, electric screwdrivers, force torque sensors, dispensing valves being machine parts, cameras, and tool changers for handling materials; electronic industry equipment, namely robots and robotic arms and arm mechanism for use in automated manufacturing, assembly line conveyor machinery, woodworking, metalworking, glasswork, painting, sealing, bonding, assembling, rubber manufacture, commercial food and beverage manufacture, automated manufacturing and for use in warehouses, electronic industry equipment, namely, industrial robot module system, namely, industrial robots and power-operated lifting and moving equipment, namely, forklifts for carrying pallets; machines and apparatus (automatic), namely robots and robotic arms and arm mechanism for use in automated manufacturing, assembly line conveyor machinery, woodworking, metalworking, glasswork, painting, sealing, bonding, assembling, rubber manufacture, commercial food and beverage manufacture, automated manufacturing and for use in warehouses, electronic industry equipment, namely, industrial robot module system, namely, industrial robots and power-operated lifting and moving equipment, namely, forklifts for carrying pallets, and industrial material processing devices, automatic, namely Robotic apparatus for handling materials, namely metal, wood, plastic, paper, rubber and glass materials, handling machines, namely robots and robotic arms for use in automated manufacturing, assembly line conveyor machinery, woodworking, metalworking, glasswork, painting, sealing, bonding, assembling, rubber manufacture, commercial food and beverage manufacture, automated manufacturing and for use in warehouses; handling machines, namely unmanned robots being cargo handling machines; automatic manipulators, namely automatic manipulators for use with robotic arms, hangers being parts of machines, namely robotic arm grippers, drill chucks being parts of machines, handling apparatus for loading and unloading, in the nature of industrial robots, robot manipulators and tooling for the end of robotic arms for loading and unloading, multiple grippers (parts of industrial robotic apparatus), magnetic handling device, namely magnetic gripper for robotic applications, robotic arm for loading and unloading; magnetic handling device, namely magnets for industrial purposes, industrial robots incorporating robotic vision systems, for use in the field of woodworking, metalworking,

glasswork, painting, sealing, bonding, assembling, rubber manufacture, commercial food and beverage manufacture, automated manufacturing and for use in warehouses; sorting devices for industry, namely industrial robots, robotic tools, and robotic arms mechanisms for conveying and sorting of cargo, pallets, letters and parcels, machine and machine tools, namely robotic arms for treatment of materials for automated manufacture of metal, wood, plastic, paper, rubber, glass and ceramic goods, machine, machine tools, and power-operated apparatus for fastening and joining, namely robotic arms mechanisms for assembling, robotic screw driving devices, automatic electric screw driving apparatus, industrial robotic dispensing devices and automatic dispensing apparatus for the industry, namely, robotic arms for dispensing materials and tools, welding and soldering machines and devices, electric arc welding apparatus, for cutting, drilling, abrading, sharpening, and surface treatment machines, machines for processing and shaping of metal, wood, plastic, paper, rubber and glass materials, automatic surface processing machines for metal, glass, ceramics, plastics, semiconductor and wood processing; all the aforementioned devices are automatic and not hand held or hand operated; tool changers (electric and mechanical).

Class 09

(2) Computer hardware and computer software for robotic apparatus, namely computer application software for the use in the operation of robotic arms and robots; computer hardware and computer software for machine vision, sensors, detectors and monitoring instruments for robotic arms for use in automated manufacturing and material handling; computer software for measuring, detecting, monitoring and controlling robotic devices, namely industrial robots, robotic arms, robotic tools, robot manipulators for use in automated manufacturing; software for monitoring, analyzing, controlling and running physical world operations; optical sensors for industry; measuring, detecting, monitoring and controlling devices, testing and quality control devices in the nature of robots, robotic arms, robot manipulators and tooling for the end of robotic arms for laboratory purposes, and sensors, detectors and monitoring instruments for detecting and monitoring robots, robotic arms, robot manipulators and tooling for the end of robotic arms to ensure precision, consistency and safety thereof

Services

Class 42

Research, design and development of computer software for controlling industrial automation equipment loaded on single board computers; research, design and development of Robotic Process Automation (RPA) software for controlling industrial automation equipment loaded on single board computers; design and development of software controlling the robots through Digital I/Os and configurable/programmable with laptops and/or computers over a graphical user interface; design and development of software remote monitoring and control software connected to multiple robot cells; design and development of a central system supporting multiple robotic applications at the same time; design and development of a software for notification support in case of faults; providing non-downloadable remote cell management software systems for robot programming of software management.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of stylized letter "S" in red formed by two rectangles and two triangles with curved sides to the left of the black stylized wording "SAMOTICS", all on a white background.

Goods

Class 09

Security, surveillance, measuring, controlling, signalling apparatus, instruments and sensors, namely electrical current and voltage sensors, current and voltage sensors, analog-to-digital converters; computer hardware; downloadable software in the nature of a mobile application for receiving and displaying information from security, surveillance, measuring, controlling, signalling apparatus, instruments and sensors, namely, downloadable cloud-based software for use in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridges, augers, drills, presses, and grinders.

Services

Class 35

(1) Advertising of goods and services of others via local and global computer networks; marketing analysis services; business management; business administration; office functions, namely, computerised office management; business organisation advisory; business intermediary services in the form of business mediation of agreements regarding the sale and purchase of goods in the field of security, surveillance, measuring, controlling, signalling apparatus, instruments, sensors, namely electrical sensors, current and voltage sensors, analogue to digital converters and computer hardware.

Class 37

(2) Installation and repair of security, surveillance, measuring, controlling, signalling apparatus, instruments and sensors, namely electrical current and voltage sensors, current and voltage sensors, analogue to digital converters.

Class 42

(3) Scientific and technological services, namely, research and design in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridles, augers, drills, presses, and grinders; industrial analysis and research services in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridles, augers, drills, presses, and grinders; design and development of computer hardware and software; product research and development services in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridles, augers, drills, presses, and grinders; electrical and mechanical engineering and electrical and mechanical engineering advice with regard to security, surveillance, measuring, controlling, signalling apparatus, instruments, sensors, namely electrical sensors, current and voltage sensors, analogue to digital converters and computer hardware; providing technological research information about innovations in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridles, augers, drills, presses, and grinders; design and development of new products in the field of security, surveillance, measuring, controlling, signalling apparatus, instruments and sensors, namely, electrical current and voltage sensors in the field of high-accuracy electrical failure detection technology used to monitor the condition and energy consumption of electrical grids, variable frequency drives, electrical motors, power transmissions for machines, and driven load components being pumps, conveyors, fans, rollers, mixers, agitators, compressors, bridles, augers, drills, presses, and grinders.

Goods

Class 09

Computer hardware and downloadable and recorded business automation software for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of business processes in the fields of manufacturing, sales, financial management, and customer relationship management; downloadable and recorded industrial automation software for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of industrial processes; downloadable and recorded industrial automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; recorded and downloadable office automation software for planning, managing, standardization, streamlining, testing, monitoring and optimization of business processes of administrative processes; downloadable and recorded computer software for managing, processing, collecting, storing, recording, structuring, planning, organizing and controlling business data for the purpose of market research and the automation of business processes in the fields of manufacturing, sales, financial management, and customer relationship management; downloadable and recorded business automation software related to artificial intelligence, machine learning, deep learning and deep neural networks; signaling instruments, namely luminous mechanical signaling panels, transmitters and lights for signaling problems in the operation of business automation software for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of business processes

Services

Class 35

(1) Business management consultancy, business economic consultancy in the field of process automation; advisory services related to business management and business operations in the fields of data processing and data management; administrative services for project management, namely business project management services.

Class 41

(2) Educational services, namely conducting classes, seminars, webinars, workshops, and educational fairs not for entertainment or commercial purposes, to provide business education and training in the fields of artificial intelligence, big data, data management, data processing, data mapping, automation and digitalization; teaching business classes in the fields of artificial intelligence, big data, data management, data processing, data mapping, automation and digitalization; arranging and conducting of business educational courses in the fields of artificial intelligence, big data, data management, data processing, data mapping, automation and digitalization; professional business coaching services in the fields of artificial intelligence, big data, data management, data processing, data mapping, automation and digitalization

Class 42

(3) Information technology [IT] consulting services, namely consulting services related to the use and operation of automation software for automating business and industrial processes; development, design, installation, testing, and maintenance of software; integration of computer networks into multiple systems and networks, software engineering, software updating, software upgrading, and software development for other in the field of software configuration management; software consultancy; rental of computer hardware and software; software as a service (saas) services featuring business automation software for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of business processes; software as a service (saas) services featuring industrial automation software for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of industrial processes; platform as a service (paas) services featuring computer software automation platforms for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of business processes; platform as a service (paas) services featuring computer software automation platforms for the planning, managing, standardization, streamlining, testing, quality control, monitoring and optimization of industrial processes; software as a service (saas) services featuring software for managing, processing, collecting, storing, recording, structuring, planning, organizing and controlling data; platform as a service (paas) services featuring software platforms for managing, processing, collecting, storing, recording, structuring, planning, organizing and controlling data; software as a service (saas) services featuring business automation software related to artificial intelligence, machine learning, deep learning and deep neural networks; platform as a service (paas) services featuring business automation software related to artificial intelligence, machine learning, deep learning and deep neural networks; research and development of new products for others; product research and development services; engineering services, namely engineering of computer hardware and software; conducting technical project studies, namely, conducting of feasibility studies in the field of new technologies; management and conducting of technical projects, namely, projects related to the engineering of computer hardware and software; quality checking, namely evaluating and testing the functioning of consumer products of others; material testing

Class 07

(2) Power-operated, hydraulic, and pneumatic ground, rock, and surface stabilization machines in the nature of scarifiers and loaders being earth moving machines used in connection with mining, tunneling, excavation and construction; asphalt, grout, and cement mixing machines; deep hole

drilling machines; power drills bits; electric screwdrivers; pneumatic screwdrivers; mechanical and hydraulic presses for metalworking; bending machines for metalworking; cutting machines for metalworking; machines for injecting resin, grout and cement being machine tools for tunnel boring machines, machines for geological, mining and ore exploration , and concrete construction machines; electric, hydraulic and pneumatic machine tools for injecting resin, grout and cement being machine tools for tunnel boring machines, machines for geological, mining and ore exploration, and concrete construction machines; machines for treating resin, grout and cement, namely grout, cement, and concrete mixers, pumps being parts of machines, motors and engines, and batchers being concrete mixers; electric, hydraulic and pneumatic machine tools for treating resin, grout and cement, namely grout, cement, and concrete mixers, pumps being parts of machines, motors and engines, and batchers being concrete mixers; hydraulic pumps; electric pumps being parts of machines; pneumatic pumps; compressed air pumps; electric compressors; air compressors; electric generators; electricity generators; power-operated machines for installing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; electric, hydraulic and pneumatic machine tools for installing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; machines for insertion of rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; electric, hydraulic and pneumatic machine tools for insertion of rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; machines for affixing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; electric, hydraulic and pneumatic machine tools for affixing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes for use with machines for geological, mining and ore exploration and concrete construction machines in the fields of mining, tunnel construction, excavation, and building construction; mining anchor tensioning machines for tensioning rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes; electric, hydraulic and pneumatic machine tools for mining anchor tensioning machines for tensioning rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes; power-driven wrenches; power-operated spanners; structural parts and fittings for all the aforesaid goods; replacement parts and fittings for all the aforesaid goods; all the aforesaid goods for building, construction, structural engineering, civil engineering, mining, tunnelling, rock stabilization, ground stabilization, surface stabilization, rock support, ground support and surface support; none of the aforesaid goods for fastening prefabricated storage units;

Class 08

(3) Hand-operated tools for ground stabilization; hand-operated tools for rock stabilization; hand-operated tools for surface stabilization; hand-operated tools, namely, tools for mixing resin, grout and cement; hand drills, hand-operated; non-electric screwdrivers; hand-operated bending tools for metalworking; hand operated cutting tools for metalworking; hand-operated tools for injecting resin, grout and cement; hand operated tools for treating resin, grout and cement; hand tools, namely, hand-operated pumps for pumping well water; hand-operated tools for installing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes, namely, wrenches, pliers, hand clamps for woodworking, stoneworking, and metalworking, nut drivers, bolt cutters, and screw

wrenches; hand-operated tools for insertion of rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes, namely, wrenches, pliers, hand clamps for woodworking, stoneworking, and metalworking, nut drivers, bolt cutters, and screw wrenches; hand-operated tools in the nature of wrenches, pliers, hand clamps for woodworking, stoneworking, and metalworking all for affixing rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes; hand-operated tools in the nature of clamping bushings, wrenches, pliers, hand clamps for woodworking, stoneworking, and metalworking all for tensioning rods, bars, bolts, anchors, supports, rebar, screws, pipes and tubes; hand-operated wrenches; spanners; hand-operated hand tools, namely, T-thread nut drivers, nut runners and nut drivers; hand-operated hand tools, namely, bit drivers for hand tools; hand tools, namely, rock picks; hand-operated chisels; hand tools, namely, wrecking bars for scaling down loose rocks; structural parts and fittings for all the aforesaid goods; replacement parts and fittings for all the aforesaid goods; all the aforesaid goods for building, construction, structural engineering, civil engineering, mining, tunnelling, rock stabilization, ground stabilization, surface stabilization, rock support, ground support and surface support; none of the aforesaid goods for fastening prefabricated storage units;

Goods

Class 01

(1) Anti-freezing liquids; formaldehyde absorbing chemical agents for industrial use; formaldehyde removing chemical agents for industrial use; oil additives for automobile engines [chemical preparations]; chemical reagents sold as a kit, other than for medical or veterinary purposes, namely, absorbing carbons, formaldehyde absorbing chemical agents for industrial use, activated carbon, formaldehyde removing chemical agents for industrial use, chemical additives for use as binding agents for asphalt, concrete, masonry, textiles, furs, leather, non-wovens, and fabrics, chemical buffer solutions, anti-freeze chemicals, chemical additives for fuel, chemical additives for fuel treatment, chemical additives for gasoline, chemical additives for use with internal combustion engine fuels, chemical preparations for decarbonising engines, chemical preservatives for use as corrosion inhibitors on automobile exhaust systems, fuel injection cleaner chemical additives, octane booster fuel chemical additive, radiator flushing chemicals, oil-purifying chemicals, waste water treatment chemicals, water purifying chemicals, chemicals for treating hazardous waste, chemicals for the treatment of hot water systems, agricultural chemicals; chemical additives for use as binding agents for asphalt, concrete, masonry, textiles, furs, leather, non-wovens, and fabrics; chemical buffer solutions; anti-freeze chemicals; chemical additives for fuel; chemical additives for fuel treatment; chemical additives for gasoline; chemical additives for use with internal combustion engine fuels; chemical preparations for decarbonising engines; chemical preservatives for use as corrosion inhibitors on automobile exhaust systems; fuel injection cleaner chemical additives; octane booster fuel chemical additive; radiator flushing chemicals; oil-purifying chemicals; waste water treatment chemicals; water purifying chemicals; chemicals for treating hazardous waste; chemicals for the treatment of hot water systems; agricultural chemicals; brake oil for automobiles; transmission fluids for automobiles; adhesives for the automotive industry; non-metallic minerals, namely, sulphur, rock salt for de-icing, bauxite; chemical test paper;

unprocessed plastics; tire sealing compounds; plant growth regulating preparations; fertilizers; ceramic glazings; priming putty being oil cement; glazier's putty; higher fatty acids; chemical compositions for developing and printing photographs; artificial sweeteners; potato flour for industrial purposes; pulse flour for industrial purposes; tapioca flour for industrial purposes; wood flour for use as a filler in the manufacture of plastics; potato starch for industrial purposes; sago palm starch for industrial purposes; starch paste for industrial purposes; pulp, namely, sulphite pulp, groundwood pulp, cellulose pulp, bast pulp, rag pulp.

Class 04

(2) Mineral oils and greases for industrial purposes [not for fuel]; automotive engine oils; automotive gear oils; additives, non-chemical for motor-fuel; automotive lubricants; motor fuel; solid lubricants for industrial purposes; leather preserving oil and grease; non-mineral oils and greases for industrial purposes [not for fuel]; raw waxes; industrial wax; candles; grease for shoes and boots; lamp wicks.

Class 06

(3) Locks and hinges for automobiles; door locks for automobiles; door hinges for automobiles; trunk locks for automobiles; trunk hinges for automobiles; automobile hood locks; automobile hood hinges; metal hardware, namely, washers, nuts, bolts, keys for locks, locks of metal for vehicles; railings of metal; shutters of metal; metal materials for building and construction, namely, metal reinforcement materials for building, metal building board, metal building panels, metal pillars, metal partitions, metal slabs and tiles; metal pulleys, springs and valves, namely, metal hardware being springs and sash pulleys, metal valves for water pipes not being parts of machines; containers of metal for transport; loading and unloading pallets of metal; industrial load turntables; traversers for load handling being load transfer dowels; joinery fittings of metal; metal safes; metal junctions for pipes; metal flanges; iron and steel; prefabricated building assembly kits of metal for prefabricated garages of metal, prefabricated houses of metal, prefabricated warehouses of metal; metal molds for forming cement products; keys of metal; cotter pins; reservoirs of metal; wire rope; wire nets and gauzes; industrial packaging containers of metal; metal stepladders and ladders; outdoor blinds of metal; nonferrous metals and their alloys.

Class 07

(4) Water pumps for automobiles; water pumps for land vehicle engines; oil pumps for automobile engines; oil pumps for land vehicle engines; air filters for automobile engines; filters for internal combustion engine, namely, fuel filters, gas filters, oil filters, air filters; oil filters for internal combustion engine; filters for motors and engines, namely, fuel filters, gas filters, oil filters, air filters; pistons for automobile engines; fan couplings for automobile engines, namely machine couplings; cooling fans for automobile engines; cylinder heads for automobile engines; cylinder head covers for automobile engines; intake manifolds for automobile engines; crankcases for motors and engines; pistons [parts of machines or engines]; pistons for cylinders of automobile engines; gas engines for airplanes; gas engines for industrial machinery; gas turbines for jet engines; gas turbines for airplanes; non-electric prime movers not for land vehicles and parts thereof, namely, aeronautic engines, engines for industrial machinery; machine elements not for land vehicles, namely, ball transfer table units, turntable drive belts, shock absorbers for machines, clutches for industrial machinery, gear drives for industrial machinery, belts for machines; power generating devices for cogeneration systems, namely, electric power generators; gas engine driven power generators; starters for motors and engines; AC motors and DC motors for industrial machinery and parts therefor; AC generators [alternators]; DC generators; gas pumps; hydraulic pumps; compressed air pumps; pneumatic pumps; vacuum pumps; pneumatic and hydraulic machines and instruments, namely, pneumatic controls for industrial machinery, namely,

pneumatic conveyors, pneumatic actuators, pneumatic valve actuators, electric motors and engines for industrial machinery; sewing machines; parts and fittings for sewing machines; machines and apparatus for the textile industry, namely, textile washing machines for industrial purposes, textile bonding machines, ink jet printing machines for textiles; metalworking machines and tools using laser beam, namely, laser engraving machines, laser welding machines; laser welding machines; metalworking machines and machine tools for the metalworking industry; automatic machines for thermoforming and processing of plastics; extrusion machines for plastics; industrial robots for shaping plastic material; injection plastic molding machines; jet molding machines for processing plastics; machines for extruding plastics; machines for molding plastics; moulds being parts of machines for processing plastics; stone working machines; drilling machines for glass working; cutters for glass working; glassware manufacturing machines; glass cutting machines; glass polishing machines; industrial robots for working glass; milling machines and grinding machines for the treatment of ceramics; rubber processing machines; laser beam machines for manufacturing semi-conductors; electric opening and closing mechanisms for vehicle windows; electromechanical drive devices for opening and closing vehicle doors; door closers, electric; electric garage door openers and closers; electric window closers; electric window openers; pumps as parts of machines, engines and motors; fuel pumps for land vehicle engines; chemical processing machines and apparatus, namely, kneading machines for chemical processing, grinding machines for chemical processing, extracting machines for chemical processing; fuel dispensing machines for service stations; vehicle washing installations; waste compacting machines for industrial purposes; waste crushing machines for industrial purposes; shafts couplings, axles and spindles other than land vehicles being parts of machines; cam shafts; crank shafts; loom shafts; shafts for pumps; axles for industrial machinery; axles for machines; spindles being parts of machines; shaft bearings being parts of machines; shaft couplings and connectors [parts of machines]; bearings, as parts of machines; power transmissions and gearing for machines; idle pulleys being parts of machines; reduction gears being parts of machines; power transmission belts for industrial machinery; toothed wheels for industrial machinery; toothed gears for industrial machinery; speed change gears being parts of machines; fluid couplings being parts of machines; hydraulic torque converter [parts of machines]; transmissions for machines; shaft bearings being parts of machines; shaft bearings for land vehicles; shaft couplings and connectors; bearings for transmission shafts; engine bearings; AC generators [alternators], namely, starter alternators, synchronous alternating current generators; AC generators.

Class 09

(5) Measuring and testing machines and instruments, namely, accelerometers, aerometers, anemometers, barometers, clinometers, dynamometers, flowmeters, digital force gauges, gas meters, gas sensors, gasoline gauges, odometers, pressure gauges [manometers], sound level meters, speedometers, tachometers, temperature gauges, thermostats, tire pressure gauges, voltmeters, vehicle attitude control sensors for detecting various information on performance of automobiles, namely, vehicle orientation, velocity and altitude; measuring and testing machines and instruments, namely, ammeters; electronic locks for vehicles; electronic control devices for automobiles, namely, cruise controls for motor vehicles, electronic control systems for automobile brakes; computer operating programs; computer operating recorded programs; computer operating system software; embedded operating software; computer systems for vehicle safety and security for autonomous vehicles; driver systems for autonomous vehicles; navigation apparatus for vehicles in the form of on-board computers; software for GPS navigation systems; electronic machines, apparatus and their parts, namely barcode readers, blank smart cards, encoded magnetic cards, namely, credit cards, electronic gift cards, encoded debit cards, encoded charge cards, encoded key cards, encoded identity cards, interfaces for computers, namely,

interface cards for computers, network interface cards, integrated circuit cards, namely, integrated circuit [IC] memory cards, integrated circuit identification cards, blank integrated circuit cards, printed circuits and card readers for magnetically encoded cards, electronic card readers, magnetic coded card readers; navigation apparatus for automobiles, namely, car navigation computers, satellite navigation devices; automatic liquid-level, liquid-flow and pressure control valves and remote monitoring apparatus being wireless controllers for gas engine heat pumps; telecommunications machines and apparatus, namely, cellular telephones, smartphones, audio-video receivers, sound recording apparatus, namely, audio recorders and apparatus for transmission of communications, namely, radio transmitters, GPS transmitters, optical transmitters, and audio receivers, GPS receivers, optical receivers, radio receivers; solar cells; solar panels for the production of electricity; solar panels being solar battery panels; solar battery power generation devices; fuel cells; fuel-cell power generation devices; automotive batteries and battery chargers; electric controlling and regulating machines and apparatus for automobiles, namely, electronic regulating and control devices for the operation of light emitting diodes, control units for regulating start-up electrical motors, apparatus and instruments for distributing and regulating electric current in automobiles and electric control and regulating devices for automobile engines, motors and suspensions; electric batteries for vehicles; electric batteries for powering electric vehicles; general purpose batteries; cellular phone batteries; solar batteries, electric batteries and fuel batteries for vehicles; electric power distribution units; electrical power distribution blocks; power distributing boxes; power distribution panels; electric control panels; electric current control devices; power controllers for fuel cells; rotary converters; phase modifiers; electric and electronic video surveillance installations for security systems; security alarms for vehicles; security software for controlling access to vehicles and security systems installed in vehicles; motion sensors; security cameras; electronic motion sensitive switches; motion detectors; motion-activated cameras; fire alarms; gas alarms; anti-theft warning apparatus; theft alarms; anti-intrusion alarms; downloadable digital content in the form of electronic publications of booklets; downloadable digital content in the form of electronic publications of books; downloadable digital content in the form of electronic publications of magazines; downloadable digital content in the form of electronic publications of newsletters; downloadable electronic publications in the nature of catalogues; personal digital assistants; smart phones; Global Positioning System [GPS] navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; remote control apparatus, namely, electronic key fobs being remote control apparatus, remote control telemetering apparatus, electro-dynamic apparatus for the remote control of signals for global positioning systems; remote control starters for vehicles; automatic and remote controls for monitoring gas engine heat pumps; firmware for the automatic and remote control monitoring of gas engine heat pumps; security software for controlling access to vehicles and security systems installed in vehicles; recorded and downloadable computer software for operating internal combustion engines in vehicles; recorded and downloadable computer software for operating internal combustion engines and controlling car attitude, namely, navigation in vehicles; recorded and downloadable application software for operating internal combustion engines in vehicles; recorded and downloadable application software for operating internal combustion engines and controlling car attitude, namely, navigation in vehicles; electronic control apparatus for automobiles, namely, apparatus and instruments for distributing and regulating electric current in automobiles; electric control and regulating devices for automobile engines, motors and suspensions and parts thereof; electronic control systems for automobile brakes; electronic controllers for use with power converters; game programs for arcade video game machines; simulators for the steering and control of vehicles; laboratory apparatus and instruments, namely, laboratory robots; robotic arms for laboratory purposes; photographic machines and apparatus, namely, camera lenses, photographic lenses, slide projectors, photographic projectors, strobe

flash units, strobe lights, studio strobe flash; cinematographic machines and apparatus, namely, cinematographic cameras, cinematographic projectors, colour filters for television and cinematographic cameras, editing appliances for cinematographic films, editing machines for cinematographic films, exposed cinematographic film, projection screens for cinematographic films; optical machines and apparatus being optical sensors, optical tables, optical disk readers, optical shutters; electric and magnetic meters and testers, namely, electrical outlet testers, electrical voltage tester pens, electric meters, ammeters, ampere-hour meters, bidirectional meters for electricity monitoring, capacitance meters, charge meters, clamp meters for measuring electric current, electric current meters, electrical energy utilization meters, electricity meters, electronic distance meters, frequency meters, galvanometers, magnetometers, multimeters, electromagnetic frequency detectors; electric wires and cables; dust masks; gas masks; welding masks; game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; protective helmets for sports; sports whistles; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; electric and electronic effects units for musical instruments; phonographic records; downloadable music files; downloadable image files containing artwork, text, audio, video, games and Internet Web links relating to sporting and cultural activities; recorded video discs and video tapes featuring automobiles, beauty salon services, beauty therapy; exposed cinematographic films; exposed slide films; slide film mounts; power supply control panels and power regulating panels for use in power generating devices for cogeneration systems, namely, electrical power supply and distribution systems, namely power supply and distribution panels for use in cogeneration systems, electric control panels.

Class 11

(6) Bath installations for nursing care, not for medical purposes; bath fittings; toilet stool units with a washing water squirter; disinfectant dispensers for toilets; toilet bowls; seating for use with Japanese style toilet bowls; air-conditioning apparatus by gas engine heat pumps for industrial purposes, namely, air conditioners; air conditioners by gas engine heat pumps for industrial purposes; heat pumps; air conditioners and parts therefor thereof for industrial purposes; space heating and cooling apparatus, namely, electric heating fans, electric radiators for heating buildings, heating furnaces for industrial purposes, heating radiators, electric fans with evaporative cooling devices, evaporative air coolers, for industrial purposes and fittings therefor; air-conditioning apparatus by gas engine heat pumps for household purposes, namely, air conditioners; air conditioners by gas engine heat pumps for household purposes; air conditioners and parts thereof for household purposes; household electrothermic appliances, namely, coffee roasters, electric coffee percolators, electric coffee machines, toasters, electric pressure cookers, electric slow cookers, electric food steamers and kitchen stoves; air conditioners with hot water supply by means of cogeneration functions; hot water storage type hot water supplying apparatus using heat from gas engines for industrial purposes, namely, hot water heaters; gas hot water suppliers, namely, hot water heaters, for industrial purposes; gas engine heat pumps and their parts; boilers, not for parts for non-electric prime movers, and not for engines, namely, electric boilers, furnace boilers, heating boilers, industrial boilers; hot water storage type hot water supplying apparatus using heat from gas engines for household purposes, namely, hot water heaters; gas hot water suppliers being hot water heaters for household purposes; gas water heaters for household purposes; hot-air space heaters for household purposes; stoves for household purposes [non-electric]; toilet bowls and seats sold as a unit; prefabricated bathrooms sold as a unit, namely, shower and bath cubicles containing built-in toilet, sink, hand-held showers and flexible pipes being parts of shower plumbing installations, shower panels, shower bases and shower doors; prefabricated shower baths sold as a unit; facial moisturizing equipment using

ultrasonic waves for household purposes, namely, electronic facial steamers, facial saunas, facial steamers; nanoparticle water facial spray machines, namely, steam facial apparatus, electronic facial steamers and facial saunas, having fine water particle generating and infiltrating functions for home treatment; household electrothermic appliances for beauty or sanitary purposes, namely, facial steamers, hair steamers for beauty salon use, towel steamers for hairdressing purposes, facial saunas, hair sauna; electric refrigerators for household purposes; electric freezers for household purposes; electric cooking ovens for household purposes; air purifiers for automobiles; air purifiers for household purposes; commercial air purifiers; industrial air purifiers; facial moisturizing equipment using ultrasonic waves for industrial purposes, namely, facial steamers, facial saunas; nanoparticle water facial spray machines, namely, steam facial apparatus, electronic facial steamers and facial saunas, having fine water particle generating and infiltrating functions for commercial use; towel steamers for hairdressing purposes; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins for barber's shop use; hair dryers; hand dryers; steam generating installations; fine water particle generating and infiltrating device, namely, facial steamers, hair steamers for beauty salon use, towel steamers for hairdressing purposes, facial saunas, hair sauna; cryosauna installations; sauna bath installations; sauna baths; sanitary devices, namely, sanitary installations in the nature of steam rooms, urinals being sanitary fixtures, spigots for pipes and pipelines; evaporators for chemical processing; distillers for chemical processing; drying apparatus for chemical processing, namely, chemical fiber drying machines, evaporators for chemical processing; recuperators for chemical processing; steamers for chemical processing, namely, steam boilers, other than parts of machines; air conditioners for household purposes; vehicle-mounted air conditioners with installed fine water particle generating and infiltrating devices; air conditioners for automobiles; air conditioners for industrial purposes; ventilation installations, namely, ventilation fans for commercial and industrial use, ventilation units for commercial food preparation and servicing, heat recovery ventilators, energy recovery ventilators; hot water heating installations, namely, hot water boilers, hot water heaters, hot water tanks; freezing machines and apparatus for industrial purposes, namely, freezers, cryogenic freezers, laboratory freezers, freeze drying equipment, namely, lyophilizers; laundry dryers, electric, for industrial purposes; cooking apparatus and installations for commercial use, namely, electric cooktops, gas cooktops, microwave ovens, gas cooking ovens; dish drying machines for commercial use; dish disinfectant apparatus for commercial use, namely, dish drying machines for restaurants, dish sterilizers; kitchen sinks for use with kitchen worktops for commercial use; kitchen sinks for commercial use; cooking apparatus and installations for household use, namely, electric cooktops, gas cooktops, microwave ovens, gas cooking ovens; solar water heaters; apparatus for purifying industrial water; commercial lighting fixtures; electric lighting fixtures; electric track lighting units; fluorescent lighting fixtures; indoor lighting fixtures; industrial lighting fixtures; led lighting fixtures; lighting fixtures; outdoor lighting fixtures; non-electric cooking heaters for household purposes, namely, gas powered cooking grills and gas cooking ovens for household purposes; kitchen sinks for use with kitchen worktops for household purposes; kitchen sinks for household purposes; household tap-water filters, non-electric; feed water heaters with cogeneration function for non-electric prime movers and engines, namely, feed water heaters for industrial purposes; feed water heaters for non-electric prime movers and engines, namely, feed water heaters for industrial purposes; electric steam facial treatment machines and devices for industrial purposes, namely, facial steamers, facial saunas.

Class 12

(7) Non-electric prime movers for land vehicles other than parts, namely, engine for land vehicles, jet engines for land vehicles, gas turbines for land vehicles, air turbines for land vehicles, steam turbines for land vehicles, hydraulic turbines for land vehicles; automobile engines; wheelchairs

and mobility scooters for the physically handicapped and those of reduced mobility; automobiles for the physically handicapped and those of reduced mobility; automobiles and their structural parts, namely, air bags for automobiles, anti-lock braking systems [ABS] for automobiles, automotive parts, namely, transmission seals, brakes for automobiles, bumpers for automobiles, tires; two-wheeled motor vehicles, namely, bariatric mobility scooters, electric scooters, motor scooters, non-motorized scooters, motorcycles, and electric bicycles and their structural parts, namely, motorcycle parts, namely, brackets for mounting motorcycle saddlebags to motorcycles, parts of motorcycles, namely, headlight mounts, structural parts for motorcycles, handle bar grips for scooters; self-propelled electric cars, self-propelled electric scooters and self-propelled electric wheel chairs; electrically operated personal mobility scooters and automobiles; electric vehicles, namely, electrically powered motor vehicles, electrically powered motor scooters, electric wheel chairs; golf cars and electric cars; wheelchairs for nursing care; electric wheelchairs; wheelchairs and their structural parts; rickshaws; sleighs, namely, bob sleighs and snow sleighs and sleds being vehicles for transport purposes not being sports articles; hand trucks; horse drawn carriages; motorized luggage carts; shopping carts; handling carts; hospital carts; bicycle trailers; machine elements for land vehicles, namely, friction clutches for land vehicles, hydraulic clutches for land vehicles, jaw clutches for land vehicles, power clutches for land vehicles, couplings for land vehicles, driving chains for land vehicles, gear boxes for land vehicles, automatic gear boxes for land vehicles, differential gears for land vehicles, drive gears for land vehicles, reduction gears for land vehicles, torque converters for land vehicles, transmissions for land vehicles, transmission shafts for land vehicles, crankcases for land vehicle components other than for engines, air turbines for land vehicles, gas turbines for land vehicles, hydraulic turbines for land vehicles, steam turbines for land vehicles, connecting rods for land vehicles, other than parts of motors and engines; anti-theft alarms for vehicles; security alarms for automobiles; electrical anti-theft installations for vehicles; anti-theft locks for use on automobile steering wheels; AC motors and DC motors for land vehicles; adhesives rubber patches for repairing tubes or tires; baby carriages [prams]; traction engine; ropeways for cargo or freight handling; parachutes; diving support vessels; electric steering gears for vessels; hatch covers for vessels; platform supply vessels; portholes for vessels; rudders for vessels; sailing vessels; screw propellers for vessels; steering gears and rudders for vessels; steering wheels for vessels; vessels in the form of boats and ships; aircraft and their structural parts; railway rolling stock and their structural parts; cargo tricycles; motorized tricycles; motorcycle trike conversion kits for converting a two-wheeled motorcycle into a three-wheeled motorcycle; electric tricycles; transmission shafts and cardan shafts for land vehicles; axles and spindles for land vehicles; shaft couplings and connectors for land vehicles; transmissions for land vehicles; automatic gear boxes for land vehicles; differential gears for land vehicles; drive gears for land vehicles; gear assemblies for land vehicles; gear wheels for land vehicles; reduction gears for land vehicles; reversing gears for land vehicles; speed change gears for land vehicles; power transmissions and drive gearing for land vehicles; idling pulleys for land vehicles; idling pulleys for land vehicles; reduction gears for land vehicles; transmission belts for land vehicles; power transmission belts for land vehicles; toothed wheels and drive gears for land vehicles; speed change gears for land vehicles; fluid couplings for land vehicles; hydraulic torque converter; hydraulic torque converters for land vehicles; transmissions for land vehicles; transmissions for hybrid cars; drive units being driving motors for hybrid cars; drive units being driving motors for electric vehicles.

