Downloadable computer application software for mobile phones, namely, e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable computer programs for accessing an online marketplace for buyers and sellers of goods and services; downloadable computer software for online shopping for accessing an online marketplace for buyers and sellers of goods and services; downloadable computer programs for online shopping, namely, software that enables users to view and purchase goods over the Internet; downloadable computer programs for online shopping, namely, e-commerce software to allow users to perform electronic business transactions via a global computer network; downloadable e-wallets; recorded computer application software for accessing an online marketplace for buyers and sellers of goods and services; recorded computer programs for online shopping, namely, e-commerce software to allow users to perform electronic business transactions via a global computer network; Recorded computer programs for online shopping, namely software that enables users to view and purchase goods over the Internet; downloadable emoticons for mobile phones; downloadable electronic publications in the nature of magazines, pamphlets and manuals.

Services

Class 35

(1) Publicity agencies; advertising the goods and services of others through all public communication means; providing information relating to commercial business management; provision of an online marketplace for buyers and sellers of goods and services; direct marketing of the goods and services of others; systemization of information into computer databases; promoting the goods and services of others through advertisements on Internet websites.

Class 41

(2) entertainment services, namely, providing online computer games; production of podcasts; providing films, not downloadable, via video-on-demand services; providing online computer

games via a global network; providing online electronic publications in the form of publishing of electronic newsletters; providing online non-downloadable audio and visual recordings in the field of computer games and video games;

Class 42

(3) Computer software design; updating of computer software; software as a service (SAAS) services featuring software for online shopping, namely, computer e-commerce software to allow users to perform electronic business transactions via global computer network; software as a service [SaaS] featuring software for online shopping, namely, for providing and viewing listings on an online marketplace via a website; providing information on computer technology and programming via a web site; user authentication services using technology for e-commerce transactions.

Class 45

(4) arbitration, mediation and dispute resolution services; dating services; intellectual property consultancy; management of copyright and industrial property rights; on-line social networking services

Goods

Class 05

(1) Pharmaceutical preparations for use in ophthalmology; pharmaceutical preparations for use in oncology; pharmaceutical preparations for the treatment of dermatological diseases and disorders; medical disinfectants for medical instruments; contrast media for use with medical ultrasound apparatus; contrast agents for diagnostic ultrasound imaging; plasters for dressings; multi-purpose disinfectants.

Class 07

(2) Laser machines for use in the military, space, industrial and scientific fields in the nature of portable laser engraving machines, laser machines for industrial or scientific use in the nature of laser welding robots, laser welding apparatus and other apparatus for the treatment of materials in the nature of laser welding machines, laser Doppler machines for measuring; carbon dioxide laser tubes being machine parts; physical and chemical vapour deposition systems, namely machines used for pulsed laser deposition.

Class 09

(3) Scientific, nautical, topographic data, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely electronic timers, computer hardware, computer scanners, compasses, marine depth finders, digital photographic apparatus, liquid level sensors, electromagnetic measuring detectors, magnetic compasses for surveying, global positioning system [GPS] transmitters, Ethernet controllers, video monitor controllers, signal lights, signal mirrors, emergency warning lights, radio-controlled life buoys, slide projectors, computers, video projectors, overhead projectors, computers and user manuals in electronic form sold as a unit, display boards; optical, electro-optical, opto-electronic, integrated optical and fibre optic apparatus, instruments, components and devices, namely front-end modules, fibre optic connectors, fibre optic cables, fibre optic light and image conduits; computers and microcomputers, their components, their electric and electronic components; modems; computer printers; computer programs for accessing information in the field of laser technology, software for image processing, software packages, namely downloadable and recorded software for controlling the use of fibre optic lasers and light amplifiers; telecommunication satellites; printed circuits; magnetic recording media, namely recording discs, blank optical discs, blank magnetic discs, magnetic pens, sound recording discs; magnetic, optical and digital recording media, namely tape recorders, magnetic tape recorders, optical sensors, digital cameras; data processing hardware, computers and computer peripherals, namely keyboards, mice, image scanners, CD-ROM players, blank CD-ROMs; magnetic coils, magnetic encoders; image scanners; sound amplifiers; optical amplifiers; computer database servers, pre-recorded video tapes, apparatus for recording, reproducing and transmitting sound, images and data, namely speakers, magnetic tape recorders, personal digital voice recorders, earphones and headphones, microphones, projection screens, touch screens, video display terminals, optical fibres (light conducting filaments), magnetic wires; apparatus, devices, equipment and facilities for communications, telecommunications, telephony, enhanced telephony, communications by telegrams, teletype, teleinformatics, telematics, office automation and fax, namely telephones, fax machines, telephone answering machines, videophones for controlling the use fibre optic lasers and light amplifiers; changeover switches for telecommunication apparatus, hubs, switches and routers for computer networks, telephone terminals, satellite telephones, cable connectors, coaxial cables for controlling the use of fibre optic lasers and light amplifiers; electrical and optical conductors, wires, cables and conduits for communications and telecommunications, namely electronic conductors for integrated circuits, electrical and optical cables, electrical plugs and sockets, ducting for electrical cables, computer network routers; optical fibres (light conducting filaments); magnetic wires; optical amplifiers; optical scanners; laser technology for use in the military, space, industrial and scientific fields in the nature of lasers for use in industrial cutting applications, lasers for engraving, lasers for lunar ranging, ultrashort pulse lasers for spectroscopy, laser speed detectors, laser diodes, laser diode modules, laser pointers, laser distance sensors, laser altimeters, high-intensity laser beams, laser radars for space exploration, military lasers for directed energy weapons, fibre optic lasers; fibre optic amplifiers; biometric retinal scanners; biometric fingerprint scanners; biometric fingerprint readers; biometric retinal scanners; laser range finders; light detection and ranging (LiDAR) systems, namely laser range finders; 3D scanners; laser scanners; ultrasonic diagnostic apparatus, other than for medical use, namely ultrasonic detectors.

Class 10

(4) Lasers for eye surgery; ophthalmoscopes; ophthalmometers; ultrasonic imaging apparatus for medical use; endoscopes for medical use; medical optical instruments; eye massagers; medical lasers, including ophthalmic lasers and their parts and accessories in the nature of laser power systems, control panels, electrical power supplies, tables, holders, cases, accessory adapters,

magnification changers, beam splitters, observation tubes, camera adapters, eyepieces, eye models for teaching and safety goggles; laser diode photocoagulators and their parts in the nature of power systems for slit lamps and their safety filters and adapters; lasers for medical use; lasers for dental use; lasers for veterinary use; lasers for surgical use; laser pointers for medical use; laser scalpels for medical use; laser cutting tools for medical use, namely medical and surgical cutters for cutting human or animal tissue and organs; lasers for ophthalmic use; ophthalmic cameras for medical use; ultrasonic medical apparatus, and their parts; ultrasonic apparatus for therapeutic use; ultrasonic diagnostic apparatus and instruments for medical use; ultrasonic blood flow meters; ultrasonic probes for medical use; ultrasonic sensors for medical use; ultrasonic diagnostic apparatus and instruments for dental use; ultrasonic diagnostic apparatus and instruments for surgical use; ultrasonic diagnostic instruments for veterinary use; ultrasonic apparatus for veterinary use; ultrasonic ocular axis length meters; ultrasonic aspirators; ultrasonic apparatus for medical use for scanning the body; ultrasonic aspirators for separating soft tissues.

Services

Class 37

(1) Installation, maintenance and repair of laser systems for ablating, cleaning, welding and cutting; installation, maintenance and repair of industrial automation equipment in the nature of lasers, machines incorporating lasers and robots incorporating lasers; installation, maintenance and repair of portable laser engraving machines, laser welding robots, laser welding machines, laser Doppler machines for measuring, carbon dioxide laser tubes being part of physical and chemical deposition systems and machines in the nature of machines used for pulsed laser deposition; installation, maintenance and repair of apparatus for recording, transmitting, reproducing sound or images, namely fibre optic lasers, not for medical use, and light amplifiers.

Class 38

(2) Telecommunication services, namely provision of access to databases, broadcasting of radio programs, provision of access to a global computer network, provision of access to a video sharing portal, telephone services offered by means of fibre optic cables, telephone lines, radio and microwave transmission, and satellite; videoconferencing services; services including teletype, transmission of messages and telegrams, namely wireless fax services, telegram messaging services; communication and transmission of messages, data, sounds, images via communication networks, such as the Internet or telematic of telephone networks, satellite transmission, namely streaming of television programs, videos featuring movies via a global computer network; communications through computer terminals, namely telephony; electronic voice mail services; rental of telecommunication apparatus and apparatus for transmitting messages and information relating to telecommunications, namely rental of telephones, rental of television decoders and encoders; rental of access time to global computer networks.

Class 40

(3) Custom construction of laser systems for all types of industries in the nature of custom construction of portable laser engraving machines, laser welding robots, laser welding machines, laser Doppler machines for measuring.

Class 41

(4) Training in the use of laser installations for medical use and of ultrasonic medical diagnostic apparatus.

Class 42

(5) Scientific research in the fields of optics and telecommunications, namely in the field of laser technology; industrial analysis and research services in the field of laser technology; scientific

research services for medical purposes; design and development of software, CD-ROMs, development of computer systems; updating of software; computer programming; software and computer consulting; design and development of computer systems; graphic design; website design; design and development of a website content management system; professional advice unrelated to the conduct of business in the nature of professional advice in the field of laser technology; professional consulting and development of plans unrelated to the conduct of business in the field of laser technology; conduct of technical project studies in the field of laser technology; computer software maintenance, research and development of new products for others; research and development of new products for others; design and development of laser technology and light amplifiers in the science, industry, military and space fields; design and development of laser technology and light amplifiers in the science, industry, military and space fields; design and development of fibre optic lasers for use in the science, industry, military and space fields; provision of custom laboratory evaluations and studies in the field of laser and other light-based technologies, namely evaluation of new inventions; design and development of medical imaging technology; evaluation of medical imaging technology; provision of personalized laboratory studies in the field of ultrasound technology, namely medical technology in the field of medical diagnostic imaging.

Class 44

(6) Medical laboratory analysis for the diagnosis and treatment of eye diseases; laser vision surgery services; laser vision correction services; medical services, namely provision of laser therapy for the treatment of medical conditions; comprehensive health care for the diagnosis and treatment of eye diseases; veterinary services; laser medical treatment of eye diseases; ultrasonography services for medical purposes; rental of ultrasonic diagnostic apparatus; rental of laser treatment apparatus and instruments, namely rental of surgical robots, rental of medical equipment.

(2) Scientific, nautical, teaching and measuring apparatus and instruments for the operating state of vehicles, namely, instruments and recording devices for recording of ambient in-vehicle temperature and loaded vehicle weight, calculating scales, punch clocks, instruments for checking door opening status and tire pressure, vehicle immobilizer devices being systems to prevent unauthorized use of a vehicle, vehicle video monitors; gramophone records; cash registers, calculating machines, computers, data processing equipment, namely diagnostic instruments composed of video and still image cameras and mirrors for use in the collection and processing of information and data about vehicle condition and diagnostic, its occupants and its environment; fire extinguishing apparatus for automobiles; computer hardware and computer software for database management; computer hardware and peripheral apparatus for use therewith, namely, digital cameras, keyboards, modems, mouse, printers, scanners, speakers, video recorders; punch clocks and electronic devices for mounting in vehicles for tracking and monitoring door opening status, tire pressure and vehicle movement, location, status, and behavior; electric batteries and accumulators, power meters, anti-theft alarms, distribution boxes for lighting units, electric cables and lines; anti-theft warning apparatus, namely, burglar alarms, vehicle immobilizer devices being systems to prevent unauthorized use of a vehicle, door alarms; optical inspection apparatus and indicators for analyzing defects in the operational function of vehicles; thermostats; indicators for the operating state of vehicles; electronic devices for monitoring vehicle brakes systems; magnetically, optically or electronically stored data carriers with technical and scientific publications.

