Trademarks Journal

2025-12-24 — Vol. 72 No. 3713

Trademarks Journal

Vol. 72 No. 3713

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(5) Installation, maintenance and repair of computer hardware, computer peripherals, computer networks, tablet computers, personal digital assistants, smartphones, cameras, video cameras, global positioning (GPS) systems, digital music players, digital video players and consumer electronic devices; consultancy in the field of physical maintenance of computer hardware, computer peripherals, computer networks, tablet computers, personal digital assistants, smartphones, cameras, video cameras, global positioning (GPS) systems, digital music players, digital video players and consumer electronic devices; providing information in the field of installation, maintenance, repair and servicing of computers through mailshots, e-mail updates, and e-mail support notices;

Class 38

(6) Providing online and telecommunication facilities, namely, wireless networks for real-time interaction between and among users of computers, laptops, mobile phones, smart phones, tablet computers, wearable technology and personal digital assistants; providing access to global communications networks featuring websites, computer databases and the internet; providing access to online directories, and databases; providing a software platform for communications among computers, laptops, mobile phones, smart phones, tablet computers, wearable technology and personal digital assistants; Enabling individuals to send, receive, and forward messages via email, instant messaging and website on the Internet; electronic mail services; instant messaging services; text messaging services; video on demand transmissions; Transmission of messages,

audio, video, and text between network users via the Internet; transmission of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos via the Internet and peer-to-peer networks; transmission of messages in the fields of advertising, marketing, software development, and web and mobile application analytics via the internet; transmission of data, namely, advertising data, user statistics, advertising statistics, inventory data, payment data, e-commerce data, ad placement data, software performance statistics, mobile application performance statistics, and audio, video, binary, still images, graphics and multimedia files in the fields of advertising, marketing, software development, and web and mobile application analytics, via the internet; Providing online network services that enable users to transmit, stream and share messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos via a global computer network and the Internet; Broadcasting services via a global computer network, and the Internet, namely, uploading, downloading, posting, showing, displaying, tagging, sharing and electronically transmitting messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Communication services for transmitting, caching, accessing, receiving, downloading, streaming, broadcasting, sharing, displaying, formatting, mirroring and transferring messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos via global computer networks and the Internet; Voice over the internet protocol (VOIP) services; internet telephony services; mobile telephony services; teleconferencing and videoconferencing services; Providing access to online chat rooms; providing online chat rooms for social networking; providing online forums and electronic bulletin boards for transmission of messages among computer users; providing online community forums for users to share information, photos, audio and video content about themselves, their likes and dislikes and daily activities, to get feedback from their peers, to form virtual communities, and to engage in social networking; providing access to online journals, namely, blogs featuring user-defined content; providing an online community forum for users to share and stream information, audio, video, real time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Providing online chat rooms, online forums, and electronic bulletin boards for transmission of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos via the Internet and peer-to-peer networks among users in the fields of general interest, advertising, marketing, software development, and web and mobile application analytics; providing online community forums for users to post, search, watch, share, critique, rate, and comment on messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; providing access to a video sharing portal; providing access to digital music websites on the Internet; Providing access to computer databases in the fields of

social networking, social introduction and dating; providing access to current event websites and blogs;

(7) Streaming and live streaming of visual, audiovisual and interactive audiovisual content via the Internet; providing streaming of movies, films, television shows, animations, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos, via a website;

Class 39

(8) Merchandise packaging; warehouse storage services; delivery of goods by car, truck and van; provision of delivery information for goods purchased on the Internet, via a global communications network; Travel arrangement; physical storage of electronic media, namely, images, text, video, and audio data;

Class 40

(9) Screen printing; T-shirt printing; printing of books; printing of advertising matter for others;

Class 41

(10) Arranging, hosting, and conducting educational conferences and business conferences; conducting online, computer-based, and computer-assisted instruction in the field of e-commerce, computer technology and business management; Event planning; organizing and conducting of live musical concerts, sports events, cultural events, and awards shows; organizing and conducting of events for charitable purposes; Organizing competitions in the fields of software development and mobile applications for entertainment and educational purposes; organizing online competitions in the fields of software development and mobile applications for entertainment and educational purposes; providing information in the field of arranging, organizing and conducting contests and games;

(11) Providing online journals, namely, blogs and video blogs in the field of social networking; providing online journals, namely, blogs and video blogs featuring personal information and opinions in the field of general interest; providing online journals, namely, video blogs featuring text, video and audio; Providing information, news, articles, newsletters, blogs, video blogs, and commentary in the fields of general interest, entertainment, popular culture, celebrities, sports, fashion, education, recreation, training, blogging, current events, radio, movies, television, music, books, art, theatre, dance, live artistic performances, concerts, comedy, awards shows, fashion shows, festivals, games, contests, tournaments, museums, exhibitions, via the Internet; Providing online reviews, ratings and recommendations of music, movies, television shows, games, toys, sporting goods, and electronics; Entertainment services, namely, providing and distributing online photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos, of others via the Internet; Production of podcasts and webcasts featuring news and commentary in the fields of general interest, entertainment, popular culture, sports, fashion, recreation, current events, radio, movies, television, music, books, art, theatre, dance, live artistic performances, concerts, comedy, awards shows, fashion shows, festivals, games, contests, tournaments, museums, exhibitions, science, technology, software development, business, finance, jobs, education, social, professional and business networking, advertising and marketing; Production of movies, radio and television programs; distribution of radio programs, televisions programs, music, movies and films; Providing online non-downloadable white papers, articles, presentations, books, journals, leaflets, manuals and magazines in the fields of general interest, entertainment, popular culture, sports, fashion, recreation, current events, radio, movies, television, music, books, arts, theatre, dance, live artistic performances, concerts, comedy, awards shows, fashion shows, festivals, games,

contests, tournaments, museums, exhibitions, science, technology, software development, business, finance, jobs, education, social, professional and business networking, advertising and marketing; Publishing of electronic publications; online publication of electronic books, journals, newsletters, magazines, and periodicals; providing online non-downloadable comic books and graphic novels; Providing online computer games and video games; providing information relating to online computer games and computer enhancements for games; Rental of movies, films, sound recordings, video games, multimedia presentations, electronic books, electronic magazines, and electronic journals

Class 42

(12) Design and development of computer hardware, computer software and mobile applications; computer programming; creating and maintaining websites for others; web design services; web hosting services; Providing non-downloadable software and online software applications for use by consumers to facilitate electronic payments and commercial transactions; Providing non-downloadable software and online software applications to allow users to perform electronic business transactions via mobile networks, the Internet and global computer networks; Providing non-downloadable software and online software applications for processing electronic payments; Providing non-downloadable software and online software applications for collecting, analyzing, storing and transmitting data and information in the field of electronic payment transactions; Providing non-downloadable software and online software applications for use in providing retail and ordering services for a wide variety of consumer goods and services of others; Providing non-downloadable software and online software applications for enabling merchants to provide information about and consumers to obtain discounts, rebates, rewards, coupons, credits, and special offers for goods and services; Providing non-downloadable software and online software applications for running, administering, participating in, and monitoring customer loyalty programs; Application service provider (ASP) featuring software for use by consumers to facilitate electronic payments and commercial transactions; Application service provider (ASP) featuring software to allow users to perform electronic business transactions via mobile networks, the Internet and global computer networks; Application service provider (ASP) featuring software for processing electronic payments; Application service provider (ASP) featuring software for collecting, analyzing, storing and transmitting data and information in the field of electronic payment transactions; Application service provider (ASP) featuring software for use in providing retail and ordering services for a wide variety of consumer goods and services of others; Application service provider (ASP) featuring software for enabling merchants to provide information about and consumers to obtain discounts, rebates, rewards, coupons, credits, and special offers for goods and services; Application service provider (ASP) featuring software for running, administering, participating in, and monitoring customer loyalty programs;

