Trademarks Journal

Vol. 72 No. 3710

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Common metals and their alloys; anti-friction metal; metal ores; building materials and metal building elements, namely metal piles, metal structural fittings for floors and walls, metal joists; metal scaffolds and their constituent parts; portable metal work platforms; scaffolding towers of metal; metal stanchions and metal shores to support the loading of the slab during concrete pouring; metal frames for construction, namely reinforcing materials of metal for concrete; transportable buildings of metal in the nature of stands, podiums, bicycle garages, bus shelters, telephone booths; steel constructions, namely greenhouses, garden sheds, stables; formwork and metal form panels for construction; metal shuttering panels for formwork [construction]; metal formwork for concrete; reinforcing materials of metal for concrete; reinforcing materials of metal for machine belts; reinforcing materials of metal for pipes; metal ladders, stairs and stepladders; metal duckboards; metal containers for storage and transport; steel frames for construction; metal ceilings and floors; metal beams and joists; steel frameworks for construction; metal partitions and fences; metal casings for oil wells; materials of metal for railway tracks; wire ropes, metal chains and non-electric wires of common metal; metal ironmongery and hardware, namely metal trim for buildings, metal pipe fittings, metal hinges; metal branching pipes, metal gutter pipes; safes; multi-purpose metal storage bins; prefabricated metal architectural columns; steel masts; vats of metal; metal marquees [construction]; handling pallets of metal; palings of metal; metal panels for construction; metal slabs for construction; signalling panels, non-luminous and non-mechanical, of metal; beacons of metal, non-luminous; advertisement columns of metal; cladding of metal for construction; metal tubing for construction; metal penstock pipes; metal fences and grating; metal poles; prefabricated metal docks, namely floating docks of metal, for mooring boats; paint spraying booths of metal; metal guard rails for roads; road signs, non-luminous and non-mechanical, of metal; metal armour plates; metal straps (belts) for securing loads; stables of metal; metal prefabricated houses [kits]; metal collars for fastening pipes, metal flanges [collars]; metal cable clips; nails.

Class 07

(2) Machines for the construction of roads and railway tracks, namely excavators, graders, mechanical spreaders; concrete paving machines; concrete mixers; bitumen making machines; tarring machines; bulldozers; earthmoving machines; power shovels; harvesters for agricultural use, harvesters; agricultural cultivators, rototillers, lawnmowers, turf removing ploughs; pressure washers, earth loading and unloading machines, lifting apparatus, conveyors, cranes (lifting apparatus); trash compacting machines, rock crushing machines, compressors for industrial machinery, glass cutting machines, circular saws and chain saws; excavators, pumps for cooling motors and engines, axe and machete sharpening machines, electric welding apparatus, namely soldering irons, degreasers for industrial machinery, disintegrators for chemical processing, drilling machines for use in metallurgy, metalworking machines, metalworking machines, wire rope cutters, milling machines, rotary blowers, vacuum cleaners for industrial use, tray handling machines, canvas handling machines, automatic manipulators, namely palletizers; shredders [machines] for industrial use, power hammers, pressure washer machines, centrifuges [machines], die casting machines; computer numerical control [CNC] machine tools for tarring machines; electric hand drills; jet engines, other than for land vehicles; machine coupling and transmission components, except for land vehicles; agricultural implements, other than hand-operated, namely equipment for irrigation, equipment for soil fertilization; incubators for eggs; electric generators; derricks; compressed air machines, namely compressed air pumps; aerocondensers; sizing machines; hydraulic tree spades; colour-washing machines; road sweeping machines, self-propelled; beating machines; woodworking machines, namely wood chippers, wood milling machines, wood sawing machines; brushes for industrial vacuum cleaners; lift chains [machine parts]; gas-operated cutting or soldering torches; snowplows; electric shears and scissors; chisels for machines; sludge pumps; converters for steelworks; conveyor belts; machine belts; air cushion load lifting machines; multi-purpose high-pressure washers; wind turbines; electric polishing machines for metal; transfer plates, namely wagon loading ramps; hoppers for mechanical unloading; robotic sanders; rotary printing presses; road rollers; winches; cardan joints; automatic dispensers.

Class 12

(3) Construction site vehicles, namely light rail vehicles, rail cars, lift trucks; tractors, garden tractors; trailer hitches for vehicles; tipping bodies for trucks; concrete mixing vehicles; wheelbarrows; garden carts, wheelbarrows for construction use, agricultural wheelbarrows; cars for cable transport installations; trucks; lift truck parts, namely fork tines for lift trucks, roller chains for fork lift trucks, handling carts; hose carts, cleaning trolleys; sack-barrows [carts]; vehicle tracks; special cases for two-wheeled vehicles; bulk hauling trailers, tank trailers; rear loading bed tailboard lifts being parts of land vehicles; sprinkling trucks.

Class 19

(4) Materials, not of metal, for building and construction, namely concrete, asphalt, bricks, building timber, sand, gravel; construction materials, namely industrial concrete for use in civil engineering works, road paving, namely road asphalt, road concrete; scaffolding of wood; bitumen building materials; concrete building elements, namely concrete slabs for construction, concrete poles for construction, concrete walls for construction; wooden frames for construction; wooden framework for building; formwork, not of metal, for concrete; formwork, and form panels for concrete; rigid polypropylene pipes for construction; asphalt, pitch and bitumen; transportable buildings of wood and plastic, namely prefabricated garages for bicycles, bus shelters, stands, bleachers; construction site bunk houses; building timber; bricks; caissons for underwater construction; paint spraying booths of metal; wooden floor planks, vinyl floor planks; non-metal tiles for construction, namely cork tiles and tiles of cork-based conglomerates for floor, wall and ceiling coverings; cardboard for construction, bitumen paper for construction; non-metal fences and wooden

partitions for construction; roof coverings, not of metal; non-metal paving slabs for construction; roof coatings; non-metal staircases; non-metal guard rails for roads; lintels, not of metal; wooden porches for building; wooden posts, concrete posts; concrete palisades and wooden sheet piles; plastic composite panels for construction, pressed wood panels for construction, plywood panels for construction; signalling panels, non-luminous and non-mechanical, not of metal; wooden beams, wooden boards, wooden panels for construction; plywood; non-metal floating docks for mooring boats; non-metal side coverings [construction]; asphalt roof coverings and roofing, wooden roofing, vinyl roofing; wooden trellises, plastic trellises; pressure-treated wooden advertisement columns; road signs, non-luminous and non-mechanical, not of metal.

Services

Class 37

(1) Installation and maintenance of equipment for the power industries; installation, maintenance and repair of mechanical and electromechanical apparatus and instruments for the power industries; installation of insulating materials for construction; installation, repair and maintenance of thermal insulation systems; oil well casing, tubing, and installation of drill pipes; drilling of deep oil or gas wells; installation and maintenance of mechanical systems, namely structural steel used for strengthening and reinforcing concrete structures, water treatment equipment, sewer pipes, water storage tanks and water treatment tanks; construction of structures for conveying gas and oil, installation of machines and machine tools for treating and processing metals; construction of natural gas infrastructure, pipeline infrastructure, electrical underground infrastructure, underground facilities, trenches and boreholes; interior and exterior paint; consulting regarding the construction of buildings, bridges, ports, pipelines and irrigation, commercial buildings, roads and airports; information related to the construction of buildings, bridges, ports, pipelines and irrigation systems, commercial buildings, roads and airports; scaffolding erection and dismantling services; repairs in the nature of the repair of heating installations, pumps, furnaces, warehouses, locks, air conditioning apparatus, safes, burglar alarms, fire alarms, irrigation devices and refrigeration apparatus; information related to the repair of buildings, bridges, ports, pipelines and irrigation systems, commercial buildings, roads and airports; installation of doors and windows; installation of air conditioning apparatus; installation of pipelines; electrical installation of lighting apparatus and electrical installation of heating apparatus; installation of intruder alarm systems; installation of fire alarms; installation services for irrigation systems; installation of refrigeration apparatus; installation of industrial ovens; installation of warehouses; asphaltting; vehicle breakdown repair services; rental of cranes (worksite machinery), bulldozers, excavators; rental of construction tools, machines and equipment; rental of formwork, stanchions and scaffolding for construction; masonry; carpentry services; roofing installation services; construction services for buildings, dams, ports, plants, roads, railway tracks, stands for fairs and stores, bicycle garages and bus shelters; demolition of buildings; rat control; building disinfection; furniture maintenance, namely street furniture; vehicle maintenance; quarrying; well drilling; installation, maintenance and repair of scaffolding (including their alarm devices), construction site machinery, namely cranes, bulldozers, excavators; installation, maintenance and repair of agricultural machines; installation, maintenance and repair of construction machines; building insulation services; cleaning of buildings [interior]; rental of machines for cleaning building and roads; cleaning of buildings; street cleaning; road resurfacing, namely paving and asphaltting roads; reconditioning agricultural and construction machines; supervision [management] of construction work.

Class 40

(2) Processing of oil; processing of natural gas; processing of soil to separate and recover metals; processing and transformation of energy, namely energy recovery services in the nature of the

capture and conversion of waste into electricity and useful steam; sandblasting services; metallizing services; treatment of metal parts to prevent corrosion; treatment of metal parts to prevent corrosion using galvanization processes and powder coatings; electro and metal coating, metal treatment and casting, tempering of metals and metal products; galvanization; information related to the treatment of materials, namely plastic materials and metals; steel pickling; treatment of materials in the nature of etching, milling and engraving of metal; laser engraving services; pattern printing for others.

Class 42

(3) Oil field surveying; analysis and testing services for oil field prospecting; environmental testing and inspection services in the construction industry; engineering services in the field of energy technology; environmental engineering services; engineering services related to energy supply systems; conduct of technical project studies in the field of energy technology; technical research related to energy supply systems; engineering work, namely civil engineering works surveying; calibration of construction testing equipment; field mapping; drafting of construction plans; materials testing; quality control of buildings; architect and consulting services in the field of architecture; urban planning; energy auditing and consulting related to energy savings; scientific industrial design services; industrial analysis and research services related to energy supply systems; design and development of computers and software; interior design; industrial design; research and development of new products for others; research related to mechanics and physics; research related to environmental protection.

data and information between devices for the purposes of facilitating home and environmental monitoring, control, and automation; computer hardware for data processing; intercommunication apparatus, namely, wireless radio transmitters and receivers; intercommunication apparatus, namely, computer hardware and software to communicate, control, and check the status of security alarm systems, automated environmental systems, networked kitchen appliances, electronic doorbells, and cameras in homes, offices, and other buildings; electronic home automation control devices in the nature of computer hardware, and wired and wireless controllers for controlling lighting, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras; stand-alone voice controlled information devices, namely, cloud-connected and voice-controlled smart audio speakers and computer hardware with virtual personal assistant capabilities; anti-intrusion and anti-theft warning apparatus and devices, namely, theft alarms and electronic sensors used with theft alarms; theft prevention installations, namely, anti-intrusion alarms; security alarm controllers; photographic apparatus and instruments, namely, cameras, video cameras, cases adapted for photographic equipment, and camera mounts; optical apparatus and instruments, namely, optical profilers, optical scanners, and optical sensors; apparatus for recording, transmission or reproduction of sound or images, namely, cameras, computer hardware for video streaming, video receivers, video cameras, tablet computers, and digital video recorders; computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing images, audio, video and data files; wireless communication devices for voice, data, or image transmission, namely electronic doorbells, video cameras, and audio speakers; electronic voice and radio transmitters and receivers; computer software for recording, viewing, storing, sharing, and analyzing online audio and video; electronic doorbells; electronic locks; motion sensors; burglar alarms; alarm sensors for detecting motion, temperature, air quality and ambient light; burglar alarm systems; fire alarm systems; gas leak alarm systems; video monitors; security cameras; video cameras for monitoring the interior and exterior of residences and commercial buildings, and wireless controllers to remote monitoring, control, and automation of home devices and systems, namely, household appliances, lighting systems, HVAC systems, thermostats, security systems, cameras, garage door openers, electronic lock assemblies, electronic gates, home entertainment systems, stereos, televisions, computer hardware for video streaming and recording, video cameras, DVD recorders, audio speakers, computers, laptop computers, tablet computers, wearable activity trackers, smart watches, and irrigation systems; cameras; webcams; apparatus and devices providing night vision, namely, night vision systems comprising day and night sensors, video and still-image viewing monitors, video and still-image recorders, and video and still-image receivers; stands for alarm system components, namely video cameras and audio speakers; wall mounts for cameras; environmental hazard detectors, namely, meters and sensors that detect and record the presence of water, humidity levels, heat, temperature, movement, motion, and sound; closed circuit television systems comprising televisions and cameras; baby monitors; remote pet viewing systems comprising video cameras, wireless transmitters, wireless receivers, and video display monitors; electronic video surveillance products, namely, electronic components of security alarm systems; automated self-contained electronic security surveillance carts specially adapted for audio-visual equipment that can be deployed in homes and commercial buildings to gather evidence or intelligence for purposes of home and building security; wearable activity trackers; wearable cameras; wearable computers in the nature of smartwatches; wearable computers in the nature of smart glasses; wearable video display monitors; communications headsets for use with mobile phones, communication radios, intercom systems, or other communications network transceivers; computer hardware, namely routers, wireless network extenders and wireless access point (WAP) devices; computer firmware and software for controlling the operation of computer

hardware; computer firmware and software for controlling the operation of computer routers, wireless network extenders and wireless access point (WAP) devices; network interface adapters; network communications hubs; network communication cables; wired and wireless routers; wireless and wired gateways being computer control hardware; modems; network switches; ethernet adapters, namely, power over ethernet injectors; network access range extenders; networking power line kits, namely, broadband power line communication systems for transferring broadband data over electrical power lines that comprise an electronic data port, data cables, and a downloadable electronic user installation guide; computer hardware being networking access points, namely, wireless network access point devices for connecting computer users; computer software for interconnecting, managing, securing and operating local and wide area networks; communication terminals comprised of computer hardware and downloadable software for providing video, audio, data, video game, and telephone communications and transmissions; computer network storage hardware, comprising computer hardware and recorded software for organizing and storing electronic data files; network routers; wireless routers; software for setting up and configuring wireless routers; VPN hardware; RAID controllers; computers; network bridges; GBIC standard modules; component parts for wireless routers, computer hardware in the nature of wireless network extenders and wireless access point (WAP) devices; security software; computer software and software applications for home and environmental monitoring, control, and automation; software and software applications permitting users to identify and communicate with persons at their door; software development kits (SDKs) consisting of computer software for the development, use, and interoperability of APIs that are used by electronic devices, systems, and interchanges that exchange data via communications networks and the internet and that connect with cloud-based data storage and exchange services; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to internet connected consumer electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillet, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers; software development kits (SDKs) comprising of software development tools and software for use as an application programming interface (API) for creating software and applications related to theft-prevention and security systems, and home and business surveillance systems; voice command and recognition software; computer software used for controlling stand-alone voice controlled information and

personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities; computer software for remote monitoring and analysis of computer networks; electronic control systems for mobile machines, namely, wheeled carts specially adapted for audio-visual equipment and motorized carts specially adapted for audio-visual equipment; software for monitoring and controlling communication between computers and automated machine systems; global positioning navigation software for use with internet of things (IoT) enabled devices in the nature of smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specifically adapted for audio-visual equipment; software for use in tracking and monitoring position and range of internet of things (IoT) enabled devices in the nature of smart autonomous vehicles; electronic systems, equipment and instruments, namely behavior engine software for use with any device having and internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed; electronic systems, equipment and instruments, namely positioning engine software for use with any device having an internet connection, for use in home and environmental monitoring, control and automation, namely software for use in determining the geographic position of any internet-connected device on which the software is installed; electronic systems, equipment and instruments, namely positioning sensors for use with any device having an internet connection, for use in home automation and environmental monitoring, control, and automation; electronic systems, equipment and instruments, namely dynamic intelligent software and sensors for use in connection with any device having an internet connection, for use in home and environmental monitoring, control, and automation, namely software that permits autonomous operation of any internet-connected device on which the software is installed, and motion sensors for use therewith; computer software for wireless router placement; computer hardware, namely, smart-home hubs for the connection of multiple smart-home devices to a network; telecommunications software for telephone and VoIP calling; computer software for use in remotely restricting access to computers and mobile phones; computer application software for security, namely, software for protecting families against explicit content; computer application software for controlling privacy and security settings on a wireless network; computer application software for the purpose of providing ad-blocking during internet usage

