cloud servers; computer software for connecting computers and for enabling cloud computing; computer software used for running cloud computing based applications; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable computer connectivity software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; software for cloud infrastructure management and automation

Services

Class 42

(1) advisory services in the field of cloud computing networks and applications; advisory services in the field of deploying cloud computing environments in the field of infrastructure as a service [IaaS]; advisory services in the field of deploying cloud storage environments in the field of infrastructure as a service [IaaS]; application service provider (ASP) services for hosting the computer software applications of others; application service provider (ASP) services to allow users to perform electronic business transactions via a global computer network; application service provider services, namely hosting of software on a global computer network for others; cloud computing featuring software for use in enterprise content management, enterprise content integration and business records management; cloud computing providing software for database management; cloud computing services, namely computing services to enable network integrating computer hardware and software for consumption metering of computer resources; cloud computing services, namely computing services to enable network integrating computer hardware and software for dynamic provisioning of computer resources; cloud computing services, namely computing services to enable network integrating computer hardware and software for virtualization of computer resources; cloud hosting of electronic databases; cloud hosting provider services; cloud services in the nature of monitoring of computer systems for detecting unauthorized access or data breach; cloud services in the nature of monitoring of the condition and status of computer systems; cloud services in the nature of updating of computer software relating

to computer security and prevention of computer risks; cloud-based computer security services for the prevention and resolution of email and web-based cyberattacks; cloud-based data protection services; computer services, namely, integration of private and public cloud computing environments; computer services, namely, remote management for technical support of the cloud computing systems of others; design and development of operating software for accessing and using a cloud computing network; design and development of software, databases, web services and cloud computing infrastructure; hosting a website providing virtual computer systems through cloud computing; management services for data center networks; operating a cloud service for securing computerized information in transit and on personal and institutional storage devices; platform as a service (paas) featuring software for running cloud computing based applications; providing a cloud-based platform-as-a-service for non-downloadable software for logistics management in the field of supply chain logistics and reverse logistics; providing a cloud-based platform-as-a-service for non-downloadable software for timeline project management; providing a cloud-based platform-as-a-service for non-downloadable software warehouse inventory management; providing cloud storage facilities for use as a data center for others; providing virtual computer systems and virtual computer environments through cloud computing; writing of computer code for public and private cloud computing environments

(2) software as a service (SAAS) featuring software for running cloud computing based applications; software as a service (SAAS) featuring software for use in cloud infrastructure management and automation; software as a service (SaaS) provider featuring business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; software as a service (SaaS) provider featuring computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; software as a service (saas) provider featuring software for running cloud computing based applications; software as a service (SaaS) provider featuring software to operate, monitor and manage third-party software applications in decentralized cloud storage facilities; software as a Service (Saas) provider providing software for cloud Network Attached Storage facilities for use with a datastore for the general storage of data for others; software as a service (SaaS) services for deploying public and private cloud computing environments in the field of infrastructure as a service (IaaS); software-as-a-service services featuring software to allow for data replication, mirroring, and searching in a cloud-based data warehouse; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of cloud computing applications;

Colour Claim
Colour is claimed as a feature of the trademark. Words "ALL THE" are blue, outline in yellow. Word "LADS" is white, outlined in blue. The words are overlayed on a circle imitating a sunset over water. The sunset begins at the top as yellow then gradients to orange in the middle. The bottom half of the circle is blue. Beginning two thirds down from the top, the circle develops slats that gradually get larger.

