Trademarks Journal

Vol. 72 No. 3711

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 35

(1) Providing community business development and training to the Indigenous community, namely, developing business networking opportunities and developing training opportunities

Class 37

(2) Leasing of Heavy equipment; rental of small equipment, namely, electric generators, light towers, stationary fuel tanks, drainage pumps, excavators, concrete pumps, air compressors, and compaction equipment; erosion and sediment control services, namely, consulting, inspecting, monitoring sites and installation of erosion and sediment control systems; land reclamation services

Class 39

(3) Bulk fuel and lubricant supply services, namely the transportation and supply of petroleum fuels, propane, butane, oils, lubricants, greases and other fuels and lubricants; hazardous materials abatement services; transportation of patients by ambulance;

Class 40

(4) Waste management services, namely, destruction of waste, composting services

Class 41

(5) Archaeological exploration and research services

Class 42

(6) Engineering and management services, namely, pipeline, civil, and water; pipeline engineering services, namely, pipeline design, planning, permitting, execution, and maintenance; pipeline engineering services, namely, decommissioning, abandonment, deactivation, and reactivation; pipeline engineering services, namely, integrity management and maintenance; pipeline engineering services, namely, repurposing of pipelines for emerging technologies; pipeline

engineering services, namely, constraints mapping to support project siting and route selection; civil engineering services, namely, site planning and design, namely, grading, drainage, water management, utilities, roads and access, reservoirs; civil engineering services, namely, project planning, procurement, and quality assurance; water engineering services, namely, sourcing, planning, permitting, storm water management, flood mitigation, and treatment systems; renewable energy engineering services, namely, solar engineering services, wind engineering services and geo thermal engineering services; consultation services in the fields of land use and impacts of land use, environmental risk management, regulatory permitting, environmental protection, waste characterization and management, environmental remediation, land reclamation, erosion and sediment control, and traditional Indigenous land use and knowledge; environmental assessment, inspection and monitoring services in the fields of ecology, socio-economics, health and safety and Indigenous rights, namely, wildlife assessment and monitoring, aquatic surveying, biophysical surveying, hazardous materials surveying, nest sweeping, surface water monitoring, environmental site assessments, Indigenous environmental monitoring, testing and evaluation of hazardous materials, erosion and sediment inspection and monitoring; designing plans for others, namely land use plans, environmental risk management plans, environmental regulatory and permitting plans, environmental protection plans, waste characterization and management plans, environmental remedial action plans, land reclamation plans, erosion and sediment control plans, and traditional Indigenous land and knowledge use plans; Environmental assessment services in the fields of ecology, socio-economics, health and safety and Indigenous rights;

Class 44

(7) Paramedical services, namely, emergency medical assistance; Rental of portable restrooms

Class 45

(8) Consultation services in the fields of regulatory permitting and assessing, environmental and cultural impacts of land use, and documenting traditional land use and knowledge of Indigenous peoples

Class 06

(1) Loading and unloading pallets of metal; turn-tables for load handling; storage pallets of metal; traversers for load handling; containers of metal for storage and transport; industrial packaging containers of metal; chests of metal; safes.

Class 07

(2) Construction machines, namely, concrete construction machines, robots and robotic arms for lumbering, dual-arm construction robots, robots for installing drywall, and construction machine apparatus, namely, rubber tracks being parts of crawlers on road making machines, couplings for pneumatic apparatus, valves, pressure release screws and pressure switches, all being parts of construction machines; cargo loading and unloading machines, earth loading and unloading machines and loading-unloading machine apparatus, namely robotic arms for loading-unloading and rubber tracks being parts of crawlers on loading-unloading machines; moving sidewalks;

elevating apparatus, namely, elevator conveyors, elevator chains, elevator belts, elevator lifts, elevator motors, hydraulic elevators; automatic warehousing systems, namely, industrial robot module systems, namely, industrial robots and power-operated lifting and moving equipment, namely, forklifts for carrying pallets, robotic arms for applying printed labels, robotic arms for loading, robotic arms for packaging and robotic arms for palletizing; lifting installations for the transport of persons and goods, namely, passenger lifts, cargo lifting derricks, aerial work lifts, mechanical railed lifting conveyors, power-operated lift used to transport and place portable storage containers, telehandler lifts, bucket elevators, elevator lifts, freight elevators, hydraulic elevators and materials handling elevators; waste and trash conveying machines; conveying and transporting machines for waste and trash; conveying machines; mechanical lifts for moving, parking and storing land vehicles; robotic mechanisms for loading, namely, robotic arms for loading; cargo load handling robots for use in warehouses, cargo load handling robots for use on docks and cargo load handling robots for use in airports; conveying robots, namely, unmanned industrial robots for conveying of food and beverages, unmanned industrial robots for conveying letters and parcels and unmanned industrial robots for conveying suitcases and luggage; machines for processing foodstuffs, namely, meat processing robots, robotic machines for processing cereals, robotic machines for processing milk and robotic machines for processing vegetables; machines for processing beverages, namely, robots and robotic arms for beverage processing and aerated beverage-making machines; robotic mechanisms for processing foodstuffs, namely, cereals, fruits and vegetables and robots and robotic arms for food chopping, food cutting and food slicing for commercial use; robotic mechanisms for use in processing vegetables; robotic mechanisms for use in processing fruits; packaging machines; wrapping machines; sealing machines for industrial purposes; industrial robots for packaging; industrial robots for wrapping; industrial robots for sealing; fuel dispensing machines for service stations; hydrogen dispensing pumps for service stations; fuel dispensing pumps for service stations; hydrogen fuel dispensing machines for service stations for fuel cell cars; washing machines; mechanical parking systems; vehicle washing machines; machines and apparatus for cleaning, electric, namely, robots for power washing, carpet cleaning machines, carpet cleaning machine parts, central vacuum cleaning installations, compressor cleaning machines, electric window cleaning machines and equipment, floor cleaning machines, steam cleaning machines and pressure washing machines; road sweeping machines, self-propelled; industrial robots for cleaning, namely, industrial robots for cleaning floors, robotic floor polishers and robotic floor sweepers; electric vacuum cleaners; machines and apparatus for wax-polishing, electric, namely, robots and robotic arms for wax-polishing of floors and floor polishing machines; automatic floor scrubbers; electric window cleaning equipment; robotic cleaning machines, namely, robotic arms for window cleaning; robots and robotic arms for floor polishing; robotic vacuum cleaners; robotic arms for industrial purposes, namely, robotic arms for industrial fishing and robotic arms for metalworking; industrial robots, namely, industrial robots for cleaning floors, unmanned industrial robots for conveying of letters and parcels, industrial robots for shaping and working plastic material, industrial robots for working metal, industrial robots for working glass, industrial robots for welding, industrial robots for working wood and robots and robotic arms for industrial fishing; service robots for assisting humans with household tasks, namely, household cleaning and laundry robots with artificial intelligence; agricultural machines, namely, agricultural seed planting machines, machines for agriculture use for fertilizing and planting, tilling machines for agricultural purposes, windrowers for agricultural machines and agricultural reaper machines; agricultural seed planting machines; electromechanical machines for the agriculture industry, namely, balers, cultivators, plows and windrowers; reapers (agricultural machine); seed drills for agricultural machines; agricultural cultivators; rice transplanting machines; threshing machines; combine harvesters; reapers and binders; weeding machines; rice grain sorting machines; harvesting

machines, namely harvesters for agricultural use, combine harvesters and harvesters for use in forestry; lawnmowers; robotic lawnmowers; waste compacting machines; waste crushing machines; food waste disposals; waste and trash separator machines; waste sorting machines; food waste disposals (garbage disposals); starters for motors and engines; AC motors for use in industrial machines and DC motors for use with industrial machines and parts for the aforesaid goods; AC generators (alternators); DC generators; generators of electricity; electric power generators using waste heat; electric power generators for emergency use; generators for land vehicles.

Class 09

(3) Electronic parking lot ticket dispensers; coin-operated mechanisms for operating gates for car parking lots; parking meters; humanoid robots with artificial intelligence; bipedal walking humanoid robots with artificial intelligence, not including those for industrial use, medical use, or recreational use; teaching robots, namely, medical teaching robots, language teaching robots, piano teaching robots and robotic arms for medical teaching, language teaching and piano teaching; fire alarms; gas leak alarms; burglar alarms; theft alarms; alarm sensors, namely, motion sensors, infrared sensors and heat detectors; security surveillance robots; measuring or testing machines and instruments, namely, level measuring machines for surveying, scientific measuring instruments, namely, conductivity meters, sliding squares being measuring instruments, jigs being measuring instruments and joint meters being measuring instruments; parking sensors for vehicles; power distribution and control machines and apparatus, namely, electric power distribution units, power distribution control boxes, power distribution panels, rotary converters, phase modifiers, power inverters and software for monitoring electrical power distribution units; rotary converters; phase modifiers; uninterruptible electrical power supplies; lighting control apparatus, namely electrical control systems for lighting systems, lighting control panels, lighting controls; electric power distribution units; battery charge devices, namely, battery chargers for mobile telephones, computer hardware and software for charging electric storage batteries and electric batteries for vehicles, automotive battery chargers and chargers for general purpose batteries; electric power supply units, namely, electric storage batteries for automobiles, AC/DC power supplies, electric power supply sockets, high-voltage power supplies and low-voltage power supplies; battery charging devices for motor vehicles, namely chargers for electric batteries for electric vehicles, portable battery chargers for use with electric vehicles; solar-powered battery chargers; charging stations for electric vehicles; electrical plugs and sockets; solar batteries; solar panels for the production of electricity; photovoltaic installations for generating solar electricity and photovoltaic installation apparatus for generating solar electricity, namely, solar cells and panels for electricity generation and automatic solar tracking sensors; photovoltaic installations for generating electricity (photovoltaic power plants); batteries, namely, batteries for mobile telephones, automotive batteries, camera batteries, electric batteries for tablet computers, electric storage batteries for mobile phones, electric storage batteries for cameras, electric storage batteries for tablet computers, electric storage batteries for automobiles, general purpose consumer household batteries, rechargeable lithium-ion batteries and electric batteries for vehicles; electrical cells, namely, solar cells and panels for electricity generation; electrical cells and batteries for electric vehicles, namely, electric batteries for powering electric vehicles, rechargeable batteries for electric vehicles, charge regulators for electric vehicles and chargers for electric batteries for electric vehicles; fuel cells; fuel cell power generators; telecommunication devices and apparatus, namely, headsets for mobile telephones, keyboards for mobile telephones, satellite telephones, smart phones, wireless headsets for smartphones and wrist-mounted smartphones; cell phones; cell phone cases; cell phone straps; loudspeakers; cabinets for loudspeakers; battery chargers for use with telephones; headphones; earphones; telephone apparatus, namely, hands-free headsets

for mobile telephones, hands-free microphones for mobile telephones, in-car telephone handset cradles, protective cases for mobile telephones and cell phone battery chargers; intercoms; antennas, namely, antennas for radio and television, cell phone antennas, car antennas, optical sensors radio antennas, microwave antennas, radar antennas and satellite antennas; audio- and video-receivers; camcorders; electric capacitors for telecommunication apparatus; compact disc players; digital cameras; digital photo frames; DVD players; facsimile machines; Global Positioning System (GPS) apparatus, namely, global positioning system (GPS) satellites, computers, computer software, transmitters, receivers, and network interface devices for Global Positioning System (GPS); hands free kits for phones; intercommunication apparatus, namely, telephones, smartphones, intercoms, radios and wireless personal digital assistants; musical juke boxes; microphones; navigation apparatus for vehicles in the form of on-board computers and software for satellite navigation systems; optical data media, namely, blank DVDs, blank CD-ROMS; personal stereos; portable media players, namely, radio players, smartphones, smartwatches, smartglasses, MP3 players, DVD players and virtual reality glasses; radar apparatus, namely, radars, radar antennas, radar transmitters, radar receivers and radar displays; radio pagers; radios; record players; remote control apparatus, namely, remote control receivers, remote control starters for vehicles, remote control transmitters, remote controls for operating vehicle alarms, remote controls for opening and closing vehicle doors and electronic key fobs being remote control apparatus; satellite navigational apparatus, namely, satellite navigation devices and satellite navigation systems; sound and image recording apparatus, namely, remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location and digital sound processors, sound amplifiers, and electric controls for programmable sound generators; sound recording carriers, namely, blank CD-ROMs for sound or video recording, pre-recorded CDs and DVDs featuring musical sound recordings and electric cables for the transmission of sounds and optical fibers for the transmission of sounds; sound reproduction apparatus, namely, sound level meters, sound mixers and digital sound processors; sound transmitting apparatus, namely, sound projectors and amplifiers; television apparatus, namely, televisions, television tuners, television receivers, television transmitters, television decoders, television converters and remote controls for televisions; vehicle radios; video recorders; audio equipment, namely, audio amplifiers, audio cables, audio cable connectors, splitters and plugs, audio circuit boards, audio mixers, audio monitors, audio receivers, audio recorders, audio speakers, audio transmitter units, blank audio discs, smart glasses with wired and wireless audio capability and wireless audio speakers; car stereos; car televisions; in-car telephone handset cradles; vehicular radio communication machines and apparatus, namely, radio receivers and radio transmitters for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants, and its environment; radio apparatus and instruments, namely, radio antennas, radio frequency adapters, radio frequency amplifiers, transceivers, radio receivers and transmitters and radio relay cables; personal digital assistants (PDAs); cases for personal digital assistants; smartphones; smart rings; wearable smartphones; cases for smartphones; chargers for smartphones; virtual private network (VPN) hardware; wearable video display monitors; computer mouse; computer operating programs, recorded; personal computers; personal computers for vehicles; tablet computers; peripherals and accessories for tablet computers and notebook computers, namely headphones, keyboards, mouse, mouse pads, speakers, computer stands for tablet computers and notebook computers, printers, scanners, cases and covers; carrying cases adapted for computers; covers and cases for tablet computers and notebook computers; computer programs for mobile phones, namely, downloadable applications for mobile phones to enable the streaming of movies and television shows; blank USB flash drives; computer keyboards; downloadable computer software applications for route planning and driver assistance, downloadable software for the operation,

