Trademarks Journal

Vol. 72 No. 3706

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Voice command and recognition software, speech to text conversion software; voice-enabled software applications for personal information management, namely software for organizing and accessing calendars, schedules, address books, telephone directories, to-do lists, geographic location coordinates, maps, alarms and reminders; personal assistant software for controlling voice-controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; personal assistant software for voice recognition and for searching, controlling, storing, displaying, streaming, playing, and recording media, namely movies, television shows, music, and video games; personal assistant software for connecting, monitoring, and controlling entertainment multimedia interfaces, vehicle navigational computers, and other electronic devices, namely wireless headphones, wireless earphones, smart watches, smart thermostats, smart speakers, televisions, computers, laptops, tablet computers, telephones, smart phones, network routers, smart light switches, smoke detectors, carbon monoxide detectors; personal assistant software for accessing, browsing, and searching online databases in the field of sports, movies, television shows, video games, business news and financial news, politics and government, personal health and physical fitness, weather, natural science, social science, computer technology, travel, arts and literature, personal growth, vehicles, air transportation, railway transportation, boat transportation, freight transportation, preschool education, elementary school education, middle school education, high school education, post-secondary education, vocational education, child development, real estate development, real estate agencies, personal fashion, fashion design, interior design, food and cooking, home decorating, music and cinema, history, medicine, and law; home automation and home device integration software for controlling air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure

cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers, lighting, HVAC, building access control systems, personal security alarms, building automation systems, motion sensitive security lights, and security cameras; personal vehicle integration software, namely, software for integrating and connecting to smart audio speakers and computer hardware for use and voice control within a vehicle; personal vehicle integration software, namely, software for the connection and synchronization of vehicle on-board computers and portable electronic devices, namely, smart phones, smart watches, personal digital assistants, electronic book readers, and tablet computers, and for controlling vehicle operations and features; software for enabling wireless communication and transmission via the Internet of voice, audio, video, and data for use with cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities for the purposes of managing, connecting and operating internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; software for enabling wireless communication and transmission via the Internet of voice, audio, video and data for the purposes of providing consumer entertainment and educational information, movies, television shows, podcasts and videos in the fields of movies, television programs, music, audio books, visual works namely paintings, sculptures, digital images and photographs, books, theatre, literary works, sporting events, recreational fitness, sport, water, and art activities, professional and amateur game and sport tournaments, art, dance, musicals, craft and fashion exhibitions, sports, radio, comedy, promotional contests, games, festivals, museums, parks, concerts, publishing, animation, current events, and fashion; software for enabling wireless communication and transmission via the Internet of voice, audio, video and data for providing information, news, and commentary in the fields of movies, television shows, celebrities, video games, news about current events, team and individual sports of all types, business news, personal health and physical fitness, weather, computer technology, travel, arts and literature, personal growth, vehicles and transportation, preschool education, elementary school education, middle school education, high school education, post-secondary education, vocational education, child development, real estate, fashion and design, food and cooking, home decorating, music and cinema to cloud-connected, and voice-controlled smart audio speakers and computer hardware

with virtual personal assistant capabilities; search engine software; computer software used for controlling stand-alone voice controlled information and personal assistant devices, namely cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities; computer software for personal information management, namely software for organizing and accessing calendars, schedules, address books, telephone directories, to-do lists, geographic location coordinates, maps, alarms and reminders; computer software for accessing, browsing, and searching online databases, digital format audio files, digital format video files, and digital format multimedia files, computer games, video games, and third party software applications, software application marketplaces; computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; computer software for use in providing retail and ordering services for a wide variety of consumer goods; computer software for use to connect and control internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air

vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; computer software connecting, operating, integrating, controlling, and managing networked home climate devices and lighting fixtures via wireless networks; computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; computer software for use as an application programming interface (API) for communications software for facilitating calls, text messages, instant message, online shopping, voice-enabled commands, trip navigation and online social networking services; software development kits (SDKs) consisting of computer software development tools for the development of a voice service delivery platform and natural language understanding software distributed across global computer networks, wireless networks, and electronic communications networks; software development kits (SDKs) consisting of computer software for the development, use, and interoperability of APIs that are used by third party consumer electronic devices, gaming systems that exchange third party data via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications for internet connected consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can

openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; application programming interface (API), namely, software for facilitating the development of voice service delivery platform and personal assistant software for use in connection with consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; computer application software for enabling users of mobile phones, tablet computers, and personal digital assistants to control, integrate, operate, connect, and manage cloud-connected and voice-controlled smart audio speakers, computer hardware with virtual personal assistant capabilities, and internet of things (IoT) devices, namely audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; computer software development tools, namely computer software code that enables developers to

create voice command and recognition software; voice-enabled software that provides users the ability to control features of their motor vehicle, namely, locking and unlocking vehicle doors, and starting and turning off the vehicle; voice-enabled software that provides users the ability to check statuses of motor vehicle systems, namely, engine oil life, fuel level, tire pressure and battery charge; voice-enabled software that provides users the ability to access and control vehicle HVAC, media, communication, infotainment and navigation systems; in-vehicle, voice-enabled software that provides users the ability to connect and control smart home connected and internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; software for transmitting vehicle diagnostic and status information via computer and communications networks; software for receiving traffic status information and providing responsive directional guidance information to vehicle operators; software that enables communication between vehicles and connected devices, namely mobile phones, car navigation computers, audio speakers, and in-vehicle entertainment electronics; none of the aforesaid for professional photographic and cinematographic cameras including professional photographic and cinematographic specific accessories therefor and professional photographic and cinematographic software

Services

Class 35

(1) Providing product information for the purpose of assisting with the selection of general consumer merchandise to meet the consumer's needs; providing information and recommendations to consumers in the field of entertainment products, services, events, activities, facilities and locations; providing consumer information relating to a wide variety of products; providing online business information directories on the internet featuring restaurants, bars, movie theaters, dance clubs, museums and art galleries; providing online business directory services for telephone numbers, business addresses, electronic mail addresses, network home page addresses, addresses and telephone numbers of people, places, and organizations

Class 42

(6) Platform as a service (PaaS) featuring computer software platforms for voice command and recognition software for creating, controlling and operating speech to text conversion software, voice-enabled software applications for personal information management, namely software for organizing and accessing calendars, schedules, address books, telephone directories, to-do lists, geographic location coordinates, maps, alarms and reminders; Platform as a service (PaaS) featuring computer software platforms for creating, controlling and operating personal assistant software for controlling voice-controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; Platform as a service (PaaS) featuring computer software platforms for personal assistant software for searching, controlling, storing, displaying, streaming, playing, and recording media, namely movies, television shows, music, and video games; Platform as a service (PaaS) featuring computer software platforms for personal assistant software for connecting, monitoring, and controlling entertainment multimedia interfaces, vehicle navigation computers, and other electronic devices, namely wireless headphones, wireless earphones, smart watches, smart thermostats, smart speakers, televisions, computers, laptops, tablet computers, telephones, smart phones, network routers, smart light switches, smoke detectors, carbon monoxide detectors; Platform as a service (PaaS) featuring computer software platforms for personal assistant software for accessing, browsing, and searching online databases in the field of sports, movies, television shows, video games, business news and financial news, politics and government, personal health and physical fitness, weather, natural science, social science, computer technology, travel, arts and literature, personal growth, vehicles, air transportation, railway transportation, boat transportation, freight transportation, preschool education, elementary school education, middle school education, high school education, post-secondary education, vocational education, child development, real estate development, real estate agencies, personal fashion, fashion design, interior design, food and cooking, home decorating, music and cinema, history, medicine, and law; Platform as a service (PaaS) featuring computer software platforms for home automation and home device integration software for controlling air conditioners, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure

cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers, lighting, HVAC, building access control systems, personal security alarms, building automation systems, motion sensitive security lights and security cameras; Platform as a service (PaaS) featuring computer software platforms for creating, controlling and operating software for enabling wireless communication and transmission via the Internet of voice, audio, video, and data for use with cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities for the purposes of managing, connecting and operating internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors and light bulbs; Platform as a service (PaaS) featuring computer software platforms for enabling wireless communication and transmission via the Internet of voice, audio, video, and data for the purposes of providing consumer entertainment and educational information, movies, television shows, podcasts and videos in the fields of movies, television programs, music, audio books, visual works namely paintings, sculptures, digital images and photographs, books, theatre, literary works, sporting events, recreational fitness, sport, water, and art activities, professional and amateur game and sport tournaments, art, dance, musicals, craft and fashion exhibitions, sports, radio, comedy, promotional contests, games, festivals, museums, parks, concerts, publishing, animation, current events, and fashion; Platform as a service (PaaS) featuring computer software platforms for enabling wireless communication and transmission via the Internet of voice, audio, video, and data for the purposes of providing information, news, and commentary in the fields of movies, television shows, celebrities, video games, news about current events, team and individual sports of all types, business news, personal health and physical fitness, weather, computer technology, travel, arts and literature, personal growth, vehicles and transportation, preschool education, elementary school education, middle school education, high school education, post-secondary education, vocational education, child development, real estate, fashion and design, food and cooking, home decorating, music and cinema to cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities; Software as a service (SaaS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio

speakers, computer hardware with virtual personal assistant capabilities, and internet of things (IoT) devices, namely audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; Software as a service (SaaS) featuring computer software for personal information management, namely software for organizing and accessing calendars, schedules, address books, telephone directories, to-do lists, geographic location coordinates, maps, alarms and reminders; Software as a service (SaaS) featuring computer software for accessing, browsing, and searching online databases, digital format audio files, digital format video files, and digital format multimedia files, computer games, video games, and third party software applications, software application marketplaces; Software as a service (SaaS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; providing temporary use of online non-downloadable computer software for use in providing retail department stores services and enabling users to order a wide variety of consumer goods from online retail department stores; Software as a service (SaaS) featuring computer software for use to connect and control internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home