(13) Creating an online community for users to engage in social networking; creating virtual communities for registered users to participate in discussions, obtain feedback, form virtual communities, engage in social networking, and to share and stream messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Providing non-downloadable software and Page 11 of 17 online software applications for social networking; Providing non-downloadable software and online software applications for the creation and publication of blogs; Providing non-downloadable software and online software applications for creating, managing, and interacting with an online community; Providing non-downloadable software and online software applications for creating, sharing, disseminating and posting photos, videos, personal and general information for the purposes of

social, personal and professional networking; Providing non-downloadable software and online software applications for sending electronic notifications, alerts and reminders; providing temporary non-downloadable software for electronic mail and messaging; providing temporary non-downloadable software for instant messaging; Providing non-downloadable software and online software applications for real-time delivery of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Providing non-downloadable software and online software applications for creating, editing, uploading, downloading, accessing, viewing, browsing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, organizing, managing, and sharing messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos, via global computer networks, and the Internet; providing temporary non-downloadable software for interacting with a feed of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Providing non-downloadable software and online software applications for creating, editing, accessing, viewing, browsing, posting, displaying, indicating sentiment about, commenting on, embedding, transmitting, organizing, managing, and sharing user-generated opinion polls; Providing non-downloadable software and online software applications for organizing events; Providing non-downloadable software and online software applications for taking photographs and for recording audio, video and audio-visual content; Providing non-downloadable software and online software applications for recording and streaming live audio, live video, live audio-visual content, live sports events, live fashion shows, live concerts, live events, and live news; Providing non-downloadable software and online software applications to enable the streaming of user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Providing non-downloadable software and online software applications for modifying photographs, graphics, animations, GIFs, user uploaded video clips, user uploaded audio clips, live video, and other user-generated content with photographic filters and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; Providing non-downloadable software and online software applications for modifying, editing and enabling transmission of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Providing non-downloadable software and online software applications for tagging messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, music videos, and other user-generated content, with data, namely, date, location, people and subject matter; Providing non-downloadable software and online software applications for displaying and sharing a user's location; Providing non-downloadable software and online software applications for finding, locating, and interacting with other users and places; Providing non-downloadable software and online software applications for software for geo-location based

advertising and product and service promotions; Providing non-downloadable software and online software applications for the collection, editing, organizing, modifying, bookmarking, transmission, storage and sharing of information, namely, messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, music videos, user-generated content, friend lists, user preferences, user profiles, personal data of users, and information via global computer networks and the Internet; Providing non-downloadable software and online software applications for charitable fundraising and collection and distribution of donations for charitable purposes; providing temporary use of online non downloadable software that generates customized recommendations of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports Page 12 of 17 events, live fashion shows, live concerts, live events, real-time news, music, music videos, and other user generated content based on user preferences; Application service provider (ASP) featuring software for facilitation of communication, on a global computer network; application service provider (ASP) featuring software for social networking; application service provider (ASP) featuring software for the creation and publication of blogs; application service provider (ASP) featuring software for creating, managing, and interacting with an online community; application service provider (ASP) featuring software for creating, sharing, disseminating and posting photos, videos, personal and general information for the purposes of social, personal and professional networking; application service provider (ASP) featuring software for sending electronic notifications, alerts and reminders; providing temporary non-downloadable software for electronic mail and messaging; providing temporary non-downloadable software for instant messaging; application service provider (ASP) featuring software for real-time delivery of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; application service provider (ASP) featuring software for creating, editing, uploading, downloading, accessing, viewing, browsing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, organizing, managing, and sharing messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos, via global computer networks, and the Internet; application service provider (ASP) featuring software for interacting with a feed of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; application service provider (ASP) featuring software for creating, editing, accessing, viewing, browsing, posting, displaying, indicating sentiment about, commenting on, embedding, transmitting, organizing, managing, and sharing user-generated opinion polls; application service provider (ASP) featuring software for organizing events; application service provider (ASP) featuring software for taking photographs and for recording audio, video and audio-visual content; application service provider (ASP) featuring software for recording and streaming live audio, live video, live audio-visual content, live sports events, live fashion shows, live concerts, live events, and live news; application service provider (ASP) featuring software to enable the streaming of user uploaded video clips, user uploaded audio clips, movies, films, television shows,

live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; application service provider (ASP) featuring software for modifying photographs, graphics, animations, GIFs, user uploaded video clips, user uploaded audio clips, live video, and other user-generated content with photographic filters and augmented reality effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; application service provider (ASP) featuring software for modifying, editing and enabling transmission of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; application service provider (ASP) featuring software for tagging messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, music videos, and other user-generated content, with data, namely, date, location, people and subject matter; application service provider (ASP) featuring software for displaying and sharing a user's location; application service provider (ASP) featuring software for finding, locating, and interacting with other users and places; application service provider (ASP) featuring software for software for geo-location based advertising and product and service promotions; application service provider (ASP) featuring software for the collection, editing, organizing, modifying, bookmarking, transmission, storage and sharing of information, namely, messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, music videos, user-generated content, friend lists, user preferences, user profiles, personal data of users, and information via global computer networks, and the Internet; application service provider (ASP) featuring software for charitable fundraising and collection and distribution of donations for charitable purposes; application service provider (ASP) featuring software that generate customized recommendations of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos based on user Page 13 of 17 preferences; Software as a service (SAAS) services, namely, hosting software for use by others for use in communications between people and organizations, using wireless and wired networks, through computers and mobile devices; Software as a service (SaaS) services featuring software that gives users the ability to upload, exchange and share photos and videos; Providing online non-downloadable software development tools; Application service provider services, namely, hosting computer software applications for others; application service provider featuring application programming interface (API) software for the integration of text, audio, and video content into websites, applications and third-party software; application service provider featuring application programming interface (API) software for use in building software applications; application service provider featuring application programming interface (API) software for enabling the sharing of computer programming code with other computer software; application service provider featuring application programming interface (API) software for financial, banking, social, business data retrieval, upload, download, access and management; application service provider, namely, providing, hosting, managing, developing and maintaining applications, software, and databases in the fields of e-commerce, online payments, order queuing, data storage, shared computing capacity scaling, messaging services, and calculation of website ranking based on user traffic; Providing non-downloadable software and online software applications for managing computer