Services

Class 35

(1) Online retail department store services; data processing services, namely processing of data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals, gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers; data management for business purposes, namely, management of computerized files in the field of home and building security and automation; database and computerized file management; compilation and systemization of information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers into computer databases; data searches in computerized files for others in the field of home and building security and automation; subscriptions to telecommunications database services, namely arranging subscriptions to a database containing video clips and live views of surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and

audio speakers; retail store services in the fields of consumer electronics, and audiovisual equipment; retail store services in the field of general consumer merchandise, namely retail department store services; compilation and updating of knowledge bases, namely compilation of computerized databases and updating of data in computer databases, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets

Class 38

(2) Telecommunication services, namely, internet access provider services, and provision of information, advice and assistance relating thereto; electronic communication services, namely, electronic transmission of information gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers, and provision of information, advice and assistance relating thereto; electronic transmission of data, namely audio, video and multimedia files, and provision of information, advice and assistance relating thereto; transmission of messages, voice, video, and images through a global communications network, and provision of information, advice and assistance relating thereto; communications services, namely, transmission of voice, audio, and visual images by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, and provision of information, advice and assistance relating thereto; audio broadcasting services, namely broadcasting live audio feeds and audio clips over the Internet, and provision of information, advice and assistance relating thereto; video broadcasting services, namely broadcasting live video feeds and video clips over the Internet, and provision of information, advice and assistance relating thereto; data broadcasting services, namely broadcasting information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from the surrounding environment by surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet, and provision of information, advice and assistance relating thereto; video communication services, namely, electronic transmission of video clips from security and surveillance systems via the Internet, and provision of information, advice and assistance relating thereto; video telephone services, and provision of information, advice and assistance relating thereto; data communication services, namely, transmission of voice, audio, and visual images by telecommunications networks, wireless communication networks, the Internet, information services networks, and data networks, and provision of information, advice and assistance relating thereto; data streaming, and provision of information, advice and assistance relating thereto; providing voice communication services over the internet, namely voice over Internet Protocol [VoIP] services, and provision of information, advice and assistance relating thereto; consultancy and advisory services in the fields of electronic transmission, wireless networks, internet connectivity, broadcast, streaming and communication of audio, video, information and data, namely water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers over the Internet, and provision of information, and assistance relating thereto; electronic and wireless transfer, streaming and downloading of audio and video, and provision of information, advice and assistance relating thereto; providing access and connections to global computer networks via telecommunications, and provision of information, advice and assistance relating thereto; providing access to the Internet, and provision of information, advice and assistance relating thereto; providing multiple user access to global computer information networks

for the dissemination of text and images via computer terminals and the Internet, and provision of information, advice and assistance relating thereto; online news services, namely, news agency services for delivery over the internet, and provision of information, advice and assistance relating thereto; communications services via fiber optic networks and wireless broadband, namely providing Internet access via fiber optic broadband networks and wireless broadband networks, and provision of information, advice and assistance relating thereto; cloud communications services, namely electronic transmission of information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses via wireless communication networks, and provision of information, advice and assistance relating thereto; sending and receiving information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses to and from cloud repositories, and provision of information, advice and assistance relating thereto; providing multiple user access to global computer networks, and provision of information, advice and assistance relating thereto; providing customer access to the communications networks of others, and provision of information, advice and assistance relating thereto; streaming of information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses via a global computer network, and provision of information, advice and assistance relating thereto; podcasting and webcasting services, namely distribution of podcasts and webcasts via a global computer network, and provision of information, advice and assistance relating thereto; delivery, reception and transmission of voice messages, text messages, documents, images and information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses by electronic transmission, and provision of information, advice and assistance relating thereto; electronic-mail services, and provision of information, advice and assistance relating thereto; electronic data transmission, namely, providing services for the transmission of electronic media, namely music, television shows, movies, audio clips, digital photographs, and digital videos via on-line global and local computer networks, and provision of information, advice and assistance relating thereto; providing on-line chat rooms and electronic bulletin boards for transmission of messages among users, and provision of information, advice and assistance relating thereto; providing email and instant messaging services, and provision of information, advice and assistance relating thereto; mobile telecommunication network services, and provision of information, advice and assistance relating thereto; rental of telecommunication and wireless internet connection and networking equipment, namely rental of modems and network routers, and provision of information, advice and assistance relating thereto

Class 42

(3) Platform as a service (PAAS) featuring computer software platforms for use with home and environmental monitoring, control, and automation systems, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; software as a service (SAAS) services featuring computer software for use with home and environmental monitoring, control, and automation systems, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; application service provider featuring application programming interface (API) software for home and environmental monitoring, control, and automation, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; platform as a service (PAAS) featuring computer software for connecting and controlling internet of things (IoT) electronic devices, namely, audio speakers, computers, televisions, video monitors, set top boxes, personal digital voice recorders, MP3 players and recorders, MP4 players and recorders, smart audio speakers, DVD players and recorders, portable computer hardware, game consoles, home theatre systems, home

automation hubs, light switches, light dimmers, electrical outlets, electronic door locks, electronic window locks, cameras, video cameras, home security systems, heating and cooling systems, automobiles, garage door systems, ceiling fans, power switches, thermostats, garage doors, garden sprinklers, lawn sprinklers, fire sprinklers, digital door locks, air conditioners, air vents, electronic door bells, home security alarms, vehicle security alarms, fire alarms, fire and smoke detectors, carbon monoxide detectors, light bulbs, air purifiers, ceiling fans, electric cooktops, dehumidifiers, dishwashers, electric fans, garbage disposals, humidifiers, clothes irons, garment steamers, microwave ovens, range hoods, ranges, refrigerators, freezers, ice cube makers, space heaters, trash compactors, vacuum cleaners, wall ovens, toaster ovens, conventional ovens, washing machines, clothes dryers, slow cookers, electric rice cookers, deep fryers, electric food blenders, electric juicers, toasters, electric food processors, electric grills, ice cream makers, electric waffle irons, bread machines, electric coffee machines, electric tea kettles, electric espresso machines, electric wine cellars, food mixers, electric griddles, electric pressure cookers, electric skillets, electric woks, electric hot pots, electric food steamers, soda making machines, vacuum sealers, sous vide machines, food dehydrators, popcorn machines, electric can openers, electric knife sharpeners, electric egg cookers, electric food slicers, electric bottle openers, electric food grinders and mills, and electric yogurt makers, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, namely, home automation hubs, wireless and wired controllers, and electrical control systems, all for lighting fixtures, HVAC systems, security systems, household appliances, temperature control systems, humidity sensors, smoke sensors, door and window sensors, and cameras, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable security and anti-theft software applications, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software applications permitting users to identify and communicate with persons at their door, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable voice command software applications, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; computer services, namely, providing technology enabling users to access and control home and environmental monitoring, control, and automation systems via an internet website, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; computer services, namely, providing an internet portal featuring technology enabling users to remotely interact with home and environmental monitoring, control, and automation systems, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing online non-downloadable software for recording, viewing, storing, sharing and analyzing online audio and video, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of on-line non-downloadable software for the management and transmission of information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; design and development of computer hardware and software, and information,

consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; hosting a website for the electronic storage of data, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; monitoring of computer systems by remote access, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; monitoring of camera systems by remote access, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; installation, maintenance and repair of computer software, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; cloud recording and storage services, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; electronic storage of electronic media, namely, images, text, audio, and video data, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing an online non-downloadable internet-based application featuring technology enabling users to share videos, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing an on-line network environment that features technology that enables users to share live audio feeds, audio clips, live video feeds, video clips, photographs, and information regarding network connectivity, namely domain names, connection attempts, passwords, user profiles, and Internet Protocol (IP) addresses, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for recording, viewing, storing, sharing, and analyzing live audio feeds, audio clips, live video feeds, video clips, photographs, and information about water levels, air quality levels, humidity levels, heat levels, temperature levels, and the presence of smoke, fire, flood, gas, light, motion, sound, people, and animals gathered from surveillance systems consisting of cameras, motion sensors, ambient light sensors, air quality sensors, temperature sensors, microphones, and audio speakers, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; information technology support services, namely help desk services, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; provision of technical support services, namely, troubleshooting and diagnosing computer software problems in computer network systems, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; technical consultancy in the field of internet technology, namely, wireless networking, wireless internet connection, computing, computer networks, and computer software for managing, controlling, and accessing the internet and the world wide web, and information, and advisory services relating thereto provided on-line, via the internet, and via extranets; design, testing, and research services in the field of Internet technology, namely wireless devices, electronic devices, and software programs for managing, controlling, and access the internet and world wide web, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; technical consultancy and information in the field of routers, wireless network extenders and wireless access point (WAP) devices, and information, and advisory services relating thereto provided on-line, via the internet, and via extranets; design, creation, maintenance and hosting of websites or website portals, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; technical consultation and technical support services in the field of data communications, computer networking, communications, telecommunications, computer software and the internet, and information, and advisory services relating thereto provided on-line, via the internet, and via extranets; hosting computer software applications for use by others, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for interconnecting, managing, securing and operating local and wide area

networks, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for setting up and configuring wireless routers, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable security software, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for home and environmental monitoring, control, and automation, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for permitting users to identify and communicate with persons at their door, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable voice command and recognition software, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software used for controlling stand-alone voice controlled information and personal assistant devices, namely, cloud-connected and voice-controlled smart audio speakers with virtual personal assistant capabilities, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for remote monitoring and analysis of computer networks, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for monitoring and controlling communication between computers and automated machine systems, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable global positioning navigation software for use with internet of things (IoT) enabled devices in the nature of smart, autonomous vehicles and mobile machines, namely wheeled carts specially adapted for audio-visual equipment and motorized carts specifically adapted for audio-visual equipment, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for use in tracking and monitoring position and range of internet of things (IoT) enabled devices in the nature of smart autonomous vehicles, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for wireless router placement, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable telecommunications software for telephone and VoIP calling, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for use in remotely restricting access to computers and mobile phones, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for security, namely software for protecting families against explicit content, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of non-downloadable software for controlling privacy and security settings on a wireless network, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online non-downloadable software for the purpose of providing ad-blocking during internet usage, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; software writing services, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; monitoring of computer systems and networks for security purposes, and information, consultancy and advisory

services relating thereto provided on-line, via the internet, and via extranets; security services relating to routers, wireless network extenders and wireless access point (WAP) devices, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; protection of computer networks and computer systems against attacks from computer viruses, hackers, tampering, unauthorized intrusion and unauthorized manipulation of data, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; online data storage services, namely cloud computing provider services for general storage of data, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online, non-downloadable software for remotely restricting access to computers and mobile phones, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online, non-downloadable software for protecting families against explicit content, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; providing temporary use of online, non-downloadable software for controlling privacy and security settings on a wireless networks, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets; software as a service (SAAS) services featuring software for the purpose of providing ad-blocking during internet usage, and information, consultancy and advisory services relating thereto provided on-line, via the internet, and via extranets

(1) Sandpaper; abrasive rolls for use in sanding machines

Class 05

(2) First aid supplies and kits, namely, antiseptic burn relief medications, wound dressings, gauze for medical purposes, sterile gauze dressings, eye drops, stations and sterile solutions, namely eye washes, disinfectants for sterilization, antiseptics, antacids

Class 06

(3) Metal washers, hand-operated industrial metal hose reels; metal step ladders with wheels; nails and metal staples for construction or industrial use; staples for construction or industrial use; metal welding rods; metal butane fuel canisters sold empty; padlocks; wire rope; metal anchor shackles; metal shackles and hooks for rigging and lifting; rope thimbles of metal; yarding pulley blocks for use with wire ropes; metal flammable storage/safety cans for industrial use; ladders of metal; metal step ladders; casters of metal for ramps; casters of metal for work platforms; metal fasteners, namely cap screws, nuts, bolts, washers, socket head cap screws and screws; rigging and cargo load accessories, namely shackles and hoist hooks, wire rope thimbles, hooks and swivels for riggings; metal oil cans sold empty; tool boxes of metal, empty; welding rod holders; welding rod and wire; hose clamps of metal; pipe clamps of metal; metal beam clamps; metal plate clamps;