control, maintenance and management of industrial robots, laboratory robots and humanoid robots with artificial intelligence and downloadable software for the home automation of electric control systems for lighting, all for use on mobile phones, portable media players, handheld computers and in automobiles; computer software, recorded, for satellite navigation systems, computer software, recorded, for the operation, control, maintenance, and management of industrial robots, laboratory robots and humanoid robots with artificial intelligence and computer software, recorded, for controlling the physical movements of a humanoid robot with artificial intelligence and for collecting, tracking, analyzing and reporting information received from industrial robots, laboratory robots and humanoid robots with artificial intelligence; data processing apparatus, namely, computer hardware for data processing and computer chipsets for use in transmitting data to and from a central processing unit; blank magnetic disks; electronic agendas; electronic book readers; electronic pocket translators; light-emitting diodes (LED); mouse pads; optical character readers; printers for use with computers; electronic memory devices, namely, computer memory boards, memory card readers, memory card writers, memory cards for video game machines and memory expansion cards; electronic control apparatus and instruments for vehicles, namely, cruise controls for motor vehicles, electronic vehicle lock system including remote control, motion control software for autonomous vehicles, remote controls for operating vehicle alarms, remote control starters for vehicles and vehicle climate controls; electronic touch screen displays for vehicles; computer hardware and artificial intelligence software for autonomous vehicles, motion control software for autonomous vehicles, software for the creation of digital infrastructure for use by autonomous vehicles, computer software and hardware platforms for intelligent transport systems, downloadable artificial intelligence software for digital audio, video and image generation, software for the integration of artificial intelligence and machine learning in the field of Big Data, downloadable computer software using artificial intelligence for use in facial recognition, computer software for operating smart home hubs for connecting, integrating and controlling networked consumer electronic devices, home devices and temperature controls via a wireless computer network, mobile application software allowing users to connect remotely with delivery robots to control their function for pickup and delivery of goods, computer software and mobile application software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants, computer software for assisting developers in creating program code for use in multiple application programs, computer software for two or three-dimensional simulation for use in design and development of industrial products; navigation computers for cars; computer programs, downloadable, namely, downloadable applications for handheld computers, tablet computer and mobile phones to enable the streaming of movies and television shows; computer programs, recorded, namely, computer operating recorded programs, recorded computer game programs, computer programs for image processing, computer programs for network management, computer programs for processing digital music files, computer utility programs for file management; computer operating system programs and software for operating partially automated automobiles, buses and trucks and computer operating system programs and software for the control, maintenance, and management of partially automated vehicles, and vehicle components for vehicle navigation, for travel and trip planning, for communications, and for collecting, tracking, analyzing, and reporting data and information in the field of partially automated automobiles, buses and trucks; computer programs and software for use with self-driving automobiles, buses and trucks, namely, downloadable computer programs and software for mobile phones, personal digital assistants (PDA), tablet computers handheld computers, GPS navigation devices, car navigation computers, computer display monitors adapted to automobiles, in-vehicle infotainment systems, and automobile computers for use with self-driving automobiles, buses and trucks to provide the status of self-driving automobiles, buses and trucks and to calculate and display transit routes; computer

programs and software for robotic navigation, pathing, communications, and for collecting, tracking, analyzing, and reporting data and information, all in connection with autonomous automobiles, buses and trucks; downloadable computer programs and software for mobile phones, personal digital assistants (PDA), tablet computers handheld computers, GPS navigation devices, car navigation computers, computer display monitors adapted to automobiles, in-vehicle infotainment systems, and automobile computers for self-driving and automatic parking of automobiles, buses and trucks; infotainment systems for vehicles, namely, digital signage display panels that display automotive infotainment systems in vehicles; electronic tags for inventory control purposes; electronic tags for goods; virtual reality software, namely, virtual reality game software, computer software for creating 3d virtual reality plans, models, and technical specifications for use in construction and architectural design, virtual reality software for education in the field of materials science, virtual reality software for movie special effects and virtual reality training simulation software in the field of cinematography; virtual private network (VPN) operating software; fuel cell electrodes; electronic publications, namely, computer user manuals in the form of downloadable electronic publications, downloadable electronic publications in the nature of books and electronic medical publications.

Class 10

(4) Medical apparatus and instruments, namely, magnetic resonance imaging [MRI] apparatus for medical purposes, medical x-ray apparatus, ultrasonic medical diagnostic apparatus, scintillator plates being parts of x-ray apparatus for medical purpose, medical and surgical knives and cutters for cutting human or animal tissue and organs and medical instruments for general examination; wheeled stretchers; knee supports for medical purposes; ankle supports for medical purposes; abdominal belts, lumbar belts, maternity belts, orthopedic belts, ostomy belts for medical purposes; massage apparatus for medical purposes, namely, massage beds for medical purposes, electric vibrating massagers and hand-held massage rollers; artificial limbs; sphygmomanometers; heart pacemakers; electrocardiographs; body fat monitors; hospital gurneys; physical exercise apparatus for medical purposes, namely, hand and finger exercisers for therapeutic purposes and orthopaedic exercise footwear; wearable monitors used to measure biometric data for medical use to monitor patient vital signs and monitor body composition; body rehabilitation apparatus for medical purposes, namely, robotic exoskeleton suits for physical rehabilitation purposes; robotic exoskeleton suits for medical purposes; medical robots, namely, medical robots for use in cognitive therapy for children, medical robots with attached spoons for assisting physically disabled persons with eating and wearable walking assistive robots for medical purposes; robots for walking aid for medical purposes; walk assist robots for medical purposes; medical robots for assisting transfer and moving of patients; robots for aiding patient movement; nursing care support robots for supporting transfer and moving of patients and persons requiring care; Medical robots for use in nursing care facilities for assisting with mobility-impaired people; body rehabilitation apparatus for medical purposes used for balance training; medical rehabilitation apparatus for walking training; patient walkers; medical apparatus for assisting transfer and moving of patients; nursing care support apparatus for supporting transfer and moving of patients and persons requiring care; medical instruments for gait and motion analysis; treadmills for medical purposes for use in walking and gait training; medical instruments for monitoring a subject during walking process; walking aids for medical purposes, namely, walking sticks, wearable walking assistive robots for medical purposes and walking frames for disabled persons; invalid walkers; wearable walking assistive robots for medical purposes; rollators; wheeled walkers to aid mobility.

Class 12

(5) Traction engine; ropeways for cargo; ropeways for freight handling; aerial conveyors; automatically guided (driverless) material handling tractors; automatic guided vehicles; anti-theft

Sound

Visual Representations

Trademark Description

The mark is a combination of signs, namely a moving image combined with sounds, comprising one trademark, reflected in the audio-visual electronic representation included in the application. Colour is claimed for the trademark. The moving image occurs in two stages: Stage 1: The text "Life" appears on screen, all in white, against a black backdrop. The text "In", in ochre, then rolls in immediately to the left of the "Life" text such that the onscreen text forms "InLife" (the "InLife Text"). Stage 2: A visual design wholly comprising of angled text "Interac", in black, with a hand design, also in black, below the "In" letter, both set against an ochre square backdrop with rounded corners (the "Interac Design Logo"), rolls in to replace the InLife Text. The colour ochre is HEX FFB92A and the colour black is HEX 2D2926. The sound consists of a series of musical events in an A minor key running simultaneously with the moving image and consisting of three components: First, a shiny bright synthesizer picks up on the 2nd 8th note of the 1st beat in a cascading 16th notes on A in octaves ending on 2nd 8th note of the 2nd beat. It starts on A7 and goes down to A3. A reverbed piano sound starts on the fourth 16th note of the 2nd beat on a E. Second, the 3rd beat contains 3 notes starting with an appoggiatura on a G# leading to an A (16th note), followed by a B (8th note) and a E (16th note). The fourth beat concludes the audio logo with a sustained A octaves (8th note tied to dotted half note in the following bar). The rhythm of the piano is doubled by a snare drum and percussion. Third, an echoed, low/mid pluck synthesizer

sound starts on the 3rd beat on an A3 (dotted 8th note) followed by A3 on the 4th 16h note of the 3rd beat tied to the 1st 8th note of the 4th beat. The 2nd 8th note of the 4th beat is on an A3 (8th note tied to the 1st 16th note of the 1st beat of the next bar). Followed by an A3 on the 2nd 16th note of bar 2 (dotted 8th note) ending on an A3 on the 2nd beat of bar 2 (8th note).

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed in respect of the InLife Text and the Interac Design Logo. The "In" component of the InLife Text is in ochre and the "Life" component is in white. The "Interac" text and hand design in the Interac Design Logo are in black and the square backdrop with rounded edges is in ochre. The colour ochre is HEX FFB92A and the colour black is HEX 2D2926.

Colour Claim

Colour is claimed as a feature of the trademark. The colours red, blue, green, and yellow are claimed as a feature of the mark. The mark consists of a design in the general shape of a tilted cross, comprised of four curved lines and four straight lines, with the upper left quadrant in blue, the upper right quadrant in yellow, the lower right quadrant in red, and the lower left quadrant in green. Each quadrant consists of a curved line and a straight line extending from the center of the curved line, in the same color as the curved line in the particular quadrant. The color white represents background or transparent areas and is not claimed as a feature of the mark.

Services

Class 35

(1) Outsource service providers in the field of information technology for the installation, maintenance and repair of computer software.

Class 42

(2) Information technology consulting services in the fields of computer software, computer programming, computer network security, computer system integration, data integration, data migration and cloud automation; application service provider featuring computer software for

hosting, managing, developing, analyzing, and maintaining computer software applications and web sites of others; development of customized computer software for others; consultation relating to the planning, design and management of advanced information technology infrastructure systems; computer software consultancy; computer systems analysis; consultancy in the design and development of computer hardware; consulting services in the fields of implementation and use of computer hardware and software systems for others.