applications of others; providing temporary use of non-downloadable computer software and online facilities to enable users to access and download computer software; providing temporary use of online non-downloadable computer software that generates customized recommendations of software applications and mobile applications based on user preferences; Providing an online platform for logging, analyzing, and reporting operational statistics of third-party computer software applications and mobile applications; Providing non-downloadable software and online software applications for use in advertising third-party goods and services; providing non-downloadable software and online software applications to facilitate online advertising and business promotion by connecting social network users with businesses for the purpose of matching consumers with providers of goods and services; providing non-downloadable software and online software applications for business consulting, namely, providing business strategy, insight, and marketing guidance to others; providing non-downloadable software and online software applications for connecting social network users with businesses; providing nondownloadable software and online software applications for assimilating data for use in advertising; providing non-downloadable software and online software applications for optimization and management of online and mobile marketing of third parties; providing non-downloadable software and online software applications for creating, managing, measuring, and disseminating advertising of others; providing non-downloadable software and online software applications to enable uploading, creating, posting, showing, displaying, blogging, accessing, transmitting, organizing, managing, and sharing messages, photographs, graphics, animations, GIFs, links, text, online blog journals, video, audio, and live video in the fields of advertising, marketing, software development, and web and mobile application analytics via the global computer networks, and the Internet; providing non-downloadable software and online software applications for real-time delivery of messages, photographs, graphics, animations, GIFs, links, text, online blog journals, video, audio, and live video in the fields of advertising, marketing, software development, and web and mobile application analytics; providing non-downloadable software and online software applications to create, manage, distribute, present and display advertisements and advertising campaigns of others via the internet; Providing non- downloadable software and online software applications for monitoring website and mobile application activity and managing, monitoring, and optimizing the performance and effectiveness of websites, mobile applications and online marketing campaigns; providing non-downloadable software and online software applications for the collection, editing, organizing, modifying, bookmarking, transmission, storage and sharing of data and information in the fields of advertising, marketing, software development, and web and mobile application analytics; providing non-downloadable software and online software applications for tracking users and advertising of others to provide strategy, insight, marketing advice, and to predict consumer behavior; providing non-downloadable software and online software applications to create, manage, distribute, present and display advertisements and advertising campaigns of others via the internet and to collect, create, store, manage, monitor, analyze and report data, namely, advertising data, user statistics, advertising statistics, inventory data, payment data, e-commerce data, ad placement data, software performance statistics, and mobile application performance statistics, in the field of marketing, promotion, sales, services and customer information; providing non-downloadable software and online software applications for real-time delivery of advertising data, user statistics, advertising statistics, inventory data, payment data, e-commerce data, ad placement data, software performance statistics, and mobile application performance statistics; Providing online non-downloadable software and online software applications for the purpose of selling, marketing and promoting the goods and services of others online; Providing non-downloadable software and online software applications for the creation, management, and monetization of advertising and marketing campaigns, related to websites and mobile applications; Application service provider (ASP) featuring software for use in advertising third-party goods and

services; application service provider (ASP) featuring software to facilitate online advertising and business promotion Page 14 of 17 by connecting social network users with businesses for the purpose of matching consumers with providers of goods and services; application service provider (ASP) featuring software for business consulting, namely, providing business strategy, insight, and marketing guidance to others; application service provider (ASP) featuring software for connecting social network users with businesses; application service provider (ASP) featuring software for assimilating data for use in advertising; application service provider (ASP) featuring software for optimization and management of online and mobile marketing of third parties; application service provider (ASP) featuring software for creating, managing, measuring, and disseminating advertising of others; application service provider (ASP) featuring software to enable uploading, creating, posting, showing, displaying, blogging, accessing, transmitting, organizing, managing, and sharing messages, photographs, graphics, animations, GIFs, links, text, online blog journals, video, audio, and live video in the fields of advertising, marketing, software development, and web and mobile application analytics via the global computer networks, and the Internet; application service provider (ASP) featuring software for realtime delivery of messages, photographs, graphics, animations, GIFs, links, text, online blog journals, video, audio, and live video in the fields of advertising, marketing, software development, and web and mobile application analytics; application service provider (ASP) featuring software to create, manage, distribute, present and display advertisements and advertising campaigns of others via the internet; application service provider (ASP) featuring software for monitoring website and mobile application activity and managing, monitoring, and optimizing the performance and effectiveness of websites, mobile applications and online marketing campaigns; application service provider (ASP) featuring software for the collection, editing, organizing, modifying, bookmarking, transmission, storage and sharing of data and information in the fields of advertising, marketing, software development, and web and mobile application analytics; application service provider (ASP) featuring software for tracking users and advertising of others to provide strategy, insight, marketing advice, and to predict consumer behavior; application service provider (ASP) featuring software to create, manage, distribute, present and display advertisements and advertising campaigns of others via the internet and to collect, create, store, manage, monitor, analyze and report data, namely, advertising data, user statistics, advertising statistics, inventory data, payment data, e-commerce data, ad placement data, software performance statistics, and mobile application performance statistics, in the field of marketing, promotion, sales, services and customer information; application service provider (ASP) featuring software for real-time delivery of advertising data, user statistics, advertising statistics, inventory data, payment data, e-commerce data, ad placement data, software performance statistics, and mobile application performance statistics; application service provider (ASP) services featuring computer software for the purpose of selling, marketing and promoting the goods and services of others online; application service provider (ASP) featuring software for the creation, management, and monetization of advertising and marketing campaigns, related to websites and mobile applications; Software as a service (SAAS) services featuring software for use in decision, support, analytics and optimization of mobile advertising and digital media and for use in facilitating the placement of targeted mobile advertisements and content; software as a service (SAAS), featuring software for use in creating, serving, managing, targeting, monitoring, analyzing, and selling advertising and implementing advertising campaigns; software as a service (SAAS) services featuring software for use of web analytics and website diagnostics, mobile analytics and mobile application diagnostics; software as a service (SAAS) featuring software for use as a monetization platform for Internet advertising for others; Providing non-downloadable software and online software applications for database management; Providing non-downloadable software and online software applications for accessing, browsing and searching online databases; Providing non-downloadable software and online software

applications for synchronizing data within or between hand-held or portable computers and host computers; Providing nondownloadable software and online software applications for information and data integration, analysis, and management in the fields of advertising, marketing, software development, and web and mobile application analytics; Providing non-downloadable software and online software applications for character recognition; Providing non-downloadable software and online software applications for voice recognition; providing non-downloadable software and online software applications for use in facilitating voice over the internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic messages, instant messages and online social networking services; Application service provider (ASP) featuring software for database management; Application service provider (ASP) featuring software for accessing, browsing and searching online databases; Application service provider (ASP) featuring software for synchronizing data within and between hand-held or portable computers and host computers; Application service provider (ASP) featuring software for information and data integration, analysis, and management in the fields of advertising, marketing, software development, and web and mobile application analytics; Application service provider (ASP) featuring software for character recognition; Application service provider (ASP) featuring software for voice recognition; providing non-downloadable software and online software applications for use in facilitating voice over the internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic messages, instant message sand online social networking services; hosting an interactive website featuring a computerized online search and ordering service featuring the retail distribution of music, books, movies, Page 15 of 17 television programs, games, toys, sporting goods, electronics, multimedia presentations, videos and DVDs, and other household and consumer goods of others; providing an online computer software platform that gives users the ability to upload, post, display, exchange and share messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos in the fields of general interest, entertainment, popular culture, sports, fashion, recreation, current events, radio, movies, television, music, books, art, theatre, dance, live artistic performances, concerts, comedy, awards shows, fashion shows, festivals, games, contests, tournaments, museums, exhibitions, science, technology, software development, religion, families and parenting, food and cooking, business, finance, jobs, education, social, professional and business networking, advertising and marketing; Providing a web hosting platform featuring providing non- downloadable software and online software applications allowing users to post, display, stream, and share messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; Hosting digital content for managing and sharing messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; hosting an interactive database for transmission of messages among computer users and subscribers in the field of music, books, movies, motion pictures, television programs, games, toys, sporting goods, electronics, multimedia presentations, videos and DVDs, and other household and consumer goods, product reviews and purchase information on the internet; providing an online computer software platform for information and data integration, analysis, and management in the fields of advertising, marketing, software development, and web and mobile application analytics; Hosting a website on the Internet for the purpose of social networking; hosting a website featuring messages, video messages, voice

messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; hosting an interactive website and online non-downloadable software for uploading, downloading, posting, showing, displaying, tagging, sharing and messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos; hosting an interactive website and online non-downloadable software that enable users to post, search, watch, share, critique, rate, and comment on messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos, via a global computer network; hosting a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; hosting an interactive website and online non-downloadable software for real-time delivery of messages, video messages, voice messages, location information, photographs, graphics, animations, GIFs, links, text, online blog journals, user uploaded video clips, user uploaded audio clips, movies, films, television shows, live video, live sports events, live fashion shows, live concerts, live events, real-time news, music, and music videos;

Colour is claimed as a feature of the trademark. The mark consists of the word LIVITECH, with the letters LIVI in dark blue and the word TECH in light blue, alongside a design consisting of twelve squares, including six light blue squares and six dark blue squares.

