switches for industrial process control; programmable controllers, namely, programmable electric control panels; sensor controllers, namely for sensors for determining position, velocity, acceleration, and temperature; smart manufacturing system controls comprised of computer hardware and computer software for industrial process control; infrared sensors; internet of things [IoT] sensors being touchscreen sensors; measuring, detecting, monitoring and controlling devices, namely, motion detectors, power controllers for fuel cells, electronic speed controllers; optical sensors; pressure sensors; proximity sensors; temperature sensors; vibration sensors; business technology software for use in managing and controlling industrial machinery maintenance schedules; downloadable cloud computing operating system software for managing and controlling virtual machines on the computer networks; computer operating system software application for use in implementing the internet of things [IoT]; computer-aided engineering [CAE] software; computer-aided manufacturing [cam] software; enterprise resource planning [ERP] factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; industrial controls incorporating software, namely, industrial process control software; industrial process control software; industrial software, namely, industrial process control software; manufacturing software, namely, computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; mechanical engineering software, namely, computer software for industrial process control and process optimization in the field of mechanical engineering; optical barcode recognition [OBR] software, namely, computer operating programs for scanning, recognizing, and validating printed barcodes, labels, and alphanumeric text; predictive maintenance software, namely, computer software for use in managing and controlling industrial machinery maintenance schedules in industrial process control; process controlling software, namely, industrial process control software; production support software, namely, computer operating system software for monitoring and controlling factory manufacturing processes; robotic process automation [RPA] software, namely, operating system software for monitoring and controlling communication between computers and automated machine systems; smart manufacturing software, namely, computer operating system software for controlling and configuring the operation of manufacturing machinery; smart manufacturing software, namely, factory automation software for integrating manufacturing machine operations, tracking problems and generating production reports; downloadable and recorded computer operating system software for diagnostics and troubleshooting in the field of industrial robots, metalworking, and wood-working machines.

Services

Class 35

(1) Retail services in the field of machine tools for sawing being power saws; retail services in the field of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; retail services in relation to machine tools for woodworking machines; retail services in relation to metalworking machine tools; retail services in the field of milling tools, namely, machine tools for milling machines; retail services in the field of planing tools, namely, machine tools for planing machines for metalworking; retail services in the field of precision grooving tools being cutters for milling machines; retail services in the field of precision parting tools being metalworking machine tools; retail services in the field of reamers being machine tools; retail services in the field of routers being power tools; retail services in the field of saws being metal sawing machines; retail services in the field of saw-tooth setting machines for lumbering or woodworking saws; retail services in the field of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; retail services in the field of

industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; retail services in the field of pressure regulating apparatus, namely pressure switches being parts of machines; retail services in the field of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; retail services in the field of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; retail services in the field of regulators, namely, valves being parts of machines; retail services in the field of valves being parts of machines; retail services in relation to industrial robots; retail services in relation to industrial robots for shaping metal; retail services in relation to industrial robots for shaping plastic material; retail services in relation to industrial robots for shaping wood; retail services in relation to industrial robots for use in manufacture; retail services in relation to robots for machine tools; retail services in relation to assembly line conveyor machinery; retail services in the field of automated robotic handling apparatus for loading and unloading of goods, namely, loading and unloading machines; retail services in relation to automatic conveyor installations; retail services in relation to band conveyors; retail services in the field of batch sorting machines, namely, machines for sorting workpieces made of wood; retail services in relation to belt conveyors; retail services in relation to conveyors; retail services in the field of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; retail services in the field of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; retail services in relation to hydraulic conveyors; retail services in relation to indoor self-driving robots for industrial use; retail services in relation to industrial conveyors; retail services in relation to industrial robots for use in the handling of workpieces; retail services in relation to industrial robots for working wood; retail services in the field of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; retail services in the field of loading and unloading machines, namely cranes; retail services in the field of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; retail services in the field of machines for turning being turning tools for metalworking machine tools; retail services in relation to overhead conveyors; retail services in relation to pneumatic conveyors; retail services in the field of robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; retail services in relation to roller conveyors; retail services in relation to rotating screw conveyors; retail services in relation to screw conveyors; retail services in the field of holders for machine tools for metalworking; retail services in the field of materials handling machines, namely, high-bay storage machine stackers; retail services in the field of workpiece clamping attachments , namely clamping bushings being parts of machines; business management advisory and consultancy services; retail services in the field of assembly machines, namely, conveyor belts and assembling machines for furniture; retail services in relation to automotive engine blocks; retail services in relation to boring machines for use in woodworking; retail services in the field of coating machines, namely, machine tools and automatic systems for treating and processing metals; retail services in relation to dividing machines; retail services in the field of drilling machines, namely, wood drilling machines, drilling machines for metalworking; retail services in the field of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; retail services in the field of edge sealing machines for industrial use; retail services in the field of edgers in the nature of wood shaping machines; retail services in the field of engine mounts being mounts for metalworking machines; retail services in the field of wood and metal feeding machines for machines for wood and metal shaping; retail services in the field of