security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; Software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs via wireless networks; Software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked home climate devices and lighting fixtures via wireless networks; Software as a service (SaaS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; Software as a service (SaaS) featuring computer software for use as an application programming interface (API) for communications software for facilitating calls, text messages, instant message, online shopping, voice-enabled commands, trip navigation and online social networking services; design, development and maintenance of proprietary computer software for others in the field of natural

language, speech, language, and voice recognition excluding post-production of picture and sound recordings; technical support and consultation services for developing applications; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; provision of Internet search engine services; information, advisory and consultancy services for voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation software, and software for monitoring and controlling third party internet-of-things devices; providing information, news, and commentary in the field of computer technology, home decorating, weather; providing temporary use of non-downloadable cloud-based, voice-enabled software that provides users the ability to control features of their motor vehicle, namely, locking and unlocking vehicle doors, and starting and turning off the vehicle; providing temporary use of non-downloadable cloud-based, voice-enabled software that provides users the ability to check statuses of motor vehicle systems, namely, engine oil life, fuel level, tire pressure and battery charge; providing temporary use of non-downloadable cloud-based, voice-enabled software that provides users the ability to access and control vehicle HVAC, media, communication, infotainment and navigation systems; providing temporary use of non-downloadable cloud-based, in-vehicle, voice-enabled software that provides users the ability to connect and control smart home connected and internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, digital format audio players and recorders, digital format video players and recorders, game consoles, home entertainment electronics systems, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, home security systems, heating and cooling systems, automobiles, air purifiers, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, electric yogurt makers, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, and light bulbs; providing temporary use of non-downloadable cloud-based software for transmitting vehicle diagnostic and status information via computer and communications networks; providing temporary use of non-downloadable cloud-based software for receiving traffic status information and providing responsive directional guidance information to vehicle operators; providing temporary use of non-downloadable cloud-based software that enables communication between vehicles and connected devices, namely mobile phones, car navigation computers, audio speakers, and in-vehicle entertainment electronics; none of the aforesaid for professional photographic and cinematographic cameras including professional photographic and cinematographic specific accessories therefor and

professional photographic and cinematographic software

Class 06

(1) Steel balls; plates of metal for trommel screens and grinding mills, being parts of machines; sheet metal lining and sheet metal liners for protection of surfaces in industrial machinery; bars for metal railings, metal bars for use in manufacture, hollow steel bars; unwrought or semi-wrought cones of metal; filling segments of metal being semi-processed metal for further manufacture; liners of metal for pipes, conveyors, bins, loading and unloading buckets, chutes, hoppers, and tanks, all being equipment and machinery used in processing of raw materials and waste; metal parts of industrial machinery and conveyors, namely lifter bars, shell plates, cover plates, grates, hooks, fasteners, crampons, threaded fasteners, and pipes; pipes of steel for liquid and gas transfer; protective linings for industrial equipment for preventing wear and corrosion, namely linings for pipes, conveyors, bins, loading and unloading buckets, chutes, hoppers and tanks, all being equipment and machinery used in processing of raw materials and waste; building materials of metal, namely cladding, flashing, and bars; pre-fabricated bridges and ramps of metal for use in industrial facilities and mining facilities; metal railings and guard rails for use in industrial facilities and mining facilities; railway switches; metallic moulds for casting processed raw materials; steel alloys; stainless steels;

Class 07

(2) Industrial screening machines used to separate and screen minerals, ore, construction waste, metal, refuse, and pulp during the processing and treatment of such materials; conveying machines; screening panels and retaining screens used as parts of grinding mills and conveyors used to sort and process minerals, ore, construction waste, metal, refuse and pulp; screens and sieves all for use in vibratory screening machinery for raw material handling and sorting; sieve trays for use in industrial machines used for sieving, screening, sorting, and separating bulk materials; conveyor belts for conveying machines; centrifugal grinding mills; grinding mills for chemical processing and treatment of ore, minerals, construction waste, refuse, and pulp; industrial machinery for processing and treating minerals, ore, construction waste, metal, refuse and pulp, namely grinding mills and parts therefore, namely, mill trommels, plates for trommel screens, protective linings, screen panels, bars, filters, cones, filling segments, lifter bar, shell plates, head plates, grate plates, material filters, center cones, pulp lifters, impeller arms, screw

liners, base liners, wall liners, door liners, baffles, corner liners, hold down bars, retaining screens, blades, valve pumps, grinding rolls and blades; industrial machinery for processing and treating minerals, ore, construction waste, metal, refuse and pulp, namely grinding mills and metal parts for grinding mills to protect against wear, namely plates, surface liners, bucket liners, pipe liners, conveyor liners, wear bars; dust collecting machines for use in industrial facilities, namely air filters and vacuum and pressure filtration equipment for cleaning machinery; wear linings being parts of industrial grinding, screening, conveying and loading machines used to protect surfaces from damages; wear resistant linings, coverings, plates and bars being parts of mineral processing, aggregates, metals refining, mining and recycling machines; protective linings for parts of mill trommels for mineral processing, namely for fastening bars, grates, lifter bars, filters, center cones, cover plates, shell plates, grate plates and head plates; agitator blades and mixing blades in machines used to treat and process minerals, ore, construction waste, metal, refuse, and pulp; seals for machines namely pump seals, mechanical seals; loading buckets for machines; machine pulleys; machine parts, namely parts for conveyors and grinding mills, namely impact bars, pulley guards, belt guards, roller guards, roller bearings, airflow regulators, hoods, bearing housings, sealing components, sealing joints, guiding components, roller guards, glide bars, glide blocks, fixed inlets, grinding rolls, hoses and pipes support structures and bars as parts of conveyors; conveyor idlers for machines; hoses and pipes as parts of mineral, ore, construction waste, metal, refuse, and pulp processing machines; hoses and pipes for transferring slag, water, waste, pulp, and gas; valves for machines; sizing machines; flotation machines for use in mineral processing for the separation of liquid and solid materials; machines for separating waste materials and minerals during industrial processes; filtering machines used for the extraction of solid, liquid, and gaseous substances from processed ore, minerals, construction waste, refuse, and pulp; industrial machinery, namely dewatering machines used in mineral processing; industrial machinery, namely dewatering machines for removing water and liquids from processed ore, recycled materials, and pulp and paper mixtures; sedimentation machines used to remove sediment from processed minerals, ore, construction waste, metal, refuse and pulp; industrial machinery, namely waste compactors, aggregate compactors, processed mineral compactors, pulp and paper, and replacement parts and components therefore; pneumatic compactors for use in material scrapping, mining and recycling facilities; feeding machines composed of roller and belt conveyors, robotic arms, sifting screens, and hoists for processing raw materials; industrial machinery and equipment for moving and conveying raw materials and waste, namely, loading machines, mobile transfer conveyors, conveyor bridges, transport crawlers, cranes; lifting apparatus namely elevators, hydraulic lifts, skid lifts, hydraulic hoists, machines for pelletizing and sintering of raw materials and minerals; railcar dumping and positioning machines for loading minerals in the field of mineral processing; bulk material handling machinery for handling of raw materials, construction waste, metal, refuse, and pulp, namely loading machines, mobile transfer conveyors, conveyor bridges, transport crawlers, skids, bin elevators, and emptying machines, calcining machines for chemical processing of ore, minerals, construction waste, refuse, and pulp; industrial machinery for crushing, shredding, shearing, pressing and for cutting minerals, ore, construction waste, metal, refuse and pulp; refuse and waste crushing machines; cutting tables for metal cutting machines; waste water pumps; pumps used in dewatering machines; pumps as parts of machines, motors and engines, pumps for industrial machinery;

Class 17

(3) Rubber sheets; rubber sheets for insulating purposes; rubber sheets for packing purposes; rubber sheets for sealing purposes; polyurethane film; filtering materials of rubber used in the treating and processing of minerals, ore, construction waste, metal, refuse and pulp; rubber bars; Plates, cones, and belts of rubber being parts of machines used for treating and processing

minerals, ore, construction waste, metal, refuse and pulp; screen panels of rubber and polyurethane being parts of machines used for treating and processing minerals, ore, construction waste, metal, refuse and pulp; lifter bars, shell plates, head plates and grate plates of rubber and polyurethane being parts of machines used for treating and processing minerals, ore, construction waste, metal, refuse and pulp; rubber and polymer linings for machinery used in mining, construction, mineral processing and waste processing namely linings for metal and concrete storage tanks, truck beds, conveyors, silos, chutes and hoppers; polymer film coatings used to line machinery for mining, construction, mineral processing and waste processing for the purpose of sound insulation and for protection from abrasives and corrosive materials; waterproof membranes of rubber for lining machinery used in mining, construction, mineral processing and waste processing; shock absorbing rubber buffers for industrial machinery; rubber sleeves for protecting parts of machinery; rubber insulating sleeves for machinery; hoses and pipes of rubber being parts of mineral, ore, construction waste, metal, refuse, and pulp processing machines; rubber hoses and pipes for transferring slag, water, waste, pulp, and gas; rings of rubber for use as pipe connection seals; rubber stoppers, seals and covers for industrial holding containers;