Class 11

(3) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely lights for vehicles, trailer lights, heaters for vehicles, steam generators, HVAC systems for vehicles, circulators in the nature of water heaters in land vehicles, transport cooling units being evaporative air coolers; air-cooling installations and air-conditioning installations for vehicles, vehicle lighting units, ventilators; de-icing heating installations for vehicles; anti-glare devices for vehicles [lamp fittings]; anti-dazzle devices for vehicle tail lamps.

Class 12

(4) Axle journals, axle guides, axle and brakes combinations for vehicles; brakes for land vehicles and their parts, namely, brake discs, brake block, brake cylinders, brake facings, brake pads, brake shoes; vehicle chassis, bogies for vehicles; vehicle suspension springs, vehicle bodies and chassis, lorry and trailer superstructures; exchangeable superstructures for vehicles; refrigerating and exchangeable superstructures for vehicles; pneumatic spring bellows for vehicle suspension systems, vehicle exterior parts, namely, tailboard lifts, doors and door fittings for vehicles, hubs and hub systems for vehicles, wheel axles, side body panels for vehicle; suspension shock absorbers and shock-absorbing springs; fluid containers for compressed air and brake fluid, being vehicle parts; hydraulic circuits for vehicles; pneumatic or hydraulic linear actuators for land vehicles.

Services

Class 35

(1) Advertising consultancy; business management; business administration, office functions, namely, secretarial and clerical services; administrative processing of orders for others being systematic ordering of data in computer databases.

Class 38

(2) Radio telecommunications, communications by telegrams, telephone; electronic transmission of vehicle recorded navigation video and image data and digital documents, namely, digital photos, videos and images via global computer network; electronic mail forwarding services; e-mail services.

Class 39

(3) Transport of freight by lorry; packaging and storage of goods; travel arrangement; loading and unloading of goods; loading and unloading of transport vehicles; freight forwarding and transport of goods by lorry; fleet management services in the field of tracking and monitoring of lorry and trailer fleets; transport and logistics, namely, planning and scheduling shipments for users of transportation services, storage and packaging of goods, and loading and unloading of freight and cargo; car rental; freight brokerage [forwarding (Am.)]; vehicle rental.

Class 42

(4) Scientific and technological research in the field of freight, supply chain and transportation; design and development of computer software for logistics in the field of freight, supply chain and transportation; industrial analysis and research services in the field of freight, supply chain and transportation.

Class 09

Virtual reality software for training in the field of industrial machine maintenance and servicing; virtual reality software for simulation in the field of operating industrial machinery, and system integrity checks, alarm optimization, and control performance monitoring for the process industries; augmented reality software for training in the field of industrial machinery; augmented reality software for use in mobile devices for training in the field of maintenance and servicing of industrial machinery; augmented reality software for simulation in the field of operating industrial machinery, and system integrity checks, alarm optimization, and control performance monitoring for the process industries; augmented reality software for use in mobile devices for integrating electronic data with real world environments; artificial intelligence software for use in achieving and maintaining productivity in industrial processes, for identifying productivity improvements in industrial processes, for maintenance of industrial machinery, and for troubleshooting issues with industrial machinery; machine learning software for use in achieving and maintaining productivity in industrial processes, for maintenance of industrial machinery, for identifying wear and tear of industrial machinery, and for predicting when industrial machinery requires maintenance; machine learning software for analyzing the productivity, operation, and wear and tear of industrial machinery and for use in predicting when industrial machinery requires maintenance; virtual assistant software; intelligent gateways being computer control hardware for real-time data analysis for industrial machinery; intelligent gateways being computer hardware for software defined storage for industrial machinery; artificial intelligence software for analysis of productivity improvements in industrial processes and industrial machinery, for predicting when maintenance of

industrial machinery is required, and for troubleshooting issues with industrial machinery; interactive artificial intelligence software for maintaining, operating, and servicing industrial machinery; artificial intelligence software for surveillance; software for the integration of artificial intelligence and machine learning in the field of big data; computer software for controlling the sequence of operation and timing of operations of industrial machines; downloadable computer software for remote monitoring and analysis of industrial machine productivity, errors, and condition; software for monitoring and operating industrial machines, and for alerting users regarding the condition of the industrial machines, and the status of the processes being carried out by the industrial machine, including providing warnings and alerts to users; software for system integrity checks, alarm optimization, and control performance monitoring for the process industries; software for servicing industrial machinery, and maintaining the operation of industrial machinery; software for predicting when industrial machinery requires maintenance; software for monitoring industrial processes carried out by smart industrial machines; software for monitoring the efficacy and condition of smart industrial machines; embedded software in industrial machinery for processing powders, and handling, processing, and transporting bulk materials, namely, loose or granular materials; embedded software in industrial machinery for processing plastics; embedded software for optimizing production of industrial machinery used to process powder, and handle, process, and transport bulk materials, namely, loose or granular materials; embedded software for optimizing production of industrial machinery used to process plastics; ; computer software for use in remotely monitoring meters for industrial machines; software for automating manufacturing factories, namely, software to integrate manufacturing machine operations, track problems with the manufacturing machines, and generate manufacturing production reports; computer software and software applications for controlling industrial machines which process powders and which handle, process, and transport bulk materials, namely, loose or granular materials; computer software and software applications for controlling industrial machines which process plastics; software that controls sensors in industrial machinery for processing powders, and handling, processing, and transporting bulk materials, namely, loose or granular materials; software that controls sensors in industrial machinery for processing plastics; software for automating industrial machinery to process powders, and handle, process, and transport bulk materials, namely, loose or granular materials; software for automating industrial machinery to process plastics; industrial process control software; computer operating system interface software; downloadable software applications using artificial intelligence to assist in the field of operating industrial machinery, and performing system integrity checks, alarm optimization, and control performance monitoring for the process industries; software for assisting technicians maintain industrial machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; software for assisting technicians maintain industrial machinery for processing plastics; software for predicting when maintenance is required for industrial machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; software for predicting when maintenance is required for industrial machinery for processing plastics; software for diagnosing and troubleshooting issues with industrial machinery used to process powders and handle, process, and transport bulk materials, namely, loose or granular materials; software for diagnosing and troubleshooting issues with industrial machinery used to process plastics; software for the remote diagnosis of issues with industrial machinery used to process powders and handle, process, and transport bulk materials, namely, loose or granular materials; software for the remote diagnosis of issues with industrial machinery used to process plastics; virtual and augmented reality software for training in the field of industrial machine maintenance and servicing; artificial intelligence and machine learning software for industrial machinery used to process powders and handle, process, and transport bulk materials, namely, loose or granular materials; artificial intelligence and machine learning software for

industrial machinery used to process plastics; application software for industrial machinery used to process powders and handle, process, and transport bulk materials, namely, loose or granular materials; application software for industrial machinery used to process plastics; software for industrial machinery which monitors, analyses, controls and runs industrial processes, namely, processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; software for industrial machinery which monitors, analyses, controls and runs, industrial processes, namely, processing plastics; software for operating industrial machinery used to process powders and handle, process, and transport bulk materials, namely, loose or granular materials; software for operating industrial machinery used to process plastics; computer hardware and software for industrial machinery that dictates the parameters of operational processes, namely, temperature, pressure, speed, vibration, weight, time, alarm notifications, warning notifications, and input resource management; all the aforesaid goods only in relation to machines for mechanical process engineering and installations consisting thereof and machines for processing plastics and installations consisting thereof and not for power distribution installations operated with nominal voltages of more than 1000 v or parts therefor.

Services

Class 42

Development of computer software for use with programmable controllers; design and development of computer software for process control; design, development and programming of computer software; creation of control programs for automated measurement, assembly, adjustment, and related visualisation; software creation; software development; development of computer software application solutions; development of virtual reality software; creation of control programs for electric operation control and drive modules; design and development of computer software for evaluation and calculation of data; design and development of virtual reality software; engineering services for applications on large and medium-sized computer systems; engineering services relating to computer programming; programming of computer software for reading, transmitting and organising data; programming of computer software for evaluation and calculation of data; software design and development; software engineering; software development, programming and implementation; Engineering services for others in the fields of mechanical engineering, electrical engineering, civil engineering, software design engineering, software testing engineering, software systems integration engineering; Engineering services for others in the fields of industrial machinery and industrial manufacturing facilities for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; Engineering services for others in the fields of industrial machinery and industrial manufacturing facilities for processing plastics; Engineering services for others in the fields of industrial machinery and industrial operational processes; Engineering services for others in the fields of data processing technology; engineering consultancy services in the field of industrial machinery and industrial manufacturing facilities for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; engineering consultancy services in the field of industrial machinery and industrial manufacturing facilities for processing plastics; engineering consultancy relating to industrial machinery and industrial operational processes; research in the fields of mechanical, electrical, computer, and civil engineering; engineering research in the field of industrial machines and operational processes for processing powder, and handling, processing, and transporting bulk materials, namely, loose or Page 4 of 5 granular materials; engineering research in the field of industrial machines and operational processes for processing plastics; engineering services relating to data processing; engineering services in the field of industrial machines and operational processes for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; engineering services in the field of

industrial machines and operational processes for processing plastics; engineering services relating to data processing technology; engineering services relating to automatic data processing; engineering services for the design of machinery; engineering consultancy relating to manufacture; engineering consultancy relating to data processing; mechanical engineering; engineering services relating to information technology; engineering and computer-aided engineering services for designing and operating machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; engineering and computer-aided engineering services for designing and operating machinery for processing plastics; engineering services for designing and operating machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; engineering services for designing and operating machinery for processing plastics; information technology services, namely, providing computer and computer network support for machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; information technology services, namely, providing computer and computer network support for machinery for processing plastics; consultancy related to scientific and technological services in the field of machinery for processing powder, and handling, processing, and transporting bulk materials, namely, loose or granular materials; consultancy related to scientific and technological services in the field of machinery for processing plastics; none of the aforesaid services in connection with power distribution installations that are operated with nominal voltages of more than 1000 v, or parts therefor; all the aforesaid services only in relation to machines for mechanical process engineering and installations consisting thereof and to machines for processing plastics and installations consisting thereof.

Goods**Class 09**

(1) Downloadable digital visual recordings and audiovisual recordings featuring music and animation; downloadable and recorded computer programs for video and computer games; interactive video game programs; downloadable digital audio and visual recordings featuring live-action entertainment, animated characters; downloadable digital art; downloadable software for creating, exchanging, editing, viewing, storing, accessing, accepting, broadcasting, trading, transacting, sending, receiving, and transferring video games, digital collectable assets; downloadable graphics featuring content in the fields of movies, videos, video games, television, music and art as crypto collectibles and block chain-based non-fungible assets for use on block chain-based non-fungible asset networks in the metaverse and other online virtual worlds; downloadable computer software for generating non-fungible tokens in the nature of artwork, drawings, audio, video, images, text, animations, still images, moving images, music, video games, playing cards, card games, tickets, digital multimedia content, intellectual property, written work and in-game items; cases for computers, smartphones, headphones, headsets and gaming devices; downloadable virtual reality game software; downloadable augmented reality game software; downloadable mixed reality game software; downloadable electronic game software; downloadable video games and game applications; downloadable software tools for facilitating the development and operation of electronic games and video games; downloadable software for playing virtual reality games, augmented reality games, and mixed reality games; downloadable computer software for the collection, analysis, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information in the field of music, animation, live-action entertainment, and animated characters; downloadable software that enables users to search for, purchase, download, and launch game software and related updates, modifications, addons, and expansions; downloadable software that enables users to organize, schedule, and host online gaming events, tournaments, and play sessions; downloadable software that enables users to engage in social networking, host online games and game lobbies, create online avatars, and communicate with one another by text, audio, and video; downloadable software tools for modifying the rules, art assets, and user interface (ui) of game software; downloadable software

for streaming audio and video recordings featuring original two-dimensional and three-dimensional characters, text and graphics, and for integrating streamed audio and video recordings featuring original two-dimensional and three-dimensional characters, text and graphics in other software applications; downloadable software that enables users to access online forums and chat rooms; downloadable software for monitoring, storing, and tracking gameplay activity, and displaying reports on related achievements, events, and milestones; computers; computer hardware; computer peripherals, namely digital cameras, computer keyboards, modems, computer mice, computer printers, computer scanners, computer speakers, and video recorders.