plywood finishing machines; retail services in the field of plywood gluing machines; retail services in the field of grinding machines for metalworking; retail services in relation to jointers being woodworking machines; retail services in the field of laminators, namely, laminating machines for industrial use; retail services in relation to laser engraving machines for woodworking; retail services in the field of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; retail services in the field of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; retail services in the field of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; retail services in relation to machining centres; retail services in relation to metal machining centres; retail services in relation to milling machines; retail services in the field of numerically controlled machining stations consisting of boring machines for metalworking; retail services in relation to packaging machines; retail services in relation to painting machines; retail services in the field of planing machines for metalworking; retail services in the field of pressing machines for industrial purposes, namely, industrial machine presses; retail services in relation to sanding machines; retail services in relation to sanding machines for woodworking; retail services in the field of sealing machines, namely, heat transfer presses; retail services in the field of shaping machines for metalworking and compression and injection moulding machines; retail services in the field of sorting machines for industry, namely, machines for sorting workpieces made of wood; retail services in the field of stacking machines, namely, high-bay storage machine stackers; retail services in the field of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; retail services in the field of turning machines being lathes; retail services in relation to veneer manufacturing machines; retail services in relation to wood carving machines; retail services in relation to wood grinding machines; retail services in relation to wood planing machines; retail services in the field of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; retail services in the field of apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; retail services in the field of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; retail services in relation to circular saws [for woodworking]; retail services in the field of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; retail services in the field of edging tools being rotary sanding machines for shaping edges; retail services in relation to lathes [machine tools]; retail services in the field of machine tools being lathes; retail services in the field of machine tools for boring being boring machines for metalworking; retail services in the field of machine tools for drilling being drilling machines for metalworking, electric drills; retail services in the field of machine tools for grinding being grinding tools for grinding machines; retail services in the field of machine tools for parting being machine tools for wood cutting machines.

Class 37

(2) Installation services of assembly machines, namely, conveyor belts and assembling machines for furniture; installation services of automotive engine blocks; installation services of boring machines for use in woodworking; installation services of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; installation services of dividing machines; installation services of drilling machines, namely, wood drilling machines, drilling machines for metalworking; installation services of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines;

installation services of edge sealing machines for industrial use ; installation services of edgers in the nature of wood shaping machines; installation services of engine mounts being mounts for metalworking machines; installation services of wood and metal feeding machines for machines for wood and metal shaping; installation services of plywood finishing machines; installation services of plywood gluing machines; installation services of grinding machines for metalworking; installation services of jointers being woodworking machines; installation services of laminators, namely, laminating machines for industrial use; installation services of laser engraving machines for woodworking; installation services of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; installation services of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; installation services of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules , clamping blocks, clamping cylinders and component parts and accessories therefor; installation services of machining centres; installation services of metal machining centres; installation services of milling machines; installation services of numerically controlled machining stations consisting of boring machines for metalworking; installation services of packaging machines; installation services of painting machines; installation services of planing machines for metalworking; installation services of pressing machines for industrial purposes, namely, industrial machine presses; installation services of sanding machines; installation services of sanding machines for woodworking; installation services of sealing machines, namely, heat transfer presses; installation services of shaping machines for metalworking and compression and injection moulding machines; installation services of sorting machines for industry, namely, machines for sorting workpieces made of wood; installation services of stacking machines, namely, high-bay storage machine stackers; installation services of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; installation services of turning machines being lathes; installation services of veneer manufacturing machines; installation services of wood carving machines; installation services of wood grinding machines; installation services of wood planing machines; installation services of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of apparatus for machining, namely, machining centers for metalworking , computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; installation services of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; installation services of circular saws [for woodworking]; installation services of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; installation services of edging tools being rotary sanding machines for shaping edges; installation services of lathes [machine tools]; installation services of machine tools being lathes; installation services of machine tools for boring being boring machines for metalworking; installation services of machine tools for drilling being drilling machines for metalworking, electric drills; installation services of machine tools for grinding being grinding tools for grinding machines; installation services of machine tools for parting being machine tools for wood cutting machines; installation services of machine tools for sawing being power saws; installation services of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; installation services of machine tools for woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of metalworking machine tools; installation services of milling tools, namely, machine tools for milling machines; installation services of planing tools, namely, machine tools for planing machines for metalworking; installation services of precision grooving tools being