(1) AC/DC power supplies, namely, electric power converters; 3D television receivers; 3D glasses; organic light emitting diodes [OLED]; over-voltage protection relays; telephone connection cables; audio recorders; electrical ac adapters; transponders; electronic buzzers; MP4 players; light emitting diodes; electronic displays, namely, computer display screens, digital signage; pre-recorded CD's featuring music videos and musical sound recordings; car antennas; flashing safety lights being warning beacons; electrical cable ducts; color tv, LCD, computer, OLED, LED monitors; electrical switchgear, namely, voltage boosting devices for electric power lines; electronic coding devices, namely, barcode scanner, barcode printer, barcode reader; ammeters; electric luminous signs; pagers; high-frequency switching power supplies; connectors for coaxial cables; record players; audio processing equipment, namely, limiters and compressors; hands-free telephones; connection sleeves for electric cables; video transmitters; electrical sockets; dish aerials; optical transmitters; rechargeable batteries, namely rechargeable lithium batteries, rechargeable batteries for portable computers, rechargeable batteries for mobile phones; electric door locks; voltage stabilizing power supply; transponders; graphic display devices, namely, display monitors, digital signage; satellite transmission apparatus, namely, satellite radios, satellite telephones, satellite dishes, satellite transceivers; junction boxes; portable power chargers, namely for mobile phones, laptop computers, MP4 players; wireless audio and video receivers;

accumulators being electrical storage batteries; blank optical disks; displays for cell phones; apparatus for speech recording and replaying, namely, speech processors; radio receivers; wireless long range transmitters and receivers; junction boxes for electrical conductors; electrical measuring devices, namely, meters and multimeters for measuring electric current; timing devices, namely, time clocks; portable communication devices for voice and image transmission, namely laptop computers, smartphones, satellite phones; electric doorbells; radio transmitters and receivers; light dimmers; electric time switches; optical glass filters; TV-cameras; electro-optical sensors; battery cables; machine learning software used in computer speech analysis programs; active infrared sensors; battery adapters, namely for computers and mobile phones; anti-theft alarms; data storage devices being magnetic tapes; LED drivers; cable adapters; satellite television receivers; electrical plug connections; electric transformers; digital display devices, namely, digital signage; portable audio speakers; insulated electric cables; electronic timers; telephone answering machines; insulation resistance meters; connection logging devices, namely, multi switches, power switches; sound, noise level meters; light meters; electrical fuse boxes; optical phase shifters; audio cable testers; television, satellite signal decoders; loudspeaker boxes; electric light switches; circuit boards; joint sleeves for optical fibers; CD-Rom burners; blank magnetic tapes for recording; electrical test instruments, namely, electrical outlet tester, current tester, voltage tester, field strength tester; electronic weighing scales for personal use; magnetic tape drives; acoustic alarm devices, namely, alarm sensors, reed contacts, alarm sirens; electric and electronic music effects machines for use with musical instruments namely, electronic effects pedals, sound effects pedals; optical search devices, namely, night vision goggles, time-of-flight (TOF) cameras; monitor speakers for computers; emergency position-indicating radio beacons; portable USB chargers; electric cables; wireless weather stations; remote controlled electric sockets; insulation testing devices, namely, insulation resistance meters; electric branch switches; electrical adapter cables; electrical surge arresters; headsets for cell phones; stereo tuners; barcode scanners and readers; remotely operated electronic multiple switches, namely, electronic motion sensitive switches; digital electronic control devices for keyboards, electronic musical instruments, electric heaters and fans, photovoltaic modules, uninterruptible power supply apparatus, solar battery chargers; emergency alarm signal transmitters; phase indicators, namely phase testers; voltage limiters; acoustic measuring devices, namely, sound level meters; electrical burglar alarms; electric antenna cables; current testing devices, namely, current pulse generators; radio antennas; sound effect devices, namely, sound effect pedals for musical instruments; electrical voltage regulators; antenna masts; electrical delay lines for delaying audio signals; connecting electrical cables; optical disk readers; battery boxes; audio speaker cables; electric branch terminals; voice decoders for use in cable, satellite and television; jump leads; level converters; ballasts for fluorescent lamps; audio cassette players; satellite navigation devices; temperature sensors; electronic measurement devices for measuring electric current, , namely, meters and multimeters for measuring electric current; audio, visual and photographic equipment, namely, audio cables, audio mixers, cameras, video cameras; luminous signs; digital audio amplifiers; wireless speakers; personal stereos; circuit breakers; DC power converters , namely, meters and multimeters for measuring electric current; multiple-outlet sockets; power switches for telecommunications equipment , namely, telecommunications circuit board units, multiplexers, switchboards; DVD players; electronic probes for testing integrated circuits, testing semiconductors; MPEG audio file players; electronic audio and video signal processors; television receivers; temperature switches; pre-recorded compact discs featuring music, poetry, user manuals; electronic ballasts for LED-lights and electric lighting apparatus; satellite telephones; frequency converters; blank video tapes; fm modulators; current overload protection devices, namely current meters; switches for circuit breakers; portable electrical sockets; electronic charging load modules; electric cable detectors; surveillance cameras; neon signs; audio cables;

wireless headsets for use with mobile phones; connecting cables; repeaters for radio and television stations; grounding equipment, namely electrical cables; satellite antennas; cable ducts for electric cables; photocells for use with security lighting; wireless headphones; analog signal processors; lighting control panels; demultiplexers; voltage regulators; intrusion sensors being motion sensors; electrical cable connectors; hands-free headsets for cell phones; smoke, infrared, fire, metal, temperature detectors; radio frequency identification tags [RFID tags]; electrical amplifiers; multiplexers; scoreboards; portable digital electronic devices, namely laptop computers and mobile phones for providing access to the internet; portable DAB radios; television sockets; lighting for darkrooms; cell phone battery chargers; electrical control circuits; testing equipment for concrete; wireless network devices being wireless network extenders for the extreme high frequency range [EHF]; motion sensors for security lights; tension meters for wires and cables; portable CD players; electronic baby monitors; terminal blocks [electric cables]; multimedia terminals, namely, digital photograph viewers, 3d digital photograph viewers, lcd displays for video players; satellite receivers; blank audio disks; voltage monitor modules; electrical junction boxes; stereo receivers; electric power distribution units; electric pressure switches; battery terminals; audio signal compressors; displays for television receivers; time code generators, namely, time recording apparatus, namely digital timers; audio signal amplifiers; optical measuring devices, namely, fluorometers; electrical signs, luminous; camcorders; portable displays, namely, digital signage; multifunction keyboards; video surveillance cameras; audio equipment, namely, audio mixers, speakers, limiters and compressors, equalizers; electric cables for the transmission of sound and images; alarm sensors, namely, burglar alarms; stereo amplifiers; answering machines; illuminated signs; alarm signal receivers, namely, personal security alarms; solar battery arrays; DVD recorders; electrical relays; video cameras; satellite communications equipment, namely, satellite transceivers, for the super high frequency range [SHF]; electronic cables; quick chargers for mobile devices, namely, mobile phones, cellular phones, smartphones; phase shifters for communications apparatus, namely, mobile phones, cellular phones, smartphones; digital video cameras; portable audio equipment, namely, audio mixers, speakers, limiters and compressors; infrared remote control devices for radios, televisions, stereos; voltmeters; universal remote controls for radios, televisions, stereos; electrical transformers; electronic notice boards; pre-recorded CDs and DVDs containing video clips in the field of multimedia; video cables; digital measuring instruments for measuring electric current, namely, meters and multimeters for measuring electric current; videotape recorders; lithium batteries; luminous advertising signs; temperature indicators; emergency warning lights; remote controls for radios, televisions, stereos, computers; test equipment for testing flatness, namely, level gauges; electrical monitoring devices for monitoring energy usage, namely, electrical charging station meters for electrical monitoring; temperature detection devices, namely, sensors for determining temperature; audio cassettes featuring sound, speech, namely, musical sound recordings; cable television receivers; electric fire alarms; audio receivers; illuminated exit signs; photoelectric sensors; soundbars; portable video, cassette, cd, dvd players; electrical conductor cables; video disc players; accumulators being solar energy storage batteries; fiber optic cables; antenna filters for television reception; flexible sheaths for electrical conductor cables; plugs for electric cables; electrical remote control devices for radios, televisions, stereos; voice operated encoders, namely, vocoders; electronic bulletin boards; audio speakers; woofers; electrical radio, video, stereo, satellite receivers; electronic calculators; TV signal amplifiers; digital audio recorders; optical lanterns; light switches; electric impedance converters; electrical frequency converters; distribution transformer cabinets; emergency signal transmitters; electronic indicator boards; backlit display boards; electrical fuses; electronic power converters; junction boxes (electricity); antenna system amplifiers; satellite finders; handheld measuring devices for measuring electric current, voltage, sound level, receiving field strength, electrical power, temperature; satellite transmitters; luminous digital indicators;

demodulators; headphone amplifiers; electric current converters; television antennas; wireless network devices being wireless network extenders for the super high frequency range [SHF]; blank audio discs; solar panels; television decoders; electrical terminal blocks; electrical ammeters; modems; electrical interface cables; remote controls for controlling electronic products, namely for radios, televisions, stereos; digital still cameras; television receiving dishes; antenna masts; electrical antenna amplifiers; electronic display boards; blank recordable DVDs; illuminated advertising signs; digital thermometers, not for medical purposes; measuring transducers; motion activated cameras; wireless chargers, namely for computers, notebooks, smartphones, smartwatches; digital door locks; electronic signal receivers for radio, satellite, television; antenna signal splitters; audiobooks; earthing clamps in the nature of earth terminals; video tuners for televisions; televisions for digital multimedia broadcasting [DMB]; DAB radios; optical encoders being motion sensors; portable cassette players with radio; telephone terminals; telephone modems; flexible circuit boards; electronic sensors for electrical power, temperature, contact; satellite dishes; electric current testers; test apparatus for testing printed circuit boards; set-top boxes; electronic anti-theft alarms; power cords; electrical connection cables; electronic gps navigation devices; electrical antenna converters; electronic audio crossovers; rectifiers for electricity; digital sound mixers; battery testers; earthing testers, namely, voltage testers; radios; voltage converters; smoke sensors; electrical fuses; security alarm systems comprised of cameras, motion alarms, alarm sensors, security lights; antenna nut sockets; overvoltage protection; luminous USB cables; speech synthesizers, namely, downloadable computer software for the artificial production of human speech; optical receivers; fire alarms; temperature gauges; electric solar cells; extreme radio frequency [EHF] satellite communications equipment; static power converters; adapter cables for headphones; electric toggle switches; junction boxes for receiving cable connections; ballasts for halogen lights; LED monitors; piezoelectric sensors, namely for alarm clocks and microwave ovens; speech generators, namely, downloadable computer software for the artificial production of human speech; accessories for electrical insulators, namely electrical lugs; digital cameras; measuring devices for locating satellites, namely satellite finder meters; audio transmitters for television and radio; voltage stabilizers; electrical distribution boxes; electronic audio equipment, namely, headphones, speakers, audio mixers; surge protectors; current limiters; current transformers; transmitting and receiving apparatus for cable television broadcasting; optical amplifiers; radiation, tool, resistance measuring instruments built into photovoltaic systems; electronic calendars; cable locators; cable television converters; digital weather stations; subwoofers; telephone connection sockets; infrared detectors; uninterruptible power supply apparatus; electricity meters; measuring devices for measuring voltage, sound level, receiving field strength with digital displays namely, meters for measuring voltage, sound level meters, electromagnetic frequency detectors; video effects devices, namely, disco balls; multimedia multiplexers; spectacles; electronic rectifiers; radio buoys; players for sound and image carriers, namely CD players and DVD players; telephone intercoms; surge protectors; flexible sheaths for electric cables; measuring devices for electrical fuses; digital televisions; measuring devices for measuring voltage, gravity, height, receiving field strength, electrical power, namely, meters for measuring voltage, sound level meters, electromagnetic frequency detectors; solar battery chargers; electrical connectors; flashlights; light dimmers; luminous safety beacons; digital sound processors; downloadable or recorded remote diagnostic software for interpretation of scans provided by diagnostic imaging equipment; electric cables and wires; amplifying tubes; digital temperature, alarm, optical sensors; transmultiplexers; electric power switches; round plug connectors; car speakers; television, radio, level, satellite transmitters; heat detectors; electric breakers [switches]; digital notepads; emergency warning lights; radio relay cables; electronic advertising displays; photocells; MP3 players; ballasts for halogen lamps; electric charging cables for mobile phones, MP3 players; electric remote control devices for robots