Class 25

(2) Clothing, namely, shirts, pants, coats, jackets, t-shirts, polo shirts, sweatshirts, sweaters, hoodies, shorts; headwear, namely, hats, caps; footwear, namely, shoes, boots, sandals, socks and slippers; accessories, namely, scarves, neckties, socks, gloves, and belts.

Class 28

(3) Collectible toy figures; molded toy figures; toy action figures; toy figures; toy models; molded toy figure blanks, namely, blank molded toy figures for further stylization by artists; blank toy figures for further stylization by others; toy animals and accessories therefor; designer toys in the nature of fanciful animal or character figures and accessories therefor; fantasy character toys; designer toys, namely, toy figures to be painted-on, dressed, accessorized and otherwise completed by artists, designers and celebrities; collectibles, namely, limited edition toy figures; cases for carrying and protecting molded toy figures; cases for designer toy figures; customized molded toy figures with features and accessories unique to an individual, character or concept; plush toys; action figures; balls; basketballs; playing cards; trading cards; skateboards; skateboard decks.

Services

Class 41

(1) Entertainment services, namely, providing non-downloadable games, television shows and films via a website; entertainment services in the nature of development, production and post-production of multimedia entertainment recordings featuring original two-dimensional and three-dimensional characters, text and graphics; entertainment services, namely, providing temporary use of non-downloadable video games and short television shows; providing entertainment information in connection with original two-dimensional and three-dimensional characters, via a website; entertainment services, namely, providing entertainment information relating to audiovisual recordings in the field of music, animation, live-action entertainment, and animated characters, and computer graphics; entertainment services, namely, providing on-line, non-downloadable digital collectibles, namely, photos, images and videos; entertainment services, namely, providing on-line, non-downloadable digital collectibles, namely, artwork, drawings, audio, video, images, text, animations, still images, moving images, music, video games, playing cards, card games, tickets, digital multimedia content, intellectual property, written work and in-game items authenticated by non-fungible cryptographic tokens (NFTs) via a blockchain network, in the field of entertainment; entertainment services, namely, providing interactive social games for recreational, leisure, or entertainment purposes via a website; production and provision of digital collectibles in the nature of online non-downloadable interactive media, video clips, photography, music, statistics, data, graphics, or visual effects, represented by non-fungible cryptographic tokens via a blockchain network, in the field of entertainment; entertainment services, namely, delivering blockchain-based experiences and digital collectibles represented by non-fungible tokens via a block chain network featuring photos, images, videos and virtual experiences; production and provision of digital collectibles in the nature of online non-downloadable interactive

media, video clips, photography, music, graphics, or visual effects represented by non-fungible tokens via a block chain network; entertainment services, namely, providing entertainment programs and content, namely, online non-downloadable movies, television programs, video clips, graphics, musical recordings, and information via the Internet, electronic communications networks, computer networks, wireless communications networks and online streaming channels; entertainment services, namely, providing non-downloadable movies, television shows and music via a video-on-demand service; interactive online entertainment in the nature of a website containing non-downloadable photographic, video, audio and prose presentations, video clips, music clips, and other multimedia materials; providing entertainment information in connection with original two-dimensional and three-dimensional characters and information about multimedia entertainment recordings featuring original two-dimensional and three-dimensional characters, text and graphics via social networks; providing a wide variety of general interest entertainment information relating to motion picture films, television programs, musical videos, musical recordings, film clips, photographs, digital artwork, moving images, via a website; presentation of films, motion pictures, television and radio programs, sound and video recordings, and music recordings, via television, cable and satellite television, and a global computer network; entertainment services in the nature of production of non-downloadable entertainment videos; entertainment services, namely, providing online non-downloadable musical sound recordings and music video recordings; providing entertainment news and information relating to electronic games, video gaming, and e-sports; online journals, namely, blogs in the field of electronic games, video gaming, and e-sports; consulting, advisory, and information services related to the aforesaid.

Class 42

(2) Providing online non-downloadable software for creating, exchanging, editing, viewing, storing, accessing, broadcasting, trading, sending, transferring, transacting, receiving, accepting and transmitting visual recordings and audiovisual recordings featuring music and animation; providing online non-downloadable software for creating, exchanging, editing, viewing, storing, accessing, broadcasting, trading, sending, transferring, transacting, receiving, accepting and transmitting musical sound recordings and musical video recordings; providing a technology that enables users to create, exchange, edit, view, store, access, broadcast, trade, send, transfer, transact, receive, accept, and transmit non-fungible tokens (NFTs) and tokens in the nature of artwork, drawings, audio, video, images, text, animations, still images, moving images, music, video games, playing cards, card games, tickets, digital multimedia content, intellectual property, written work and in-game items via a website; non-downloadable virtual goods, namely, digital collectible images using non-fungible tokens and block chain technology; authentication and certification of data relating to non-fungible tokens via block chain; providing temporary use of online non-downloadable software for use in connection with programming, accessing synchronous and asynchronous communication, downloading, and streaming information, audio recordings, videos, audiovisual recordings, digital text files, digital image files, digital multimedia recordings, and live-streamed audio and video recordings of live events in the fields of sports, athletics, business, movies, videos, television and entertainment; cloud computing provider services for general storage of electronic data, namely audio content, video content, audiovisual content, text, images, digital media, multimedia, and live-streamed content in the field of entertainment; providing online non-downloadable software for managing and validating digital artwork assets, digitized asset, and utility token transactions; platform as a service (PAAS) featuring computer software platforms for users to creating, exchanging, editing, viewing, storing, accessing, accepting, broadcasting, trading, transacting, sending, receiving, and transferring non-fungible tokens (NFTs) tokens in the nature of artwork, drawings, audio, video, images, text, animations, still images, moving images, music, video games, playing cards, card games, tickets, digital multimedia content, intellectual

property, written work and in-game items; providing temporary use of non-downloadable virtual reality game software for users to experience virtual reality visualization, manipulation and immersion; platform as a service (PaaS) services featuring computer software platforms for use in software development, video game development, and the creation, development and operation of game and non-game worlds, online universes, and metaverse environments; software as a Service (SaaS) featuring computer software for playing games in augmented reality and virtual reality for online virtual worlds; providing online, non-downloadable software development software, video game development software, and software for creating game and non-game worlds, online universes, and metaverse environments, all of which use virtual reality, augmented reality, extended reality, mixed reality and metaverse technology; computer services, namely, creating an online community for users to access metaverse platforms; hosting an online community website featuring game and non-game worlds, online universes, and metaverse environments; providing temporary use of non-downloadable software that enables users to communicate with and offer rewards and exclusive digital content, namely audio recordings, videos, audiovisual recordings, digital text files, digital image files, and digital multimedia recordings in the field of music, animation, live-action entertainment, and animated characters to their customers via a website; non-downloadable video game software; video game development; design and development of video games and computer game software; providing online non-downloadable software tools for facilitating the development and operation of electronic games and video games; providing online non-downloadable software for the collection, analysis, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information in the field of music, animation, live-action entertainment, and animated characters; providing online non-downloadable software that enables users to search for, purchase, download, and launch game software and related updates, modifications, addons, and expansions; providing online non-downloadable software that enables users to engage in social networking, host online games and game lobbies, create online avatars, and communicate with one another by text, audio, and video; providing online non-downloadable software tools for modifying the rules, art assets, and user interface (UI) of game software; providing online non-downloadable software for streaming audio and video recordings featuring original two-dimensional and three-dimensional characters, text and graphics, and for integrating streamed audio and video recordings featuring original two-dimensional and three-dimensional characters, text and graphics in other software applications; providing online non-downloadable software that enables users to access online forums and chat rooms; providing online non-downloadable software for monitoring, storing, and tracking gameplay activity, and displaying reports on related achievements, events, and milestones; providing online non-downloadable video game software for playing games in virtual reality, augmented reality, and mixed reality environments; providing an online platform that gives users the ability to create customized web pages featuring user-defined information via a website; services for the installation, maintenance, customization, updating, and repair of computer software; technical support services, namely, troubleshooting of computer software problems; cloud computing provider services for general storage of electronic data; electronic data back-up services; software design and development; consulting, advisory, and information services related to the aforesaid; providing online non-downloadable software for providing access to crypto-collectibles, non-fungible tokens and other application tokens; provision of online, non-downloadable web and mobile video-game computer program featuring in-game virtual currency, tokens and currency.

Goods

Class 09

(1) Downloadable software for arranging, engaging, scheduling, managing, obtaining, booking, and coordinating travel, transportation of general consumer goods, freight and passengers, ride-hailing rides, and delivery of general consumer goods, food and groceries; downloadable software for the scheduling and dispatching of motorized vehicles for passenger and freight transport and delivery of general consumer goods, food, and groceries; downloadable software for monitoring, managing, and tracking delivery of general consumer goods by truck and autonomous vehicles; downloadable software for requesting and ordering delivery services, namely delivery of general consumer goods, food and groceries by truck and autonomous vehicles; downloadable software for planning, scheduling, controlling and monitoring on transportation of general consumer goods and providing information related thereto; downloadable software for providing tracking services and information concerning pick-up and delivery of assets and general consumer goods in transit, namely information about vehicles and drivers; downloadable software for accessing online grocery and retail store services and providing information related thereto via global computer and communications networks; downloadable software for providing and managing delivery of general consumer goods, food, and groceries via global computer and communications networks; downloadable real-time map software for tracking vehicles, trips, and deliveries; downloadable software for displaying transit routes; downloadable software for providing information on available

transportation and delivery of goods; downloadable software featuring online information about food, grocery, and general consumer products via global computer and communications networks; downloadable software for users to administer, access, monitor, and manage loyalty programs and rewards; downloadable software for earning, tracking, and redeeming loyalty rewards, points, and discounts; downloadable software for issuing, setting up, distributing, and redeeming promotions, coupons, discounts, deals, vouchers, rebates, rewards, incentives, and special offers to customers; computer hardware and recorded software for the autonomous driving of motor vehicles; downloadable software in the nature of vehicle operating system software; downloadable software for autonomous vehicle operation, navigation, steering, calibration, and management; downloadable software for vehicle fleet management, namely, tracking fleet vehicles for commercial purposes; downloadable computer software for use as an application programming interface (API) for use in the fields of artificial intelligence, machine learning, deep learning, and autonomous driving; recorded software and computer hardware for vehicle fleet launching, coordination, calibrating, direction, scheduling, booking, dispatching, and management; computer hardware and recorded software for use with accessing and operating vehicle cameras; recorded software utilizing artificial intelligence (AI), machine learning, and deep learning for data processing, personalization of autonomous vehicles and their systems, performing predictive analytics, operating autonomous vehicles, their systems, their devices, and their machinery; recorded software for data processing and contextual prediction, personalization of autonomous vehicles and their systems, and performing predictive analytics in the fields of artificial intelligence (AI), machine learning, and deep learning; downloadable computer programs and downloadable software for operating autonomous vehicles, their systems, their devices, and their machinery in the fields of artificial intelligence (AI), machine learning, and deep learning; recorded software and computer hardware for operating autonomous vehicles, their systems, their devices, and their machinery; computer hardware and recorded software for operating vehicle cameras; downloadable computer software for use in operating and calibrating lidar; computer hardware for operating autonomous vehicles; navigational instruments, namely, cameras, sensors, namely, temperature sensors, distance sensors, proximity sensors, LiDAR sensors, radar sensors, and sensors for determining the presence, location, speed, and heading of objects, and ultrasonic detectors, indicators for detecting speed, objects, and the speed, trajectory, and heading of objects, lasers, namely, laser rangefinders for determining the presence of objects and the speed, trajectory, distance, and heading of objects, optical equipment, namely, optical distance meters, optical rangefinders, cameras, and video displays to measure reflectivity, generate data points, and detect both distances and objects, radar equipment, namely, radar detectors, receivers, and transmitters, microphones, ultrasonic detectors, and environmental sensors for determining position, velocity, direction, and acceleration for autonomous vehicles; laser object detectors for use on vehicles; laser devices for sensing objects, namely laser object detectors for use on vehicles; laser devices for sensing outdoor terrain, namely laser terrain detectors for use on vehicles; audio sensors and analyzers for use on vehicles; laser device for sensing distance to objects in the nature of laser rangefinders; electric sensors for determining position, velocity, direction, and acceleration; perimeter sensors in the nature of sensors that measure the presence of objects in the environment and the speed, trajectory, and heading of objects; environmental sensors for measuring the presence of objects in the environment and the speed of objects; vehicle sensors, namely, environmental sensors for measuring the presence of objects in the environment and the speed of objects; sensors for determining position, velocity, direction, and acceleration; vehicle safety equipment and hardware, namely, electronic signal receivers, brake controllers, cameras, and electronic sensors for monitoring vehicle functions, the presence of objects in the environment, and the speed, trajectory, and heading of objects; vehicle detection equipment and hardware, namely, cameras, global positioning system (GPS) receivers, and