Class 20

(8) Furniture, namely, beds, bed base, bath room furniture, bedroom furniture, living room furniture, mattresses; electronic equipment racks, namely, display racks; CD storage racks being furniture; modular racks adapted for the storage of DVDs; personal computer racks; audio racks,

namely, display racks, moveable metal storage racks; audio equipment racks, namely, display racks, moveable metal storage racks; storage racks; furniture racks, namely, tie racks, luggage racks being furniture, storage racks to hold vehicle mats, freestanding tool racks, wall-mounted gun racks.

Services

Class 35

(1) Referral of healthcare workers, housekeepers, welfare workers and nurse; employment agencies; placement and recruitment of staff; staff placement services and information and consulting services relating thereto; reception for visitors in buildings in the nature of secretarial services; retail services and wholesale services connected with sewing machines; business intermediary services in the field of sales of beds and furniture; business intermediary services relating to sewing machine sales; promoting the goods of others by providing information regarding discounts and special offers for the goods of others; consultancy relating to sales promotions; advisory and information services for consumers relating to purchasing products in the field of automobiles, building construction, textile and arts and crafts, health care equipment, nursing care equipment, bedroom furniture, weight loss and physical fitness; management and compilation of computerised databases; systemization of information into computer databases; advisory and consultancy services in the field of management and compilation of computerised databases; advisory and consultancy services in the field of systemization of information into computer databases; updating and maintenance of data in computer databases; data search in computer files for others, namely, analysis of market research data and statistics, business management services relating to information and data compiling and analyzing, market research by means of a computer database; search engine optimization services; providing and rental of advertising space using communication networks; advertising the goods and services of others; publicity agency services; publicity material rental, namely, exhibition stands and booths, advertising space; sponsorship search and consultancy services thereof; business consulting services for digital transformation; business consultancy in the field of creation and development of software relating to Information Technology; business consultancy in the field of introducing Information Technology to an organization; business consultancy being business incubation services; business management analysis; marketing research and analysis; promoting and managing the sale of goods and services in the field of automobiles of others, and consultancy therefor; management of loyalty rewards card, trading stamps and coupons; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; provision of consumer information and advice regarding the selection of products and items to be purchased in the field of automobiles; advisory and information services for consumers relating a selection of products and services in the field of automobiles, building construction, textile and arts and crafts, health care equipment, nursing care equipment, bedroom furniture, weight loss and physical fitness; referral of information technology engineers; temporary employment agency services; employment agency services; employment counselling and recruiting; employment recruiting consultancy; providing business information in employment opportunities to needy persons; providing employment counseling services; providing information relating to employment recruitment; Providing employment information, namely, providing information relating to job openings, job responsibilities, job related benefits and compensation, and qualifications and employment history for job candidates; data processing in field of serial publications; data processing services in the field of payroll; statistical evaluation of data from market studies; systemization of data into computer databases; updating and maintenance of data in computer databases; computer data entry services; collection of business data and information stored in computer databases, namely, market research information, customer contract information and

website traffic statistics; office functions in the nature of filing documents; secretarial and clerical services; photocopying services; personnel recruitment; accounting; book-keeping; business administration services; office administration; personnel management; clerical services; providing office functions being business process management in operation of computer system and providing information thereof; providing process management in operation of computer system and providing information thereof, namely, business process management; providing business assistance to others in the operation of data processing apparatus namely, computers, typewriters, telex machines and other similar office machines; news clipping services; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of computer software; online retail department store services and online wholesale store services in connection with the sale of clothing, foods and beverages, housewares and kitchenwares; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of woven fabrics and beddings; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of cushions and blankets; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of clothing; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of footwear and shoeboxes; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of bags and pouches; online retail department store services and online wholesale store services in connection with the sale of personal articles, namely, woven textile fabrics for personal use, hand held flat fans, hand-held folding fans, waistbands, belts being clothing, personal ornaments being jewellery, badges for wear not of precious metal, brooches for clothing, ornamental adhesive patches for jackets, brassards, hair ornaments, cuff links, vanity cases not fitted, cosmetic utensils, umbrellas and their parts, walking sticks, canes, metal parts of canes and walking-sticks and handles for canes and walking-sticks; on-line retail department store services and online wholesale store services in connection with the sale of decorative pins, lapel pins, pin badges of precious metal, decorative pin badges of tin; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of foods and beverages; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of automobiles and their parts; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of cushions, mattresses and headrests as automobile interior equipment; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of furniture; online retail department store services and online wholesale store services in connection with the sale of joinery fittings of metal; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of tatami mats; online retail department store services and online wholesale store services in connection with the sale of ritual flower stands, ritual flower vases; online retail department store services and online wholesale store services in connection with the sale of electrical machinery apparatus, namely, kitchenware and housewares; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of cases and straps for smartphones and mobile phones; online retail department store services and online wholesale store services in connection with the sale of commercial lighting fixtures, electric lighting fixtures, electric track lighting units, fluorescent lighting fixtures, indoor lighting fixtures, industrial lighting fixtures, led lighting fixtures, lighting fixtures, outdoor lighting fixtures; online retail department store services and online wholesale store services in connection with the sale of accelerometers, aerometers, anemometers, barometers, clinometers, dynamometers, flowmeters, digital force gauges, gas meters, gas sensors, gasoline gauges, odometers, pressure gauges [manometers], sound level meters, speedometers, tachometers, temperature gauges, thermostats, tire pressure gauges, voltmeters, vehicle attitude control sensors for detecting various information on performance of automobiles,

namely, vehicle orientation, velocity and altitude, measuring and testing machines and instruments for detecting information about the performance of automobiles, measuring and testing machines and instruments, namely, ammeters; online retail department store services and online wholesale store services in connection with the sale of medical apparatus and instruments, namely, electric lift chairs for nursing care, sleep analyzers for medical purposes, medical beds, quad canes for medical purposes, walking frames for disabled persons, appliances for washing body cavities, stretchers for nursing care to help disabled persons to bath, air cushions for medical purposes, air pillows for medical purposes, hydrostatic beds for medical purposes, ear plugs for sleeping, ear plugs for protection against noise, urinals for medical purposes, plug-in bedpan for invalids, pacifier clips, ice bag pillows for medical purposes, triangular bandages, supportive bandages, surgical catgut, feeding cups for medical purposes, dropping pipettes for medical purposes, feeding bottle teats, medical ice bags, medical ice bag holders, baby bottles, nursing bottles, finger guards for medical purposes, massage beds for medical purposes; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of security lighting apparatus, security alarms, portable security alarms, security apparatus and instruments other than for vehicles, security monitoring apparatus and their parts, security and alarming apparatus and their parts, crime and disaster prevention monitoring and alarming apparatus; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of bladed or pointed hand tools, hand tools and metal hardware; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of kitchen equipment, household cleaning tools and household washing utensils; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of portable water tanks; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of pharmaceutical, veterinary and sanitary preparations and medical supplies; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of cosmetics, toiletries, dentifrices, soaps and detergents; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of decorative stickers for body or face; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of agricultural machines, implements and supplies; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of flowers [natural] and trees; online retail department store services and online wholesale store services in connection with the sale of printed matter, namely, art prints, printed advertising boards of paper, printed booklets, printed brochures, printed calendars, printed decorative paper, printed flyers, printed invitations, printed manuals, printed newsletters, printed pamphlets, printed paper signs; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of paper and stationery; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of straps or clips with reel for card or ticket holders; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of sports articles and equipment; online retail department store services and online wholesale store services in connection with the sale of toys, dolls, game machines, hand-held video game apparatus, screensticks for video games, steering wheels for video games, video game controllers; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of headbands, megaphones and toys for cheering up; online retail department store services and online wholesale store services in connection with the sale of photographic machines and apparatus, namely photographic cameras for the instant production of pictures, photographic digital cameras, photographic exposure meters, photographic filters, photographic flashbulbs, photographic projectors and photographic supplies; online retail department store services and online wholesale store services in connection with the sale of opera glasses and optical machines

and apparatus, namely, optical amplifiers, optical frames, optical microscopes for industrial purposes, optical spectacles, telescopes, magnifying glasses; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of clocks, watches and spectacles [eyeglasses and goggles]; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of key rings; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of decorative magnets; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of photographs [printed], portraits, photograph stands and photograph frames; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of floor coverings; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of toilet paper holders and tissue paper case covers of cloth; retail services and wholesale services, namely, online retail and wholesale services in connection with the sale of plastic bottle holders; business management and administration; business intermediary services for sales contracts of a variety of goods being distributorship services in the field of a variety of consumer goods; mediation of contracts for purchase and sale of products; negotiation of business contracts for others; consultancy and advisory services relating to procurement of contracts for the purchase and sale of goods; procurement services for others purchasing goods and services for other businesses associated with automobiles and air conditioners; outsourcing services in the nature of arranging procurement of goods for others; procurement of contracts for the purchase and sale of goods and services; preparation of financial statements; auctioneering; import-export agency services; arranging newspaper subscriptions for others; shorthand; stenographic, message, conference call transcription; stenographic transcription; telephone voice message transcription services; transcription of messages; conference call transcription services; phonetic transcription; document reproduction; rental of typewriters, copying machines and word processors; rental of vending machines; dissemination of advertising matter for others by means of personal digital assistants, smartphones and navigation apparatus for vehicles, namely, on-board computers; business management of car parking facilities.

Class 39

(2) Taxi transport; truck transport; vehicle towing services; rickshaw transport services; pedicab transport services; vehicle-driving services; chauffeur services; rental of chauffeur driven cars; vehicle rental; rental of wheelchairs; rental of electric wheelchairs; rental of wheelchairs for nursing care; rental of walking aid vehicles, namely, walking frames for disabled persons, wheeled walkers to aid mobility, mobility scooters; parking services being parking lot services, reservation of parking spaces, parking garage services; rental of parking places; electric power distribution for others; consultancy services relating to the distribution of electricity; public utility services in the form of electricity distribution; heat distribution for others, namely, distribution of electrical energy to residential and commercial users; warehouse storage services; leasing of storage space; luggage storage; providing storage facilities for others; storage of clothing; storage of furniture; warehousing services of deposited automobiles; domestic and industrial waste transport services by cars; domestic and industrial waste transport services by means of cars; car transport services via computer networks; providing information via the Internet relating to car transport; car allocation services, namely, dispatch of vehicles, booking and reservation of vehicles; car traffic control services; air transportation of passengers and goods; car transport; cargo ship transport; passenger ship transport; railway transportation of goods; supply chain logistics and reverse logistics services consisting of the transportation of goods for others by air, rail, ship or truck; taxi transport; providing transport information via a web site, namely, bus schedule, traffic information, driving directions for travel purposes; booking of transportation via a web site, namely, booking

agency services for car rental, booking of rail tickets, booking of seats for travel, booking of tickets for air travel, booking of travel through tourist offices, booking of taxi services; freight brokerage; freight transportation brokerage; railway transport; car transport; boat transport; chartering of boats; ferry-boat transport; freight transportation by boat; pleasure boat transport; cargo ship transport; passenger ship transport; transportation of goods by ship; passenger air transport; transportation of goods by air; car rental; rental of barges; rental of boats; aircraft rental; rental of wheelchairs; rental of bicycles; distribution of electrical energy and natural gas to residential and commercial users; distribution of hydrogen gas to residential and commercial users; filling of gas tanks; public utility services in the form of natural gas distribution; public utility services in the form of electricity distribution; heat distribution for others; warehousing services; rental of self-service storage facilities; rental of storage containers; rental of storage lockers; temporary storage of keys; warehouse storage services; boat storage; luggage storage; temporary storage of deliveries; freight brokerage; ship brokerage; conducting of travel tours; escorting of travel tours; travel arrangement and reservation services, excluding those for lodging; delivery of goods by air; delivery of goods by courier; delivery of goods by mail order; delivery of goods by rail; delivery of goods by truck; delivery of parcels by courier; express delivery of goods by truck; parcel delivery; wrapping and packaging of goods; packaging of cargo; providing road and traffic information; vehicle driving services; booking agency services for vehicle driving; rental car reservation services; booking agency services of rental cars; operating parking lots and providing information therefor; travel arrangement services; car allocation services by means of personal digital assistants, smartphones and navigation apparatus for vehicles [on-board computers], namely, dispatch of vehicles, booking and reservation of vehicles by means of personal digital assistants, smartphones and navigation apparatus for vehicles [on-board computers] and providing information therefor; car traffic control services by means of personal digital assistants and navigation apparatus for vehicles [on-board computers], and providing information therefor; car transport of documents and parcels; rental of forklift trucks; rental of cargo loading-unloading machines, loading dock levelers, robotic arms for loading and off-road vehicles for transporting loads; rental of warehouse space; packaging of goods; cargo loading services; freight loading services; harbour crane unloading; loading and unloading of cargo; delivery of letters by mail; delivery of mail by courier; transportation of pets for others; taxi transport; truck transport; vehicle towing services; rickshaw transport services; pedicab transport services; air transportation of passengers and goods; car transport; cargo ship transport; passenger ship transport; railway transportation of goods; supply chain logistics and reverse logistics services consisting of the transportation of goods for others by air, rail, ship or truck; taxi transport; boat transport; chartering of boats; ferry-boat transport; freight transportation by boat; pleasure boat transport; cargo ship transport; passenger ship transport; transportation of goods by ship; passenger air transport; transportation of goods by air.

(3) Car transport of documents and parcels; rental of forklift trucks; rental of loading-unloading machines and apparatus; rental of warehouse space; packaging services being co-packing services in the nature of merchandise packaging for others, bottling services packaging; loading and unloading of goods.

(4) Car transport of documents and parcels; rental of forklift trucks; rental of warehouse space; delivery of letters by mail; delivery of mail by courier.

Class 42

(5) Material testing services; vehicle roadworthiness testing; testing and research on automobiles and their parts; testing and research services relating to medical equipment; testing and research of new products for others; testing and research on machines, apparatus and instruments in the field of consumer product safety testing services; testing of new products for others; testing,

inspection and research of computer systems being computer software, computer hardware, computer programs; providing quality control of automobile parts; providing quality control in the field of health care equipment; providing quality control in the field of nursing care equipment; providing quality control in the field of bedroom furniture; research and development of new products for others; providing information in the field of testing new products for others; planning and design of automobile test driving courses and testing facilities; design and development of nursing care equipment; design of fuel cells; design of new products for others; scientific and technological design of new products for others; furniture and interior decoration design; bedding design; rental of computers and computer software; cloud computing providing software for database management; Software as a service provider featuring application software for use in product design and development, namely, computer design and development; providing temporary use of online non-downloadable computer programs for use in database management; providing temporary use of online non-downloadable computer programs for use in product design and development, namely, computer design and development; providing temporary use of online non-downloadable computer software for use in database management; providing temporary use of online non-downloadable computer software for use in product design and development, namely, computer design and development; providing temporary use of online non-downloadable computer application software for use in database management; providing temporary use of online non-downloadable computer application software for use in product design and development, namely, computer design and development; cloud computing featuring software for use in database management; cloud computing featuring software for use in product design and development, namely, computer design and development; software as a service (SaaS) featuring software for use in database management; software as a service (SaaS) featuring software for use in product design and development, namely, computer design and development; technological advice relating to computers, automobiles and industrial machines, namely, automotive design and industrial machine design; advice on designing, selecting, and using computer hardware and systems; advice relating to the design of computer hardware; advice relating to the design of computer software; advice relating to the design of computer systems; advisory services in the field of cloud computing networks and applications; providing technological information for environmentally-conscious and green inventions in the field of biofuels; providing technological information for environmentally-conscious and green inventions in the field of solar powered vehicles; technological advice relating to performance and operation of industrial manufacturing machines, namely, in the field of quality control testing services for industrial machinery; computer software design, computer programming, and maintenance of computer software, and consultancy and providing information therefor; creating and maintaining web sites for others; monitoring of computer systems by remote access, and providing information therefor; design and development of computer software and computer systems and consultancy services relating thereto; data encryption services; Internet security consultancy; providing search engines for the Internet; providing temporary use of online non-downloadable computer software relating to GPS navigation systems via the Internet for navigation purposes; rental of web servers; testing, inspection and research services of computer systems being computer software, computer hardware, computer programs; research and development services relating to computer hardware and software; consultancy relating to design of computer communication networks; computer design, and consultancy and providing information therefor; designing of industrial manufacturing machines, their parts and operating systems, namely, design of automated machinery for use in the industrial sector and industrial design; operating system software design; creating instruction manuals relating to computer software; computer consultation in the field of computer security; computer hardware and software consulting services; computer network security consultancy; computer programming consultancy; computer technology consultancy services; consultancy in the design

and development of computer hardware; consultancy in the field of computer system analysis; consultancy relating to computer database programs; consultancy relating to the recovery of computer data; consultancy relating to the updating of computer software; consulting in the field of cloud computing networks and applications; consulting in the field of configuration management for computer hardware and software; consulting services in the field of office and workplace automation; internet security consultancy; multimedia and audio-visual software consulting services; cartography services; architectural design; architecture surveying; engineering surveying services; geological surveying; marine, aerial and land surveying; surveying of road condition; technical surveying; topographic surveying; scientific research in the field of health care equipment; scientific research in the field of consumer product safety; design and development of navigation systems; design of maps; providing meteorological information; geological research services; testing inspection and research of pharmaceuticals, cosmetics and foodstuffs; research on building construction; research on city planning; research on construction project engineering; testing and research in the field of prevention of pollution; testing and research in the field of electricity usage, electricity distribution, electricity generation, electricity storage and electricity conversion; testing and research in the field of civil engineering; testing, inspection and research in the fields of agriculture, livestock breeding and fisheries; rental of measuring apparatus, namely, accelerometers, aerometers, anemometers, barometers, clinometers, dynamometers, flowmeters, digital force gauges, gas meters, gas sensors, gasoline gauges, odometers, pressure gauges [manometers], sound level meters, speedometers, tachometers, temperature gauges, thermostats, tire pressure gauges, voltmeters, vehicle attitude control sensors for detecting various information on performance of automobiles, namely, vehicle orientation, velocity and altitude, measuring and testing machines and instruments for detecting information about the performance of automobiles, measuring and testing machines and instruments, namely, ammeters; rental of laboratory instruments; rental of laboratory robots for laboratory testing; rental of meters for the recording of energy consumption; rental of microscopes for scientific research purposes; rental of technical drawing instruments.

Services

Class 35

(1) Business feasibility studies; business strategic planning; business management planning; profit survey and analysis services, namely preliminary profitability analysis; business project management services for construction and engineering projects; conducting marketing studies and financial auditing, business performance benchmarking, economic analysis; business management consultancy as well as development of processes for the analysis and the implementation of strategy plans and management projects; business project management; business process reengineering services; Business management in the fields of engineering, procurement, and construction; Administrative assistance in responding to calls for tenders; consultancy services relating to the monitoring of procurement of goods and services; Procurement services in the form of purchasing electric supplies and materials; Negotiation of business contracts for others; business organization and operation consultancy; business risk assessment services; business risk management services; business auditing; carbon market analysis.

Class 36

(2) Financial asset management; financial analyses; estimating construction costs and arranging finance for construction and engineering projects; consultancy services in relation to the financing of civil works and infrastructure projects; financial due diligence and assessment; assessment of real estate.

Class 37

(3) Building construction supervision; installation and maintenance of electrical distribution and emergency systems; construction, repair and maintenance of wind and hydroelectric power plants; wind and hydroelectric power plant rehabilitation services; plumbing and heating equipment installation and repair; installation and repair of industrial ventilation, air conditioning and humidification equipment; installation and repair of compressed air production system and vacuum pump, dust extraction and filtration of air and water equipment namely, air and water filters; Installation of industrial process furnaces, electrical and thermal systems; electrical substation construction; electrical contracting services; repair and maintenance of wind power plants; mining services; mine closure services, namely decommissioning and reclamation services; mine restoration services.

Class 40

(4) Water recycling; waste water treatment services; water and sewer management; mine waste management namely, destruction of hazardous waste; hazardous waste management namely, destruction of hazardous waste; generation of gas and electricity; production of energy; destruction of waste; petroleum refining, gas processing and gas treating; decontamination of soil; decontamination of hazardous materials; mineral processing.

Class 41

(5) Training in the field of electrical engineering; training in the field of mining engineering; training in the field of chemical engineering, training in the field of civil engineering; training in the field of structural engineering, training in the field geological engineering; training in the field of automation and software engineering; training in the field of mechanical engineering; training in the field of project management; training in the field of environmental design and sustainability; training in the field of metallurgical engineering; training in the field of telecommunication namely, communication development; training in the field of cybersecurity; training in the field of geotechnical engineering; training in the field of digital transformation of businesses; training in the field of asset management.

Class 42

(6) Engineering, namely electrical engineering, chemical engineering, mechanical engineering, environmental engineering, civil engineering, geotechnical engineering, sanitary engineering, hydraulic engineering, mining engineering, metallurgical engineering, telecommunications software and hardware engineering, automation engineering; cybersecurity engineering services, Software engineering services in the field of digital transformation, structural engineering, geotechnical engineering; geological engineering; rock mechanic engineering; computer software engineering; engineering project management services in the field of mining industry; water resources engineering; power engineering; acoustical engineering; thermal engineering; Energy engineering; Building engineering; industrial engineering; railway engineering; conducting feasibility studies; consulting in the field of alternative energy generation, storage, transmission and distribution; consulting in the field of mining engineering and surveying and metallurgy, electrical engineering, digital transformation, oil and gas, petrochemicals, biofuels, carbon capture, pulp and paper, agricultural chemistry, data centres and environmental science; computer software project management; project management and technical coordination for geotechnical engineering and

environmental engineering projects; energy audit services; conducting electrical safety audits; testing of apparatus in the field of electrical engineering namely, electric circuit boards, electrical power sources, electrical control panels; technical consulting services in the field of alternative energy generation; design in the field of electrical engineering; maintenance assessment of the performance and reliability of electrical systems namely, electric circuit boards, electrical power sources, electrical control panels and water and hydroelectric power plants; industrial design; water and hydroelectric power plant and power stations design; hydraulic turbine design; remote monitoring of the functioning and use of electrical equipment namely, industrial machinery; testing and evaluation of electrical equipment namely, industrial machinery; materials testing and evaluation; laboratory testing of materials; design of models for electrical engineering, chemical engineering, mechanical engineering, environmental engineering, civil engineering, geotechnical engineering, sanitary engineering, hydraulic engineering, mining engineering, metallurgical engineering, telecommunications software and hardware engineering, automation engineering and hydraulic modeling; geological prospecting; geological surveying; technical supervision and inspection in the field of geological mining; technical assistance and studies in the field of mining engineering; mineral exploration services; mining surveying; environmental monitoring measures in the field of mining; maintenance assessment of the performance and reliability of mining equipment; technical consulting and research in the field of geology and hydrology; water quality control services; hydrological research; dam safety auditing and inspections; planning and management of bench and pilot tests in the field of metallurgy; consulting and technical assistance in the field of metallurgy and mineral processing engineering; design in the field of mechanical engineering; design and modelling in the field of mechanical engineering; design of computer-simulated models; Mechanical testing of materials; technical supervision and inspection in the field of mechanical engineering namely compliance inspection and equipment certification; consulting in the field of energy efficiency and power optimization; audit and technical expertise of thermal systems namely, conducting energy audits and providing technical support of heating systems for others; civil engineering drawing services; engineering surveying services; urban planning; construction planning; software design and development; industrial analysis of the performance of computer software systems; design, configuration and administration of computer networks; computer systems and network integration services; computer network security services; installation, maintenance and repair of software for computer systems; providing quality assurance in the field of computer software; installation and configuration of hardware infrastructures namely, computer hardware; cloud computing provider services for general storage of data; providing virtual computer systems and virtual computer environments through cloud computing; technical support in the nature of troubleshooting to diagnose computer hardware and software problems; implementation of computer hardware and software systems for others in the form of control rooms and server rooms ; Computer Systems risks and vulnerability assessment; maintenance of computer software relating to computer security and prevention of computer risks; consulting services in the field of design, selection, implementation and use of computer hardware and software systems; environmental impact assessment and risk analysis; greenhouse gas emission measuring and analysis; installation and programming of facilities management hardware and software to control environmental authorizations; provision of consultancy in relation to carbon offsetting, namely transaction of carbon credits; air quality control and improvement services; soil analysis; analysis of stream water quality; technical consulting in the field of pollution detection; soil sampling for analysis purposes; measurement evaluations in the field of olfactometry; consulting in the field of acoustics, sound, noise, and vibration for scientific purposes; geomatics and spatial analysis services; cartography services; technical management services, namely provision of management services in the integration of supervision and remote information management systems; consulting in the field of petroleum; process engineering services, namely

petroleum process design, gas processing and treating design, design of hydrocarbon processes, design of water treatment processes; water characterization services namely, analysis of water characterization to measure biological and environmental data for scientific purposes.

Class 45

(7) Regulatory compliance namely reviewing standards and practices to assure compliance with regulations; inspection of factories for safety purposes; accident investigation.

Goods

Class 06

(1) Metal hardware, namely, metal fixing materials in the nature of general use metallic closures and mounts for bottles, containers, furniture, bags, suitcases, purses, wallets, backpacks, school knapsacks, rucksacks, helmets, bicycle helmets, helmets for motorcyclists having a latching or an engaging element from metal or plastic and optionally having a magnet; metal support and fixing devices for attaching objects to walls and ceilings; nuts, bolts and fasteners, of metal; couplings of metal for tubing; metal connectors and metal connector parts for hoses or tubes; clips of metal for sealing bags; locks and keys, of metal; containers of metal for storage, transport and packaging; closures of metal for bottles, containers, furniture, bags, suitcases, purses, wallets, backpacks, school knapsacks, rucksacks, helmets, bicycle helmets, helmets for motorcyclists; closures of metal for containers.

Class 07

(2) Power tools and fasteners for power tools.

Class 08

(3) Cutlery, and food preparation implements being kitchen knives, cutting and grinding implements, and parts for the aforesaid goods in the nature of adapted safety lines for securing, fastening or attaching the aforesaid goods ; hand-operated tools and implements, namely hand tools, for treatment of materials, and for construction, repair and maintenance, and parts for the aforesaid goods in the nature of adapted safety lines for securing, fastening or attaching the aforesaid goods; emergency and rescue hand tools, and parts for the aforesaid goods in the nature of adapted safety lines for securing, fastening or attaching the aforesaid goods; tool belts.

Class 09

(4) Information technology and audio-visual, multimedia and photographic devices, in particular smartphones and covers for smartphones and wearables, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; cables for electricity, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical

plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; apparatus and instruments for electricity, namely chargers for electric accumulators, electric connectors, electric wires, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; apparatus and instruments for accumulating and storing electricity, namely, electric accumulators being electrical storage batteries, electric accumulators for vehicles, electric batteries for vehicles, chargers for electric accumulators, battery jars, battery cases, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; safety and protection devices, namely, inflatable personal flotation aids, safety goggles, safety helmets, sports helmets, helmets for bicycles, helmets for motorcyclists, goggles for sports, safety nets for protection against accidents, clothing for protection against accidents and irradiation and fire, shoes for protection against accidents and irradiation and fire, insulated clothing for protection against accident or injury, beekeeping clothing for protection against accident or injury, protective footwear for the prevention of accident or injury, protective face masks for protection against accident or injury, respiratory masks for the prevention of accident or injury, reflective and illuminated clothing for the prevention of accidents, rearview cameras for vehicles, video baby monitors, reflective safety vests, water ski safety vests, safety glasses, safety life jackets, safety life jackets for dogs, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; life jackets, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; diving equipment, namely, weight belts for divers, diving goggles, diving gloves, diving snorkels, diving helmets, diving shoes for protection against accidents or injury, diving suits, face mask for diving, diving heel straps, diving boots and underwater diving and decompression computers, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs; measuring instruments, namely, measuring tapes, measuring rules, and laser measuring tapes, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs; detecting instruments, namely, fire and smoke detectors, radon detectors, metal detectors, radiation detectors, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; monitoring instruments, namely, computer systems for monitoring fire and smoke alarms, electronic display monitors for monitoring flowmeters, and gauges for monitoring battery performance characteristics, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; indicators, namely, speed indicators for vehicles, water level indicators, and pressure indicators, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and chargers for the aforementioned goods and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; monitoring instruments, in the nature of electronic display monitors and voltage monitor modules for monitoring electric current and electrical signals, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods; batteries and accumulators, namely electrical storage batteries, general purpose batteries, accumulators being electrical storage batteries, electric accumulators for vehicles, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and

magnetic electrical plugs integrated into the aforementioned goods; electromagnetic transmitters and receivers and inductive transmitters and receivers for energy transmission, and adapted locking, holding and fastening parts, electrical plugs, magnetic electrical plugs and locking, holding and fastening parts, electrical plugs and magnetic electrical plugs integrated into the aforementioned goods.

Class 10

(5) Hearing protection devices, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; feeding aids and pacifiers, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; feeding bottles, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; sex aids, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; medical and veterinary apparatus and instruments, namely, orthopedic braces, orthopedic bandages for joints, orthopedic belts, orthopedic corsets, orthopedic footwear, orthopedic girdles, orthopedic suspenders, surgical instruments, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; medical clothing, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; prosthetics and artificial implants, namely prosthetic limbs, artificial orthopaedic implants, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; orthopedic aids, namely, orthopedic cushions and padding, orthopedic support bandages, orthopedic walkers for disabled persons, patients and the elderly, orthopedic soles, orthopedic footwear, orthopedic belts, orthopedic knee bandages, orthopedic bandages for joints, toe separators for orthopedic purposes, orthopedic corsets, orthopedic girdles, orthopedic suspenders, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods.

Class 12

(6) Parts and fittings for vehicles, namely, metallic and non-metallic mounts and closures having a latching or an engaging element from plastic or having a suction cup and optionally having a magnet specially adapted for use on land vehicles for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, magnetic mechanical mounts and closures specially adapted for use on land vehicles for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, cup holders for vehicles, truck bed storage organizers, bags adapted for pushchairs and strollers, saddlebags adapted for bicycles, pannier bags for bicycles and motorcycles, baskets adapted for bicycles, water bottle cages for bicycles, frame bags for bicycles, handlebar bags for bicycles, cell phone cases adapted for bicycles, cell phone cases adapted for land vehicles, plastic bag holders adapted for use in vehicles, fitted motorcycle cover, fitted bicycle cover, car interior organizer bags specially adapted for fitting in vehicles, fitted vehicle seat cover, bicycle parts, interior trim parts for automobiles, windows for vehicles, windows for land vehicles with magnetic sealing closure, windows for trailers with magnetic sealing closure, and adapted holding and fastening parts for the aforesaid goods, and holding and fastening parts integrated in the aforesaid goods or mountable on the aforementioned goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated holding or fastening devices; wheels and tyres for vehicles, and adapted holding and fastening parts for the aforesaid goods, and holding and fastening parts integrated in the aforesaid goods or mountable on the aforementioned goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated holding or fastening devices; parts and fittings for aircraft and

space vehicles, namely, metallic and non-metallic mounts and closures having a latching or an engaging element from plastic and optionally having a magnet specially adapted for use on aircraft and space vehicles for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, magnetic mechanical mounts and closures specially adapted for use on aircraft and space vehicles for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, and adapted holding and fastening parts for the aforesaid goods, and holding and fastening parts integrated in the aforesaid goods or mountable on the aforementioned goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated holding or fastening devices; parts and fittings for water vehicles, namely, metallic and non-metallic mounts and closures having a latching or an engaging element from plastic and optionally having a magnet specially adapted for use on boats and personal watercraft for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, magnetic mechanical mounts and closures specially adapted for use on boats and personal watercraft for closing flaps and boxes, and for holding bottles, bags, cell phones, and personal items, deck bags adapted for use on kayaks, thwart bags adapted for use on canoes, storage boxes specially adapted for boats, fitted covers for boats and marine vehicles, windows for water vehicles with magnetic sealing closure, and adapted holding and fastening parts for the aforesaid goods, and holding and fastening parts integrated in the aforesaid goods or mountable on the aforementioned goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated holding or fastening devices; luggage carriers for vehicles, and adapted holding and fastening parts for the aforesaid goods, and holding and fastening parts integrated in the aforesaid goods or mountable on the aforementioned goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated holding or fastening devices; bottle holders for vehicles, in particular for bicycle bottles and other drinking bottles for sporting activities; shock absorbers for vehicles.