, namely, wireless controllers to remotely monitor and control the function and status of security surveillance robots; digital universal measuring devices for measuring weight, height, voltage , namely, meters for measuring voltage, sound level meters, electromagnetic frequency detectors; cameras; digital set-top boxes; LED displays; sound mixers; CD players; digital signage display panels; electric smoke sensors; sound amplifiers; satellite communication devices for transmitting audio, video , namely, satellite transceivers; portable testing equipment for testing sound levels, batteries, electrical current , namely, sound level meters, battery testers, portable multimeters, and electrical current analyzers; fire alarms; dish antennas; electrical transmitters for use within the field of fiber optic networks and infrastructure; baby monitors; electric charge regulators, namely for electric vehicles; parabolic antennas; blank DVDs; electrical distribution conductor rails; indicator lights for switchboards; USB cables; LCD large-screen displays; voltage dividers; battery starters; mobile phone, photovoltaic chargers; digital audio file players; piezoelectric switches; ballasts for gas discharge lamps; screen filters adapted for tablet computers; dustproof plugs for mobile phone jacks; cases for MP3 players; cases adapted for notebooks; cases for pocket calculators; covers for telephone receivers; cases adapted for DVD players; cases adapted for netbooks; leather cases for smartphones; cases for cell phones; cases for portable media players, namely MP4 players; cases for computer discs; laptop bags; carrying cases for radios; covers for e-book readers; cases for smartphones; cases for tablet computers; leather cases for portable telephones; cases for cameras; spectacle cases; laptop sleeves; carrying cases for computer printers; cases for satellite navigation devices; carrying cases for portable music players; carrying cases for computers; carrying cases for contact lenses; protective cases for personal digital assistants [PDAS]; cases adapted for CD-players; carrying cases for cell phones; cases for cell phones; cases for video cassettes; covers for laptops; carrying cases for mobile computers; cases for telephones; cases for headphones; carrying cases for digital music players; remote controls for mobile electronic devices; leather covers for tablet computers; eyewear cases; cases for camcorders; pre-recorded fitness DVDs; fitness bracelets [measuring instruments]; portable smartphones; portable measuring tapes; portable audio recorders; portable telecommunications apparatus, namely, smartphones, tablets, digital switches being digital telephone switching apparatus, modems, computer network hubs, and wireless routers; portable flash memory cards; portable radios; wrist-worn computers; downloadable mobile applications for use with portable computing devices for spreadsheet management, word processing; portable solar batteries for generating electricity; portable radio transmitters; portable digital electronic scales being pocket scales; wearable activity trackers; portable communication devices in the nature of watches; portable electronic digital communication devices for transmitting voice, images , namely, laptop computers, smartphones, satellite phones; portable gps navigation devices; portable video cameras with built-in video cassette recorders; insulated clothing for protection against accident or injury; safety, swimming, ski goggles; protective suits for aviators; protective work clothing for protection against accidents or injuries; non-medical environmental protection masks for respiratory protection; biological hazard protection suits; hand-held protective shields for the police; downloadable computer data privacy protection software; protective films for tablet computers; electric residual current control devices; chest protectors, namely bulletproof vests, stab proof vests for the prevention of accidents or injuries, not for athletic use ; footwear for protection against fire; headgear being protective crash helmets; sound masking devices for speech privacy being speech modulators; asbestos protective screens for firefighters; safety footwear for protection against accident or injury; safety glasses; mouth guards for use in sports; specially shaped sports bags for protective helmets; protective clothing made from bulletproof materials; safety glasses for eye protection; face shields for athletic use; anti-glare filters for computer monitors; protective goggles for sports purposes; luminous safety bracelets; protective screens namely, anti-glare filters for televisions, computer monitors, tablet computers;

mouthguards for sports, athletic use; clothing for protection against biological hazards; protective masks namely, protective industrial face masks, dust protective masks, protective face masks for the prevention of accident or injury; protective devices for power lines being power line conditioners; dust masks; injury head protection for sports activities; screen protectors in the form of protective films for cell phones; snow goggles; eye shields for athletic use; clothing for protection against fire; insulating gloves for industrial use for protection against accidents; lenses for workmen's protective face-shields; protective cases for MP3-players; ski goggles; welding helmets; fire protection masks [rescue equipment]; protective goggles for motorcyclists; leather clothing for protection against accident or injury; dustproof blind plugs for headphone jacks; radiation protection clothing; air purifying respirators with air filters; protective clothing with breathable properties for protection against accidents; protective goggles for sports; face shields for athletic use; adapted protective films for smartphones; protective covers for e-book readers; dust covers for computers; gloves for protection against accident; protective covers for PDAS [personal digital assistants]; reflective articles for clothing for protection against accidents; waterproof survival suits for prevention of drowning; thermal clothing specifically adapted for protection against accidents, irradiation and fire; reflective discs for clothing for protection against traffic accidents; protective visors for helmets; protective gloves against X-rays for industrial purposes; high visibility reflective clothing; anti-theft alarms other than for vehicles; skull protection, namely, protective helmets for sports; fault-voltage-operated circuit-breakers; asbestos clothing for protection against fire; balaclavas [underlay masks for helmets] for protection against accidents, irradiation and fire; protective caps for cameras; mouth guards for use in boxing; tempered glass screen protectors for cell phones; dust goggles; filters for respiratory masks, not for medical purposes; dust protection filler plugs for cell phones; asbestos gloves for protection against accidents; gloves for protection against accidents; reflective discs for clothing, for protection against traffic accidents; protective industrial face shields; liquid crystal protective films for smartphones; thermal protective clothing for protection against accident or injury; eye protection glasses; fire detectors; protective eyeglasses; head guards for karate; head guards for sports; footwear for protection against accidents; privacy protection software; anti-glare glasses; multiple socket outlets with surge protection; dust protection filler plugs being dust covers for charger ports for electronics.

Class 10

(2) portable medical epilators; portable nebulizers for medical purposes; portable instruments, namely oxygen monitors for medical use for monitoring oxygen levels in gas mixtures; protective masks for surgeons for use in operations; respirators for artificial respiration; hygienic masks for protection against dust for medical purposes; face masks for medical purposes; face masks for veterinary purposes; protective clothing for surgical purposes; protective visors for surgical use; eye shields for medical purposes; face masks for surgical use for protection against toxins; mouth guards for medical purposes; finger guards for medical purposes; protective face masks for medical purposes; protective face masks for dental purposes; earplugs for protection against noise; protective gloves for medical examinations; respirators of non-woven material for surgical applications; medical respirators; protective masks for medical personnel; face masks for medical use for protection against toxic substances; disposable protective gloves for medical purposes; protective gloves for dental staff; radiation protective textiles in the nature of patient x-ray radiation shields for use in therapeutic treatments; radiation protection textiles for use in therapeutic treatment of animals; protective visors for veterinary purposes; respirators for surgical use; disposable protective clothing for medical purposes; hearing protection devices namely, ear plugs; protective bonnets for the hair for wear by medical practitioners; face masks for dental purposes; hearing protection earpieces; face masks for surgical use for protection against bacteria; protective gloves for medical personnel; clear face shields for medical personnel; face masks for medical use

for protection against bacteria; nasal masks for veterinary purposes; protective nasal masks for dental purposes; surgical face mask; protective eye shields for dental purposes; protective nasal masks in the nature of nasal filters for medical purposes; protective gloves for veterinary purposes; patient medical monitors for monitoring vital signs; elbow pads for medical purposes; electronic nerve and muscle stimulators for medical use; face shields for medical purposes; lamps for medical curative purposes; infrared lamps for healing purposes; skin temperature indicators for medical purposes; anaesthesia respiration apparatus; arm slings [supportive]; inhalation devices provided empty for administering drugs; electric vibrating massagers for personal use; measuring devices for measuring blood sugar; respiratory monitors, namely medical devices for monitoring, measuring and displaying respiratory breathing patterns; sports equipment for medical rehabilitation purposes, namely, shoulder stretcher using resistance cables; devices for measuring blood sugar; facial massagers for the eyes; aerosol dispensers for medical purposes; exercise machines, namely electronic heart rate monitors for medical use; apparatus for endoscopies, namely cameras; magnetic bracelets for medical purposes; devices for foot massage; devices for orthopedic purposes namely, plaster casts, toe separators, casting tape; electric heating pads for medical purposes; light sources for medical purposes namely, medical operating lamps; surgical breathing masks; elastic compression bandages for surgical use; medical devices for use as hearing aids; sex aids namely, sex toys, dildos, vibrators; disposable gloves for surgical use; electrical muscle stimulators; lamps for use with dental instruments; padding for medical purposes namely, orthopedic cushions and padding; body massagers; anatomical support bandages; infrared lamps for medical purposes; apparatus for performing diagnostic tests for medical purposes, namely dynamometers for diagnostic muscle strength testing; electronic temperature monitors for medical use; electric body massager for household use; exercise weights [adapted for medical use]; compression bandages for limbs for sports purposes; ultrasonic wave diagnostic apparatus for medical use; electronic muscle stimulators for medical use; electronic blood pressure recorders [for medical use]; padded headrests for surgical use; adhesive support bandages; apparatus for determining blood flow; thermometers for medical use; belts for surgical use; vibrators being adult sexual aids; sexual activity devices namely, sex toys, vibrators; latex gloves for surgical use; medical image processors; electro acupuncture devices; apparatus for measuring arterial blood flow in the eye; dilatation probes for surgical purposes; electronic blood oxygen saturation monitors [for medical use]; compression tights; light therapy devices for pain relief, treating depression and fatigue due to lack of sunlight; sleeping aid devices inducing sleep by blanking out sound; dead skin removers, namely, skin grinders; diagnostic measuring devices, namely, medical diagnostic imaging systems, namely, MRI, CT scanners for screening cancer, blood testing analyzers, polymerase chain reaction (PCR) diagnostic machine for viral detection for diagnosing cancer, viral diseases, namely, herpes, hepatitis, Acquired Immune Deficiency Syndrome (AIDS); inflatable pillows for medical purposes; lasers for dental purposes; anesthetic masks; microsensor probes connected to microprocessing devices for medical diagnostic purposes, namely, glucose monitors, wearable ECG monitors; padded neck rests [cushions] for surgical purposes; medical electrodes; hearing protection earmuffs; inhalers for medical purposes filled with a specific pharmaceutical preparation for the treatment of respiratory diseases and disorders; scalp massagers; telemetry devices being electric heart rate monitors for medical purposes; surgical lamps; electrical instruments, namely instruments for taking blood samples and for arterial blood pressure measuring for medical use for blood diagnosis; body fat meters; hemostatic devices namely, suture instruments; electrodes for recording biological parameters for medical purposes; medical diagnostic equipment namely, x-ray diagnostic apparatus, ultrasound diagnostic apparatus; blood glucose meters; electric nebulizers for medical purposes; electric heating packs for therapeutic purposes; abdominal belts for medical purposes; hearing prostheses; lamps for generating polarized light for medical purposes; medical masks, namely, protective

masks for medical purposes, oxygen masks for medical use; nebulizers for medical purposes; digital hearing aids; heating pads for therapeutic purposes; ultrasonic diagnostic instruments for medical use, namely, x-ray diagnostic apparatus, ultrasound diagnostic apparatus; electric vibrating massagers; face shields for surgical use; massage gloves; protective breathing masks for medical purposes; medical latex gloves; computer controlled exercise machines, namely for hand and finger exercises, for therapeutic purposes; electrical nerve stimulators; blood pressure monitors; electric thermal compresses for surgical use; electric or non-electric body massager; acoustic amplifiers [hearing aids] for the hearing impaired; electric oral care apparatus for use by dentists, namely, dental drills, dental picks, oral irrigators; electronic stimulation devices for physiotherapy; surgical clothing; hemostatic suture instruments; inner cover for protective breathing masks for medical purposes; low frequency electric therapy apparatus; electronic blood pressure monitors [for medical use]; lighting apparatus for medical purposes, namely lamps for light therapy; orthopedic articles, namely, braces, soles, footwear and belts for diagnostic and therapeutic use; orthopedic joint bandages with supportive function; medical support hosiery; pressure relieving pillows and pads; electronic hearing aids; elastic compression bandages for medical purposes; inhalation devices for vaporizing aromatherapy substances; inhalers for therapeutic purposes; heart rate monitors; inhalers for medical purposes sold empty; inhalers for therapeutic use; elastic bandages for support purposes; latex gloves for medical purposes; massage chair; electric blankets for medical purposes; adapted compression bandages; lamps for medical purposes; light filters for lamps for medical purposes; apparatus for testing hearing impairment, namely medical hearing instruments; permanent pain relief magnets for medical purposes; leads for pacemakers; artificial respiration apparatus; clothing, namely, scrub tops, scrub pants, scrub hats, disposable surgical caps and disposable protective footwear for medical purposes; splints for general medical use; permanent therapeutic magnets; walking aids, namely wheeled trolleys for medical purposes; nebulizers for respiratory therapy; belts for attaching medical monitoring devices to patients; ultrasonic diagnostic instruments for therapeutic and medical use; measuring devices for checking blood pressure; hand operated body and facial massager; electrical hearing aids; inflatable mattresses for orthopedic purposes; heart rate recorders; tanning lamps for medical purposes; lamps for medical purposes; anesthetic apparatus, namely, liquid anesthetic vaporizers for controlling the vaporization of anesthetic agents from liquid; hearing aids for the deaf [acoustic aids]; body composition, skin moisture, hematology analyzers for medical purposes; inflatable clothing for medical purposes; inflatable mattresses for medical purposes; magnetic bracelets for medical purposes; face masks for surgical use; x-ray CT scanners for medical diagnosis; patient medical monitors for monitoring lung function; ear adaptors for hearing aids; plaster bandages for orthopedic purposes; heat lamps for medical purposes; medical examination gloves; programmers for rate-programmable pacemakers; fluoroscopy apparatus for medical purposes, namely, medical x-ray apparatus; lasers for medical purposes; defibrillators; electric massage rollers; hand operated nebulizers for medical purposes; analog hearing aids; anti-rheumatism bracelets and bands; humidifiers for medical treatments; programmable hearing aids; devices for monitoring body values namely, blood sugar; disposable gloves for veterinary purposes; apparatus for autologous blood therapy for medical purposes, namely, syringes and needles; hot air vibrators for medical purposes; bags adapted for medical instruments; finger cots for diagnostic purposes; lasers for use in surgery; sex toys; medical electrodes for recording electrophysiological parameters.