electronic sensors for monitoring vehicle functions, the presence of objects in the environment, and the speed, trajectory, and heading of objects; video devices for traffic detection; safety and driving assistant systems comprised of sensors for determining position, velocity, direction, and acceleration of land vehicles; cameras; cameras for use with vehicles; downloadable data sets in the field of machine perception and autonomous driving technology.

Class 12

(2) Self-driving transport vehicles; trucks; freight vehicles, namely, trucks and vans; shared transit land vehicles; freight vehicles in the nature of land vehicles; autonomous land vehicles and structural parts thereof.

Services

Class 35

(1) Business management and business operations in the field of transportation; freight logistics management, namely, business management in the field of logistics for the delivery of freight; providing business information via a website in the field of planning, coordinating, and tracking the transportation of goods, freight, people, and conveyances; providing business and commercial information via a website in the field of planning, coordinating, and tracking the transportation of people, and planning and scheduling shipments for users of transportation services; business data analysis for the compilation of business data for use in artificial intelligence, machine learning, deep learning, and autonomous driving; advertising the goods and services of others; promoting the goods and services of others; organization and management of discount programs that enable customers to obtain discounts on goods and services; administration of a customer loyalty program which provides discounted ride-hail rides; providing promotional information about discount and rewards programs for the goods and services of others via a website; administration of loyalty and rewards programs to incentivize engagement with a ride-hailing platform; charitable services, namely, organizing and conducting volunteer programs and community service projects.

Class 39

(2) Car rental services; truck rental services; rental of autonomous vehicles; truck transport; car transport; travel by land vehicles; transportation of passengers by trucks, automobiles, autonomous vehicles, and mass transit vehicles in the nature of autonomous buses; transport of general consumer goods by autonomous vehicles, trucks, freight vehicles in the nature of autonomous vehicles, and mass transit vehicles in the nature of autonomous buses; delivery of goods by cars, trucks, air, rail, autonomous vehicles, freight vehicles in the nature of autonomous vehicles, and mass transit vehicles in the nature of autonomous buses; delivery services by road; transportation and delivery services by autonomous vehicles; freight and cargo transportation services by autonomous trucks and autonomous vehicles, namely, autonomous cars, trucks, and freight vehicles in the nature of autonomous vehicles; freight transportation by autonomous trucks and autonomous vehicles, namely, autonomous cars, trucks, and freight vehicles in the nature of autonomous vehicles; supply chain logistics and reverse logistics services, namely, storage, transportation, and delivery of goods for others; providing autonomous vehicle booking services; travel arrangement, namely, arranging time-based ride-hailing; transportation services, namely, coordinating the pickup and dropoff of passengers at designated or directed locations; transportation management services for others, namely, planning, coordinating, and tracking the transportation of people and conveyances; providing transportation information in the field of autonomous driving; providing information regarding autonomous car transportation and delivery services and scheduling transportation services via a website; providing information in the field of autonomous driving transportation via a website; providing information regarding autonomous driving transportation services and bookings for transportation services via a website; providing

information in the field of delivery and bookings for delivery of food, groceries and general consumer goods via a website; providing information about transportation management services in the nature of transportation of goods, namely, about planning, coordinating, and tracking the transportation of conveyances via a website; charitable services, namely, providing transportation and delivery services of food, groceries and general consumer goods by road; transportation services, namely, fleet management services in the field of tracking of vehicle fleets; transportation services, namely, tracking, locating, and monitoring of vehicles for commercial purposes; transport in the nature of transportation logistics services, namely, arranging the transportation of goods for others; fleet management services in the nature of tracking, locating, and monitoring of fleet vehicles for commercial purposes; tracking, locating, and monitoring of transportation of persons and delivery of goods and packages in transit, for business purposes.

Class 42

(3) Providing online non-downloadable software for arranging, engaging, scheduling, managing, obtaining, booking, and coordinating travel, transportation of passengers by autonomous vehicles, freight transportation services by truck and autonomous vehicles, ride-hailing, deliveries, and delivery services; providing online non-downloadable software for use in the transportation industry, namely software for tracking, locating, and monitoring vehicle locations; providing non-downloadable online software for coordinating the transport and delivery of goods; providing online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, and booking transportation of passengers and deliveries; providing non-downloadable online software for providing and managing delivery services; providing non-downloadable online software for providing and managing delivery of consumer goods, food, and groceries; providing non-downloadable online software for accessing and viewing transit information, schedules, routes, and prices; providing temporary use of online non-downloadable real-time map software for tracking vehicles and deliveries; providing online non-downloadable software that enables users to request pickup and dropoff at designated or directed locations by autonomous vehicles, via a website; providing temporary use of online non-downloadable computer software for identifying trip delays and vehicle location; providing temporary use of online non-downloadable software for accessing information, making reservations for transportation and dispatching motorized vehicles; providing non-downloadable online software for issuing, setting up, distributing, redeeming, and accessing promotions, coupons, discounts, deals, vouchers, rebates, rewards, incentives, and special offers; providing non-downloadable online software for vehicle fleet management; software as a service (SaaS) services featuring computer software for use as an application programming interface (API) for use in building software applications in the fields of artificial intelligence, machine learning, deep learning, and autonomous driving; providing non-downloadable online software for vehicle coordination, navigation, calibrating, direction, and management for use with vehicle on-board computers; software as a service (SaaS) services featuring software for vehicle coordination, navigation, calibrating, direction, and management for use with vehicle on-board computers; providing online non-downloadable software for analyzing the location of and data related to transportation and deliveries; electronic monitoring and reporting of transportation fleet data using computers and sensors; providing online non-downloadable software for the autonomous driving of motor vehicles; providing non-downloadable online software for autonomous vehicle navigation, steering, calibration, and management; providing online non-downloadable software for visualization, manipulation, and integration of digital graphics and digital images; providing online non-downloadable software for utilizing artificial intelligence (AI), machine learning, and deep learning for data processing, personalization of autonomous vehicles and their systems, performing predictive analytics, operating autonomous vehicles, their systems, their devices, and their machinery; providing non-downloadable online software for use in operating and

calibrating lidar; providing non-downloadable online software used for data analytics in the field of autonomous driving transportation; providing online non-downloadable software used for data analytics in the field of transportation fleet management; providing online non-downloadable open source software for use in vehicle fleet data management; land and road surveying; surveying services and data collection and analysis in connection therewith; mapping services; providing non-downloadable online software for accessing location, GPS, and motion sensor data for safety and emergency response purposes; providing online non-downloadable software for requesting and receiving emergency assistance; providing online non-downloadable software for vehicle safety monitoring and incident detection; providing data sets in the field of machine perception and autonomous driving technology; providing information about autonomous-vehicle and machine-perception research services for others via a website; research, design, and development in the field of artificial intelligence hardware and software; research, design, and development in the field of autonomous hardware and software; research, design, and development in the field of perception of or the presence of people or objects; research, design, and development of computer hardware and software for use with vehicle on-board computers for monitoring and controlling motor vehicle operation; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware problems; computer hardware and software development for use with vehicle on-board computers for monitoring and controlling motor vehicle operation; research, design, and development of computer hardware and software for vehicle coordination, navigation, calibrating, direction, and management; research, design, and development of sensors and for structural parts thereof; research, design, and development of lasers for sensing objects and distance to objects, lasers for sensing indoor and outdoor terrain, lasers for measuring purposes, laser measuring systems, lidar (light detection and ranging apparatus), and laser equipment; advanced product research, design, and development in the field of artificial intelligence in connection with autonomous vehicles; design and development of computer hardware and software; research, design, and development of vehicle software; technological, scientific and research services in the field of computer robotics, self-driving car software and hardware, and autonomous vehicle software and hardware; providing virtual computer systems and virtual computer environments through cloud computing for the purpose of training self-driving cars, autonomous vehicles and autonomous robots; virtual testing of the functions of self-driving cars, autonomous vehicles and autonomous robots using computer simulations; creation, development, programming and implementation of simulation software in the field of self-driving cars, autonomous vehicles and autonomous robots; creation of simulation programs for autonomous vehicles.

Goods

Class 01

(1) Chemicals for use in the manufacture of solvents for scientific purposes; chemicals used in the manufacture of clothing, namely, anti-creasing agents for clothing and textiles, fabric protectants for clothing, and waterproofing chemical compositions for clothing; chemical ingredients for use in the manufacture of hair-care formulations; chemical ingredients for use in the manufacture of personal care formulations; chemical additives for use in the manufacture of food; chemical coatings for preserving foodstuffs; chemical compositions for preserving foodstuffs; chemical preservatives for food; diagnostic preparations for medical-scientific research use; diagnostic reagents for medical-scientific research use; active chemical ingredients for use in the manufacture of pharmaceuticals; chemical preparations for use in the manufacture of pharmaceuticals; active chemical ingredients for use in the manufacture of insecticides; chemical additives for use in the manufacture of fungicides and insecticides used in science, agriculture, horticulture and forestry; chemical intermediates for use in the manufacture of agricultural chemicals; biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; biological tissue specimens for use in scientific research;

biologically-engineered microbes for use in the production of industrial chemicals; chemical test paper; chemical test strips for testing swimming pool water; chemical reagents for use in pregnancy and ovulation tests; aquarium chlorine test kits; soil test kits; water test kits

Class 05

(2) Diagnostic reagents and agents for medical diagnostic use; diagnostic reagents for medical use; diagnostic test reagents for medical purposes; pH test strips, namely, test strips for use in measuring the pH level in human bodies for purposes of determining levels of alkalinity in the body; blood glucose test strips; medical diagnostic reagents; diagnostic chemical reagents for medical purposes