Class 14

(7) Jewellery; closures for jewellery; time instruments, namely watches, clocks, timepieces; holding and fixing parts for timepieces for use on walls or other surfaces of various kinds; jewellery boxes and watch boxes; closures for jewellery boxes; closures for watch boxes; key rings and key chains, and charms therefor.

Class 15

(8) Musical instruments, namely brass instruments, electronic musical instruments, keyboard instruments, percussion instruments, string instruments, wind instruments and woodwind instruments, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated closing, holding or fastening devices; musical accessories, namely, turning apparatus for sheet music, dampers for musical instruments, pegs for musical instruments, valves for musical instruments, stands for musical instruments, cases for musical instruments, straps for brass, electronic, keyboard, percussion, string, wind, and wood instruments, guitar strap, wind instrument holding strap, connectors for connecting straps to musical instruments, connectors for connecting guitar straps to guitars, bow clamps specially adapted for securing violin bows, viola bows, and cello bows in their cases, neck holding belts and closures specially adapted for violin cases, viola cases, and or cello cases, and connectors for connecting carrying belts to musical instrument cases, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods, and transport and storage containers adapted to the aforesaid goods, in particular with integrated closing, holding or fastening devices.

Class 16

(9) Bags and articles for packaging, wrapping and storage of paper, cardboard or plastics, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bags [envelopes, pouches] of paper or plastics, for packaging, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; watertight plastic bags; watertight plastic bags with magnetically sealing closure; adhesive tapes, strips, bands and films for stationery or household purposes.

Class 17

(10) Shock absorbing buffers of rubber; bags [envelopes, pouches] of rubber, for packaging; connectors, not of metal, for pipes and connector parts, not of metal, for hoses or tubes.

Class 18

(11) Umbrellas and parasols, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; umbrella covers, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; parasol covers, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; walking sticks, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; luggage, bags, namely backpacks, knapsacks, travelling bags, sports bags, school knapsacks, all-purpose carrying bags, baby carrying bags, belt bags, book bags, cosmetic bags sold empty, dry bags, duffel bags, hunting bags, leather bags, make-up bags sold empty, messenger bags, music bags, nose bags, saddle bags, school bags, shoe bags, shoulder bags, tool bags, tool bags sold empty, trolley bags, wallets and carrying bags, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bags [envelopes, pouches] of leather, for packaging, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; saddlery, whips and apparel for animals, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; straps for luggage, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods.

Class 20

(12) Non-metallic fasteners in the nature of closures for bottles, containers, furniture, bags, suitcases, purses, wallets, backpacks, school knapsacks, rucksacks, helmets, bicycle helmets, helmets for motorcyclists; fasteners of plastic in the nature of closures for bottles, containers, furniture, bags, suitcases, purses, wallets, backpacks, school knapsacks, rucksacks, helmets, bicycle helmets, helmets for motorcyclists; cable fasteners, structural joint connectors and holders, non-metallic; pipe fasteners, structural joint connectors and holders, non-metallic; furniture, namely home furniture, bathroom furniture, bedroom furniture, computer furniture, dining room furniture, kitchen furniture, living room furniture, office furniture, outdoor furniture, seating furniture; furniture parts, namely furniture fittings, not of metal; parasol stands; beds, bedding, mattresses, pillows and cushions; picture frames; mirrors (silvered glass); interior blinds and roller blinds; fixing parts for curtains and interior blinds and roller blinds; clothes hangers, clothes stands [furniture] and clothes hooks; animal housing and beds; non-metallic containers for transport, and closures and holders therefor, non-metallic; closures, not of metal, for containers; display boards; displays stands; signboards of wood or plastics; bottle closures, not of metal; plastic sealing clips for bags.

Class 21

(13) Household utensils for cleaning, namely cleaning brushes for household use, kitchen cleaning sponges, household cleaning towelettes, grill cleaning scrapers, cleaning swabs specially adapted for bottles, cleaning rags, cleaning and polishing cloths, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; dustbins, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; tableware, namely, ceramic, porcelain and plastic cups and mugs, ceramic, porcelain or plastic growlers in the nature of beer jugs, earthenware jugs and mugs, mugs of precious metal, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; cookware and plastic storage containers for household purposes, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; storage containers for household and kitchen use, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bottles, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; drinking bottles for sports, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; glasses, drinking vessels and barware, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; cosmetic and toilet utensils, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; dental cleaning articles, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; boot jacks, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; boot trees, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; buttonhooks, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; clothes-pegs, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; clothes-pins, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; clothing stretchers, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; drying racks for laundry, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; flat-iron stands, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; glove stretchers, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; ironing board covers, shaped, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; ironing boards, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; lint removers, electric or non-electric, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; shoe brushes, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; shoe horns, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the

aforesaid goods; shoe trees, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; stretchers for clothing, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; tie presses, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; trouser presses, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; wax-polishing appliances, non-electric, for shoes, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the goods; bottle stands.

Class 22

(14) Bags for storage purposes, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bags for the transport and storage of materials in bulk, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; sacks of textile for packaging, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bag for transporting drinking water, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; packaging bags of textile material, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; sacks and bags for packaging, for the transportation and storage of materials in bulk, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bags [envelopes, pouches] of textile, for packaging, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bungee cords, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; tie-down straps, not of metal, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; tarpaulins, awnings, tents, and unfitted coverings, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; sails, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; nets, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; ropes and strings; slings, not of metal, for handling loads; wrapping or binding bands, not of metal; watertight bags made of plastic-coated fabrics; watertight bags made of plastic-coated materials with magnetically sealing closure.

Class 24

(15) Fabrics made of synthetic materials, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; waterproof fabrics for use in the manufacture of bags, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; woven and knitted fabrics, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; fabrics for textile use and textile substitute materials made from synthetic materials, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; coverings for furniture, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the

aforesaid goods; curtains, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; labels of textile, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; wall hangings, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; linens, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; sleeping bags, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; kitchen and table linens, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bed linen and blankets, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; bath linen, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods.

Class 25

(16) Headgear, namely hats, caps, visors being headwear, headbands, headscarves, the aforesaid goods also with integrated watertight pockets or watertight openings, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; clothing, in particular swimwear, the aforesaid goods also with integrated watertight pockets or watertight openings, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods; footwear, namely athletic footwear, casual footwear, footwear for children, rain footwear, shoes, boots, slippers, the aforesaid goods also with integrated watertight pockets or watertight openings, and adapted closing, holding and fastening parts for the aforesaid goods and closing, holding and fastening parts integrated into the aforesaid goods.

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments, namely, optical sensors and integrated circuits incorporating algorithms for machine autonomy and navigation for use in autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; computers and computer peripheral devices, namely digital cameras; computer hardware, software and firmware for use in developing algorithms for machine autonomy and navigation for use in autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; computer hardware, software and firmware for controlling movement of autonomous vehicles; computer interface boards; computer hardware, software and firmware for use for environmental sensing in autonomous vehicles and machines, robots and robotics, and human navigational aids; computer hardware, computer software and firmware for detecting objects and collision avoidance for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; computer hardware, software and firmware for multispectral sensing and viewing for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; computer hardware, software and firmware for use with sensors for measuring distance and location for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; motion detection software and hardware; computer software and hardware for threat assessment and intelligence; camera sensors; multispectral sensors; polarisation sensors; electrical and electronic optical sensors; heat sensors; light sensors; impact sensors; shock sensors; distance measuring sensors; magnetic sensors; bio-sensors; humidity sensor; laser sensors; range sensors; proximity sensors; level sensors; pressure sensors; optical sensors; biochip sensors; pollutant sensors; digital sensors for use in sensing physical location; invader sensors; position sensors; vibration sensors; acceleration sensors; infrared sensors; distance sensors; temperature sensors; motion sensors; motion tracking sensors; timing sensors; ultrasonic sensors; optic flow sensors; mass flow sensors; electro-optical sensors; collision warning sensors and radars; multi-sensor platforms for autonomous machines and vehicles, and human navigational aids, for detecting location, distance travelled and speed; odometers;

electronic components, namely, Field Programmable Gate Array IP Cores; electronic components, namely, artificial neural networks; computer chips; semiconductor wafers; silicon wafers; semiconductor chips; silicon chips; remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips and other electronic components for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; semiconductors; semiconductor memory devices being computer memories; radio-frequency components; radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers, power meters; radar; extremely high frequency [EHF] radar; Super High Frequency [SHF] radar; radar connectors; radar installations; radar robots; radar systems; radar tracking systems; radar transmitters; radar detectors; radar antennas; radar displays; radar receivers; radar reflecting jammer; downloadable robotic process automation [RPA] software for mimicking human and animal actions in machine autonomy; humanoid robots with artificial intelligence; laboratory robots; teaching robots, namely robots that can be trained to complete precision tasks without code programming and robots for use in teaching users how to train robots; telepresence robots; security surveillance robots; electronic vision imaging sensors; electronic surveillance apparatus and instruments, namely electronic video surveillance installations; thermal imaging cameras [other than for medical use]; video imaging systems, namely cameras and display monitors; light imaging detection and ranging cameras; guidance and navigation systems, namely electronic sensors and downloadable computer application software for directing positions of autonomous vehicles; positioning sensors and receivers; Navigation and positioning software for detecting position of autonomous vehicles and machines and robots, and in human navigational aids; Global Positioning Systems (GPS); software for satellite navigation systems; software for use in autonomous navigation; computer systems for unmanned, autonomous and robotic navigation; software for simultaneous localisation and mapping [SLAM]; downloadable computer software using algorithms for solving movement problems in the field of odometry; cameras; multispectral cameras; rotationally stabilised cameras; onboard cameras; action cameras; surveillance cameras; underwater cameras; infrared cameras; rapid scan cameras; high speed cameras; thermal imaging cameras; motion-activated cameras; computer software for processing imaging and vision data received from autonomous vehicles and robots, and human navigational aids; image processing software; computer software for 3D-visualisation and modelling; computer vision software; pattern recognition software; electronic databases in the field of autonomous vehicles; data processing equipment, namely cameras, radar, and sensors for use with autonomous vehicles and robots, and human navigational aids; electronic vehicle motion controllers

Services

Class 35

(1) Business services, namely data collection of information related to machine learning, autonomous vehicles and robotics, and human navigational aids; business services, namely compilation of data of information related to machine learning, autonomous vehicles and robotics, and human navigational aids; compilation of statistics; compilation of mathematical data; statistical analysis and reporting; machine learning, autonomous vehicles and robotics, and human navigational aids research data and database management; data processing in the fields of machine learning, autonomous vehicles and robotics, and human navigational aids; data transcription; computerized verification services of processed data from autonomous vehicles and robots, and human navigational aids; retail and wholesale services connected with the sale of vehicles, apparatus for locomotion by land, air, water, space or rail namely motors and engines, robotic vehicles, robotic apparatus namely motion controls for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus namely remote controls for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), camera systems for drones,

camera drones, self-driving vehicles, driverless vehicles; retail and wholesale services connected with the sale of autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning and edge computing solutions; retail and wholesale services connected with the sale of autonomous vehicles and apparatus namely remote controls for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours, and human navigational aids; retail and wholesale services connected with the sale of autonomous vehicles and apparatus namely remote controls for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre, and human navigational aids; retail and wholesale services connected with the sale of structural parts and fittings for vehicles, apparatus namely motors and engines for locomotion by land, air, water, space or rail, robotic vehicles, robotic apparatus namely motion controls for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus namely remote controls for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), camera systems for drones, camera drones, self-driving vehicles, driverless vehicles and autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning and edge computing solutions, and human navigational aids; retail and wholesale services connected with the sale of structural parts and fittings for autonomous vehicles and apparatus namely remote controls for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours and autonomous vehicles and apparatus namely remote controls for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre, and human navigational aids; retail and wholesale services connected with the sale of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments namely, optical sensors and integrated circuits incorporating algorithms for autonomy and navigation; retail and wholesale services connected with the sale of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments namely, optical sensors and integrated circuits incorporating algorithms for autonomy and navigation for use in the fields of intelligence, computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; retail and wholesale services connected with the sale of computers and computer peripheral devices and computer hardware, software and firmware for use in the fields of intelligence, artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; retail and wholesale services connected with the sale of computer hardware, software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; retail and wholesale services connected with the sale of computer interface boards, controlled test system apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data from autonomous vehicles and machines, computer hardware, firmware and software for environmental sensing, computer hardware, software and firmware for detecting objects, computer hardware, software and firmware for multispectral sensing and viewing, computer hardware, firmware and software for use with sensors, motion detection software and hardware, computer software and hardware for threat assessment and intelligence; retail and wholesale services connected with the sale of motion sensors, multispectral sensors, polarisation sensors, electrical and electronic sensors for use in sensing physical location, heat sensors, light sensors, impact sensors, shock sensors, measuring sensors for use in sensing physical location, magnetic sensors, bio-sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors,

optical sensors, biochip sensors, pollutant sensors, digital sensors for use in sensing physical location, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars, multi-sensor platforms for autonomous machines and vehicles, odometers, retail and wholesale services connected with the sale of electronic components, namely, Field Programmable Gate Array IP Cores, retail and wholesale services connected with the sale of electronic components, namely, artificial neural networks, retail and wholesale services connected with the sale of computer chips, semiconductor wafers, silicon wafers, semiconductor chips, silicon chips and algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale services connected with the sale of remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale services connected with the sale of semiconductors, semiconductor apparatus and instruments namely semiconductor transistors, power elements and wafer processing equipment, radio-frequency components, radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers, power meters, retail and wholesale services connected with the sale of radar, extremely high frequency [EHF] radar, Super High Frequency [SHF] radar, radar connectors, radar installations, radar apparatus and instruments namely radar receivers with amplifiers, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers, radar reflecting and jamming apparatus namely electronic frequency scramblers, robotic process automation [RPA] software, robotic electrical control apparatus namely motion sensor controls, humanoid robots with artificial intelligence, industrial robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, security surveillance robots, cleaning robots, mining robots, retail and wholesale services connected with the sale of imaging apparatus namely cameras, electronic imaging devices, electronic surveillance apparatus and instruments namely cameras, thermal imaging apparatus namely cameras [other than for medical use], video imaging systems, light imaging detection and ranging sensors, guidance and navigation systems, navigational and positioning apparatus and instruments namely motion sensors, navigation and positioning software, Global Positioning Systems (GPS), software for satellite navigation systems, software for use in autonomous navigation, computer systems for unmanned, autonomous and robotic navigation, retail and wholesale services connected with the sale of software for simultaneous localisation and mapping [SLAM], retail and wholesale services connected with the sale of software in the field of computational geometry, retail and wholesale services connected with the sale of software in the field of odometry, retail and wholesale services connected with the sale of computer hardware, firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines, retail and wholesale services connected with the sale of, cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal imaging cameras, motion-activated cameras, computer software for use with images, image processing software, computer software for 3D-visualisation and modelling, computer vision software, pattern recognition software, retail and wholesale services of databases, data networks, data processing equipment, data processors and data collection, capture, storage, analysis, transmission, processing and remote communication devices all for use with autonomous vehicles and machines, and human navigational aids, retail and wholesale services connected with the sale of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication, retail and wholesale services connected

with the sale of electronic motion controllers and motion control devices, information, advice and consultancy relating to all the aforesaid services

Class 42

(2) Scientific and technological research in the field of autonomous vehicles and machines, robots and robotics and product design relating thereto; scientific and technological research services in the fields of neuroscience, intelligence and behaviour and product design relating to autonomous vehicles and machines, robots and robotics, not for medical purposes; scientific and technological research services relating to animal and insect behaviors for use in the fields of autonomous vehicles and machines, robots and robotics and product design relating thereto, not for medical purposes; scientific and technological research services relating to vision and optic flow for use in the fields of autonomous vehicles and machines, robots and robotics and product design relating thereto; scientific and technological research services in the fields of computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; genetic testing of animals and insects for scientific research purposes; conducting scientific experiments in the fields of computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; conducting scientific experiments in animals and insects; conducting scientific experiments using virtual reality and radar tracking; genetic research; genetic engineering; genetic manipulation; genetic marking of neurons for scientific research; genetic or chemical disruption of neural networks for scientific purposes; scientific research in the field of genetics and genetic engineering; design and development of navigation systems; testing, analysis and monitoring of navigation signals in autonomous vehicles and machines, robots and robotics; mapping services; robotic mapping services; non-medical ultrasound imaging services; digital imaging for use in autonomous vehicles and machines, robots and robotics; engineering services relate to robotics; mathematical research services; design of mathematical models; design and development of algorithms; scientific and technological research services relating to the reproduction and replication of natural behaviours and neural responses in machines and vehicles using algorithms; development and testing of computing methods, algorithms and software; data warehousing; maintenance of database software; hosting of databases; electronic data storage; technical data analysis for autonomous vehicles and machines, robots and robotics; design and development of computers and computer peripheral devices; design and development of computer hardware, software and firmware for use in the fields of intelligence, computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; design and development of computer hardware, software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; design and development of computer interface boards; design and development of control test system apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data to autonomous machines, autonomous vehicles, robots and robotics; design and development of computer hardware, firmware and software for environmental sensing; design and development of computer hardware, software and firmware for detecting objects; design and development of computer hardware, software and firmware for multispectral sensing and viewing; design and development of computer hardware, firmware and software for use with sensors; design and development of motion detection software and hardware; design and development of computer software and hardware for threat assessment and intelligence; design and development of sensors, namely multispectral sensors, polarisation sensors, heat sensors, light sensors, impact sensors, shock sensors, distance measuring sensors, magnetic sensors, bio-

sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors, optical sensors, biochip sensors, pollutant sensors, digital sensors, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars; design and development of multi-sensor platforms for autonomous machines, vehicles, robots and robotic apparatus; design and development of odometers; design and development of electronic components, namely, Field Programmable Gate Array IP Cores; design and development of electronic components, namely, artificial neural networks; design and development of computer chips; design and development of semiconductor wafers, silicon wafers, semiconductor chips, silicon chips; design and development of semiconductor wafers, silicon wafers, semiconductor chips, silicon chips; design and development of algorithms on silicon wafers, silicon chips, computer chips or other electronic components; design and development of semiconductors and semiconductor apparatus and instruments; design and development of radio-frequency components; design and development of radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers and power meters; design and development of radars, extremely high frequency [EHF] radar, Super High Frequency [SHF] radar, radar connectors, radar installations, radar apparatus and instruments, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers and radar reflecting and jamming apparatus; design and development of robotic process automation [RPA] software; design and development of robotic electrical control apparatus; design and development of robots, robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, surveillance robots; design and development of imaging apparatus, electronic imaging devices, electronic surveillance apparatus and instruments, thermal imaging apparatus, video imaging systems, light imaging detection and ranging apparatus; design and development of guidance and navigation systems; design and development of navigational and positioning apparatus and instruments, namely electronic sensors and receivers for directing vehicles and robots; design and development of navigation and positioning software; design and development of Global Positioning Systems (GPS); design and development of software for satellite navigation systems; design and development of software for use in autonomous navigation; design and development of computer systems for unmanned, autonomous and robotic navigation; design and development of navigation, guidance, tracking, targeting and map making devices namely, indoor and outdoor navigational aids being electronic navigational systems for human navigation; design and development of software for simultaneous localisation and mapping [SLAM]; design and development of software in the field of computational geometry; design and development of software in the field of odometry; design and development of computer hardware, firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines; design and development of cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal image cameras, motion-activated cameras; design and development of computer software for use with images; design and development of image processing software; design and development of computer software for 3D visualisation and modelling; design and development of computer vision software; design and development of pattern recognition software; design and development of computer databases and data networks; design and development of data processing equipment, namely computers for use with autonomous vehicles and robots; design and development of data collection, capture, storage, analysis, transmission, processing and communication apparatus for use with autonomous vehicles and robots; design and

development of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication; design and development of electronic controllers and control devices; quality control testing services for autonomous vehicles, robots and robotics; scientific and technological services comparing reproduced or replicated behaviours and neural responses in machines and vehicles against real behaviours in animals and insects; computer software development in the fields of intelligence, computational neuroscience, cognitive neurobiotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; information, advice and consultancy relating to all the aforesaid services

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments, namely, optical sensors and integrated circuits incorporating algorithms for machine autonomy and navigation for use in autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; computers and computer peripheral devices, namely digital cameras; computer hardware, software and firmware for use in developing algorithms for machine autonomy and navigation for use in autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; computer hardware, software and firmware for controlling movement of autonomous vehicles; computer interface boards; computer hardware, software and firmware for use for environmental sensing in autonomous vehicles and machines, robots and robotics, and human navigational aids; computer hardware, computer software and firmware for detecting objects and collision avoidance for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; computer hardware, software and firmware for multispectral sensing and viewing for use in autonomous vehicles and machines, robots and robotics, and human

navigational aids; computer hardware, software and firmware for use with sensors for measuring distance and location for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; motion detection software and hardware; computer software and hardware for threat assessment and intelligence; camera sensors; multispectral sensors; polarisation sensors; electrical and electronic optical sensors; heat sensors; light sensors; impact sensors; shock sensors; distance measuring sensors; magnetic sensors; bio-sensors; humidity sensor; laser sensors; range sensors; proximity sensors; level sensors; pressure sensors; optical sensors; biochip sensors; pollutant sensors; digital sensors for use in sensing physical location; invader sensors; position sensors; vibration sensors; acceleration sensors; infrared sensors; distance sensors; temperature sensors; motion sensors; motion tracking sensors; timing sensors; ultrasonic sensors; optic flow sensors; mass flow sensors; electro-optical sensors; collision warning sensors and radars; multi-sensor platforms for autonomous machines and vehicles, and human navigational aids, for detecting location, distance travelled and speed; odometers; electronic components, namely, Field Programmable Gate Array IP Cores; electronic components, namely, artificial neural networks; computer chips; semiconductor wafers; silicon wafers; semiconductor chips; silicon chips; remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips and other electronic components for use in autonomous vehicles and machines, robots and robotics, and human navigational aids; semiconductors; semiconductor memory devices being computer memories; radio-frequency components; radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers, power meters; radar; extremely high frequency [EHF] radar; Super High Frequency [SHF] radar; radar connectors; radar installations; radar robots; radar systems; radar tracking systems; radar transmitters; radar detectors; radar antennas; radar displays; radar receivers; radar reflecting jammer; downloadable robotic process automation [RPA] software for mimicking human and animal actions in machine autonomy; humanoid robots with artificial intelligence; laboratory robots; teaching robots, namely robots that can be trained to complete precision tasks without code programming and robots for use in teaching users how to train robots; telepresence robots; security surveillance robots; electronic vision imaging sensors; electronic surveillance apparatus and instruments, namely electronic video surveillance installations; thermal imaging cameras [other than for medical use]; video imaging systems, namely cameras and display monitors; light imaging detection and ranging cameras; guidance and navigation systems, namely electronic sensors and downloadable computer application software for directing positions of autonomous vehicles; positioning sensors and receivers; Navigation and positioning software for detecting position of autonomous vehicles and machines and robots, and in human navigational aids; Global Positioning Systems (GPS); software for satellite navigation systems; software for use in autonomous navigation; computer systems for unmanned, autonomous and robotic navigation; software for simultaneous localisation and mapping [SLAM]; downloadable computer software using algorithms for solving movement problems in the field of odometry; cameras; multispectral cameras; rotationally stabilised cameras; onboard cameras; action cameras; surveillance cameras; underwater cameras; infrared cameras; rapid scan cameras; high speed cameras; thermal imaging cameras; motion-activated cameras; computer software for processing imaging and vision data received from autonomous vehicles and robots, and human navigational aids; image processing software; computer software for 3D-visualisation and modelling; computer vision software; pattern recognition software; electronic databases in the field of autonomous vehicles; data processing equipment, namely cameras, radar, and sensors for use with autonomous vehicles and robots, and human navigational aids; electronic vehicle motion controllers

Services**Class 35**

(1) Business services, namely data collection of information related to machine learning, autonomous vehicles and robotics, and human navigational aids; business services, namely compilation of data of information related to machine learning, autonomous vehicles and robotics, and human navigational aids; compilation of statistics; compilation of mathematical data; statistical analysis and reporting; machine learning, autonomous vehicles and robotics, and human navigational aids research data and database management; data processing in the fields of machine learning, autonomous vehicles and robotics, and human navigational aids; data transcription; computerized verification services of processed data from autonomous vehicles and robots, and human navigational aids; retail and wholesale services connected with the sale of vehicles, apparatus for locomotion by land, air, water, space or rail namely motors and engines, robotic vehicles, robotic apparatus namely motion controls for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus namely remote controls for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), camera systems for drones, camera drones, self-driving vehicles, driverless vehicles; retail and wholesale services connected with the sale of autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning and edge computing solutions; retail and wholesale services connected with the sale of autonomous vehicles and apparatus namely remote controls for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours, and human navigational aids; retail and wholesale services connected with the sale of autonomous vehicles and apparatus namely remote controls for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre, and human navigational aids; retail and wholesale services connected with the sale of structural parts and fittings for vehicles, apparatus namely motors and engines for locomotion by land, air, water, space or rail, robotic vehicles, robotic apparatus namely motion controls for locomotion by land, air, water, space or rail, autonomous vehicles, autonomous apparatus namely remote controls for locomotion by land, air, water, space or rail, unmanned aerial vehicles (UAVs), camera systems for drones, camera drones, self-driving vehicles, driverless vehicles and autonomous vehicles using artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning and edge computing solutions, and human navigational aids; retail and wholesale services connected with the sale of structural parts and fittings for autonomous vehicles and apparatus namely remote controls for locomotion by land, air, water, space or rail that reproduce and replicate natural behaviours and autonomous vehicles and apparatus namely remote controls for land, air, water, space or rail that sense, view, detect and avoid objects and autonomously navigate and manoeuvre, and human navigational aids; retail and wholesale services connected with the sale of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments namely, optical sensors and integrated circuits incorporating algorithms for autonomy and navigation; retail and wholesale services connected with the sale of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing and inspecting apparatus and instruments namely, optical sensors and integrated circuits incorporating algorithms for autonomy and navigation for use in the fields of intelligence, computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics, and human navigational aids; retail and wholesale services connected with the sale of computers and computer peripheral devices and computer hardware, software and firmware for use in the fields of intelligence, artificial intelligence, computational neuroscience, cognitive neurobotics, biomimicry, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; retail and wholesale services connected with the sale of computer hardware,

software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; retail and wholesale services connected with the sale of computer interface boards, controlled test system apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data from autonomous vehicles and machines, computer hardware, firmware and software for environmental sensing, computer hardware, software and firmware for detecting objects, computer hardware, software and firmware for multispectral sensing and viewing, computer hardware, firmware and software for use with sensors, motion detection software and hardware, computer software and hardware for threat assessment and intelligence; retail and wholesale services connected with the sale of motion sensors, multispectral sensors, polarisation sensors, electrical and electronic sensors for use in sensing physical location, heat sensors, light sensors, impact sensors, shock sensors, measuring sensors for use in sensing physical location, magnetic sensors, bio-sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors, optical sensors, biochip sensors, pollutant sensors, digital sensors for use in sensing physical location, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars, multi-sensor platforms for autonomous machines and vehicles, odometers, retail and wholesale services connected with the sale of electronic components, namely, Field Programmable Gate Array IP Cores, retail and wholesale services connected with the sale of electronic components, namely, artificial neural networks, retail and wholesale services connected with the sale of computer chips, semiconductor wafers, silicon wafers, semiconductor chips, silicon chips and algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale services connected with the sale of remapping and stabilisation algorithms on silicon wafers, silicon chips, computer chips or other electronic components, retail and wholesale services connected with the sale of semiconductors, semiconductor apparatus and instruments namely semiconductor transistors, power elements and wafer processing equipment, radio-frequency components, radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers, power meters, retail and wholesale services connected with the sale of radar, extremely high frequency [EHF] radar, Super High Frequency [SHF] radar, radar connectors, radar installations, radar apparatus and instruments namely radar receivers with amplifiers, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers, radar reflecting and jamming apparatus namely electronic frequency scramblers, robotic process automation [RPA] software, robotic electrical control apparatus namely motion sensor controls, humanoid robots with artificial intelligence, industrial robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, security surveillance robots, cleaning robots, mining robots, retail and wholesale services connected with the sale of imaging apparatus namely cameras, electronic imaging devices, electronic surveillance apparatus and instruments namely cameras, thermal imaging apparatus namely cameras [other than for medical use], video imaging systems, light imaging detection and ranging sensors, guidance and navigation systems, navigational and positioning apparatus and instruments namely motion sensors, navigation and positioning software, Global Positioning Systems (GPS), software for satellite navigation systems, software for use in autonomous navigation, computer systems for unmanned, autonomous and robotic navigation, retail and wholesale services connected with the sale of software for simultaneous localisation and mapping [SLAM], retail and wholesale services connected with the sale of software in the field of computational geometry, retail and wholesale services connected with the sale of software in the field of odometry, retail and wholesale services connected with the sale of computer hardware,

firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines, retail and wholesale services connected with the sale of, cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal imaging cameras, motion-activated cameras, computer software for use with images, image processing software, computer software for 3D-visualisation and modelling, computer vision software, pattern recognition software, retail and wholesale services of databases, data networks, data processing equipment, data processors and data collection, capture, storage, analysis, transmission, processing and remote communication devices all for use with autonomous vehicles and machines, and human navigational aids, retail and wholesale services connected with the sale of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication, retail and wholesale services connected with the sale of electronic motion controllers and motion control devices, information, advice and consultancy relating to all the aforesaid services

Class 42

(2) Scientific and technological research in the field of autonomous vehicles and machines, robots and robotics and product design relating thereto; scientific and technological research services in the fields of neuroscience, intelligence and behaviour and product design relating to autonomous vehicles and machines, robots and robotics, not for medical purposes; scientific and technological research services relating to animal and insect behaviors for use in the fields of autonomous vehicles and machines, robots and robotics and product design relating thereto, not for medical purposes; scientific and technological research services relating to vision and optic flow for use in the fields of autonomous vehicles and machines, robots and robotics and product design relating thereto; scientific and technological research services in the fields of computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; genetic testing of animals and insects for scientific research purposes; conducting scientific experiments in the fields of computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; conducting scientific experiments in animals and insects; conducting scientific experiments using virtual reality and radar tracking; genetic research; genetic engineering; genetic manipulation; genetic marking of neurons for scientific research; genetic or chemical disruption of neural networks for scientific purposes; scientific research in the field of genetics and genetic engineering; design and development of navigation systems; testing, analysis and monitoring of navigation signals in autonomous vehicles and machines, robots and robotics; mapping services; robotic mapping services; non-medical ultrasound imaging services; digital imaging for use in autonomous vehicles and machines, robots and robotics; engineering services relate to robotics; mathematical research services; design of mathematical models; design and development of algorithms; scientific and technological research services relating to the reproduction and replication of natural behaviours and neural responses in machines and vehicles using algorithms; development and testing of computing methods, algorithms and software; data warehousing; maintenance of database software; hosting of databases; electronic data storage; technical data analysis for autonomous vehicles and machines, robots and robotics; design and development of computers and computer peripheral devices; design and development of computer hardware, software and firmware for use in the fields of intelligence, computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; design and development of

computer hardware, software and firmware for controlling autonomous vehicles and other autonomous apparatus for locomotion by land, air, water, space or rail and robots and robotic apparatus; design and development of computer interface boards; design and development of control test system apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data to autonomous machines, autonomous vehicles, robots and robotics; design and development of computer hardware, firmware and software for environmental sensing; design and development of computer hardware, software and firmware for detecting objects; design and development of computer hardware, software and firmware for multispectral sensing and viewing; design and development of computer hardware, firmware and software for use with sensors; design and development of motion detection software and hardware; design and development of computer software and hardware for threat assessment and intelligence; design and development of sensors, namely multispectral sensors, polarisation sensors, heat sensors, light sensors, impact sensors, shock sensors, distance measuring sensors, magnetic sensors, bio-sensors, humidity sensor, laser sensors, range sensors, proximity sensors, level sensors, pressure sensors, optical sensors, biochip sensors, pollutant sensors, digital sensors, invader sensors, position sensors, vibration sensors, acceleration sensors, infrared sensors, distance sensors, temperature sensors, motion sensors, motion tracking sensors, timing sensors, ultrasonic sensors, optic flow sensors, mass flow sensors, electro-optical sensors, collision warning sensors and radars; design and development of multi-sensor platforms for autonomous machines, vehicles, robots and robotic apparatus; design and development of odometers; design and development of electronic components, namely, Field Programmable Gate Array IP Cores; design and development of electronic components, namely, artificial neural networks; design and development of computer chips; design and development of semiconductor wafers, silicon wafers, semiconductor chips, silicon chips; design and development of semiconductor wafers, silicon wafers, semiconductor chips, silicon chips; design and development of algorithms on silicon wafers, silicon chips, computer chips or other electronic components; design and development of semiconductors and semiconductor apparatus and instruments; design and development of radio-frequency components; design and development of radio-frequency transmitters, adapters, repeaters, amplifiers, filters, antennas, modulators, receivers, identification devices, identification readers and power meters; design and development of radars, extremely high frequency [EHF] radar, Super High Frequency [SHF] radar, radar connectors, radar installations, radar apparatus and instruments, radar systems, radar tracking systems, radar transmitters, radar detectors, radar antennas, radar displays, radar receivers and radar reflecting and jamming apparatus; design and development of robotic process automation [RPA] software; design and development of robotic electrical control apparatus; design and development of robots, robots with artificial intelligence, laboratory robots, teaching robots, telepresence robots, surveillance robots; design and development of imaging apparatus, electronic imaging devices, electronic surveillance apparatus and instruments, thermal imaging apparatus, video imaging systems, light imaging detection and ranging apparatus; design and development of guidance and navigation systems; design and development of navigational and positioning apparatus and instruments, namely electronic sensors and receivers for directing vehicles and robots; design and development of navigation and positioning software; design and development of Global Positioning Systems (GPS); design and development of software for satellite navigation systems; design and development of software for use in autonomous navigation; design and development of computer systems for unmanned, autonomous and robotic navigation; design and development of navigation, guidance, tracking, targeting and map making devices namely, indoor and outdoor navigational aids being electronic navigational systems for human navigation; design and development of software for simultaneous localisation and mapping [SLAM]; design and development of software in the field of computational geometry; design and development of software in the field of odometry; design and development

of computer hardware, firmware and software for recording, collecting, capturing, storing, transmitting, processing, receiving, displaying, analysing and communicating data from computer hardware on autonomous vehicles and machines; design and development of cameras, multispectral cameras, rotationally stabilised cameras, onboard cameras, action cameras, surveillance cameras, underwater cameras, infrared cameras, rapid scan cameras, high speed cameras, thermal image cameras, motion-activated cameras; design and development of computer software for use with images; design and development of image processing software; design and development of computer software for 3D visualisation and modelling; design and development of computer vision software; design and development of pattern recognition software; design and development of computer databases and data networks; design and development of data processing equipment, namely computers for use with autonomous vehicles and robots; design and development of data collection, capture, storage, analysis, transmission, processing and communication apparatus for use with autonomous vehicles and robots; design and development of computer software, hardware and firmware for data collection, capture, storage, analysis, transmission, processing and communication; design and development of electronic controllers and control devices; quality control testing services for autonomous vehicles, robots and robotics; scientific and technological services comparing reproduced or replicated behaviours and neural responses in machines and vehicles against real behaviours in animals and insects; computer software development in the fields of intelligence, computational neuroscience, cognitive neurobotics, biomimicry, artificial intelligence, machine learning, deep learning, edge computing, autonomous machines, autonomous vehicles, robots and robotics; information, advice and consultancy relating to all the aforesaid services

(6) Generation of electricity from wind energy; generation of power; energy production; leasing of solar panels, wind turbines and water power plants for the production of electricity; generation of electricity from solar energy; demineralisation of water; water treating; water treatment and purification; production of hydroelectric power.