Goods

Class 01

(1) Diagnostic reagents for scientific use for the treatment and prevention of liver and metabolic diseases; diagnostic reagents for in vitro use in biochemistry, molecular biology, clinical chemistry and microbiology for the treatment and prevention of liver and metabolic diseases.

Class 05

(2) Pharmaceuticals for use in human medicine and veterinary pharmaceuticals, for the treatment and prevention of liver and metabolic diseases; chemical preparations for medical or pharmaceutical use, namely chemical preparations for the prevention and treatment of liver and metabolic diseases; biological preparations for use in human or veterinary medicine or for pharmaceutical use, namely biological preparations for the prevention and treatment of liver and metabolic diseases; cultures of micro-organisms for medical and veterinary use for the prevention and treatment of liver and metabolic diseases; cultures of micro-organisms for pharmaceutical use for the prevention and treatment of liver and metabolic diseases; biological preparations made from human blood cells and stem cells for medical and veterinary use for the prevention and treatment of liver and metabolic diseases; pharmaceutical preparations for use in gene therapy and cell therapy; blood for medical use; blood-derived samples and biological fluids for medical use, namely blood plasma, blood plasma derivative products for medical use, blood substitutes for medical use, blood substitutes; diagnostic products for medical use, namely diagnostic biomarker reagents for medical use.

Class 09

(3) Software for processing and managing patient health data records for medical and pharmaceutical research, related to the prevention and treatment of liver and metabolic diseases; downloadable software applications for managing patient health data for medical and pharmaceutical research, related to the prevention and treatment of liver and metabolic diseases.

Class 10

(4) Instruments and tools for medical diagnosis or scientific research for the prevention and treatment of liver and metabolic diseases, namely medical apparatus and instruments for amplifying DNA and RNA nucleic acid molecules, gene testing medical apparatus for the identification of genus-specific and species-specific DNA and RNA sequences; medical apparatus for measuring physical and biochemical parameters, namely medical apparatus for measuring biochemical parameters, namely colorimetric and fluorescent apparatus for liver enzyme, protein and lipid assays, and medical apparatus for measuring physical parameters, namely CT scanners, ultrasonic imaging apparatus for medical use, elastographic medical imaging apparatus, tomographic medical imaging apparatus, medical imaging apparatus using liver elastography, MRI medical imaging apparatus, ultrasonic medical imaging apparatus, medical imaging apparatus using nuclear imaging; blood analyte concentration measuring apparatus, X-rays for medical use, diagnostic apparatus for medical use for the prevention and treatment of liver and metabolic diseases, namely bodily fluid analyzers for medical use.

Services**Class 42**

(1) Pharmaceutical research services; medical research and research related to pharmaceutical products in the field of the prevention and treatment of liver and metabolic diseases; sorting and selection of molecules for scientific research in the medical, biomedical, chemical, genetic, pharmaceutical and veterinary fields in relation to liver and metabolic diseases; development and validation of biological assays, cellular assays and genetic tests for the prevention and treatment of liver and metabolic diseases; functional genomics activities, for identifying, characterizing, validating and developing biologically active molecules, for the prevention and treatment of liver and metabolic diseases, structural and functional analysis of genomes; analysis of biological substances in biological fluids, namely testing and analysis of blood plasma, red blood cells, white blood cells and blood platelets for scientific research purposes; consulting in the field of scientific and medical research, namely biochemical and molecular consulting, research and analysis.

Class 44

(2) Medical analysis and medical diagnostic services for the prevention and treatment of liver and metabolic diseases; medical analysis services for blood samples, biological preparations and biological fluids, for the prevention and treatment of liver and metabolic diseases; provision of medical information related to the prevention and treatment of liver and metabolic diseases.

Goods

Class 09

Downloadable cloud-based software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; downloadable cloud-based software for storing, managing, tracking, capturing, analyzing, displaying, and reporting data in the fields of sales, marketing, branding, purchase, conversion, consumer behavior, and consumer buying habits; software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; computer software for use as an application programming interface (API), namely computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for use as an application programming interface (API) for use in building software applications for use in the fields of ecommerce, product information management, digital asset management; software applications, namely, application programming and graphic user interfaces for storing, managing, tracking, capturing, analyzing, displaying, and reporting data in the fields of sales, purchase, conversion, consumer behavior, and consumer buying habits; software for creating searchable databases of information and data; software for electronic storage of data, namely audio, video, images, texts and graphics; software for searching and retrieving information across a computer network, namely computer search engine software; marketing software for use in the development and management of marketing campaigns; project management software; computer software in the field of enterprise resource management; brand management software, namely software for managing the creation and usage of branded assets, namely company logos, typography and colour palettes, for restricting access to branded assets, namely company logos, typography and colour palettes, and for enabling users to access and customize pre-approved brand templates to create advertisements, marketing materials, and social media posts; desktop publishing software; software and software tools for providing and creating marketing analytics reports; digital asset management software, namely computer software for managing portfolios of digital assets; software for improving brand consistency, namely software for creating and updating brand guidelines to ensure brand consistency and

correct usage of branded assets, namely company logos, typography, and colour palettes; software for enhancing productivity, namely computer software for daily tasks management, creation of lists and checklists, database management, creating electronic spreadsheets, note taking, email, calendaring, contacts management, creating presentation graphics, desktop publishing, document management, organization, and storage, word processing, sharing and editing of documents, instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, creating, editing and publishing documents; software for project management, and to facilitate team and employee communication and collaboration; software for creating, editing, and modifying digital templates to create advertisements, social media posts, and marketing materials; software for running analytics on the number of views and downloads of digital files and assets; software for automating and controlling the distribution of digital files and assets; software for secure file and data sharing, namely software for data security, and e-mail security software; software for adjusting the format of digital files and assets; software for searching, indexing, locating, accessing, extracting, transmitting, repurposing, organizing, viewing, and managing electronic data, namely audio, video, images, texts and graphics; software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, editing, locating, and posting the product reviews, brand reviews, store reviews, and technical reviews of others on websites, online databases, and online software platforms; software for automatically resizing digital assets, namely software for resizing of digital images; software that provides users with access to an online library of digital files and assets; software for generating embeds and links, namely software for embedding digital audio clips, video clips, digital images, and hypertext links into computer documents and websites; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning for facial recognition; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning for identifying duplicate digital files and assets; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning to search databases using image capture; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning for optical character recognition; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning for speech-to-text conversion; software for artificial intelligence and machine learning, namely software using artificial intelligence and machine learning for creating, editing, and manipulating digital images; software for the integration of artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence in the field of big data for business data analytics and user behaviour analytics; computer software for data integration, data transformation, data quality management, big data and data analytics, data security, data management, and data governance in the field of product information management (PIM), namely consumer demographics, consumer purchasing statistics and product development, manufacturing, distribution, marketing and retail information; software for collecting, collating, editing, organizing, managing, indexing, storing, distributing, accessing, analyzing, displaying, and presenting product-related information, namely product pricing, product descriptions, product ingredient and composition information, and product reviews; software for creating product catalogs; software for optimizing back-end retail operations, namely software for retail inventory management, and for managing retail store customer accounts; webshop software, namely software that enables users to create e-commerce stores to sell their goods and services online; software for providing electronic data exchange (EDI) of business

documents and forms; software for digital asset management (DAM), namely software for storing, organizing, retrieving, and sharing of digital assets; software for product content syndication, namely software for sending product information to retail endpoints to ensure it conforms to branding guidelines; software for data manipulation and visualization, analytical processing, and management and governance of data analytics, all in the field of business intelligence.