and surgical dressings; breast-nursing pads; dental fillings; materials for dental fillings; materials for dental fillings and for sealing purposes; materials for dental sealing purposes; material for dental prostheses; material for repairing teeth and dental prostheses; adult diapers; baby diapers; baby swim diapers; cloth diapers; diapers for dogs; diapers for incontinence; diapers for pets; disposable diapers; paper diapers; textile diapers; diaper covers; fly catching paper; mothproofing paper; lacteal flour for babies; dietary supplements for humans, namely, acai powder dietary supplements, albumin dietary supplements, alginate dietary supplements, amino acid dietary supplements, bee pollen for use as a dietary food supplement, bee pollen used as a dietary supplement, casein dietary supplements, colostrum dietary supplements, dietary supplements consisting of amino acids, dietary supplements consisting of trace elements, dietary supplements for controlling cholesterol, dietary supplements for general health and well-being, dietary supplements for promoting weight loss, flaxseed dietary supplements, flaxseed for use as a dietary supplement, flaxseed oil dietary supplements, ground flaxseed fibre for use as a dietary supplement, herbal dietary supplements for promoting faster muscle recovery after exercise, lecithin dietary supplements, lecithin for use as a dietary supplement, linseed dietary supplements, linseed oil dietary supplements, mugwort dietary supplements, natural dietary supplements for treating claustrophobia, pollen dietary supplements, propolis dietary supplements, protein powders for meal replacement for use as a dietary supplement, soy protein dietary supplements, vitamin and mineral dietary supplements, wheat dietary supplements, wheat germ dietary supplements, wheatgrass dietary supplements, yeast dietary supplements, zinc dietary supplements; dietetic beverages containing Gamma-Amino Butyric Acid adopted for medical purposes; dietetic beverages containing amino acids adopted for medical purposes; dietetic food containing Gamma-Amino Butyric Acid adopted for medical purposes; dietetic food containing amino acids adopted for medical purposes; beverages for babies; food for babies; animal semen for artificial insemination; cotton swabs for medical use; clinical diagnostic reagents; diagnostic biomarker reagents for medical purposes; diagnostic reagents for clinical laboratory use; diagnostic reagents for medical diagnostic use; diagnostic reagents for medical laboratory use; diagnostic reagents for veterinary purposes; medical diagnostic reagents; medical diagnostic reagents and assays for testing body fluids; diagnostic reagents for measuring blood component; diagnostic reagents for examining human and animal tissue; diagnostic reagents for measuring and detecting body fluid components; diagnostic reagents for detecting virus in excrement; diagnostic reagents for genetic screening; diagnostic preparations for clinical laboratory use; diagnostic preparations for medical laboratory use; diagnostic preparations for medical purposes for detecting genetic predispositions; diagnostic preparations for medical purposes for detecting mutation in prion genes; diagnostic preparations for measuring blood component; diagnostic preparations for examining human and animal tissue; diagnostic preparations for measuring and detecting body fluid components; diagnostic preparations for detecting virus in excrement; diagnostic preparations for genetic screening; reagent paper for medical and veterinary purposes; diagnostic reagents for measuring blood components; diagnostic reagents for examining human and animal tissue; diagnostic reagents for measuring and detecting body fluid components; diagnostic reagents for detecting viruses in excrement; diagnostic reagents for genetic screening; reagents for use in medical genetic testing; genetic identity tests comprised of reagents for medical purposes; reagent paper for medical purposes; reagents for medical use, namely, reagents for measuring blood component, reagent for examining human and animal tissue, reagent for measuring and detecting body fluid component, reagent for detecting virus in excrement, reagent for genetic screening; medicines for human purposes, namely, antiallergic medicines, intestinal disorder medicine for the treatment of diverticular disease, intestinal disorder medicine for the treatment of intestinal bacteria and parasites, intestinal disorder medicine for the treatment of irritable bowel syndrome, intestinal disorder medicine for the treatment of ulcerative colitis, medicines for adjusting the menstrual

cycle, medicines for alleviating constipation, medicines for prevention against milk fever, medicines for the treatment of gastrointestinal diseases, pain relief medicines; reagents for medical or veterinary purposes, namely, diagnostic test reagents for measuring blood components in humans and animals; reagents for medical or veterinary purposes, namely, diagnostic reagents for examining human and animal tissue for medical laboratory use; reagents for medical or veterinary purposes, namely, diagnostic test reagents for measuring and detecting body fluids in humans and animals; reagents for medical or veterinary purposes, namely, diagnostic reagents for detecting viruses in human and animal excrement for medical laboratory use; reagents for medical or veterinary purposes, namely, medical diagnostic reagents for medical screening of animals and humans in the field of genetic diseases

Class 07

(2) valves being parts of machines; aeroplane engines; parts of engines for aeroplane; agitators for chemical processing; air condensers; metalworking machines and tools; mining machines and apparatus, namely, drills for the mining industry, extractors for mines, mine borers, mine dewatering machines, mine drainage pumps, mine winches, mining anchor tensioning machines, ploughs for coal mining; construction machines and apparatus, namely, road scrapers, construction rammers, concrete construction machines; loading-unloading machines and apparatus, namely, robotic arms for loading; industrial fishing machines, namely, fish-netting machines, machines for making fish paste, machines for making fish nets, robots and robotic arms for industrial fishing; sorting machines for chemical processing; sintering machines for chemical processing; separating machines for chemical processing; pulp processing machines for chemical processing; kneading machines for chemical processing; grinding mills for chemical processing; granulating machines for chemical processing; filter presses for chemical processing; extracting machines for chemical processing; emulsifying machines for chemical processing; dust collecting machines for chemical processing; dissolving machines for chemical processing; disintegrators for chemical processing; chemical fiber spinning machines for chemical processing; cereal processing machines for chemical processing; calcining machines for chemical processing; blending machines for chemical processing; machines for making textile articles, namely, machines for dyeing textiles, textile bonding machines, textile calendaring machines, textile cutting machines, textile scotching machines, textile washing machines, textile brushing machines, textile sputtering machines; bottle capping machines for food and beverages; food chopping machines for commercial use; food cutting machines for commercial use; food mixing machines for commercial use; food peeling machines for commercial use; food slicing machines for commercial use; food vending machines; packaging machines for food; aerated beverage making machines; lumbering, woodworking, or veneer or plywood making machines and apparatus, namely, lumbering band saws, robots and robotic arms for lumbering, saw-tooth setting machines for lumbering or woodworking saws, bending machines for woodworking, circular saws for woodworking, robots and robotic arms for woodworking, sanding machines for woodworking, woodworking lathes, veneer manufacturing machines, plywood clipping machines, plywood finishing machines, plywood gluing machines, plywood jointing machines, robots and robotic arms for plywood making; pulp making, papermaking or paper-working machines and apparatus, namely, pulp making machines, pulp processing machines, pulp refining machines, paper coating machines, paper cutting machines, paper folding machines, paper making machines, paper mill machines, paper reeling machines; printing or bookbinding machines and apparatus, namely, machines for embossed printing, printing cylinders, printing machines for textile, printing machines for use on sheet metal, printing plates, printing presses, printing rollers, bookbinding apparatus and machines for industrial purposes; sewing machines; agricultural machines and agricultural implements, other than hand-operated, namely, agricultural equipment for seeding, agricultural elevators, agricultural cultivators,

agricultural balers, agricultural land fertilizing equipment, tilling machines for agricultural purposes, balers for agricultural use, agricultural seed planting machine, agricultural reaper machines; shoe making machines; leather tanning machines; tobacco processing machines; glassware manufacturing machines; painting machines; packaging or wrapping machines and apparatus, namely, cardboard box making and sealing machines, cardboard box making and packaging machines, carton sealing machines, polystyrene foam box sealing machines, sealing machines for industrial purposes and sealing machines for industrial packaging; power-operated potters' wheels; plastic processing machines, namely, machines for extruding plastics, machines for molding plastics; semiconductor manufacturing machines and systems; machines and apparatus for manufacturing rubber goods, namely, rubber cutting machines, rubber forming machines, rubber mixing machines, rubber rolling machines; stone working machines; non-electric prime movers, not for land vehicles, namely, internal combustion engines used in industrial applications; non-electric prime movers, not for land vehicles, namely, steam turbines, gas turbines, diesel engines for boats and airplanes, gasoline engines for boats and airplanes; parts for non-electric prime movers, not for land vehicles, namely, air filters for engines, oil filters for hydraulic machinery; pneumatic or hydraulic machines and instruments, namely, electric and pneumatic hoists, hand-held pneumatic drills, hand-held pneumatic hammers, pneumatic conveyors, pneumatic door closers, pneumatic door openers, pneumatic grease guns, pneumatic hammers, pneumatic hoists, pneumatic jacks, pneumatic nail guns, pneumatic pumps, pneumatic screwdrivers, pneumatic shears, pneumatic transporters, pneumatic tube conveyors, pneumatic waste oil drainers, pneumatic window openers, hydraulic accumulators being parts of machines, hydraulic conveyors, hydraulic cylinders, hydraulic door closers, hydraulic door openers, hydraulic excavators, hydraulic hammers, hydraulic hoists, hydraulic intensifiers being parts of machines, hydraulic jacks, hydraulic lift tables, hydraulic motors for excavators, hydraulic presses for metalworking, hydraulic pumps, hydraulic torque converters for machines, hydraulic turbines, hydraulic window closers, hydraulic window openers, oil hydraulic presses for metalworking; adhesive tape dispensing machines; automatic stamping machines; vending machines; fuel dispensing pumps for service stations; electric washing machines; repairing or fixing machines and apparatus, namely, machines for repairing and reforming old sewer pipelines, fixing machines that drill communicating holes for attaching other sewage pipes to the lining pipes; mechanical parking systems; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food slicing machines for commercial use; dishwashers; wax-polishing machines, electric, for household purposes; electric vacuum cleaners; power sprayers for disinfecting, insecticides and deodorants, excluding agricultural purposes; machine elements, not for land vehicles, namely, cam shafts, crank shafts, loom shafts, transmission shafts for boats, axles for industrial machinery, axles for machines, spindles for machines, bearings being parts of machines, shaft couplings, valves being parts of machines; lawn mowers; curtain drawing devices electrically operated; electric door openers; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes; 3D printers; starter motors; AC motors and dc motors, not including those for land vehicles; alternators for airplanes; alternators for boats; alternators for land vehicles; alternators for motor vehicles; alternators for trains; DC generators; electric food blenders for household purposes; electrically operated brushes, being parts of machines, namely, brushes for vacuum cleaners, dynamo brushes, ramie brushing machines, rotary brushes for machines; air filters being parts of machines and engines; water filter cartridges for industrial drinking water filtering machines; filtering machines for chemical processing; industrial drinking water filtering machines; moulds being parts of machines for processing plastics