Class 28

(3) Fitness equipment namely, weights, treadmills, rowing machines, stair stepping machines, resistance machines, stationary equipment; abdominal wheel rollers for fitness purposes; fitness equipment namely, sport balls, dumbbells, exercise weights, training bars for indoor use; fitness

and exercise equipment namely, exercise bands, training bars; physical fitness devices, namely, weighted bars, resistance machines; manually operated fitness equipment namely, exercise bands, dumbbells, weight machines; fitness resistance bands; portable games with LED displays; portable home gymnastics equipment namely, gymnastic mats; portable video game consoles; protective films adapted for screens for portable games; portable game consoles; portable consoles for playing video games; portable game equipment namely, chips, gaming tables, board games; portable games and toys with integrated telecommunication functions namely, strategy games, role playing games, first person shooters, skill games; American football knee protectors; knee protection pads for roller skaters and ice skaters; basketball finger guards [sporting articles]; protective cases for video game remote controls; wrist protection pads for cyclists; protective pads for athletes; American football leg protectors; palm protectors for athletes; abdominal protection for athletes; fist guards for athletic use; arm protection pads for cyclists; protective covers for sports rackets; armguards for baseball players; baseball pitching screens; adapted protective cases for handheld video games; protective cups for sport; arm protection pads for skateboarders; protective face masks for fencers; protective films for video game remote controls; wrist protectors for skateboarders; kendo plastrons; elbow pads for skateboarders; shoulder protectors for athletes; protective gloves for archery; protective vests for martial arts; knee protection pads for cyclists; arm guards for archery; groin protectors for men for athletic use; body protectors for athletic use; wrist protection pads for roller skaters and ice skaters; chest protectors for baseball; belly protection for taekwondo; protective elbow pads for roller-skaters and ice-skaters; chest protectors for athletes; shin guards for athletic use; elbow pads for cyclists; American football girdles [pants with integrated protective padding]; arm guards being sporting articles; arm protection pads for roller skaters and ice skaters; shock absorbing pads for protection against injury for athletic use, namely for arms, chests, elbows, hands, knees, shins, shoulders and wrists; knee pads for skateboarders; appliances for gymnastics namely, uneven bars, springboards, balance beams; electronic educational teaching games for children; chest expanders; bodyboards; rowing machines; machines for playing games of skill or games of chance; leg weights for exercise purposes; hand protectors for athletes; spring grip devices for exercise purposes being hand grip strengtheners; spring bars for exercising; water skis; amusement machines, automatic and coin-operated; golf training aids, namely, a brace worn on the hand and wrist to control flipping of the hand in a golf swing; manual leg exercise equipment; flying discs [toys]; sports exercise equipment namely, pulleys, rowing machines, powered treadmills for running; housings for video game machines; ribbons for rhythmic gymnastics; sit-up benches; punching balls for children; beach balls; hurdles for athletics; exercise dumbbells; adapted covers for sporting articles, namely fitted covers for tennis rackets; football gloves; educational games for developing fine motor, cognitive, counting skills; batball games; climbing frames; dumbbells; bags adapted for surfboards; bodyboard straps; sledges for use in down-hill amusement rides; balls for sports games; jumping ropes; body training apparatus, namely, weight lifting machines; swimming jackets; kettlebells; golf practice apparatus, namely, golf practice nets; stress relief exercise balls; action and skill games; punching bag; barbells; car racing tracks; treadmills for physical exercise; toboggans [leisure equipment]; slot machines; sporting articles and equipment namely, weight machines, basketballs; weight lifting benches; juggling balls; ice skates and roller skates; gymnastics equipment namely, gymnastic rings, gymnastic mats, gymnastic benches; skateboards; dumbbells [for weight lifting]; roller skates; surfboards; medicine balls; board games; weight machines for physical exercise; elastic shoulder pads for athletes; climbing harnesses [sporting articles]; balls being sports equipment; darts; gymnastic and sporting articles namely, gymnastic mats, pommel horses; bags adapted for use with sporting equipment; skeleton sleds [sporting articles]; badminton games; aerobic stepper; swimming boards for recreational purposes; seesaws; boxing gloves; sports ball games; memory games; boards for water sports, namely paddleboards; inflatable punching bags;

multi-purpose exercise toys for children; lifting handles for weight lifting; game console controllers; American football gloves; aerobic step boards; squat racks; rugby balls; hurdles for sports purposes; rackets for playing tennis; ring toss games; articles of clothing for toys; boxing rings; exercise balls; inflatable balls for sports; fencing equipment; jumping horse; computer game machines; putting mats for indoor putting; punching balls [for boxing training]; hurdles for use in athletics; slingshots [sporting articles]; push-up stands; roller skis; table tennis racket; battery operated computer games with lcd screens; exercise bikes; skipping ropes with digital counters; finger exercise bands; computer game controllers; remote controls for toys; trampolines; intelligent electronic toy vehicles; sports rackets for playing tennis; weight lifting belt; aerobic step boards; electronic toy motor vehicles; shin pads for sports use

(1) Aromatic essential oils; fabric softeners for laundry use; biodegradable laundry detergents; commercial laundry detergents; laundry detergents for household cleaning use; bleaching preparations for laundry use; colour-brightening chemicals for household purposes, namely, laundry; fabric softeners for laundry; laundry additives for water softening; laundry additives, namely, scent boosters; laundry bluing; laundry brightener for colour; laundry pre-soaking preparations; nail polish; toilet soaps; non-medicated body cleansers for use in baths and showers; non-medicated body scrubs; non-medicated body soaks; shampoos; non-medicated toiletries, namely, shower gel, body soap, body wash, shaving soap, and shower cream; all-purpose cleaning preparations; polishing creams; polishing paper; polishing wax; pastes for polishing leather; impregnated cloths for polishing; soaps for personal use; perfumes and toilet waters; cosmetics; air fragrancing preparations; fragrances and perfumery; adhesives for affixing false eyelashes; adhesives for artificial nails; pre-moistened cosmetic tissues; teeth whitening

preparations; tooth cleaning preparations; non-medicated mouth rinses; non-medicated mouth washes; non-medicated mouthwashes; dentifrices; non-medicated pet shampoos; cosmetics for animals.

Class 09

(2) Blank CDs; computer software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; computer game software, recorded; downloadable multimedia audio and video files containing recordings in the field of skin care preparations, sun care preparations and cosmetics; downloadable digital media content being videos; downloadable music files; downloadable electronic publications in the nature of magazines; downloadable electronic publications in the nature of newsletters; downloadable electronic publications in the nature of journals; downloadable electronic publications in the nature of brochures; downloadable electronic publications in the nature of catalogues; downloadable electronic publications in the nature of directories; downloadable digital content in the form of electronic publications of handbooks; downloadable digital content in the form of electronic publications of booklets; terminals for radiotelephones; cell phone battery chargers; general purpose consumer household batteries; high-tension batteries; lithium batteries; rechargeable alkaline batteries; rechargeable lithium batteries; rechargeable nickel-cadmium batteries; tubular lead-acid batteries; D-cell batteries; C-cell batteries; alkaline batteries; 9V batteries; AA batteries; AAA batteries; sunglasses; selfie sticks [hand-held monopods]; protective films adapted for smartphones; wireless headsets for smartphones; computer application software for mobile phones that allows users to send and receive customer loyalty coupons and vouchers; computer application software for mobile phones that allows users to send and receive promotional coupons and vouchers; computer application software for mobile phones that allows users to search, identify, and redeem loyalty reward offers; computer application software for mobile phones that allows users to search, identify, and redeem promotional coupons and vouchers; computer application software for mobile phones that allows users to search, identify, and redeem customer loyalty coupons and vouchers; computer application software for mobile phones that allows users to search, retrieve, viewing, book, rent and lease stadium facilities and suites for sporting events and concerts, sports arena facilities, studio facilities, cinema facilities, gymnasium facilities; computer application software for mobile phones to manage stadium facilities and suites for sporting events and concerts, sports arena facilities, studio facilities, cinema facilities, gymnasium facilities; cases for smartphones; wireless speakers; eyeglasses; phonograph records; ear phones; cameras; contact lenses; cell phone straps; DNA chips; egg-candlers; galvanometers; electronic door alarms; electronic window alarms; personal alarms; whistle alarms; burglar alarm systems; anti-intrusion alarms; fire alarm systems; smoke alarms; calculating machines; mechanisms for counter-operated apparatus, namely, mechanisms for money counting and sorting machines; slide-rules; particle counters for measuring air quality; respirators for filtering air, not for medical purposes; optical glass; neon signs; exposed camera film; nose clips for divers and swimmers; theft alarms; electronic collars to train animals; coin-operated mechanisms for computer games and video games; coin-operated mechanisms for arcade games; radio transceivers; carpenters' rules; semi-conductors; anti-reflective lenses; clothing for protection against fire; electronic buzzers; security surveillance robots; integrated boiler control systems consisting of electronic flame safeguard and modulating controls; protective safety helmets for use on the job site; protective sports helmets; video game cartridges; shoes for protection against accidents and fire; gloves for protection against accidents; fire boats; fire engines; smartglasses; audiovisual teaching apparatus, namely, slide projectors, movie projectors, overhead projectors; video cameras for broadcasting; personal video recorders [PVRs]; digital video recorders; digital voice recorders; divers' masks; electric door bells; electrified fences; electric locks for vehicles; electric plugs; wires,

electric; precision measuring apparatus, namely, laser distance meters; vehicle breakdown warning triangles; railway signals; solar wafers; home theatre surround sound systems; fire escapes; dust masks; protective face masks for the prevention of accident or injury; downloadable emoticons for mobile phones; downloadable computer graphics.

Class 01

(1) Activated carbon; carbon rods; granular activated carbon; graphene; graphene oxide; artificial graphite for industrial purposes; natural graphite; graphene nanotubes; carbon nanotubes for use in extremely small scale electronic and mechanical applications; natural and artificial graphite powder for industrial purposes; artificial graphite blocks and rods; minerals in powder form, namely, graphene powder and graphene oxide powder for industrial use; industrial minerals, namely, graphene powder and graphene oxide powder; industrial chemicals for use in the manufacturing of absorbing carbons; chemicals for use in the manufacture of inks; chemical additives for the production of inks; graphene and graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds; coolants; coolants containing graphene; coolants containing graphene oxide; natural graphite and graphene for industrial purposes; dispersions containing graphene; dispersions containing graphene oxide; chemical preparations for facilitating the alloying of metals; chemical preparations for use in the manufacture of solvents for scientific purposes, other than for medical or veterinary purposes; chemical reagents for use in the manufacture of pharmaceuticals, cosmetics, foods, food additives, agrochemicals, biochemical and industrial manufacturing chemicals; chemical substances for use in the manufacture of solvents for laboratory analysis, other than for medical and veterinary purposes; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; graphite in raw or semi-finished form for use in manufacture; nanopowders created from minerals, ore, construction waste, metal, refuse and pulp all for use in industry.