Services

Class 35

(1) Advertising the goods and services of others; advertising agencies; on-line advertising for others via computer communications networks; production of advertising films for others; dissemination of advertising, marketing, and promotional matter for others; modelling for advertising or sales promotion; design of advertising, marketing, and promotional materials for others; layout services for advertising, marketing, and promotional purposes; providing business management information via a website; providing information regarding advertising, marketing, and promotional services for others via a website; advertising consultancy; marketing consultancy services; consultancy relating to sales promotions; digital advertising, marketing, and promotional services, namely digital advertising of the goods and services of others and digital marketing strategic plan development services for others; business management services; marketing research; marketing services, namely developing marketing strategies and marketing concepts for others, developing marketing campaigns for others, marketing analysis services, marketing research, and preparation of reports for marketing; business data analysis in the field of website analytics and website traffic; analysis of market research data; market analysis and research; consumer research; content marketing services for others, namely content marketing strategies, especially the creation of marketing content and rendering conversation marketing services in the field of social media for others; marketing, advertising, content development and marketing brand consulting for others in the field of brand communication strategy services, namely providing customized communication programs to obtain consumer insights and develop branding strategies; advertising consultation, namely, providing analysis, attribution information, reporting and optimization recommendations for online advertising content; preparing and placing advertisements for others; copywriting; layout services for advertising purposes; providing consulting services to others in the field of facilitating the planning, buying and selling of media; advice on the analysis of consumer buying habits and needs provided with the help of sensory, quality and quantity-related data; updating of advertising material for others; publication of publicity text; publicity agencies; business management assistance; business efficiency expert services; business organization consultancy; advisory services for business management; compilation of statistics into computer databases; compilation of statistics; computerized file management; data search in computer files for others, namely computer file management; database management; distribution of samples for others for marketing purposes; document reproduction; demonstration of goods, namely sales demonstration for others; provision of an on-line marketplace for buyers and sellers of goods and services; commercial information services, namely providing an online commercial information directory on the Internet; dissemination of commercial product information, namely product pricing, product descriptions, product ingredient and composition information, and product reviews; administrative processing of purchase orders; administrative processing of merchandise shipment orders for others; administrative processing of online orders featuring consumer goods and general merchandise; organization of exhibitions for commercial, advertising, marketing, or promotional purposes, namely arranging and conducting of trade show exhibitions in the field of computer software; organization of trade fairs for advertising, marketing, or promotional purposes, namely arranging and conducting of trade fairs in the field of computer software; outsourcing services being business assistance, namely business management of outsourcing;

pay per click advertising; presentation of goods on communication media, for retail purposes, namely organization and conducting of product presentations; providing consumer product information, namely product pricing, product descriptions, product ingredient and composition information, and product reviews; public relations; publication of publicity texts; systemization of information into computer databases; collection and systematization of product information, namely product pricing, product descriptions, product ingredient and composition information, and product reviews in a central file; searching, browsing and retrieving information, sites and other resources available on the internet, namely web indexing for commercial or advertising purposes; search engine optimization services; updating and maintenance of data in computer databases; web site traffic optimization; word processing; writing of publicity texts for others.

Class 38

(2) Providing access to content, websites and portals, namely providing access to the Internet; online transmission of information over the Internet in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; electronic transmission of photographs, images, data, text, audio, video, multimedia content and documents in the fields of online digital asset management, document management, brand management, and digital advertising and marketing via the Internet; electronic mail and instant messaging services; electronic transfer of photographs, images, data, text, audio, video, multimedia content and documents in the fields of online digital asset management, document management, brand management, and digital advertising and marketing via the Internet via online services and the internet; electronic transmission of electronic ordering messages via the Internet; video messaging services, namely multimedia messaging services [MMS]; providing online communications services, namely providing on-line chat rooms; providing access to databases; providing access to online Internet forums; bulletin board services, namely providing access to an electronic bulletin board; providing access to online forums for communication on topics regarding online digital asset management, document management, brand management; computer aided transmission of data, content, and files, namely audio, video, images, texts and graphics via a global computer network; electronic transmission of data, content, and files, namely audio, video, images, texts and graphics via the Internet; electronic transmission of data, content, and files, namely audio, video, images, texts and graphics via the Internet exchanged and shared in project management software through telecommunication networks; transmission of user-generated content via the internet namely, pictures, videos, text messages, sound recordings, advertising campaigns, and digital marketing material; provision of communications facilities for interchange of electronic data, namely providing access to mobile internet portals; providing user access to search engines; providing user access to global computer networks; providing multiple-user access to data, content, files, namely audio, video, images, texts and graphics via the Internet and online project management tools via the Internet; provision of electronic data interchange [EDI] services.

Class 41

(3) Educational services in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; providing educational services, namely, training sessions, workshops, conferences, webinars, and seminars in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; providing information in the field of audiovisual productions namely motion pictures, television shows, television commercials, online videos and webinars; providing on-line non-downloadable videos in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; providing on-line non-downloadable podcasts in the field of online digital asset management, document management, brand

management, and digital advertising and marketing; providing educational demonstrations in the use and operation of software for online digital asset management, document management, brand management, and digital advertising and marketing; providing educational demonstrations, namely, practical training demonstration in the use and operation of software for online digital asset management, document management, brand management, and digital advertising and marketing; providing electronic publications, namely publishing of electronic publications; providing online non-downloadable electronic publications in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; electronic and online publishing services, namely electronic desktop publishing, online publication of electronic books, online publication of electronic journals, online publication of electronic magazines, online publication of electronic newspapers, online publication of electronic periodicals, online publication of journal articles, online publication of music, and publishing an online blog in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; services in the field of desktop publishing, photography, photo editing, and manipulation of images and audiovisual content for motion pictures, television shows, and television commercials; services in the field of digital video and audio recording publishing services in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; providing information in the field of desktop publishing, photography, photo editing, manipulation of images and audiovisual content for motion pictures, television shows, and television commercials via a website; providing information in the field of digital video and audio recording publishing services in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; providing information in the field of publishing of electronic publications, online publication of electronic books, online publication of electronic journals, online publication of electronic magazines, online publication of electronic newspapers, online publication of electronic periodicals, online publication of journal articles, online publication of music, and publishing an online blog in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; design, assembling, (post) editing and realization of (interactive) audiovisual (multimedia) productions, namely production and editing of films, videos, and television shows; publication of online catalogues; teaching and training services in the use and operation of software for online digital asset management, document management, brand management, and digital advertising and marketing; teaching and training services in the fields of online digital asset management, document management, brand management, and digital advertising and marketing; electronic desktop publishing; video production and editing.