Class 07

(4) Power operated lifting equipment, namely, robotic scissor lifts and aerial work lifts; stands for hydraulic jacks; mechanical hose reels; hydraulic pipe benders; drill presses; band saw; electric

saws; sanders, electric, robotic sanders; grinders, namely electric bench grinders and hand held angle grinders; pallet jacks; electrically powered chain hoist; hoist trolleys; electric cable pullers; hydraulic hand operated shop presses and air pump operated shop presses for straightening, bending and removing gears, bearings and bushings; cut-off wheels for cutting and light grinding of both steel and stainless steel materials; diamond cutting blades for cutting granite, bricks, tile, roofing tiles, brick and block pavers, refractories, concrete, and masonry materials; lubrication equipment, namely, electric operated greasing products, namely, air operated grease guns; oil pumps and drains for extraction and capturing oil from motor vehicles and machines, namely, waste oil drains, manual fluid extraction pumps; fluid transfer pumps for transferring oil, gas, diesel and chemical liquids for industrial use; grease gun adapters; grease pumps for dispensing of grease; fluid evacuators for extraction of oil, coolant and transmission fluids from engines and transmissions in the automotive, industrial and marine industries; waste oil drain pumps; grease guns to lubricate joints and bearings of machinery; hand operated and hydraulic materials handling apparatus for loading and unloading pallets, boxes and equipment namely, hydraulic pallet jacks and scissor lifts to provide access to elevated work areas; hydraulic floor jacks to lift vehicles and machinery; hydraulic lifting service jacks; jack adapters to allow for quick and easy removal and installation of fuel tanks; hydraulic transmission jacks to install transmissions, differentials or transfer case; lifting apparatus for lifting engines, namely engine cranes; engine tillers; elevating apparatus, namely safety stands for holding cars and trucks off the ground; hand and air operated hydraulic pumps, hydraulic jacks and hydraulic rams for repair of automobile bodies and frames; paving breakers; points and chisels for paving breakers; Welding tools, machines and accessories, namely , electric and gas welding machines, gas welding guns, welding torches; electrical generators, namely emergency gas powered generators producing A/C and D/C electricity; pressure washers; vacuum cleaners; Power tools, namely, electric drills, mitre saws, circular saws, tile saws, reciprocating saws, floor sanders, road sanders, robotic sanders, sanders, electric, angle polishers, floor polishers, power-operated angle polishers, robotic floor polishers, angle grinders, impact wrenches, cordless electric combination drills, cordless electric drills, cordless electric hand drills, hammer drills, routers, rotary tools, namely, rotary drills, rotary hammers, rotary pumps, rotary sanding machines, biscuit joiners, mitre saw stands, router tables, drill bits; coated abrasives, namely flap discs for power-operated grinders, floor sanding discs, metal sanding discs, sanding belts for use with sanding machines, flap discs for power-operated grinders; Air tools, namely, cut-off tools for cutting metal, air sanders, air drills, air ratchets; air compressors, air staplers, air nailers; robotic scissor lifts, milling machines and routers being machine tools; Glue guns; drill presses; air ratchet wrenches; air impact wrenches; air angle grinders; air die grinders; air drills; air hammers; air chipping hammers; hydraulic rams; air-line filters, lubricators and pressure regulators for use in conjunction with air-line systems (air compressors, air-lines and air hoses) for the delivery of clean, lubricated and pressure controlled air to pneumatic powered tools; impact drivers; hydraulic oil jacks; bandsaws; glue guns; non-metal ratchet handles being machines

Class 08

(5) Hand tools; socket set, socket sleeves, ratchets, ratchet handles, ratchet repair kits, wrenches and wrench sets, bolt cutters, pliers and plier sets, tin (aviation) snips, punch and chisel sets, wood chisels, taps and dies and sets being hand tools, gear pullers, nutdrivers and nutdriver sets, screwdrivers and screwdriver sets, rubber mallets, hammers, axes, bench vises, drill bits and drill bit sets for hand-operated tools, eyelet tools, hand clamps for woodworking, metalworking and welding clamps, scissor sets, crimping iron hand tools for crimping hose, crimping pliers for crimping hose, jigsaw blades and sets, flaring tools for expanding brake line ends, hacksaws and putty knives, wall scrapers for removing paint or wallpaper, paint scrapers, harmonic balancer puller set; fork type separator set; pick and hook sets for use in engines, transmissions, electrical

systems and interior assemblies; surface scraper and removers, namely, paint scrapers and engine scrapers to remove gaskets, carbon buildup and debris from engine components; blades for hand saws, crosscut saw blades and wood chisels, vises, hand files, hand-operated screw extractors and sets of hand-operated screw extractors, sharpening stones, tap and die sets; telescoping shaft for hand-operated hand tools, magnetic and pincer style hand-operated hand tool for picking up parts; emery grinding wheels; grinding burs; manually operated grease guns; manually operated grease pumps; accessories for manual grease pumps namely grease gun adapters; manually operated oil pumps; clamps for holding grease guns for mounting; vises; Pipe wrenches, pipe threaders, pipe vises, Lifting jacks, hand-operated; hand-operated jack stands; hand tools for use in the repair and maintenance of automobiles; air tool oilers; shovels, rakes, pickle forks to separate ball joints, tie rods, pitman arms and shock absorber links, snow shovels, ice scrapers, post hole diggers; pocket knives; ratcheting tie down straps to hold down cargo or equipment during transport; spark plug sockets being hand tools; hand-held tools, namely, pallet jacks for lifting and moving pallets, diamond cutting blades, grease hoses, hand-operated grease guns, bottle jacks, scissor lifts, manually operated routers; lubrication equipment, namely, hand operated greasing products, namely, hand powered grease guns; drill press vises; battery powered motorized grease guns; hand-operated lifting service jacks; welding pliers; wrecking bars and crowbars; manually operated bottle jacks; power jigsaws

Class 09

(6) Protective and safety clothing, namely fire retardant, arc resistant, chemical and acid-resistant clothing; disposable coveralls and overalls for protection against spontaneous flash fire in industrial and manufacturing environments, reflective clothing and clothing to protect against accidents, namely coveralls, overalls, vests, shirts, t-shirts, hats, jackets, parkas and pants, welders clothing, namely, flame retarding jackets, flame retardant coats, protective masks; protective gloves and hand pads for industrial use; boots for protection against accidents, irradiation and fire; safety boots; steel-toe boots; shoes for protection against accidents, irradiation and fire; safety glasses; safety goggles; safety restraints, other than for vehicle seats and sports equipment, namely, safety harnesses; hard hats; protective ear covering shields; protection masks for welding, brazing, soldering and plasma cutting; protective face masks for the prevention of accident or injury; protective industrial respiratory masks; respiratory masks for the prevention of accident or injury; fall protection equipment for fall restraint and fall arrest, namely safety harnesses, safety lanyards, safety rope grabs, safety belts, safety self-retracting lifelines, safety vertical lifelines, safety horizontal lifelines, safety ladder systems, safety anchors, safety confined space and rescue, namely harnesses, self-retracting lifelines and winches anchored to tripods; tape measures; non-contact infrared thermometer; dial indicator for accurately measuring small distances and angles through amplification of measurements; steel caliper; dial caliper; electronic caliper; hand and electric operated micrometers and calipers for measuring thickness tolerances; tire pressure gauges; tire tread depth gauges; heavy duty circuit tester; battery booster cables; inverters for power supply; general purpose D-cell batteries; welding shields, welding curtains, face shields, welding helmets; powered air purifying respirator welding helmets; fire extinguishers; road and traffic safety devices, namely traffic cones, delineators, flags, wands, barricade lights, cable and hose protectors; luminous safety road signs; luminous safety signs; mechanical safety road signs; safety equipment, namely, air tanks made of metal for providing temporary portable air supply for use in construction and heavy industry; Eye shields specially adapted for protective helmets, lenses for workmen's protective face-shields, visors for helmets, filter and protection lenses for welding helmets and workmen's protective face-shields, magnifier lenses as eye protective devices; knee protection, namely knee pads for workers; emergency eyewash station; fire blankets; lockout devices for use with electrical switches and industrial valves, namely, safety

padlocks, electrical plug and circuit breaker lockouts, butterfly valve lockouts; electrical wire connectors; carpenter levels; lanyards for safety purposes for fall protection; extension cords; hoods for attachment to safety parkas, jackets and coats; rechargeable lithium-ion batteries; lithium batteries; AA batteries; AAA batteries

Class 10

(7) Hearing protection, namely ear plugs and ear muffs; eye wash bottles; chemically activated cold gel packs for medical purposes; chemically activated hot gel packs for medical use; splints

Class 11

(8) Flashlights and flashlight accessories, namely, bulbs, and lenses; task lighting products, namely, incandescent hand lamps, fluorescent hand lamps, LED hand lamps, cord reel lights, multi-outlet cord reels, temporary construction site lighting, namely, socket lights, string light sockets and guards; portable lights, namely, hand held quartz lights; lights with clamps and handles, pedestal lights, standing lights; task lights; automotive and industrial truck lighting; butane stoves, portable electric heaters; space heaters for industrial use; heat guns

Class 12

(9) Wheel dollies; mechanics' creepers; rolling seats to provide technicians with comfort and access while working around under lifted and non-lifted vehicles; drum dolly; platform trucks; utility carts; wheeled table carts specially adapted to transport tools; hand trucks; wheelbarrows; anti-skid chains for vehicle tires; tire chains for land vehicles; creepers, namely wheeled creepers for vehicle repair; brake drum handlers; steering wheel puller set; slide hammer puller set; strut coil spring compressor set

Class 16

(10) Newsletters in the field of hazards and fall protection systems in the workplace; marker pens; solid paint markers

Class 17

(11) Vulcanized fibre washers; washers of rubber and vulcanized fibre; electrical tape; air hoses; duct tape, masking tape; hydraulic hose, welding/steaming hose made of rubber; thermal insulation for use in clothing; grease hoses for pneumatic tools

Class 18

(12) Bags for campers

Class 19

(13) Crash barriers not of metal

Class 20

(14) Reels, not of metal, non-mechanical, for flexible hoses; work benches; electric bench grinder stands; tables for machines

(1) Downloadable motion picture films, television series, and videos, all featuring drama, comedy, documentary, live action, animation and children's and family entertainment; downloadable musical sound recordings; prerecorded DVDs and video discs all featuring motion picture films, television series, and videos, in the nature of drama, comedy, documentary, live action, animation and children's and family entertainment; prerecorded DVDs, video discs, CDs, audio discs, and MP3 files all featuring music; downloadable computer software and downloadable applications for computers, laptops and mobile phones for downloading, streaming, playing, and viewing digital entertainment content, namely, motion picture films, television series, videos, web series, music, and audio books; downloadable computer software and downloadable applications for computers, laptops and mobile phones for downloading and viewing written articles, electronic magazines, and electronic books; downloadable computer software for providing information, audio clips and video clips about motion picture films, television series, videos, web series, music, written articles, magazines, and books; downloadable image files containing artwork, text, and graphics relating to motion picture films, television series, videos, web series, music, written articles, magazines, and books; downloadable fiction and non-fiction books and audio books on a variety of topics; downloadable written articles and magazines, all featuring entertainment, and current and topical events

Class 16

(2) Fiction and non-fiction books on a variety of topics; general feature magazines and printed periodicals featuring entertainment, and current and topical events

Services

Class 41

(1) Creation, development, production and distribution of motion picture films, videos, web series, and scripted, documentary and animated television series; creation, development, production and distribution of music; creation, development and production of live stage performances, live music performances, and live acting performances; entertainment services, namely, providing online non-downloadable video clips and audio clips, all in the fields of current and topical events, and drama,

comedy, documentary, live action, animation, and children's and family entertainment; entertainment services, namely, providing online non-downloadable video clips and audio clips about motion picture films, television series, videos, web series, music, books and magazines; providing non-downloadable scripted and documentary motion picture films, web series, videos and television series, all featuring drama, comedy, documentary, live action, animation and children's and family entertainment via broadcast television, satellite, cable television, global computer networks, websites, wireless devices, mobile web application software, set top boxes, webcasts, and on-demand streaming media; providing non-downloadable prerecorded music provided through satellite, global computer networks, websites, wireless devices, mobile web application software, webcasts, and on-demand streaming media; providing online non-downloadable fiction and non-fiction e-books; providing online non-downloadable general feature magazines and written articles featuring entertainment, and current and topical events; providing entertainment information in the field of motion picture films, television series, videos, web series, music, fiction and non-fiction books, fiction and non-fiction audio books, and general feature magazines provided via a website; publishing of books and magazines; publishing of electronic publications; digital video and audio recording publishing services in the field of motion picture films, television series, videos, web series and music

Class 42

(2) Providing online non-downloadable software and web application software for accessing, downloading, streaming, playing, and viewing digital entertainment content, namely, motion picture films, web series, videos, music, and television series; providing online non-downloadable software and web application software for downloading and viewing written articles, electronic magazines, and electronic books; providing online non-downloadable software and web application software for providing information, audio clips and video clips about motion picture films, television series, videos, web series, music, written articles, magazines, and books