Visual Representation

Colour Claim
Colour is claimed as a feature of the trademark. Trademark Description:The trademark consists of a stylized representation of the text '7 Haven Interiors,' with specific color assignments as follows: Number '7': The number '7' is in gold, with a dark green outline. The gold color within the '7' features a gradient effect, starting with a lighter shade at the top and transitioning to a deeper shade towards the bottom. The dark green outline provides a sharp contrast, making the '7' stand out prominently.Word 'Haven': The word 'Haven' is in dark green, with a gold outline that mirrors the style of the '7'. The letters are connected and integrated with the '7', forming a continuous design that emphasizes the unique and cohesive nature of the brand. The gold outline is consistent in width, adding an elegant touch to the overall appearance.Word 'Interiors': Positioned to the right of the '7' and above the word 'Haven,' the word 'Interiors' is in dark green. The font is clean and modern, with no additional outlines or gradients. The size of the word 'Interiors' is smaller, ensuring it does not overshadow the main elements of the logo.Gold color (#F4B41A): The gold color in the logo is a vibrant and warm shade of gold. It is used prominently in the number '7' and as an outline around the word 'Haven.' This gold symbolizes luxury, quality, and high value, reflecting the brand's commitment to providing premium interior design services. The gold is used with a gradient effect in the number '7', adding depth and a sense of dimensionality to the logo. Dark Green color (#006B54): The dark green color is a deep, rich shade of green used in the word 'Haven,' the outline of the number '7,' and the word 'Interiors.' This green represents growth, renewal, and stability, aligning with the brand's vision of creating enduring and sophisticated interior spaces. The dark green is solid and consistent across the elements, providing a strong contrast against the gold and reinforcing the logo's bold and professional aesthetic.Conclusion:

The entire design is set against a white background, which provides a clean and professional appearance. The use of gold and dark green in combination emphasizes the brand's identity, representing luxury, growth, and a high level of craftsmanship.

Class 09

(1) bioinformatics software; clinical decision support software and application; communication software namely, video and audio conferencing software; computer application software for accessing an online marketplace for buyers and sellers of goods and services; computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and to receive alert notifications; computer application software for mobile phones for use in database management; computer application software for online chatting and messaging; computer application software for operating multi function printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating photocopiers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating printers and inkjet printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for processing and analysis of magnetic resonance imaging (MRI); computer application software for searching, retrieving, viewing, booking, renting and leasing of workspace; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software that gives computer users the ability to upload, exchange and share videos via the internet; computer application software to allow merchants to manage and track customer payments, track staff performance, and create promotional campaigns; computer application software to allow users to perform online payment transactions; computer chatbot software for simulating conversations; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer firewall software; computer game software; computer game software downloadable from a global computer network; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer games; computer gaming software for recreational game playing purposes; computer hardware and computer software for database management; computer hardware and downloadable

software for human biometric data collection using sensors for medical use; computer hardware and downloadable software for receiving, processing, transmitting, and displaying data from medical testing devices, namely, in vitro diagnostic devices; computer hardware and software for database management; computer hardware and software for processing digital music files; computer hardware and software for setting up and configuring local area networks; computer hardware and software for setting up and configuring wide area networks; computer hardware and software to view virtual images in augmented reality; computer operating system interface software; computer operating system software; computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs and software for image processing; computer search engine software; computer security software for firewall and anti-virus protection; computer security software for network traffic analysis and network security management systems; computer security software for network vulnerability assessment; computer security software for virus intrusion prevention; computer software and computer programs for use in credit card and debit card payment processing; computer software and databases for use in diagnosis, repair and configuration of computers; computer software and software applications for accessing medical and health information; computer software and software applications for controlling and managing access to patient medical information; computer software and software applications for use in the diagnosis, monitoring and treatment of oncological diseases and disorders; computer software applications for mobile phones and handheld computers for coordinating live video and social media feeds; computer software applications for the management and provision of customer relationship management; computer software for accessing email and text messages; computer software for accessing information directories that may be downloaded from the global computer network; computer software for accessing student information; computer software for accessing, browsing and searching online databases; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for accessing, querying and analyzing information stored in databases, namely data in the field of chemistry and chemical biology experiments; computer software for administration of computer local area networks; computer software for administration of computer networks; computer software for allowing users to upload personal and medical information into online databases accessible via scanning quick response (QR) codes; computer software for application and database integration; computer software for assessing cognitive brain function and detection of memory deficit for use in providing medical diagnosis and course of treatment for individuals with memory impairments; computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs; computer software for authorising access to data bases; computer software for authorising access to databases; computer software for business data mining; computer software for collecting health and wellness data during training exercise and golf playing; computer software for connecting computers and for enabling cloud computing; computer software for controlling and managing access server applications; computer software for controlling and managing patient medical information; computer software for converting document images into electronic formats; computer software for creating and managing requests for proposals [RFPs] in the field of business performance management; computer software for creating searchable databases; computer software for creating searchable databases of information and data; computer software for creating, sending and receiving e-mail; computer software for data deduplication; computer software for data security; computer software for database management; computer software for designing, planning and executing experiments in the fields of chemistry and chemical biology;