cutters for milling machines; installation services of precision parting tools being metalworking machine tools; installation services of reamers being machine tools; installation services of routers being power tools; installation services of saws being metal sawing machines; installation services of saw-tooth setting machines for lumbering or woodworking saws; installation services of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; installation services of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; installation services of pressure regulating apparatus, namely pressure switches being parts of machines; installation services of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; installation services of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; installation services of regulators, namely, valves being parts of machines; installation services of valves being parts of machines; installation services of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; installation services of industrial robots for shaping metal; installation services of industrial robots for shaping plastic material; installation services of industrial robots for shaping wood; installation services of robots for machine tools for metalworking machines; installation services of assembly line conveyor machinery; installation services of automated robotic handling apparatus for loading and unloading of goods, namely, installation of loading and unloading machines; installation services of automatic conveyor installations; installation services of band conveyors; installation services of batch sorting machines, namely, machines for sorting workpieces made of wood; installation services of belt conveyors; installation services of conveyors; installation services of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; installation services of hydraulic conveyors; installation services of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; installation services of industrial conveyors; installation services of industrial robots being conveyors for use in the handling of workpieces; installation services of industrial robots for working wood; installation services of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; installation services of loading and unloading machines, namely cranes; installation services of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; installation services of machines for turning being turning tools for metalworking machine tools; installation services of overhead conveyors; installation services of pneumatic conveyors; installation services of robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; installation services of roller conveyors; installation services of rotating screw conveyors; installation services of screw conveyors; installation services of holders for machine tools for metalworking; installation services of materials handling machines, namely, high-bay storage machine stackers; installation services of workpiece clamping attachments, namely clamping bushings being parts of machines; repair and maintenance of assembly machines, namely, conveyor belts and assembling machines for furniture; repair and maintenance of automotive engine blocks; repair and maintenance of boring machines for use in woodworking; repair and maintenance of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; repair and maintenance of dividing machines; repair and

maintenance of drilling machines, namely, wood drilling machines, drilling machines for metalworking; repair and maintenance of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; repair and maintenance of edge sealing machines for industrial use ; repair and maintenance of edgers in the nature of wood shaping machines; repair and maintenance of engine mounts being mounts for metalworking machines; repair and maintenance of wood and metal feeding machines for machines for wood and metal shaping; repair and maintenance of plywood finishing machines; repair and maintenance of plywood gluing machines; repair and maintenance of grinding machines for metalworking; repair and maintenance of jointers being woodworking machines; repair and maintenance of laminators, namely, laminating machines for industrial use; repair and maintenance of laser engraving machines for woodworking; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; repair and maintenance of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; repair and maintenance of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules , clamping blocks, clamping cylinders and component parts and accessories therefor; repair and maintenance of machining centres; repair and maintenance of metal machining centres; repair and maintenance of milling machines; repair and maintenance of numerically controlled machining stations consisting of boring machines for metalworking; repair and maintenance of packaging machines; repair and maintenance of painting machines; repair and maintenance of planing machines for metalworking; repair and maintenance of pressing machines for industrial purposes, namely, industrial machine presses; repair and maintenance of sanding machines; repair and maintenance of sanding machines for woodworking; repair and maintenance of sealing machines, namely, heat transfer presses; repair and maintenance of shaping machines for metalworking and compression and injection moulding machines; repair and maintenance of sorting machines for industry, namely, machines for sorting workpieces made of wood; repair and maintenance of stacking machines, namely, high-bay storage machine stackers; repair and maintenance of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; repair and maintenance of turning machines being lathes; repair and maintenance of veneer manufacturing machines; repair and maintenance of wood carving machines; repair and maintenance of wood grinding machines; repair and maintenance of wood planing machines; repair and maintenance of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of apparatus for machining, namely, machining centers for metalworking , computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; repair and maintenance of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; repair and maintenance of circular saws [for woodworking]; repair and maintenance of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; repair and maintenance of edging tools being rotary sanding machines for shaping edges; repair and maintenance of lathes [machine tools]; repair and maintenance of machine tools being lathes; repair and maintenance of machine tools for boring being boring machines for metalworking; repair and maintenance of machine tools for drilling being drilling machines for metalworking, electric drill; repair and maintenance of machine tools for grinding being grinding tools for grinding machines; repair and maintenance of machine tools for parting being machine tools for wood cutting machines; repair and maintenance of machine tools for sawing being power saws; repair and maintenance of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; repair and maintenance of machine tools for woodworking machines, namely nailing

machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of metalworking machine tools; repair and maintenance of milling tools, namely, machine tools for milling machines; repair and maintenance of planing tools, namely, machine tools for planing machines for metalworking; repair and maintenance of precision grooving tools being cutters for milling machines; repair and maintenance of precision parting tools being metalworking machine tools; repair and maintenance of reamers being machine tools; repair and maintenance of routers being power tools; repair and maintenance of saws being metal sawing machines; repair and maintenance of saw-tooth setting machines for lumbering or woodworking saws; repair and maintenance of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; repair and maintenance of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pressure regulating apparatus, namely pressure switches being parts of machines; repair and maintenance of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of regulators, namely, valves being parts of machines; repair and maintenance of valves being parts of machines; repair and maintenance of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; repair and maintenance of industrial robots for shaping metal; repair and maintenance of industrial robots for shaping plastic material; repair and maintenance of industrial robots for shaping wood; repair and maintenance of robots for machine tools for metalworking machines; repair and maintenance of assembly line conveyor machinery; repair and maintenance of automated robotic handling apparatus for loading and unloading of goods, namely, maintenance and repair of loading and unloading machines; repair and maintenance of automatic conveyor installations; repair and maintenance of band conveyors; repair and maintenance of batch sorting machines, namely, machines for sorting workpieces made of wood; repair and maintenance of belt conveyors; repair and maintenance of conveyors; repair and maintenance of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; repair and maintenance of hydraulic conveyors; repair and maintenance of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; repair and maintenance of industrial conveyors; repair and maintenance of industrial robots being conveyors for use in the handling of workpieces; repair and maintenance of industrial robots for working wood; repair and maintenance of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; repair and maintenance of loading and unloading machines, namely cranes; repair and maintenance of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; repair and maintenance of machines for turning being turning tools for metalworking machine tools; repair and maintenance of overhead conveyors; repair and maintenance of pneumatic conveyors; repair and maintenance of robotic mechanisms, namely, lifting cranes for the transport of goods and elevator conveyors; repair and maintenance of roller conveyors; repair and maintenance of rotating screw conveyors; repair and maintenance of screw conveyors; repair and maintenance of holders for machine tools for metalworking; repair and maintenance of materials handling machines, namely, high-bay storage machine stackers; repair and maintenance

of workpiece clamping attachments, namely clamping bushings being parts of machines.

Wood grinding machines; wood planing machines; woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for shaping wood, glass, and plastic, machines for processing wood, glass and plastic, namely, industrial robots, machines for processing wood pulp, automatic machines for thermoforming and processing of plastics, extrusion, injection molding machines; circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; circular saws [for woodworking]; disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; edging tools being rotary sanding machines for shaping edges; lathes [machine tools]; machine tools being lathes; machine tools for boring being boring machines for metalworking; machine tools for drilling being drilling machines for metalworking, electric drills; machine tools for grinding being grinding tools for grinding machines; machine tools for parting being machine tools for wood cutting machines; machine tools for sawing being power saws; machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; machine tools for woodworking machines; metalworking machine tools; milling tools, namely, machine tools for milling machines; planing tools, namely, machine tools for planing machines for metalworking; precision grooving tools being cutters for milling machines; precision parting tools being metalworking machine tools; reamers being machine tools; routers being power tools; saws being metal sawing machines; saw-tooth setting machines for lumbering or woodworking saws; tools for machine tools, namely, bits for mining machines, electric routers, and power drills; industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; pressure regulating apparatus, namely pressure switches being parts of machines; mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; pneumatic process controllers consisting of

pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; regulators, namely, valves being parts of machines; valves being parts of machines; industrial robots for processing and shaping wood; industrial robots for sewing; industrial robots for shaping glass, metal, plastic material, and wood; industrial robots for working wood and metal; industrial robots for shaping metal; industrial robots for shaping plastic material; industrial robots for shaping wood; robots for machine tools for metalworking machines; assembly line conveyor machinery; automatic conveyor installations; band conveyors; batch sorting machines, namely, machines for sorting workpieces made of wood; belt conveyors; conveyors; guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; hydraulic conveyors; indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; industrial conveyors; industrial robots being conveyors for use in the handling of workpieces; industrial robots for working wood; lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; loading and unloading machines, namely cranes; machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; machines for turning being turning tools for metalworking machine tools; overhead conveyors; pneumatic conveyors; robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; roller conveyors; rotating screw conveyors; screw conveyors; holders for machine tools for metalworking; materials handling machines, namely, high-bay storage machine stackers; workpiece clamping attachments, namely clamping bushings being parts of machines; wood carving machines; assembly machines, namely, conveyor belts and assembling machines for furniture; automotive engine blocks; boring machines for use in woodworking; dividing machines; drilling machines, namely, wood drilling machines, drilling machines for metalworking; drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; edge sealing machines for industrial use ; edgers in the nature of wood shaping machines; engine mounts being mounts for metalworking machines; plywood finishing machines; plywood gluing machines; grinding machines for metalworking; jointers being woodworking machines; laminators, namely, laminating machines for industrial use; laser engraving machines for woodworking; machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; machining centres for metalworking; metal machining centres; milling machines; numerically controlled machining stations consisting of boring machines for metalworking; packaging machines; painting machines; planing machines for metalworking; pressing machines for industrial purposes, namely, industrial machine presses; sanding machines; sanding machines for woodworking; sealing machines, namely, heat transfer presses; shaping machines for metalworking and compression and injection moulding machines; stacking machines, namely, high-bay storage machine stackers; trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; turning machines being lathes; veneer manufacturing machines.

Services**Class 37**

Installation services of assembly machines, namely, conveyor belts and assembling machines for furniture; installation services of automotive engine blocks; installation services of boring machines for use in woodworking; installation services of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; installation services of dividing machines; installation services of drilling machines, namely, wood drilling machines, drilling machines for metalworking; installation services of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; installation services of edge sealing machines for industrial use; installation services of edgers in the nature of wood shaping machines; installation services of engine mounts being mounts for metalworking machines; installation services of wood and metal feeding machines for machines for wood and metal shaping; installation services of plywood finishing machines; installation services of plywood gluing machines; installation services of grinding machines for metalworking; installation services of jointers being woodworking machines; installation services of laminators, namely, laminating machines for industrial use; installation services of laser engraving machines for woodworking; installation services of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; installation services of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; installation services of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules, clamping blocks, clamping cylinders and component parts and accessories therefor; installation services of machining centres; installation services of metal machining centres; installation services of milling machines; installation services of numerically controlled machining stations consisting of boring machines for metalworking; installation services of packaging machines; installation services of painting machines; installation services of planing machines for metalworking; installation services of pressing machines for industrial purposes, namely, industrial machine presses; installation services of sanding machines; installation services of sanding machines for woodworking; installation services of sealing machines, namely, heat transfer presses; installation services of shaping machines for metalworking and compression and injection moulding machines; installation services of sorting machines for industry, namely, machines for sorting workpieces made of wood; installation services of stacking machines, namely, high-bay storage machine stackers; installation services of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; installation services of turning machines being lathes; installation services of veneer manufacturing machines; installation services of wood carving machines; installation services of wood grinding machines; installation services of wood planing machines; installation services of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of apparatus for machining, namely, machining centers for metalworking, computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; installation services of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; installation services of circular saws [for woodworking]; installation services of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; installation services of edging tools being rotary sanding machines for shaping edges; installation services of lathes [machine tools]; installation services of machine tools being lathes; installation services of machine tools for boring being boring machines for metalworking; installation services of machine tools for drilling being drilling machines for metalworking, electric drills; installation services of machine tools for grinding being grinding tools for grinding machines; installation services of machine tools for parting being machine tools for wood cutting machines; installation services of machine tools for sawing being power saws;