Computer hardware; computer hardware peripherals, namely, data cables, network cables, audio /video cables, audio/video cable connectors, power cords, computer display screens, touch screens, projection screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files, computer scanners, computer printers, computer speakers, computer stands, joysticks for use with computers, other than for video games, microphones, webcams, digital cameras, blank USB flash drives, CD-ROM drives, digital disc drives, disk drives for computers, DVD drives, hard disk drives, electronic pens, touch screen pens, stylus pens for use with touch-screens; tablet computers; computer mice and wireless computer mice; computer keyboards; mobile phones; cellular telephones; mobile phone peripherals, namely keyboards for mobile phones, mobile phone chargers, stands adapted for mobile phones, hands free kits for mobile phones, headsets for mobile telephones, dustproof plugs for jacks of mobile phones, in-car telephone handset cradles; mobile phone accessories, namely cases adapted for mobile phones, straps for mobile phones; smart phones; parts for mobile telephones; network communication apparatus, namely computer network adapters, computer network switches, computer network bridges, computer network server, network routers, network interface cards; electronic communication equipment, namely modems, ethernet adapters, ethernet switches, video cable adapters, fibre-optic cables, fibre optic light and image conduits; telephones; pedometers; downloadable software applications for mobile phones, smart phones, notebook computers, laptop computers, tablet computers, handheld computers for use in digital painting, drawing and sketching, for use in graphic arts design, for organizing and viewing digital images and photographs, for processing digital images, for digital animation, for creating, sending and receiving e-mail, for optical character recognition, for word processing, for computer aided mechanical design, for playing computer games, video games, virtual reality games, and interactive video games, for transmission of graphics and photographs to mobile telephones, smart phones, computers for predictive and corrective text entry for use with mobile phones, smart phones, and computers; and computer video control devices, namely, trackballs; computer programs, namely operating system programs; computer programs for playing games; computer programs, namely, game software for use on computers and video game players; computer game software; video game software; video and computer game programs; downloadable computer

games; downloadable video games; computer programs for controlling the display of television programs, delivered over global information networks; computer programs for managing communications and data exchange between handheld computers and desktop computers; computer user manuals in electronic format; computers; computers, namely computers for use in automobiles and computer operating systems and computer software programs, namely mapping software, systems monitoring software, and wireless communication software for use in automobiles; wallet-sized personal computers and computer operating systems and computer software programs, namely word processing, scheduling, e-mail administration, and Internet access and navigation software for wallet-sized personal computers; optical disc players and computer operating system software for optical disc players; computer hardware, computer operating systems and computer software programs for sending and receiving television and global communication network transmissions; telephones and computer programs for controlling the operation thereof; telephones for use in telecommunications over global communication networks and computer programs for controlling the operation thereof; entertainment consoles comprising computer hardware and software developed to provide audio, video and multimedia programs such as material from the Internet, and television programs; electronic pagers and software for electronic paging; handheld computers; handheld computers for playing games and operating system software for use therewith; microcomputers; computer software for word processing, spread sheets, database management, e-mail, scheduling, games, electronic reference materials, financial management, and Internet access and navigation; computer application programs and operating system programs for use with communications servers; computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles; computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the internet; computer network operating software and utilities; computer software that allows users to create, edit and share digital media content created by users; computer software for developing, managing and operating intranet sites; computer software for inventorying and monitoring computer hardware and software assets and use within an organization; computer software for use by computer network administrators to deploy and manage application software and network server software; computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phone, portable computers, mobile phones to connect to wide area networks; operating systems software for use in playing electronic games; security software, namely computer software for managing secure communications over computer networks and global computer networks; computer software for use in browsing, accessing, searching, reviewing, purchasing, downloading, and providing ratings on digital content, namely digital images, television shows, movies, computer games, and gift cards; computer software for use in searching and making purchases in online marketplaces for software applications; computer software for electronic transmission via the Internet and display of digital content, namely digital images, television shows, computer games, movies; computer software, namely computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software; video game machines for use with televisions and computers, and operating system software for use therewith; computer software for viewing, searching and playing pre-recorded audio and Internet radio; computer software and computer programs for database management, data storage and backup, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, remote Internet access, remote technical support, cloud computing, data sharing, data security,

administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, documents, publications, videos, comments and multimedia content among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; computer software for use in enterprise resource planning (ERP) and customer relationship management (CRM) in the fields of business operations, business management, accounting, marketing, ecommerce; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer operating system software; computer software for playing video games and computer games, computer network security, anti-virus protection, and intrusion detection and prevention; computer graphics and graphical user interface software; computer software for running development programs and application programs in a common development environment; website development software; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for developing and operating cloud computer networks and applications; computer software for computer system and application development, deployment and management; hardware for telecommunications for connecting devices via in home phone and electrical wiring, namely, computer networks hubs, computer servers, set-top boxes, computer switches and computer routers designed to provide in-home voice over internet protocol (voip) communications; computer and video game systems devices, namely, motion sensors and biometric sensors for access control systems, biometric sensors for monitoring and tracking neural impulses and muscle activity, cameras, video projectors, headphones, and microphones; electronic game equipment, namely, display video screens adapted for video games, peripheral devices, namely, monitor stands, controller stands, virtual reality glasses, headsets, headphones, microphones, and styluses for communicating with a television or computer for playing electronic games; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; wearable computers, namely smart rings, smartwatches, smart glasses, wearable video display monitors, wireless headsets for use with smartphones, wireless headsets for use with mobile phones, smart bands, wearable activity trackers, virtual reality and mixed reality glasses and headsets; wearable computer peripherals, namely wireless computer scanners, wireless computer mice, wireless keyboards for mobile telephones, wireless keyboards for computers; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; keyboards, mice, styluses, monitors, scanners, cameras, microphones; computer display monitors; computer software, namely, software for setting up, operating, configuring, and controlling wearable computer hardware and wearable computer peripherals; carrying cases and holders for use with virtual reality headsets; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; 3d spectacles; hologram apparatus, namely hologram projectors, headsets and glasses; holographic apparatus, namely holographic projectors, screens, headsets and glasses, for projecting holographic video, still images, graphics and multimedia files; computer hardware and software for automobiles, namely, computer programs for monitoring automobile performance, for mapping and navigation, for electronic mail and wireless digital messaging, mobile phone communication, cellular phone communication for maintaining personal directories, contact lists, address and telephone number lists; computer software and computer programs for virtualization, networking, collaboration, remote access, creating, offering, hosting, and delivering online conferences, tours, presentations and interactive discussions; computer software, namely, a full line of computer software for business productivity, business IT service management, business computer devices management,

business IT security management, business administration and management, accounting, and marketing in the fields of business, and computer software to facilitate e-commerce business transactions via a global computer network; computer operating system software; network access server operating software; computer programs for managing communications and data exchange between computers and electronic device; computer and video game systems devices, namely, electronic sensor devices for capturing gesture, facial, voice, and object recognition, cameras, headphones, and microphones; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; computer peripherals, namely computer monitors and screens for displaying data and video; audio recorders; compact disc recorders; digital versatile disc recorders; digital video recorders; digital voice recorders; audio transmitter units; optical transmitters; radio transmitters; video transmitters; electronic and optical communications instruments and components, namely, flat panel display screens, display video screens for video games, and touchscreens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system and portal interface; downloadable cloud computing software for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system and portal interface; computer software for monitoring cloud and application performance; downloadable computer software for use in automating the allocation of data processing and computing tasks between computer hardware resources and in private and public cloud environments; downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats and events; microcontrollers; computer chipsets for use in transmitting data to and from a central processing unit; microcontrollers and chipsets for the secure transmission of data; computer hardware modules for use with the internet of things (iot); computer software to enable a data connection between internet of things (iot) devices and mobile connected computing devices and the internet or secure networks; software application platform for connecting people, services and devices to the internet; downloadable software for the home automation of electric control systems for HVAC; downloadable software for the home automation of electric control systems for home security systems; downloadable software for the automation of electric control systems for lighting; downloadable software for the home automation of electric control systems for electrical power switches; downloadable software for the home automation of electric control systems for kitchen appliances; embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; downloadable mobile application software for the home automation of electric control systems for HVAC; downloadable mobile application software for the home automation of electric control systems for home security systems; downloadable mobile application software for the automation of electric control systems for lighting; downloadable mobile application software for the home automation of electric control systems for electrical power switches; downloadable mobile application software for the home automation of electric control systems for kitchen appliances; downloadable mobile application software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; downloadable mobile application software for factory automation, namely, software to integrate manufacturing machine operations, track problems and generate production reports; operating system software for cloud computing services and internet of things

(iot) devices; computer software used for running cloud computing based applications; computing downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; application software for cloud computing services; operating software for cloud computing devices and the control and secure management of cloud computing devices; computer software for artificial intelligence (ai) processing; computer chips for artificial intelligence (ai) processing; computers and computer servers for artificial intelligence (ai) processing; computer operating system software; computer operating system software that may be embedded in other software; computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software runtime systems, namely, computer software systems comprised of computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, application programming interface (api) software for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, software for implementing a computer programming language, and computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; integrated circuit modules; integrated circuit [IC] memory cards and components; computer hardware for processing math; computer chips; silicon chips; micro processors; graphics processor units; central processing units; software programmable microprocessors; downloadable computer software for collection, storage, analysis and presentation of computer data in the fields of forensic science for forensic analysis of security events and for security compliance; downloadable computer software, namely, computer software for real-time analytics and debugging, computer software for user authentication, customer engagement, customer relationship management, computer software for providing messages, push notifications and information in the field of video games, computer software for user data capture, storage, and analysis, computer software for allowing users to perform electronic business transactions via a global computer network, computer software for generating coupon codes, payment processing, payment fraud detection, and computer software for creating, using and managing virtual currency; computer software for connecting computers and for enabling cloud; computer programs for connecting to remote computers and computer networks; computer software for use in providing multiple user access to a global computer information network; downloadable applications for mobile phones to provide access to the internet; downloadable applications for tablet computers to provide access to the internet; downloadable computer software for use in assessing, monitoring, administration and management of data centers and datacenter devices, and public and private cloud computing IT and application systems and resources; downloadable computer connectivity software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on cloud-based servers; downloadable computer software for operating, monitoring and

managing decentralized cloud storage facilities; software for creating and managing cloud, high performance computing, cluster and grid computing resources, hybrid operating system environment and computing networks; software interface for accessing cloud, high performance computing, cluster and grid computing resources, hybrid operating system environment and computing networks for workload management by administrators, managers and end-users; software for policy-based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing resource availability and status information, installation of software and provisioning operating system changes, power management, software upgrades management, accounting and usage management for reporting and billing, third-party application integration management, workload policy management, and job scheduling for both batch and interactive jobs across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments, and computing networks; software for governance, monitoring, managing, profiling, and indicating available computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling, operating system provisioning, power management, and computing resource policy implementation that enables administrators, managers, and end users to automate, control, and utilize multiple computing resources across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments and computing networks; software for statistical diagnostic and performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues, and computing nodes; software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, highperformance computing environments, and computing networks; software for dynamic command-line and graphical management of computing resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; software for interface with and collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; software for peer-to-peer sharing of domain-specific policies and providing peer to peer native resource management support; downloadable computer programs for assisting developers in creating program code for use in internal computer networks and global communication networks; downloadable computer programs for running development programs and application programs in a common development environment; computer software development tools for network servers and applications; downloadable software that enables users to share and collaboratively develop software, computer code and user-generated content; computer servers; downloadable computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software for browsing the internet; downloadable computer search engine software; computer browsing software, namely, software for browsing the global computer network and private networks; search engine software; graphical user interface software; voice-recognition software;

computer search engine software; software for designing business processes in a visual form; software for accessing and integrating data from multiple databases, business software applications, and software as a service (saas) services; software for designing and automating workflows within and between business software applications and business software as a service (saas) services; graphical user interface software, namely, toolbar software for use with search engine software and websites; downloadable computer software for creating advertising signage content for third parties; downloadable computer software for use in generating streaming advertisements on the web sites of others; downloadable computer software featuring software for managing and controlling product display on websites and on-line retail stores; downloadable computer software featuring software for product merchandising; computer application software for advertisers, marketers, and content providers to reach, engage, and interact with online users for the purposes of promotion or advertising; computer software for the design, execution and management of advertising and marketing campaigns; computer software for generating reports and analytics for advertising and marketing campaigns; data processors, namely signal processors, video processors, word processors; data processing apparatus, namely, data cables, interface cards for data processing equipment in the form of printed circuits, central processing unit clocks, central processing unit coolers, central processing unit fans, computer chipsets for use in transmitting data to and from a central processing unit; computer memory boards; computer memory expansion modules; blank flash memory cards; blank secure digital (SD) memory cards; memory card readers; memory cards for video game machines; random access memory [RAM] cards; secure digital (SD) memory cards; mobile data terminal (MDT); downloadable computer software for creating searchable databases of information and data; computer chipset for use in transmitting data to and from a central processing unit; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; Network servers; internet servers; intranet servers; video servers; video servers; IP video servers; servers for web hosting; electronic mail servers; internet servers; cloud servers; Downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; transceivers for television and global communication network transmissions that transmit them to a television or other display device, and computer operating programs for use therewith; entertainment system comprising a computer, computer display screens and computer keyboards; hand held computers; computer operating system software for use with electronic equipment for playing games; computer programs for managing communications and data exchange between hand held computers and desktop computers; computer software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content for the facilitation of communications between multiple users via computer networks, communication networks and the Internet; downloadable computer software for facilitating online communications between peer professionals via global communications networks, the internet and wireless networks; computer software for use as an application programming interface (API) for facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant messages and online social networking services; computer communication software which enables multiple users to post messages and memoranda, share files, and synchronize calendars; application programming interface (API) software which facilitates online social networking; electronic devices for communications, namely, telephones, mobile telecommunications handsets, headsets, computer speakers, microphones, earphones, webcams and video cameras; headphones; downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing audio files, video files, image files;

downloadable computer software for use in developing web sites, operating electronic mail and providing computer security; recorded computer software for use in developing web sites, operating electronic mail and providing computer security; downloadable computer security and authentication software for controlling access to and communications with computers; recorded computer security and authentication software for controlling access to and communications with computers; downloadable computer software for computer network security, anti-virus protection, and intrusion detection and prevention; recorded computer software for computer network security; Silicon microprocessors; microcontroller units; microcontrollers and chipsets for the secure receipt and transmission of data; microcontrollers and chipsets optimized for use in access control, identification, authentication, security and safety; communications receivers, namely, radio receivers; computer hardware modules for use in security and secure power management for internet connected devices; security processors, namely, computer hardware for protecting data against unauthorized access, disclosure, alteration, duplication and substitution; microprocessor core; computer security hardware for firewall and anti-virus protection; computer security hardware for network traffic analysis and security management systems; hardware-based Roots of Trust (RoTs); boot software; integrated circuits for providing authentication; nonfungible tokens (NFTs) for use in authenticating ownership of digital files; security token hardware for user authentication; computer software for remote attestation and certificate-based security; computer software for use in access control, identification, authentication, security and safety; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; downloadable computer programs for data authentication via blockchain; downloadable software with age verification and product authentication features for ensuring a secure user experience; software for providing authentication of parties to a financial transaction; downloadable computer programs in the field of non-fungible tokens (NFTs) for use in authenticating virtual ownership of digital files; downloadable computer software for parental control of computer and internet usage; downloadable computer software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; downloadable computer software for remotely managing device and application settings; downloadable computer software for finding and displaying a user's location; downloadable computer software for global positioning system (GPS) tracking devices; downloadable computer software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; global positioning system (GPS) receivers; global positioning system (GPS) transmitters; Vehicle mounted GPS sensor for determining the rate of motion for a vehicle; computerized vehicle engine analyzers; electronic speed controllers; downloadable software, namely, software for connecting to the cloud to allow for collaboration among users across other software applications; downloadable software, namely, software for integrating artificial intelligence and intelligent agents into other software; downloadable software, namely, software for allowing real time updates to software applications accessible by multiple parties; downloadable software, namely, software for enabling interconnectivity between other software applications and platforms; downloadable software, namely, software for transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, digital media, images, music, audio, video, movies and animations between multiple users; password management and protection software for mobile digital electronic devices and computing devices; downloadable computer software for use in connection with developing video analytics applications; computer software platform, namely software allowing users to aggregate their financial, banking and business data; computer software for word processing; computer software for processing digital

images; computer software for video editing; downloadable software for editing photos; downloadable software for note-taking; downloadable software used for computer system analysis and optimization; downloadable computer software for artificial intelligence processing and deep learning; downloadable computer software development libraries, namely, downloadable electronic data files consisting of software development tools for model development and training; downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels, communication compression, training optimization, training agnostic check pointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; news software, namely, computer software for downloading and viewing music videos, television shows, news and sports webcasts, motion pictures, movies, home videos, video recordings of special events, downloadable multimedia news podcasts, downloadable multimedia news webcasts, downloadable multimedia news weblogs; computer hardware for telecommunications; changeover switches for telecommunication apparatus; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical transformers for telecommunication apparatus; indicator lights for telecommunication apparatus; microphones for telecommunication apparatus; computer software and downloadable applications for buying and selling photographs; computer software for organizing and viewing digital images and photographs; downloadable applications for handheld computers, mobile phones and tablet computers to take and edit photographs; computer software to allow employees to access and view online articles and educational audiovisual content and information in the field of computer technology; computer software for collecting health and wellness data during training exercise; downloadable computer software for managing user health information, namely, tracking, compliance and motivation to keep a consistent sleep schedule for optimal user health; downloadable mobile application for providing a dashboard of user-personalized health and wellness information; downloadable mobile application for setting, tracking, and monitoring health and wellness goals of users; downloadable computer software to facilitate team and employee collaboration, communication and interaction; computer software for use by workers, employees, employers, and managers to manage work, schedules and time, communicate with their team and organization, enable multiple-user online communication, and access and interact with other work-related applications and resources; computer software that enables users to access, publish, track, edit and share documents, emails, voice and text messages, contact information, electronic calendars and agendas, news bulletins and company announcements; computer software for use in video conferencing, audio conferencing, web conferencing and real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; computer networking hardware.