computer software for digital messaging for accessing live online chat services; computer software for document management; computer software for editing images, sound, and video; computer software for editing music and for editing digital audio recordings; computer software for facilitating online communications between parents and child care professionals via a global computer network; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for graphic designing and editing; computer software for image processing; computer software for inventory management; computer software for language training; computer software for language translations; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing medical staff information; computer software for mathematical calculation; computer software for medical imaging; computer software for monitoring computer network access and activity; computer software for monitoring patient medical information; computer software for operating system programs; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for processing digital images; computer software for processing digital music files; computer software for processing, testing and measuring data collected from meters which measure values of electrical parameters; computer software for project management; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; computer software for running development programs and application programs in a common development environment; computer software for scientific analysis of genetic sequences; computer software for storing, managing, tracking, analyzing, and reporting data in the fields of chemistry experiments and chemical biology experiments; computer software for text editing; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for the design, development and updating of digital electronic labels; computer software for the integration of chemical data from experiments in the fields of chemistry and chemical biology; computer software for the management of cryptographic security of electronic transmissions across computer networks; computer software for tracking and displaying shipment information of consumer goods in the field of purchase order processing for shipping; computer software for use as a spreadsheet; computer software for use as an application programming interface (API) for creation of online retail stores; computer software for use as an application programming interface (API) for use in the fields of image content analysis; computer software for use as an application programming interface (API) for use in the fields of natural language processing; computer software for use as an application programming interface (API) for use in the fields of speech recognition; computer software for use as an application programming interface (API) for use in the fields of virtualization; computer software for use in analyzing and benchmarking cybersecurity risk; computer software for use in cancer diagnosis; computer software for use in cognitive training and teaching new skills to individuals with learning and memory impairments; computer software for use in conducting psychological and neurological assessments and examinations; computer software for use in creating and designing web sites; computer software for use in creating and designing websites; computer software for use in customer relationship management (CRM); computer software for use in database management; computer software for use in producing testing data and reports in the field of neuropsychology, psychology, and cognitive function; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for use in testing, monitoring, research, analysis and assessment of cognitive function for medical purposes and for purposes of conducting clinical trials; computer software for use in testing, monitoring, research, analysis and assessment of cognitive function in the fields of psychology, neuropsychology, and cognition;

computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software for use in the encryption and decryption of digital files; computer software for visual art designing and editing; computer software for voice recognition for use in connection with the transmission of voice; computer software for word processing; computer software in the field of human resource management; computer software in the field of personnel management; computer software that allows transmission of graphics to mobile telephones; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software to allow users to perform electronic payment transactions; computer software to create and manage budgets; computer software to create price quote estimates and transfer price quote estimates to invoices; computer software to design and monitor pharmaceutical treatment plans, track patient compliance and verify treatment outcomes of prescription medication; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer system software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer virtualization software; data transfer software being computer operating software; database management software; downloadable and recorded computer software for encryption of digital files; downloadable and recorded computer software for medical diagnostic imaging for use in diagnosis and treatment of lung diseases and conditions; downloadable and recorded computer software for processing and analysis of ultrasound images for medical diagnostic imaging; downloadable and recorded computer software for receiving digital video over a communication network; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing audio files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable and recorded computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity assessment and protection; downloadable artificial intelligence software for digital audio generation; downloadable artificial intelligence software for digital image generation; downloadable artificial intelligence software for digital image to digital image generation; downloadable artificial intelligence software for digital video generation; downloadable artificial intelligence software for text to digital image generation; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on public and private virtual servers; downloadable business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; downloadable calendaring software; downloadable computer application interface [API] integration software for online marketplaces; downloadable computer application software for maintaining and updating computer games; downloadable computer application software for managing medical staff information; downloadable computer game software; downloadable computer search engine software; downloadable computer software development programs for creating and developing business applications for others; downloadable computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers; downloadable computer