installation services of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; installation services of machine tools for woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of metalworking machine tools; installation services of milling tools, namely, machine tools for milling machines; installation services of planing tools, namely, machine tools for planing machines for metalworking; installation services of precision grooving tools, being cutters for milling machines; installation services of precision parting tools being metalworking machine tools; installation services of reamers being machine tools; installation services of routers being power tools; installation services of saws being metal sawing machines; installation services of saw-tooth setting machines for lumbering or woodworking saws; installation services of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; installation services of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; installation services of pressure regulating apparatus, namely pressure switches being parts of machines; installation services of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; installation services of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; installation services of regulators, namely, valves being parts of machines; installation services of valves being parts of machines; installation services of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; installation services of industrial robots for shaping metal; installation services of industrial robots for shaping plastic material; installation services of industrial robots for shaping wood; installation services of robots for machine tools for metalworking machines; installation services of assembly line conveyor machinery; installation services of automated robotic handling apparatus for loading and unloading of goods, namely, installation of loading and unloading machines; installation services of automatic conveyor installations; installation services of band conveyors; installation services of batch sorting machines, namely, machines for sorting workpieces made of wood; installation services of belt conveyors; installation services of conveyors; installation services of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; installation services of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; installation services of hydraulic conveyors; installation services of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; installation services of industrial conveyors; installation services of industrial robots being conveyors for use in the handling of workpieces; installation services of industrial robots for working wood; installation services of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; installation services of loading and unloading machines, namely cranes; installation services of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator conveyors; installation services of machines for turning being turning tools for metalworking machine tools; installation services of overhead conveyors; installation services of pneumatic conveyors; installation services of robotic mechanisms being parts of loading-unloading machines and apparatus, namely, lifting cranes for the transport of goods and elevator conveyors; installation services of roller conveyors; installation services of rotating screw conveyors; installation services of screw conveyors; installation services of holders for machine tools for metalworking; installation

services of materials handling machines, namely, high-bay storage machine stackers; installation services of workpiece clamping attachments, namely clamping bushings being parts of machines; repair and maintenance of assembly machines, namely, conveyor belts and assembling machines for furniture; repair and maintenance of automotive engine blocks; repair and maintenance of boring machines for use in woodworking; repair and maintenance of coating machines, namely, assembly services relating to the installation of machines, machine tools and automatic systems for treating and processing metals; repair and maintenance of dividing machines; repair and maintenance of drilling machines, namely, wood drilling machines, drilling machines for metalworking; repair and maintenance of drive mechanisms for machine tools being hydrostatic chain drives being parts of machines; repair and maintenance of edge sealing machines for industrial use ; repair and maintenance of edgers in the nature of wood shaping machines; repair and maintenance of engine mounts being mounts for metalworking machines; repair and maintenance of wood and metal feeding machines for machines for wood and metal shaping; repair and maintenance of plywood finishing machines; repair and maintenance of plywood gluing machines; repair and maintenance of grinding machines for metalworking; repair and maintenance of jointers being woodworking machines; repair and maintenance of laminators, namely, laminating machines for industrial use; repair and maintenance of laser engraving machines for woodworking; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing, namely, metalworking machines and machine tools; repair and maintenance of machines for machining metals, namely, powered metalworking machines for cutting or shaping or finishing metals; repair and maintenance of machines, machine tools, and power-operated tools and apparatus, for fastening and joining, namely, metal clamping modules , clamping blocks, clamping cylinders and component parts and accessories therefor; repair and maintenance of machining centres; repair and maintenance of metal machining centres; repair and maintenance of milling machines; repair and maintenance of numerically controlled machining stations consisting of boring machines for metalworking; repair and maintenance of packaging machines; repair and maintenance of painting machines; repair and maintenance of planing machines for metalworking; repair and maintenance of pressing machines for industrial purposes, namely, industrial machine presses; repair and maintenance of sanding machines; repair and maintenance of sanding machines for woodworking; repair and maintenance of sealing machines, namely, heat transfer presses; repair and maintenance of shaping machines for metalworking and compression and injection moulding machines; repair and maintenance of sorting machines for industry, namely, machines for sorting workpieces made of wood; repair and maintenance of stacking machines, namely, high-bay storage machine stackers; repair and maintenance of trimming machines, namely, cutting machines for metalworking, paper trimming machines for commercial or industrial use; repair and maintenance of turning machines being lathes; repair and maintenance of veneer manufacturing machines; repair and maintenance of wood carving machines; repair and maintenance of wood grinding machines; repair and maintenance of wood planing machines; repair and maintenance of woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of apparatus for machining, namely, machining centers for metalworking , computer numerical control [CNC] machine tools for lathe machines, and machines for processing and shaping wood, glass, and plastic; repair and maintenance of circle cutting tools for use with machines, namely blades being parts of wood cutting machines and cutting machines for metalworking; repair and maintenance of circular saws [for woodworking]; repair and maintenance of disc shaped rotating grinding tools being parts for machines, namely, grinding tools for grinding machines; repair and maintenance of edging tools being rotary sanding machines for shaping edges; repair and maintenance of lathes [machine tools]; repair and maintenance of machine tools being lathes; repair and maintenance of machine tools for boring being boring