Services

Class 35

(1) Business services, namely, business consultation services, business advice and information services namely providing access to portals containing resources helpful for partners to promote their business and their goods/services; business marketing consulting services; business consulting services in the field of business networking and business relocation; business networking; providing consumer product information via the Internet pertaining to computers, computer hardware and software and systems, and computer games; providing office functions, namely providing consumer product information in the field of office computer equipment via a website; retail store services in the field of office products; retail and online retail store services

featuring computers, computer hardware, computer peripherals, laptops, tablets, portable music players, personal digital assistants, cell phones, digital media streaming devices, computer software, applications for personal computers, video game consoles, video game controllers, video games, gaming software, gaming equipment, security services, downloadable movies and television shows, webcams, books, clothing, back packs, messenger bags, computer bags, notebooks, journals, laptop sleeves, stickers, pens, pencils, toys, gift cards and novelty items, virtual, mixed, and augmented reality products and accessories; operating online marketplaces featuring software applications; providing retail store and prepaid subscription services featuring downloadable, pre-recorded text, data, image, audio, video, and multimedia files, provided via the internet and other electronic and communications networks; advertising and directory services, namely, promoting the services of others by providing a web page featuring links to the websites of others; advertising the goods and services of others via social media; advertising the goods and services of others via blogs; advertising, marketing and promoting the goods of others using signage; advertising of goods and services of others via local and global computer networks; advertising by transmission of on-line publicity for third parties through electronic communications networks; rental of advertising space; rental of advertising space on web sites; rental of advertising billboards; advertising the goods and services of others via global computer networks; on-line advertising the goods and services of others on computer communications networks; providing business information in the fields of marketing and business via a website; promoting the goods and services of others by providing, searching, browsing and retrieving information, sites, and other resources available on global computer networks and other electronic and communications networks for others; organization and conducting of commercial exhibitions in the field of computers, artificial intelligence, information technology, and electronic business transactions via a global computer network; charitable services, namely, organizing, developing, and conducting volunteer and not-for-profit programs and volunteer and not-for-profit projects aimed at increasing technological development in rural and underdeveloped communities; organizing and developing charitable projects that aim to promote the importance of reading, writing, science, technology, engineering and math; promoting public awareness of and the need to support social and economic development; charitable services, namely, organizing and conducting volunteer programs, community service projects and neighborhood improvement projects, information, advice and consultancy regarding the aforementioned services; organizing, arranging, conducting and promoting of trade shows, business, commercial, and promotional exhibitions in the fields of computer hardware, software, telecommunications, and high technology and in the field of development of computer programs and systems; charitable services, namely, organizing and conducting volunteer programs to build and grow sustainable computer science programs through partnerships between classroom teachers and technology industry volunteers in the fields of technology education and literacy in schools; business management services in the agriculture field; business consulting services in the agriculture field; provision of business information relating to agricultural industry; analysis of business management systems, business research services, business information services in the agriculture field; compilation of business directories, compilation of statistics in the agriculture field by using technologies that include the internet of things (iot), blockchain, robotics, software as a service (saas), platforms as a service (paas) and artificial intelligence; business management and advertising services for others, namely, assisting others in direct electronic mail advertising, assisting others in placing and running advertisements on computer networks and global communications networks; business on-line information services, namely, providing databases and website links to other content providers in the field of business organization and management; marketing consulting services, promoting the goods and services of others over the Internet, sale and retail services relating to computer software, applications, computer and video games and audio visual content; online retail services relating to

computer software, applications, computer and video games and audio visual content; business data analysis services in the field of computer technology; analyzing and compiling business data; services for research relating to customer behavior, satisfaction, attitude, effectiveness; computerized database management; marketing data integration; market research and market analysis; statistical analysis in the fields of computer hardware and software, artificial intelligence, information technology; compilation of market statistics; economic forecasting; business and market research and analysis; marketing research; database marketing services in the form of compiling customer specific databases; online service for connecting social network users with retailers for the purpose of facilitating discounted purchases; compilation of statistics; systemization of information into computer databases; compilation of advertisements for use as web pages on the Internet; analyzing and compiling business data; advertising on the Internet for others; distribution of advertising materials for others; advertising analysis; promoting the goods and services of others through advertisements on the internet; promoting the goods and services of others through advertisements on the internet; pay per click advertising for others; developing and coordinating volunteer projects for charitable organizations; providing business information via a website pertaining to computers, computer hardware and software and systems, and computer games; advertising the goods and services of on-line vendors via a searchable on-line guide; career advancement consultancy services; information services relating to jobs and career opportunities; promotion of goods and services of others through sponsorship of sports events; arranging subscriptions to video games and computer games for others; mail order services in the field of computer programs, computer related books and publications, and other computer related products; business management consultation; business organization consultancy services; business administration consultancy; business marketing consulting services, advertising and business management consultancy, advisory services relating to business management and business operation; on-line marketplace services, namely, operating an on-line marketplace featuring information, data, images, and digital files; news clipping services.

Class 41

(2) Arranging and conducting business conferences; organization and conducting of virtual workshops in the field of computers, artificial intelligence, information technology, and electronic business transactions via a global computer network; organizing, arranging, conducting business conferences in the fields of computer hardware, software, telecommunications, and high technology and in the field of development of computer programs and systems.

Class 42

(3) Computer software rental; rental of computer software and programs; computer software design; software design and development; updating of computer software; developing and updating computer software; rental of application software; software authoring; computer hardware and software development; computer software consultancy; software development in the framework of software publishing; maintenance of computer software; maintenance of software for Internet access; customizing computer software; smartphone software design; installation of computer software; rental of software for Internet access; research and development of computer software; debugging computer software for others; computer hardware and software design; design and development of computer hardware and software; advisory services relating to computer software; computer services, namely, providing on-line non-downloadable software for database management, data storage and backup, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, virtualization, networking, collaboration, remote access, remote support, remote technical support services in the form of troubleshooting of computer hardware and software problems, cloud computing provider services for general storage

of data, cloud computing providing software for database management, cloud computing video hosting web sites, cloud computing web hosting services, data sharing, data security, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, periodical publications, newspapers, newsletters, textbooks, books, booklets, videos, namely music videos, digital video recordings of television shows, movies and films, and user-generated videos, comments and computer games, video games, virtual reality games, downloadable multimedia news podcasts, downloadable multimedia news webcasts, downloadable multimedia news weblogs among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; data encryption services; data decryption services; data migration services; electronic data back-up services; cloud computing provider services for general storage of data; consulting services in the field of cloud computing; computer services, namely, cloud hosting provider services; infrastructure as a service (IAAS) services, namely, hosting servers for use by others; platform-as-a-service (paas), infrastructure-as-a-service (iaas) and software-as-a-service (saas) services featuring computer software platforms for creating web applications, data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, cloud computing, data sharing, data security, access, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, data, images, audio, video, and information, and for content management, online project management, creating, offering, hosting, and delivering online conferences, meetings, demonstrations, tours, presentations and interactive discussions; online non-downloadable software for computer operating systems; providing online non-downloadable computer programs for accessing global communication networks; online non-downloadable software for downloading, streaming, and playing music, audio, videos, multimedia content, podcasts, and internet radio broadcasts; updating, installation and maintenance of computer software; computer services, namely, updating computer software for others via the internet and wireless networks; computer hardware and software testing services; design and development of computer software and software architecture in the field of machine learning, deep learning, and artificial intelligence solutions; software as a service (saas) featuring artificial intelligence, machine learning, and deep learning applications and computer software platforms; software as a service (saas) featuring software for executing deep learning, machine learning, hierarchical learning, artificial intelligence, automatic speech recognition, and natural language processing programs; providing non-downloadable computer software for uploading digital images; providing temporary use of non-downloadable software that enables online users to create personal profiles featuring social networking information via a web site; computer services, namely, creating virtual communities for registered users to participate in discussions and engage in social, business and community networking; application service provider (ASP), namely, hosting computer software applications of others; application service provider (asp) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media and information over communication networks; software as a service (saas) services featuring software for sales management, customer service management, business operations management, financial and finance operations management, remote and field service operations management, project service automation management, marketing campaign planning and management, customer relationship management, enterprise resource management, sales and marketing information management, personnel and project management, facilities management, internet of things management, software development and customization, the analysis, warehousing, processing and management of data, big data management, security and

authentication, social media management, peer-to-peer communications, email account management, word processing, and cloud computing for use with all of the foregoing; hosting the software, websites, and other computer applications of others on a virtual private server; intelligent natural language understanding services using cloud-based software technology; user authentication services using single sign-on technology for online software applications; providing temporary use of online, non-downloadable enterprise software for customer relationship management, enterprise risk management, security, datacenter, data warehousing, cloud, hosting, mobile application, artificial intelligence, machine learning, word processing, and multimedia functions; cloud services, namely, providing on-line non-downloadable operating software for accessing and using a cloud computing network; cloud hosting provider services; providing virtual computer systems and virtual computer environments through cloud computing; providing cloud computing services, namely, cloud hosting provider services and cloud computing featuring software for uploading, downloading, integrating, encoding, decoding, formatting, organizing, caching, transferring and streaming of text; providing virtual computer systems, graphics processing units (gpus), and virtual computer environments through cloud computing; providing information in the fields of the development of computer systems, cloud computing environments, networks and software over computer networks, wireless networks and global communications networks; computer services, namely, remote hosting of operating systems and computer applications for others on a virtual private server; rental of a database server to third parties; rental of decentralized cloud storage facility for containerized data centers of others; rental of server memory space; providing, developing, and designing on-line non-downloadable software accessible over a global computer network for managing computer applications; designing and developing electronically stored web pages for online services on the internet; data warehousing; elaboration and maintenance of web sites for third parties; managing web sites for others; rental of web servers; server hosting; rental of a database server to third parties; displaying the web sites and images of others on a computer server; computer services, namely, hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for the collaborative development of software; platform as a service (paas) and software as a service (saas) services featuring computer software platforms for the collaborative development of software; design and development of operating software for accessing and using a cloud computing network; providing temporary use of non-downloadable software for design, development and implementation of information management systems; providing temporary use of on-line non-downloadable software for web site development; providing temporary use of on-line non-downloadable software for the development of machine learning in the field of computer technology; providing temporary use of non-downloadable software for developing computer games; providing temporary use of non-nondownloadable software for developing video games; provision of online software development tools to facilitate electronic business transactions via a global computer network; providing non-downloadable computer software development tools in the field of artificial intelligence; troubleshooting of computer software problems; technical support services, namely, troubleshooting of computer hardware, software, web, database and mobile applications; computer services, namely, providing technical support, information and consultation services, namely, troubleshooting in the nature of diagnosing problems in computer hardware, computer software and computer operating systems; consulting in the field of information technology; consulting in the field of cloud computing networks and applications; development of software for secure network operations; design and development of computer game software; design and development of virtual reality software; design and development of computer hardware in the field of games, video games, and game content; platform as a service (paas) featuring computer software platforms for use in software development in the field of gaming and graphic design; providing temporary use of online non-

downloadable software and software as a service (saas) services featuring software for broadcasting, transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of text, games, game content, digital media, images, music, audio, video and animations; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for purchasing and subscribing to videos from digital media content sessions; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for developing and online publishing of websites for streaming music, movies, television shows, music videos, news and sports webcasts; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for electronic television program guides; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for management and storage of digital images, movies, music audios, videos, self-created pictures; providing temporary use of online non-downloadable software and software as a service (saas) services featuring software for parental control for enabling access to games, namely, electronic, computer, and video games; computer software consulting services in the field of gaming technology and graphics software; consulting services in the field of software as a service (SAAS); computer software development in the field of mobile applications; platform as a service (paas) featuring computer software platforms for gaming and graphic design; online non-downloadable computer software for use in providing receiving, processing, and managing orders online; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing temporary use of non-downloadable software for mapping and directions, language translation, and accessing information related to entertainment, travel, finance, news, sports, weather, food and drink, and health and fitness consisting mainly of links to other websites; providing internet search engine services; providing internet search engines; providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; providing temporary use of non-downloadable computer software applications for business related news and information; providing temporary use of non-downloadable computer software applications for non-business related news and information that mainly consists of links to other websites in the fields of entertainment, travel, finance, news, sports, weather, food and drink, maps, language translation, and health and fitness; computer services, namely, providing specific information as requested by customers via the internet; computer network design and computer software design in the field of the telecommunications industry; non-downloadable software for wireless network management; design, development, and implementation of software in the field of white space telecommunications and internet connectivity; research, development, design and upgrading of computer software; research services in the field of white space telecommunications and internet connectivity; design, deployment and management of wireless internet computer networks for others; creating and hosting online communities for business and technology professionals, entrepreneurs, researchers, investors, service providers, academics, students, experimenters, and others who are involved in internet of things business and technology; computer services, namely, hosting and maintaining an on-line web site for others for educational purposes in the fields of reading, writing, science, technology, engineering and math for use by teachers and students; testing, analysis, and evaluation of the knowledge, skills and abilities of others for purposes of credentialing in the field of in the field of computers, software development, artificial intelligence, security and information technology, cloud solutions, and electronic business transactions via a global computer network; research services in the field of information and telecommunications technology; development, maintenance, and updating of an internet search engine; computer technology consultancy; research in the field of computer technology; computer programming