software development programs for creating and developing computer programs for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on public and private virtual servers; downloadable computer software for accessing and using databases in the fields of biotechnology; downloadable computer software for accessing and using databases in the fields of genomics; downloadable computer software for accessing and using databases in the fields of medicine; downloadable computer software for accessing and using databases in the fields of proteomics; downloadable computer software for accessing and using databases in the fields of transcriptomics; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable computer software for analyzing molecular and clinical data for research in the fields of genomics; downloadable computer software for analyzing molecular and clinical data for research in the fields of medicine; downloadable computer software for analyzing molecular and clinical data for research in the fields of transcriptomics; downloadable computer software for assisting developers in creating interactive computer games; downloadable computer software for creating digital images; downloadable computer software for daily tasks management; downloadable computer software for developing, configuring, and operating decentralized cloud storage facilities; downloadable computer software for graphing proteomes for use in medical; downloadable computer software for graphing proteomes for use in scientific diagnostics; downloadable computer software for hosting web-based meetings and classes; downloadable computer software for managing user health information, namely, tracking, compliance and motivation to keep a consistent sleep schedule for optimal user health; downloadable computer software for model-less multivariable process control and optimization; downloadable computer software for process optimization; downloadable computer software for receiving, processing, analyzing, transmitting and displaying user sleep information, namely, motion, position, breathing, heart rate, respiration, quality of sleep, hours slept, and heart and respiration issues; downloadable computer software for storing research and development information in the fields of biotechnology; downloadable computer software for storing research and development information in the fields of genomics; downloadable computer software for storing research and development information in the fields of medicine; downloadable computer software for storing research and development information in the fields of proteomics; downloadable computer software for storing research and development information in the fields of transcriptomics; downloadable computer software for streaming videos from digital media content sessions; downloadable computer software for the analysis of proteins, proteomes, and biological data in the fields of genomics; downloadable computer software for the analysis of proteins, proteomes, and biological data in the fields of transcriptomics; downloadable computer software for the creation and management of personal information online; downloadable computer software for the distribution, storage, and sharing of music and sounds; downloadable computer software for the structural and functional analysis of genomes; downloadable computer software for transmitting emails from a subscriber list; downloadable computer software for use as an application programming interface (API) for use in the fields of database integration; downloadable computer software for use as an application programming interface (API) for use in the fields of database management; downloadable computer software for word processing; downloadable computer software in the field of memory training activities sold as a unit with positionable figures; downloadable computer software in the form of a mobile application for accessing and viewing data, namely, for obtaining advice and assistance relating to sports and physical activities; downloadable computer software integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; downloadable computer software platform for assisting programming developers to collaborate on digital computer programing code as used in multiple application programs; downloadable computer software

platform for assisting programming developers to collaborate on digital computer programing code technical documents as used in multiple application programs; downloadable computer software platform for assisting programming developers to collaborate on software programing code performance issues as used in multiple application programs; downloadable computer software that assists computers in deploying parallel applications and performing parallel computations; downloadable computer software that supports interaction between computer applications with data from application programming interfaces (APIs), digital databases and digital files; downloadable computer software to assess and report on computer software controls and policies for third party businesses for regulatory compliance and data governance; downloadable computer software to create, manage, and enforce privacy policies and customer privacy choices in compliance with data protection laws; downloadable computer software to facilitate support and sharing of health information for patients living with diabetes and diabetes-related conditions; downloadable computer software to fulfill access to information and privacy requests and reporting on the collection, use and storage of user personal information; downloadable computer software to provide access to data privacy and data enforcement policies online; downloadable computer software to run data privacy policies for the safeguarding of personal in-formation online; downloadable computer software to train software to predict user behaviour in the field of learning models and artificial intelligence; downloadable database integration software for business management; downloadable database management software; downloadable educational software containing topics of instruction in cloud computing; downloadable educational software containing topics of instruction in computer software development; downloadable educational software containing topics of instruction in computer software training; downloadable educational software containing topics of instruction in computers; downloadable educational software containing topics of instruction in information technology security; downloadable educational software containing topics of instruction in information technology services management; downloadable educational software containing topics of instruction in mental health and wellness; downloadable learning management software for delivering and managing e-learning training courses; downloadable mobile application software to train software to predict user behaviour in the field of learning models and artificial intelligence