machines for metalworking; repair and maintenance of machine tools for drilling being drilling machines for metalworking, electric drills; repair and maintenance of machine tools for grinding being grinding tools for grinding machines; repair and maintenance of machine tools for parting being machine tools for wood cutting machines; repair and maintenance of machine tools for sawing being power saws; repair and maintenance of machine tools for the plastics processing industry, namely, machine tools for automatic machines for thermoforming and processing of plastics; repair and maintenance of machine tools for woodworking machines, namely nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of metalworking machine tools; repair and maintenance of milling tools, namely, machine tools for milling machines; repair and maintenance of planing tools, namely, machine tools for planing machines for metalworking; repair and maintenance of precision grooving tools being cutters for milling machines; repair and maintenance of precision parting tools being metalworking machine tools; repair and maintenance of reamers being machine tools; repair and maintenance of routers being power tools; repair and maintenance of saws being metal sawing machines; repair and maintenance of saw-tooth setting machines for lumbering or woodworking saws; repair and maintenance of tools for machine tools, namely, bits for mining machines, electric routers, and power drills; repair and maintenance of industrial process controllers consisting of pressure switches being parts of machines, and hydraulic valve actuators being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pressure regulating apparatus, namely pressure switches being parts of machines; repair and maintenance of mechanical process controllers consisting of pressure switches being parts of machines, and mechanical valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of pneumatic process controllers consisting of pressure switches being parts of machines, and pneumatic valves being parts of machines sold as a unit with manufacturing machines; repair and maintenance of regulators, namely, valves being parts of machines; repair and maintenance of valves being parts of machines; repair and maintenance of industrial robots, namely, industrial robots for processing and shaping wood, industrial robots for sewing, industrial robots for shaping glass, metal, plastic material, and wood, and industrial robots for working wood and metal; repair and maintenance of industrial robots for shaping metal; repair and maintenance of industrial robots for shaping plastic material; repair and maintenance of industrial robots for shaping wood; repair and maintenance of robots for machine tools for metalworking machines; repair and maintenance of assembly line conveyor machinery; repair and maintenance of automated robotic handling apparatus for loading and unloading of goods, namely, maintenance and repair of loading and unloading machines; repair and maintenance of automatic conveyor installations; repair and maintenance of band conveyors; repair and maintenance of batch sorting machines, namely, machines for sorting workpieces made of wood; repair and maintenance of belt conveyors; repair and maintenance of conveyors; repair and maintenance of guidance frameworks for machine tools, namely machine tools for nailing machines, gluing machines for use with plywood, edge-banding machines being plywood finishing machines, extrusion moulding machines; repair and maintenance of handling machines, automatic manipulators being unmanned transportation conveyors being cargo handling machines; repair and maintenance of hydraulic conveyors; repair and maintenance of indoor self-driving robots for industrial use, namely, unmanned transportation conveyors being cargo handling machines; repair and maintenance of industrial conveyors; repair and maintenance of industrial robots being conveyors for use in the handling of workpieces; repair and maintenance of industrial robots for working wood; repair and maintenance of lifting attachments incorporating mechanisms for the handling of goods, namely lifting cranes for the transport of goods; repair and maintenance of loading and unloading machines, namely cranes; repair and maintenance of machine operated platforms capable of elevation above ground level and used for storage, namely, elevator

conveyors; repair and maintenance of machines for turning being turning tools for metalworking machine tools; repair and maintenance of overhead conveyors; repair and maintenance of pneumatic conveyors; repair and maintenance of robotic mechanisms, namely, lifting cranes for the transport of goods and elevator conveyors; repair and maintenance of roller conveyors; repair and maintenance of rotating screw conveyors; repair and maintenance of screw conveyors; repair and maintenance of holders for machine tools for metalworking; repair and maintenance of materials handling machines, namely, high-bay storage machine stackers; repair and maintenance of workpiece clamping attachments, namely clamping bushings being parts of machines.