Class 41

(7) Provision of audio and visual media via communications networks, namely wireless networks, wide area networks, local area networks and inter networks, in the nature of blogs, articles, magazines, podcasts, and videos featuring information in the field of energy; education, entertainment and sport services, namely, organizing community events in the field of renewable energy for educational and entertainment purposes; providing non-downloadable on-line publications in the nature of blogs, articles, press releases, interviews, podcasts, and videos in the field of energy; providing on-line non-downloadable electronic publications in the nature of blogs, articles, magazines, podcasts, and videos in the field of energy; publication and editing of printed matter in electronic form; publication and editing of printed matter; publishing, video tape publishing and issuing publications, namely, blogs, articles, magazines, and podcasts; multimedia publishing of electronic publications, blogs, articles, magazines, and podcasts; writing and publishing of texts, other than publicity texts, namely, writing of blogs, articles, and magazines

Class 42

(8) Architectural planning services; technical project planning in the field of energy infrastructure construction; civil engineering design consultancy; consultation services relating to architectural planning; consultancy services in the field of urban planning; technical design and planning of power stations; advisory and consultancy services in the field of energy infrastructure construction; advisory services relating to energy efficiency; consultancy relating to technological services in the field of power and energy supply; provision of information concerning research and technical project studies relating to the use of natural energy; conducting research and technical project studies relating to the use of natural energy; development of energy and power management systems; design and development of regenerative energy generation systems; engineering services in the field of energy technology; technological consulting services in the field of alternative energy generation; technological consultancy in the fields of energy production and use; conducting scientific, technical and engineering feasibility studies relative to gas exploitation; technical project studies in the field of construction; building design services; computer aided design services relating to building projects; architectural and civil engineering services; engineering feasibility studies; engineering services for the design of structures; design and engineering in the field of energy and power management infrastructure; engineering services in the field of electrical power and natural gas production; engineering services in the field of environmental technology; engineering research in the field of energy infrastructure construction; technical consulting in the field of environmental engineering; technical consulting in the field of energy infrastructure construction; technical design and planning of power stations; project

management in the field of energy infrastructure construction; technical design services relating to water supply installations; technical design and planning of pipelines for gas, water and waste water; water quality control services; water analysis.

Class 44

(9) Agriculture, aquaculture, horticulture and forestry services, namely, planting, growing, fertilizing, pruning and picking trees, shrubbery, vegetables, flowers; consultancy and advisory services relating to the use of gas, water, wind and solar energy in agriculture, horticulture and forestry.

(1) Metalworking machines and tools; mining machines and apparatus, namely, bits for mining machines; deep-sea mining machines, drills for the mining industry, extractors for mines, machines for geological, mining and ore exploration, mine borers, mine drainage pumps, mine winches, mining anchor tensioning machines, mining bits, mining drill sharpeners, ploughs for coal mining, robots and robotic arms for mining, rubber tracks being parts of crawlers on mining machines, rubber tracks for crawler mining machines, truck mills for mining purposes, water pumping units for mining purposes; construction machines and apparatus, namely, concrete construction machines, construction rammers, road scrapers, robots and robotic arms for lumbering, rubber tracks being parts of crawlers on construction machines, rubber tracks being parts of crawlers on road making machines; loading-unloading machines and apparatus, namely, air cushion load lifting machines, furnace loading machines, hydraulic loading dock levelers, loading beams being parts of machines, loading dock levelers, mechanical loading dock levelers, robotic arms for loading and rubber tracks being parts of loading-unloading machines; industrial fishing machines, namely, industrial fish-netting machines; chemical processing machines and apparatus, namely, blending machines for chemical processing; textile machines and apparatus, namely, digital printing machines for textile industry, engraving machines for the textile industry, ink jet printing machines for textiles, kraft bobbins for machines for the textile industry, kraft bobbins for textile processing machines, large format ink jet printing machines for textiles, machine tools for the textile industry, machines for dyeing textiles, napping machines for the textile industry, printing machines for textile, printing machines for use with textiles, printing rollers for textile printing machines, raising machines for textile treating, rotary presses for textiles, rubber rollers being parts of machines for textile printing and dyeing, scutching machines for the textile industry, spray damping machines for textile treatment, textile bonding machines, textile calendering machines, textile cutting machines, textile dyeing machines, textile scutching machines, textile tentering machines, textile washing machines; food or beverage processing machines and apparatus, namely, 3D printing machines for use in food manufacturing, 3D printing machines for use in the food industry, automatic vending

machines for food and beverages, blades for electric food processors, blenders, electric, for food and drink preparation, blenders, electric, for food preparation, bottle capping machines for food and beverages, centrifugal machines for separating food waste, colloid mills for the food industry, electric food blenders, electric food blenders for household purposes, electric food choppers, electric food mixers, electric food processors, electric food slicers, electric vacuum food packaging machines for domestic use, electric vacuum food sealers for household purposes, electric vending machines for beverages or foods, electrically powered kitchen appliances for dicing, mincing, slicing and chopping food, food blenders, electric, food blenders, electric, for household purposes, food choppers, electric; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, circular saws for woodworking, laser engraving machines for woodworking, robots and robotic arms for woodworking, sanding machines for woodworking, saw-tooth setting machines for lumbering or woodworking saws, woodworking dust collectors, woodworking lathes, woodworking saw-tooth setting machines, lumbering band saws, robots and robotic arms for lumbering, gluing machines for use with plywood, machines for cutting plywood, plywood clipping machines, plywood finishing machines, plywood gluing machines, plywood jointing machines, plywood presses, robots and robotic arms for plywood making, 3D printing machines for manufacturing of dental inserts, bridges, and veneers, machines for manufacturing veneers, robots and robotic arms for veneer making, splint veneer peeling machines, veneer manufacturing machines, electric wood sawing machines, industrial robots for processing and shaping wood, industrial robots for shaping wood; pulp making, papermaking or paper working machines and apparatus, namely, machines for processing paper pulp, machines for processing wood pulp, paper pulp sifting machines, pulp making machines, pulp processing machines, pulp refining machines, pulp sifting machines, pulp washing machines, automated machine for shaping paper and cardboard into corner protectors, automated paper sorting machines, machine-operated platforms for storing paper in printing presses during the printing process, machines for making paper bags, machines for making paper boxes, machines for making paper sacks, machines for shaping packing paper, machines for the manufacture of paper diapers, paper bag making machines, paper calendering machines, paper clip making machines, paper coating machines, paper cutting machines, paper folding machines, paper jogging machines for industrial use, paper lining machines for the printing industry, paper making machines, paper mill machines, paper reeling machines, paper sack making machines; printing or bookbinding machines and apparatus, namely, 3D printing machines, 3D printing machines for dental devices and instruments, 3D printing machines for manufacturing of artificial teeth, 3D printing machines for manufacturing of dental crowns, 3D printing machines for manufacturing of dental inlays, onlays, and overlays, 3D printing machines for manufacturing of dental inserts, bridges, and veneers, 3D printing machines for manufacturing of dentures, 3D printing machines for medical devices and instruments, 3D printing machines for use in food manufacturing, 3D printing machines for use in the food industry, 3D printing pens, apparatus for making printing plates, apparatus for the machining of printing plates, collating machines for the printing industry, digital printing machines for ceramic surfaces, digital printing machines for decorating beverage cans, digital printing machines for textile industry, embossing printing machines, flexographic printing machines, flexographic printing plates; sewing machines; plowing machines and implements, other than hand-held tools, namely, agricultural plows; snow plows; subsoil plow for agricultural use; tractor-towed plows; cultivating machines and implements, namely, agricultural cultivators, agricultural field cultivators, electric mini cultivators, motorized cultivators, motorized cultivators, hand-held, for gardening, motorized mini cultivators, power operated cultivators, power-operated cultivators, power-operated mini cultivators, rotary cultivators; harvesting machines and implements, namely, autonomous robots for agriculture use for agricultural irrigation, fertilizer distribution, harvesting, and weeding, combine harvesters, grape harvesting machines, harvesters for agricultural use, harvesters for use in forestry, machines for

harvesting tea leaves, machines for use in agriculture for indoor farming, namely, for agricultural irrigation, fertilizer distribution, harvesting, packaging food, and weeding, timber harvesting machinery, tractor-towed harvesters; plant fiber processing machines and implements for agricultural purposes; fodder presses; fodder cutting machines; fodder mixing machines; cake-fodder crushing machines; milk filtering machines; chick brooders; incubators for eggs; sericultural machines and implements, namely, machines for processing raw silk, silk screen printing machines, silk spinning machinery, silk yarn bundling machines, silk yarn re-reeling machines; silk yarn reeling machines; shoe making machines; leather tanning machines; tobacco processing machines; glassware manufacturing machines and apparatus, namely, glassware manufacturing machines, machines for washing glassware, robots and robotic arms for glassware manufacturing; painting machines and apparatus; power-operated potters' wheels; plastic processing machines; machines and apparatus for manufacturing rubber goods, namely, machines for manufacturing rubber, machines for processing rubber, molds being parts of machines for use in the manufacture of rubber goods, rubber cutting machines, rubber forming machines, rubber mixing machines, rubber mixing rolls being parts of rubber mixing machines, rubber rollers being parts of machines for textile printing and dyeing, rubber rolling machines, rubber tracks being parts of crawlers on agricultural machines, rubber tracks being parts of crawlers on bulldozers, rubber tracks being parts of crawlers on construction machines, rubber tracks being parts of crawlers on cranes, rubber tracks being parts of crawlers on excavators, rubber tracks being parts of crawlers on mining machines, rubber tracks being parts of crawlers on pavers, rubber tracks being parts of crawlers on road making machines, rubber tracks being parts of crawlers on road sweeping machines, rubber tracks being parts of crawlers on snow ploughs; stone working machines and apparatus, namely, belt conveyor plants for the stone and concrete industry, dimension stone cutting machines, laser drilling machines for stone working, polishing system for use in single-head machines comprising grinding and polishing discs for stone profiling and edges, replacement parts for conveying and handling machines for transporting agglomerated stones, replacement parts for conveying and handling machines for transporting artificial stones, replacement parts for conveying and handling machines for transporting natural stones, robots and robotic arms for stone working, stone cutting machines, stone-working machines, tractor-towed agricultural instruments, namely, stone forks; non-electric prime movers, not for land vehicles, other than water mills and wind mills, namely, electric power generators using geothermal power, electric power generators using waste heat, engines and motors for the generation of electric power, fuel cell electrical power generators with integrated hydrogen storage capacity for use in vehicle fuel management and power conditioning, hydrogen and fuel cell power generation subsystems comprised of pump control valves, pressure regulating valves, motor pumps, and compressors, industrial steam engine boilers for power generation for machinery, integrated fuel cell power generating subsystems comprised of pump control valves, pressure regulating valves, motor pumps, and compressors, integrated fuel cell power generating systems comprised of fuel cell stacks and automatic electronic control valves for regulating the flow of liquids and pressure sensors, integrated fuel cell power generating systems and subsystems comprising of hydrocarbon reformers and fluid and heat transfer piping therefor; parts of non-electric prime movers, other than water mills and wind mills, namely, air filters being parts of engines, air filters for pneumatic controls being part of machines, air pressure switches as parts of machines, angle valves being parts of machines, aprons being parts of machines, automatic swimming pool cleaners and parts therefor, back pressure valves being parts of machines, ball valves being parts of machines, bearing cages being parts of machines, bearing housings being parts of machines, bearings as machine parts, bearings being parts of machines, bearings for transmission shafts, being parts of machines, bearings, as parts of machines, bellows being parts of machines, belt pulleys being parts of machines, blade holders being parts of machines, boiler tubes being parts of machines,

brushes being parts of motors, generators and dynamos, burrs being parts of power tools, bushings being parts of machines, bushings for use as parts of machines, butterfly valves being parts of machines, cams being parts of machines; balancers for internal combustion engines, namely, spring balancers being lifting apparatus, adjustable combustion generators, catalytic converters for exhaust gases of internal combustion engines, combined hydrogen and fuel cell power generation system comprised of fuel cell stacks, automatic electronic control valves for regulating the flow of liquids and pressure sensors, combustion chambers being engine parts, electrical generators using hydrogen fuel cells, fuel and air mixture regulators being parts of internal combustion engines, fuel cell cooling pumps for use in aerospace applications, fuel cell cooling pumps for use in vehicles, fuel cell electrical power generator with integrated hydrogen storage capacity for use in vehicle fuel management and power conditioning, fuel cell power generators, fuel injection devices for internal combustion engines, gaskets for internal combustion engines, hydrogen and fuel cell power generation subsystem comprised of pump control valves; camshafts for vehicle engines; variable valve lift devices, namely, exhaust gas recirculation (EGR) valves for motors and engines; fuel valves for engines; positive crankcase ventilation (PCV) valves for motors and engines; valve timing control devices, namely, control valves for regulating the flow of gases and liquids; pressure controllers being parts of machines, namely, valves; valve lifters, namely, control valves for regulating the flow of gases and liquids; pressure controllers being parts of machines, namely, valves; automobile engine valve covers; dispensing valves being machine parts; exhaust gas recirculation (EGR), valves for motors and engines; fuel valves for engines; hydraulic valves being parts of machines; pneumatic valve actuators; pressure regulating valves being parts of machines; pressure valves being parts of machines; proportional flow valves being parts of machines; valve diaphragms; valves as machine components; vehicle parts, namely, power valve for carburetors; pistons for engines; alternators for land vehicles; ignition coils; engine injectors; fuel pumps; starters for engines; outboard motors; gas filters for compressed natural gas automobiles; pressure control valves for injectors; hydraulic pumps for continuously variable transmissions; control valves for fuel cell; high pressure hydrogen regulators; gas injectors for compressed natural gas automobiles; gas regulators for compressed natural gas automobiles; electronically controlled throttle bodies; fuel pumps for high pressure direct injection; intake manifolds for engines; exhaust gas recirculation valves for engines; cooling water flow path switching valves; oil jet, parts of machines, namely, oil discharge apparatus for cooling for piston of internal combustion engine; fuel pumps for tanks; idle speed control valves, namely, projection speed plates, speed change gears being parts of machines, speed governors for machines, speed governors for machines, engines and motors, speed governors for motors and engines, tensioner pulleys for elevator speed governors, variable speed drives for machines, variable speed drives for use with fluid pumping systems; valve timing controls for engines; cooling water adjustment valves, namely, cooling water tanks for automobile engines, air-cooled condensers for air conditioners, cooling fan housings for automobile engines, cooling fans for automobile engines, cooling radiators for motors and engines, cooling water tanks for automobile engines, engine cooling radiators, filters for cleaning cooling air, for engines, fuel cell cooling pumps for use in aerospace applications, fuel cell cooling pumps for use in vehicles, pumps for cooling engines, radiator caps for cooling radiators of engines, radiator caps for engine cooling systems; transmission control valves, namely, bearings for transmission shafts, chain drives being parts of machines, chain drives for conveyors, drive pulleys for power transmission belts of agricultural machines, drive pulleys for power transmission belts of industrial machines, driving belts for machines, driving belts for motors, other than for land vehicles, machine coupling and transmission components, other than for land vehicles, and parts therefor, power transmission belts for machines, power transmission couplings for aircraft, power transmission couplings for machines, power transmission couplings for sea craft, power transmission couplings for water vehicles, power

transmissions and gearing for machines; power transmissions for machines; transmission belts for machines, transmission gears for industrial machinery; transmission gears for machines, transmission shafts for boats; transmissions for industrial machinery, transmissions for machines; carburetors; intake valves for engines; fuel cocks, parts of machines, namely drain cocks; turbochargers for engines; variable compression ratio control devices, namely, engine fuel pumps, fuel and air mixture regulators being parts of internal combustion engines, fuel economisers for motors and engines, fuel injection systems for engines, fuel injector parts for land and water vehicle engines, fuel pumps for engines; accelerator work unit [machines], namely, accelerator work unit machines in the nature of parts of machines accelerator pedal unit including accelerator sensor accelerator work unit for land vehicle, namely, speed governors for motors and engines; intake manifolds for two-wheeled vehicles, namely, automotive intake manifolds, charging manifolds for refrigerators, exhaust manifold for engines, intake manifolds for internal combustion engines, intake manifolds for motors and engines; backflow prevention valves for carburetors; air injection valves, namely, valves for air injection systems [parts of machines], air injection valves [parts of machines]; water mills; windmills; pneumatic or hydraulic machines and instruments, namely, air filters for pneumatic controls being parts of machines, couplings for pneumatic apparatus, electric and pneumatic hoists, hand-held pneumatic drills, hand-held pneumatic hammers, pneumatic actuators, pneumatic ball transfer units, pneumatic blow guns for use in a manufacturing process to blow dust off parts, pneumatic conveyors, pneumatic door closers, pneumatic door openers, pneumatic drills, pneumatic grease guns, pneumatic hammers, pneumatic hoists, pneumatic jacks, pneumatic linear actuators, pneumatic milling cutters, pneumatic nail guns, pneumatic nut runners, pneumatic or hydraulic linear actuators, pneumatic ratchet wrenches, pneumatic screwdrivers; air compressors; pumps, not for specified purposes, namely, pumps for cooling engines, screw pumps, pump impellers, water pumps for motors and engines, controlled volume pumps, rotary pumps, circulating pumps, pumps as parts of machines, motors and engines, fuel pumps for engines, hydraulic pumps, lubricating pumps, vacuum pumps, pneumatic pumps, self-regulating fuel pumps, centrifugal pumps; pumps for land vehicle engines, oil pumps for land vehicle engines, water pumps for land vehicle engines, fuel pumps for land vehicle engines, electric pumps, high pressure fuel pump, water pump, vane pump; power steering pumps; oil pumps, namely, high pressure pumps for use in oil or gas well hydraulic fracturing operations, lock assembly for oil-well pumping machines, oil drain pumps, oil pumps for automobile engines, oil pumps for automobiles, oil pumps for land vehicle engines, oil-well pumping machines, oil-well pumps for the petroleum industry; water pumps for automobiles; superchargers, namely, superchargers in the nature of air compressors; turbocompressors; adhesive tape dispensing machines; automatic stamping machines; automatic vending machines; fuel dispensing machines for service stations; electric washing machines for industrial purposes; electric washing machines for household purposes; repairing or fixing machines and apparatus, namely, power-driven wrenches for repair or fix, power-operated screwdrivers for repair or fix, power-operated saws for repair or fix, repair tools [parts of machines]; mechanical parking systems; vehicle washing machines; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use, namely, food cutting machines for commercial use, robots and robotic arms for food cutting for commercial use; dishwashers for industrial purposes; dishwashers for household purposes; electric wax-polishing machines for industrial purposes; vacuum cleaners for industrial purposes; electric wax-polishing machines for household purposes; vacuum cleaners for household purposes; power sprayers for disinfecting, insecticides and deodorants [not for agricultural purposes]; shafts, axles or spindles, machine elements other than land vehicles, namely, bearings for transmission shafts, bearings for transmission shafts, being parts of machines, cam shafts, crank shafts, drive shaft couplings for machines, drive shaft couplings, other than for land vehicles,

loom shafts, shaft bearings being parts of machines, shaft couplings, shaft couplings being parts of machines, shaft couplings for machines, shafts for pumps, sole plates for supporting shaft bearings, transmission shafts for boats, axles for industrial machinery, axles for machines, high frequency motor spindles with high frequency electric converters and power supply units, spindles being parts of machines; bearings, machine elements not for land vehicles, namely, anti-friction bearings for machines, ball bearings for hard drives, ball rings for bearings, bearing brackets for machines, bearing cages being parts of machines, bearing housings being parts of machines, bearing housings for machines, bearing inserts for machines, bearing mounts for machines, bearings as machine parts, bearings being parts of machines, bearings for transmission shafts, bearings for transmission shafts, being parts of machines, bearings, as parts of machines, engine bearings, machine bearings, machine parts, namely, bearings, roller bearings for conveyor belts, roller bearings for industrial machinery, roller bearings for machines, shaft bearings being parts of machines, sliding bearings for machines, sole plates for supporting shaft bearings; shafts, couplings or connectors, machine elements not for land vehicles, namely, couplings for agricultural implements, couplings for machine tools, couplings for machines, couplings for pneumatic apparatus, drive shaft couplings for machines, drive shaft couplings, other than for land vehicles, flexible couplings being parts of machines, fluid couplings being parts of machines, gear couplings for machines, hydraulic torque converters for machines, hydraulic torque converters, other than for land vehicles, machine coupling and belting, machine coupling and transmission components, except for land vehicles, machine coupling and transmission components, other than for land vehicles, and parts therefor, machine couplings, machine couplings and transmission components, machine couplings and transmission components for machines, modular couplings for machine tools, power transmission couplings for aircraft, power transmission couplings for machines, power transmission couplings for sea craft, power transmission couplings for water craft; power transmissions and gearing, machine elements not for land vehicles; differential gears; viscous coupling for machines; control valves for transmissions; differential pinion shaft; shock absorbers, machine elements not for land vehicles; dampers for prosthetics including artificial limbs [parts of machines]; residential damping dampers, parts of machines; springs, machine elements not for land vehicles, namely, laminated leaf springs being parts of machines, laminated leaf-springs being parts of machines, metal laminated leaf springs for machinery, spring balancers being lifting apparatus, spring shock absorbers for machines, springs being parts of machines; gas springs, namely, laminated leaf springs being parts of machines, metal laminated leaf springs for machinery, spring balancers being lifting apparatus, spring shock absorbers for machines, springs being parts of machines; brakes, machine elements not for land vehicles, namely, band brakes for machines, brake linings for machines, brake segments for machines, brake shoes for machines, brakes for industrial machinery, brakes for industrial machines, cone brakes being parts of machines, disc brakes being parts of machines, disc brakes for machines; valves, machine elements not for land vehicles; lawnmowers; curtain drawing devices electrically operated; electric door openers; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes; 3D printers; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors], namely, AC generators, electric motors for machines, electric motors for machines with a digital servo drive controller, electric starter motors, engines and motors for the generation of electric power, engines and motors for the generation of electricity, fan motors for engines, fan motors for machines, motors and engines used in industrial applications; AC generators; DC generators; portable electric power generators; electric food blenders for household purposes; dynamo brushes; dampers [parts of machines], namely, chimney dampers, dampers for heating, dampers used in HVAC systems, dampers used in refrigerators, dampers, namely, control devices used in air ducts to regulate the flow of air, electronic fireplace dampers; oil hydraulic presses,

namely, hydraulic presses for metalworking, hydraulic punching presses for metalworking, oil hydraulic presses for metalworking; mounting brackets for engine, mission or diff, namely, mounting brackets adapted for exhaust systems for internal combustion engines; mechanical parking systems; variable valve lift devices, namely, aerial work lifts, air cushion load lifting machines, hydraulic lift tables, lift doors, mechanical railed lifting conveyors, power-operated lift used to transport and place portable storage containers, power-operated pool lifts, railway wagon lifts, spring balancers being lifting apparatus; autonomous robots for agriculture use for fertilizing and planting; trims for engine exhausts; power operated lifts for moving, parking and storing land vehicles; combined hydrogen and fuel cell power generation system comprised of fuel cell stacks, automatic electronic control valves for regulating the flow of liquids and pressure sensors; integrated fuel cell power generating system comprised of fuel cell stacks, automatic electronic control valves for regulating the flow of liquids and pressure sensors.

Class 09

(2) Measuring or testing machines and instruments, namely, testing and measuring equipment for use in testing the performance and efficiency of power plant equipment, testing equipment for measuring the temperature, pressure, position or form of workpieces in a machine tool; Measuring or testing machines and instruments, namely, tool measuring instruments, instruments for measuring length, pressure measuring apparatus, testing and measuring equipment for use in testing the performance and efficiency of power plant equipment, distance measuring apparatus, testing equipment for measuring the temperature, pressure, position or form of workpieces in a machine tool, pressure meters; pressure recorders; pressure sensors; distance sensors; electronic distance meters; laser distance meters; laser distance sensors; measuring rulers; tyre-pressure measurers; wheel alignment measuring apparatus, namely, roll test stands; pressure sensors; sensors, other than for medical use, namely, acceleration sensors; automatic solar tracking sensors; biochip sensors; biometric sensors for access control systems; camera sensors; coolant-temperature sensors; digital humidity sensors; distance sensors; electronic sensors for detecting microbes; fire sensors; gas sensors; heat sensors; humidity sensors; infrared sensors; laser distance sensors; LED position sensors; liquid level sensors; motion sensors; oil level sensors; optical position sensors; optical sensors; pollutant sensors; position sensors; pressure sensors; proximity sensors; remote temperature sensors; sensors for determining temperature; sensors for determining velocity; smoke sensors; temperature sensors; thermal sensors; timing sensors; touchscreen sensors; oxygen sensors; vehicle speed sensors; differential pressure sensors; fuel temperature sensors; throttle position sensors; variable valve lift sensors; stroke sensors; rotation sensors; simulators for the steering and control of vehicles; coin-operated mechanisms for operating gates for car parking lots; life saving apparatus and equipment, namely, inflatable apparatus for life-saving purposes, inflatable devices for life-saving purposes, inflatable jackets for use in life saving, life saving rafts, life-saving capsules for natural disasters, life-saving equipment, namely, backpacks equipped with airbags for protection against avalanches, life-saving rafts; fire extinguishers; fireplugs; fire hoses; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; anti-theft warning apparatus, namely, burglar alarms not for motor vehicles and alarms not for motor vehicles; protective helmets for bikers; protective helmets for motorists; protective sports helmets; railway signals; vehicle breakdown warning triangles; luminous or mechanical road signs; breathing apparatus for underwater swimming, not for sports; game programs for arcade video game machines; laboratory apparatus and instruments, namely, chromatography apparatus for laboratory use, electrophoresis apparatus for laboratory use, fermentation apparatus for laboratory use, electrolysis apparatus for laboratory use, laboratory centrifuges, gas mixers for laboratory use and stills for laboratory experiments; optical machines and apparatus, namely, optical disk readers, optical disk drivers, optical transmitters, optical

receivers, optical transceivers, optical filters and optical disc recorders; dashboard cameras; power distribution or control machines and apparatus, namely, electrical power distribution or control machines; inverters and HEV/EV Inverters, namely, ac inverters; AC to DC inverters, AC/DC inverters, ac/dc, dc/ac and dc/radio frequency (rf) inverters for the generation of heat for industrial and commercial processes, DC to AC inverters, DC/AC inverters, inverters for electric vehicles, inverters for power supply, photovoltaic inverters, power inverter, power inverters; automotive battery chargers; phase modifiers; solar batteries; oscilloscopes; electric wires and cables; electrical communication machines and apparatus, namely, electrical aeronautical communication machines and apparatus; central gateway router controllers for vehicles; telematics communication units for vehicles; global positioning system, namely, computer hardware and software system for tracking people, objects and pets using GPS data on a device on the tracked people, objects and pets, downloadable mobile applications for recording field and crop observations related to pest pressure, tracking field conditions with gps-enabled maps, and generating crop scouting reports, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, global positioning system (GPS) receivers, global positioning system (GPS) satellites, global positioning system (GPS) transmitters, Global Positioning System [GPS] receivers, Global Positioning System [GPS] transmitters, Global Positioning System receivers, global positioning system transmitters, GPS receivers, gps tracking device to be worn on the wrist of an athlete during endurance events, GPS transmitters, software for GPS navigation systems, vehicle locator and recovery device program; map positioning units, namely, computer digital maps and software for gps navigation receivers; personal digital assistants; electronic speed controllers; electronic parking lot ticket dispensers; electronic integrated circuits; electronic metronome; electronic personal organizers; electronic carbon dioxide monitors, other than for medical use; transmission electronic microscopes; automatic electronic control valves for regulating the flow of gases and liquids; electronic control systems for automobile brakes; electronic controller for operating electronically alterable window tinting; electronic controllers for fuel supply to vehicle engines; electronic controllers for use with power converters; electronic key fobs being remote control apparatus; electronic servo motor controllers; electronic speed controllers; electronic vehicle lock system including remote control; embedded software for controlling the status of electrical distribution in electric motors sold as a component of electronic soft starters; embedded software for monitoring, controlling, and energy optimizing of electric motors in industrial machines sold as a component of electronic controllers and electronic motor drives; embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; occupancy sensors, namely, electronic devices which detect the presence of occupants and control the lighting system accordingly; parts for electronic controllers for fuel supply to vehicle engines; turbine control systems comprising electronic sensors and related software; laser pointers; computer programs, namely, downloadable and recorded computer programs for the use in the operation of vehicles and transportation equipment; computer hardware; computer software, namely, downloadable and recorded computer software for use in the operation of vehicles and transportation equipment; millimeter wave radar; automotive radar; radar apparatus, namely, active radar systems, namely, automotive radar detector, maritime patrol radar, maritime patrol radars, radar, radar antennas, radar detectors, radar displays, radar guns for police work, radar guns for sporting events, radar receivers, radar receivers with amplifiers, radar transmitters, radars; automotive radar detector; magnetic cores; resistance wires; electrodes; fire boats; satellites for scientific purposes; welding masks; fireproof garments; disaster prevention hoods, namely, automated debris management system software for use in cleaning up after major disasters, downloadable digital files being reports and guides on the topic of building and rebuilding disaster and extreme weather resilient homes, buildings and commercial structures, downloadable digital files being reports and guides

on the topic of renovating and improving disaster and extreme weather resilient homes, buildings and commercial structures, downloadable digital files containing policies for the designing, building, renovating, improving and rebuilding of disaster and extreme weather resilient homes, buildings and commercial structures, life saving capsules for natural disasters, survival capsules for natural disasters; gloves for protection against accidents; spectacles; game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; protective helmets for sports; sports whistles; weight belts for scuba diving; air tanks for scuba diving; snorkels; regulators for scuba diving; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; effects units for electric or electronic musical instruments; phonograph records; downloadable music files; downloadable image files containing artworks, texts, graphics and photographs; discs bearing video recordings; blank video tapes; downloadable digital content being videos; downloadable digital media content being videos; blank videotapes; blank digital videodiscs; blank videodiscs; electronic publications, namely, downloadable digital content in the form of electronic publications of books; exposed cinematographic films; exposed slide films; slide film mounts; controllers for Advanced Driver Assistance Systems, namely, artificial intelligence software for autonomous vehicles, computer systems for vehicle safety and security for autonomous vehicles, digital maps for autonomous vehicles, driver assistance systems for autonomous vehicles, including advanced driver assistance systems (ADAS), driver systems for autonomous vehicles, motion control software for autonomous vehicles, navigational systems for traffic and vehicle security and safety for autonomous vehicles, software for the creation of digital infrastructure for use by autonomous vehicles; controllers for Autonomous Driving, namely, computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles, computer hardware and software for controlling and regulating activation and deactivation of a freewheel function in order to reduce fuel consumption in land vehicles, computer controlled steering system for recreational vehicles featuring smart technology, cruise controls for motor vehicles, downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle, interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions, motion control software for autonomous vehicles; downloadable computer software for providing geographic, namely, downloadable geographic information system [GIS] software; camshaft position sensors for internal combustion engine; knock sensors for automobile engines; airflow sensors; valve timing controllers, namely, valve timing controllers for internal combustion engine; valve timing power controllers; variable valve lift controllers, namely, variable valve lift controllers for internal combustion engine, variable valve lift electronic controllers; electric controllers for control suspension; vehicle batteries; battery charge devices for vehicles; automotive testing equipment, namely, automotive diagnostic devices in the nature of scanners and apparatus for performing automotive diagnostics or for testing automotive troubleshooting; automotive performance test automatic inspection device; ignition coil checkers; battery checkers; electronic stability control system for vehicles, namely electronic control systems for brakes and engines; anti-skid electronic control systems for vehicles, namely electronic control systems for brakes and engines; vehicle behavior stabilization control systems, namely electronic control systems for brakes and engines; vehicle stability control systems, namely electronic control systems for brakes and engines; vehicle driving stability assistance systems, namely electronic control systems for brakes and engines; map data for navigation, namely, computer digital maps; computer digital maps and software for gps navigation receivers; computer digital maps and software for radio transceivers; computer digital maps and software for wireless telephones; digital maps for autonomous vehicles; downloadable computer digital maps for gps navigation devices;

downloadable electronic maps; downloadable templates for creating delivery workflow maps; front light automatic dimmers, namely, dimmer switches; electric light dimmers; light dimmers; lighting controls, light switches, and electric light dimmers; photosensors; automatic solar tracking sensors; electronic sensors for measuring solar radiation; automatic solar tracking sensors; electronic sensors for measuring solar radiation; front light optical axis adjustment devices for vehicles; front light irradiation range adjustment devices for vehicles; DC/DC converters; fuel cell control devices; stack impedance control devices, namely, computer software for operating fuel cell system stacks, fuel cell stack parts, fuel cell stacks, integrated fuel cell stacks and parts of integrated fuel cell stacks; regulators for scuba diving; speedometer gears; autonomous navigation systems for ships; camera containing a linear image sensor; camera sensors; cameras with linear image sensors; computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles; coolant-temperature sensors; gas sensors; parking sensors for vehicles; position sensors; proximity sensors; sensors for determining acceleration; sensors for determining position; sensors for determining temperature; sensors for determining velocity; sensors for tracking projectiles in flight; timing sensors; vehicle safety equipment, namely, back-up sensors and cameras; velocity sensors; vibration sensors; wheel speed sensors; camera stabilizers for use on manned and unmanned aerial vehicles; rearview cameras for vehicles; vehicle safety equipment, namely, an on-board vehicular surveillance system comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle; computer digital maps; computer software for displaying orders and driver locations on maps; electrical power door lock switches for motor vehicles; electrical power window switches for motor vehicles; electrical switches for activating and deactivating vehicle airbags; electronic auto shut-off timer switch that provides circuit protection for vehicles power system; keyless ignition switch systems for automotive vehicles; electronic key fobs being remote control apparatus; electronic keys for vehicles; computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles; computer hardware and software for controlling and regulating activation and deactivation of a freewheel function in order to reduce fuel consumption in land vehicles; downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle; interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions; differential switches.