services to create online facilities that will provide telecommunications support; technological research of computer software and hardware; research and development of advanced learning technologies and teaching methods for developing artificial intelligence and machine learning capacities; research and development of new products for others; research and development of computer software; scientific research on the topics of the advancement of artificial intelligence, computing technology, human interactions with technology and digital security, data mining and management, accountability and personal responsibility; charitable services, namely, providing computer software for those in need; updating of computer software relating to computer security and prevention of computer risks; providing information in the fields of technology and software development via an on-line website; providing temporary use of non-downloadable computer anti-virus software; application service provider featuring application programming interface (api) software for analyzing market data; application service provider offering application programming interface (API) software for image and text editing; electronic storage of cryptocurrency for others; providing technology information in the field of cryptocurrency; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing temporary use of non-downloadable web-based decentralized applications (DApps) for blockchain contracts, providing cloud storage facilities for use as a data center for others, web browsing, and cryptocurrency trading; computer security services in the nature of administering digital certificates; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; online non-downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats, and events; providing non-downloadable artificial intelligence software for digital audio generation; providing non-downloadable artificial intelligence software for digital audio recognition; providing non-downloadable artificial intelligence software for digital image to digital image generation; providing non-downloadable artificial intelligence software for digital video generation; providing non-downloadable artificial intelligence software for speech recognition; providing non-downloadable artificial intelligence software for text recognition; providing non-downloadable artificial intelligence software for text to digital image generation; providing non-downloadable software that uses artificial intelligence to understand general and pre-defined user queries and formulate responses; Computer diagnostic services; computer programming services; computer consultancy and technical support, all relating to the design and use of computer programs, computers, computer hardware and computer systems; providing temporary use of on-line non-downloadable software for instant messaging, enabling and managing multiple modes of communication over local area networks and the Internet via instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, computer desktop sharing, file transfer, sensing and providing user presence information, telephony, computer network security, anti-virus protection, and intrusion detection and prevention; computer software consultancy which provides technical information; hosting of webinars, podcasts on the Internet; computer software rental; platform as a service (PAAS) featuring computer software platforms which enable multiple users to post messages and memoranda, instant message, share files and synchronize calendars; providing non-downloadable computer operating system software; developing of driver and operating system software; design and development of operating software for accessing and using a cloud computing network; design and development of virtual private network (VPN) operating software; electronic storage of data, text, images, audio and video, namely, cloud computing provider services for general storage of data and providing to third parties electronic data storage services, namely storage of digital text, image, audio, and video files on a remote computer server; development and creation of computer programmes for data processing; design and distribution of computer software for micro-computers; computer system

administration for others, data recovery services, and remote management of the information technology (IT) systems of others; providing non-downloadable software for internet searching, database management, providing internet search engine; providing information in the field of computer systems, software, hardware, internet, networks, databases and mobile applications; providing online non-downloadable software for website development and database management; providing online non-downloadable software, namely computer software, namely computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software, computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phones, portable computers, mobile phones to connect to wide area networks, computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the internet, computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles, security software, namely computer software for managing secure communications over computer networks and global computer networks, computer programs for managing communications and data exchange between computers and mobile phones, cellular telephones, personal digital assistants, and hand-held computers, namely email, voice mail, uploading and downloading of computer files over local area networks and global computer networks; technical support for diagnosing computer problems; technical support services for monitoring computer networks; technical consultancy in the field of cybersecurity; consultancy services in the field of security for computers and computer networks; consulting in the field of Internet security and information security; data security consulting in the field of using encryption, computer hardware and computer software to ensure that data cannot be accessed by unauthorized parties; technical support services in the field of the design and use of computer programs, computers, computer hardware and computer systems; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud resources based on assigned credentials, integration of private and public cloud computing environments, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing it and application systems; providing technical information in the fields of design, development, programming, customization, selection, and implementation of computers, computer software, and computer networks, namely information regarding diagnosing computer hardware and software problems and regarding the maintenance and updating of computer software, and the development and operation of computer systems, software and networks; computer services, namely, creating cloud-based indexes of information; software as a service (saas) services featuring non-downloadable software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing digital images and photographs, music audios, digital databases, digital soundtracks, TV shows, self-created pictures, videos; platform as a service (paas) services featuring non-downloadable computer software platforms for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing digital images and photographs, music audios, digital databases, digital soundtracks, TV shows, self-created pictures, videos; software as a service (saas) services featuring non-downloadable computer software used for user computer data capture, storage and analysis; platform as a service (paas) featuring non-downloadable computer software platforms used for user computer data capture, storage and analysis; software as a service (saas) services featuring non-downloadable computer software allowing users to perform electronic payment transactions via a global computer network; platform as a service (paas) services featuring non-downloadable computer software platforms allowing users to perform electronic payment

transactions via a global computer network; software as a service (saas) services featuring non-downloadable computer software used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; platform as a service (paas) services featuring computer software platforms used for generating coupon codes, payment processing, payment fraud detection, and creating, using and managing virtual currency; providing non-downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing digital files; application service provider (ASP) services featuring computer software and providing online non-downloadable software, namely, computer software for accessing, browsing and searching online databases; providing temporary use of on-line non-downloadable application programming interface financial technology (fintech) software used for connecting users to financial information from financial software providers; providing temporary use of online non-downloadable software for parental control of computer and internet usage; providing temporary use of online non-downloadable software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; providing temporary use of online non-downloadable software for remotely managing computers and computer networks; providing temporary use of online non-downloadable software for finding and displaying a user's location and global positioning system (GPS) tracking devices; providing temporary use of online non-downloadable software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; Software as a Service (SaaS) featuring software for use by others for connecting to the cloud to allow for collaboration among users across other software applications; Software as a Service (SaaS) featuring software for use by others for integrating artificial intelligence into other software; Software as a Service (SaaS) featuring software for use by others for allowing real time updates to software applications accessible by multiple parties; Software as a Service (SaaS) featuring software for use by others for enabling interconnectivity between other software applications and platforms; online computer services, namely, online scanning, detecting, managing and authenticating security and log in credentials for users of mobile digital electronic devices and computing devices; software as a service (SaaS) services featuring security software, user authentication software, password and log in management and protection software; software as a service (saas) services featuring non-downloadable software for use in connection with developing artificial intelligence for video content analysis; scientific services, namely, scientific research in the field of artificial intelligence, deep learning, model development, and product research and design related thereto; providing temporary use of online non-downloadable computer software for artificial intelligence processing and deep learning; providing temporary use of online non-downloadable computer software, namely, computer software for implementing a computer programming language, computer software development tools, and computer software libraries for use in general purpose computation, manipulation of collections of data, data transformation, communications, graphics display, acceleration of model development, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing temporary use of online non-downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels, communication compression, training optimization, training agnostic check pointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; software as a service (SAAS) services featuring software for interfacing with deep learning computational frameworks; platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services,

and mobile-backend-as-a-service (MBAAS) featuring computer software platforms for deploying virtual machines to a cloud computing platform, diagnostics and analysis, syncing, storing, and archiving data, analyzing data, database design and development, creating web applications, data storage, data storage, and archiving and backup of data, electronic media, and digital content; computer services, namely, creating cloud-based indexes of information; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IaaS) cloud computing technology, software-as-a-service (SaaS) cloud computing technology, platform-as-a-service (PaaS), and mobile-backend-as-a-service (MbaaS) cloud computing technology; platform-as-a-service (PAAS), infrastructure-as-a-service (IAAS), software-as-a-service (SAAS) services, artificial intelligence software, and mobile-backend-as-a-service (MBAAS) services, namely, employee hubs featuring software for employee engagement, employee collaboration, employee messaging and communication, sharing information, well-being features, providing training, skill enhancement features, skill development features, and education; Software as a service (SAAS) for use by workers, employees, employers, and managers to manage work, schedules and time, communicate with their team and organization, enable multiple-user online communication, and access and interact with other work-related applications and resources; Software as a service (SAAS) for enabling users to access, publish, track, edit and share documents, emails, voice and text messages, contact information, electronic calendars and agendas, news bulletins and company announcements; software as a service (saas) services featuring non-downloadable computer software used for video capture, storage and analysis; platform as a service (paas) featuring non-downloadable computer software platforms used for video capture, storage and analysis; providing information in the field of monitoring of computer systems, networks, websites, and mobile devices for security purposes; consulting services in the field of maintaining the security and integrity of databases; monitoring of computer systems for security purposes; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the internet, and computer networks; consulting services in the field of maintaining the computer software security; consulting services in the field of maintaining the computer software security and integrity of databases.

Class 45

(4) Online social networking services; on-line social networking services, namely, facilitating social introductions or interactions among individuals; personal services, namely, providing online social networking services; providing online computer databases and online searchable databases in the field of social networking; social networking services in the fields of entertainment, gaming, and application development; providing information about social networking that involves online gaming, online video games, and online video gaming applications; online social networking services, namely, facilitating social introductions or interactions among individuals; internet-based social networking services in the fields of entertainment, gaming, and application development; providing information about social networks for users of online gaming, online video games, and online video gaming applications; providing information in the field of personal development, namely, self-improvement, self-fulfillment, and interpersonal communications relating to community, humanitarian, and philanthropic activities; providing information, news, and commentary in the field of social networking; personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs, rendered online; online social networking services related to three-dimensional (3D) drawings, images, and digital content; agency services for arranging personal introductions; security services for the protection of property and individuals; online social networking services in the field of electronic games; computer software licensing; licensing of intellectual property; licensing of computer software development kits for computer game software

and video game software; consultancy relating to computer software licensing; providing information in the fields of personal growth and motivation via a website; legal services.

Goods

Class 09

Computer hardware; computer hardware peripherals, namely, data cables, network cables, audio /video screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files, computer scanners, computer printers, computer speakers, computer stands, joysticks for use with computers, other than for video games, microphones, webcams, digital cameras, blank USB flash drives, CD-ROM drives, digital disc drives, disk drives for computers, DVD drives, hard disk drives, electronic pens, touch screen pens, stylus pens for use with touch-screens; tablet computers; computer mice and wireless computer mice; computer keyboards; mobile phones; cellular telephones; mobile phone peripherals, namely keyboards for mobile phones, mobile phone chargers, stands adapted for mobile phones, hands free kits for mobile phones, headsets for mobile telephones, dustproof plugs

for jacks of mobile phones, in-car telephone handset cradles; mobile phone accessories, namely cases adapted for mobile phones, straps for mobile phones; smart phones; parts for mobile telephones; network communication apparatus, namely computer network adapters, computer network switches, computer network bridges, computer network server, network routers, network interface cards; electronic communication equipment, namely modems, ethernet adapters, ethernet switches, video cable adapters, fibre-optic cables, fibre optic light and image conduits; telephones; pedometers; downloadable software applications for mobile phones, smart phones, notebook computers, laptop computers, tablet computers, handheld computers for use in digital painting, drawing and sketching, for use in graphic arts design, for organizing and viewing digital images and photographs, for processing digital images, for digital animation, for creating, sending and receiving e-mail, for optical character recognition, for word processing, for computer aided mechanical design, for playing computer games, video games, virtual reality games, and interactive video games, for transmission of graphics and photographs to mobile telephones, smart phones, computers for predictive and corrective text entry for use with mobile phones, smart phones, and computers; and computer video control devices, namely, trackballs; computer programs, namely operating system programs; computer programs for playing games; computer programs, namely, game software for use on computers and video game players; computer game software; video game software; video and computer game programs; downloadable computer games; downloadable video games; computer programs for controlling the display of television programs, delivered over global information networks; computer programs for managing communications and data exchange between handheld computers and desktop computers; recorded computer game programs; recorded computer search engine software; computer user manuals in electronic format; computers; computers, namely computers for use in automobiles and computer operating systems and computer software programs, namely mapping software, systems monitoring software, and wireless communication software for use in automobiles; wallet-sized personal computers and computer operating systems and computer software programs, namely word processing, scheduling, e-mail administration, and Internet access and navigation software for wallet-sized personal computers; optical disc players and computer operating system software for optical disc players; computer hardware, computer operating systems and computer software programs for sending and receiving television and global communication network transmissions; telephones and computer programs for controlling the operation thereof; telephones for use in telecommunications over global communication networks and computer programs for controlling the operation thereof; entertainment consoles comprising computer hardware and software developed to provide audio, video and multimedia programs such as material from the Internet, and television programs; electronic pagers and software for electronic paging; handheld computers; handheld computers for playing games and operating system software for use therewith; microcomputers; computer software for word processing, spread sheets, database management, e-mail, scheduling, games, electronic reference materials, financial management, and Internet access and navigation; computer application programs and operating system programs for use with communications servers; computer application programs providing connectivity over wide area networks and local area networks for mobile phones, smart phones, computers, televisions, and video game consoles; computer application software to enable uploading, downloading, accessing, posting, displaying, tagging, blogging, streaming, linking, and sharing electronic media and information, namely, photographs, videos, graphical images, text and email messages, text documents, music, and audio recordings, all via the internet; computer network operating software and utilities; computer software that allows users to create, edit and share digital media content created by users; computer software for developing, managing and operating intranet sites; computer software for inventorying and monitoring computer hardware and software assets and use within an organization; computer software for use by computer

network administrators to deploy and manage application software and network server software; computer software for wireless telecommunications for use with wireless devices, namely software for enabling smart phone, portable computers, mobile phones to connect to wide area networks; operating systems software for use in playing electronic games; security software, namely computer software for managing secure communications over computer networks and global computer networks; computer software for use in browsing, accessing, searching, reviewing, purchasing, downloading, and providing ratings on digital content, namely digital images, television shows, movies, computer games, and gift cards; computer software for use in searching and making purchases in online marketplaces for software applications; computer software for electronic transmission via the Internet and display of digital content, namely digital images, television shows, computer games, movies; computer software, namely computer operating system programs and utilities, namely, computer utility file compression and synchronization programs and backup software; video game machines for use with televisions and computers, and operating system software for use therewith; computer software for viewing, searching and playing pre-recorded audio and Internet radio; computer software and computer programs for database management, data storage and backup, creating virtual reality and mixed reality environments on a computer network, business and social networking, online business and social collaboration between individuals and organizations, remote Internet access, remote technical support, cloud computing, data sharing, data security, administration and management of computer applications and computer hardware, computer application distribution, and for transmission of voice, text messages, emails, digital images and photographs, documents, publications, videos, comments and multimedia content among users, for content management, for online project management, for web conferencing, for creating, offering, hosting and delivering online meetings, demonstrations, audiovisual presentations, and interactive discussions for others, operating system programs; computer software for use in enterprise resource planning (ERP) and customer relationship management (CRM) in the fields of business operations, business management, accounting, marketing, ecommerce; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer operating system software; computer software for playing video games and computer games, computer network security, anti-virus protection, and intrusion detection and prevention; computer graphics and graphical user interface software; computer software for running development programs and application programs in a common development environment; website development software; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for developing and operating cloud computer networks and applications; computer software for computer system and application development, deployment and management; hardware for telecommunications for connecting devices via in home phone and electrical wiring, namely, computer networks hubs, computer servers, set-top boxes, computer switches and computer routers designed to provide in-home voice over internet protocol (voip) communications; computer and video game systems devices, namely, motion sensors and biometric sensors for access control systems, biometric sensors for monitoring and tracking neural impulses and muscle activity, cameras, video projectors, headphones, and microphones; electronic game equipment, namely, display video screens adapted for video games, peripheral devices, namely, monitor stands, controller stands, virtual reality glasses, headsets, headphones, microphones, computer keypads; keypads for mobile phones, and styluses for communicating with a television or computer for playing electronic games; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; wearable computers, namely smart rings, smartwatches, smart glasses, wearable video display monitors, wireless headsets for use with smartphones, wireless headsets for use with mobile phones, smart bands, wearable activity