Class 07

(2) Machines and machine tools for treatment, processing and manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, natural graphite, artificial graphite for industrial purposes, graphene nanotubes, carbon nanotubes, carbonates, natural and artificial graphite powder for industrial purposes, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene and graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants

containing graphene, coolants containing graphene oxide, natural graphite and graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite in semi-finished form for use in manufacture, graphite in semi-finished form for use in manufacture, semi-finished carbon compounds, semi-finished graphene, semi-finished graphite compounds for use in manufacture, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene and graphene oxide for use in insulating buildings, insulation materials, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibre for use in building and construction, plastics and resins in extruded form for use in industry and manufacturing, insulation materials containing graphene and graphene oxide, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibres, polymeric materials containing graphene or graphene oxide for use as sealant in manufacturing and industry, chemical substances containing graphene and graphene oxide for insulating buildings against moisture, not paint, sealant compounds containing graphene and graphene oxide for joints for building, industry and commercial and industrial manufacturing purposes, sealing agents containing graphene and graphene oxide for building, industry and commercial and industrial manufacturing purposes, plastics and resins in extruded form containing graphene and graphene oxide for use in manufacture, semi-worked polymer resins in the form of fibres with graphene and graphene oxide for use in industry and commercial and industrial manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene and graphene oxide, namely, moulded foam, cellulose acetate film and low-density polyurethane foam, flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene and graphene oxide, industrial coatings for insulating buildings, adhesive waterproof sealants containing graphene and graphite; electromechanical machines for chemical industry, namely, furnaces for chemical and material synthesis, furnaces for heat treatments, industrial mixers for mixing liquids in the pharmaceutical and chemical industries, high-shear mixers, tumble grinder machines, agitators for chemical processing, plasma etching machines, chemical vapor deposition [CVD] reactors for semiconductor manufacturing machines, extruding machines for metals, machines for extruding plastics, granulating machines for chemical processing, parts and fitting for the aforementioned goods; filtering machines for chemical processing, parts and fitting for the aforementioned goods; centrifugal grinding machines, parts and fitting for the aforementioned goods; metalworking machine tools, parts and fitting for the aforementioned goods; milling machines, parts and fitting for the aforementioned goods; industrial machine presses, parts and fitting for the aforementioned goods; pulverisers being machines, namely, v-belt pulley, drive pulley and step pulley, parts and fitting for the aforementioned goods; power-operated atomisers for industrial and commercial use for spray drying, parts and fitting for the aforementioned goods; superheaters, namely, steam engine boilers, parts and fitting for the aforementioned goods; graphite electrode and natural graphite tube making machines, parts and fitting for the aforementioned goods; graphene electrode and artificial graphene tube making machines, parts and fitting for the aforementioned goods.

Class 17

(3) Carbon fibre; carbon fibres for use in industry; crude fibres of carbon; raw fibres of carbon, other than for textile use; carbon fibre compounds; carbon fibre felts; mineral fibres, namely, carbon fibers, not for textile use; carbon graphite semi finished materials, namely, carbon graphite sheets for insulation; graphite materials, namely, graphite sheets for insulation; carbon composite semi-finished materials, namely, carbon fibers, not for textile use; graphene and graphite composite semi-finished materials, namely, graphite foam; unprocessed and semi-processed rubber, gutta-percha, gum, mica; unprocessed and semi-processed gutta-percha substitutes; unprocessed and semi-processed mica substitutes; unprocessed and semi-processed rubber substitutes, namely thermoplastic elastomer resins in pellet form for use in manufacture and silicone rubber; insulating materials made of polyethylene foam and polyurethane foam for use in industry and manufacturing; insulation materials made of polyethylene foam and polyurethane foam for use in the ship, automotive and aircraft building industries; synthetic polymer film coatings containing graphene or graphene oxide used for electrical insulation in the manufacture of industrial products; foam insulation materials for use in building and construction, excluding building glass; plastics and resins in extruded form for use in industry and manufacturing; insulating materials made of graphene, excluding building glass; insulating materials made of graphene oxide, excluding building glass; polymer films containing graphene or graphene oxide for use as sealant in manufacturing and industry; substances containing graphene or graphene oxide, namely, polyurethane and isocyanate spray foam and cellulose insulation for insulating buildings against moisture, excluding paint; sealants containing graphene and graphene oxide for joints for building, industry and commercial and industrial manufacturing purposes; sealing agents containing graphene and graphene oxide for building, industry and commercial and industrial manufacturing purposes; plastics and resins in extruded form containing graphene and graphene oxide for use in manufacture; semi-worked polymer resins in the form of fibres with graphene and graphene oxide for use in industry and commercial and industrial manufacturing; packing, stopping and insulating materials, namely, moulded foam, cellulose acetate film and low-density polyurethane foam; packing, stopping and insulating materials containing graphene and graphene oxide, namely, moulded foam, cellulose acetate film and low-density polyurethane foam; flexible plastic pipes, tubes and hoses for plumbing purposes; flexible plastic pipes, tubes and hoses containing graphene and graphene oxide for plumbing purposes; industrial coatings for insulating buildings, namely, electrical insulating paints, thermally insulating paints, synthetic polymer film coatings used for electrical insulation in the manufacture of industrial products; adhesive waterproof sealants containing graphene and graphite.

Services**Class 37**

(1) Installation, repair and maintenance of machines and machine tools for treatment, processing and manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, natural graphite, artificial graphite for industrial purposes, graphene nanotubes, carbon nanotubes, carbonates, natural and artificial graphite powder for industrial purposes, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for use in the manufacture of inks, graphene and graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene, coolants containing graphene oxide, natural graphite and graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for

analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite in semi-finished form for use in manufacture, graphite in semi-finished form for use in manufacture, semi-finished carbon compounds, semi-finished graphene, semi-finished graphite compounds for use in manufacture, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene and graphene oxide for use in insulating buildings, insulation materials, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibre for use in building and construction, plastics and resins in extruded form for use in industry and manufacturing, insulation materials containing graphene and graphene oxide, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibres, polymeric materials containing graphene and graphene oxide for use as sealant in manufacturing and industry, chemical substances containing graphene and graphene oxide for insulating buildings against moisture, not paint, sealant compounds containing graphene and graphene oxide for joints for building, industry and commercial and industrial manufacturing purposes, sealing agents containing graphene and graphene oxide for building, industry and commercial and industrial manufacturing purposes, plastics and resins in extruded form containing graphene and graphene oxide for use in manufacture, semi-worked polymer resins in the form of fibres with graphene and graphene oxide for use in industry and commercial and industrial manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene and graphene oxide, namely, moulded foam, cellulose acetate film and low-density polyurethane foam, non-metallic flexible pipes, tubes and hoses, containing graphene and graphene oxide, industrial coatings for insulating buildings, adhesive waterproof sealants containing graphene and graphite, information, advisory and consultancy services relating to all the foregoing; installation, repair and maintenance of electromechanical machines for chemical industry, namely, furnaces for chemical and material synthesis, furnaces for heat treatments, industrial mixers for mixing liquids, high-shear mixers, tumble grinder machines, agitators for chemical processing, plasma etching machines, chemical vapor deposition [CVD] reactors for semiconductor manufacturing machines, extruding machines for metals, machines for extruding plastics, granulating machines for chemical processing, filtering machines for chemical processing, centrifugal grinding machines, metalworking machine tools, milling machines, industrial machine presses, pulverisers being machines, namely, v-belt pulley, drive pulley and step pulley, power-operated atomisers for industrial or commercial use, superheaters, namely, steam engine boilers, graphite electrode and natural graphite tube making machines, graphene electrode and artificial graphene tube making machines, information, advisory and consultancy services relating to all the foregoing.

Class 40

(2) Custom additive, wet lay-up, pre-impregnated lamination and resin transfer moulding manufacture and assembly comprised of carbon and graphite, information, advisory and consultancy services relating to all the foregoing; custom manufacture of prototypes for others, namely, prototype fabrication of new products for others, information, advisory and consultancy services relating to all the foregoing; powder coating treatment services, namely, treatment of materials in the nature of metal, information, advisory and consultancy services relating to all the foregoing; processing and treatment of chemicals, carbon, carbon fibre, graphite, graphene and

minerals by vulcanization, information, advisory and consultancy services relating to all the foregoing; rental of chemical, carbon, carbon fibre, graphite, graphene and minerals processing machines and apparatus, information, advisory and consultancy services relating to all the foregoing; treatment of industrial waste and captured landfill gas to capture carbon, information, advisory and consultancy services relating to all the foregoing; heat treatment of wood for preservation purposes, information, advisory and consultancy services relating to all the foregoing; rental of power-generating equipment for the treatment and transformation of materials, for energy production and for custom manufacturing, information, advisory and consultancy services relating to all the foregoing.

Class 42

(3) Scientific and technological industrial research and design services in the field of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial graphite for industrial purposes, natural graphite, graphene nanotubes, carbon nanotubes, carbonates, natural and artificial graphite powder for industrial purposes, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene and graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene, coolants containing graphene oxide, natural graphite and graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite in semi-finished form for use in manufacture, graphite in semi-finished form for use in manufacture, semi-finished carbon compounds, semi-finished graphene, semi-finished graphite compounds for use in manufacture, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene and graphene oxide for use in insulating buildings, insulation materials, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibre for use in building and construction, plastics and resins in extruded form for use in industry and manufacturing, insulation materials containing graphene and graphene oxide, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibres, polymeric materials containing graphene and graphene oxide for use as sealant in manufacturing and industry, chemical substances containing graphene and graphene oxide for insulating buildings against moisture, not paint, sealant compounds containing graphene and graphene oxide for joints for building, industry and commercial and industrial manufacturing purposes, sealing agents containing graphene and graphene oxide for building, industry and commercial and industrial manufacturing purposes, plastics and resins in extruded form containing graphene and graphene oxide for use in manufacture, semi-worked polymer resins in the form of fibres with graphene and graphene oxide for use in industry and commercial and industrial manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene and graphene oxide, namely, moulded foam, cellulose acetate film and low-density polyurethane foam, flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene

and graphene oxide, industrial coatings for insulating buildings, adhesive waterproof sealants containing graphene and graphite, information, advisory and consultancy services relating to all the foregoing; scientific and technological industrial research and design services in the field of machines and machine tools for treatment, processing or manufacturing of carbon, carbon rods, granulated carbon, graphene, graphene oxide, artificial graphite for industrial purposes, natural graphite, graphene nanotubes, carbon nanotubes, carbonates, natural and artificial graphite powder for industrial purposes, artificial graphite blocks and rods, minerals in powder form for industrial use, industrial minerals, industrial chemicals, chemicals for use in the manufacture of inks, chemical additives for the production of inks, graphene and graphene oxide as an additive for paint, ink, resins, concrete, plastics and rubbers and rubber compounds, coolants, coolants containing graphene, coolants containing graphene oxide, natural graphite and graphene for industrial purposes, dispersions containing graphene, dispersions containing graphene oxide, chemical preparations for facilitating the alloying of metals, chemical preparations for scientific purposes, other than for medical or veterinary purposes, chemical reagents, other than for medical or veterinary purposes, chemical substances for analyses in laboratories, other than for medical or veterinary purposes, chemicals for the manufacture of paints, chemicals for the manufacture of pigments, graphite for industrial use, nanopowders for industrial purposes, carbon fibre, carbon fibres for use in industry, crude fibres of carbon, raw fibres of carbon, other than for textile use, carbon fibre compounds, carbon fibre felts, mineral fibres, carbon graphite in semi-finished form for use in manufacture, graphite in semi-finished form for use in manufacture, semi-finished carbon compounds, semi-finished graphene, semi-finished graphite compounds for use in manufacture, unprocessed and semi-processed rubber, gutta-percha, gum, mica and substitutes for all these materials, insulating materials for use in industry and manufacturing, insulation materials for use in the ship, automotive and aircraft building industries, industrial coatings containing graphene and graphene oxide for use in insulating buildings, insulation materials, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibre for use in building and construction, plastics and resins in extruded form for use in industry and manufacturing, insulation materials containing graphene and graphene oxide, namely, foam, fiberglass, stone wool, carbon precursor fibres, melamine fibres, poly-phenylene benzobisoxazole fibres and vulcanized fibres, polymeric materials containing graphene and graphene oxide for use as sealant in manufacturing and industry, chemical substances containing graphene and graphene oxide for insulating buildings against moisture, not paint, sealant compounds containing graphene and graphene oxide for joints for building, industry and commercial and industrial manufacturing purposes, sealing agents containing graphene and graphene oxide for building, industry and commercial and industrial manufacturing purposes, plastics and resins in extruded form containing graphene and graphene oxide for use in manufacture, semi-worked polymer resins in the form of fibres with graphene and graphene oxide for use in industry and commercial and industrial manufacturing, packing, stopping and insulating materials, packing, stopping and insulating materials containing graphene and graphene oxide, namely, moulded foam, cellulose acetate film and low-density polyurethane foam, flexible pipes, tubes and hoses, non-metallic flexible pipes, tubes and hoses, containing graphene and graphene oxide, industrial coatings for insulating buildings, adhesive waterproof sealants containing graphene and graphite, information, advisory and consultancy services relating to all the foregoing; industrial analysis and research relating to industrial machinery, information, advisory and consultancy services relating to all the foregoing; industrial design services, information, advisory and consultancy services relating to all the foregoing; material testing, information, advisory and consultancy services relating to all the foregoing; quality control testing for industrial machinery, information, advisory and consultancy services relating to all the foregoing.

Goods

Class 01

(1) Agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for genetic research use; diagnostic reagents and preparations for medical research and scientific research; kits containing reagents and a protocol for use thereof for genetic research and scientific research; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for scientific and research use in the fields of nucleic acid sequencing, genotyping, metagenomics, genetic testing, and genetics; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for genetic scientific and research use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, agriculture, forensics, food safety, genetic testing, and genetics; kits comprising nucleotides, reagents, enzymes, agents, assays, buffers, chemical preparations, or biological preparations for scientific and research use in the fields of nucleic acid sequencing, genotyping, metagenomics, genetic testing, and genetics; kits comprising nucleotides, reagents, enzymes, agents, assays, buffers, chemical preparations, or biological preparations for genetic scientific and research use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research,

medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics.