Class 12

(3) Automobiles and their parts and fittings; engine control devices for land vehicles, namely, engine control systems for two-wheeled motor vehicles and automobiles; specially adapted parts for internal combustion engines, namely, valve timing control devices for land vehicles; specially adapted parts for internal combustion engines; automotive steering system and parts thereof; automotive steering system and parts thereof, namely power steering gears; electric steering gears for vessels; ships' steering gears; steering wheels for vehicles; steering gears for ships; steering wheel spinners for automobiles; steering wheels; steering wheels for automobiles; power steering units for automobiles and their parts; transmission control devices for land vehicles; four-wheel drive control units for automobiles; anti-lock braking systems for automobiles; valves for stability control system for land vehicles; valves for anti-lock braking systems; hydraulic cylinders for suspension for automobiles; suspension control devices for land vehicles; vehicle height control devices for land vehicles, namely, vehicle height control devices for automobiles, railway rolling stock and two-wheeled vehicle; rear gate switchgear, namely, electrical power door lock switches for motor vehicles, electrical power window switches for motor vehicles, electrical switches for activating and deactivating vehicle airbags, electronic auto shut-off timer switch that provides

circuit protection for vehicles power system, keyless ignition switch systems for automotive vehicles, electronic key fobs being remote control apparatus, electronic keys for vehicles; vehicle-mounted camera with washer nozzle and washing system for vehicle-mounted camera (parts of vehicles); vehicle bumpers; passive entry/passive start devices for automobiles, namely, electrical power door lock switches for motor vehicles, electrical power window switches for motor vehicles, electrical switches for activating and deactivating vehicle airbags, electronic auto shut-off timer switch that provides circuit protection for vehicles power system, keyless ignition switch systems for automotive vehicles, electronic key fobs being remote control apparatus, electronic keys for vehicles; four-wheel steering devices, namely, steering wheel spinners for automobiles; rear wheel steering devices for land vehicles, namely, steering knuckles; steering links for land vehicles; wheels for land vehicles; differential device, namely, differential switches, differential gears for land vehicles, electric vehicle power train mechanism comprised of clutch, transmission, drive shaft, and differential for land vehicles; traction engine; ropeways for cargo or freight handling, namely, ropeways in the nature of aerial conveyors for cargo or freight handling; non-electric prime movers for land vehicles, not including their parts, namely, diesel engines for land vehicles, not including their parts, internal combustion engines for land vehicles, steam engines for land vehicles, jet engines for land vehicles, turbines for land vehicles, engines for land vehicles, motors for land vehicles, propulsion mechanisms for land vehicles; electric motors for two-wheeled vehicles; machine elements for land vehicles, namely, ac motors and dc motors for land vehicles, air turbines for land vehicles, articulated transmissions for land vehicles, automatic gear boxes for land vehicles, axels for land vehicles, axle bearings for land vehicles, band brakes for land vehicles, belt pulleys for land vehicles, block brakes for land vehicles, brake air valves for land vehicles, brake blocks for land vehicles, brake cables for land vehicles, brake calipers for land vehicles, brake cylinders for land vehicles, brake discs for land vehicles, brake drums for land vehicles, brake levers for land vehicles, brake linings for land vehicles, brake pads for land vehicles, brake pedals for land vehicles, brake rotors for land vehicles, brake segments for land vehicles, brake shoes for land vehicles, brake systems for land vehicles, brakes for land vehicles, bushings for transmission shift cables for land vehicles, clutch linings for land vehicles, clutch mechanisms for land vehicles, coil springs for land vehicle suspensions, cone brakes for land vehicles, connecting rods for land vehicles, other than parts of motors and engines, couplings for land vehicles, crankcases for land vehicle components, other than for engines, diesel engines for land vehicles, diesel motors for land vehicles, differential gears for land vehicles, direction indicators for land vehicles, disc brake hardware kits for land vehicles, disc brake pads for land vehicles, disc brakes for land vehicles, drive chains for land vehicles, drive gears for land vehicles, drive shaft couplings for land vehicles, drive shafts for land vehicles, driving chains for land vehicles, driving motors for land vehicles, electric motors for land vehicle, electric vehicle power train mechanism comprised of clutch, transmission, drive shaft, and differential for land vehicles, elevating platforms for attachment to land vehicles, engine mounts for land vehicles, engines for electric land vehicles, engines for land vehicles, friction clutches for land vehicles, gas tanks grommets for land vehicles, gas turbines for land vehicles, gasoline engines for land vehicles, gear assemblies for land vehicles, gear boxes for land vehicles, gear wheels for land vehicles, hydraulic clutches for land vehicles, hydraulic torque converters for land vehicles, hydraulic turbines for land vehicles, idling pulleys for land vehicles, internal combustion engines for land vehicles, jaw clutches for land vehicles, jet engines for land vehicles, laminated leaf springs for land vehicle suspensions, land vehicle suspension parts, namely, equalizers, land vehicles, namely, low-speed electric vehicles, leaf springs for land vehicle suspensions, limited slip differentials for rear axles, front axles, inter-axles and transfer case drives for land vehicles, motors for electric land vehicles, motors for land vehicles, pneumatic or hydraulic linear actuators for land vehicles, power clutches for land vehicles, power tailgates being parts of land vehicles, power takeoff shafts for land

vehicles, reduction gears for land vehicles, reversing gears for land vehicles, roller chains for land vehicles, roof panels for land vehicles, rubber belts for land vehicle transmissions, running boards for land vehicles, secure drawer modules for land vehicles, shaft couplings for land vehicles, snow chains for land vehicles, speed change gears for land vehicles, spindles for land vehicles, steam turbines, steam turbines for land vehicles, structural parts for land vehicles, suspension shock absorbers for land vehicles, suspension systems for land vehicles, sway bars for land vehicle suspensions, tailboard lifts being parts of land vehicles, tailgate lifts being parts of land vehicles, torque converters for land vehicles, torsion bars for land vehicle suspensions, transmission belts for land vehicles, transmission cases for land vehicles, transmission chains for land vehicles, transmission mechanisms for land vehicles, transmission mounting plates for land vehicles, transmission rebuild kits for land vehicles, transmission shafts for land vehicles, transmission top covers for land vehicles, transmissions for land vehicles, turbojet engines for land vehicles, universal joints for land vehicles, wheel bearings for land vehicles; shafts, axles or spindles, namely, camshafts for land vehicles, cardan shafts for vehicles, flexible shafts for land vehicles, axles for land vehicles, drive shafts for land vehicles; propeller shafts for boats; transmission shafts for land vehicles; bearings, machine elements for land vehicles; shaft couplings or connectors, machine elements for land vehicles, namely, connecting rods for land vehicles, other than parts of motors and engines; power transmissions and gearing for machines, not land vehicles; differential gears, namely, differential gears for land vehicles; drive gears; drive gears for land vehicles; gear assemblies for land vehicles; gear shifts; viscous couplings, namely, couplings for land vehicles, drive shaft couplings for land vehicles, hydraulic torque converters for land vehicles, shaft couplings for land vehicles, torque converters for automobiles, torque converters for land vehicles, torque converters for motor cars; shock absorbers, namely, automotive shock absorbing springs, shock absorbers for automobiles, shock absorbers for cars, shock absorbers for motor vehicles, suspension shock absorbers for automobiles, suspension shock absorbers for motor vehicles; vehicle bumpers; shock absorbers for vehicles; suspension struts for vehicles; front forks for vehicles; rear dampers for two-wheeled vehicles; springs for land vehicles, namely, air springs for vehicle suspension components for cushioning driver's seats and cabs, automobile suspension system components, namely, spring perches, automotive shock absorbing springs, automotive suspension springs, coil springs for land vehicle suspensions, laminated leaf springs for land vehicle suspensions, leaf springs for land vehicle suspensions, leaf springs for vehicle suspensions, metal laminated leaf springs for vehicle suspensions, shock absorbing springs for automobiles, shock absorbing springs for motor cars, shock absorbing springs for vehicles, suspension springs for automobiles, suspension springs for motor cars, vehicle suspension springs; brakes, machine elements for land vehicles, namely, anti-lock braking systems [ABS] for automobiles, band brakes for land vehicles, block brakes for land vehicles, brake air valves for land vehicles, brake blocks, brake blocks for vehicles, brake cables for land vehicles, brake calipers for vehicles, brake cylinders, brake cylinders for land vehicles, brake discs, brake drums, brake facings, brake hardware clips, brake levers, brake linings, brake pads for automobiles, brake pedals for land vehicles, brake pucks, brake rotors for land vehicles, brake segments for automobiles, brake shoes, brake systems for motor vehicles, brakes for automobiles, braking systems for motor vehicles and parts thereof, main brake cylinders, vehicle brake discs, vehicle brake pads; brake calipers for vehicles; brake pads for vehicles; brake rotors for vehicles; brake linings for vehicles; brake drums for vehicles; clutch master cylinders, namely, clutch mechanisms for land vehicles, clutches for motor vehicles, friction clutches for land vehicles, hydraulic clutches for land vehicles, jaw clutches for land vehicles, power clutches for land vehicles; reservoir tank for two-wheeled vehicle, namely, fuel tanks; gas tanks for vehicles; brakes for motor vehicles; brake pedal stroke simulators, namely, brake pedal stroke generators (accessory parts for land vehicles); electric actuation devices for brakes, namely electronic brakes for vehicles; accumulators for brake

hydraulic circuit (components for brakes for vehicles); brake piping joints for land vehicles; valves for negative pressure boosters; brake pad hoses for land vehicles; brake pads for land vehicles; parachutes; anti-theft alarms for vehicles; wheelchairs; motors for electric vehicles or hybrid electric vehicles; vessels and their parts and fittings, namely, vessels and steering devices and rudders for boats and marine vehicles, adjustable covers for boats and marine vehicles, booms for boats, fenders for boats [bumpers]; power tilt trims for land vehicles, namely, automotive exterior trim, automotive interior trim, carbon fiber interior trim for automobiles; interior trim for automobiles, interior trim parts for automobiles; interior trim parts of automobiles; outboard motor angle adjusters; gas-liquid separators for outboard motors; lifting and lowering hydraulic devices for outboard motors, namely, hydraulic devices for use in lifting and lowering outboard motors; aircraft and their parts and fittings; civilian drones and their parts and fittings; industrial drones and their parts and fittings; railway rolling stock and their parts and fittings; dampers for railway rolling stock; damper controllers for railway rolling stock; two-wheeled motor vehicles, two-wheeled motor vehicles, bicycles and special saddlebags for bicycles, shock absorbers for two-wheeled motor vehicles or bicycles, air pumps for two-wheeled motor vehicles or bicycles, pumps [inflators for bicycle tires] bicycle chains, air chambers for two-wheeled motor vehicles or bicycles, rims for bicycles or two-wheeled motor vehicles, mudguards for bicycles or two-wheeled automobiles, brake levers for bicycles, wheels for bicycles and cycles, bicycles bells, supporting feet for bicycles, suspension system for two-wheeled motor vehicles, brakes for two-wheeled motor vehicles, motorcycles, motor scooters, bicycles, brakes for motorcycles, brakes for bicycles, brake calipers for motorcycles, motorcycle kickstands, motorcycle chains, motorcycle frames, motorcycle engines, motorcycle saddles, motorcycle handlebars, bicycle gears, bicycle cranks, bicycle kickstands, bicycle bells, bicycle frames, bicycle saddles, bicycle handlebars, inner tubes for bicycle tires, special saddlebags for bicycles, shock absorbers for two-wheeled motor vehicles, shock absorbers for bicycles, air pumps [vehicle accessories] pumps for bicycle tires, air chambers for two-wheeled motor vehicles, air chambers for bicycles, wheel rims for bicycles, wheel rims for two-wheeled motor vehicles, rims for bicycles, rims for two-wheeled motor vehicles, mudguards for bicycles, mudguards for two-wheeled automobiles, wheels for bicycles, wheels for cycles, wheel suspensions for two-wheeled motor vehicles; bicycles and their parts and fittings; variable valve lift systems for two-wheeled motor vehicles, namely, variable valve lift controllers and devices for two-wheeled motor vehicles; engine control devices for two wheeled motor vehicles, namely, engine control systems for two-wheeled motor vehicles; valve timing control devices for two-wheeled motor vehicles, namely, valve timing control systems for two-wheeled motor vehicles; valves for stability control system for two-wheeled motor vehicles, namely, electronic stability system to allow better control and maneuverability of two-wheeled vehicles; valves for anti-lock braking systems for two-wheeled motor vehicles, namely, air suspension valves for controlling suspension height for vehicles, brake air valves for land vehicles, valve stem caps for vehicle tires; valve stems for vehicle tires; valves for vehicle tires; valves for vehicle tyres; hydraulic cylinders for suspension for two-wheeled vehicles, namely, air suspension systems for vehicles, air suspension valves for controlling suspension height for vehicles, all-terrain vehicles suspensions, axles for air suspension systems in vehicles, bicycle suspension forks, suspension systems for bicycles; suspension control devices for two-wheeled vehicles; steering dampers, namely, handle bar dampers being parts of motorcycles, steering dampers of automobiles; front forks for vehicles, namely, bicycle forks, bicycle forks and their parts, bicycle parts, namely, fork crown covers, bicycle suspension forks, cargo bicycle forks, fork crowns for bicycles, fork lift trucks, fork tines for forklifts, front forks for bicycles, front forks for cycles, front forks for forklifts, front forks for motorcycles, front forks for snowmobiles, front forks for two-wheeled vehicles, parts of motorcycles, namely, fork dust boots, parts of motorcycles, namely, fork seals; front fork mounting parts for bicycles, namely, front fork joints; drive shafts for two-wheeled vehicles, namely, axles

and cardan shaft for motor vehicles, cardan shafts for vehicles, drive shaft couplings for land vehicles, drive shafts for land vehicles, electric vehicle power train mechanism comprised of clutch, transmission, drive shaft, and differential for land vehicles, power take-off shafts for land vehicles, shaft couplings for land vehicles, transmission shafts for land vehicles; rickshaws; sleighs and sleds [vehicles], namely, horse drawn sleighs and sleds [vehicles], rescue sleds, sleds for transport purposes; trolleys, namely, boat launching trolleys, motorized golf trolleys, shopping trolleys, trolley buses, two-wheeled trolleys; carts, namely, carts being motorized land vehicles, electric golf carts, go carts, golf carts, mobile storage carts, motorized and computerized golf carts; horse drawn carriages; bicycle trailers; adhesive rubber patches for repairing tubes or tires; baby carriage; tie rods for power steering; controllers for power steering; autonomous cars; autonomous land vehicles; autonomous underwater vehicles; autonomous vehicles; self-driving cars; self-driving robots for delivery; electric vehicle power train mechanism comprised of clutch, transmission, drive shaft, and differential for land vehicles; automotive exterior trim; automotive interior trim; carbon fiber interior trim for automobiles; interior trim for automobiles; interior trim parts for automobiles; interior trim parts of automobiles; tailboard lifts being parts of land vehicles; tailgate lifts being parts of land vehicles; vehicle hood lifts being parts of land vehicles; electronic stability system to allow better control and maneuverability of trucks and trailers, sold as an integral component of trucks; electronic key fobs for remote controls; electronic bulletin boards; stabilizers for vehicles; anti-skid devices for vehicles, namely, traction control systems for automobiles.

Visual Representation

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The word "taika" appears in a combination of white and yellow colours. Each letter incorporates diamond shapes as part of its design, with the following colour placement: The top and bottom parts of each letter are white. Diamond shapes, which are yellow in colour, are embedded within each letter: The letter T contains one yellow diamond. The letters A, I, K, and A each contain two yellow diamonds. The background is black in colour. This arrangement of white and yellow colours, along with the distinct placement of diamond shapes within each letter, creates a unique and recognizable visual identity for the trademark.

Goods

Class 33

Artisanal unaged distilled spirit. Made of grains namely corn, wheat, and rye. Also, its made of fruits namely apple, orange, grapes, banana, dates ,jagghery.

Software platforms in the form of recorded or downloadable software to enable secure collaborative work by videoconference, instant messaging, electronic mail and document sharing between users; signal, raster image, sound, video processors; smart terminals, computer terminals being electronic encryption units; electronic databases in the field of secure marketplaces; data processing software, namely magnetometric and geophysical data processing software, digital image, graphics and text processing software; mobile data apparatus, namely encoded electronic smart cards for identifying individual computer and mobile phone users, USB hardware; database management software; database server centres, namely network gateway proxy servers, computer database servers, network servers; software for computers, namely software for coordinating employee meetings and scheduling, planning and optimizing workspaces, instant messaging software, digital messaging software for accessing live online chat services, Internet messaging software, digital video recording software for IP (Internet protocol) video surveillance, software for editing images, sound and video, downloadable or recorded software for use in arranging, transmitting, receiving, viewing, storing and reviewing video files, downloadable or recorded software for receiving digital videos via a communication network, software for computers for accessing electronic mail and text messages, downloadable instant messaging software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts and voice messages, computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; data processing equipment and systems, namely computer hardware for telecommunications and data processing hardware, computer hardware and software for the management of databases; electronic databases in the field of secure marketplaces recorded on computer media; computer software for securing and protecting data, networks and communications; virtual reality software for computers, namely software for installing, operating, configuring and controlling wearable virtual reality hardware and virtual reality peripherals for portable computers, virtual reality software for teaching in the fields of mechanical engineering, chemical engineering and electrical engineering, virtual reality software for medical teaching, for teaching in the field of materials science; data storage devices, namely blank tapes

for the storage of computer data, data storage devices being magnetic tapes, cassettes, discs, computer hardware for network attached storage (NAS) servers, cloud storage gateways; downloadable software applications for authenticating the parties involved in a financial transaction, for cryptographic security of electronic transmissions through computer networks, downloadable applications for mobile phones, electronic tablets and portable computers for accessing the Internet; computer application software, namely computer application software for mobile phones for use in database management, computer application software for accessing downloadable information directories from the global computer network; downloadable electronic publications in the nature of journals, magazines, catalogues, directories, information brochures, newsletters and books; authentication software, namely software for authenticating the identity of a payer; artificial intelligence software, namely artificial intelligence software for autonomous vehicles, computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behaviour analytics, computer software that provides real-time, integrated business management intelligence by combining information from various databases, downloadable computer software using artificial intelligence for facial recognition; electronic payment software, namely computer software for enabling users to perform electronic payment transactions, computer programs for use in e-commerce for processing electronic payments and authenticating the identity of payers; training software, namely downloadable learning management software for delivering and managing online training courses, augmented reality software for pilot training, augmented reality software for simulation training in the field of aviation, virtual reality training simulation software in the field of security, virtual reality training simulation software in the field of information technology; software for industrial automation, namely downloadable software application that applies artificial intelligence programming for automating machines for building construction, factory automation software, namely software for integrating manufacturing machine operations, tracking problems and generating production reports, industrial automation software for thermoformers, embedded software for automating industrial machines, sold as a component of electronic controllers and electronic motor drives; all the aforesaid goods operate as part of a computer platform in the form of software featuring digital cybersecurity services for the management of cloud infrastructure, database storage and backup, network administration, user support in the context of computer problems, the download and use of third-party applications, operations in, and maintenance of, safety conditions, in the fields of aerospace, aeronautics, defence, transport and security.

Services

Class 35

(1) Computer file management; collection of data in a central file, namely computerized and centralized file management; systematization of data in a central file; updating and maintenance of data in computer databases; sale and purchase of digital cybersecurity services for the benefit of others for the management of cloud infrastructure, database storage and backup, network administration, user support in the context of computer problems, the download and use of third-party applications, operations in, and maintenance of, safety conditions; invoicing; data search in computer files for others in the fields of aerospace, aeronautics, defence, transport and security; all the aforesaid services operate as part of a computer platform in the form of downloadable or recorded software featuring digital cybersecurity services for the management of cloud infrastructure, database storage and backup, network administration, user support in the context of computer problems, the download and use of third-party applications, operations in, and maintenance of, safety conditions, in the fields of aerospace, aeronautics, defence, transport and security.

Class 38

(2) Transmission of voice messages, text messages and images by means of wired, wireless and online networks; communications by and between computers and terminals for computers, namely email transmission of data and documents via computer terminals; satellite transmission, namely satellite transmission of messages and data for air navigation, satellite transmission of telephone signals; transmission of data, transfer of data, transmission of digital files, namely email transmission of data and documents via computer terminals, digital photographs, graphics, text, user-defined, by means of wireless computer networks; electronic communication of data, namely provision of electronic data interchange (EDI) services, provision of electronic transmission of contactless payment data via the Internet, provision of electronic data interchange (EDI) services of business documents and forms; provision of access to data or documents stored electronically in central files for remote consultation, namely provision of access to mobile Internet platforms, provision of access to mobile Internet portals, provision of multiple-user access to a computer network, provision of secure remote access via the Internet to private computer networks, provision of multiple-user access to a global computer network; provision of online forums; provision of access to databases; all the aforesaid services operate as part of a computer platform in the form of software featuring digital cybersecurity services for the management of cloud infrastructure, database storage and backup, network administration, user support in the context of computer problems, the download and use of third-party applications, operations in, and maintenance of, safety conditions, in the fields of aerospace, aeronautics, defence, transport and security.

Class 42

(3) Hosting of third-party interactive computer applications on a virtual private server, web hosting of software applications for others, hosting of servers and computer sites; technical advice in the field of cybersecurity; monitoring of computer systems for the detection of unauthorized access or breaches in data security and protection; computer security consulting; authentication services for computer security; electronic data storage for archiving commercial documents, business records, personal records and electronic messages; research and development of new products for others; analysis for the implementation of dedicated computer systems; programming of computers for creating and restoring databases; testing of computer system installations; design, development and maintenance of software; software design engineering, computer hardware engineering for the provision of software as a service (SaaS) featuring software for use in purchasing, selling, downloading, customizing, integrating and reviewing computer applications and software; data mining services; database design services; recovery of computer data; development of data processing programs for others; electronic data backup services; installation of database software; design of computer databases; software design, development and programming services; provision of access to a software services platform by means of access codes, namely provision of electronic verification of online orders for digital content and generation of electronic authorization codes that in turn provide users with access to said digital content; technical support services in the nature of software troubleshooting; cognitive systems engineering, namely computer language design, intelligent natural language understanding services using cloud-based software technology; high-speed digital data processing, namely software engineering services for data processing programs; technological consulting in the field of artificial intelligence, namely technical consulting in the field of monitoring technological functions of humanoid robots with artificial intelligence, computer consulting in the field of artificial intelligence, technical consulting in artificial intelligence; development of interconnection solutions between the Internet and objects, namely platforms as a service (PaaS) featuring computer operating software platforms for the management and connection of home entertainment systems for others that are compatible with

the Internet of Things (IoT), provision of non-downloadable software applications for managing, operating and connecting heating, ventilating and air conditioning (HVAC) systems that are compatible with the Internet of Things for others, accessible via a website, provision of non-downloadable software applications for managing, operating and connecting household appliances that are compatible with the Internet of Things for others, accessible via a website; compliance testing services, namely software as a service (SaaS) to enable data policy compliance of third-party user data, testing the services of others to determine compliance with certification standards; research in the field of artificial intelligence technology, in the field of computer data centre architecture, in the field of integrated system architecture, industrial research in the field of the computer hardware and software systems of others, scientific research to improve security screening, aviation security, X-ray security screening and X-ray security image interpretation; all the aforesaid services are related to a computer platform in the form of software featuring digital cybersecurity services for the management of cloud infrastructure, database storage and backup, network administration, user support in the context of computer problems, the download and use of third-party applications, operations in, and maintenance of, safety conditions, in the fields of aerospace, aeronautics, defence, transport and security; platform as a service (PaaS) services, being computer software platforms featuring digital services and innovative solutions in the fields of aerospace, aeronautics, defence, transport and security, namely platform as a service (PaaS) offering an online platform containing data governance software to manage a users' personal online privacy selection and consent, for automated cybersecurity monitoring and cybersecurity breach remediation, platform as a service (PaaS) provider for the design, development and deployment of data search and discovery applications; software as a service (SaaS) services being software featuring digital services and innovative solutions in the fields of aerospace, aeronautics, defence, transport and security, namely software as a service (SaaS) provider for hosting software for use by others in the collaborative development of software, software as a service (SaaS) provider for designing, developing and deploying data search and discovery applications, software as a service (SaaS) provider offering online non-downloadable software for project management, software as a service (SaaS) provider offering software for interactive online chat and messaging, software as a service (SaaS) provider offering automation software for the secure operation and integration of networked mobile applications of others hosted on cloud virtual servers, software as a service (SaaS) provider offering software to run data privacy policies for the safeguard of personal information online; cloud computing services being software featuring digital services and innovative solutions in the fields of aerospace, aeronautics, defence, transport and security, namely hosting of a website providing virtual computer environments through cloud computing, cloud services in the nature of updating of computer software relating to computer security and the prevention of computer risks, cloud services in the nature of monitoring of the condition and status of computer systems, cloud services in the nature of the monitoring of computer systems for detecting unauthorized access or data breach, computer services, namely integration of private and public cloud computing environments; temporary provision of online cloud computing software featuring digital services and innovative solutions in the fields of aerospace, aeronautics, defence, transport and security, namely provision of temporary access to online cloud-based non-downloadable software for business content management, business content integration and business record management, temporary online provision of non-downloadable operating software enabling access to a cloud computing network as well as its use, for the update of computer software relating to computer security and computer risk prevention; infrastructure as a service (IaaS), being computer software infrastructure featuring digital services and innovative solutions in the fields of aerospace, aeronautics, defence, transport and security, namely design and development of cloud computing infrastructure, development of platform as a service (PaaS) infrastructure for searching structured and unstructured data in the field of data

analytics, infrastructure as a service (IaaS) featuring computer software platforms for the synchronization, storage, archiving and backup of data to cloud servers, advisory services in the context of cloud computing deployment in the field of infrastructure as a service (IaaS).

(1) Hydrogen; catalysts for use in controlling the hydrogen emissions of motorized land vehicles.

Class 07

(2) Compressors, namely hydrogen compressors; hydrogen power generation stations, namely systems for the generation, compression, transfer and distribution of hydrogen gas from electrical energy using an automatic electronic control to autonomously regulate the complete industrial process, hydrogen dispensers for service stations.

(3) Hydrogen dispensing pumps for service stations.

Class 09

(4) Software booking application, namely mobile applications for booking taxis; downloadable software offering sharing and rental services for motorized land vehicles; computer software for identifying the location of motorized land vehicles; database management software.

(5) Fuel cells, regulators, namely load regulators for electric motorized land vehicles, voltage regulators for motorized land vehicles, electrolyzers, namely hydrogen electrolyzers.

Class 12

(6) Vehicles, namely motorized land vehicles, hydrogen motorized land vehicles; electric motorized land vehicles; hybrid motorized land vehicles; hydrogen fuel cell electric vehicles, namely fuel cell electric motorized land vehicles, autonomous vehicles, self-loading motorized land vehicles; parts and accessories for hydrogen cars, electric cars, hybrid cars, namely car seat mats, roof racks, car seat cushions, ski racks, towing ropes and bars, windshield sunshades; suspension shock absorbers for automobiles; brake systems for motorized land vehicles; transmission mechanisms for hydrogen motorized electric vehicles; transmission mechanisms for land vehicles; axle bearings for land vehicles; motors and engines for land vehicles; hydrogen propulsion systems for motorized land vehicles, fuel tanks for vehicles.

Services

Class 37

(1) Hydrogen gas fuelling stations for vehicles; maintenance and repair of motorized land vehicles and provision of information related to the servicing and repair of motorized land vehicles.

Class 39

(2) Transport, namely transport by taxi; information related to transport by motorized land vehicles; logistics services related to the transport of people by motorized land vehicles; distribution (delivery of goods), namely delivery of parcels and goods by automobile; garage and parking space rental; vehicle rental; booking of travel, namely booking of taxi rides; provision of online information related to the planning and booking of travel and transport by electronic means, namely the booking of taxi rides; computerized information services related to the transport of passengers electric motorized land vehicles, motorized land vehicles, hydrogen motorized land vehicles, hybrid motorized land vehicles; rental of hydrogen cars; provision of taxi booking services via mobile applications.

Class 40

(3) Generation of energy; generation of hydrogen; information and advisory services related to the generation of energy; rental of equipment for the generation of energy.

Apparatus for recording, transmitting or reproducing sound, namely radio and sound signal transmitters and receivers, audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, audio mixers and sound mixers, audio processors, audio transformers, acoustic systems consisting of loudspeakers and enclosures for use with speakers; audio speaker enclosures and their constituent parts; sound amplifiers and their constituent parts; audio receivers; headphones, namely music headphones, wireless music headphones, noise cancelling headphones, personal headphones for use with sound transmitting systems; wireless audio transmitters and receivers; high-fidelity audio apparatus, namely high-fidelity public address apparatus, high-fidelity sound systems and high-fidelity sound bars; stands adapted for loudspeakers; noise reduction apparatus for audio recording systems, namely fabric sound filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software, all for noise reduction in audio recording systems; portable sound reproduction apparatus, namely digital music players and portable speakers; remote control apparatus, namely remote controls for sound systems, sound amplifiers, signal amplifiers, multi-channel audio tuners, radios, music players, audio speakers and speaker enclosures, audio transmitters and receivers; speakers; high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft, in the nature of audio speakers for audio systems and their specially adapted housings, audio amplifiers, multi-channel audio tuners, multi-channel audio tuners for sound broadcasting, audio transceivers, radio antennas and digital media players, for motor vehicles, motorcycles, aircraft and watercraft.

Services

Class 37

(1) Installation, maintenance and repair services for audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; installation, maintenance, repair, servicing, modernization and troubleshooting, all related to audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; provision of information and dispensing of advice about the installation, maintenance, repair, servicing, modernization and troubleshooting, all related to audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-

channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player.

Class 42

(2) Scientific and technological services and research and design relating thereto, all these services rendered concerning public address, broadcasting and distribution of sound in space and in relation to with the design of audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; conduct of technical project studies concerning public address, broadcasting and distribution of sound in space and in relation to the design of audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; technical research services, concerning public address, broadcasting and distribution of sound in space and in relation to the design of audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio

apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; research and development of new products for others; industrial design services; software design, development, installation and maintenance services; design, development, installation and advisory services, all related to public address, broadcasting and distribution of sound in space and to audio cassette players, CD-ROM players and MP3 players, and sound and music recorders, multi-channel audio tuners, audio amplifiers and sound projectors, acoustic systems consisting of speakers and enclosures for use with speakers, audio speaker enclosures and their constituent parts, sound amplifiers and their constituent parts, audio receivers, music headphones, personal headphones for use with sound transmitting systems, wireless audio transmitters and receivers, high-fidelity public address systems, high-fidelity sound systems and high-fidelity sound bars, stands adapted for speakers, fabric acoustic filters for radio apparatus, for audio apparatus, acoustic filters for interference suppression for radio apparatus, for audio apparatus, electronic audio signal processors for compensating sound distortion in speakers and for active noise cancellation, electronic circuits and recorded software for reducing noise in audio recording systems, digital music players and portable speakers, remote controls for sound systems, sound amplifiers, multi-channel audio tuners, radios, music players, audio speakers and loudspeaker enclosures, audio transmitters and receivers, speakers, high-fidelity audio equipment for motor vehicles, motorcycles, aircraft and watercraft, in the nature of audio speakers for audio systems and their specially adapted housings, an audio amplifier, a multi-channel audio tuner, a multi-channel audio tuner for sound broadcasting, an audio transceiver, a radio antenna and a digital media player; planning and design services related to sound signal adjustment and distribution equipment, for public address, broadcasting and distribution of sound in space.