Class 16

(2) computer manuals featuring software encryption algorithms; computer software operating manuals

Services

Class 41

(1) arranging and conducting seminars, workshops, conferences, symposiums, and panel discussions for groups in the field of computer software development; provision of educational programs regarding clinical trials in the field of cancer research; publication of the results of clinical trials

Class 42

(2) analyzing clinical trials in the pharmaceutical, biotechnology and life sciences fields; application service provider (ASP) featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider (ASP) featuring software for managing electronic data storage for archiving business, corporate, and personal records and documents; application service provider (asp) featuring software in the field of library science for use in library management and operations; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for accessing, browsing and searching online

databases; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for dictation; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for enabling hands-free use of a mobile phone through voice recognition; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for global positioning and for providing travel directions; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for scheduling appointments, reminders, and events on an electronic calendar; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for the redirection of messages and e-mails, to one or more electronic handheld devices; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software used to process voice commands and create audio responses to voice commands; application service provider (ASP) services featuring software for use in enterprise content management, enterprise content integration and business records management; application service provider (asp) services featuring software in the fields of web-based conferencing, audio conferencing, and video conferencing; application service provider (ASP) services for hosting the computer software applications of others; application service provider (ASP) services providing online non-downloadable software for merchants to manage and track customer payments, track staff performance, and create promotional campaigns; application service provider featuring application programming interface (api) software for analyzing market data; application service provider featuring application programming interface (API) software for analyzing molecular and clinical data for scientific and medical research; application service provider featuring application programming interface (api) software for gathering market data; application service provider featuring application programming interface (api) software for home and environmental monitoring, control, and automation; application service provider offering application programming interface (API) software for image and text editing; application service provider services, namely hosting of software on a global computer network for others; chemical molecular analysis, product optimization, and clinical trial services to pharmaceutical industries; clinical trials; cloud computing featuring software for use in enterprise content management, enterprise content integration and business records management; cloud computing providing software for database management; cloud computing services, namely computing services to enable network integrating computer hardware and software for consumption metering of computer resources; cloud computing services, namely computing services to enable network integrating computer hardware and software for dynamic provisioning of computer resources; cloud computing services, namely computing services to enable network integrating computer hardware and software for virtualization of computer resources; cloud services in the nature of updating of computer software relating to computer security and prevention of computer risks; cloud-based platform for searching structured and unstructured data for healthcare analytics; computer hardware and software consulting services; computer hardware and software design; computer hardware and software integration and deployment services in the field of information security and cybersecurity; computer programming and software design; computer programming services for others in the field of software configuration management; computer services, namely, assisting others with the implementation, use and operation of computer hardware, computer software, and consumer electronics; computer software advisory services; computer software and hardware project management services for data centers; computer software consultancy; computer software consulting; computer software consulting in the field of biomechanics; computer software design; computer software design and development; computer software design and updating; computer software design for others;

computer software design services; computer software development; computer software development in the field of mobile applications; computer software engineering; computer software installation and maintenance; computer software installation services in the field of information security and cybersecurity; computer software programming services; computer software project management services; computer software system design; computer software technical support services; computer technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; conducting interventional clinical studies; conducting observational clinical studies; configuration of computer hardware using software; configuration of computer software; consultancy and information services relating to the rental of computer software; consultancy in the design and development of computer software; consultancy in the field of software design; consultancy relating to the updating of computer software; consultancy services by physicians and medical researchers in the field of virtual reality software development for use in medical, healthcare and surgical training; consultancy services in the field of computer software development; consultation services relating to computer software; consulting in the field of configuration management for computer hardware and software; consulting services for others in the field of design of computer software testing; consulting services in the field of hosting computer software applications; consulting services in the field of software as a service (saas); consulting services in the fields of implementation and use of computer hardware and software systems for others; creation and maintenance of software for blogs; customization of computer software; data automation and data collection using software to evaluate, analyze and collect clinical research data in the field of genomics; data automation and data collection using software to evaluate, analyze and collect clinical research data in the field of transcriptomics; data automation and data collection using software to evaluate, analyze and collect molecular research data in the field of genomics; data automation and data collection using software to evaluate, analyze and collect molecular research data in the field of transcriptomics; data security consulting in the field of using encryption, computer hardware and computer software to ensure that data cannot be accessed by unauthorized parties; debugging computer software for others; design and development of augmented reality software; design and development of computer hardware and software; design and development of computer software; design and development of computer software development tools in the field of artificial intelligence; design and development of computer software for supply chain logistics; design and development of data retrieval software; design and development of operating software for accessing and using a cloud computing network; design and development of software and hardware for producing, recording and processing digital and analogue signals; design and development of software for instant messaging; design and development of software for inventory management; design and development of software in the field of mobile applications; design and development of software, databases, web services and cloud computing infrastructure; design and development of video game software; design and development of virtual private network (VPN) operating software; design and development of virtual reality software; design and development of virtual reality software for use in providing online collaboration environments between medical professionals; design and development of webpages that allow users to collaboratively develop software; design and implementation of computer hardware and software systems; design and writing of computer software; design, development and implementation of software; design, development and maintenance of cloud based, non downloadable computer AI software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; designing, creating, maintaining, and hosting crowdfunding, crowd-financing, and fundraising software and websites for others; designing, developing, and maintaining of computer software applications for others for customer relationship management; developing and updating computer