Class 42

(4) Technical consultancy and advisory services in the field of computer hardware and computer software for the planning, purchasing, placement and optimization of on-line, interactive, television, cable, broadband, mobile and related new media inventory and advertising content; consultancy in the field of computer software and information and communication technology (ICT)-services and relating to the use of digital platforms and media for advertising and marketing purposes; technical research in the field of computer hardware and computer software; web hosting of digital content on the internet; web hosting; software design and development; development of software solutions, namely computer software development; rental of computer software; cloud computing provider services for general storage of electronic data, content, and files; providing virtual computer environments through cloud computing; hosting of web sites providing electronic storage of electronic media; electronic storage of videos, computer graphics, digital animations, and photographic images used for marketing, public, image or brand management; computer services, in particular, application service provider services featuring application programming interface

(API) software for assisting developers in creating program code for use in mobile internet applications and client interfaces; application service provider (ASP) services featuring software for use in creating, organizing, sharing, storing, managing, transferring, downloading, uploading, modifying, editing, locating, retrieving, archiving, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; application service provider (ASP) services featuring application programming interface (API) software for enabling automated integration of different software applications; computer services, namely, creating an on-line virtual environment for providing a virtual office for collaborative work by multiple parties enabling users to share and exchange software components and software integration and automation tools; software as a service (SAAS) services featuring software for creating searchable databases of information and data; software as a service (SAAS) services featuring software for electronic storage of data, namely audio, video, images, texts and graphics; software as a service (SAAS) services featuring software for searching and retrieving information across a computer network, namely computer search engine software; software as a service (SAAS) services featuring marketing software for use in the development and management of marketing campaigns; software as a service (SAAS) services featuring online non-downloadable software for project management; software as a service (SAAS) services featuring enterprise resource management software; software as a service (SAAS) services featuring digital asset management software, namely computer software for managing portfolios of digital assets; software as a service (SAAS) services featuring software and software tools for providing and creating marketing analytics reports; software as a service (SAAS) services featuring software for improving brand consistency, namely software for creating and updating brand guidelines to ensure brand consistency and correct usage of branded assets, namely company logos, typography, and colour palettes; software as a service (SAAS) services featuring software for enhancing productivity, namely computer software for daily tasks management, creation of lists and checklists, database management, creating electronic spreadsheets, note taking, email, calendaring, contacts management, creating presentation graphics, desktop publishing, document management, word processing, instant messaging, voice over internet protocol (VOIP), video conferencing, audio conferencing, ensuring computer network security, providing computer network intrusion detection and prevention, and designing, creating, editing and publishing documents; software as a service (SAAS) services featuring online non-downloadable software for project management, and to facilitate team and employee communication and collaboration; software as a service (SAAS) services featuring software for creating, editing, and modifying digital templates to create advertisements, social media posts, and marketing materials; software as a service (SAAS) services featuring software for running analytics on the number of views and downloads of digital files and assets across departments and regions; software as a service (SAAS) services featuring software for automating and controlling the distribution of digital files and assets; software as a service (SAAS) services featuring software for data security, and e-mail security software; software as a service (SAAS) services featuring software for adjusting the format of digital files and assets; software as a service (SAAS) services featuring software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; software as a service (SAAS) services featuring software for automatically resizing digital assets, namely software for resizing of digital images; software as a service (SAAS) services featuring software that provides users with access to an online library of digital files and assets; software as a service (SAAS) services featuring software for generating embeds and links, namely software for embedding digital audio clips, video clips, digital images, and hypertext links into computer documents and websites; software as a service (SaaS) services featuring software for data integration, data transformation, data quality management, big data and

data analytics, data security, data management, and data governance in the field of product information management (PIM), namely consumer demographics, consumer purchasing statistics and product development, manufacturing, distribution, marketing and retail information; software as a service (SaaS) services featuring software for collecting, collating, editing, organizing, managing, storing, distributing, accessing, analyzing, displaying, and presenting product-related information, namely product pricing, product descriptions, product ingredient and composition information, and product reviews; software as a service (SaaS) services featuring software for creating product catalogs; software as a service (SaaS) services featuring software for optimizing back-end retail operations, namely software for retail inventory management, and for managing retail store customer accounts; software as a service (SAAS) services featuring software for storing, managing, tracking, capturing, analyzing, displaying, and reporting data in the fields of sales, purchase, conversion, consumer behavior, and consumer buying habits; software as a service (SAAS) services featuring software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, editing, locating, and posting the product reviews, brand reviews, store reviews, and technical reviews of others on websites, online databases, and online software platforms; software as a service (SAAS) services featuring software for brand management, namely software for managing the creation and usage of branded assets, namely company logos, typography and colour palettes, for restricting access to branded assets, namely company logos, typography and colour palettes, and for enabling users to access and customize pre-approved brand templates to create advertisements and social media posts ; software as a service (SAAS) services featuring software for desktop publishing; software as a service (SAAS) services featuring webshop software, namely software that enables users to create e-commerce stores to sell their goods and services online; software as a service (SAAS) services featuring software for providing electronic data exchange (EDI) of business documents and forms; software as a service (SAAS) services featuring software for digital asset management (DAM), namely for software storing, organizing, retrieving, and sharing of digital assets; software as a service (SAAS) services featuring software for content syndication, namely software for sending product information to retail endpoints to ensure it conforms to branding guidelines; software as a service (SAAS) featuring software computer e-commerce software to allow users to perform electronic business transaction via a global computer network; software as a service (SAAS) services featuring software for data manipulation and visualization, analytical processing, and management and governance of data analytics, all in the field of business intelligence; platform as a service (PAAS) services featuring computer software platforms for digital asset management, namely computer software platforms for managing portfolios of digital assets; platform as a service (PAAS) services featuring software platforms for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; platform as a service (PAAS) services featuring software for storing, managing, tracking, capturing, analyzing, displaying, and reporting data in the fields of sales, purchase, conversion, consumer behavior, and consumer buying habits; platform as a service (PAAS) services featuring software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, editing, locating, and posting the product reviews, brand reviews, store reviews, and technical reviews of others on websites, online databases, and online software platforms; platform as a service (PAAS) services featuring software for providing electronic data exchange (EDI) of business documents and forms; platform as a service (PAAS) services featuring software for digital asset management (DAM), namely for software storing, organizing, retrieving, and sharing of digital assets; platform as a service (PAAS) services featuring software for content syndication, namely software for sending product information to retail endpoints to ensure it conforms to branding guidelines; platform as a service (PAAS) services featuring computer e-

commerce software to allow users to perform electronic business transaction via a global computer network; platform as a service (PAAS) services software for data manipulation and visualization, analytical processing, and management and governance of data analytics, all in the field of business intelligence; providing temporary use of on-line non-downloadable software development tools; providing temporary use of on-line non-downloadable software development tools for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; providing temporary use of online non-downloadable software for digital asset management, namely computer software for managing portfolios of digital assets; providing temporary use of non-downloadable software tools for providing and creating marketing analytics reports; providing temporary use of online non-downloadable software that provides users with access to an online library of digital files and assets; providing temporary use of on-line non-downloadable cloud-based software for creating, organizing, sharing, storing, indexing, cataloging, sorting, managing, transferring, downloading, uploading, modifying, manipulating, editing, locating, retrieving, archiving, synchronizing, printing, viewing, protecting, tracking, and controlling access to and usage of digital files and assets; providing temporary use of on-line non-downloadable cloud-based software for storing, managing, tracking, capturing, analyzing, displaying, and reporting data in the fields of sales, purchase, conversion, consumer behavior, and consumer buying habits; advanced product research in the field of artificial intelligence; design and development of computer software in the fields of artificial intelligence, machine learning, deep learning, and deep neural networks; design, programming and maintenance of artificial intelligence software; providing temporary use of non-downloadable software for the integration of artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, unsupervised learning, data mining, predictive analytics and business intelligence in the field of big data for business data analytics and user behaviour analytics; data transfer services, namely document data transfer from one computer format to another.