Trademark Description

The mark consists of the letter "O" shaped like ring with a line appearing over it.

Goods

Class 09

(1) Wearable computers in the nature of smart personal devices, namely personal digital assistants, smart phones, audio and video players and recorders, smart glasses, headbands, wrist bands, watches, activity trackers, smart rings, and smart jewelry; GPS receivers and transmitters incorporating software for GPS navigation systems in the form of wearable smart personal devices; wearable devices namely wearable computers in the nature of smart data communication personal devices, namely personal digital assistants, smart phones, audio and video players and recorders, smart glasses, headbands, wrist bands, watches, activity trackers, smart rings, and smart jewellery that transmit data to computers and mobile devices; smart rings; smart jewelry in the nature of smart rings and smart wristbands that communicate data to other electronic devices; wireless chargers for smart phones, personal digital assistants, tablet computers, portable computers, speakers and headphones; wireless chargers and protective covers and cases for

wearable smart devices, namely watches, smart jewelry, headbands, wristbands, activity trackers, and smart glasses; chargers for general purpose batteries; chargers for smart rings; battery cases; general purpose batteries; batteries namely for personal digital assistants, smart phones, audio and video players and recorders, smart glasses, headbands, wrist bands, watches; biometric identification apparatus, namely biometric identification access control systems and related biometric identification sensors; biometric locks incorporating biometric scanners for use with biometric wearable devices; eyewear, namely, blue light blocking glasses; protective covers and cases for mobile telecommunications devices, namely smart phones and personal digital assistants; cryptocurrency hardware wallets; wearable computers in the nature of smart personal devices, namely personal digital assistants, smart phones, audio and video players and recorders, smart glasses, headbands, wrist bands, watches, activity trackers, smart rings, and smart jewelry for measuring and analyzing the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for purposes other than medical and therapeutic purposes; devices and instruments to be placed on the human body and other devices and instruments namely, health, fitness and wellness sensors incorporated into wearable personal computerized devices for measuring and analyzing recovery from physical and emotional stress, human alertness level and performance, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for purposes other than medical and therapeutic purposes; downloadable computer programs for measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance, and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; downloadable computer databases featuring data from the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; downloadable computer software that enables users to enter, access, track, monitor and generate health and medical information and reports; downloadable computer software through which users may listen to auditory content in the field of meditation, relaxation, breathing exercises, mindfulness, and wellness; downloadable computer software for facilitating commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; downloadable computer software for use in contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; downloadable computer software for transmitting, processing, facilitating, verifying, and authenticating credit and debit card information and transaction and payment information; downloadable computer software for ensuring the security of online and mobile payments, of contactless transactions with retailers, merchants and vendors via mobile and wearable devices, and of credit and debit card information; downloadable computer software for use in the capture, storage, management, transmission, verification, and authentication of credit and debit card transactions and payment information; downloadable computer software for enabling the electronic transfer of money between users; downloadable computer software for enabling processing of electronic funds transfers and payments made via automated clearing house (ach), credit card, debit card, prepaid cards, wireless wallets, mobile wallets, electronic wallets, electronic check and electronic, mobile and online payments.

Class 10

(2) Wearable monitors used to measure biometric data for medical use; medical devices for monitoring health consisting of heart rate monitors, respiration rate monitors, blood oxygen monitors, thermometers, and pedometers; medical device used for the measuring, acquisition of, and displaying of physiologic data, namely, blood oxygen levels, heart rate, respiratory rate, bio-signals, and temperature; medical devices, namely, a device for measuring and analyzing during sleep the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes; biometric sensors incorporated into jewelry, watches, glasses, headbands, wristbands, and into tags and patches for attaching to clothing and to portable personal electronic devices, for measuring and analyzing the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes; biometric sensors incorporated into jewelry, watches, glasses, headbands, wristbands, and into tags and patches for attaching to clothing and to portable personal electronic devices, for measuring and analyzing recovery from physical and emotional stress, human alertness level and performance, and for displaying, storing, sending, transmitting and receiving instructions and data relating to any of the above, for medical and therapeutic purposes.

Class 14

(3) Rings being jewelry; boxes and cases for jewelry; diamond jewelry; jewelry.

Class 18

(4) Bags, namely, duffel bags, tote bags, backpacks, and all-purpose sports bags.

Class 20

(5) Mattresses; pillows; sleep products, namely, mattresses, spring mattresses, box springs, and mattress foundations; mattress toppers.

Class 24

(6) Bed blankets; lap blankets.

Class 27

(7) Yoga mats.

Class 28

(8) Exercise equipment, namely, rowing machines, treadmills, elliptical exercise machines, stair-stepping machines, weight-lifting machines, and stationary cycles.

Services**Class 35**

(1) Wholesale, retail and online retail store services featuring fitness trackers, medical devices, wearable devices, namely wearable computers in the nature of smart personal electronic devices, activity trackers, smart rings, and smart jewelry, protective cases and covers for portable personal electronic devices, jewelry, batteries and electric chargers for smart phones, headphones, watches, speakers, portable personal electronic devices, and wearable computers in the nature of smart personal electronic devices, activity trackers, smart rings, and smart jewelry, jewelry boxes, jewelry cases; business administration services related to retail store services and processing sales, including sales made on the internet; business administration services related to

subscriptions services for the purposes of data collection, management, and analytics; managed care services, namely, electronic processing of health care information, namely patient records and personal data.

Class 36

(2) Financial services, namely, providing, transmitting, processing, facilitating and authenticating mobile payments, and contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; financial services, namely, processing and administration of mobile payments and contactless debit and credit card transactions, electronic wallet payments, loyalty reward card transactions, and bill payment transactions with retailers, merchants, and vendors via mobile and wearable devices; financial services, namely, providing secure payments for commercial transactions; electronic payment services, namely, electronic processing and subsequent transmission of bill payment data; electronic payment services, namely, electronic processing and subsequent transfer of electronic funds and payments via automated clearing house (ach), credit card, debit card, prepaid cards, wireless wallets, mobile wallets, electronic wallets, electronic check, and electronic, mobile, and online payments; electronic payment services, namely, providing multiple payment options by means of mobile contact payment systems and digital wallets allowing access to credit and debit card information for facilitating credit and debit card processing services; financial transaction services, namely, providing secure commercial transactions and payment options; financial transaction services, namely, providing secure payments for commercial transactions using a mobile or wearable computer device at a point of sale; bill payment services; debit and credit card services; credit card verification services; credit card and transaction processing terminal services using near field communication (nfc) technology; integrated services of mobile electronic wallet and mobile payment, namely, electronic transfer of funds and processing electronic funds transfer via mobile and wearable computing devices; payment verification services; cryptocurrency payment processing.

Class 41

(3) Consulting services in the fields of physical fitness and exercise; providing information about fitness and exercise via a website; entertainment services in the nature of development, creation, production, and post-production of multimedia entertainment content, namely music and blog posts, social media posts and videos all in the field of health and wellness; entertainment services in the nature of non-downloadable pre-recorded readings of literary works, music, breathing exercises, and relaxation sounds; coaching in the field of sports; health club services, namely, providing instruction and equipment in the field of physical exercise; physical fitness instruction; meditation training; personal coaching services in the fields of meditation, general health and wellness, fitness, and physical exercise; providing information in relation to entertainment and educational services in the field of general health and wellness, sleep, meditation, and mindfulness via a website; weblog services namely online publication of journals and diaries featuring information, research, stories, and news on topics related to general health and wellness, sleep, meditation, and mindfulness; providing educational information in the nature of current research and studies in the field of general health and wellness, sleep, meditation, and mindfulness; providing information in the fields of general health and wellness, sleep, meditation, and mindfulness, via a website featuring training and instruction information and videos, news programs, and featuring non-downloadable sound recordings, and non-downloadable multimedia video recordings; provision of online journals, namely, blogs featuring information, stories, and news on topics related to general health and wellness, sleep, meditation, and mindfulness;

Class 42

(4) Providing technology information online on the functions and use of wearable technological products namely computerized devices incorporating biometric sensors; hosting of an interactive website featuring technology that enables users to enter, access, track, monitor and generate health and medical information and reports; hosting computer software applications featuring technology that enables users to enter, access, track, monitor and generate health and medical information and reports; providing temporary use of online non-downloadable computer software for measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance, and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; providing temporary use of online non-downloadable computer software featuring data from the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance and for displaying, storing, sending, transmitting and receiving of instructions and data relating to any of the above; providing temporary use of online non-downloadable computer software that enables users to enter, access, track, monitor and generate health and medical information and reports; providing temporary use of online non-downloadable computer software for use in connection with facilitating commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; providing temporary use of online non-downloadable computer software for use in contactless transactions with retailers, merchants, and vendors via wireless networks, global computer networks, and mobile and wearable devices; providing temporary use of online non-downloadable computer software for processing electronic payments; providing temporary use of online non-downloadable computer software for use as an electronic wallet; providing online, non-downloadable computer software for use as a cryptocurrency wallet; hosting a website to facilitate commercial transactions through electronic means via wireless networks, global computer networks, and mobile and wearable devices; hosting a website to facilitate contactless transactions with retailers, merchants, and vendors via mobile and wearable devices; providing user authentication services using biometric hardware and software technology for secure entry and exit door access, for remote operation and management of smart home electronic devices and remote auto locking and starting devices, for operation and management of personal assistant devices, and for controlling personal health information access; providing user authentication services using technology for e-commerce transactions; providing user authentication services using biometric hardware and software technology for e-commerce transactions; provision of online non-downloadable computer software through which users may listen to auditory content in the field of meditation, relaxation, breathing exercises, mindfulness, health and wellness; scientific research relating to the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance; medical research relating to the measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data, bio-signals and bodily behavior, recovery from physical and emotional stress, and human alertness level and performance; provision of online journals, namely, blogs containing research on topics related to general health and wellness, sleep, meditation, and mindfulness; providing news in the nature of current research and studies in the field of general health and wellness, sleep, meditation, and mindfulness;

(5) Medical evaluation services for measurement and analysis of the body's autonomic nervous system, physical parameters and other physiological data and bio-signals for diagnostic or treatment purposes; medical assistance services provided via telecommunication and global computer networks for individuals with health problems through the use of wearable medical devices with automated alert and monitoring capacity; remote monitoring of data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes; providing medical advice, consultancy, and information relating to the measurement and analysis of bodily behavior, sleep, recovery from physical and emotional stress, and human alertness levels and performance; healthcare services, namely, online wellness programs, namely weight loss programs, fitness and meditation programs; providing wellness services in the field of healthcare, namely, personalized general health assessments, personalized daily nutritional, exercise, and personal tasks routines, health counseling services in the fields of fitness and general health and wellness; psychological counseling services; medical testing for fitness evaluation; providing physical health information via a website; meditation therapy services; meditation therapy services offered in or from a remote location.

RENESCO

Trademark Type

Standard Characters

Goods**Class 01**

(1) Chemical sealants for the sealing of walls; chemical sealants for the sealing of floors; chemical sealants for the sealing of roofing; adhesives for use in the construction industry.

Class 02

(2) Anti-corrosive coatings in the form of paints, varnishes and lacquers for use in the structural waterproofing industry.

Class 06

(3) Reinforcing materials of metal for concrete; metal facade panels for construction.

Class 17

(4) Packing materials; stopping cotton; low-density polyurethane foam for insulation; fibreglass fabrics for insulation; fibreglass insulation materials for use in construction; polyurethane foam sheeting for use as building insulation; resin-based sealants for use on roofs, walls and pavements; resins in extruded form for industrial use; semi-processed synthetic resins; semi-processed thermoplastic polymer resins; polyurethane resins, semi-processed.

Class 19

(5) Non-metal building construction materials, namely roof, façade, wall and floor coverings and their parts and fittings, namely weatherboards; panels of precast concrete for buildings; industrial concrete for use in civil engineering works; geotextile fabrics for use in civil engineering; road asphalt; concrete plates for building; asphalt felt for construction; bitumen building materials; fibreglass fabrics for the reinforcement of structures; lumber; concrete structural columns for buildings; concrete structural beams; wooden structural beams; glass slabs for use in building; construction material, namely fiberglass faced sheathing; construction material, namely fiberglass panels.

Services

Class 37

(1) Waterproofing services for construction; construction dewatering, namely the removal of surface waters and ground waters to facilitate the construction of structures and pipelines; waterproofing services for tunnels; concrete resurfacing services; building restoration; restoration of residential and commercial properties damaged by water; jointing services.

Class 42

(2) Construction consulting in the fields of the building industry and civil engineering, construction project engineering consulting; research related to building construction; technical project studies in the field of construction; construction project engineering; conduct of research, development and evaluations in the field of waterproofing services for construction.

Goods

Class 09

Downloadable software in the nature of mobile applications, used in the fields of transportation, shipping and delivery services, for providing statistical analysis, monitoring, and tracking information on the transportation and delivery of goods, supporting automated scheduling and dispatching of freight carrier vehicles, coordinating shipping services, engaging shipping services, and freight forwarding.

Services

Class 35

(1) Freight management services, namely business logistics management in the field of freight transportation.

Class 39

(2) Logistics and supply chain services, namely, storage of goods for others, transportation and delivery of goods for others by air, ship and truck; transportation and delivery of freight by air, automobile, truck, and ship; freight and transportation brokerage services; transportation logistics services, namely, arranging for the transportation of goods for others, and scheduling shipments for users of transportation services.

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, green, red, pink, and gray are claimed as a feature of the mark. The mark consists of the stylized wording "VITRAFY" in black with a superscript hollow circle in the color green following the letter "Y." Above and to the right of this wording is the incomplete design of a male figure made of glass in various shades of gray with arms outstretched and a red heart inside his chest with pink shading emanating from the heart. The color white represents transparent area and is not a part of the mark.

Goods

Class 09

(1) Apparatus for recording, transmission or reproduction of sound or images, namely computers, blank discs for computers, computer printers, computer monitors, intelligent copiers, computer keyboards, computer mouse, video recorders, audio and video receivers, audio recorders, television receivers, audio receivers, data loggers, mobile data terminal (mdt), radios, image scanners, optical fibers for the transmission of sounds and images, audio amplifiers, microphones; computer software for the monitoring of cryogenic equipment in the nature of cryogenic storage tanks, cryogenic freezers, cryogenic pumps, cryogenic thawers and cryogenic vaporizers, and for tracking and monitoring the condition of cryogenically preserved foodstuffs, blood plasma, human cells, stem cells, and plant and animal material, namely, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, during

transportation and storage; computer programs for process automation for controlling cryogenics and cryopreservation equipment in the nature of cryogenic storage tanks, cryogenic freezers, cryogenic pumps, cryogenic thawers and cryogenic vaporizers; computer software in the field of cryogenics and cryopreservation, namely, computer software for monitoring cryogenic equipment in the nature of cryogenic storage tanks, cryogenic freezers, cryogenic pumps, cryogenic thawers and cryogenic vaporizers and for determining the optimum cryopreservation conditions for the preservation and storage of foodstuffs, blood plasma, human cells, stem cells, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen; computer software, firmware and hardware for use in operating industrial equipment, namely, cryogenic storage tanks, cryogenic freezers, cryogenic pumps, cryogenic thawers and cryogenic vaporizers; computer application software for mobile phones for cryogenics and cryopreservation, namely, for monitoring cryogenic storage tanks, cryogenic freezers, cryogenic pumps, cryogenic thawers and cryogenic vaporizers; computer application software for mobile phones for cryogenics and cryopreservation, namely, for determining the optimum cryopreservation conditions for the preservation and storage of foodstuffs, blood plasma, human cells, stem cells, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen; computer application software for mobile phones for cryogenics and cryopreservation, namely, for tracking and monitoring the condition of cryogenically preserved foodstuffs, blood plasma, human cells, stem cells, and plant and animal material, namely, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, during transportation and storage; computer application software for mobile phones for logistics tracking, process automation, data-logging, fleet tracking, and cold chain logistics management; apparatus for analysing substances other than for medical use, namely, diagnostic laboratory equipment in the nature of histology instruments and cytology instruments for assessing the viability of human and animal products and plant materials preserved using cryogenic processes; apparatus for carrying out diagnostic tests other than for medical purposes, namely, diagnostic laboratory equipment in the nature of histology instruments and cytology instruments for assessing the viability of human and animal products and plant materials preserved using cryogenic processes; scientific apparatus for use in the preparation of materials other than for medical use, namely, laboratory apparatus and instruments being cryostats and cryomicrotomes for preparing human and animal biological materials and plant materials for cryopreservation; temperature sensors other than for medical use; temperature control apparatus in the nature of thermostats for machines; temperature indicators; temperature sensors for industrial use; temperature sensors for scientific use; scientific apparatus and instruments for use in the field of diagnostic laboratory equipment for assessing the viability of human and animal products and plant materials preserved using cryogenic processes; apparatus for testing the quality of food products, namely, mass spectrometers, pH meters, refractometers, viscometers and densitometers; computer hardware for the processing of data; data transmission cables; apparatus for use in data logging, namely, data loggers; blood cell analysing and separation apparatus other than for medical use, namely, filters for blood and blood components for laboratory use; calibration instruments, namely, calibrating devices for calibrating cryogenic and cryopreservation equipment; control apparatus for use in refrigeration, freezing or cryogenics, namely, power controllers, remote controls for automation instruments in the fields of cryogenics and cryopreservation, temperature controllers and flow control regulators in the nature of control valves for regulating the flow of gases and liquids; cryogenic temperature monitors; cryostats, namely, device used to maintain low cryogenic temperatures of biological samples, for laboratory use; flow measuring apparatus being flow meters; cryogenics other than for medical use, namely, cryoprobes, control valves for regulating the flow of cryogenic liquids, temperature sensors, flow meters, and cryogenic equipment automation controllers; scientific apparatus and instruments for use in the preservation of plant, animal or biological materials other than for medical use, namely,

cryoprobes, control valves for regulating the flow of cryogenic liquids, temperature sensors, flow meters, and cryogenic equipment automation controllers; electronic publications, namely, books, magazines, newsletters, periodicals, guides, technical journals and manuals, in the fields of cryogenics, cryopreservation, and cryogenics research; instructional and other manuals in electronic format sold together with computer hardware, software and firmware as a unit; data storage apparatus, namely, disk drives, blank flash memory drives, blank tapes for storage of computer data, and blank memories for data processing equipment; sensors for detecting chemical substances other than for medical use; diagnostic apparatus for industrial or scientific use, namely, diagnostic laboratory equipment in the nature of histology instruments and cytology instruments for assessing the viability of human and animal products and plant materials preserved using cryogenic apparatus; scientific apparatus, namely, microtomes, slide stainer, microscopes, and pH Meters, for use in the processing of histological specimens; scientific apparatus, namely, microtomes, slide stainer, microscopes, and pH Meters, for use in the separation of chemical compounds.

Class 10

(2) Surgical instruments; dental instruments; veterinary instruments; Analysis apparatus for medical use, namely analysers for bacterial identification for medical purposes, hematology analyzers for medical diagnostic uses, and flow-based analyzers providing cell and particle analysis, detection, or counting for medical, clinical, medical diagnostic, and therapeutic uses; Analytical instruments for medical use, namely, medical diagnostic instruments in the nature of body fluid analyzer for the analysis of body fluids; analytical instruments for medical use, namely, surgical devices that facilitate the identification, separation or ablation of biological tissues; Apparatus for medical use, namely, dosage dispensers for administering medicine to patients, medicinal catheters, injection needles for medical use, apparatus for taking blood, dissecting instruments for medical use, probes for medical purposes, infusion and injection devices for administering drugs, medical apparatus in the nature of medical introducers for introducing pharmaceutical preparations into the human body; apparatus for medical use, namely, tubing and bag assembly set and other similar or related devices, which process and treat human platelets with clinical medical reagents for the purpose of enabling the refrigerated storage of human platelets for blood groups for use in blood transfusions; apparatus for medical use, namely, cryotherapy machines for medical purposes; apparatus for medical use, namely, heat and moisture exchanger for medical use; apparatus for medical use, namely, blood filters; apparatus for analysing substances for medical use, namely, apparatus for blood analysis, namely, blood test analysers; apparatus for analysing substances for medical use, namely, blood component separation apparatus for medical purposes being filters for blood and blood components; apparatus and instruments for use in the field of cryogenics for medical use, namely, cryoprobes for treatment and removal of tumors, control valves for regulating the flow of cryogenic liquids, electronic temperature monitors for regulating the flow of cryogenic liquids, flow cytometers, medical cryogenic equipment automation controllers and medical cryostats; apparatus and instruments for use in the preservation of plant, animal or biological materials for medical use, namely, control valves for the regulating the flow of cryogenic liquids, electronic temperature monitors for medical use, flow cytometers, medical cryogenic equipment automation controllers and medical cryostats; blood cell analysing apparatus for medical use, namely, medical devices for the qualitative detection of antibodies in human specimens collected as plasma; medical apparatus in the nature of medical cytology supplies for diagnostic testing of biological samples; scientific apparatus, namely, microbiology analyzers for use in recording biochemical reactions for medical use; apparatus for use in the preparation of materials for medical use, namely, electronic equipment being cryostats and cryomicrotomes for use in preparing human and animal biological

materials and plant materials for cryopreservation for medical purposes; temperature measuring apparatus and instruments for medical use, namely, electronic temperature monitors for medical purposes and temperature indicator labels for medical purposes; temperature monitors for medical use; temperature sensors for medical use; test equipment for medical use, namely, diagnostic apparatus in the nature of histology instruments and cytology instruments for assessing the viability for medical use of human and animal products and plant materials preserved using cryogenic processes; testing apparatus for medical diagnostic purposes, namely, medical diagnostic apparatus in the nature of histology instruments and cytology instruments for assessing the viability for medical, transplantation and transfusion use of human and animal products and plant materials preserved using cryogenic processes; proteomic sample preparation instrument for processing and preparing biological samples for analysis for medical diagnostic use; medical instruments for taking human blood, cell, saliva, urine and sputum sample specimens for medical diagnostic use; scientific apparatus for use in testing blood for medical use, namely, blood gas analyzer, blood sampling tubes, blood collection bags for medical purposes, empty, and blood analytes concentration measuring apparatus; tubing for medical use, namely, tubing for use with catheters, tubing for use with cannulas, tracheostomy tubes, drainage tubes for medical purposes and capillary tubes for blood for medical use.

Class 11

(3) Installations for cooling in the nature of refrigerating installations of foodstuffs, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, medical materials, embryos, human egg cells, semen, and plant materials; steam generating installations; ventilating hoods and fans; air cooling appliances and installations for foodstuffs, medical materials, blood plasma, human cells, stem cells and other human and animal biological products and plant materials; air freezing apparatus and installations in the nature of freezers and cryogenic freezers for agricultural, commercial or industrial use; air freezing apparatus and installations in the nature of freezers and cryogenic freezers for use in food processing; apparatus and installations for use in freezing, namely, cryogenic freezers, for use in the cryogenic preservation of foodstuffs and plant materials; apparatus and installations for use in freezing, namely, cryogenic freezers for use in the cryogenic preservation of medical materials; apparatus and installations for freezing, namely, cryogenic freezers for use in the cryogenic preservation of blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen; freezers; freezers for freezing foodstuffs; refrigerators; apparatus and installations for the cooling of foodstuffs, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen and plant materials using liquefied gases, namely cryogenic storage tanks and cryogenic freezers; apparatus and installations in the nature of freezers, cooling units for industrial purposes and cooling apparatus for medical storage purposes for the cooling of foodstuffs, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen and plant materials using cold gases, namely, apparatus and installations in the nature of freezers, cooling units for industrial purposes and cooling apparatus for medical storage purposes; apparatus and installations in the nature of freezers, cooling units for industrial purposes and cooling apparatus for medical storage purposes for the cooling of foodstuffs, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen and plant materials using cold gases, namely, apparatus and installations in the nature of freezers, cooling units for industrial purposes and cooling apparatus for medical storage purposes; apparatus and installations, namely cryogenic freezers, for the cooling of plant materials using liquefied gases;

chilling apparatus, appliances and machines in the nature of freezers and air coolers for medical storage purposes; cold cabinets; cold storage rooms; cooling installations, namely, refrigerators and freezers, for deep freezing of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen; cooling apparatus, installations and machines, namely, refrigerators and freezers, for the preservation of foodstuffs, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen; cooling apparatus, installations and machines, namely, refrigerators and freezers, for the preservation of plant materials; cryogenic apparatus, namely, cryogenic freezers for use in the preservation of foodstuffs, and the freezing of medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen and plant materials; cryostats, other than for laboratory use; apparatus and installations for use in the cryogenic preservation of foodstuffs and the freezing of plant materials, namely, cryogenic freezers; apparatus and installations for use in the cryogenic preservation of medical materials, namely, cryogenic freezers for medical storage purposes; deep freezers; freezing plates; freezer storage units; heat exchangers for the removal of condensate; heat exchangers for transferring heat between fluid streams; installations for cooling for scientific or biotechnological purposes, namely, cryogenic freezers for use in the freezing and preservation of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen; level control valves; liquid coolers (apparatus); level control valves being component parts of freezers, cryogenic freezers; machines for use in processing meat (freezing); machines for use in processing vegetables (freezing); refrigerant compressors; refrigerant condensers; refrigerated chambers; refrigerating machines for use in industrial refrigeration; apparatus and installations in the nature of temperature control valves for use in the freezing and preservation of foodstuffs, plant materials, medical materials, bioplasma, human cells, stem cells and other human and animal biological products, namely, valves being component parts of freezers, cryogenic freezers, cooling units for industrial purposes and cooling apparatus for medical storage purposes; thawing apparatus utilising heat for thawing cryogenically preserved foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, cryogenically preserved blood plasma, cryogenically preserved foodstuffs, embryos, human egg cells, semen.

Services

Class 37

(1) Installation of medical laboratory machines, computer hardware, cryogenics freezers and refrigerators, medical instruments and equipment; servicing, maintenance and repair of computer hardware, cryogenics apparatus and equipment, freezers and refrigerators, medical instruments and equipment; sterilisation of goods or equipment namely medical equipment and cryogenic freezers; information, advisory and consultancy services in relation to the aforesaid.

Class 40

(2) Freezing of foods; food preservation; preservation of pharmaceuticals; preservation of food and drink; cryopreservation services; cryopreservation of foodstuffs, medical materials, blood plasma, human cells, stem cells, embryos, human egg cells, semen; cryopreservation of plant materials; information, advisory and consultancy services in relation to the aforesaid.

Class 42

(3) Scientific and technological research and industrial design in the fields of biochemical engineering, biochemistry, cryogenics and cryopreservation; industrial analysis and industrial research services in the fields of biochemical engineering, biochemistry, cryogenics and

cryopreservation; design and development of computer hardware and software; analysis of tissues for medical research; analytical laboratory services for analysis of blood plasma and stem cells; biochemical engineering services, including in the field of cryogenics; biochemistry services in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, embryos, human egg cells, semen; biological research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, embryos, human egg cells, semen; biotechnological research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, embryos, human egg cells, semen; biotechnology research; biotechnology testing; chemical laboratory services, including in the field of cryogenics; chemical research, including in the field of cryogenics and cryopreservation of foodstuffs, plant materials, medical materials, blood plasma, human cells, stem cells, embryos, human egg cells, semen; chemical technological research; computer software design, development, programming and maintenance, including for computer software in the fields of cryogenics and cryopreservation; computer software design, development, programming and maintenance services in relation to software for the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software engineering; provision of online non-downloadable software in the fields of cryogenics and cryopreservation, namely, computer software for monitoring cryogenic equipment and for determining the optimum cryopreservation conditions for the preservation and storage of foodstuffs, blood plasma, human cells, stem cells, other human and animal biological products and plant materials; cloud computing services, namely, cloud computing services in relation to the operation of cryogenics and cryopreservation equipment, apparatus and instruments; computer software design, development, programming and maintenance services in relation to software for the operation of medical and laboratory equipment, apparatus and instruments; computer software design, development, programming and maintenance services in relation to software for the operation of industrial equipment and plant; cloud computing services, namely, cloud computing services in relation to the operation of medical and laboratory equipment, apparatus and instruments; cloud computing services, namely, cloud computing services in relation to the operation of industrial equipment and plant; conducting clinical trials and feasibility studies, including in the fields of cryogenics and cryopreservation; electronic data storage for archiving business records; cloud computing provider services for general storage of data; design and development of industrial machinery for others, in the fields of cryogenics and cryopreservation; design and development of medical apparatus and instruments for others, in the fields of cryogenics and cryopreservation; design and development of storage systems, namely, design of cryogenic and cryopreservation storage systems; design and development of medical test apparatus and equipment for use in in cryogenics and cryopreservation; development of computer software for the processing, storage and transmission of data in the fields of cryogenics and cryopreservation; industrial design and research for others in the field of cryogenics and cryopreservation apparatus and equipment; laboratory analysis and research in the fields of bacteriology, chemistry, cryogenics and cryopreservation; laboratory testing services, namely, assessing the viability of foodstuffs, human and animal products, blood plasma and plant materials preserved using cryogenic processes for others all for scientific research purposes; medical laboratory services; medical research, including in the fields of cryogenics and cryopreservation; microbiological testing; quality control of goods, namely, testing of the continued viability of cryogenically preserved medical materials, blood plasma, human cells, stem cells; rental of scientific equipment and instruments in the field of cryogenics and cryopreservation of foodstuffs, cell cultures, plant materials, medical materials, blood plasma, human cells, animal cells, stem cells, embryos, human egg cells, semen; research relating to molecular sciences; research relating to pharmaceuticals; research relating to cryogenics and

cryopreservation; scientific laboratory services in the fields of cryogenics and cryopreservation; scientific research, namely in the fields of cryogenics and cryopreservation; scientific research in the field of chemical biology; scientific research relating to chemical products in the field of cryogenics; scientific research in the field of chemistry; testing of products namely, assessing the viability of foodstuffs, human and animal products, blood plasma, and plant materials preserved using cryogenic processes; toxicity analysis; preparation of reports relating to chemical, scientific or technical research, namely, preparation of reports on research in the fields of cryogenics and cryopreservation.

AIRELLES

Colour Claim

Colour is claimed as a feature of the trademark. The term AIRELLES and the line underneath are black, and the design of leaves with fruits is gold.

Goods

Class 03

(1) Shampoos, conditioners, shower gel, bubble bath, body lotion, moisturizing body lotion, hand soaps, bath soaps, perfumery, bleaching preparations for cosmetic use, washing powders, multi-purpose cleaning preparations, floor polishing preparations, degreasers for household use, abrasives for general use, lavender essential oil for aromatherapy, eucalyptus essential oil for aromatherapy, lemongrass essential oil, tea-tree essential oil for aromatherapy, castor essential oil for cosmetic use, mint essential oil, coconut essential oil, chamomile essential oil, ginger essential oil and thyme essential oil, cosmetics, lotions for the hair, toothpastes, makeup, perfume.

Class 04

(2) Votive candles; candles; tapers; scented candles; aromatic candles.

Class 18

(3) Trunks, suitcases, umbrellas, travel bags, toiletry cases, sold empty, cases for personal effects, attaché cases for documents, wallets, backpacks, travel kits [leatherwork], leather bags for packaging, bags made of leather for packaging, handbags.

Class 21

(4) Porcelain, earthenware; compacts, kitchen utensils and containers, namely dishes, dinnerware, meal trays, ice cube trays, serving trays, napkin rings, glass bottles, candy dishes, corkscrews, carafes, egg cups, table mats, cutting boards for the kitchen, pepper pots, cups, bowls, china mugs, coffee travel mugs, carafe coasters; kitchen brushes, scouring sponges, cleaning cloths, dusting cloths, cleaning rags; towel holders; statues and figurines (statuettes) made of porcelain, earthenware and glass; candle holders, candlesticks, candle jars, vases; toilet utensils and kits, namely hair combs and brushes, compacts, toilet sponges; works of art made of porcelain, works of art made of earthenware, works of art made of glass, decorative objects made of ceramic.

Class 24

(5) Upholstery fabrics, synthetic textile materials and fabrics for the manufacture of clothing, textile fabrics for interior decorating; table linen of textile; bath linen (except apparel); bed and bath linen, bath linen, kitchen linen, table linen; bath mitts, face towels of textile; curtains of textile and plastic materials; bed blankets, table covers; sheets and beach towels, cotton towels, throws, tablecloths, not of paper, oilcloths, table runners, tablemats of textile, tablemats of bamboo, bed linen, bed blankets, sheets, pillow covers; cloth handkerchiefs.

Class 25

(6) Clothing, namely anoraks, Bermuda shorts, blazers, blouses, sweaters, cardigans, T-shirts, pants, blue jeans, skirts, dresses, stockings, jackets, coats, underwear and pyjamas, robes, ski suits, ski gloves, scarves, stoles, ties; footwear, namely ski boots, rain boots, boots, ankle boots, beach shoes, sports shoes, soft slippers, men's shoes, women's shoes, ballet flats; hats.

Class 29

(7) Meat, fish, poultry and game; charcuterie, namely, ham, sausage, bacon; meat extracts; non-living seafood; preserved and dried fruits and vegetables, prepared meals consisting primarily of cooked fruits and vegetables; fruit salads; jellies, jams, compotes; eggs, milk and dairy products; edible oils and fats; prepared meals consisting primarily of meat, poultry and fish, take-out dishes made with the aforesaid products, namely prepared meals consisting primarily of meat, fish, seafood, crustaceans, fruits and vegetables.

Class 30

(8) Coffee, tea, coffee-based beverages, tea, cocoa, sugar, rice, tapioca, sago, coffee substitutes; bread; flour and preparations made with cereals, namely cereal-based snacks, oat bran cereals, breakfast cereals, chewy snack bars, dried cereal flakes, pasta, pastry, cookie products, namely cookies, rusks, cakes, sandwiches, crepes, waffles, beignets, maple cones, waffle cones filled with chocolate, cones for ice cream, sweet confectionery, cakes, chocolate, edible ices, ice (frozen water), sorbets, ice cream cones, frozen desserts; honey; yeast, baking powder; vinegar, sauces (condiments), namely tartar sauces, ketchup, mustard, relish, mayonnaise; seasonings, spices, salt, pepper, mustard; aromatic preparations for cakes, namely chocolate flavourings, coffee flavourings, almond flavourings, vanilla flavourings, prepared meals and take-out dishes made with pasta, cereals, confectionery made with fruits and chocolate.