Services**Class 37**

construction of linings for pipes, pipelines, and sewers; repair or maintenance of construction machines and apparatus; repair or maintenance, and rental of machines making lining pipes and boring and fusing machines for creating punched holes used for sewage pipeline; plastering; rental of excavators; repair and reconstruction of existing conduits and pipelines, such as sewer pipes, water mains and industrial piping systems without digging and disruption by installing a liner within the existing conduit and tunneling for trenchless installation of new large diameter pipes; pipeline rehabilitation works, namely, maintenance and repair of pipelines; concrete patching and repair; manhole repair works; repair of agricultural water canals; dredging; pipeline construction and maintenance; underwater construction; underwater sewage line repair; underwater sewage system repair; road paving; masonry; glazing of windows; carpentry; tile laying, bricklaying or block laying; joinery; mining for precious metals; installation of electrical generating machinery; office machines and equipment installation; drilling of wells; installation of electrical wiring; telecommunication wiring, namely, installation of wiring for internet lines, fire alarms, fire detection and fire suppression systems; installation of building insulation; maintenance of computer hardware; window cleaning; carpet and rug cleaning; floor polishing; septic tank cleaning; bathtub and bath boiler cleaning; vermin exterminating other than for agriculture, forestry or horticulture, namely, vermin exterminating in businesses, vermin exterminating in homes; house renovation; housing improvement, namely, residential and commercial building maintenance and repairs; remote maintenance and repair of medical machines; repair or maintenance of medical apparatus and instruments, and advisory, consultancy and information services relating thereto; remote repair and maintenance of optical laboratory machines; remote repair and maintenance of photographic laboratory machines; repair and maintenance of optical laboratory machines, and advisory, consultancy and information services relating thereto; repair and maintenance of photographic laboratory machines, and advisory, consultancy and information services relating thereto; remote repair and maintenance of genetic analyzing apparatus and instruments, namely, thermal cycles and integrated sequencers; repair and maintenance of genetic analyzing apparatus and instruments, namely, thermal cycles and integrated sequencers and advisory, consultancy and information services relating thereto; remote repair and maintenance of screw-thread measuring machines, remote repair and maintenance of level measuring machines used in surveying; repair and maintenance of screw-thread measuring machines, repair and maintenance of level measuring machines used in surveying, and advisory, consultancy and information services relating thereto; remote repair and maintenance of electronic cutting machines for cutting cardstock, plastic and vinyl, remote repair and maintenance of electronic gaming machines, remote repair and maintenance of electronic credit card reading machines; installation of medical machines, and information services relating thereto; measuring and testing machines and instruments installation, namely, installation of screw-thread measuring machines, installation of level measuring machines used in surveying and information services relating thereto; laboratory apparatus and instruments installation, and information services relating thereto, namely, optical laboratory machine installation, and information services relating thereto, photographic laboratory machine installation, and information services thereto; electronic machines and apparatus installation, namely, installation of electronic cutting machines for cutting cardstock, plastic and vinyl, installation of electronic gaming machines, installation of electronic credit card reading machines and information services relating thereto; providing information on building construction; consultancy services relating to the construction of buildings; repair or maintenance of telecommunication machines and apparatus, namely, fax machines, telephones, routers, and advisory, consultancy and information services relating thereto; repair or maintenance of uninterruptible power supply (ups), and advisory, consultancy and information services relating thereto; repair or maintenance of electric motors; repair or maintenance of power distribution or control machines and apparatus, namely, power distribution boxes; repair or maintenance of

power generators; repair or maintenance of consumer electrical appliances, and advisory, consultancy and information services relating thereto; repair or maintenance of cinematographic machines and apparatus, and advisory, consultancy and information services relating thereto; repair or maintenance of optical machines and instruments, and advisory, consultancy and information services relating thereto; repair or maintenance of photographic machines and apparatus, and advisory, consultancy and information services relating thereto; repair or maintenance of chemical processing machines and apparatus, and advisory, consultancy and information services relating thereto; repair or maintenance of chemical plants, and advisory, consultancy and information services relating thereto; sterilization of medical instruments, and advisory, consultancy and information services relating thereto; spraying services, namely, the spraying of urethane foam as insulation in commercial buildings

Certification Mark Standard

This certification mark, as used by persons authorized by the certifier, certifies that the sanitary industrial food handling equipment meets the defined standards of cleanliness established by the certifier as set out in the enclosed Manual for Third Party Verification (TPV) for 3-A Symbol Authorization 3-A Process Certification (PC) & 3-A Replacement Parts and System Component Qualification Certificate (RPSCQC) Programs. As set out in the Manual, the authorized appearance of a 3-A Symbol on equipment covered by a 3-A Sanitary Standard, a 3-A Process Certificate (PC) for a processing system covered by a 3-A Accepted Practice, or a 3-A Replacement Parts & System Component Qualification Certificate (RPSCQC) for replacement parts or system components covered by multiple 3-A Standards and Accepted Practices indicates verification by a third party that the parts, system components, equipment, or processing system conforms to the applicable 3-A Sanitary Standard or 3-A Accepted Practice. 3-A Sanitary Standards provide sanitary (hygienic) criteria for materials, design, fabrication, cleanability and, if necessary, installation of identified equipment and machinery. 3-A Accepted Practices provide sanitary (hygienic) criteria for materials, design, fabrication, cleanability and installation of identified equipment and machinery to create a defined process. 3-A Sanitary Standards, Inc. develops documents with the active participation of the three stakeholder groups representing regulatory control officials, processors (users) and suppliers of equipment and machinery. Numerous committees representing the three stakeholder groups participate in a voluntary consensus process to develop and maintain 3-A Accepted Practices. Proposed 3-A Sanitary Standards and 3-A Accepted Practices are reviewed by, and must be approved by, the three stakeholder groups.

Goods

Class 01

(1) Hydrogen.

Class 04

(2) Industrial oils and greases, namely non-mineral and mineral Industrial oils and greases for fuel; fuels (including motor fuel) and illuminates, namely motor fuels, fuel gasses, namely, liquid petroleum gases, propane for use as fuel, natural gas, compressed natural gas, acetylene, thermal, hydrogen, aviation fuel, biodiesel fuel, fuel from crude oil, ethanol fuel, diesel fuel; candles and wicks for lighting; liquefied gases, namely liquefied petroleum gas, hydrogen gas, natural gases and compressed natural gas; fuel gasses, namely, propane for use as fuel, natural gas, compressed natural gas, acetylene, thermal, hydrogen.

Class 06

(3) Common metals and their alloys; transportable buildings of metal, namely transportable metal fueling stations; non-electric cables and wires of common metal; small items of metal hardware, namely nuts, bolts, screws; metal containers for storage or transport; safes; metal high and low pressure containers, high and low pressure cylinders, high and low pressure tanks; metal valves for water pipes; metal valves for high and low pressure containers, high and low pressure

cylinders, and high and low pressure tanks, namely metal valves for use on high and low pressure containers, high and low pressure cylinders, and high and low pressure tanks for gas; ores; containers, cylinders and tanks of metal and metal alloys for compressed gas or liquids, sold empty; containers and cylinders of metal and also their alloys for transport; containers and cylinders of metal and also their alloys for storage; containers, cylinders and tanks of metal for gasses, fluids, air or chemicals; containers, cylinders and tanks of alloys of metal for gasses, liquids, air or chemicals.

Class 07

(4) Fuel systems for engines for vehicles for land, air, water or rail, namely liquid propane fuel systems, consisting of fuel injectors, fuel rails, pressure regulator valves, fuel pumps, fuel tanks, hoses, and lines for use on engines for land vehicles; valves, parts of machines.

Class 12

(5) Vehicles, namely cars, trucks, lorries, buses and motorcycles; apparatus for locomotion by land, air or water, namely airplanes, helicopters, boats, trains, trams, subways and camera drones, civilian drones, delivery drones and military drones; fuel tanks for vehicles; fuel tanks for apparatus for locomotion by land, air or water; containers, cylinders and tanks used on vehicles; containers, cylinder and tanks used on apparatus for locomotion by land, air or water; rooftop racks for vehicles; rooftop racks for apparatus for locomotion by land, air or water; rooftop racks for vehicles for storage of containers, cylinders and tanks; fuel storage systems for vehicles; fuel storage systems for apparatus for locomotion by land, air or water, namely fuel storage tanks for airplanes, helicopters, boats, trains, trams, subways, helicopters, boats, trains, trams, subways, camera drones, civilian drones, delivery drones and military drones.