Goods**Class 09**

Downloadable and pre-recorded software for measuring, operating, regulating, reporting, inspecting and recording liquid level detection sensors namely, physical, electric, electronic, electromagnetic, electromechanical, optical, acoustic, particle radiation, ultrasound, hydrostatic, magnetic and mechanical displays for determining and monitoring the fill level, density, dielectricity, temperature and volume of the fill level of barrels, storage drums, tanks, boxes, storage containers and transportation containers; downloadable and pre-recorded software for physical, electric, electronic, capacitive, hydrostatic, impulse echo, light and laser-optic, electromechanical, electrochemical, particle radiation, vibration, conductivity and microwave and mechanical instruments, namely, radiation density gauges, pulse and Frequency-Modulated Continuous Wave (FMCW) radars, level detection measurement instruments namely level gauges, liquid level sensors and liquid level gauges, electro mechanical gauges for measurement of liquids, pastes, powders and granulars, level gauges, thickness gauges, gauges for weighing materials on belts, radiation source holders and radiation source storage containers designed for the safe containment of radiation material for determining and monitoring the fill level, density, dielectricity, temperature and volume in filling level of barrels, storage drums, tanks, boxes, storage containers and transportation containers; downloadable and pre-recorded software for physical, electric, capacitive, capacitive ceramic, hydrostatic, electromechanical, piezo-resistive, thick ceramic film and mechanical instruments, namely, radiation density gauges, pulse and Frequency-Modulated Continuous Wave (FMCW) radars, level detection measurement instruments namely level gauges, liquid level sensors and liquid level gauges, electro mechanical gauges for measurement of liquids, pastes, powders and granulars, level gauges, thickness gauges, gauges for weighing materials on belts, radiation source holders and radiation source storage containers, for measuring pressure or differential pressure in barrels, storage drums, tanks, boxes, storage containers and transportation containers; downloadable and pre-recorded software for physical, electric, electronic, electromagnetic, electromechanical, optical, acoustic, particle radiation, ultrasound, hydrostatic and mechanical instruments, namely, radiation density gauges, pulse and Frequency-Modulated Continuous Wave (FMCW) radars, level detection measurement instruments namely level gauges,

liquid level sensors and liquid level gauges, electro mechanical gauges for measurement of liquids, pastes, powders and granulars, level gauges, thickness gauges, gauges for weighing materials on belts, radiation source holders and radiation source storage containers, for determining and monitoring the flow in pipelines and conveyors, and evaluation, display, energy harvesting and protection levels, and mounting, process connections, detection and signalling gauges for measuring the fill level of solids, fluids and gases, in barrels, storage drums, tanks, boxes, storage containers and transportation containers; downloadable and pre-recorded software for physical, electric, electronic, electromagnetic, electromechanical, optical, acoustic, particle radiation, ultrasound, hydrostatic and mechanical instruments, namely, radiation density gauges, pulse and Frequency-Modulated Continuous Wave (FMCW) radars, level detection measurement instruments namely level gauges, liquid level sensors and liquid level gauges, electro mechanical gauges for measurement of liquids, pastes, powders and granulars, level gauges, thickness gauges, gauges for weighing materials on belts, radiation source holders and radiation source storage containers for determining and monitoring the flow in pipelines and conveyors, and evaluation, display, energy harvesting and protection levels, and mounting, process connections, detection and signalling gauges, namely, for measuring the fill level of solids, fluids and gases in barrels, storage drums, tanks, boxes, storage containers and transportation containers and downloadable and pre-recorded computer programs for operating radiation density gauges, pulse radars, level detection measurement instruments namely level gauges, liquid level sensors and liquid level gauges, electro mechanical gauges for measurement of liquids, pastes, powders and granulars, level gauges, thickness gauges, gauges for weighing materials on belts, radiation source holders and radiation source storage containers for measuring the fill level of solids, fluids and gases in barrels, storage drums, tanks, boxes, storage containers and transportation containers; cloud servers being computer servers, downloadable, cloud-based server software for storing and managing electronic data, downloadable and pre-recorded application software for use in cloud computing services, downloadable cloud-based computing software for deploying virtual machines to cloud computing platforms, downloadable cloud-based computing software for cloud network monitoring for measuring the fill level of solids, fluids and gases

Services

Class 42

Technological advisory services and research and design in the fields of measuring instruments, steering devices, control instruments, regulating instruments, warning instruments, checking instruments, logs being recording instruments, recording instruments for measuring the fill level of solids, fluids and gases, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; industrial analysis services in the field of measuring the fill level of solids, fluids and gases, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; industrial research in the field of filling level measurement of solids, fluids and gases, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; quality control of measuring implements, measuring instruments, steering devices, control instruments, regulating instruments, warning instruments, checking instruments, logs being recording instruments, recording instruments research in the field of filling level measurement of solids, fluids and gases, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; design and development of computer hardware and computer software, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; cloud

computing featuring software for use in database management in the field of filling level measurement of solids, fluids and gases; computer services, namely, cloud hosting provider services, cloud-based data protection services, namely, cloud storage services for electronic data, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; public cloud hosting provider service, private cloud hosting provider service, cloud storage services for electronic files, cloud storage services for electronic data, consultancy in the field of cloud computer networks and cloud computer applications, providing virtual computer systems through cloud computing, providing virtual computer environments through cloud computing, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting; programming of operating software for accessing and using a cloud computing network, rental of operating software for accessing and using a cloud computing network, design and development of operating software for accessing and using a cloud computing network, providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network, all the aforesaid services solely in the field of filling and process compression measurement engineering and not in the fields of human resources, finance and accounting

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a stylized drop of blood created by the white space in the centre of a red eight pointed star design comprised of partial triangles in red, with a second row of incomplete red triangles pointing towards the centre between each point pointing towards the centre.

Goods

Class 09

(1) Social media toolkits consisting of downloadable electronic files containing sample text, images and graphics for social media posts in the field of charitable fundraising

Class 16

(2) paper signs

Class 21

(3) crystal plaques for use as awards

Class 25

(4) sashes for wear

Services**Class 35**

(1) arranging and conducting auctions for charitable fundraising in the field of cancer; administration and management of research grants

Class 36

(2) Charitable fundraising in the field of cancer; charitable fundraising competitions in the field of cancer; charitable fundraising campaigns, namely organizing philanthropic competitions in the nature of philanthropic campaigns in the field of cancer; accepting and administering monetary charitable contributions to fund medical research in the field of cancer; providing grants for medical research in the field of cancer; charitable fundraising services, namely facilitating corporate sponsorships of individuals by connecting individuals with corporations to support charitable fundraising in the field of cancer; charitable fundraising services, namely facilitating corporate partnerships with individuals by connecting individuals with corporations to support charitable fundraising in the field of cancer

Class 41

(3) providing recognition and incentives by the way of awards to demonstrate excellence in the field of charitable fundraising in the field of cancer; entertainment services, namely, awards programs and ceremonies for presentation of awards related to achievement in charitable fundraising in the field of cancer