Class 09

(3) Mobile phone cases; mobile phone cases with slots; personal security alarms; personal safety alarms; personal security alarms that connect to a wireless communications network; downloadable mobile application software for safety and security of property and individuals; security alarm systems, namely, burglar alarm system and personal emergency response systems; personal security alarms; alarms and instruments, namely, security alarms, smoke alarms, theft and break-in and panic alarms and assault alarms, personal alarms, anti-intrusion alarms, anti-theft alarms, other than for vehicles, burglar alarms; door alarms, window alarms; control panels for security alarms; remote controls for operating alarm systems; emergency signal transmitters; emergency alert paging system consisting of led message boards with text messaging capabilities; call processors; acoustic and optical alarm devices, namely, alarm horns, alarm strobe lights, electronic warning bells, and emergency warning lights; security software; downloadable software for the home automation of electric control systems for home security systems; facilities management software to control building environmental access and security systems; audio monitors; video monitors; infrared cameras; motion-activated cameras; security cameras; camera sensors; infrared sensors; motion sensors; vehicle tracking devices; vehicle tracking systems; portable global positioning system (GPS) device consisting of position sensors; sensors, namely, smoke sensors, motions sensors, position sensors, optical sensors, proximity sensors, and noisemeters, combustible gas concentration detectors, hand-held device comprised of chemical and heat sensors for the detection of explosives, radiation detectors, carbon dioxide detectors, carbon monoxide detectors; television cameras; television receivers; television monitors; video monitors; television and video recorders; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices and televisions and monitors; security software for security management and to support surveillance and reception services; electric and electronic video surveillance installations; video surveillance cameras; video surveillance systems; downloadable computer software for conducting safety inspections and for detection of breach of security incidents; computer software and mobile applications for emergency call management; downloadable application for mobile phones that allows users to access and search for emergency assistance services; computer application software for online chatting and messaging; downloadable instant messaging software; downloadable instant messaging software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts, and voice messages; computer software that monitors and analyzes data to detect trip irregularities; emergency notification system software; emergency notification system software for providing alerts, push-notifications, and other remote notifications to users and emergency response entities; emergency notification system software for accessing a communication network and allowing audio and data communication between users and emergency and support responders; computer software for accessing gps and motion sensor data for safety and

emergency response purposes; software for managing and tracking vehicles; real-time map software for tracking vehicles

Class 13

(4) Sprays for personal defence purposes; chemical-based personal security sprays.

Class 21

(5) Covers for barware, namely, beverage glassware and utensils for preparing beverages; covers specially adapted for cups, flasks, glasses, mugs, saucers, and steins; cup lids

Services

Class 35

(1) Online retail store services featuring personal security alarms, personal safety alarms, personal security devices, personal security cameras, personal defence tools, personal defence weapons, and clothing, management and operation of voice-activated professional emergency helpline for care recipient; wholesale and retail services relating to the sale of chemicals used in industry and science, biological preparations for use in industry and science; wholesale and retail services relating to the sale of chemically treated test strips, other than for medical purposes; wholesale and retail services relating to the sale of wristbands (test strips) treated with chemical reagents for testing purposes, diagnostic reagent strips, diagnostic test strips for the detection of chemical substances, diagnostic reagent strips, diagnostic test strips for the detection of chemical substances, mobile phone cases, mobile phone cases with slots, personal security alarms, personal safety alarms, personal security alarms that connect to a wireless communications network, downloadable mobile application software for safety and security of property and individuals, security systems; wholesale and retail services featuring alarms and instruments, namely, smoke alarms, personal alarms, anti-intrusion alarms, anti-theft alarms, other than for vehicles, burglar alarms, door alarms, and window alarms; wholesale and retail services featuring control panels for security alarms, remote controls for operating alarm systems, emergency signal transmitters, emergency alert paging system consisting of led message boards with text messaging capabilities, and call processors; wholesale and retail services featuring security surveillance robots; wholesale and retail services featuring acoustic and optical alarm devices, namely, alarm horns, alarm strobe lights, electronic warning bells, and emergency warning lights; wholesale and retail services relating to the sale of computer software, solely with regard to protecting against robberies, attacks, physical damage and theft; wholesale and retail services featuring audio monitors, video monitors, infrared cameras, motion-activated cameras, security cameras, camera sensors, infrared sensors, and motion sensors; wholesale and retail services featuring vehicle tracking devices; vehicle tracking systems; portable global positioning system (GPS) device consisting of position sensors; wholesale and retail services featuring sensors, namely, sensors for registering [smoke], motions sensors, position sensors, optical sensors, proximity sensors, and noisemeters; wholesale and retail services featuring combustible gas concentration detectors, hand-held device comprised of chemical and heat sensors for the detection of explosives, radiation detectors, carbon dioxide detectors, and carbon monoxide detectors; wholesale and retail services featuring television cameras, television receivers, television monitors, video monitors, television and video recorders, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location, and computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices and televisions and monitors; wholesale and retail services relating to the sale of security software for security management and to support surveillance and reception services; wholesale and retail services featuring electric and electronic video surveillance installations, video surveillance cameras, and video surveillance systems,

computer software for safety and incident detection, computer software for emergency assistance, computer software that enables users to communicate with others, computer software that monitors and analyzes data to detect trip irregularities, emergency notification system software; wholesale and retail services relating to the sale of emergency notification system software for providing alerts, push-notifications, and other remote notifications to users and emergency response entities; wholesale and retail services relating to the sale of emergency notification system software for accessing a communication network and allowing audio and data communication between users and emergency and support responders; wholesale and retail services relating to the sale of computer software for accessing gps and motion sensor data for safety and emergency response purposes; wholesale and retail services relating to the sale of software for managing and tracking vehicles, real-time map software for tracking vehicles

Class 45

(2) Personal security services; security services for people, buildings and goods; security monitoring services; monitoring of security systems; monitoring of alarms; provision of information relating to the operation of intruder detection alarms; burglar, security and fire alarm monitoring services; surveillance services; tracking of stolen property; providing information about personal safety, home security and crime prevention; personal security consultation; control, supervision and monitoring of alarms; night security and night guards; lock opening services; services provided by emergency centres, namely monitoring of theft, security and protective alarms and support in the event of an incident; security information, solely with regard to protecting against robberies, attacks, physical damage and theft; searching for an individual's position (by means of radio telephones, satellite or other means of electronic communication); providing information via a website about options to maintain personal safety

Colour Claim

Colour is claimed as a feature of the trademark. The colours blue, gold, orange and red are claimed. The mark consists of a stylized design of a target formed by inward facing curved lines of various lengths. The first curved line is blue, followed by a gold curved line, then an orange curved line which transitions to red surrounding a red bullseye with seven variously sized red and orange lines with curved edges emanating from the center of the bullseye and the upper right edge of the curved red band.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the words "PHYSIO On The RUN" arranged in three stacked lines forming a square shape. "PHYSIO" and "RUN" appear in bold, uppercase black font. The phrase "On The" appears in a smaller, italicized black font, centered between two red horizontal lines. The letter "R" in Run is stylized to include a 90 degree bend in the first stem to indicate a knee, with both vertical stems including perpendicular extensions at the bases to indicate feet, forming the appearance of legs in motion, evoking the concept of movement and mobility. The logo uses a black and red colour palette and appears on a white or transparent background.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, red, pink, orange, yellow, green, blue, indigo, violet, grey are claimed as a feature of the mark. The mark consists of the words COLOUR BUBBLE (without spacing) shaded to match the colour transition in the following order: from blue (letter "C") to dark blue (letter "O") to indigo (letter "L") to violet (letter "O") to pink (letters "U" and "R") to red (letter "B") to orange (letter "U") to orange-yellow (first letter "B") to yellow-green (second letter "B") to light-green (letter "L") to green (letter "E"). Each letter in the design is shaded in grey. The background of the entire design is white, all surrounded by a blue outline tracing the letters.

Colour Claim

Colour is claimed as a feature of the trademark. Principal Part: Outer swirl is blue (R:28 G:98 B:180) (HEX: #1c62b4) Principal Part: Inner swirl is yellow (R:249 G:224 B:69) (HEX: #f9e045) Principle Part: Center background is gray (R:165 G:167 B:157) (HEX: #a5a79d) Principle Part: Joining hands/arms have gradient colors as described below. The hands/arms are fully outlined in dark gray (HEX: 060807) from top to bottom. The gradient colors of dark gray are shaded into the joining hands/arms from top to bottom and throughout the defining parts of the hands/arms. The top part of the hands/arms, just inside the dark gray outline (HEX: 060807), have gradient shades of the same yellow color that's in the principal part of the inner yellow swirl (HEX: #f9e045). The yellow gradient shade on the inner top part of the hands/arms gives way to gradient shades of the dark gray outline (HEX: 060807) until mid way into the hands/arms. The bottom part of the hands /arms, just inside the dark gray outline (HEX: 060807), have gradient shades of the same blue color that's in the principal part of the outer blue swirl (HEX: #1c62b4). The blue gradient shade on the inner bottom part of the hands/arms gives way to gradient shades of the dark gray outline (HEX: 060807) until mid way into the hands/arms.

Class 09

apparatus for adjusting headlights; applications for mobile phones in the form of downloadable sports games; artificial intelligence software for high-altitude platform systems; artificial intelligence-based robots for aerospace exploration and research; audio amplifiers; audio analyzers; audio and video mixing desks; audio and video receivers; audio cable connectors, splitters and plugs; audio equalizers; audio equipment for vehicles, namely, loud speakers for automotive audio systems; audio mixers; audio processors; audio receivers; audio speaker enclosures; audio speakers; audio speakers for automobiles; audio transformers; audio transmitter units; audio-video receivers; audiovisual headsets for playing video games; audiovisual receivers; augmented reality computer game software; augmented reality computer games for use on cellular phones; augmented reality computer games for use on mobile phones; augmented reality computer games for use on notebook computers; augmented reality computer games for use on personal computers; augmented reality computer games for use on smart phones; augmented reality computer games for use on tablet computers; augmented reality computer hardware; augmented reality game software; augmented reality glasses; augmented reality glasses operating software; augmented reality goggles; augmented reality headsets; augmented reality software for cinematography; augmented reality software for creating maps; augmented reality software for medical teaching; augmented reality software for pilot training; augmented reality software for use in mobile phones for integrating electronic data with real world environments; augmented reality training simulation software in the field of aviation; augmented reality training simulation software in the field of cinematography; augmented reality software for playing computer games; batteries for electric bicycles; batteries for electric boats; batteries for electric gyrowheels; batteries for electric hoverboards; batteries for electric monowheels; batteries for electric personal transporters; batteries for electric skates; batteries for electric snowmobiles; batteries for electric watercraft; batteries for electric wheelchairs; batteries for four-wheeled electric scooters; batteries for motorized scooter boards; batteries for off road vehicles; batteries for on road vehicles; batteries

for personal warming devices; body armor; body cameras; body harnesses for support when lifting loads; bullet proof glass; bullet resistant vests; bullet-proof clothing; bullet-proof personal protection shields in the form of a backpack; bullet-proof vests; bullet-proof waistcoats; bullet-resistant face masks; bullet-resistant vests; bullet-resistant waistcoats; bulletproof clothing; bulletproof vests; camera monopods; camera systems for drones; cases adapted for mobile phones; cases for mobile phones; cases for smartphones; cases for snow goggles; cell phone cases; cell phone holders; cell phone neck-straps; cell phone straps; cell phone wallets; cellular phone cases; clip-on flashing safety lights; combination video players and recorders; communication software namely, video and audio conferencing software; communication software to access data stored on an oximeter and transfer data to another device; communications computers; communications software for monitoring and managing electrical charging stations and networks; computer application software for accessing an online marketplace for buyers and sellers of goods and services; computer application software for live streaming user-generated audio and video messages on an online social networking portal via the internet; computer application software for mobile phones that allows users to remotely manage and control advertisements on electronic advertising displays; computer application software for mobile phones to allow users to view menu selections and pay for orders by scanning a quick response code; computer application software for online chatting and messaging; computer application software for smart phones, tablets and handheld computers, namely, software for users to obtain, access and coordinate physical fitness training; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software in playing video and computer games; computer application software that gives computer users the ability to upload, exchange and share videos via the internet; computer application software to allow users to perform online payment transactions; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer game cartridges; computer game programmes; computer game programs downloadable via the Internet; computer game software downloadable from a global computer network; computer game software for game machines; computer game software for playing online games of skill; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer games downloadable from a global computer network; computer games for use on cell phones and other handheld wireless devices; computer games for use on gaming machines; computer games for use on mobile and cellular phones; computer games for use on notebook computers; computer games for use on personal computers; computer games for use on tablet computers; computer gaming software for recreational game playing purposes; computer hardware and software to view virtual images in augmented reality; computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices and televisions and monitors; computer keyboards; computer keypads; computer mice; computer mouse; computer mouse mats; computer mouse pads; computer programs for processing digital music files; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; computer programs for use in teaching children to read; computer software applications for mobile phones and handheld computers for coordinating live video and social media feeds; computer software applications for mobile phones and handheld computers for producing notifications in the field of sports and sports competitions; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating computer games; computer software for creating music; computer software for creating video games; computer software for customizing wireless network