Goods

Class 01

(1) Chemicals used in industry, in particular drying agents, water treatment preparations, flocculants, odour control preparations, neutralising preparations for service water, preparations for preventing or reducing frothing, softening and antiliming agents for liquids, in particular for water; synthetic fragrance ingredients, namely synthetic chemical products for use in the manufacture of fragrances; all the aforesaid goods in goods class 1 being for vehicle maintenance and other than aluminium hydroxide or aluminium oxide; chemical substances for generating foam, namely sulfates.

Class 03

(2) all purpose cleaners, namely insect removers; wheel rim cleaning preparations; active foam, namely cleaning preparation for vehicle interior and exterior in the nature of active foam; shining preparations [polish], namely automobile polish, car polish, carnauba polishing wax for automobile use, leather polishes, polishing creams, polishing wax; pre-cleaners, namely for removing organic

residues from automobiles; automobile cleansing foam; carpet cleaning preparations, glass cleaning preparations, glass cleaning preparations, windshield cleaning preparations, all-purpose cleaning preparations; car shampoo; soap powder; polishing preparations for paintwork care, in particular for use in mechanical vehicle washing installations; waxes, in particular for paintwork care; foam wax; floor wax; all the aforesaid goods for vehicle maintenance; hall and installation cleaners for vehicle washing machines and vehicle drying machines; glass cleaning preparations; floor cleaner preparations; universal cleaners for use in connection with washing vehicles; in particular all of the aforesaid goods for cleaning vehicles.

Class 05

(3) Disinfectants for vehicle maintenance.

Class 07

(4) Car washing machines; vehicle washing installations; parts of the aforesaid goods, included in class 7.

Class 09

(5) Downloadable mobile applications for scheduling washing, cleaning, drying and polishing of vehicles; recorded computer software for scheduling repair and maintenance for water treatment and water recycling installations and machines; computer software for use with mobile payments, namely for use in scheduling and managing electronic payments; card readers (data processing equipment) and other electronic devices, namely smartphones, tablet computers or mobile phones for conducting cashless payment and billing transactions, and parts for the aforesaid goods; computer software that allow users to perform electronic payment transactions, electronic funds transfers; software for use in connection with consumer loyalty programs and loyalty cards used to access and use loyalty points.

Class 11

(6) Vehicle drying installations; machines for drying vehicles; parts of the aforesaid goods, included in class 11; installations and machines for water treatment machines and water recycling for use in car washing installations.

Class 24

(7) Drying curtains of filament or strip-shaped materials of plastic (in particular foamed material) or natural fibres.

Services**Class 36**

(1) Financial services by means of apps, namely electronic bill payment provided by means of a mobile software application; arranging and conducting of cashless payment transactions via apps; providing of information via financial services for washing installations; disseminated financial information, namely providing information in the field of automobile financing.

Class 37

(2) Installation, assembly, operation, repair and maintenance of vehicle washing installations, vehicle cleaning installations, vehicle polishing installations and vehicle drying installations and machines for washing, cleaning, polishing and drying vehicles; installation, assembly, repair and maintenance of installations for the cleaning, disinfecting, sterilising, conveying and treatment of waste water, and for the storage of water; washing, cleaning, drying and polishing of vehicles;

rental of vehicle washing installations, vehicle cleaning installations, vehicle polishing installations and vehicle drying installations and vehicle washing machines and vehicle drying machines; providing of information for cleaning and drying vehicles.

Class 38

(3) Internet service provider services; provision of internet access services; providing access to internet platforms and providing access to mobile internet portals; digital text messaging; cellular text messaging services, instant messaging services.

Colour Claim

Colour is claimed as a feature of the trademark. The Bio Vitalica logo blends shades of purple and black seamlessly. The stylized flower or plant features three leaves-the central one in bold black and the side leaves in varying shades of purple. Beneath this graphic, the sans-serif text reads "Bio Vitalica," with "Bio" in black and "Vitalica" in a deeper purple.