software; developing computer software; development of computer software; development of computer software for business web portals; development of computer software for crowdfunding, crowd-financing, fundraising and e-commerce; development of computer software for supply chain management; development of software for secure network operations; operation of a clinical trials database and website regarding cancer research; operation of a tumour bank providing tissue samples and clinical data associated with tissue samples to researchers; platform as a service (PaaS) for searching structured and unstructured data for healthcare data analytics; providing information on clinical studies via an interactive website; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing medical research information in the field of clinical trials; providing scientific research information in the field of clinical trials; providing scientific research information in the fields of clinical trials and post-market trials; providing temporary use of non-downloadable software for analyzing molecular and clinical data to provide personalized healthcare recommendations; remote diagnosis of medical diagnostic imaging, clinical and biomedical equipment for determining the need for repair; research in the fields of clinical trials and post-market trials; software as a service (SaaS) for searching structured and unstructured data for healthcare data analytics; software as a service (SAAS) services featuring non-downloadable software for use in clinical settings to create reports for medical professionals

Class 44

(3) providing analysis, evaluation, and reporting of cancer test results to help healthcare professionals determine a patient's clinical diagnosis; providing analysis, evaluation, and reporting of cancer test results to help healthcare professionals determine the effectiveness of treatments and to revise future treatments; providing analysis, evaluation, and reporting of infection test results to help healthcare professionals determine a patient's clinical diagnosis; providing analysis, evaluation, and reporting of infection test results to help healthcare professionals determine the effectiveness of treatments and to revise future treatments

Class 45

(4) computer software licensing; consultancy relating to computer software licensing; consultancy relating to the licensing of computer software; regulatory compliance consultancy in the field of clinical trials

Visual Representation

Colour Claim
Colour is claimed as a feature of the trademark. The design consists of a graphic representation of an eye with black pupil, and outlined in gold and then black (from inside out), with gold rays of various lengths flowing away from the eye, where eight rays each extend out to a gold dot. Words "STOIC" and "BEAUTY" are in black and positioned over the design, with letter "O" being the iris. White background is used for positioning of the design only and is not being claimed as the feature of the mark.

Goods

Class 03

(1) after sun creams; after sun moisturisers; after-sun lotions; after-sun oils; baby sunscreens; beauty serums; body cleanser; body moisturizers; cosmetic preparations for skincare; essential oils and essential oil blends for personal use; exfoliants for the skin; face mist; face serums; facial cleansers; hair care serums; hand cleansers; mineral oil cosmetics; night creams; non-medicated exfoliating preparations for hair; non-medicated exfoliating preparations for the face; non-medicated serums for use on scalp to aid in hair regrowth; non-medicated skin serums; non-medicated skincare preparations; skin cleanser preparations for body; skin cleanser preparations

for face; skin cleansers; skin relief serum; sun block preparations; sun care preparations; sun-tanning preparations; sunscreen preparations

Class 05

(2) medicated sun block; medicated sun screen preparations; medicated topical skin preparations for the treatment of eczema