Class 05

(2) Agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical genetic testing; diagnostic reagents and agents for medical diagnostic use; kits containing reagents and a printed instructional protocol manual for use thereof for medical genetic testing purposes; Medical diagnostic assay kits containing primarily medical diagnostic reagents and assays for testing body fluids, such medical diagnostic reagents and assays including nucleotides, reagents, enzymes, agents, assays, buffers, chemical preparations, or biological preparations for medical genetic testing and medical diagnostic purposes; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical purposes in the fields of nucleic acid sequencing, genotyping, metagenomics, genetic testing, and genetics; agents, reagents, assays, enzymes, nucleotides, buffers, chemical preparations, and biological preparations for medical genetic testing purposes in the fields of nucleic acid sequencing, genotyping, diagnostics, metagenomics, genetic testing, and genetics.

Class 09

(3) Apparatus and instruments for medical research and scientific research in laboratories, namely, genetic sequencers; laboratory devices for detecting genetic sequences; diagnostic biomolecule and genetic sequence apparatus for the detection of pathogens for laboratory or scientific research use; medical research and scientific research apparatus and instruments for use in genetic analysis, namely computer hardware and software for scientific analysis of genetic sequences; apparatus for DNA and RNA testing for research purposes, namely diagnostic biomolecule and genetic sequence detection; scientific apparatus and instruments for measuring relative DNA, RNA and protein and parts and fittings therefor, namely diagnostic biomolecule and DNA and RNA sequence detection and measurement devices and parts and fittings therefor; medical laboratory research instruments for DNA and RNA analysis; computer hardware; computer hardware for use in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; computer hardware for data processing; scientific and research apparatus and instruments for scientific analysis of genetic sequences, namely, nucleic acid sequencers, arrays, scanners, electronic imaging devices and analyzers, testing sample collection equipment, sample quality control instruments, sequencing reagent cartridges and trays, and test sample preparation equipment, for laboratory use including in the fields of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; computer hardware and software for scientific analysis of genetic sequences, namely next-generation sequencing (NGS) bioinformatics data processor; downloadable computer software for scientific analysis of genetic sequences; embedded software sold as a component of genetic sequencing devices for scientific analysis of genetic sequences; downloadable computer software for storing, organizing, and creating a searchable library of genetic data for use in sequence detection, and disease detection and diagnosis; downloadable computer software for database management and for storage of bioinformatics electronic data; downloadable computer software for creating searchable databases of information and data; downloadable computer software for use in connection with database management in the field of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research,

medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; downloadable computer software for use in connection with databases in the field of nucleic acid sequencing, genotyping, metagenomics, genetic testing, and genetics; downloadable computer software for use in connection with medical and scientific research services in the field of genotyping, diagnostics, molecular pathology, molecular diagnostics, laboratory medicine, and oncology; downloadable computer software for use in connection with DNA sequencing, screening, and analysis services for medical and scientific research purposes; downloadable computer software for use in connection with nucleic acid sequencing, screening, and analysis services for medical and scientific research purposes; downloadable computer software for use in connection with genomic sequencing, screening, and analysis services for medical research purposes; downloadable computer software for use in connection with genetic analysis and reporting services for medical and scientific research purposes; downloadable computer software for use in connection with next-generation sequencing (NGS) bioinformatics data processor in the fields of nucleic acid sequencing, genotyping, genetic testing, and genetics; downloadable computer software for compressing and decompressing genomic data files; downloadable computer software, namely, software to receive and store DNA, RNA and genetic records, and to authorize medical and research personnel to use records.

Class 10

(4) Clinical or medical diagnostic apparatus and instruments, namely, nucleic acid sequencers and analyzers; medical diagnostic apparatus and instruments for the amplification and analysis of nucleic acids and the preparation of nucleic acid libraries sold; medical equipment, namely, devices for analyzing nucleic acids and for DNA sequencing for the purpose of rendering medical treatment and diagnosis; apparatus for DNA and RNA testing for medical purposes, namely diagnostic biomolecule and dna sequence readers of biomolecule and dna sequence testing results for clinical medical use; medical diagnostic instruments for the analysis of body fluids, namely body fluids analyzer for medical purpose; proteomic sample preparation device for medical diagnostic uses; medical diagnostic apparatus for testing DNA and RNA samples, namely diagnostic biomolecule and dna sequence detection devices for clinical medical purposes.

Services

Class 42

Medical and scientific research in the field of genome sequence analysis and reporting; DNA screening for medical and scientific research purposes; design and development of laboratory apparatus, instruments and computer systems for use in testing DNA and RNA samples; product development, namely, developing equipment for use in preparing, detecting, analyzing, and sequencing nucleic acids and other biological molecules; clinical laboratory services in preparing, amplifying, labeling, detecting, analyzing, and sequencing nucleic acids and other biological molecules from human beings or animals for scientific and medical research purposes; design and development of medical diagnostic apparatus and instruments for use in genetic sequencing; scientific consulting and research services and clinical laboratory testing services in the fields of amplification, detection, sequencing, and analysis of nucleic acids and the preparation of nucleic acid libraries; nucleic acid sequencing services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for scientific analysis of genetic sequences; providing temporary use of non-downloadable computer software for storing, organizing, and creating a searchable library of genetic data for use in sequence detection, and disease detection and diagnosis; providing temporary use of non-downloadable computer software for database management and for storage of bioinformatics electronic data; providing temporary use of non-downloadable computer software for creating searchable databases of information and

data; providing temporary use of non-downloadable computer software for use in connection with database management in the field of nucleic acid sequencing, genotyping, diagnostics, diagnostic research, clinical research, drug development, pharmaceuticals, laboratory research, scientific research, medical research, life sciences, biology, microbiology, metagenomics, biotechnology, genetic testing, and genetics; providing temporary use of non-downloadable computer software for use in connection with databases in the field of nucleic acid sequencing, genotyping, metagenomics, genetic testing, and genetics; providing temporary use of non-downloadable computer software for use in connection with medical research services in the field of genotyping, diagnostics, molecular pathology, molecular diagnostics, laboratory medicine, and oncology; providing temporary use of non-downloadable computer software for use in connection with DNA sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with nucleic acid sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with genomic sequencing, screening, and analysis services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with genetic analysis and reporting services for medical and scientific research purposes; providing temporary use of non-downloadable computer software for use in connection with next-generation sequencing (NGS) bioinformatics data processor in the fields of nucleic acid sequencing, genotyping, genetic testing, and genetics; providing temporary use of non-downloadable computer software for compressing and decompressing genomic data files; providing temporary use of non-downloadable computer software, namely, software to receive and store DNA, RNA and genetic records, and to authorize medical and research personnel to use records.

(1) Lubricants, namely, industrial lubricants, all purpose lubricants; industrial lubricating oils and greases; engine greases, namely automotive lubricants and greases; machine greases, namely, industrial lubricating greases; engine oils; machine oils, namely, machine cutting oils.

Class 06

(2) Pins, namely, ball lock pins of metal, cotter pins of metal, metal positioning pins, metal dowel pins; metal fasteners for drills, drill rigs, machines and their parts; sealing caps of metal for drills, drill rigs, machines and their parts.

Class 07

(3) Structural parts and components for rock drills; structural parts and components for drill drilling rigs; structural parts and components for drilling machines for the mining and construction industry; power drilling tools; structural parts and components for power drilling tools; machine tools being waste compacting machines for compacting powder materials and dust collection; structural parts and components for machine tools being waste compacting machines for compacting powder materials and dust collection; machine structural parts and components for mining and construction machines, namely, machines for geological, mining and ore exploration; structural parts and components for loaders being earth moving machines; machine engines, namely, engines for industrial machinery; fuel filters; coolant filters; hydraulic filters, namely, filters and purifiers for removing contaminants from hydraulic fluids used in the mining industry; oil filters; engine filters, namely, air and oil filters being parts of engines; air filters for machines and engines; compressor filters; jaws being parts of drilling machines, namely, metal clamping modules; driving chains being parts of drilling machines, namely, drivelines being parts of machines; suction heads in the nature of suction pumps being parts of drilling machines; machine pulleys; rubber tracks being parts of crawlers on construction and road making machines; rubber tracks being parts of excavating machines; structural parts and components for rubber tracks being parts of crawlers on construction and road making machines; structural parts and components for rubber tracks being parts of excavating machines; feed roller chains being parts of machines; machine belts; starters

for engines; starter alternators; turbochargers for machines; bearings being parts of machines; bushings being parts of machines; cylinders for industrial machinery; rubber belts for use in drilling machines.

Class 09

(4) Batteries, namely batteries for power-operated tools, electric batteries for vehicles, electric batteries chargers for vehicles, and electric batteries for drilling rigs; Downloadable mobile software applications for collecting, organizing, analyzing, monitoring, tracking and reporting operational data about machines used in the fields of mining and construction industry; Downloadable mobile software applications for providing predictions, notifications, analysis, service reminders, sales recommendations and reports all in the fields of machine performance optimization in mining and construction industry; downloadable interactive mobile software applications for logging, sending, receiving, retrieving and managing information in the field of onsite operations in mining and construction industry; downloadable mobile operating system software applications for remote controlling sensors, devices and instruments for use in mining and construction industry.

Class 11

(5) Filters for air conditioners; dust filters, namely, filter cartridges for industrial dust collection systems for use in pulse-jet cleaning; structural parts and components for filters for air conditioners, filter cartridges for industrial dust collection systems for use in pulse-jet cleaning.

Class 17

(6) Rubber seals for protecting hydraulic and pneumatic parts of industrial machinery; rubber rings for use as pipe connection seals; non-metal flexible hoses for mining and construction use.

Services

Class 35

Online retail services, namely, the provision and operation of an online marketplace for buyers and sellers of products used within mining, construction, rock excavation and rock processing industries; provision of commercial and business support services relating to the sale of products used within mining, construction, rock excavation and rock processing industries; provision of wholesale and retail services, including such services being provided online, related to products used within mining, construction, rock excavation and rock processing industries; provision of e-commerce services for products used within mining, construction, rock excavation and rock processing industries, namely, providing information about the aforesaid products via telecommunication networks for advertising and sales purposes; provision of e-commerce services for products used within mining, construction, rock excavation and rock processing industries, namely, the provision and operation of an online marketplace for buyers and sellers of the aforesaid products; ecommerce services, being business management services relating to e-commerce in the mining, construction, rock excavation and rock processing industries; online retail services for products used within mining, construction, rock excavation and rock processing industries; online ordering services in the field of products used within mining, construction, rock excavation and rock processing industries; sales administration, namely, business administration services for processing sales made on the internet; provision of customer support services and information related to products used within mining, construction, rock excavation and rock processing industries.