(6) Vehicles, namely cars, trucks, lorries, buses and motorcycles; vehicles for use on land, in the air, in the water or on the railway; electric vehicles and electric vehicles for use on land, in the air, in the water or on the railway; fuel tanks for vehicles and vehicles for use on land, air, water or rail; containers, cylinders and tanks for vehicles and vehicles for use on land, in the air, in water or on railways; roofing containers for vehicles and vehicles for use on land, in the air, in the water or on the railway; cantilever ship support; aircraft chassis; oil tanks for vehicles and vehicles for use on land, in the air, in water or on railways; storage containers adapted for use in vehicles and vehicles for use on land, in the air, in water or on railways; fuel systems for motor vehicles and vehicles for use on land, in the air, in water or on railways; powertrains for vehicles and vehicles for use on land, in the air, in the water or on railways; powertrains, including engines and engines for vehicles and vehicles for use on land, in the air, in water or on railways; vehicle electrification and connection products for land vehicles and vehicles for use on land, in the air, in water or on railway; valves for fuel systems for motor vehicles and vehicles for use on land, in the air, in water or on railways; valves for powertrains for vehicles and vehicles for use on land, in the air, in the water or on railways; valves for powertrains, including valves for engines and engines for vehicles and vehicles for use on land, in the air, in water or on railways; parts and fittings for all the aforesaid goods.

Class 17

(7) Gutta-percha, asbestos, mica; rubber valves; plastics in extruded form, namely extruded plastics for use in manufacturing; packing, stopping and insulating materials, namely moulded foam, cellulose acetate film, low-density polyurethane foam; flexible pipes, not of metal made for gas fuel systems, namely fuel tanks and connected powertrains and parts and accessories and components, for vehicles for land, air, water and rail, thermal management systems for powertrains for vehicles for land, air, water and rail, power conversion accessories for powertrains for vehicles for land, air, water and rail, powertrain and vehicle control systems and parts and

accessories for powertrain and vehicle control systems, powertrain remote and real time monitoring systems, vehicle electrification and connectivity products for vehicles for land, air, water and rail, namely, electrified powertrain systems comprised primarily of an electric motor for vehicles, motor drive, thermal management, battery pack, power converters, wireless communication devices for data transmission, and electronic control apparatus for controlling the foregoing powertrain system components and for controlling electrical components in vehicles, namely airplanes, helicopters, boats, trains, trams, subways, camera drones, civilian drones, delivery drones and military drones, cars, trucks, lorries, busses and motorcycles; fiber reinforcement materials for pipes; glass fiber reinforcement materials for pipes; carbon fiber reinforcement materials for pipes; hybrid fiber reinforcement materials for pipes; fiber reinforcement materials for insulation; glass fiber reinforcement materials for insulation; carbon fiber reinforcement materials for insulation; hybrid fiber reinforcement materials for insulation; plastic fibers for use in the manufacture of non-metal containers, cylinders and tanks; carbon fibers; hybrid fibers containing glass fiber, carbon fibers, aramid fibers and polymer materials for making cylinders for compressed gasses; aramid fibers, not for textile use.

Class 19

(8) Asphalt, pitch and bitumen; non-metallic transportable buildings for use as gas stations; reinforcing materials, not of metal for building, namely reinforcing materials made of glass fiber, carbon fibers, aramid fibers and polymer materials for building; glass fiber reinforcement structures for use on land installations, marine and sea installations, installations in the air and aerospace systems; carbon fiber reinforcement structures for use on land installations, marine and sea installations, installations in the air and aerospace systems; hybrid fiber reinforcement structures for use on land installations, marine and sea installations, installations in the air and aerospace systems; building materials made of composite materials.

Class 20

(9) Mirrors, picture frames; containers, cylinders, tanks, valves, high and low pressure containers, high and low pressure cylinders and high and low pressure tanks made of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and substitutes for all these material or of plastic; containers, cylinders and tanks of composite materials, sold empty; high and low pressure tanks not of metal sold empty; high and low pressure cylinders not of metal sold empty; high and low pressure containers not of metal, sold empty; high and low pressure containers of composite materials for gasses, fluids, air or chemicals; high and low pressure cylinders of composite materials for gasses, fluids, air or chemicals; high and low pressure receptacles of composite materials for gasses, fluids, air or chemicals; high and low pressure tanks of composite for gasses, fluids, air or chemicals, valves, not of metal [other than machine parts] composting receptacles of not of metal.

Services

Class 35

(1) Retail and wholesale of containers, cylinders and tanks of metal as semi-manufactured goods and finished products, namely retail distribution of containers, cylinders and tanks of metal as semi-manufactured goods and finished products for others; wholesale sales of containers, cylinders and tanks of metal as semi-manufactured goods and finished products; retail and wholesale of high and low pressure containers, high and low pressure cylinders and high and low pressure tanks as semi-manufactured goods and finished products, namely retail distribution of high and low pressure high and low pressure containers, high and low pressure cylinders and high and low pressure tanks as semi-manufactured goods and finished products for others; wholesale sales of high and low pressure high and low pressure containers, high and low pressure cylinders and high

and low pressure tanks as semi-manufactured goods and finished products; retail and wholesale of valves, spare parts to valves, accessories and fittings to valves; retail and wholesale of fuel tanks for vehicles, fuel tanks for apparatus' for locomotion by land, air or water, containers, cylinders and tanks used on vehicles, containers, cylinder and tanks used on apparatus' for locomotion by land, air or water; retail and wholesale of rooftop racks for vehicles, rooftop racks for apparatus' for locomotion by land, air or water; retail and wholesale of rooftop racks for vehicles for storage of containers, cylinders and tanks; retail and wholesale rooftop racks for vehicles for storage of containers, cylinders and tanks; retail and wholesale of fuel storage systems for vehicles, fuel storage systems for apparatus' for locomotion by land, air or water, spare parts and accessories for vehicles, spare parts and accessories for apparatus' for locomotion by land, air or water.

Class 37

(2) Installation and repair services of composite high and low pressure containers, high and low pressure cylinders and high and low pressure tanks as semi-manufactured goods and finished products, installation and repair services of fuel systems for machines, vehicles for use on land, in the air, in the water or on the railway; maintenance services of composite high and low pressure containers, high and low pressure cylinders and high and low pressure tanks as semi-manufactured goods and finished products; maintenance services of fuel systems for machines, vehicles for use on land, in the air, in the water or on the railway; replacement services of composite high and low pressure containers, high and low pressure cylinders and high and low pressure tanks as semi-manufactured goods and finished products, replacement services of fuel systems for machines, vehicles for use on land, in the air, in the water or on the railway; vehicle fuel system installation, maintenance, repair, replacement; oem (original equipment manufacturer) support services, namely, for installing maintaining, repairing, replacing and supporting compressed natural gas, liquid natural gas, hydrogen and compressed industrial gas fuel systems.

Class 39

(3) Transport, namely transportation of gas, liquid petroleum gas and compressed natural gas for others by air, rail, ship or truck; packaging and storage of goods; packaging and storage of goods; travel arrangement; air transportation of goods; truck transport; railway transportation of goods; cargo ship transport; merchandise packaging; packaging of articles for transportation; physical storage of receptacles, cylinders, containers and tanks of metal for compressed gas, fluids, compressed and liquid air and chemicals; physical storage of high and low pressure containers, cylinders and tanks of composite materials for compressed gas, fluids, compressed and liquid air and chemicals.

Class 40

(4) Treatment of composite materials, plastic, metal, rubber, glass fiber, and fiber reinforcement materials, carbon fiber reinforcement materials, hybrid fiber reinforcement materials; treatment of materials for the manufacture of high and low pressure containers, cylinders and receptacles for gas, fluids, air and chemicals; manufacture of valves and equipment for valves; custom manufacturing of fuel systems; custom manufacturing of hydrogen systems; custom manufacturing of vehicles, components and accessories; manufacturing for others of pressure vessels and cylinders.

Class 42

Colour Claim

Colour is claimed as a feature of the trademark. Black (H-0, S-0, L-0): this colour appears in the lettering of the word "QUEBEC", in the lettering of the words "Club Auto Sport", in the lettering of the words "LES CRINQUÉS". Black is also used for the numbers 2, 3, 4, 5, 6 and 6.5 on the odometer, and for the small lines separating these numeral inscriptions. Black is also used for the lettering "X 1000 RPM", for the outlines of the banner at the bottom of the logo, on which the words "LES CRINQUÉS" appear. Black is used for half of the squares in both checkered flags, in the gradient of the letter "V" and of the number "8" (this number is located at the centre of the logo and of the two flagpoles) and on the two imitations of a bird's open wings. White (H-0, S-0, L-100): this colour appears in the background behind the words "LES CRINQUÉS" and covers most of the background for almost all of the logo. This colour appears behind the lettering of the word "QUEBEC", of "Club Auto Sport" and in the odometer dial, where the needle and the numbers 2, 3, 4, 5, 6 and 6.5 are located. White is also used for half of the squares in both checkered flags. Red (H-3, S-99, L-41): this colour is used for about 1/3 of the space at the end of the tachometer scale of the odometer. This colour is also used for the odometer needle and the top and bottom of the flames to the right and left of the logo. Yellow (H-46, S-99, L-49): this colour is used for about 1/3

of the space at the beginning of the tachometer scale of the odometer. Yellow is also used at the bottom of the flames on both sides of the logo. Orange (H-26, S-100, L-47): this colour is used for about 1/3 of the space in the middle of the tachometer scale of the odometer. This colour is also used at the bottom of the two flames, on both sides of the logo. Grey (H-0, S-0, L-53): this colour is used for the gradient of the letter "V" and of the number "8" (this number is located at the centre of the logo and of the two flagpoles) and on the two imitations of a bird's open wings. It is used to create a gradient effect between white and black.