Services

Class 35

(1) Administrative management of hotels; presentation of retail goods on all means of communication, namely dissemination of advertising for others on the Internet, in magazines, in newspapers and through electronic display panels; presentation of food products, namely food and grocery products, for others on all means of communication, namely the Internet, for retail purposes; commercial business management; advertising agency; advertising by all means of telecommunication, namely advertising on the Internet for others, television advertising for others, magazine advertising for others; online advertising for others through computer communication networks, mail advertising for others; advertising for others through electronic display panels; rental of advertising space, modelling services for advertising or sales promotion purposes; public relations; writing of advertising copy for others; rental of advertising material, namely rental of advertising boards, banner advertising for others; telephone answering and message handling services, message transcription, telephone message transcription, subscription to a television channel, arranging subscriptions to telephone services for others, telephone answering services for unavailable subscribers; computer database management; talent management agencies; talent management; business management of performing artists; retail, wholesale, mail order sale, or sale using an Internet site of beverages, food products, books, stationery, candles, tableware, kitchen utensils and containers, household and table linen; online retail grocery store services and online retail sale of food products; wholesale and retail of food products.

Class 41

Design
Position

Visual Representation

Trademark Description

The trademark is two-dimensional. The trademark consists of the labels affixed in the front of the bottle. The three-dimensional bottle shown including the cork stopper in dashed lines does not form part of the trademark, but is included merely to show the position of the signs.

Colour Claim

Colour is claimed as a feature of the trademark. The bottle neck label is black with gold horizontal lines at the top and the bottom of the label. The design in the middle of the neck label is composed of the superposition of the letters M, V and R and a stylised flower in the middle. The upper portion of the letters M, V and R are light blue with a copper contour and the lower portion of the letters is copper. The flower in the middle is copper. The main label in the middle on the bottle is black, the lines inside the label (top and bottom) are gold and the design on the label is white.

Trademark Description

The Words "Aaha Snacks" are written in Red, right below the green strip and are placed against a White background. The second alphabet of Telugu language is used to replace the letter "Aa" in the word "Aaha". The word still reads as "Aaha" but it is a mix of Telugu and English languages.

Colour Claim

Colour is claimed as a feature of the trademark. Colours red, green and white are claimed as a feature of the trademark. The Mark is placed against a White background. There is a green color strip on top of the mark that is covering almost 1/3rd of the mark. On that green strip, the word "Organic" is written in White colour. The Words "Aaha Snacks" are written in Red, right below the green strip and are placed against a White background.

Disclaimer

The right to the exclusive use of the words Organic and Snacks is disclaimed apart from the trademark.

Foreign Character Translation

The translation provided by the applicant of the word "Aaha" in Telugu language (an Indian language) is "wow".

Foreign Character Transliteration

The transliteration provided by the applicant of the Telugu characters is Aaha.

Goods**Class 29**

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the word "OMEGAT" in stylized purple font above the wording "food supplement" in smaller stylized purple font; the wording is enclosed inside a white rectangle with rounded edges on the left-hand side, and above and below the rectangle are two purple triangles. The outer triangle has a gradient, transitioning from light purple to dark purple from left to right; the inner triangle has a gradient, transitioning from dark purple to light purple from left to right.

Goods

Class 05

Pharmaceutical preparations for the treatment of muscle and joints pain, for the treatment of burns, for cleaning wounds, namely, disinfecting preparations, for hemorrhoids, for cardiovascular diseases, for varicose veins, and for foot care preparations for treating diabetes; pharmaceutical preparations, namely multivitamins, nutraceutical products, namely functional food for slimming, weight management, for boosting energy, for boosting immunity, for improving sleep quality, natural remedy for improving immune system function in the nature of beverages, capsules, tablets

and powdered preparations, gummies, chewable capsules, drinkable vials, local antiseptics, local anesthetics; pharmaceutical preparations for removing sore throat symptoms; veterinary preparations for the treatment of parasites, vitamin deficiencies, infectious diseases in poultry, bacterial infections in dogs; sanitary preparations for medical purposes, namely disinfecting preparations for hands, feet, skin and body, all-purpose sanitizers, hand sanitizers; dietetic food and substances adapted for medical or veterinary use namely, food supplements for dietetic and medical use for slimming, weight management, for boosting energy, for boosting immunity, for improving sleep quality, natural remedy for improving immune system function in the nature of beverages, capsules, tablets and powdered preparations, meal replacement bars, drinks and powders; food for babies; dietary supplements for humans and animals, namely, minerals, vitamins, nut-based medicinal and dietary food supplements for slimming, weight management, for boosting energy, for boosting immunity, for improving sleep quality, natural remedy for improving immune system function in the nature of beverages, capsules, tablets and powdered preparations; plasters for medical purposes; materials for medical dressings, in the nature of wadding, gauze, bandages; material for dental fillings, dental wax; disinfectants, namely all purpose disinfectants; preparations for destroying vermin; fungicides; herbicides

Services

Class 35

(1) Advertising the goods and services of others; advertising services for promoting public awareness in the fields of fitness, well-being, and maintaining a healthy lifestyle; advertising services for promoting public awareness of the benefits of a healthy lifestyle; advertising services for promoting public awareness of the benefits of nutrition; business management; business administration; business administration and office functions in the field of marketing; office administration; retail services in relation to pharmaceutical preparations; retail services in relation to veterinary preparations; retail services in relation to sanitary preparations for medical purposes; retail services in relation to food for babies; retail services in relation to dietary supplements for humans and animals; retail services in relation to medical plasters; retail services in relation to materials for medical dressings; retail services in relation to disinfectants; retail services in relation to preparations for destroying vermin; retail services in relation to fungicides; retail services in relation to herbicides; wholesale services in relation to pharmaceutical preparations; wholesale services in relation to veterinary preparations; wholesale services in relation to sanitary preparations for medical purposes; wholesale services in relation to food for babies; wholesale services in relation to dietary supplements for humans and animals; wholesale services in relation to medical plasters; wholesale services in relation to materials for medical dressings; wholesale services in relation to disinfectants; wholesale services in relation to preparations for destroying vermin; wholesale services in relation to fungicides; wholesale services in relation to herbicides; online retail services in relation to pharmaceutical preparations; online retail services in relation to veterinary preparations; online retail services in relation to sanitary preparations for medical purposes; online retail services in relation to food for babies; online retail services in relation to dietary supplements for humans and animals; online retail services in relation to medical plasters; online retail services in relation to materials for medical dressings; online retail services in relation to disinfectants; online retail services in relation to preparations for destroying vermin; online retail services in relation to fungicides; online retail services in relation to herbicides

Class 44

(2) Medical services, namely medical clinics, medical laboratory services, and medical diagnostic consultation; hygienic and beauty care for human beings or animals, namely operation of beauty salons, and consultation in the field of beauty care treatments; agriculture, horticulture and forestry

services namely, compost spreading, planting, growing, and picking of corn crops for others, insect, pathogen, virus and weed control services, aerial and surface spreading of fertilizers, animal breeding of livestock, surface spreading of fertilizers, soil conditioners and other agricultural chemicals, destruction of parasites for forestry, weed killing for forestry, pest control services for forestry

Colour Claim

Colour is claimed as a feature of the trademark. The design comprises of an elongated horizontal rectangular shape with rounded corners. On the left-hand side of the design, the term "nrich" is white on a dark green background and a white leaf shape above the term "rich". In the middle of the design, there are two vertical curved lines. The left curved line is light green. Starting at the top and moving downwards, the right curved line is dark purple and transitions to purple and then dark purple. On the right-hand side of the design, the term "wellnrich" is on a white background. The term "well" is purple and the term "nrich" is dark green with a dark green leaf above the term "rich". The border around the entire design is dark green.

Goods

Class 30

Cereal-based processed products, namely, bread, crisp bread, crackers, cereals, granola, muesli; Cereal bars; Cereal-based snack food; Chocolate products, namely, chocolate, chocolate bars, chocolate confectionery; Condiments, namely, ketchup, minced garlic, oyster sauce, tomato sauces, pasta sauces, grilling sauces, tomato and chili sauces, cheese sauces, hot sauce, hot chili pepper sauce, salsa sauces, truffle sauce, Mala sauce, cream sauce, tomato whipped cream sauce, Rosé sauce; Pepper sauce; Seasonings; Oyster sauce; Dipping sauces, namely, chocolate-based dips, caramel-based dips, horseradish-based dips, vinegar-based dips and mustard-based dips; Spices; Cooking salt; Natural sweeteners; Rice cakes; Soy sauce; Seasonings made of chemical compounds; Taste and flavor enhancers used in food and beverage products, namely, monosodium glutamate, yeast extract, disodium inosinate and disodium guanylate used as flavour enhancers for food; Beverages made of coffee; Beverages made of tea; Meat tenderizers for household purposes; Korean style dumplings (mandu)

Colour Claim

Colour is claimed as a feature of the trademark. The design comprises of an elongated vertical rectangular shape with rounded corners. On the top half of the design, the term "nrich" is white on a dark green background and a white leaf shape above the term "rich". In the middle of the design, there are two horizontal curved lines. The top curved line is light green. Starting at the left and moving right, the bottom curved line is dark purple and transitions to purple and then dark purple. On the bottom half of the design, the term "wellnrich" is on a white background. The term "well" is purple and the term "nrich" is dark green with a dark green leaf above the term "rich". The border around the entire design is dark green.

Goods

Class 29

Prepared side dishes consisting primarily of meat; Prepared side dishes consisting primarily of fish; Prepared side dishes primarily consisting of poultry; Prepared side dishes primarily consisting of vegetable; Vegetable concentrates for culinary purposes; Tinned meat, fish, vegetables and fruits; Tofu-based snacks; Instant or pre-cooked miso soup; Meat croquettes; Meat, fish, poultry

and game, not live; Smoked eggs; Prepared meat; Processed cheese; Processed fish; Vegetable-based meat substitutes; Processed vegetables, namely, canned, dried, pickled, fried, preserved, frozen and steamed vegetables and vegetable salads; Vegetable-based snack foods; Preparations for making soup; Jellies for food; Processed pulses; Liquid salted and fermented sand eel; Processed edible seaweed; Ham.

Trademark Type

Standard Characters

Goods

Class 09

(1) photographic cameras, photographic lenses, toy cameras capable of taking a photograph and digital-photo; bidirectional meters for electricity monitoring; conventional electricity meters; distribution boxes for electrical power; electric cable and wire; electric cable assemblies; electric cable connectors; electric capacitors; electric circuit closers; electric coils; electric connectors; electric current breakers; electric current collectors; electric current control devices; electric current meters; electric current shunts; electric current switches; electric power converters; electric relays; electric resistors; electric switchbox; electric transformers; electric valve actuators; electric voltage transformers; electric wires; electrical circuits; electrical coils; electrical conductor cables; electrical connection boxes; electrical connectors; electrical distribution boxes; electrical power connectors; electrical power testers; electrical relays; electrical resistors; electrical surge arrestors; electrical transformers; electricity conduits; electricity limiter; electricity meters; meters for measuring electrical voltage; apparatus for recording, transmission and reproduction of sound and images, namely, MP3 players, tape recorders, mini compact disc recorders, compact disc recorders, videocassette recorders, DVD recorders, video cassette players, DVD players, stereo amplifiers, radio tuners, stereo tuners, radio receivers, stereo receivers; blank magnetic tape, blank compact discs; coin-operated mechanisms for computer games and video games; cash registers, calculating machines; fire extinguishers; spectacles and sunglasses, life jackets for children, phonograph records; pre-recorded hard disk drives, compact disks, plastic cards with magnetic strip, tapes, optical discs, video discs, external disk drives, external flash drives and USB flash drives containing music, films, television shows, computer games, motion picture films, cinematographic films, animated cartoons, interactive television entertainment programs and video games; computer hardware; computer hardware for data processing; card punching and sorting machines for data processing; data loggers; data meters; data multiplexer; interface cards for data processing equipment in the form of printed circuits; computers; digital cameras; computer keyboards; modems; computer mice; computer printers; computer speakers; mouse scanners; computer scanners; image scanners; mousepads (mouse mats); educational software for children; computer game software; software for video games, namely, software for managing and

controlling video game consoles for use for with televisions; spectacles; sunglasses; spectacle frames; spectacle straps; spectacle cases; blank compact discs; DVDs containing recordings of television shows and movies; DVDs containing recordings of web television shows; pre-recorded DVDs featuring music; sound recordings in the form of discs; sound recordings in the form of tapes; optical discs and CD-ROMs pre-recorded with sound recordings, namely music and fictional stories; pre-recorded audio tapes featuring musical sound recordings; pre-recorded CDs featuring musical sound recordings; pre-recorded DVDs featuring musical sound recordings; cameras [photography]; holograms; cases adapted for cameras; cases adapted for photographic equipment; cinematographic film, exposed; downloadable animated cartoons; protective helmets for sports; protective sports helmets; bags and cases specially adapted for holding or carrying mobile phones, digital cameras, MP3 players, personal digital assistants; egg timers [sandglasses].

Class 14

(2) Precious metals and their alloys; jewellery, precious stones and semi-precious stones; clocks and watches; key rings [split rings with trinket or decorative fob].

Class 16

(3) printed matter, namely books, brochures, magazines, newspapers, post cards; paper and cardboard; bookends; jig-saw templates; gift tags; flags and pennants of paper; writing paper; window stickers; photographic albums; photograph boxes; wooden stamps; calendars; postcards; gift wrap paper; bookmarkers; rubber erasers; crayons; pencils; felt pens; ball pens; fountain pens; exercise books; ink pads; folders for paper; ring binders; file boxes; writing pads; art pads; picture books; expanding files; pencil tubs; pencil cups; pencil sharpeners; pen cases; printed poetry albums; paper sheets used for crafts; invitation place cards; wall planners; desk pads; printed instruction materials in the field of embroidery; embroidery kits consisting of embroidery patterns; embroidery template booklets; sealing stamps; bibs of paper; tear-off calendars; rub down transfers; folders for papers; document file folders; scrapbooks; announcement cards (stationery); stickers [stationery]; stickers; desktop cabinets for stationery; paperweights; pictures; paper sheets; pencil holders; pencil sharpeners, electric or non-electric; adhesive note pads; desk pads; memo pads; note pads; writing pads; writing paper pads; book binders; office requisites (except furniture) namely, paper knives, staplers, staple-removers, correction fluids, scissors, paper shredders for office use, adhesive tape dispensers, hole-punches, rubber bands, rulers, adhesives for stationery purposes, office binders, office hole punches, paper stationery, paper stationery namely wrappers, paper stationery, namely printed event admission tickets, envelopes for stationery use, indexes, namely index cards, stationery stickers, stationery tabs, stationery cases, stationery agendas, stationery files and stationery seals; paper-clips; comic books; wrapping paper; labels of paper or cardboard; printed vouchers; paint boxes; penholders; paper maché figurines; song books; greeting cards; stands for pens and pencils; manuals [handbooks]; writing or drawing books; binders; envelopes [stationery]; announcement cards; trading cards; desktop stationery boxes; catalogues; writing chalk; drafting rulers; paper punchers; notebooks; file folders; wrapping paper; stationery namely, paper knives, staplers, staple-removers, correction fluids, scissors, paper shredders for office use, adhesive tape dispensers, hole-punches, rubber bands, rulers, adhesives for stationery purposes, office binders, office hole punches, paper stationery, paper stationery namely wrappers, paper stationery, namely printed event admission tickets, envelopes for stationery use, indexes, namely index cards, stationery stickers, stationery tabs, stationery cases, stationery agendas, stationery files and stationery seals; paper handtowels; handkerchiefs of paper; paper bags; paper party decorations; pastel crayons; paint brushes; desktop planners; prospectuses; index cards; stencil plates; boxes of cardboard or paper; signboards of paper or cardboard; pencil boxes; desk sets; writing instruments; document portfolios; table napkins of paper; table mats [included in this class]; adhesive tape dispensers;

cases for stamps; writing slates; ink pencils; tablecloths of paper; hygienic paper; plastic film for packaging; sheets of reclaimed cellulose for wrapping; packaging materials made of cardboard; packaging material made of starches; handwriting specimens for copying; blackboards; drawing books, drawing pads, drawing paper; drawing boards; drawing brushes; drawing ink; drawing pencils; drawing pens; drawing sets; drawing sheets; drawing templates; sketch pads; books, in particular children's books, books, ring binders, colouring books, comic books, picture books.

Class 18

(4) Leather and imitations of leather; animal skins and animal furs; travel luggage; suitcases; umbrellas; parasols and walking sticks; whips, harness and saddlery; all-purpose carrying bags, wallets, backpacks and carrying bags.

Class 21

(5) drinking bottles for sports; cups; reusable water bottles sold empty; meal trays; soap dispensers; soap boxes; candlesticks (not of precious metal); toothbrushes; mugs for toothbrushing; toothbrush cases; hair combs; hairbrushes; bath brushes; washing brushes; toilet bags, fitted; droppers for cosmetic purposes; cosmetic spatulas; cosmetic utensils in the nature of thread for eyebrow threading; towel racks, not of precious metal; baby bath tubs; heaters for feeding bottles, non-electric; electric face cleansing brushes; electric rotating hair brushes; electric tooth brushes; electrically-heated hair brushes; toilet brushes; egg cups, not of metal; comb cases; insulating flasks; bottle openers, electric and non-electric; ice cube moulds; heat-insulated containers for beverages; thermally insulated containers for food; tableware, namely, bowls and plates; boxes of glass; jars; coffee services not made of precious metals; cookie jars; cooking pot sets; fitted picnic baskets; cake moulds; cold packs for chilling food; refrigerating bottles; isothermic bags; chamber pots; fitted vanity cases; cups of paper or plastic; paper plates; lunch boxes; bowls [basins]; soap brackets; soap racks; napkin rings, not of precious metal; tea services, not of precious metal; cups, not of precious metal; rolling pins, domestic; cosmetic utensils, namely cosmetic sponges and cosmetic brushes for personal hygiene; beverage glassware; drinking glasses; trivets [table utensils]; boxes with dispenser function for confectionery.

Class 24

(6) textile banners; textiles for clothes; linen for household purposes; curtains of textile or plastic; flags and pennants (not of paper); plastic flags; curtains for showers; sleeping blankets; crawling blankets; tea cloths; cot canopies for babies; bath linen; bed blankets; bed linen; pillow cases; eiderdowns [down coverlets]; mattress covers; upholstery fabrics; mosquito nets; place mats of textile; travelling rugs [lap robes]; sleeping bags; table napkins of textile; quilted blankets; textile fabrics; bed covers; lingerie fabric; bath mitts; terry cloth products, namely hand towels, wash cloths, beach towels.

Class 25

(7) casual clothing; children's clothing; athletic clothing; children's footwear; casual footwear; athletic footwear; caps; hats; earmuffs.

Class 28

(8) games namely action skill games, board games, card games, dice games, parlour games, party games, table top games; toys, namely, baby toys, bath toys, beach toys, construction toys, mechanical toys, pull toys, sand toys, squeeze toys, stuffed toys; action figures and accessories, action figure play sets and accessories; toys namely balloons; paper streamers; toy jewelry; toy figures and accessories for use therewith, toy figure play sets and accessories; kites; toy scooters; video game consoles; playthings, in particular toy figures; accessories for toy figures, sets of toy figures and accessories, in particular the aforesaid goods of plastic; card games; playing cards; toy

jewellery; knee and elbow guards (sporting articles); swimming belts; swimming floats for recreational use; kites; push scooters [toys]; bags adapted for use with sporting equipment, namely golf bags, cricket bags, tennis bags; balloons (toys); party streamers; roller skates; inline roller skates; decorations for Christmas trees; video game consoles for use with televisions; confetti; mobiles for children; candy dispensers as toys; hand-held video game apparatus for use with televisions.

Services

Class 38

(1) provision of telecommunication access to films and television programmes provided via a video-on-demand service; broadcasting of digital recordings of audio content in the field of children's entertainment, film and television features via the Internet and global communications networks.

Class 41

(2) education services in the nature of early childhood instruction; providing of training courses in the field of children's entertainment, media in the nature of films and music, and children's education; entertainment in the form of a children's animated show provided over a website; providing information on cultural events in the field of children's entertainment via a website; providing information on individual sports competitions and team sports competitions via a website; interactive online entertainment services; entertainment services in the nature of ongoing television programs featuring children's entertainment and instruction in the fields of music and dance, and providing entertainment information in the nature of online programming and scheduling information for television programs via internet communications and computer networks and via a video-on-demand service

Class 07

(1) Industrial robots for use in the medical field, namely for conveying medicines; industrial robots for assembling in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for automated vehicle charging in the automotive industry and the aerospace industry; industrial robots for dispensing machines in the automotive industry, the aerospace industry, the metalworking industry, the medical industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for sanding and buffing in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for labelling in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; laboratory robots; industrial robots for manufacturing electronic components and for industrial use for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for working glass; industrial robots for working wood; industrial robots for working metal; industrial robots for working plastic material; industrial robots for shaping wood; industrial robots for shaping glass; industrial robots for shaping metal; industrial robots for use in shaping plastic material for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for use in the handling of workpieces for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; industrial robots for use in the mounting of workpieces to be worked on for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; unmanned industrial robots for machine tools for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; robotic mechanisms in the nature of unmanned industrial

robots for working glass; robotic mechanisms being parts of unmanned industrial robots, namely, robotic arms for loading and unloading; robotic mechanisms in the nature of unmanned industrial robots for working metal; robotic mechanisms in the nature of unmanned industrial robots for working plastic material; robotic mechanisms in the nature of unmanned industrial robots for working wood; unmanned robots being cargo handling machines; unmanned industrial robots for feeding workpieces for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; robotic arms for industrial purposes, namely, for loading, packaging, unloading and transporting; unmanned industrial robots for transferring workpieces for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; unmanned industrial robots for handling rods for use in warehouses; robotic mechanisms in the nature of unmanned industrial robots for chopping, peeling and slicing food; unmanned industrial robots with articulated arms for manipulating workpieces; robotic arms for loading, and unloading; robotic welding machines; household cleaning and laundry robots with artificial intelligence; housekeeping robots for household purpose; robotic floor cleaners for household purposes.

Class 09

(2) Humanoid robots with artificial intelligence for use in scientific research and for navigation, surveying, photographic, cinematographic, audio-visual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching purposes; software for the controlling of industrial robots for use in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; software for use in robotic process automation in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; robotic electrical control apparatus, namely manipulators for the remote operation of robotic arms; electric control panels; industrial automation controls for use in manufacture for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; motion, proximity, torque, force, contact, encoder and sound sensors; electric sensors for motion, proximity, torque, force, contact, encoder and sound; electronic sensors for motion, proximity, torque, force, contact, encoder and sound; optical sensors; downloadable sensory software for controlling industrial robots; digital motion, proximity, torque, force, contact, encoder and sound sensors; digital sensory devices, namely, proximity sensors; sensors for measuring speed; motion, torque, force, proximity, sound, pressure, contact and encoder sensors for engines for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; camera sensors, CMOS image sensor, distance sensors, fire sensors, gas sensors, humidity sensors, infrared sensors, optical sensors, proximity sensors, temperature sensors, timing sensors, touchscreen sensors, and vibration sensors for engines; motion, torque, force, proximity, sound, pressure, contact and encoder sensors for use in the control of engines for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; motion, torque, force, proximity, sound, pressure, contact and encoder sensors for use with machine tools; motion, proximity, and sound sensors used in plant control; sensors for determining position; sensors for monitoring physical movements; internet of things (IoT) sensors, namely, motion, torque, proximity, sound, pressure, contact and encoder sensors for internet of things (IoT) enabled devices; downloadable virtual reality software

for viewing sensor status and electronic controllers' status for machine operations; downloadable augmented reality software for viewing sensor status and electronic controllers' status for machine operations; downloadable computer software using artificial intelligence for viewing sensor status and electronic controllers' status for machine operations; artificial intelligence apparatus in the nature of computers; downloadable computer software using artificial intelligence for machine learning; artificial intelligence software for healthcare, namely, downloadable sensor software using artificial intelligence for operating healthcare (IoT) motion, sound, pressure, contact, recognizing sensors in the field of healthcare; downloadable artificial intelligence software for surveillance; software for the integration of artificial intelligence and machine learning in the field of big data; downloadable machine learning software for industrial analysis in the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; e-commerce software to allow users to perform electronic business transactions via a global computer network.

Class 10

(3) Surgical robots; medical robots for use in cognitive therapy for children; wearable walking assistive robots for medical purposes; robotic exoskeleton suits for medical purposes; medical robots with attached spoons for assisting physically disabled persons with eating; robots featuring medical, therapeutic and assistive functions with artificial intelligence for conducting nursing care, namely, drawing blood from patients and monitoring patient vital signs.

Services

Class 42

Engineering services relating to robotics for the automotive industry, the aerospace industry, the metalworking industry, the medical field, the logistics field, the intralogistics field, the electronics industry and in laboratories; technological research relating to the computerised automation of technical processes; technological research relating to the computerised automation of industrial processes; engineering services in the field of manufacturing, scientific research, industrial robotic control and robotic electrical control apparatus; software engineering services for data processing programs; research in the field of mechanical engineering; consulting in the field of mechanical engineering; software development; software design and development; computer software engineering; software as a service [SaaS] featuring software for machine learning; software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks.

Trademark Description

The mark consists of a square design with rounded corners and green, yellow, red, and blue curved bands displayed horizontally. The blue band is larger with a downward slope that rises on the right side.

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) green, yellow, red, and blue is/are claimed as a feature of the mark. The mark consists of a square design with rounded corners and green, yellow, red, and blue curved bands displayed horizontally. The blue band is larger with a downward slope that rises on the right side.

Goods

Class 09

Downloadable and recorded software for facilitating commercial transactions through electronic means, namely credit cards, debit cards, prepaid cards, wireless wallets, mobile wallets, electronic wallets and mobile payments via wireless networks, global computer networks and mobile telecommunication devices; Downloadable and recorded software for enabling processing of payments made via credit cards, debit cards, prepaid cards, wireless wallets, mobile wallets,

electronic wallets and mobile payments; Downloadable and recorded software for organizing, storing, providing access to, redeeming, scanning, sharing, and providing information about goods, services, discounts, tickets, boarding passes, admission tickets, transit passes, event tickets, vaccination cards, incentive programs, gift cards, special offers, rewards, and consumer loyalty programs; Downloadable and recorded software for processing, facilitating, verifying, and authenticating mobile payments and contactless transactions with retailers, merchants, and vendors using a mobile device; Downloadable and recorded software for capturing, managing, and storing credit card and debit card information.

Services

Class 36

(1) Financial services, namely, providing, processing, verifying and authenticating mobile payments, commercial transactions and payment options, loyalty reward card transactions, pre-paid cards, contactless credit and debit card transactions; Financial transaction services, namely, providing secure commercial transactions and payment options using a mobile device at a point of sale.

Class 42

(2) Application service provider featuring application programming interface (API) software for integration of online payment systems, loyalty and rewards programs, tickets, passes, coupons, and special offers between merchants and customers.

(2) Pharmaceutical and medicinal preparations and substances for use in the treatment of oral care, cold and flu, pain relief, gastro-intestinal, prevention, treatment and alleviation of respiratory disorders and allergies; therapeutic agents, namely, aloe vera preparations, gels and lotions for

use in therapeutic ultrasound, diagnostic imaging and other external therapeutic or diagnostic procedures requiring use of a lubricating or conductive medium; adhesive patches for medical purposes, namely, self-adhesive dressings, excluding adhesive patches for use in the surgical and professional vision care fields; adhesive patches for surgical purposes, namely, tapes, and wound closures; adhesive patches incorporating a pharmaceutical preparation, namely, adhesive bandages, excluding adhesive patches for use in the surgical and professional vision care fields; medicated skin preparations, transdermal patches, adhesive plasters and dressings for the treatment of skin diseases, conditions and disorders, namely, dermatitis, eczema, psoriasis and skin pigmentation diseases; vaccines for human use; vitamins, minerals and nutritional supplements for general health and well-being; dietary preparations, namely, dietary supplements for digestive health, general health and well-being; dietetic food and substances adapted for medical use for general health and well-being; foods for infants; weight loss preparations, namely, dietary and nutritional supplements used for weight loss; medicated oral care preparations, namely medicated toothpastes, medicated mouthwashes; medicated teeth bleaching preparations; preparations for sterilizing dentures; breath-freshening chewing gum for medicinal purposes; medicated throat lozenges; denture adhesives, denture fixatives, medicated dental gels; smoking cessation preparations, namely, pharmaceutical preparations for the prevention and treatment of smoking habits and addictions; allergy test components and kits.

Class 09

(3) Scientific apparatus and instruments, namely, medical scales, microscopes for medical use; recorded and downloadable computer software to enable healthcare professionals to access medical information on pharmaceutical and medical related products and services; computer software for medical imaging; diagnostic equipment, namely, scanners; downloadable software for receiving, processing, transmitting, and displaying data from medical testing devices, namely, in vitro diagnostic devices; downloadable software applications delivered online or as downloadable applications for self-diagnosis for wellness, oral care disorders and conditions, cold and flu, pain relief, gastro-intestinal and respiratory disorders, and allergies; recorded and downloadable software and software applications for medical and surgical applications for treatment of oral care, cold and flu, pain relief, gastro-intestinal and respiratory disorders, and allergies; data collecting systems for medical purposes, namely, downloadable computer software for collection of medical data; all the aforementioned goods excluding surgical and professional vision care products or for use in the surgical and professional vision care fields.

Class 10

(4) Surgical and medical apparatus and instruments, namely, medical ultrasound apparatus; dental care apparatus, namely, dental impression trays and dental trays for bleaching; nasal dilators; medical apparatus, instruments and tests for use in the diagnosis and treatment of diseases, conditions and disorders, namely, in the areas of oral care disorders and conditions, cold and flu, pain relief, gastro-intestinal disorders and conditions, prevention, treatment and alleviation of respiratory disorders and allergies; artificial skin for surgical use; suture materials; biopsy punches, namely, biopsy needles; diagnostic tests for application to the skin, namely, diagnostic test patch for application to the skin for determining allergies and diagnostic tests for application to the skin for testing blood sugar levels, cancer cells, and DNA; apparatus for transcutaneous electrical nerve stimulation (TENS); devices for posture improvement, namely, adjustable harnesses to correct one's posture for medical purposes; sleep monitoring devices for medical purposes; high-frequency electromagnetic therapy apparatus; infrared therapy devices, namely, infrared lamps for medical purposes; ultra-sound therapy devices, namely, ultrasonic diagnostic apparatus for medical purposes; lasers for skin treatment and medical use; diagnostic apparatus for medical purposes, namely, ultrasonic apparatus, x-ray apparatus, magnetic resonance imaging (MRI)

apparatus; electronic instruments for medical use, namely, transcutaneous electric nerve stimulation (TENS) devices, therapeutic medical devices for posture improvement and medical ultrasound apparatus; thermometers for medical use; patches for medical use, namely, cooling patches for medical purposes; all the aforementioned goods excluding surgical and professional vision care products.

Class 21

(5) Toothbrushes, electric toothbrushes, floss for dental purposes, toothpicks, toothpick holders (not of precious metal) and plastic containers for holding toothbrushes.

Services

Class 35

(1) Promotional and advertising services for others via the Internet; retail or wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; retail or wholesale services for pharmaceuticals.

Class 41

(2) Educational services, namely, providing classes, workshops and seminars in the fields of pharmaceutical, medical diagnostic testing, vaccines, proprietary medicines, general health and well-being, medical clinics, toiletries, skin care and cosmetic industries, excluding educational services relating to the surgical and professional vision care fields; education, providing of training, entertainment services, namely, providing classes, workshops and seminars, educational services and providing of training in the field of prevention and treatment of smoking habits and addictions; educational services relating to weight loss, diet, nutrition and fitness.

Class 44

(3) Medical, hygienic and beauty care, namely, health and beauty care services provided by saunas, beauty salons, sanatoriums, hairdressing salons, and massage parlors, providing medical information about skincare, skincare product use, and beauty skin care through a website, providing information in the fields of skincare, skincare product use, and beauty skin care; healthcare services, namely, providing information, advisory and consultancy services in the field of medical care and analysis services, providing information, advisory and consultancy services in the field of prevention and treatment of oral care disorders and conditions, providing counselling regarding the choice of medication, drug usage and information on side effects; provision of medical information and services in the field of pharmaceuticals, medical diagnostic testing, vaccines, proprietary medicines, general health and well-being, medical clinics, toiletries, skin care and cosmetic industries, excluding educational services relating to the surgical and professional vision care fields; providing healthcare information to patients and healthcare professionals in the fields of pharmaceuticals, vaccines and oral care, gastro-intestinal, respiratory, brain, autoimmune, cardiovascular, endocrine, metabolic, nervous system and addiction disorders and diseases via the Internet; gene therapy services; stem and immune cell therapy services; medical and psychological counselling services; medical and health care services in the field of oral care disorders and conditions, pain relief, pharmaceutical, medical diagnostic testing, vaccines, proprietary medicines, general health and well-being, medical clinics, toiletries, skin care; all the aforementioned services excluding services relating to surgical and professional vision care; provision of information in the field of physical fitness products via a global computer network.