access for end users; computer software for digital animation and special effects of images; computer software for editing images, sound, and video; computer software for graphic designing and editing; computer software for image processing; computer software for inventory management; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing and controlling shipment information of consumer goods in the field of purchase order processing for shipping; computer software for operating computer games on the internet; computer software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; computer software for use in creating and designing websites; computer software for use in generating streaming advertisements on the web sites of others; computer software for video editing; computer software for visual art designing and editing; computer software platforms for social networking; computer software to create, customize, print, export, and e-mail purchase orders; computer video games; computer video games downloaded via the internet; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer whiteboards; crash helmets; crash helmets for motorcyclists; cycle computers; cycle meters; cycling computers; cyclists' glasses; cyclocomputers; cyclometers; cyclotrons; data gloves for wireless interaction with a computer or remote device; data gloves incorporating haptic sensors; data gloves incorporating motion sensors; data gloves incorporating position sensors; digital karaoke mixers; digital video eyewear; digital video players; digital video recorders; digital video recording software for IP (Internet protocol) video surveillance; distance sensors; dive computers; dive skins; divers masks; divers' masks; diving boots; diving gloves; diving goggles; diving heel straps; diving helmets; diving masks; diving regulators; diving snorkels; diving suits; diving weights; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable application for mobile phones to download video games via the internet; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to take and edit photographs; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for mobile phones to download and play video games; downloadable applications for mobile phones to download music, movie and television graphics; downloadable applications for mobile phones to download video games; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the downloading and playing of video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of music; downloadable artificial intelligence software for digital image to digital image generation; downloadable artificial intelligence software for digital video generation; downloadable audio and video recordings featuring computer video game play; downloadable audio and video recordings of musical performances and sports competitions; downloadable computer and video game software and programs; downloadable computer application interface [API] integration software for online marketplaces; downloadable computer application software for developing computer games; downloadable computer application software for maintaining and updating computer games; downloadable computer application software for playing video games; downloadable computer programs for video and computer games; downloadable computer software for assisting developers in creating interactive computer games; downloadable computer software for

broadcasting and streaming of digital media content sessions; downloadable computer software for creating digital images; downloadable computer software for creating music videos; downloadable computer software for searching databases featuring songs, music and audio content; downloadable computer software for smart home hubs for the operation of smart home devices; downloadable computer software for use in creating avatars for playing games over the internet; downloadable computer software in the form of a mobile application for accessing and viewing data, namely, for obtaining advice and assistance relating to sports and physical activities; downloadable course materials in the form of digital files in the fields of natural health products and services of others and the marketing and sale of such products and services; downloadable course materials in the form of digital files in the fields of natural health products and services of others and the use of such products and services; downloadable course materials in the form of digital files in the fields of sports nutrition products of others; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the health benefits of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the manufacture of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the marketing and sale of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the use of such products; downloadable digital audio recordings featuring live musical performances; downloadable digital audio recordings featuring music; downloadable digital audio recordings featuring musical sound recordings; downloadable digital audio recordings of television shows and movies; downloadable digital content being movies; downloadable digital content being music audios; downloadable digital content being music videos; downloadable digital content being photos; downloadable digital content being self-created pictures; downloadable digital content being videos; downloadable digital media content being music audios; downloadable digital media content being music videos; downloadable digital media content being self-created pictures; downloadable digital media content being videos; downloadable digital music; downloadable digital music provided from the Internet; downloadable digital video recordings featuring music and dance; downloadable educational software for children; downloadable educational video games; downloadable electronic games; downloadable electronic games for use with mobile telephones, handheld computers and tablet computers; downloadable electronic publications in the nature of e-books, newsletters, pamphlets, and articles in the field of computer games; downloadable electronic publications in the nature of magazines in the field of video games; downloadable electronic publications namely magazines in the field of computer games and video games; downloadable interactive entertainment software for playing computer games; downloadable interactive entertainment software for playing video games; downloadable interactive multimedia computer game programs for playing video and computer games; downloadable interactive video games; downloadable mobile applications for analyzing and reporting self-assessment of illness; downloadable mobile applications for playing fantasy sports; downloadable mobile applications for sports wagering; downloadable motion pictures; downloadable music; downloadable software and downloadable mobile application software for the automation of electric control systems for lighting; downloadable software application for a mobile device or computer that provides customized information about the functions and features of a motor vehicle; downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle; downloadable software for uploading photos; downloadable software in the nature of an application in the field of exercise and fitness; downloadable video game assets sold individually, namely downloadable digital files containing videogame avatars, clothing, pets, vehicles, items, tools, toys, terrain, 3D objects, textures, meshes, animations, sound effects, music, emotes, and gestures for use in video game development; downloadable video game characters; downloadable video game programs;

downloadable video games; downloadable video games via a global computer network; downloadable video recordings featuring music videos; downloadable virtual assistant software for the purchase of home entertainment electronics; downloadable virtual reality game software; dust protection masks; dust protective goggles; dustproof glasses; ear phones; ear strap for respiratory masks for the prevention of accident or injury; earphones and headphones; earphones and headsets for mobile phones; earphones for smartphones; effects pedals for use with electrical musical instruments; effects units for electric musical instruments; effects units for electric or electronic musical instruments; effects units for electronic musical instruments; electric and electronic effects units for musical instruments; electric and electronic musical effects equipment; electric batteries for powering electric vehicles; electrified fences; electrified rails for mounting spot lights; electronic control circuits for electronic musical instruments; electronic control gears [ECGs] for LED lamps and light fixtures; electronic control system for lighting systems; electronic controllers for use with augmented reality headsets; electronic controllers for use with virtual reality headsets; electronic door alarms; electronic door locks; electronic effects pedals for musical instruments; electronic effects pedals for use with musical instruments; electronic effects pedals for use with sound amplifiers; electronic flashing rescue flares; electronic game cartridges; electronic game programs; electronic game software; electronic game software for cellular phones; electronic game software for handheld electronic devices; electronic magnetostrictive equipment, namely, a wave generator, wave sensor and wave analyzer; electronic virtual reality gloves; emergency lights; emergency thermal blankets for retaining body heat; emergency thermal blankets for retaining body heat, not for medical purposes; eye glasses; eye shields for athletic use; eye shields for sports helmets; eye shields specially adapted for protective sports helmets; eyeglasses for children; eyeglasses for sports; eyeglasses, eyeglass frames, eyeglass cases; eyeglasses, sunglasses, diving and swimming goggles, cases, cords and chains for sunglasses and eyeglasses; eyewear for pets; eyewear, namely, sunglasses, eyeglasses and ophthalmic frames and cases therefor; face shields for athletic use; face shields for protective helmets; face shields for sports helmets; face-shields for protection against UV; fashion eyeglasses; fire alarms; fire beaters; fire blankets; fire escapes; fire extinguishers; fire protective clothing; fire protective footwear; fire-resistant clothing; fire-resistant flying suits; fire-resistant gloves; fireproof clothing; fireproof garments; gaming headsets adapted for use in playing video games; gaming headsets specially adapted for use in playing video games; garments for protection against fire; gesture recognition software; global positioning system (GPS) receivers; global positioning system (GPS) transmitters; Global Positioning System [GPS] transmitters; Global Positioning System receivers; gloves for protection against accidents; gloves for protection against electrical shock or fire; goggles for motorcyclists; goggles for protection against dust; goggles for scuba diving; goggles for skiing; goggles for snowboarding; goggles for snowmobiling; goggles for sports; goggles for swimming; goggles for use in sport; graphics decoders for audio karaoke systems; guitar amplifiers; hands-free headsets for cellular phones; hands-free headsets for mobile phones; hands-free holders for cellular phones; hands-free holders for mobile phones; hands-free kits for cellular phones; hands-free kits for telephones; head guards for sports; head mounted audio-visual display units containing integrated cameras and sensors; head mounted displays; head-mounted augmented reality displays; headsets for smartphones; headsets for use with computers; headsets for virtual reality games; helmet camera mounts; helmet cameras; helmet safety lights; helmets for bicycles; helmets for motorcyclists; humanoid robots having communication and learning functions for assisting and entertaining people; humanoid robots with artificial intelligence; humanoid robots with artificial intelligence for use in scientific research; illuminated signs used for advertising; inflatable apparatus for life-saving purposes; inflatable devices for life-saving purposes; inflatable jackets for use in life saving; inflatable lifeboats; intelligent virtual assistant [IVA] software; interactive computer application software for use in cell phones that enables users to connect

remotely with their vehicles to access vehicle information and control functions; interactive computer game programs; interactive entertainment computer software for video games; interactive multimedia computer game programs; interactive multimedia computer games; interactive touch screen terminals; interactive touchscreen terminals; karaoke amplifiers; karaoke machines; karaoke machines and programs for karaoke; karaoke microphones; karaoke players; keyboards for computers; keyboards for smartphones; keypads for cell phones; LCD large-screen displays; lcd monitors; LCD panels; lcd projectors; LCD televisions; LED display panels; LED displays; LED drivers; LED position sensors; life belts; life boats; life buoys; life jackets; life jackets for pets; life jackets, life vests; life rafts; life rafts for emergency use; life saving rafts; life vests; life-buoys; life-saving capsules for natural disasters; life-saving equipment, namely, backpacks equipped with airbags for protection against avalanches; life-saving rafts; lifeboats; lighting ballasts; lighting control panels; lighting control software for use in commercial and industrial facilities; lighting controls, light switches, and electric light dimmers; luminous road signs; luminous safety beacons; luminous safety beacons for use as a personal locator; luminous safety signs; luminous signs; luminous traffic signs; luminous vehicle breakdown warning beacons; luminous warning signs; masks for diving; masks for protection against dust; masks for scuba diving; masks for snorkelling; mixed reality glasses; mobile application software for providing access to an online marketplace; mobile application software for social networking services; mobile phone holders for vehicles; mobile phone straps; motion picture films; motion picture projectors; motion sensors; motion sensors for computer and video games; motion sensors for security lights; motion-activated cameras; motorcycle goggles; motorcycle helmets; motorcyclist protective clothing; mounting devices for cameras; mounts for helmet cameras; mounts for mobile phones; mounts for smartphones; music composition software; music-composition software; musical instrument amplifiers; musical instrument digital interface controllers being audio interfaces; night vision goggles; organic light emitting diode display panels; organic light-emitting diode (OLED) display panels; organic light-emitting diode (OLED) displays; organic light-emitting diode (OLED) televisions; organic light-emitting diode screens; organic light-emitting diodes (OLED); oxygen masks, not for medical purposes; personal digital assistants [PDAs]; personal emergency response systems (PERS); personal floatation aids; personal protective equipment being avalanche airbag backpacks; personal security alarms; personal stereos; personal video display devices in the nature of wearable displays for viewing digital content including augmented reality and mixed reality content; personal video recorders [PVRs]; personnel tracking devices; pet collar accessories, namely, safety blinkers; pet collar accessories, namely, safety lights; pet collar accessories, namely, signaling bells; phone cases; picture projectors; polymer light-emitting diodes [PLED]; portable battery chargers for use with electric vehicles; portable battery chargers for use with smart phones; portable folding solar panels for production of electricity; portable global positioning system (gps) device consisting of position sensors; portable radios; portable speakers; position sensors; power banks; protective eyeglasses; protective goggles for pets; protective goggles for sports; protective helmets for bikers; protective helmets for cyclists; protective helmets for motorcyclists; protective helmets for motorists; protective helmets for sports; protective industrial face shields; protective sports helmets; protective suits for aviators; protective visors for athletic use; QLED display panels; QLED displays; QLED screens; QLED televisions; recorded video game programs; recorded virtual reality game software; remote control receivers; remote control transmitters; safety footwear for protection against accident or injury; safety glasses; safety goggles; safety harnesses; safety harnesses, other than for vehicles or sports purposes; safety helmets; safety life jackets; scuba diving goggles; scuba diving masks; scuba goggles; scuba masks; scuba snorkels; security cameras; security surveillance robots; skateboarding helmets; ski glasses; ski goggles; ski helmets; skin diving masks; smart glasses; smart glasses with wired and wireless audio capability; smart necklaces; smart rings; smart safety glasses; smartglasses;