trackers, virtual reality and mixed reality glasses and headsets; wearable computer peripherals, namely wireless computer scanners, wireless computer mice, wireless keyboards for mobile telephones, wireless keyboards for computers; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; keyboards, mice, styluses, monitors, scanners, cameras, microphones; computer display monitors; computer software, namely, software for setting up, operating, configuring, and controlling wearable computer hardware and wearable computer peripherals; carrying cases and holders for use with virtual reality headsets; eyeglasses; optical devices, namely, eye pieces for helmet mounted displays; optical glasses; optical lenses; spectacles; 3d spectacles; hologram apparatus, namely hologram projectors, headsets and glasses; holographic apparatus, namely holographic projectors, screens, headsets and glasses, for projecting holographic video, still images, graphics and multimedia files; computer hardware and software for automobiles, namely, computer programs for monitoring automobile performance, for mapping and navigation, for electronic mail and wireless digital messaging, mobile phone communication, cellular phone communication for maintaining personal directories, contact lists, address and telephone number lists; computer software and computer programs for virtualization, networking, collaboration, remote access, creating, offering, hosting, and delivering online conferences, tours, presentations and interactive discussions; computer software, namely, a full line of computer software for business productivity, business IT service management, business computer devices management, business IT security management, business administration and management, accounting, and marketing in the fields of business, and computer software to facilitate e-commerce business transactions via a global computer network; computer operating system software; network access server operating software; computer programs for managing communications and data exchange between computers and electronic device; computer and video game systems devices, namely, electronic sensor devices for capturing gesture, facial, voice, and object recognition, cameras, headphones, and microphones; computer software for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; computer peripherals, namely computer monitors and screens for displaying data and video; audio recorders; compact disc recorders; digital versatile disc recorders; digital video recorders; digital voice recorders; audio transmitter units; optical transmitters; radio transmitters; video transmitters; electronic and optical communications instruments and components, namely, flat panel display screens, display video screens for video games, and touchscreens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; downloadable computer software and mobile software applications for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system and portal interface; downloadable cloud computing software for data storage and backup, database management, virtualization, networking, collaboration, remote access, remote support, data sharing, data security, access to applications and services through a web operating system and portal interface; computer software for monitoring cloud and application performance; downloadable computer software for use in automating the allocation of data processing and computing tasks between computer hardware resources and in private and public cloud environments; downloadable computer software for security information and event management (siem) employing artificial intelligence and machine learning to enable automated responses in real time to security vulnerabilities, threats and events; microcontrollers; computer chipsets for use in transmitting data to and from a central processing unit; microcontrollers and chipsets for the secure transmission of data; computer hardware modules for use with the internet of things (iot); computer software to enable a data connection between internet of things (iot) devices and mobile connected computing devices and the internet and secure networks; software

application platform for connecting people, services and devices to the internet; downloadable software for the home automation of electric control systems for HVAC; downloadable software for the home automation of electric control systems for home security systems; downloadable software for the automation of electric control systems for lighting; downloadable software for the home automation of electric control systems for electrical power switches; downloadable software for the home automation of electric control systems for kitchen appliances; embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports; downloadable mobile application software for the home automation of electric control systems for HVAC; downloadable mobile application software for the home automation of electric control systems for home security systems; downloadable mobile application software for the automation of electric control systems for lighting; downloadable mobile application software for the home automation of electric control systems for electrical power switches; downloadable mobile application software for the home automation of electric control systems for kitchen appliances; downloadable mobile application software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; downloadable mobile application software for factory automation, namely, software to integrate manufacturing machine operations, track problems and generate production reports; operating system software for cloud computing services and internet of things (iot) devices; computer software used for running cloud computing based applications; computing downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; application software for cloud computing services; operating software for cloud computing devices and the control and secure management of cloud computing devices; computer software for artificial intelligence (ai) processing; computer chips for artificial intelligence (ai) processing; computers and computer servers for artificial intelligence (ai) processing; computer operating system software; computer operating system software that may be embedded in other software; computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software runtime systems, namely, computer software systems comprised of computer software for general purpose computation, manipulation of collections of data, data transformation, input/output, communications, graphics display, modelling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, application programming interface (api) software for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; computer software, namely, software for implementing a computer programming language, and computer software development tools, for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; integrated circuit modules; integrated circuit [IC] memory cards and components; computer hardware for processing math; computer chips; silicon chips; micro processors; graphics processor units; central processing units; software programmable microprocessors; downloadable computer software for collection, storage, analysis and presentation of computer data in the fields of forensic science for forensic analysis of security events and for security compliance; downloadable computer software, namely, computer software for real-time analytics and debugging, computer software for user authentication, customer engagement, customer relationship management,

computer software for providing messages, push notifications and information in the field of video games, computer software for user data capture, storage, and analysis, computer software for allowing users to perform electronic business transactions via a global computer network, computer software for generating coupon codes, payment processing, payment fraud detection, and computer software for creating, using and managing virtual currency; computer software for connecting computers and for enabling cloud; computer programs for connecting to remote computers and computer networks; computer software for use in providing multiple user access to a global computer information network; downloadable applications for mobile phones to provide access to the internet; downloadable applications for tablet computers to provide access to the internet; downloadable computer software for use in assessing, monitoring, administration and management of data centers and datacenter devices, and public and private cloud computing IT and application systems and resources; downloadable computer connectivity software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on cloud-based servers; downloadable computer software for operating, monitoring and managing decentralized cloud storage facilities; software for creating and managing cloud, high performance computing, cluster and grid computing resources, hybrid operating system environment and computing networks; software interface for accessing cloud, high performance computing, cluster and grid computing resources, hybrid operating system environment and computing networks for workload management by administrators, managers and end-users; software for policy-based governance, workload scheduling, resource and energy monitoring, control, management and provisioning by administrators, managers, and end users in the nature of automated allocation of computing resources, analysis of computing resource availability and status information, installation of software and provisioning operating system changes, power management, software upgrades management, accounting and usage management for reporting and billing, third-party application integration management, workload policy management, and job scheduling for both batch and interactive jobs across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments, and computing networks; software for governance, monitoring, managing, profiling, and indicating available computing and associated resources, namely, for intelligent automation and management of multiple resources, scheduling, operating system provisioning, power management, and computing resource policy implementation that enables administrators, managers, and end users to automate, control, and utilize multiple computing resources across cloud, high-performance computing, cluster or grid computing resources, hybrid operating system environments and computing networks; software for statistical diagnostic and performance monitoring, namely, analysis of utilization of computing resources, analysis of efficiency of use of computer resources, analysis of optimization of computing resources, analysis of fair sharing of computing resources, analysis of load balancing of computer systems, analysis of hybrid operating system environments, and analysis of power consumption in compute environments by organizations, entities, individuals, classifications of quality of service, queues, and computing nodes; software for providing a quality of service for submitted jobs and for scheduling guarantees and job reservations for users, groups, classes, accounts, and levels of quality of service; software for command-line and graphical resource and workload simulation, including simulation of simultaneous instances to explore the effects of configurations and policies on clusters, grids, high-performance computing environments, and computing networks; software for dynamic command-line and graphical management of computing

resources, namely, management of software licenses within a single computer administrative domain or across multiple heterogeneous computer administrative domains, hybrid operating system environments, file spaces, network-attached storage media, tape drives, processors, memory, disks, network bandwidth, and other hardware resources; software for interface with and collection of end-user commands for job, queue, operating system, power consumption, and system management, for internal diagnostic and logging facilities, and for integration of provisioning managers, billing systems, identity and security managers and databases, and translation of resource manager job submissions; software for peer-to-peer sharing of domain-specific policies and providing peer to peer native resource management support; downloadable computer programs for assisting developers in creating program code for use in internal computer networks and global communication networks; downloadable computer programs for running development programs and application programs in a common development environment; computer software development tools for network servers and applications; downloadable software that enables users to share and collaboratively develop software, computer code and user-generated content; computer servers; downloadable computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; computer software for browsing the internet; downloadable computer search engine software; computer browsing software, namely, software for browsing the global computer network and private networks; search engine software; graphical user interface software; voice-recognition software; computer search engine software; software for designing business processes in a visual form; software for accessing and integrating data from multiple databases, business software applications, and software as a service (saas) services; software for designing and automating workflows within and between business software applications and business software as a service (saas) services; graphical user interface software, namely, toolbar software for use with search engine software and websites; downloadable computer software for creating advertising signage content for third parties; downloadable computer software for use in generating streaming advertisements on the web sites of others; downloadable computer software featuring software for managing and controlling product display on websites and on-line retail stores; downloadable computer software featuring software for product merchandising; computer application software for advertisers, marketers, and content providers to reach, engage, and interact with online users for the purposes of promotion or advertising; computer software for the design, execution and management of advertising and marketing campaigns; computer software for generating reports and analytics for advertising and marketing campaigns; data processors, namely signal processors, video processors, word processors; data processing apparatus, namely, data cables, interface cards for data processing equipment in the form of printed circuits, central processing unit clocks, central processing unit coolers, central processing unit fans, computer chipsets for use in transmitting data to and from a central processing unit; computer memory boards; computer memory expansion modules; blank flash memory cards; blank secure digital (SD) memory cards; memory card readers; memory cards for video game machines; random access memory [RAM] cards; secure digital (SD) memory cards; mobile data terminal (MDT); downloadable computer software for creating searchable databases of information and data; computer chipset for use in transmitting data to and from a central processing unit; downloadable enterprise software in the nature of a database for non-transactional data and a search engine for database content; Network servers; internet servers; intranet servers; video servers; video servers; IP video servers; servers for web hosting; electronic mail servers; internet servers; cloud servers; Downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; transceivers for television and global communication

network transmissions that transmit them to a television or other display device, and computer operating programs for use therewith; entertainment system comprising a computer, computer display screens and computer keyboards; hand held computers; computer operating system software for use with electronic equipment for playing games; computer programs for managing communications and data exchange between hand held computers and desktop computers; computer software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content for the facilitation of communications between multiple users via computer networks, communication networks and the Internet; downloadable computer software for facilitating online communications between peer professionals via global communications networks, the internet and wireless networks; computer software for use as an application programming interface (API) for facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant messages and online social networking services; computer communication software which enables multiple users to post messages and memoranda, share files, and synchronize calendars; application programming interface (API) software which facilitates online social networking; electronic devices for communications, namely, telephones, mobile telecommunications handsets, headsets, computer speakers, microphones, earphones, webcams and video cameras; headphones; downloadable computer software for use in connection with buying, selling, sharing, searching, downloading, customizing, integrating and reviewing audio files, video files, image files; downloadable computer software for use in developing web sites, operating electronic mail and providing computer security; recorded computer software for use in developing web sites, operating electronic mail and providing computer security; downloadable computer security and authentication software for controlling access to and communications with computers; recorded computer security and authentication software for controlling access to and communications with computers; downloadable computer software for computer network security, anti-virus protection, and intrusion detection and prevention; recorded computer software for computer network security; Silicon microprocessors; microcontroller units; microcontrollers and chipsets for the secure receipt and transmission of data; microcontrollers and chipsets optimized for use in access control, identification, authentication, security and safety; communications receivers, namely, radio receivers; computer hardware modules for use in security and secure power management for internet connected devices; security processors, namely, computer hardware for protecting data against unauthorized access, disclosure, alteration, duplication and substitution; microprocessor core; computer security hardware for firewall and anti-virus protection; computer security hardware for network traffic analysis and security management systems; hardware-based Roots of Trust (RoTs); boot software; integrated circuits for providing authentication; nonfungible tokens (NFTs) for use in authenticating ownership of digital files; security token hardware for user authentication; computer software for remote attestation and certificate-based security; computer software for use in access control, identification, authentication, security and safety; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; downloadable computer programs for data authentication via blockchain; downloadable software with age verification and product authentication features for ensuring a secure user experience; software for providing authentication of parties to a financial transaction; downloadable computer programs in the field of non-fungible tokens (NFTs) for use in authenticating virtual ownership of digital files; downloadable computer software for parental control of computer and internet usage; downloadable computer software for managing, filtering, and monitoring access to mobile devices, console and portable gaming devices, applications, games software and internet usage; downloadable computer software for remotely managing device and application settings; downloadable computer software for finding and displaying a user's location; downloadable computer software for global positioning system (GPS) tracking devices; downloadable computer