Gateways for the Internet of Things, namely network gateways, network gateways (proxy servers), cloud storage gateways; smart communication gateways, namely downloadable application protocol interface (API) integration network gateways for the oil and gas industry; smart network gateways for data analysis in real time regarding the injection and control of water inflows in the oil and gas industry; programmable electronic acquisition and analysis apparatus for data processing in real time, namely tracking and security cameras, CMOS image sensors, gas sensors, water and oil level sensors, pressure sensors, projected capacitive touch sensors; sensors for use in the Internet of Things [IoT], namely biochip sensors, ultrasonic sensors, infrared sensors, optical sensors, photoelectric sensors; range extenders [antennas] for the Internet of Things [IoT]; computer hardware modules for electronic devices using the Internet of Things; computer application software for implementing the Internet of Things, namely software for positioning and configuring wide area networks; downloadable software application that uses artificial intelligence programming for the collection and analysis of data for the purpose of improving the efficiency of technical projects, productivity, predictive maintenance of heavy equipment, security and operating costs in the oil and gas industry; predictive maintenance of software for use with smart phones, electronic tablets, computers and portable computers for scheduling equipment maintenance in the oil and gas industry; software for the collection of statistical production data for oil and gas drilling, downloadable software for the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the oil and gas industry, security and operating costs in the oil and gas industry; software platforms used by oil and gas companies for a better exploitation of oil and gas deposits with less polluting emissions, enabling the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the industries of oil and gas, security and operating costs in the oil and gas industry; software packages for the collection of statistical production data for oil and gas drilling, for the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the oil and

gas industry, security and operating costs in the oil and gas industry; electronic databases containing information related to a better exploitation of oil and gas deposits by reducing carbon emissions; database server centres; downloadable software applications for mobile devices for implementing oil and gas deposit exploitation techniques while reducing carbon emissions, for the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the oil and gas industry, security and operating costs in the oil and gas industry; apparatus and instruments for measuring, detecting, signalling, inspecting, monitoring and controlling, namely pressure sensors, temperature sensors, vibration sensors, flow meters, noise level meters, audio analyzers, measuring apparatus for controlling the injection of polymers during the exploitation of oil and gas deposits, gas detectors, ultrasonic detectors, combustible gas concentration detectors, carbon dioxide detectors, carbon monoxide, signal amplifiers, electronic warning signals, cameras for inspecting underground infrastructure; apparatus for acquiring, recording, storing, transmitting or processing data, namely computer hardware for data processing, data multiplexers, data meters, interface cards for data processing equipment in the form of integrated circuits, data loggers, downloadable database management software, software for the collection, processing, retrieval and analysis of oil and gas data; analysis apparatus for non-medical use, namely air analyzers and residual gas analyzers used in the oil and gas industries; dosage dispensers.

Services

Class 38

(1) Telecommunications, namely provision of email notification alerts via the Internet and by text messages, transmission of live or pre-recorded sound, videos and information from webcams, video cameras and portable telephones via the Internet; communications through fibre optic networks, namely provision of access to the computer network by means of fibre optic networks; communications through computer terminals, namely email transmission of data and documents via computer terminals; satellite transmission, namely operation of a wide area network (WAN) via satellite communication, satellite transmission of messages and data for the exploitation of oil and gas deposits; provision of access to a global computer network; cloud storage telecommunication gateway services; telecommunication services provided through platforms and portals on the Internet and other media, namely provision of access to Internet platforms, mobile Internet platforms, provision of access to a platform for real-time multimedia communications via a website on the Internet; provision of access to computer databases and computer database server centres; electronic exchange of data stored in databases accessible via telecommunication networks, namely provision of electronic data interchange (EDI) services; electronic display services (telecommunications), namely provision of online electronic bulletin boards for the transmission of messages among computer users in the field of oil and gas; sending [transmission] of current affairs, namely provision of access to a web portal for messaging and news, a news webcast; provision of information exchange and discussion forums via a global computer network; provision (transmission) of commercial information, namely provision of business information in the field of oil and gas deposit exploitation; transmission of computer-assisted messages, data, sound, videos and images, namely wireless electronic transmission of voice messages, text messages, videos, photographs, digital images in the oil and gas field via the Internet and by means of wireless and cellular networks; telecommunication connections to a global computer network, namely provision of access to a global computer network; electronic messaging; electronic mail services; dissemination of information by electronic means, in particular for global communication (Internet-type) networks, namely provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; instant messaging services; teleconferencing services; videoconferencing services.

Class 42

(2) Technical expertise services [engineering work], namely oil and gas deposit expertise, preparation of expert opinions in connection with oil and gas deposits and mining, preparation of reports relating to the analysis of technical projects in the oil and gas field, conduct of technical feasibility studies, analysis and ratings in the oil and gas field; technical project studies in the oil and gas deposits; technical management and technical assistance, namely technical assistance in the form of troubleshooting of computer systems in the field of oil and gas, technical consultation in the field of computer hardware and software; information related to technical studies, technical management and technical assistance, namely technical environmental consultation in the field of oil and gas, provision of technology information in the oil and gas energy industry, provision of technical information in the oil and gas field by means of a global computer network, provision of online information on the implementation and use of computer hardware and software, provision of technical information in the field of computer software at the specific request of end-users by means of a global computer network; research and development of new products for others; quality control in the field of oil and gas; information related to quality control regarding more efficient and less polluting techniques for the exploitation of oil and gas deposits; software consulting; computer programming; design, development, installation, updating, maintenance and rental of software, software packages, databases; software as a service [SaaS] featuring software for a more efficient and less polluting exploitation of oil and gas deposits; platforms for artificial intelligence being software as a service [SaaS] for the collection and analysis of data for the purpose of improving the efficiency of technical projects, productivity, predictive maintenance of heavy equipment, security and operating costs in the oil and gas industry; computer platform as a service (PaaS), namely platform as a service (PaaS) software provider enabling users to communicate with professionals in the field of oil and gas exploitation, for the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the oil and gas industry, security and operating costs in the oil and gas industry; electronic data storage for archiving business records , archived electronic messages; electronic storage services for archiving databases, images and other electronic data, namely software as a service (SaaS) services featuring software for cloud network-attached storage facilities for use with a data centre for the general storage of data for others; external data backup, remote data backup; hosting of databases; provision of computer programs using artificial intelligence on data networks, namely provision of artificial intelligence software as a service for the management of documents, provision of artificial intelligence software for the collection and analysis of data for the purpose of improving the efficiency of oil and gas drilling projects, productivity in oil and gas exploitation, equipment maintenance in the oil and gas industry, security and operating costs in the oil and gas industry.

Trademark Description

This mark consists of a verbal element, NEMA, and its Arabic transliteration. These verbal elements are white and appear in a red shape that resembles an almond. Ears of wheat are inside this shape.

Colour Claim

Colour is claimed as a feature of the trademark. The letters of the word NEMA and the Arabic characters underneath it are white. The ears of wheat below the text are ochre. The text and the ears of wheat appear in a red shape trimmed by two outlines, the first being white and the second being ochre.

Foreign Character Transliteration

The transliteration of the Arabic characters provided by the applicant is NEMA.

Goods

Class 30

Couscous, pasta, semolina, cereal-based preparations, namely processed cereal mixes consisting primarily of bulgur, semolina, quinoa, spelt, wheat, barley, millet, corn and rice.

Machines for conveying products, goods, solid materials and liquids, namely, conveyors, strip belt sorters and ball transfer tables; Automated machines for conveying products, goods, solid materials and liquids, namely, conveyors, strip belt sorters and ball transfer tables; Conveyors being machines; Automated conveyors being machines; Assembly line conveyor machinery; Conveyor lines; Roller conveyors; Pneumatic conveyors; Chains for conveyors; Material handling machines, namely, accumulation conveyors, aftersort conveyors, receiving conveyors, belt conveyors, case conveyors, carton sortation conveyors, chain driven live roller conveyors, conveyors for merging cartons, totes, bags, products, and materials, conveyors for diverging cartons, totes, bags, products, and materials, conveyors for allowing cartons to cross from one side of a conveyor to another, discharge conveyors, extendable conveyors, gravity roller conveyors, gravity wheel conveyors, high speed sorter conveyors, induction carton conveyors, live roller conveyors, pallet conveyors, portable conveyors, powered belt conveyors, roller bed conveyors, slat sortation conveyors, shoe sortation conveyors, slider bed conveyors, sortation conveyors; ball transfer table units for use in conveyor systems; Automated material handling machines, namely, accumulation conveyors, aftersort conveyors, receiving conveyors, belt conveyors, case conveyors, carton sortation conveyors, chain driven live roller conveyors, conveyors for merging cartons, totes, bags, products, and materials, conveyors for diverging cartons, totes, bags, products, and materials, conveyors for allowing cartons to cross from one side of a conveyor to another, discharge conveyors, extendable conveyors, gravity roller conveyors, gravity wheel conveyors, high speed sorter conveyors, induction carton conveyors, live roller conveyors, pallet conveyors, portable conveyors, powered belt conveyors, roller bed conveyors, slat sortation conveyors, shoe sortation conveyors, slider bed conveyors, sortation conveyors; Replacement parts, fittings and accessories specially adapted for all of the aforesaid

goods, namely, ball transfer units, beams, bearings, case stops, catwalks, chutes, conveyor beds, conveyor belts, conveyor drive and take-up units, conveyor gears, conveyor motors, conveyor pulleys, conveyor rollers, conveyor wheels, deck supports, declines, diverts, drive beds, drive chains, floor supports, gates, guard and rails, inclines, inducts, merge beds, photo electric readers, pop up wheel rollers, power supplies, pulleys, reducers, sensors, side guides, speed controllers, spirals, transformers.

Services

Class 37

(1) Installation, maintenance, and repair of material handling and conveying equipment, order filling equipment, picking and processing systems for warehouses and manufacturing and distribution centers; Installation, maintenance and repair of conveyors being machines, automated conveyors being machines, assembly line conveyor machinery, conveyor lines, roller conveyors, pneumatic conveyors, chains for conveyors, material handling machines, namely, palletizers, case elevators, and conveyors, transfer table units for use in conveyor systems, and replacement parts and fittings for all of the aforesaid goods; Technical support services, namely, technical advice related to the installation, maintenance and repair of conveyors being machines, automated conveyors being machines, assembly line conveyor machinery, conveyor lines, roller conveyors, pneumatic conveyors, chains for conveyors, material handling machines, namely, palletizers, case elevators, and conveyors, transfer table units for use in conveyor systems.

Class 42

(2) Consulting in the field of product design of material handling equipment; Consulting in the field of computer hardware engineering; Custom design and engineering of material handling equipment, material handling systems, and material handling equipment layouts for others namely, palletizers, case elevators, and conveyors; Computer hardware engineering; Computer hardware engineering design services; Technical consulting in the design, planning and development of materials handling equipment, namely, hydraulics, pneumatics, hoists, cranes, conveyors, storage units, retrieval units, material handling systems; Providing temporary use of online non-downloadable software as a service featuring online software for tracking and providing real time data and information concerning warehouse control systems, conveyor and sorter controls, conveyors, motor driven rollers, namely conveyors, sorters, and automated storage machines.

Class 01

(1) Chemicals for use in metal plating; industrial chemicals, namely, active chemical ingredients for use in industrial manufacturing processes; sulfuric acid; copper sulfate; blue vitriol; non-metallic minerals being crushed silicified ore; non-metallic minerals being crushed silicified ore for use in smelting; chemicals for surface preparation; chemicals for metal surface finishing; chemicals for surface finishing to coat electroless plating layers on plastics; chemicals for surface finishing to coat electroless plating layers on metals; chemicals for surface finishing to coat electroless plating layers on ceramics; ungluing preparations for adhesives, namely, chemical preparations in the nature of adhesive de-bonding agents for industrial use, namely, the recycling of end-of-life electronic equipment; anti-sulphurating agents for metals; antioxidants for use in the manufacture and refining of precious and minor metals; selenium; tellurium; bismuth; antimony; antimony compounds; rhenium.

Class 06

(2) Iron and steel; alloys of common metal; alloyed steels; iron, unwrought or semi-wrought; steel, unwrought or semi-wrought; alloys of common metal, unwrought or semi-wrought; alloyed steels, unwrought or semi-wrought; selenium alloy; manganese; manganese alloys; ores of metal; copper ore; niobium; copper and its alloys; copper, unwrought or semi-wrought; steel alloys, unwrought or semi-wrought; titanium and its alloys; tungsten; tungsten alloys; tantalum and its alloys; niobium alloys; non-ferrous metals and their alloys; copper ingots; copper-base alloy ingots; lead ingots; tin ingots; tellurium ingots; bismuth ingots; castings, foils, powder, and rolled, drawn and extruded semi-finished articles of copper or its alloys, namely, copper plates, sheets, and rods for industrial use; foils of copper and its alloys for printed circuit boards; steel rails; copper strip; copper alloy strip; steel plates; steel alloy plates; sputtering targets of metal; sputtering targets of metal alloys; sputtering targets of non-ferrous metals and their alloys; sputtering targets of copper and its alloys; sputtering targets of tantalum and its alloys; sputtering targets of titanium and its alloys; sputtering targets of cobalt and its alloys; sputtering targets of nickel and its alloys; sputtering targets of molybdenum and its alloys; sputtering targets of indium and its alloys; sputtering targets of tin and

its alloys; sputtering targets of aluminum and its alloys; sputtering targets of metal and its alloys; sputtering targets of manganese and its alloys; sputtering targets of tungsten and its alloys; coils made of non-ferrous metals and their alloys; coils made of copper and its alloys; coils made of titanium and its alloys; coils made of tantalum and its alloys; metal in powdered form; powder of tantalum and its alloys; powder of tantalum alloys; powder of niobium and its alloys; powder of niobium alloys.

Class 09

(3) Compounds semiconductor wafers; semiconductor wafers; coils, electric.

Class 14

(4) Precious metals and their alloys; silver; gold; platinum [metal]; palladium; iridium; ruthenium; rhodium; gemstones; sputtering targets of platinum [metal] or platinum alloys.

Services

Class 37

(1) Mining extraction; construction project management services; construction of chemical plants; construction of mines; repair and maintenance of metalworking machines and tools; repair and maintenance of mining machines and mining tools; rental of construction equipment; rental of tools for use in construction; rental of mining machines and mining tools.

Class 40

(2) Metal plating; electroplating; electroless plating; metal treating, namely, heat treatment of metals, metal brazing, metal casting services, metal cutting, metal hardening, metal melting services, metal pressing, metal tempering, refining of metals, surface finishing of metals; ceramic processing, namely, ceramic welding and ceramics firing; recycling of precious metals contained in waste or used goods; recycling of non-ferrous metals contained in waste or used goods; recycling of iron contained in waste or used goods; recycling of steel contained in waste or used goods; recycling of copper contained in waste or used goods; recycling of lithium contained in waste or used goods; recycling of cobalt contained in waste or used goods; recycling of nickel contained in waste or used goods; recycling of tantalum contained in waste or used goods; recycling of niobium contained in waste or used goods; recycling of precious metals; recycling of non-ferrous metals; recycling of iron; recycling of steel; recycling of copper; recycling of lithium; recycling of cobalt; recycling of nickel; recycling of tantalum; recycling of niobium; recycling of plastic contained in waste or used goods; recycling of waste; sorting of waste; destruction of waste.

Class 42

(3) Mining surveying; land surveying; geological surveying; geological research; geological prospecting; geological surveying by exploratory drilling; geological exploratory drilling; geological test-pit digging; conducting of chemical analyses of metals; geological research of metal resources; exploration of metal resources, namely, exploration services in the field of mining industries; computer programming; providing temporary use of online non-downloadable computer software on data networks for analysing and running programs for powder flow simulation in industrial manufacturing; technological advice relating to computers, automobiles and industrial machines; providing scientific research and technical information in the fields of geology, metal engineering, namely, metallurgy and rare earth metal exploration.

TRADEMARK DETAILS

Trademark Type

Three-dimensional (3-D)

Visual Representation

Trademark Description

The trademark consists of a configuration of labels on a bottle. On the middle portion of the bottle is a label with a chevron pattern featuring the stacked terms "STYLOVA" and "POLSKA." Underneath the wording is a horizontal band. Along the top border of the label are two horizontal bands. Along the neck of the bottle is a label with a chevron pattern. On the lower portion of the bottle is a label with a chevron pattern and two horizontal bands at the top and bottom borders. The bottle shown in the dashed outline does not form part of the trademark but is included merely to show the position of the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The label in the middle of the bottle is black with a chevron pattern with two gold bands at the top border. On the label, the word "STYLOVA" is white with gold shading and the word "POLSKA" transitions from white at the top portion of the letters to gold in the bottom portion of the letters. The band under the wording is gold. The label at the top of the bottle has a black and gold chevron pattern. The label at the bottom of the bottle is black with a chevron pattern with two gold bands at the top and bottom borders.

Foreign Character Translation

The translation provided by the applicant of the word(s) STYLOVA POLSKA is STYLISH POLISH.

Goods**Class 33**

Distilled spirits, namely vodka, flavoured vodka beverages, vodka-based beverages.

especially hydraulic hammers, pipe tongs, booth, ballast systems for cranes of all kinds, in particular for mobile and crawler cranes, crane booms for cranes of all kinds, in particular for mobile and crawler cranes, telescopic wheel loaders; support systems for machines, in particular for mobile cranes and truck-mounted concrete pumps, hydraulic quick coupling systems for installations and quick hitches for earthmoving machines; exhaust gas treatment systems being parts of motors and engines for truck mixers, mining machines, dumper trucks; generators for truck mixers, mining trucks, dumper trucks; control mechanisms being parts of motors or engines for truck mixers, mining trucks and dumper trucks; drive devices for opening and closing cargo compartment doors and landing gear hatches; bogie steering; actuation mechanisms for controlling and operating rudder surfaces, in particular vertical rudders, and air brakes, cargo doors, rotor blade drives, travelling gear and other aviation-related applications, including fuelling systems, rotor blades for propulsion mechanisms, thrust-reversers and thrust vectors; truck mixers; pneumatic actuators for control air-brake devices.

Class 09

(2) Surveying, optical, measuring, signalling and checking (supervision) apparatus and instruments namely position sensors, thermal imaging cameras, position detection sensors, satellite navigation systems, satellite navigation devices, global positioning system (GPS) satellites, camera system for drones, lasers for surveying, level measuring machines for surveying, surveying instruments, measuring tapes, rulers; electronic control systems for mixing plants and concrete mixers; electronic controls, in particular for cranes of all kinds, earth-moving equipment of all kinds and machine tools; controllers for support systems for construction equipment, in particular mobile cranes and truck-mounted concrete pumps; motor control apparatus namely electronic servo motor controllers; driver assistance systems and parts therefor, in particular display monitors, cameras; controllers and regulators for air conditioning apparatus and heating vents, converters; electronic controls for railway bogies; software and control software for air conditioning installations and heating vents for rail vehicles; software, in particular diagnostic software for air conditioning installations and heating vents for rail vehicles; flight supervision devices; flight simulators for aeronautical machines; control computers for aircraft equipment systems, in particular activation systems and air conditioning systems; frequency converters for controlling engines and motors; active mains rectifiers with feedback possibilities; capacitor modules for energy buffering; double layer capacitors; electronic control systems for the maneuverability, monitoring, operation, navigation, assessment, performance optimization, maintenance, diagnosis and repairs of mining equipment, machines and machinery and components therefor; electronic control units and distributed control systems for use in the remote maneuverability, monitoring, operation, navigation, assessment, performance optimization, maintenance, diagnosis and repairs of mining equipment, machines and machinery; data transmission systems namely wireless device for transmitting electronic data from mining machines, equipment and machinery to a data center and users; data transmission cables; computer chipset for use in transmitting data to and from a central processing unit; user interfaces for machine controls, in particular for control of toothed machines; simulators, in particular crane simulators and crawler simulators; pocket calculators; software that provides users with the ability to maneuver, monitor, analyze, operate, navigate, assess, optimize performance, maintain, diagnose and repair mining equipment, vehicles, machines and machinery; software to capture, record and analyze real-time data for the maneuvering, monitoring, operation, navigation, assessment, performance optimization, maintenance, diagnosis and repair of mining equipment, vehicles, machines and machinery; software providing statistics, information and predictive analytics to maneuver, monitor, analyze, operate, navigate, assess, optimize performance, maintain, diagnose and repair mining equipment, vehicles, machines and machinery; mouse pads; eyeglasses and cases therefor; electrical and electronic devices, equipment and

apparatus for the purposes of telematics namely computer application software for viewing, retrieving, monitoring and analyzing information of mining equipment, vehicles, machines and machinery; data processing and telecommunications equipment and apparatus for broadcasting, reception and transmission of information and for data processing namely computer scanners, data cables, computer hardware, cellular phone transmission towers, computer network switches, GPS transmitters, electrical transformers; computer terminals for connecting a telephone, cable, satellite and telematic networks to mining equipment, vehicles, machines and machinery; telematic terminals in the nature of computer terminals for broadcasting, reception and transmission of data to mining equipment, vehicles, machines and machinery; carriers of all kinds for recording and reproducing sound, images or signals namely magnetic tapes, blank hard disks, blank optical disks and computer disk drives for recording and reproducing sound, images and signals; computers, microcomputers, computer peripherals namely mouse and keyboards; computer memories, modems, interfaces namely interface boards for computers, interface cards for computers, printers for computers, electric cables, printed circuits; computer hardware for the capture, retrieval, recording, processing, storage, transmission, broadcasting, reception and reproduction of digital or non-digital information, data, text, sound and images; software and hardware for the data connection of components in mobile work machines, in particular mining machines, cranes and marine equipment; computers, microcomputers or internet applications namely internet access software, internet messaging software; hardware and software for performing diagnostic analyses of mining machines, cranes and marine equipment; hardware and software for evaluating the operation of and faults of mining machines, cranes and marine equipment; controllers and regulators, and software and control software for refrigerating installations, refrigerating and freezing apparatus, climatized wine cabinets, dispensing installations for beverages, in particular beer; electronic controllers, in particular for mining equipment of all kinds, namely electronic servo motor controllers; electronic control of quick hitches and quick coupling systems for mining machines, equipment and machinery, and for material handling machines.

Class 12

(3) Mining trucks and dumper trucks; parts and accessories for the aforesaid goods, in particular chassis, diesel engines, electric motors, hybrid drives, especially diesel-electric and diesel-hydraulic hybrid drives; hydraulic modules for power transmission for land vehicles, in particular for damping systems thereof; actuators for rail vehicles and buses, including transverse spring centering systems, special dampers, hydropneumatic suspension systems, in particular for rail vehicles and buses; pneumatic actuators for land vehicles; landing gear systems, in particular for aeronautical machines; doors and brake devices for rail vehicles; hydraulic modules for power transmission, for land vehicles; actuators for land vehicles to control wheel sets; hydropneumatic suspension systems for vehicles; shock absorbers for land vehicles, in particular for railway vehicles and buses.

Services

Class 37

(1) Installation services, cleaning services, repair, maintenance, in relation to the following goods: mining machinery; refurbishment of mining machines, repair of mining machinery; replacement of components of mining machines; assembly of vehicle parts for mining vehicles; assembly services relating to the installation of computers, computer software and computer hardware on mining vehicles; construction, in particular construction; battery charging; charging of electric vehicles; mining extraction.

Class 38

(2) Technical consultancy services in the field of telematic in-vehicle communication; technical consultancy services in the field of telematic communication for mining equipment, vehicles, machines and machinery; provision of telecommunication access via a web-based computer application to maneuver, monitor, analyze, operate, navigate, assess, optimize performance, maintain, diagnose and repair mining equipment, vehicles, machines and machinery; video-on-demand transmission; transmission of digital information and data for maneuvering, monitoring, analyzing, operating, navigating, assessing, optimizing performance, maintaining, diagnosing and repairing mining equipment, vehicles, machines and machinery; providing access to databases.

Class 42

(3) Scientific and technological services and research and development related thereto, namely civil engineering, computer hardware engineering, computer software engineering, mechanical engineering, mining engineering; industrial analysis and research in mining engineering, the mining industry, mining machines, mining machinery, mining equipment and mining vehicles; creation and development of computers and software; development of crane simulators; technological consultancy in the fields of mining engineering, the mining industry, mining machines, mining machinery, mining equipment and mining vehicles; technological consultancy in the field of computer hardware systems; technological consultancy in the field of computer technology software development; architectural services; IT services namely data automation and data collection using software to capture, record and analyze real-time data for the maneuvering, monitoring, operation, navigation, assessment, performance optimization, maintenance, diagnosis and repair of mining equipment, vehicles, machines and machinery, and the backup and storage of such data; IT services namely providing computer systems connectivity services to assist users and operators of mining equipment, vehicles, machines and machinery; design services of computer hardware and software; design services of mining machines, mining machinery, mining equipment and mining vehicles for others; industrial analysis and research services in the fields of computer hardware and software; design, development, implementation and updating of computer software; technological consultancy in the field of telematics; software as a service [SaaS] featuring non-downloadable software to maneuver, monitor, analyze, operate, navigate, assess, optimize performance, maintain, diagnose and repair mining equipment, vehicles, machines and machinery; software as a service [SaaS] featuring non-downloadable software to capture, record and analyze real-time data for the maneuvering, monitoring, operation, navigation, assessment, performance optimization, maintenance, diagnosis and repair of mining equipment, vehicles, machines and machinery; software as a service [SaaS] featuring non-downloadable software to provide statistics, information and predictive analytics to maneuver, monitor, analyze, operate, navigate, assess, optimize performance, maintain, diagnose and repair mining equipment, vehicles, machines and machinery; building design services, construction site planning; technical consultancy in the field of telematics technology.

Trademark Description

The mark consists of highly stylized lettering for the wording "FELIZ Y DADA" in all capital letters with the design of a multi-colored push-button telephone appearing to the right of the wording. The word "FELIZ" appears over the wording "Y DADA". The letter "F" is brown and has black uneven spots all over. The letter "E" is made up of a top half that is yellow and a bottom half that is orange. The letter "L" is in olive green. The letter "I" is comprised of a blue snake-like creature, with a body comprised of wavy lines and a face pointed downwards with its tongue sticking out and a blue substance that appears like venom coming out of the mouth. There is a flesh-colored human hand with a red fingernail holding the snake's body. The letter "Z" appears in orange with different sized yellow dots. The letter "Y" is comprised of thin gray lines. The first letter "D" is comprised of a pale-yellow face of a dragon like figure with orange details, a blue pupil within a white eyeball and brown eyelid, a brown horn, and green spikes around the head. The figure has an open mouth with a brown lower lip and is baring white teeth. The first letter "A" is green. The second letter "D" is comprised of only the outline of the letter and is a blue green color with an olive-green color mark in the upper left corner, which is a continuation of the substance coming out of the snake's mouth above it. The second letter "A" is comprised of a broken triangle with brown shading on the bottom portion offset slightly to the right of the outline. The telephone on the right has a yellow and orange base. The body of the telephone is green, purple, light gray and dark gray. The telephone handle is a blue gray with red ends. The telephone cord is dark blue. The buttons on the telephone are blue, light orange, green, orange, maroon, yellow and red. Above the telephone are lightning rod shaped designs in yellow, red and orange. Below the telephone appears the wording "since 1923" in black lowercase script. All of the elements are outlined by thin black lines and the entire mark is set against a light beige background.

Colour Claim

Colour is claimed as a feature of the trademark. Black, brown, yellow, orange, olive green, blue, red, gray, white, blue green, green, pale yellow, purple, flesh color, light gray, dark gray, blue gray, dark blue, light orange, maroon, and light beige. The mark consists of highly stylized lettering for the wording "FELIZ Y DADA" in all capital letters with the design of a multi-colored push-button telephone appearing to the right of the wording. The word "FELIZ" appears over the wording "Y DADA". The letter "F" is brown and has black uneven spots all over. The letter "E" is made up of a top half that is yellow and a bottom half that is orange. The letter "L" is in olive green. The letter "I" is comprised of a blue snake-like creature, with a body comprised of wavy lines and a face pointed downwards with its tongue sticking out and a blue substance that appears like venom coming out of the mouth. There is a flesh-colored human hand with a red fingernail holding the snake's body. The letter "Z" appears in orange with different sized yellow dots. The letter "Y" is comprised of thin gray lines. The first letter "D" is comprised of a pale-yellow face of a dragon like figure with orange details, a blue pupil within a white eyeball and brown eyelid, a brown horn, and green spikes around the head. The figure has an open mouth with a brown lower lip and is baring white teeth. The first letter "A" is green. The second letter "D" is comprised of only the outline of the letter and is a blue green color with an olive-green color mark in the upper left corner, which is a continuation of the substance coming out of the snake's mouth above it. The second letter "A" is comprised of a broken triangle with brown shading on the bottom portion offset slightly to the right of the outline. The telephone on the right has a yellow and orange base. The body of the telephone is green, purple, light gray and dark gray. The telephone handle is a blue gray with red ends. The telephone cord is dark blue. The buttons on the telephone are blue, light orange, green, orange, maroon, yellow and red. Above the telephone are lightening rod shaped designs in yellow, red and orange. Below the telephone appears the wording "since 1923" in black lowercase script. All of the elements are outlined by thin black lines and the entire mark is set against a light beige background.

Foreign Character Translation

The translation provided by the applicant of the word(s) "FELIZ Y" is "HAPPY AND".

Design
Position

Visual Representation

Trademark Description

The trademark consists of the position of the terms "BRAZILIAN BUM BUM" and horizontal dotted lines over and under this wording on the lid of a three-dimensional jar, as shown in the visual representation. The colour yellow is applied to the surface of the jar bottom, and the colour white is applied to the surface of the lid. The jar shown in dashed lines does not form part of the trademark but is included merely to show the positioning of the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The terms "BRAZILIAN BUM BUM" and the horizontal dotted lines over and under this wording are black. The colour yellow is applied to the surface of the jar bottom, and the colour white is applied to the surface of the lid.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark is composed of black, white, yellow, and gray. The English character "BLACKCOW" is white, followed by a yellow background, and the two Chinese characters are black. The borders of the square, as well as the edges of the houses, trees, and fields inside the square, are all gray, while the other filling colors are yellow.

Foreign Character Translation

The translation provided by the applicant of the the first Chinese character is Hei, which translates to "black" and is transliterated as "Hei". The second Chinese character is Niu, which translates to "cow" and is transliterated as "Niu". So, the translation of "Hei Niu" is "Black Cow".

Foreign Character Transliteration

The transliteration provided by the applicant of the first Chinese character is Hei and second Chinese character is Niu. The full transliteration of the trademark name is "Hei Niu".

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the stylized yellow letters V and S, which are outlined in blue and set in the middle of a square divided in half diagonally, with the left half being blue and containing a drawing of a blue five-pointed star outlined in white with rectangles radiating out from it to suggest that it is moving from the upper left-hand corner of the square to the centre of the square, the right half being pink and consisting of a drawing of a pink disc outlined in white with rectangles radiating out from it to suggest that it is moving from the lower right hand corner of the square toward the centre of the square, and drawings of small white circles and skinny white, light blue and light pink triangles placed throughout the square to suggest that the blue star and the pink disk have collided in the centre of the square under the stylized letters V and S.

Colour Claim

Colour is claimed as a feature of the trademark. The Applicant claims the colours yellow, light brown, black, grey, white, hazel brown, dark brown, pink, and blue. The mark consists of the image of a short, cylindrical, open-mouthed, single-eyed cartoon character, wearing a strapped eye goggle, gloves, overalls with the design of a patch with the shape of the letter "M" in the centre of the patch, and boots. The colour of the character is yellow, with light brown lines throughout to emulate a scaled texture. The left-hand side of the character is shaded in light brown to indicate depth and shading. The strap connected to the eye goggle, the shading at the top of the eye goggle where it meets the character's sclera, the character's pupil, the inside of the character's mouth, the two buttons on the left and right side of the overalls, the background of the M design in the centre of the overalls, the gloves, and the boots are black. The circular goggle and the two hinges attaching it to the black strap are grey. The character's sclera is white, and the iris is hazel brown. The character's teeth are white. The shaded area in the throat underneath the tonsils is dark brown. The character's tongue is pink. The overalls and overall straps are blue. The letter "M" inside of the black circle is yellow.

Goods

Class 25

(1) Clothing namely, shirts, athletic tops, blouses, camisoles, t-shirts, tank tops, dresses, skirts, pants, trousers, jeans, shorts, rompers, overalls, sweatshirts and sweat pants, sweatsuits, gloves, suspenders, ties, coats and jackets, hosiery, pajamas, bath robes, beach robes, night gowns, sleep shirts, sleepwear, swimwear, underwear, Halloween costumes, infantwear and cloth baby bibs; hats; headwear, namely, caps; shoes, boots, and slippers.

Class 28

(2) Toys, games and playthings, namely, action figures and accessories therefor, bathtub toys, kites, toy building blocks, board games, action skill games, manipulative logic games, manipulative puzzles, dice games, educational toys, pull toys, sandbox toys, spinning toys, toy model hobby kits, wind-up toys, jigsaw and manipulative puzzles, toy building bricks, toy dough, target games, bubble making wand and solution sets, children's multiple activity toys, costume masks, mechanical toys, toy vehicles and accessories therefor, dolls, doll accessories, doll clothing, bean bag dolls, toy figures and accessories therefor, play figures, inflatable toys, flying discs, jigsaw puzzles, marbles, plush toys, puppets, ride-on toys, skateboards, party balloons, play balloons, toy balloons, roller skates, toy banks, water squirting toys and stuffed toys; Christmas tree ornaments; toy water globes; pinball machines; playing cards; hand-held unit for playing electronic games adapted for use with an external display screen or monitor; golf and sports balls, stress relief exercise balls.

Colour Claim

Colour is claimed as a feature of the trademark. The colours are dark blue, red and light blue. The dark blue forms the head and the upper side of the fish's body. The red forms the tail and the lower side of the fish's body. The colour red is also used for the name of the mark, which is "Tezen". The light blue forms a circle with the fish's bones.

Colour Claim

Colour is claimed as a feature of the trademark. The word "Life" is in the color blue. The word "Supply" is in the color red. The word "USA" is in the color blue. A stylized shopping cart forms the letter "S" in the word "Supply". The handle of the cart is in the color blue, and the side of the cart is made up of nine white stars on a blue background and three horizontal red bars, forming a highly stylized American flag. The third horizontal bar creates the top of the letter "S" in the word "Supply".