the synchronisation, transmission, recordal, storage and manipulation of data and/or voice; remote controls for electric and electronic devices for cell phones and televisions; personal digital assistants; electronic sensors, namely, pedometers, altimeters and personal weighing scales; barcode and quick response code readers and scanners; downloadable digital sound and video recordings featuring music, ring tones, electronic games, videos, MP3 recordings, graphics, photographs and artworks; blank secure digital (SD) memory cards; downloadable digital media content, namely films, television programmes, radio programmes, videos, images, music, text messages, data being photos, images, graphics and ringtones, provided in electronic form from a computer database, the Internet and communications network; satellite dishes for satellite transmissions, satellite aerials, satellite antennas, satellite processors, satellite radios, satellite receivers, satellite telephones, satellite transceivers, satellite transmitters; computer and video games, namely, downloadable games programs; downloadable electronic publications in the nature of newsletters, books, magazines, editorials, newspapers, reports, digital manuals, cartoons, periodicals and journals; machine readable data carriers, namely, blank magnetic, digital and optical discs, and blank USB flash drives; battery chargers for mobile phones; battery chargers for smart phones; battery chargers for mobile computers; battery chargers for tablet computers; battery chargers for smart watches; smart bracelets, smart necklaces, smart rings, smart safety glasses, smart wristbands that communicate data to other electronic devices, smart wristbands that communicate data to smartphones; battery chargers for wearable activity trackers; battery chargers for wearable computers in the nature of smart glasses; batteries for smart watches, smart bracelets, smart necklaces, smart rings, smart safety glasses, smart wristbands that communicate data to other electronic devices, smart wristbands that communicate data to smartphones; batteries for wearable activity trackers; batteries for wearable computers in the nature of smart glasses; batteries for mobile phones; batteries for smart phones; batteries for mobile computers; batteries for tablet computers; batteries for smart watches; external battery pack for use with smart phones, mobile phones, tablet computers and smart watches; peripheral equipment for televisions and computers, namely, keyboards, modems, speakers, digital cameras, webcams, microphones, cable television receivers, loudspeakers; computers, namely, laptop and notebook computers; electronic personal organisers; global positioning system (GPS) satellites; global positioning system (GPS) navigation computer hardware; desk or car mounted units incorporating a loud speaker which permits hands-free use of a telephone handset; in-car telephone handset cradles; instructional software and educational software containing topics of instruction in the field of information technology; data meters; smart meters, namely, water meters, gas meters, electric current meters, electricity meters, energy meters, for tracking and monitoring energy usage; sound level meters, flow meters, frequency meters, vibration meters, proximity sensors, temperature meters for household and industrial purposes, pressure meters and meters for testing humidity; blank and pre-recorded magnetic cards, namely, credit cards, SIM cards, magnetically encoded gift cards; in-car telephone handset cradles; cards containing microprocessors; telephone cards, namely, pre-paid encoded electronic chip telephone calling cards; credit, encoded and magnetically encoded debit and payment cards; encoded credit, debit and payment cards; encoded telephone credit cards; magnetically encoded cards, namely credit, debit and payment cards, key cards; computer application software provided via computer and communication networks for maintenance and updating of computer software on handheld telecommunications units and devices, namely, personal digital assistants, wireless cell phones, mobile phones, cellular phones, smartphones, video phones, handheld mobile and tablet computers; data communications software, namely computer programs for connecting to remote computers and computer networks, and for providing multiple user access to a global information network; application software, namely application software for mobile devices and mobile telephones, namely downloadable computer application software for purchasing applications for

mobile phones, tablet computers and handheld electronic devices for enabling peer-to-peer networking and file sharing, for conducting and co-ordinating communications among mobile telephone users sharing information and audio data via mobile phone networks for account and bill management of a cellular and mobile data service plans, for access to a consumer loyalty scheme; downloadable computer software applications, namely, downloadable computer software for updating computer software in the fields of mobile telephones, provided in electronic form via computer and communication networks, downloadable computer software for accessing downloadable electronic publication in the nature of directories; computer software and application software for the synchronisation, transmission and sharing of voice messages, videos and calendar and digital media content between one or more portable electronic devices and handheld electronic devices, and for purchasing applications for handheld computers, tablet computers and handheld electronic game devices; operating system software; downloadable computer software for streaming videos from digital media content sessions, computer software for the transmission and encryption and storage of text messages, videos, photographs, graphics, music and digital files on and over communication networks; computer software platforms for social networking, and computer software to enable sharing information in electronic form via computer and communication networks in the fields of news, financial data, computer games, music, live musical concerts and sporting events, movies, television shows, and news and sports webcasts; computer search engine software; downloadable computer software for interactive televisions for recording television programs, viewing television program schedules, accessing television streaming services, interacting with television set-top boxes; computer software for editing images, sound and video; facial, speech, voice and gesture recognition software, and facial analysis software; computer software for use in electronic access control systems for interlocking doors; software for computer security, including antivirus, firewalls, antispam, anti-spyware, web filtering; computer software for anti-intrusion alarms, and machine learning software used in computer intrusion networks detection programs; virtual private network operating software; computer software for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index, sleep patterns, locations, attitude, weather and temperature; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; anti-theft alarms, other than for vehicles, electronic tags for inventory control purposes, bar code scanners, and labels with integrated radio frequency identification [RFID] chips; distance sensors being anti-collision sensors for vehicles, other than vehicle parts; electronic devices being wireless item locators and electronic devices being wireless radio based item locators; apparatus for sending and receiving information from movable property, namely, electronic devices used to locate lost objects employing radio frequency, global positioning systems (GPS), cellular communications; software for the remote control, monitoring and command of home appliances and lighting systems, and remote controls for portable telephones, smartphones, tablet computers, televisions and lighting systems; alarm devices and installations, namely carbon monoxide and carbon dioxide sensors, fire and smoke detectors, motion detectors, anti-intrusion alarms, and theft alarms; satellite navigation systems and software for satellite navigation systems; computer systems comprised of computer software to enable downloading and updating of computer software in vehicles; electronic access control systems for mobile phones, smart watches, laptop and tablet computers, and biometric access control systems, biometric fingerprint scanners, biometric hand scanners, and biometric retinal scanners; electronic apparatus for identifying persons, namely, biometric scanners, biometric hand readers and biometric voice controllers; closed circuit television systems; cameras, television cameras and video recorders for closed-circuit television; optical and photographic apparatus, namely, cameras, optical sensors, video cameras, lens filters for cameras, camera filters, cameras incorporated in smartphones, cameras incorporated in tablet computers, cameras incorporated in computers, cameras incorporated in

drones; electronic speedometers; electronic odometers; electronic tachometers; cruise controls for motor vehicles and electronic speed controllers; kilometre recorders for vehicles; electronic key fobs being remote control apparatus; electronic sensors, namely, temperature sensors, vibration sensors, infrared sensors, touchscreen sensors, LED position sensors; sirens; electric locks for vehicles; remote control apparatus, namely, remote controls for radios and televisions; electronic keys for vehicles; electronic key fobs being remote control apparatus; remote controls for starters of vehicles; remote control systems for the automatic operating of the locks of vehicle doors, boot, bonnet and roof; wireless headsets and intercom systems for motorcycle helmets; Global Positioning System [GPS] transmitters and receivers; global positioning system (GPS) for vehicles consisting of computers, computer software, transmitters, receivers, and network interface devices for determining or signalling vehicle location, locations of site, travel routes, time, traffic conditions, presence of emergency vehicles and hazard conditions; systems for communication between vehicles and road infrastructures, namely integrated circuit electronic toll cards, navigation computers for cars, heads-up displays for motor vehicles, proximity sensors, dashboard cameras and car video recorders; cameras, video monitors and display monitors and sensors to detect road markings and distance; Global Positioning System [GPS] consisting of computers, computer software, transmitters, receivers, and network interface devices, and navigation apparatus for vehicles in the form of on-board computers, rearview cameras and distance sensors; computer monitoring systems for blind spot and lane changing assistance; vehicle on-board computers; on-board electric, electronic and optical equipment for vehicles, namely, electric batteries, mileage recorders, radios for vehicles, on-board cameras, on-board electronic systems for providing driving and parking assistance in land vehicles, cruise controls for vehicles, displays for vehicles, audio speaker systems for vehicles, automatic indicators of low pressure in vehicle tyres, automatic vehicle speed control devices, autonomous driving control systems for vehicles, including for land vehicles; on-board electric, electronic and optical equipment for vehicles, namely vehicle automatic driving control devices being cruise controls for motor vehicles, smartphone battery chargers for use in vehicles, communications apparatus for vehicles being telephones and on-board computers, mobile phone connectors for vehicles, multi-camera systems for vehicles, vehicle navigation systems featuring interactive displays, radios for vehicles, temperature control apparatus being thermostats for vehicles; on-board electric, electronic and optical equipment for vehicles, namely ultrasonic object detectors for use on vehicles, on-board global positioning system (GPS) for vehicles consisting of computers, computer software, transmitters, receivers, and network interface devices, black boxes being data recorders for land vehicles; computerized vehicle engine analyzers, vehicle security systems, electronic control systems for automobile climate control, electronic controllers for vehicle mirrors, interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions; downloadable computer application software for maintaining and updating software and applications for vehicle navigation; computers and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants and its environment for vehicle security and safety; parking sensors for vehicles, namely electronic obstacle detection device sensors to aid parking for vehicles; parking assistance, namely, blind spot detection sensors; electronic apparatus for the control of car parking; pre-collision detection and collision avoidance systems, namely, on-board computers; in-vehicle touch screen computer systems; vehicle locating devices and vehicle locating systems; watches that communicate data to smartphones; computer application software to allow merchants to customize computer display screens for sales promotion and product demonstration purposes; sim cards; telematics apparatus, namely vehicle tracking systems and vehicle tracking devices; computer software to enable telematics in-vehicle communication service providing wireless vehicle navigation and tracking, road and traffic information, and driver safety