chips; magnetic encoders; read-only memory compact discs containing engineering documentation, technical manuals, safety protocols, industrial automation software, energy solutions, sustainable mobility, and digital innovation strategies; computer hardware; decorative magnets; dvd players; parking sensors for vehicles; electrical adapters for use in industrial machinery, automotive systems, renewable energy generation and distribution equipment, robotics, material handling machines for the automotive, manufacturing, and logistics sectors, and digital infrastructure for data centers and industrial automation; regulating apparatus, electric, namely, acetylene regulators, heat regulators, induction voltage regulators, pressure regulators, and electric current regulators for use in industrial automation systems, energy distribution networks, and materials processing equipment; electric measuring devices, namely, clamp meters for measuring electricity, meters for measuring electrical resistance, meters for measuring electrical voltage, multimeters for measuring electric current, and velocity sensors; electric apparatus, namely, actuators, sensors, communication modems, all for commutation for use in electric motor control units, power inverters, electric drive systems, industrial automation, energy conversion technologies in the automotive industry, the renewable energy installations industry, and in high-efficiency industrial machinery; recorded computer programs, namely, computer operating programs, industrial automation software, industrial process control software, programs for analyzing commercial and industrial manufacturing system data, and simulation software for engineering applications, namely, chemical processing, engineering in the fields of materials science and the energy sector; downloadable computer programs, namely, industrial automation software, industrial process control software, programs for analyzing commercial and industrial manufacturing system data, simulation software for engineering design, and software for monitoring and managing energy systems, namely, in the fields of chemical processing, materials science engineering, and the energy sectors; interfaces for computers, namely, computer interface boards, computer interface cards, universal serial bus [USB] operating software interfaces, Ethernet transceivers, and wireless electronic communication device interfaces designed for integration with industrial automation systems and virtual reality training simulation software in the field of electrical and chemical engineering, and data processing equipment, namely, computers, computer scanners, image scanner, laser scanners; bags adapted for laptops; industrial magnets; measuring apparatus, namely, gas and liquid leak testers, measuring apparatus for detecting the polarization of magnets, namely, magnetic field mappers; nautical apparatus and instruments, namely, compasses, signal lamp, signaling whistles, level measuring machines for surveying, lasers for surveying, magnetic compasses for surveying, surveying instruments, wind-direction indicators, anemometers; notebook computers; optical apparatus and instruments, namely, optical condensers, optical data media, namely, blank CDs and DVDs, optical lenses, optical lanterns, optical pickups, optical range finders; measuring, testing, indicator, and surveillance instruments, namely, electronic components, namely, infrared sensors, gas composition sensors, pressure sensors, temperature sensors and temperature alarms, fluid level detectors, flow meters, and optical analyzers for security systems used to test and check volume, temperature, composition, level, and pressure of gases, liquids and solids, and the quantity and concentration of gas and liquids; mechanical, electric, electronic instruments and apparatus, namely, electromagnetic measuring detectors used to test and check volume, temperature, composition, level, and pressure of gases, liquids and solids, and the quantity and concentration of gas and liquids; electric controllers and electric regulators for use in monitoring, adjusting, controlling and regulating electrical power, electrical level, electrical flow, pressure, voltage, and temperature; analogue and digital measurement processing apparatus for use in the automotive and industrial appliance industries and the industrial sector, namely, humidity sensors and digital humidity sensors, laser measuring systems comprised of laser distance meters, laser distance sensors, digital laser levels; measurement and control panels, namely, electric control panels

Class 11

(2) Recuperators, evaporators and heat exchangers for chemical processing; thermal oxidizer and catalytic oxidizer installations and apparatus, namely, thermal and catalytic afterburn for purifying gases and exhaust gases in industrial chemical production, hydrogen electrolysis plants, cement manufacturing, and the oil and petroleum industry, namely, petrochemical processing facilities; gas scrubber separators, namely, separators for the cleaning and purification of gases; kiln wave generator to reduce the drying defects, drying time and energy consumption used in a chemical processing plant; industrial chemical installations in the form of chemical reactors; heat exchangers, other than parts of machines; heat exchangers for chemical processing; waste heat recuperators, namely, reactor vessels and gas boilers used in chemical processing; gas purification filters; electric furnaces for industrial use; gas furnaces for industrial use; installations and apparatus for thermal and catalytic afterburn for purifying gases and exhaust gases for use in industrial chemical production, hydrogen electrolysis plants, cement manufacturing, and the petrochemical industry; steam boilers, other than parts of machines; feed water pre-heaters; industrial waste treatment installations, namely, mounted duct work; compensators for pipelines being regulating and safety fittings for gas pipes; fittings for steam, gas and water pipes; waste water treatment units and structural parts thereof for chemical, physical and biological water and waste water treatment, namely, for the softening of water and desalination of water

Services**Class 37**

(1) construction, namely, building construction, advisory and consultancy services in connection with all the aforesaid services; installation of chemical plants, repair of chemical plants, advisory and consultancy services in connection with all the aforesaid services; drilling for the mining industry, drilling for the extraction of gas and oil, advisory and consultancy services in connection with all the aforesaid services; installation, assembly, maintenance and repair of extracting machines for chemical processing installations, advisory and consultancy services in connection with all the aforesaid services; installation, assembly, repair and maintenance of alkaline water electrolysis installations that produce hydrogen, advisory and consultancy services in connection with all the aforesaid services; consultancy services in the field of renewable energy power plant construction, advisory and consultancy services in connection with all the aforesaid services; construction of renewable energy power plants, advisory and consultancy services in connection with all the aforesaid services; construction, assembly and installation of industrial machines for use in the electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide, advisory and consultancy services in connection with all the aforesaid services; cleaning, maintenance, servicing and repair of industrial machines for use in electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide, advisory and consultancy services in connection with all the aforesaid services; dismantling and servicing of industrial machines for use in the electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide, advisory and consultancy services in connection with all the aforesaid services; construction, assembly, installation, maintenance, repair, dismantling and reconditioning of electrolyzers and their structural parts and fittings, advisory and consultancy services in connection with all the aforesaid services; repair of industrial machinery and the maintenance of same through the application of protective coatings, advisory and consultancy services in connection with all the aforesaid services; repair of industrial machinery and industrial installations and the maintenance of same through the application of protective coatings in the form of active electrochemical preparations, advisory and consultancy services in connection with all the aforesaid services; commissioning the installation of electrochemical treatment equipment, namely, electrolyzers for use in

electrochemistry, alkaline water electrolysis and the chloralkali industry and in the production of chlorine, caustic soda, potassium hydroxide and hydrogen; commissioning the final stages of construction and the beginning of production in the industrial chemical processing plants; maintenance, servicing, repair, and modernization of process technology machines and installations, namely, chemical processing equipment, hydrogen electrolysis plants, cement manufacturing equipment, petrochemical processing equipment, and industrial automation systems, namely, reactors, separators, kilns; factory construction, in particular, factory construction of cement factories, coal works and metal foundries; construction, installation, assembly, conversion, erection and servicing, repair, maintenance of cement and coal foundries and metallurgical plants; installation of assembly line conveyor machinery for use in vehicle assembly; installation of machines manufacturing fixators, namely, locking plates; installation and repair of vehicle assembly line material handling equipment, and closure panel making machines, namely, automatic conveyors belts and machines, automatic guided vehicles, robotic arms for drilling, automated painting, and assembling land vehicles, stamping presses, lasers for use in industrial cutting applications, robotic welding systems comprising robotic welding machines, and assembly line conveyor machinery; automobile repair; assembly, conversion and expansion of chemical and petrochemical industrial machine installations for the purification and recovery of sulphur gases following the claus process in the oil and petroleum industry

Class 40

(2) recycling of waste and trash; air and water purifications; food and drink preservation in the nature of high-pressure processing; electrochemical treatment, namely, treatment of industrial machinery used in the electrochemical, alkaline water, electrolysis and the chloralkali industry and in the production of chlorine, caustic soda, potassium hydroxide and hydrogen with electrochemically active or other surfaceactive coatings, namely, electrolytic, electrocatalytic, electrophoretic and conductive coatings; electrically conductive coating and surface finishing of machines and tools used in the electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide, namely, electrochemical active coatings, surface active coatings, electrolytic, electrocatalytic, and electrophoretic coatings; rental of industrial machinery installations for use in the electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide; treatment of materials, in particular processing of chemicals, namely, chemical processing of liquids by hydrothermal liquefaction, chemical processing of carbon-based chemicals, hydrogen through the process of electrolysis, catalytic conversion of hydrocarbons, high-pressure synthesis of ammonia and methanol, and the purification and separation of industrial gases; construction services, namely, construction of fuel cell batteries and electrolyzers, namely, electrolytic cells; construction of industrial machines and industrial machine installations for use in the electrochemical and the chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide

Class 42

(3) scientific and technological services, namely, research and design, and scientific analysis in the fields of industrial plant process technology, the electrochemistry industry, namely, alkaline water electrolysis and chloralkali processing; industrial analysis, industrial research, and industrial design in the fields of industrial plant process technology, namely, oil and petroleum plants and electrochemistry equipment, namely, water electrolysis equipment and chloralkali equipment; quality control for others and authentication services in the field of industrial plant processes in the electrochemical, alkaline water electrolysis, and the chloralkali industries; design and development of computer hardware and software; technical design and planning of renewable energy power plants; technological and scientific consultancy in the field of hydrogen use; technological consultancy relating to the use of hydrogen and oxygen as alternative fuel and energy sources;

research, development and technical inspection services for industrial machines and industrial machinery installations and structural parts and fittings thereof for use in the electrochemical and chloralkali industries and in the production of chlorine, soda lye and potassium hydroxide; construction drafting and technical planning of chemical installations; construction planning and technical planning of alkaline water electrolysis installations for hydrogen production; industrial engineering and industrial design services, namely, technical consultancy and planning in the construction, expansion, dismantling and operation of industrial chemical installations for the production of synthesis gas; research and development consulting in the field of chemistry and technology, namely, chemical production processes and chemical installations connected thereto; software engineering services for data processing programs; engineering, in particular, engineering, in relation to the following goods, process engineering; construction project engineering consultancy services, namely, the design, planning, supervision of assembly, exploiting, managing, inspection, servicing, restoration, conversion and dismantling of industrial plants and chemical installations used in chemical processing plants; construction project engineering consultancy, namely, the technical authorization, planning and environmental surveying in the field of industrial plants and chemical installations used in chemical processing plants; construction project engineering consultancy, namely, the planning, deadline monitoring, production, inspection, site assembly, monitoring, inspection and commissioning of chemical processing technology machines and industrial machinery installations used in chemical processing plants; construction project engineering consultancy, namely, the planning, construction, selection, compilation and dimensioning of industrial machine part installations for the cement, coal and metal industries and the design and programming of process information installations for said industries; technical consultancy and project studies in the field of plant engineering, namely in the field of the cement, coal and metal industries; technical, geological and scientific surveys, namely in the field of the cement, coal and metal industries; land surveying; building project management, in particular technical preparation of building projects in the field of the construction of industrial installations; physics research; chemical laboratory services, namely, providing industrial analysis in the field of building construction materials; conducting of technical tests by means of rock grinding and dust sifting, namely, strength and chemical testing of cementitious materials, asphalt and aggregates used in industrial applications; providing of geological surveys for the purpose of resource exploration and conducting environmental impact assessments; providing of scientific surveys, namely, marine surveying for offshore energy projects, radiation area surveying for industrial safety, and topographical surveying for infrastructure development; scientific research in the field of environmental protection; scientific research in the field of chemistry; scientific research in the field of chemical and gas processing technology, namely, electrolysis, gas scrubbing; research in the field of mechanical engineering; research related to technology in the oil and petroleum industry, namely, chemical apparatus and installations for recovering and regenerating sulphur in the extraction and the processing of natural gas; research related to technology in the oil and petroleum industry, namely, installations and apparatus for the production of gases and gas scrubbing, in particular, carbon monoxide gas and hydrogen gas; scientific research in the field of thermal oxidizer and catalytic oxidizer installations and apparatus, namely, for thermal and catalytic afterburn for purifying gases and exhaust gases, specifically designed for use in industrial chemical production, hydrogen electrolysis plants, cement manufacturing, and the oil and petroleum industry, namely, petrochemical processing facilities; scientific research in the field of separators for the cleaning and purification of liquids, namely, mist separators, steam and oil separators; scientific research in the field of blowing machines used for the compression, exhaustion and transport of gases; scientific research in the field of mechanical belt and chain conveyors for use in the oil and petrochemical sectors; scientific research in the field of mechanical, electric, and electronic instruments and apparatuses for use in

measuring, testing, displaying, and monitoring the volume, temperature, composition, and pressure of gases, liquids, and solids in the oil and petroleum industry; scientific research in the field of environmental protection; scientific research in the field of chemistry; scientific research in the field of industrial plant process technology, namely, machine tools and automatic systems for treating and processing metals, chemicals, and materials; scientific research in the field of machinery construction, namely, industrial machinery in the automotive and petrochemical sectors; scientific research in the field of chemical apparatus for use in the processing of natural gas in the automotive and petrochemical industries; scientific research in the field of control and regulating apparatus for use in regulating and controlling of electricity; scientific research in the field of analogue and digital measuring apparatus, namely, measuring apparatus for measuring temperature, pressure, quantity and concentration of gas and liquids; scientific research in the field of condensers, namely, air condensers, gas condenser, steam condensers, optical condensers, microscope condensers; scientific research in chemical reactors; scientific research in heat exchangers; scientific research in industrial boilers, namely, boilers using waste heat recovery; scientific research in the field of filters for gas purification; scientific research in the field of stoves for heating for industrial use; scientific research in the field of afterburn apparatuses, namely, catalytic oxidizers and thermal oxidizers; scientific research in the field of steam boilers, being parts of machines; scientific research in the field of feed water heaters for industrial purposes; scientific research in the field of steam traps; scientific research in the field of pipe compensators and branching pipes of metal for use in treatment of industrial waste and commercial waste; construction project engineering services, planning, commissioning [testing and inspection] and technological optimisation of industrial installations for the chemical and petrochemical industry, in particular of installations for sulphur recovery of gases and for gas purification following the claus process and technological consultancy relating to the planning, construction, expansion, commissioning and optimisation of industrial installations