smartwatches; smartwatches incorporating electronic game functions; snorkels; snow goggles; snowboarding helmets; software applications for mobile devices for accessing medical and health information; software applications for mobile devices for monitoring and managing patient medical information; software for creating virtual reality games; software for operating computer games; software for playing video games; solar batteries; solar cells; solar cells and panels for electricity generation; solar panel arrays for production of electricity; solar panels; solar panels and solar energy collectors for the production of electricity; solar panels for the production of electricity; solar power towers; solar powered LED beacon; solar-powered rechargeable batteries; sound mixers; sound mixers with integrated amplifiers; sound processors; sound projectors; sound projectors and amplifiers; soundbars; speedometers; speedometers for vehicles; sports eyewear; sports glasses; sports goggles; sports helmets; stab proof vests; stage lighting regulators; step counter; step-down transformers; step-up transformers; stereo headsets; stereo receivers; stereo speakers; stereoscopic equipment for 3D viewing; sun glasses; sunglasses and optical lenses; sunglasses for pets; survival blankets; survival blankets being thermal blankets for retaining body heat; survival blankets being thermal blankets for retaining body heat against hypothermia; survival capsules for natural disasters; swim floats for safety purposes; swimming goggles; television receivers; television screen protectors in the nature of acrylic shields to be mounted over television screens; television tuners; televisions for projection purposes; touch pads; touch pads for computers; touch panels; touch screen monitors; touch screen pens; touch sensitive display and control screens; touch sensitive electronic screens; touch sensitive switches; touchpads for computers; touchscreen sensors; touchscreens for personal digital assistants [PDAs]; touchscreens for smartphones; video game programs; video game software; video games; video games and downloadable video game software; video games for use on cell phones and other handheld wireless devices; video games for use with video game consoles; video intercom systems; video mixers; video mixing desks; video surveillance cameras; virtual assistant software; virtual reality (VR) computer holder; virtual reality (VR) headset stand; virtual reality (VR) laptop holder; virtual reality computer game programs; virtual reality computer game software; virtual reality computer games for use on tablet computers; virtual reality computer games for use on cellular phones; virtual reality computer games for use on mobile phones; virtual reality computer games for use on notebook computers; virtual reality computer games for use on personal computers; virtual reality computer games for use on smart phones; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling virtual reality wearable computer peripherals; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling wearable virtual reality hardware; virtual reality controllers; virtual reality game hardware and software; virtual reality game software; virtual reality games; virtual reality glasses; virtual reality gloves; virtual reality goggles; virtual reality headsets; virtual reality headsets adapted for use in playing video games; virtual reality headsets and helmets adapted for use in playing video games; virtual reality helmets; virtual reality software for playing computer games; wearable activity tracker; wearable activity trackers; wearable activity trackers for use during sport activities; wearable activity trackers with heart rate monitoring function; wearable activity trackers with pulse rate monitoring pulse function; wearable cameras; wearable digital electronic devices, namely, glasses; wireless charging stations for electric vehicles; wireless computer mice; wireless computer mice; wireless headsets; wireless headsets for smartphones; wireless headsets for tablet computers; wireless speakers; word processing equipment

apparatus for adjusting headlights; applications for mobile phones in the form of downloadable sports games; artificial intelligence software for high-altitude platform systems; artificial intelligence-based robots for aerospace exploration and research; audio amplifiers; audio analyzers; audio and video mixing desks; audio and video receivers; audio cable connectors, splitters and plugs; audio equalizers; audio equipment for vehicles, namely, loud speakers for automotive audio systems; audio mixers; audio processors; audio receivers; audio speaker enclosures; audio speakers; audio speakers for automobiles; audio transformers; audio transmitter units; audio-video receivers; audiovisual headsets for playing video games; audiovisual receivers; augmented reality computer game software; augmented reality computer games for use on cellular phones; augmented reality computer games for use on mobile phones; augmented reality computer games for use on notebook computers; augmented reality computer games for use on personal computers; augmented reality computer games for use on smart phones; augmented reality computer games for use on tablet computers; augmented reality computer hardware; augmented reality game software; augmented reality glasses; augmented reality glasses operating software; augmented reality goggles; augmented reality headsets; augmented reality software for cinematography;

augmented reality software for creating maps; augmented reality software for medical teaching; augmented reality software for pilot training; augmented reality software for use in mobile phones for integrating electronic data with real world environments; augmented reality training simulation software in the field of aviation; augmented reality training simulation software in the field of cinematography; augmented reality software for playing computer games; batteries for electric bicycles; batteries for electric boats; batteries for electric gyrowheels; batteries for electric hoverboards; batteries for electric monowheels; batteries for electric personal transporters; batteries for electric skates; batteries for electric snowmobiles; batteries for electric watercraft; batteries for electric wheelchairs; batteries for four-wheeled electric scooters; batteries for motorized scooter boards; batteries for off road vehicles; batteries for on road vehicles; batteries for personal warming devices; body armor; body cameras; body harnesses for support when lifting loads; bullet proof glass; bullet resistant vests; bullet-proof clothing; bullet-proof personal protection shields in the form of a backpack; bullet-proof vests; bullet-proof waistcoats; bullet-resistant face masks; bullet-resistant vests; bullet-resistant waistcoats; bulletproof clothing; bulletproof vests; camera monopods; camera systems for drones; cases adapted for mobile phones; cases for mobile phones; cases for smartphones; cases for snow goggles; cell phone cases; cell phone holders; cell phone neck-straps; cell phone straps; cell phone wallets; cellular phone cases; clip-on flashing safety lights; combination video players and recorders; communication software namely, video and audio conferencing software; communication software to access data stored on an oximeter and transfer data to another device; communications computers; communications software for monitoring and managing electrical charging stations and networks; computer application software for accessing an online marketplace for buyers and sellers of goods and services; computer application software for live streaming user-generated audio and video messages on an online social networking portal via the internet; computer application software for mobile phones that allows users to remotely manage and control advertisements on electronic advertising displays; computer application software for mobile phones to allow users to view menu selections and pay for orders by scanning a quick response code; computer application software for online chatting and messaging; computer application software for smart phones, tablets and handheld computers, namely, software for users to obtain, access and coordinate physical fitness training; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software in playing video and computer games; computer application software that gives computer users the ability to upload, exchange and share videos via the internet; computer application software to allow users to perform online payment transactions; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer game cartridges; computer game programmes; computer game programs downloadable via the Internet; computer game software downloadable from a global computer network; computer game software for game machines; computer game software for playing online games of skill; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer games downloadable from a global computer network; computer games for use on cell phones and other handheld wireless devices; computer games for use on gaming machines; computer games for use on mobile and cellular phones; computer games for use on notebook computers; computer games for use on personal computers; computer games for use on tablet computers; computer gaming software for recreational game playing purposes; computer hardware and software to view virtual images in augmented reality; computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices

and televisions and monitors; computer keyboards; computer keypads; computer mice; computer mouse; computer mouse mats; computer mouse pads; computer programs for processing digital music files; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; computer programs for use in teaching children to read; computer software applications for mobile phones and handheld computers for coordinating live video and social media feeds; computer software applications for mobile phones and handheld computers for producing notifications in the field of sports and sports competitions; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating computer games; computer software for creating music; computer software for creating video games; computer software for customizing wireless network access for end users; computer software for digital animation and special effects of images; computer software for editing images, sound, and video; computer software for graphic designing and editing; computer software for image processing; computer software for inventory management; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing and controlling shipment information of consumer goods in the field of purchase order processing for shipping; computer software for operating computer games on the internet; computer software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; computer software for use in creating and designing websites; computer software for use in generating streaming advertisements on the web sites of others; computer software for video editing; computer software for visual art designing and editing; computer software platforms for social networking; computer software to create, customize, print, export, and e-mail purchase orders; computer video games; computer video games downloaded via the internet; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer whiteboards; crash helmets; crash helmets for motorcyclists; cycle computers; cycle meters; cycling computers; cyclists' glasses; cyclocomputers; cyclometers; cyclotrons; data gloves for wireless interaction with a computer or remote device; data gloves incorporating haptic sensors; data gloves incorporating motion sensors; data gloves incorporating position sensors; digital karaoke mixers; digital video eyewear; digital video players; digital video recorders; digital video recording software for IP (Internet protocol) video surveillance; distance sensors; dive computers; dive skins; divers masks; divers' masks; diving boots; diving gloves; diving goggles; diving heel straps; diving helmets; diving masks; diving regulators; diving snorkels; diving suits; diving weights; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing video files; downloadable application for mobile phones to download video games via the internet; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to take and edit photographs; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for mobile phones to download and play video games; downloadable applications for mobile phones to download music, movie and television graphics; downloadable applications for mobile phones to download video games; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the downloading and playing of video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of

music; downloadable artificial intelligence software for digital image to digital image generation; downloadable artificial intelligence software for digital video generation; downloadable audio and video recordings featuring computer video game play; downloadable audio and video recordings of musical performances and sports competitions; downloadable computer and video game software and programs; downloadable computer application interface [API] integration software for online marketplaces; downloadable computer application software for developing computer games; downloadable computer application software for maintaining and updating computer games; downloadable computer application software for playing video games; downloadable computer programs for video and computer games; downloadable computer software for assisting developers in creating interactive computer games; downloadable computer software for broadcasting and streaming of digital media content sessions; downloadable computer software for creating digital images; downloadable computer software for creating music videos; downloadable computer software for searching databases featuring songs, music and audio content; downloadable computer software for smart home hubs for the operation of smart home devices; downloadable computer software for use in creating avatars for playing games over the internet; downloadable computer software in the form of a mobile application for accessing and viewing data, namely, for obtaining advice and assistance relating to sports and physical activities; downloadable course materials in the form of digital files in the fields of natural health products and services of others and the marketing and sale of such products and services; downloadable course materials in the form of digital files in the fields of natural health products and services of others and the use of such products and services; downloadable course materials in the form of digital files in the fields of sports nutrition products of others; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the health benefits of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the manufacture of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the marketing and sale of such products; downloadable course materials in the form of digital files in the fields of sports nutrition products of others and the use of such products; downloadable digital audio recordings featuring live musical performances; downloadable digital audio recordings featuring music; downloadable digital audio recordings featuring musical sound recordings; downloadable digital audio recordings of television shows and movies; downloadable digital content being movies; downloadable digital content being music audios; downloadable digital content being music videos; downloadable digital content being photos; downloadable digital content being self-created pictures; downloadable digital content being videos; downloadable digital media content being music audios; downloadable digital media content being music videos; downloadable digital media content being self-created pictures; downloadable digital media content being videos; downloadable digital music; downloadable digital music provided from the Internet; downloadable digital video recordings featuring music and dance; downloadable educational software for children; downloadable educational video games; downloadable electronic games; downloadable electronic games for use with mobile telephones, handheld computers and tablet computers; downloadable electronic publications in the nature of e-books, newsletters, pamphlets, and articles in the field of computer games; downloadable electronic publications in the nature of magazines in the field of video games; downloadable electronic publications namely magazines in the field of computer games and video games; downloadable interactive entertainment software for playing computer games; downloadable interactive entertainment software for playing video games; downloadable interactive multimedia computer game programs for playing video and computer games; downloadable interactive video games; downloadable mobile applications for analyzing and reporting self-assessment of illness; downloadable mobile applications for playing fantasy sports; downloadable mobile applications for sports wagering; downloadable motion pictures;