information; haptic sensors; haptic equipment and apparatus, namely tactile monitors, screens, electronic displays, switches, sensors, smart glasses and virtual or augmented reality glasses and headsets and holographic projectors; haptic sensors, equipment and apparatus, namely touchscreen monitors, display screens, electronic touchscreen displays, touch sensitive switches, projected capacitive touch sensors, smart glasses and virtual and augmented reality glasses and headsets and 3D holographic projectors, and virtual reality software for playing computer games, for pilot training, for cinematography, and for training in the field of security; virtual reality computer software, namely software for setting up, operating, configuring and controlling virtual reality wearable computer peripheral; virtual reality glasses, virtual reality goggles, virtual reality headsets; augmented reality software, augmented reality game software, namely software for setting up, operating, configuring and controlling augmented reality wearable computer peripherals, namely augmented reality headsets, augmented reality glasses, augmented reality goggles; computer hardware modules for use with the Internet of Things [IoT]; computer hardware modules for use in electronic devices using the Internet of Things [IoT]; computer software for use in implementing the Internet of Things [IoT]; downloadable computer software and downloadable application software for connecting, operating, and managing networked devices, namely, home appliances, industrial machinery and computer systems in the Internet of Things (IoT); computer communications software, namely network operating system programs for mobile phones, and subscriber identification module [SIM] cards; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; software for computer security, including antivirus, firewalls, antispam, anti-spyware, web filtering and intrusion detection software; computer software for use in the field of customer relationship management (CRM); voice command and recognition software, speech to text conversion software, and software applications for digital voice signal processors- -enabled software applications; instant messaging software and Internet messaging software; downloadable computer software for online appointment scheduling, and for making hotel, restaurant, theatre and airline reservations; computer software for personal information management, namely for notetaking, for viewing and editing meeting agendas, for viewing, editing, accessing and publishing documents and notes, and for organizing and viewing digital images and photographs, and for reminding users of dates and events; computer software and application programming interface (api) for controlling, monitoring and operating a network of interconnected electronic devices between wirelessly connected machines, smart phones, electronic touch screen devices, computers, hand-held computer and tablet computers and home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and security alarms, via the Internet; chatbot computer software and application software for simulating conversations, for providing business management information for appointment scheduling, and for booking hotel reservations, and ticket reservations of seats for entertainment, sporting and cultural events; downloadable computer software and application software in the field of artificial intelligence (AI) for processing information, replying to customer questions, scheduling appointments, making reservations; artificially intelligent chatbot computer software and application software for providing customer support and customer services; customer service chat robot software; humanoid robots with artificial intelligence; electronic apparatus, namely, home automation hubs comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in the Internet of Things incorporating artificial intelligence; electronic controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating,

ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and home security systems and personal security alarms, via the Internet; electronic controllers for operating networked consumer electronic devices, smart home devices and home appliances, industry machinery and video-surveillance and anti-theft installations other than for vehicles to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; computer software for use in connection with the electronic transmission of voice messages; computer software, and digital cameras, modems, scanners, video recorders, computer keyboards, computer mouse, joysticks for use with computers, other than for video games, stylus pens for use with touch screens for personalised, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; wireless controllers for the control, monitoring and command of home appliances, and electronic controllers for home entertainment electronics, and home and kitchen appliances containing electronic sensors, namely lighting controls, audio/video controls, kitchen appliances and home appliances, heating, ventilation and air conditioning systems, humidity sensors, door and window sensors, security and camera systems and fire, gas and home security systems and personal security alarms, via the Internet; touchscreens; parental control software for preventing, restricting, and limiting access to webpages, Internet sites, mobile Internet applications and television stations on electronic devices, namely, cell phones, tablet computers, laptops, and televisions; communication network apparatus, namely, virtual private network [VPN] hardware; wide area network [WAN] hardware; network access server hardware; computer networking apparatus, namely, computer network adapters, switches, routers and hubs; computer networking interface devices; e-commerce software to allow users to perform electronic business transactions via a global computer network; watches that communicate data to smartphones, namely smartwatches; safety devices for vehicles, namely, parts and fittings for electronic collision avoidance systems on vehicles; collision avoidance safety systems for vehicles; devices for vehicle steering, including automatic steering, namely, computer hardware and downloadable software for automatically steering vehicles; Ethernet routers; wide area network [WAN] routers; wireless routers; computer network routers; computer network hubs, switches and routers; network servers; communications servers [computer hardware]; network access server hardware; Ethernet adapters; Ethernet cables; Ethernet controllers; Ethernet switches; Ethernet transceivers; electric power switches; automatic changeover switches for telecommunications; computer network switches; electronic encryption units; downloadable computer software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, and managing digital currency payment and exchange transactions; downloadable interactive computer software and computer hardware for providing financial services online from a global computer network and the Internet via computer terminals and mobile communication devices; downloadable electronic and computer databases, namely, asset databases containing information in the field of computer technology, smart technology and blockchain technology that can be shared and transmitted.

Services

Class 35

(1) Advertising, marketing and promotion services in the field of telecommunications, namely, advertising, marketing and promoting the goods and services of others; retail services featuring telephones, mobile telephones, smartphones, handheld computers, tablet computers, wireless routers, network routers, chipsets for connecting multimedia home devices, home phones, VoIP phone, digital cordless phone devices, computer software, computers and electronic communication equipment, set-top boxes and modems, artificial intelligence hardware; promoting the services of others by providing a website featuring rebates, price comparison information,

product reviews, links to the retail websites of others, and discount information; telephone answering and message handling services; provision of space on websites for advertising goods and services; promoting the goods of others by means of providing online links to vendors of computer hardware and software via a website, the Internet, and global communications networks; promoting the services of others to vendors of exhibitions and events by means of providing online links to vendors of exhibitions and events in the fields of business information, finance information, trade reporting, technology information, science information, nature information, transport, transport information, art information, history information, travel information, culture information, games and gaming, film information and navigation information via a website, the Internet, and global communications networks; promoting the services of others by means of providing online links to vendors of exhibitions and events in the fields of entertainment, entertainment information, fashion information, fashion design, lifestyle information, lifestyle coaching, health, beauty and fitness information, music information, sports information, news reporting, current affairs reporting and current affairs information via a website, the Internet, and global communications networks; promoting the services of others by means of providing online links to vendors of exhibitions and events in the fields of business information, finance information via a website, the Internet, and global communications networks; promoting the services of others by means of providing online links to vendors of exhibitions and events in the fields of trade information in the nature of stocks and shares, technology information, science information, nature information, transport information, art exhibition, art information, history information via a website, the Internet, and global communications networks; promoting the services of others by means of providing online links to vendors of exhibitions and events in the fields travel information, culture information, games and gaming, film information, film production and navigation information, via a website, the Internet, and global communications networks; promoting the goods of others by means of providing online links to vendors of downloadable digital media content, software, software applications, films, television programmes, radio programmes, music videos, downloadable musical sound recordings, text, voice messages, text messages and electronic mail, digital images and photographs, graphics and ringtones, via a website, the Internet, and global communications networks; promoting the services of others by means of providing online links to vendors of exhibitions and events in the fields of digital media content, software, software applications, films, television programmes, radio programmes, music videos, downloadable musical sound recordings, text, voice messages, text messages and electronic mail, digital images and photographs, graphics and ringtones, via a website, the Internet, and global communications networks; provision of business commercial information and advice to the prospective purchasers of commodities and goods; administration of loyalty programmes involving discounts or incentives; loyalty card services; organisation, operation and supervision of sales and promotional incentive schemes; provision of commercial information and advice on the supply and promotion of products and selection and display of goods; compilation of business statistical information and systemisation of information into computer databases; compilation of directories, namely, business and commercial directories, for publication on computer databases, the Internet or other electronic networks; administrative services, namely collection, systematisation, compilation and analysis of crowd-sourced and field-gathered computerised data and computerised information for others into computer databases; providing business management information for others by means of a preferred customer program via a global computer network; compiling and providing commercial prices and statistics information; arranging and conducting of exhibitions for business purposes in the field of telecommunications; data processing services in the field of telecommunications; database management services in the field of telecommunications; collection of data in the field of telecommunications, namely, compiling business data; business data analysis services in the field of computer networking and data communications; business promotion for others being promotion

of business networking opportunities, market research, management, administration, business management assistance and information services; business strategy and planning services; economic forecasting, marketing assessment consultancy, market research, market analysis and survey services; publication of publicity texts; compilation of statistical information; provision of trade information in the field of telecommunications; dissemination of advertising matters for others via wireless networks, telecommunication apparatus or devices or a global computer network; television advertising and radio advertising for others and advertising the goods and services of others via electronic media and specifically the Internet; consumer membership program services, namely, membership club services providing discounts and processing rebates for the goods and services of others in the fields of telecommunications, home electronics, computer hardware, fashion, beauty, home décor, fitness and food products; promoting the sale of goods and services through a customer loyalty program; arranging radio subscriptions to telecommunication services for others; arranging subscriptions to telematics, telephone and computer Internet service for others; subscription to a television channel; auctioning via telecommunications networks; arranging and conducting advertising and marketing campaigns for the products of others provided via a telecommunications network; publicity and sales promotion relating to goods and services, namely, publicity and sales promotion relating to goods and services of others, offered and ordered by telecommunications networks; providing business promotion services by telephone, namely, advisory services relating to sales promotion; organisation for a third party of telephone welcoming services and of telephone receptionist services; providing online commercial directory services on the Internet; providing online business directory information services; providing telephone directory information via the Internet; arranging of subscriptions to online music streaming services; compilation of information relating to surveillance of road traffic conditions; updating and maintenance of data in computer databases.