software for gathering, analyzing and presenting data on usage of mobile devices, console and portable gaming devices, applications, games software and internet; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; global positioning system (GPS) receivers; global positioning system (GPS) transmitters; Vehicle mounted GPS sensor for determining the rate of motion for a vehicle; computerized vehicle engine analyzers; electronic speed controllers; downloadable software, namely, software for connecting to the cloud to allow for collaboration among users across other software applications; downloadable software, namely, software for integrating artificial intelligence and intelligent agents into other software; downloadable software, namely, software for allowing real time updates to software applications accessible by multiple parties; downloadable software, namely, software for enabling interconnectivity between other software applications and platforms; downloadable software, namely, software for transmitting, receiving, accessing, viewing, uploading, downloading, sharing, integrating, encoding, decoding, displaying, formatting, organizing, storing, caching, transferring and streaming of data, text, digital media, images, music, audio, video, movies and animations between multiple users; password management and protection software for mobile digital electronic devices and computing devices; downloadable computer software for use in connection with developing video analytics applications; computer software platform, namely software allowing users to aggregate their financial, banking and business data; computer software for word processing; computer software for processing digital images; computer software for video editing; downloadable software for editing photos; downloadable software for note-taking; downloadable software used for computer system analysis and optimization; downloadable computer software for artificial intelligence processing and deep learning; downloadable computer software development libraries, namely, downloadable electronic data files consisting of software development tools for model development and training; downloadable computer software and software development tools for use in the fields of high performance computing, distributed computing, distributed training with mixed precision, model and pipeline parallelism, redundancy optimization, memory and bandwidth optimization, computational kernel optimization, sparse attention kernels, communication compression, training optimization, training agnostic check pointing, advanced parameter searching, data loading, performance analysis and debugging, and machine learning; news software, namely, computer software for downloading and viewing music videos, television shows, news and sports webcasts, motion pictures, movies, home videos, video recordings of special events, downloadable multimedia news podcasts, downloadable multimedia news webcasts, downloadable multimedia news weblogs; computer hardware for telecommunications; changeover switches for telecommunication apparatus; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical transformers for telecommunication apparatus; indicator lights for telecommunication apparatus; microphones for telecommunication apparatus; computer software and downloadable applications for buying and selling photographs; computer software for organizing and viewing digital images and photographs; downloadable applications for handheld computers, mobile phones and tablet computers to take and edit photographs; computer software to allow employees to access and view online articles and educational audiovisual content and information in the field of computer technology; computer software for collecting health and wellness data during training exercise; downloadable computer software for managing user health information, namely, tracking, compliance and motivation to keep a consistent sleep schedule for optimal user health; downloadable mobile application for providing a dashboard of user-personalized health and wellness information; downloadable mobile application for setting, tracking, and monitoring health and wellness goals of users; downloadable computer software to facilitate team and employee collaboration, communication and interaction; computer software for use by workers, employees, employers, and managers to manage work,

schedules and time, communicate with their team and organization, enable multiple-user online communication, and access and interact with other work-related applications and resources; computer software that enables users to access, publish, track, edit and share documents, emails, voice and text messages, contact information, electronic calendars and agendas, news bulletins and company announcements; computer software for use in video conferencing, audio conferencing, web conferencing and real-time communications featuring instant messaging, audio, video and data exchange, mapping geographical locations, manipulating video, audio and graphics; computer networking hardware.

Services

Class 35

(1) Business services, namely, business consultation services, business advice and information services namely providing access to portals containing resources helpful for partners to promote their business and their goods/services; business marketing consulting services; business consulting services in the field of business networking and business relocation; business networking; providing consumer product information via the Internet pertaining to computers, computer hardware and software and systems, and computer games; providing office functions, namely providing consumer product information in the field of office computer equipment via a website; retail store services in the field of office products; retail and online retail store services featuring computers, computer hardware, computer peripherals, laptops, tablets, portable music players, personal digital assistants, cell phones, digital media streaming devices, computer software, applications for personal computers, video game consoles, video game controllers, video games, gaming software, gaming equipment, security services, downloadable movies and television shows, webcams, books, clothing, back packs, messenger bags, computer bags, notebooks, journals, laptop sleeves, stickers, pens, pencils, toys, gift cards and novelty items, virtual, mixed, and augmented reality products and accessories; operating online marketplaces featuring software applications; providing retail store and prepaid subscription services featuring downloadable, pre-recorded text, data, image, audio, video, and multimedia files, provided via the internet and other electronic and communications networks; advertising and directory services, namely, promoting the services of others by providing a web page featuring links to the websites of others; advertising the goods and services of others via social media; advertising the goods and services of others via blogs; advertising, marketing and promoting the goods of others using signage; advertising of goods and services of others via local and global computer networks; advertising by transmission of on-line publicity for third parties through electronic communications networks; rental of advertising space; rental of advertising space on web sites; rental of advertising billboards; advertising the goods and services of others via global computer networks; on-line advertising the goods and services of others on computer communications networks; providing business information in the fields of marketing and business via a website; promoting the goods and services of others by providing, searching, browsing and retrieving information, sites, and other resources available on global computer networks and other electronic and communications networks for others; organization and conducting of commercial exhibitions in the field of computers, artificial intelligence, information technology, and electronic business transactions via a global computer network; charitable services, namely, organizing, developing, and conducting volunteer and not-for-profit programs and volunteer and not-for-profit projects aimed at increasing technological development in rural and underdeveloped communities; organizing and developing charitable projects that aim to promote the importance of reading, writing, science, technology, engineering and math; promoting public awareness of and the need to support social and economic development; charitable services, namely, organizing and conducting volunteer programs, community service projects and neighborhood improvement projects, information,

advice and consultancy regarding the aforementioned services; organizing, arranging, conducting and promoting of trade shows, business, commercial, and promotional exhibitions in the fields of computer hardware, software, telecommunications, and high technology and in the field of development of computer programs and systems; charitable services, namely, organizing and conducting volunteer programs to build and grow sustainable computer science programs through partnerships between classroom teachers and technology industry volunteers in the fields of technology education and literacy in schools; business management services in the agriculture field; business consulting services in the agriculture field; provision of business information relating to agricultural industry; analysis of business management systems, business research services, business information services in the agriculture field; compilation of business directories, compilation of statistics in the agriculture field by using technologies that include the internet of things (iot), blockchain, robotics, software as a service (saas), platforms as a service (paas) and artificial intelligence; business management and advertising services for others, namely, assisting others in direct electronic mail advertising, assisting others in placing and running advertisements on computer networks and global communications networks; business on-line information services, namely, providing databases and website links to other content providers in the field of business organization and management; marketing consulting services, promoting the goods and services of others over the Internet, sale and retail services relating to computer software, applications, computer and video games and audio visual content; online retail services relating to computer software, applications, computer and video games and audio visual content; business data analysis services in the field of computer technology; analyzing and compiling business data; services for research relating to customer behavior, satisfaction, attitude, effectiveness; computerized database management; marketing data integration; market research and market analysis; statistical analysis in the fields of computer hardware and software, artificial intelligence, information technology; compilation of market statistics; economic forecasting; business and market research and analysis; marketing research; database marketing services in the form of compiling customer specific databases; online service for connecting social network users with retailers for the purpose of facilitating discounted purchases; compilation of statistics; systemization of information into computer databases; compilation of advertisements for use as web pages on the Internet; analyzing and compiling business data; advertising on the Internet for others; distribution of advertising materials for others; advertising analysis; promoting the goods and services of others through advertisements on the internet; advertising and marketing services provided by means of blogging; pay per click advertising for others; developing and coordinating volunteer projects for charitable organizations; providing business information via a website pertaining to computers, computer hardware and software and systems, and computer games; advertising the goods and services of on-line vendors via a searchable on-line guide; career advancement consultancy services; information services relating to jobs and career opportunities; promotion of goods and services of others through sponsorship of sports events; arranging subscriptions to video games and computer games for others; mail order services in the field of computer programs, computer related books and publications, and other computer related products; business management consultation; business organization consultancy services; business administration consultancy; business marketing consulting services, advertising and business management consultancy, advisory services relating to business management and business operation; on-line marketplace services, namely, operating an on-line marketplace featuring information, data, images, and digital files; news clipping services.

Class 41

(2) Arranging and conducting business conferences; organization and conducting of virtual workshops in the field of computers, artificial intelligence, information technology, and electronic

business transactions via a global computer network; organizing, arranging, conducting business conferences in the fields of computer hardware, software, telecommunications, and high technology and in the field of development of computer programs and systems.

pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring systems for pumps, namely, software for the remote monitoring of the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring systems for pumps, namely, wireless controllers to remotely monitor the function and status of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; computer hardware for telecommunications; telecommunications circuit board units; telecommunications multiplexers; telecommunications switchboards; telecommunications switching systems; personal digital assistants; downloadable mobile application software for monitoring the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; computer programs for remote monitoring of pumps, namely, computer programs for remote video monitoring system consisting primarily of camera and motion sensors and cloud storage gateways for remotely monitoring the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; computer programs for remote monitoring of pumps, namely, software for the remote monitoring of the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; computer programs for remote monitoring of pumps, namely, computer programs for wireless controllers to remotely monitor the function and status of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; computer programs used for remote monitoring of the status of electric pumps and fans, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; electronic machines, apparatus and their parts, namely, remote video monitoring system consisting primarily of camera and motion sensors and cloud storage gateways for remotely monitoring the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps, and parts thereof; electronic machines, apparatus and their parts, namely, wireless

controllers to remotely monitor the function and status of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps

Services

Class 37

(1) Installation of remote monitoring systems for pumps, namely, installation for remote video monitoring system consisting primarily of camera and motion sensors and cloud storage gateways for remotely monitoring the capacity and performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; installation of remote monitoring systems for pumps, namely, installation for wireless controllers to remotely monitor the function and status of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; bridge construction services; building construction; building construction services; building construction supervision; construction of airports; construction of amusement parks; construction of apartment buildings; construction of buildings; construction of buildings incorporating residential, retail and commercial units; construction of chemical plants; construction of commercial properties; construction of condominium units; construction of conservatories and greenhouses; construction of custom homes; construction of dams; construction of decks; construction of fair stalls and shops; construction of floors; construction of galleries; construction of geothermal power plants; construction of greenhouses; construction of houses; construction of hydroelectric factories; construction of hydrogen generation installations for generating power; construction of medical establishments; construction of mines; construction of modular homes; construction of multi-unit dwellings; construction of natural gas infrastructure, pipeline infrastructure, civil electrical underground infrastructure, underground utilities, trenches, and boreholes; construction of pipelines; construction of porches; construction of ramparts; construction of residential and commercial properties; construction of residential apartment units, apartment buildings, condominium units and multi-unit dwellings; construction of residential condominiums; construction of residential properties; construction of saunas; construction of sewerage systems; construction of shopping centers; construction of sports arenas; construction of stables; construction of sunrooms; construction of swimming pools; construction of telecommunication towers; construction of trade fair and exhibition stands; construction of transmission lines; construction of walls; construction of wave energy power plants; construction of wind power plants; construction planning of residential communities; construction project management in the field of installation of windows; construction project management services; construction services, namely, concrete paving; construction services, namely, excavation; construction services, namely, grading; construction services, namely, installation of environmental containment systems; construction services, namely, manhole adjusting; construction services, namely, planning, laying out and custom construction of residential and commercial communities; construction services, namely, site clearing; construction site preparation; factory construction; harbour construction; harbour construction services; home building construction services; marine construction; offshore construction; oil pipeline construction; on-site construction of prefabricated houses; pavement construction; pier construction; pipeline

construction; railway construction; road construction services; scaffolding construction; ship building; street construction; tunnel construction; underwater construction; warehouse construction; repair or maintenance of air conditioners for industrial purposes; repair or maintenance of burners; repair or maintenance of boilers; repair or maintenance of pumps; repair and maintenance of freezing machines and apparatus for industrial purposes, gas refrigerators for industrial purposes, ice machines for industrial purposes, refrigerating machines for industrial purposes, cooling evaporators for industrial purposes, cooling domes for industrial purposes, freezers for industrial purposes, refrigerating or freezing showcases; repair and maintenance of water supply equipment, namely, water supply pipelines and water supply sedimentation tanks; repair and maintenance of water purifiers for industrial purposes, industrial-water purifying apparatus, tap-water purifying apparatus

Class 42

(2) Remote monitoring of pumps by use of downloadable mobile application software for monitoring of the capacity and the performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring of pumps by use of remote video monitoring system consisting primarily of camera and motion sensors and cloud storage gateways for remotely monitoring pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring of pumps by use of software for the remote monitoring of the capacity and the performance of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring of pumps by use of wireless controllers to remotely monitor the function and status of pumps, namely, volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps; remote monitoring of the technological functions of water supply equipment, namely, water supply pipelines and water supply sedimentation tanks; remote monitoring of blowing machines for the compression, exhaustion and transport of gases; remote monitoring of pumps in the nature of volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps by use of blowing machines for the compression, sucking and carrying of grain; remote monitoring of pumps in the nature of volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps by use of blowing machines and fans for the compression, sucking and carrying of grain; remote monitoring of pumps in the nature of volute pumps, axial flow pumps, mixed flow pumps, vortex pumps, gear pumps, submersible motor pumps, vacuum pumps, screw pumps, vane pumps, nuclear recirculation

pumps, ultra-high pressure pumps, ultra-high temperature pumps, cryogenic submersible motor pumps, standard pumps, centrifugal pumps, reciprocating pumps, and rotary pumps by use of fiber blowing machines; remote monitoring of the functioning and use of axial-flow fans for industrial purposes, centrifugal fans, cooling fans for automobile engines, fans for machine engines, fans for motors and engines, fans for the compression, sucking and carrying of grain, air filters for kitchen exhaust fans, axial-flow fans for air-conditioning, axial-flow fans for air-conditioning for use in cleanrooms, axial-flow fans for air-conditioning for use in laboratories, axial-flow fans for air-conditioning for use in operating rooms, patient rooms and hospital isolation rooms, bathroom exhaust fans, ceiling fans, electric fans for household purposes, electric fans for personal use, electric fans with evaporative cooling devices, electric heating fans, electric window fans, fans for air conditioning units, industrial ceiling fans, kitchen exhaust fans, portable electric fans, roof fans, smart fans, ventilating fans, ventilation fans for use in cleanrooms, ventilation fans for use in laboratories; remote monitoring of the functioning and use of axial flow blowers, blower motors for engines, blower motors for heating, ventilation and air conditioning systems, blower motors for machines, blowers for use with conveying systems, centrifugal blowers, electric rotary blowers, forge blowers, power blowers for lawn debris, power operated straw blowers, power-operated leaf blower, rotary blowers, snow blowers; remote monitoring of the functioning and use of air compressors, axial flow compressors, centrifugal compressors, compressors for air conditioners, compressors for dehumidifying machines, compressors for industrial machinery, compressors for inflating tires, compressors for motor vehicles, compressors for recovering and recycling refrigerant gases, compressors for refrigerators, compressors for scuba diving, electric compressors, electric rotary compressors, gas compressors, hydrogen compressors, reciprocating compressors, refrigerator compressors, rotary compressors, surgical compressors; remote monitoring of the functioning and use of air turbines for aircraft, gas turbine engines for air vehicles, gas turbine engines for water vehicles, gas turbines for airplanes, hydraulic turbines, turbines for generation of electricity, turbines for jet engines, turbines for steam plants, wind turbines, air turbines for land vehicles, gas turbines for land vehicles, hydraulic turbines for land vehicles, steam turbines, steam turbines for land vehicles, turbines for locomotives; remote monitoring of freezers; remote monitoring of water cooling towers