downloadable music; downloadable software and downloadable mobile application software for the automation of electric control systems for lighting; downloadable software application for a mobile device or computer that provides customized information about the functions and features of a motor vehicle; downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle; downloadable software for uploading photos; downloadable software in the nature of an application in the field of exercise and fitness; downloadable video game assets sold individually, namely downloadable digital files containing videogame avatars, clothing, pets, vehicles, items, tools, toys, terrain, 3D objects, textures, meshes, animations, sound effects, music, emotes, and gestures for use in video game development; downloadable video game characters; downloadable video game programs; downloadable video games; downloadable video games via a global computer network; downloadable video recordings featuring music videos; downloadable virtual assistant software for the purchase of home entertainment electronics; downloadable virtual reality game software; dust protection masks; dust protective goggles; dustproof glasses; ear phones; ear strap for respiratory masks for the prevention of accident or injury; earphones and headphones; earphones and headsets for mobile phones; earphones for smartphones; effects pedals for use with electrical musical instruments; effects units for electric musical instruments; effects units for electric or electronic musical instruments; effects units for electronic musical instruments; electric and electronic effects units for musical instruments; electric and electronic musical effects equipment; electric batteries for powering electric vehicles; electrified fences; electrified rails for mounting spot lights; electronic control circuits for electronic musical instruments; electronic control gears [ECGs] for LED lamps and light fixtures; electronic control system for lighting systems; electronic controllers for use with augmented reality headsets; electronic controllers for use with virtual reality headsets; electronic door alarms; electronic door locks; electronic effects pedals for musical instruments; electronic effects pedals for use with musical instruments; electronic effects pedals for use with sound amplifiers; electronic flashing rescue flares; electronic game cartridges; electronic game programs; electronic game software; electronic game software for cellular phones; electronic game software for handheld electronic devices; electronic magnetostrictive equipment, namely, a wave generator, wave sensor and wave analyzer; electronic virtual reality gloves; emergency lights; emergency thermal blankets for retaining body heat; emergency thermal blankets for retaining body heat, not for medical purposes; eye glasses; eye shields for athletic use; eye shields for sports helmets; eye shields specially adapted for protective sports helmets; eyeglasses for children; eyeglasses for sports; eyeglasses, eyeglass frames, eyeglass cases; eyeglasses, sunglasses, diving and swimming goggles, cases, cords and chains for sunglasses and eyeglasses; eyewear for pets; eyewear, namely, sunglasses, eyeglasses and ophthalmic frames and cases therefor; face shields for athletic use; face shields for protective helmets; face shields for sports helmets; face-shields for protection against UV; fashion eyeglasses; fire alarms; fire beaters; fire blankets; fire escapes; fire extinguishers; fire protective clothing; fire protective footwear; fire-resistant clothing; fire-resistant flying suits; fire-resistant gloves; fireproof clothing; fireproof garments; gaming headsets adapted for use in playing video games; gaming headsets specially adapted for use in playing video games; garments for protection against fire; gesture recognition software; global positioning system (GPS) receivers; global positioning system (GPS) transmitters; Global Positioning System [GPS] transmitters; Global Positioning System receivers; gloves for protection against accidents; gloves for protection against electrical shock or fire; goggles for motorcyclists; goggles for protection against dust; goggles for scuba diving; goggles for skiing; goggles for snowboarding; goggles for snowmobiling; goggles for sports; goggles for swimming; goggles for use in sport; graphics decoders for audio karaoke systems; guitar amplifiers; hands-free headsets for cellular phones; hands-free headsets for mobile phones; hands-free holders for cellular phones; hands-free holders for mobile phones; hands-free kits for cellular

phones; hands-free kits for telephones; head guards for sports; head mounted audio-visual display units containing integrated cameras and sensors; head mounted displays; head-mounted augmented reality displays; headsets for smartphones; headsets for use with computers; headsets for virtual reality games; helmet camera mounts; helmet cameras; helmet safety lights; helmets for bicycles; helmets for motorcyclists; humanoid robots having communication and learning functions for assisting and entertaining people; humanoid robots with artificial intelligence; humanoid robots with artificial intelligence for use in scientific research; illuminated signs used for advertising; inflatable apparatus for life-saving purposes; inflatable devices for life-saving purposes; inflatable jackets for use in life saving; inflatable lifeboats; intelligent virtual assistant [IVA] software; interactive computer application software for use in cell phones that enables users to connect remotely with their vehicles to access vehicle information and control functions; interactive computer game programs; interactive entertainment computer software for video games; interactive multimedia computer game programs; interactive multimedia computer games; interactive touch screen terminals; interactive touchscreen terminals; karaoke amplifiers; karaoke machines; karaoke machines and programs for karaoke; karaoke microphones; karaoke players; keyboards for computers; keyboards for smartphones; keypads for cell phones; LCD large-screen displays; lcd monitors; LCD panels; lcd projectors; LCD televisions; LED display panels; LED displays; LED drivers; LED position sensors; life belts; life boats; life buoys; life jackets; life jackets for pets; life jackets, life vests; life rafts; life rafts for emergency use; life saving rafts; life vests; life-buoys; life-saving capsules for natural disasters; life-saving equipment, namely, backpacks equipped with airbags for protection against avalanches; life-saving rafts; lifeboats; lighting ballasts; lighting control panels; lighting control software for use in commercial and industrial facilities; lighting controls, light switches, and electric light dimmers; luminous road signs; luminous safety beacons; luminous safety beacons for use as a personal locator; luminous safety signs; luminous signs; luminous traffic signs; luminous vehicle breakdown warning beacons; luminous warning signs; masks for diving; masks for protection against dust; masks for scuba diving; masks for snorkelling; mixed reality glasses; mobile application software for providing access to an online marketplace; mobile application software for social networking services; mobile phone holders for vehicles; mobile phone straps; motion picture films; motion picture projectors; motion sensors; motion sensors for computer and video games; motion sensors for security lights; motion-activated cameras; motorcycle goggles; motorcycle helmets; motorcyclist protective clothing; mounting devices for cameras; mounts for helmet cameras; mounts for mobile phones; mounts for smartphones; music composition software; music-composition software; musical instrument amplifiers; musical instrument digital interface controllers being audio interfaces; night vision goggles; organic light emitting diode display panels; organic light-emitting diode (OLED) display panels; organic light-emitting diode (OLED) displays; organic light-emitting diode (OLED) televisions; organic light-emitting diode screens; organic light-emitting diodes (OLED); oxygen masks, not for medical purposes; personal digital assistants [PDAs]; personal emergency response systems (PERS); personal floatation aids; personal protective equipment being avalanche airbag backpacks; personal security alarms; personal stereos; personal video display devices in the nature of wearable displays for viewing digital content including augmented reality and mixed reality content; personal video recorders [PVRs]; personnel tracking devices; pet collar accessories, namely, safety blinkers; pet collar accessories, namely, safety lights; pet collar accessories, namely, signaling bells; phone cases; picture projectors; polymer light-emitting diodes [PLED]; portable battery chargers for use with electric vehicles; portable battery chargers for use with smart phones; portable folding solar panels for production of electricity; portable global positioning system (gps) device consisting of position sensors; portable radios; portable speakers; position sensors; power banks; protective eyeglasses; protective goggles for pets; protective goggles for sports; protective helmets for bikers; protective helmets for cyclists; protective helmets

for motorcyclists; protective helmets for motorists; protective helmets for sports; protective industrial face shields; protective sports helmets; protective suits for aviators; protective visors for athletic use; QLED display panels; QLED displays; QLED screens; QLED televisions; recorded video game programs; recorded virtual reality game software; remote control receivers; remote control transmitters; safety footwear for protection against accident or injury; safety glasses; safety goggles; safety harnesses; safety harnesses, other than for vehicles or sports purposes; safety helmets; safety life jackets; scuba diving goggles; scuba diving masks; scuba goggles; scuba masks; scuba snorkels; security cameras; security surveillance robots; skateboarding helmets; ski glasses; ski goggles; ski helmets; skin diving masks; smart glasses; smart glasses with wired and wireless audio capability; smart necklaces; smart rings; smart safety glasses; smartglasses; smartwatches; smartwatches incorporating electronic game functions; snorkels; snow goggles; snowboarding helmets; software applications for mobile devices for accessing medical and health information; software applications for mobile devices for monitoring and managing patient medical information; software for creating virtual reality games; software for operating computer games; software for playing video games; solar batteries; solar cells; solar cells and panels for electricity generation; solar panel arrays for production of electricity; solar panels; solar panels and solar energy collectors for the production of electricity; solar panels for the production of electricity; solar power towers; solar powered LED beacon; solar-powered rechargeable batteries; sound mixers; sound mixers with integrated amplifiers; sound processors; sound projectors; sound projectors and amplifiers; soundbars; speedometers; speedometers for vehicles; sports eyewear; sports glasses; sports goggles; sports helmets; stab proof vests; stage lighting regulators; step counter; step-down transformers; step-up transformers; stereo headsets; stereo receivers; stereo speakers; stereoscopic equipment for 3D viewing; sun glasses; sunglasses and optical lenses; sunglasses for pets; survival blankets; survival blankets being thermal blankets for retaining body heat; survival blankets being thermal blankets for retaining body heat against hypothermia; survival capsules for natural disasters; swim floats for safety purposes; swimming goggles; television receivers; television screen protectors in the nature of acrylic shields to be mounted over television screens; television tuners; televisions for projection purposes; touch pads; touch pads for computers; touch panels; touch screen monitors; touch screen pens; touch sensitive display and control screens; touch sensitive electronic screens; touch sensitive switches; touchpads for computers; touchscreen sensors; touchscreens for personal digital assistants [PDAs]; touchscreens for smartphones; video game programs; video game software; video games; video games and downloadable video game software; video games for use on cell phones and other handheld wireless devices; video games for use with video game consoles; video intercom systems; video mixers; video mixing desks; video surveillance cameras; virtual assistant software; virtual reality (VR) computer holder; virtual reality (VR) headset stand; virtual reality (VR) laptop holder; virtual reality computer game programs; virtual reality computer game software; virtual reality computer games for use on tablet computers; virtual reality computer games for use on cellular phones; virtual reality computer games for use on mobile phones; virtual reality computer games for use on notebook computers; virtual reality computer games for use on personal computers; virtual reality computer games for use on smart phones; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling virtual reality wearable computer peripherals; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling wearable virtual reality hardware; virtual reality controllers; virtual reality game hardware and software; virtual reality game software; virtual reality games; virtual reality glasses; virtual reality gloves; virtual reality goggles; virtual reality headsets; virtual reality headsets adapted for use in playing video games; virtual reality headsets and helmets adapted for use in playing video games; virtual reality helmets; virtual reality software for playing computer games; wearable activity tracker; wearable activity trackers; wearable activity trackers

for use during sport activities; wearable activity trackers with heart rate monitoring function; wearable activity trackers with pulse rate monitoring pulse function; wearable cameras; wearable digital electronic devices, namely, glasses; wireless charging stations for electric vehicles; wireless computer mice; wireless computer mouses; wireless headsets; wireless headsets for smartphones; wireless headsets for tablet computers; wireless speakers; word processing equipment