Class 36

(2) Banking services including home, mobile, Internet and remote banking; financial sponsorship of sports events, sports teams, charitable organisations, cultural events, musical and theatrical performances and performance venues; insurance and finance services, namely, financial insurance advice, consultancy and research, insurance brokerage services provided over the Internet and global computer networks; electronic wallet services (payment services); bill payment services provided via wireless telecommunication apparatus and devices; electronic bill payment services, namely, electronic fund transfer services; issuance of customer loyalty coupons and points; providing cash for credit card use as a part of customer loyalty program; credit card services; charge card services; electronic currency transfer services; insurance, financing and financial guarantee services relating to telecommunications and communications apparatus and instruments; financial guarantee services relating to telecommunications and communications apparatus and instruments; provision of investment and fund management information; financial affairs and monetary affairs, namely, financial management and assistance information, management and analysis services; real estate agency services; administration of funds and investments; providing stock, brokerage, shares and bond trading information; brokerage of stock, shares, and bonds; financial and monetary services in relation to charitable services, namely, charitable fundraising services; charitable collections; investment of funds for charitable purposes; distribution and allocation of charitable funds; provision of information and advisory services relating to monetary affairs, namely, financial investment information, management and financial risk assessment services via a computer database, the Internet and global computer networks; provision of information and advice for the prospective purchasers of commodities and goods, all related to payment terms and insurance; providing financial management information online from a computer database; insurance services for mobile telephones; telephone banking services;

financial consultation in the field of cryptocurrency; banking services related to cryptocurrency, virtual and digital money; monetary exchange related to cryptocurrency, virtual and digital money; cryptocurrency payment processing; virtual currency trading services; electronic financial trading, namely trading in the field of digitised assets such as cryptocurrency, digital tokens, virtual currency and digital currency; trading in digitised assets (such as cryptocurrency, digital tokens, virtual currency and digital currency), including over a global computer network or the Internet; financial services, namely, providing a decentralised and open source cryptocurrency on a global computer network utilising a blockchain currency exchange service; property insurance; consultancy services relating to insurance; insurance for telecommunication apparatus and instruments; insurance for mobile telecommunication apparatus and instruments; insurance for digital apparatus and instruments; insurance for digital tablets; insurance for computer software and hardware; lease-purchase financing; financial leasing, namely, lease-purchase financing; hire purchase financing; lease-purchase financing; lease-purchase of telecommunication equipment.

Class 38

(3) Telecommunications services, namely, provision of telecommunication access to films and television programmes, music, movies, television shows, music videos, news and sports webcasts, transfer of electronic data interchange by telecommunication networks, providing access to third parties with access to telecommunication infrastructure, namely, satellites, antennas, fixed and mobile telephone networks and the Internet, transmission of voice messages, computer data, graphics, images, audio and video recordings by means of telecommunications networks, wireless communication networks, and the Internet; mobile and fixed telecommunication services, namely fixed and mobile telephone services, satellite television, satellite telephone and satellite radio services, cellular telephone services, mobile radio telephone services, radio facsimile transmission, radio paging services and Internet radio broadcasting; wireless electronic transmission of voice messages; voice messaging and voicemail services; electronic mail services for data and voice; leasing and rental of radio pagers, radio telephones and facsimile machines; rental of radio and television broadcasting facilities and video conferencing facilities, rental of telecommunication towers, radio antennas, satellite antennas; leasing of telephone circuits; transmission of radio programmes; voice over IP services; providing access to a global computer network and Internet access provider services; telephone and mobile telephone message collection and transmission; electronic delivery of audio clips and images; telephone communication services provided for hotlines and call centres; automated telephone call screening services; automated telephone voice message services; telephone communication services in the nature of automatic telephone answering services; personal numbering services (telephony services); lending of computer hardware for telecommunications; provision of Internet services, namely Internet access services; Internet service provider (ISP) services; telecommunication of information, namely providing access to a web, mail and news portal, and providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; electronic mail services; provision of broadband services, namely wireless and fibre optic broadband communication services; wireless broadband communication services; providing Internet access via wireless broadband networks; providing Internet access via optical fibre broadband networks; providing Internet access via wireless broadband networks; Internet telephony services, wireless mobile telephone services and voice over Internet Protocol [VoIP] services; integrated service digital network (isdn) services; providing access to portals on the Internet; providing access to mobile Internet portals; telecommunications services, namely, location-based cellular and digital text messaging services; provision of transfer of data via wireless application protocols [WAP], including those utilising a secure communications channel; call screening services; telecommunication bundle services that allow customers to reach cellular

phones, voicemail and call routing between wireline and wireless phones and voicemail boxes ; electronic data interchange services; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, via the Internet, and via a global computer network; streaming of digital media content, namely films, television programmes, radio programmes, music videos, music, text messages, computer data, digital images and photographs, graphics and downloadable ringtones, via the Internet or a global computer network; delivery of digital media content, namely films, television programmes, radio programmes, music videos, music, text messages, computer data, digital images and photographs, graphics and downloadable ringtones, via the Internet or a global computer network; transmission of digital photos and video via cellular telephones; transmission of images over the Internet; providing electronic transmission of images and photographs, text messages, audio clips, videoclips and multimedia via a global computer network; broadcasting of films and television programs via a video-on-demand service, and broadcasting of television news programs, and of radio and television programs; providing advisory and consultancy services in the field of broadcasting of television and radio programmes; broadcast and transmission of television programmes; broadcast and transmission of radio programmes; streaming of audio and video content via the internet, other computer networks, wireless networks and electronic communication networks; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; transmission of news and current affairs information; delivery of digital music by telecommunications; providing access to social networking websites; video text services, video conferencing services, interactive video text services; cellular text messaging services, digital text messaging services, videotext messaging services, wireless digital messaging services, wireless electronic transmission of voice messages, facsimiles, text messages, streaming video, movies, music, photographs and digital images in the fields of news, financial data, computer games, music, live musician concerts and sporting events, movies, television shows, and news and sports webcasts over the internet and via wireless and cellular networks; unified messaging services; voicemail services; providing telecommunications connections to the Internet in a café environment; video conferencing services; video telephone services; providing telecommunications connections to the Internet in a café environment, in shopping centres, in restaurants, and in public spaces and public infrastructure, and providing multiple-user wireless access to the Internet; providing multiple user access to global computer information networks for the transfer and dissemination of information and files; providing electronic conferencing services; rental of access time to electronic bulletin boards, and to global computer networks, and to computer databases featuring electronic books, periodicals, magazines, catalogues, electronic computer manuals; providing access to web, mail and news portal, and to websites featuring educational content in the fields of telecommunications, information technology, environmental sciences, financial services and careers advice; providing access to a platform for real-time measurement of input, output and consumption of electricity, water, gas and oil, sound levels, vibration levels, proximity, electro-magnetic frequency, radiofrequency, temperature, pressure and humidity; wireless communication services, namely, wireless electronic transmission of information and data in the field of vehicle operational parameters, driving conditions, road conditions, and vehicle location to a remote call centre for emergency assistance; emergency response services, namely, sending electronic alert notices via the Internet, global communications networks, mobile communications networks and wireless networks; email transmission of data and documents via computer terminals and via cellular telephones; provision of access to Internet platforms for the purpose of e-commerce transactions; providing access to databases, providing access to an electronic bulletin board, and providing access to a global computer network; the provision of access to global computer networks, wireless networks and cellular networks for the reception, transmission, regeneration and sharing

of digital data and digital documents being voice messages, text messages, audio and video recordings; providing streaming of audio and video such as music, movies, television shows, music videos, news and sports webcasts via a website, and streaming of audio and video via the Internet featuring music, movies, news and sports, and transmission of audio-visual clips and recordings over the Internet, over a wide-area network, and over a local area network; providing access to databases; database network interconnection services, namely providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; electronic exchange of computer data via a global computer network; email transmission of data and documents and via computer terminals; providing multiple-user access to a global computer information network; providing information about radio and television broadcasting; providing access to a website providing users with secure remote access to private computer networks, and providing access to a computer network operating system for connecting between independent telecommunications and computer networks for sharing of website traffic; telecommunications services, namely, providing access to a website permitting users to transmit over local and global computer networks text messages, computer graphics, online content in the nature of photographic images, multimedia messages containing audio and video content, namely, animated graphics, animated photographic images, user uploaded video clips, movies and television programs, and providing access to a website permitting users to live stream user uploaded video clips and video messages via the Internet, global communication networks and wireless networks and providing online communication links that transfer website users to other local and global web pages; network roaming services provided as part of wireless Internet services; providing consultancy services for telecommunications services, namely, provision of telecommunication access to films and television programmes, music, movies, television shows, music videos, news and sports webcasts, transfer of electronic data, transfer of musical sound recordings by telecommunication networks, providing third parties with access to telecommunication infrastructure, namely, satellites and antennas, fixed and mobile telephone networks and the Internet; transmission of voice messages, computer data, graphics, images, audio and video recordings by means of telecommunications networks, wireless communication networks, and the Internet; provision of access to the internet in relation to electronic payment services including electronic fund transfer services and online transaction facilities; providing secure remote access via the internet to private computer networks for implementing the Internet of Things; providing access to e-commerce platforms on the Internet; providing online chat rooms and electronic bulletin boards for transmission of messages among computer users relating to surveillance of road and rail traffic; provision of access to databases in relation to online address book, calendar and diary services; providing multiple user access to a computer network; providing on-line chatrooms for the transmission of messages, comments and multimedia content among users; computer network access services provided by means of a metro Ethernet; electronic transmission of encrypted data image files, text files and audio files; telephone telecommunication services provided via fibre optic; leasing of mobile phones.

Zen Haus

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. Claimed colours are red and white. The mark consists of an incomplete red circle with brush stroke features, in the nature of a zen symbol or enso circle. In the middle of the symbol is a stick house drawn with three white lines (left stroke down, right stroke up). The resembles an Asian character symbol, however, it is not an Asian character symbol. The words "Zen Haus" are written in black and positioned under the red circle. The word "Haus" is the German spelling for the English word "House".

Foreign Character Translation

The translation provided by the applicant of the German word "Haus" is "House".