Computer hardware; downloadable software for use in electronically trading, storing, sending, receiving, accepting, buying, selling, accessing, and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; downloadable software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, virtual currency and cryptocurrency; downloadable software for use in electronically managing digital currency, virtual currency, and cryptocurrency payment and exchange transactions; downloadable software for viewing crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for processing transactions related to crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for providing access to crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for downloading software, data, and image files from the internet; downloadable software for managing digital and virtual currency; downloadable software for use in managing portfolios of digital assets; downloadable software for managing non-fungible tokens (NFTs); downloadable software for use as a digital wallet; downloadable cryptocurrency wallets; downloadable computer

software for managing and verifying cryptocurrency transactions on a blockchain; downloadable payment processing software; downloadable ecommerce software to allow users to perform electronic transactions; downloadable software that connects to electronic wallets enabling users to initiate, process and execute transactions; downloadable software in the nature of a mobile application for providing access to crypto-collectibles, application tokens and nonfungible tokens; downloadable software in the nature of a mobile application for minting and selling nonfungible tokens, crypto-collectibles, digital collectibles, digital application tokens, and non-fungible assets; downloadable software in the nature of a mobile application, namely, software for providing access to an online marketplace for digital and physical collectibles, crypto-collectibles and non-fungible tokens; downloadable software to enable consumers and businesses to electronically manage, use and transfer digital assets, virtual currency, cryptocurrency, crypto-collectibles, non-fungible tokens, and digital application tokens; downloadable software that enables users to electronically hold and store cryptocurrency, virtual currency, digital assets, crypto-collectibles, non-fungible tokens and digital application tokens via an electronic wallet; downloadable software to create and manage electronic wallets; downloadable software for facilitating a cryptocurrency, digital asset, virtual currency, crypto-collectibles, non-fungible tokens and other application tokens transactions, namely downloadable computer software for facilitating blockchain-based financial transactions; non-fungible tokens (NFTs) used with blockchain technology featuring collectible digital items in the nature of interactive media, images, videos, audio, three-dimensional art, digital art, photography, music, data, statistics, graphics, and visual effects; downloadable digital media, digital works and digital collectibles represented by non-fungible tokens via a blockchain network; downloadable digital media, namely, non-fungible tokens used with blockchain technology featuring collectible digital items featuring players, games, footage, video highlights, data, statistics, records, visual effects and virtual experiences depicted in video, audio, graphics, and photography; downloadable computer software via a blockchain network to create, display, register, trade, purchase, sell and transfer digital collectibles and digital works, namely images, photographs, art, videos and audio recordings; downloadable software for in the form of web wallets for storing virtual currency, tokens, non-fungible token (NFT), photo cards, and multimedia files using blockchain technology; downloadable computer software for use as an electronic wallet; downloadable computer software for generating non-fungible tokens for use in virtual worlds; downloadable computer software for generating cryptographic keys for use in virtual worlds; digital media, namely, non-fungible tokens (NFTs) used with blockchain technology featuring audio recordings, videos, text files, and graphics; downloadable and recorded computer communications software to allow customers to access bank account information and transact business; computer software for use of digital collectibles in on-line contests, games and challenges; downloadable game software; recorded computer software in the form of web wallets for storing virtual currency, tokens, non-fungible token (NFT) and multimedia files using blockchain technology; downloadable multimedia files containing text, video, audio and images authenticated non-fungible tokens; downloadable multimedia files containing text relating to games, sports, art, entertainment and general consumer merchandise authenticated by non-fungible tokens; downloadable multimedia files containing video relating to games, sports, art, entertainment and general consumer merchandise authenticated by non-fungible tokens; downloadable audio and video recordings featuring content authenticated by non-fungible tokens; video recordings, namely downloadable digital content being videos; downloadable virtual goods, namely, non-fungible tokens (NFTs); downloadable digital media, namely, digital collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, and digital artworks; downloadable software for processing digital files, namely digital art, videos, photographs, music, statistics, graphics, and visual effects; all of the foregoing only in the field of crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens, and cryptocurrencies.

Services**Class 35**

(1) Retail sale of digital art and non fungible tokens (NFTs); business management services; providing an online marketplace for buyers and sellers of goods and services; advertising the goods and services of others, direct marketing of the goods and services of others, and promoting the goods and services of others over the Internet; providing an online marketplace for non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of crypto collectibles, digital collectibles, digital assets and media content; providing an online marketplace for buyers and sellers of blockchain-based non-fungible assets; operating an on-line marketplace featuring crypto collectibles and blockchain-based non-fungible assets; online auction services; providing an online retail store featuring digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events, authenticated by non-fungible tokens (NFTs); providing an online retail store featuring digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events, using crypto currencies and virtual currencies; operating online marketplaces for sellers and buyers of goods and services; providing an online marketplace for buyers and sellers of goods and services to create, post, mint, promote, and exchange crypto collectibles, digital collectibles, digital art, non-fungible tokens and assets, digital assets and other application tokens; online retail store and marketplace services featuring digital collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, virtual currency, digital art, and digital items in the nature of interactive media, images, videos, audio, three-dimensional art, photography, music, data, statistics, graphics, and visual effects; operating an online marketplace for displaying, registering, purchasing, selling, trading, listing, and transferring digital assets, digital works, and digital collectibles represented by non-fungible tokens via a blockchain network; providing online registration services, namely maintaining a register of participants in online communities and online forums via a global computer network; providing a searchable online advertising guide featuring the goods and services of others; providing information regarding third party consumer products selected by users for the commercial purpose of assisting with the selection of those products to meet the consumer's needs; providing an on-line commercial information directory on the internet; compilation and systemization of data into databases; providing pricing information about the goods and services of others via the global computer network; e-commerce services, namely, providing information about third party consumer products selected by users via global computer networks for sales purposes for others; database management services; connecting sellers with buyers of third-party goods and services through a website; online registry services, namely, maintaining and recording the ownership of art, antiques, fossils, archeological artifacts, historic artifacts, cultural artifacts, and other collectibles.

Class 36

(2) Financial services in the nature of payment processing services; payment processing services, namely processing of electronic wallet payments; digital currency electronic wallet services; cryptocurrency trading and exchange services; electronic fund transfer; electronic transfer of virtual currency, tokens, electronic payments, and digital assets; financial services, namely, financial exchange of virtual currencies, digital currency, cryptocurrency and digital assets; issuance of digital tokens; electronic commerce payment services; providing financial information in the fields

of cryptocurrency, digital currency, virtual currency, crypto tokens, non-fungible tokens, non-fungible assets and crypto-collectibles; financial services, namely, non-fungible token trading; asset management services for digital assets in the nature of non-fungible tokens comprising art, antiques, videos, music, tickets, digital content, historic artifacts, cultural artifacts, and other collectibles; brokerage services for art, antiques, videos, music, tickets, digital content, historic artifacts, cultural artifacts, and crypto-collectibles; all of the foregoing only in the field of crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens, and cryptocurrencies.

Class 38

(3) Telecommunication services, namely providing multiple user access to a computer network; data streaming services, namely streaming of audio and video content via the internet, other computer networks, wireless networks and electronic communication networks; electronic data transmission, namely, transmission of voice, images, graphics, audio, video, and multimedia by means of wired and wireless networks; streaming of audio, video, and audiovisual material on the internet; streaming of audio and video content tethered downloads via the internet, other computer networks, wireless networks and electronic communication networks; providing online chat rooms; providing access to online forums for discussions and transmission of messages, audio files, and video files among users.

Class 41

(4) Entertainment services, namely, provision of online games, computer games, online virtual reality games, online augmented reality games, and tournaments, contests, and video game competitions in the fields of online games, computer games, online virtual reality games, online augmented reality games; games and gaming services, namely, providing online computer games; entertainment services namely, providing non-downloadable digital collectibles, represented by non-fungible tokens via a blockchain network featuring footage, videos, data, statistics, records, images, art, visual effects, photography, graphics, and virtual experiences; production, distribution, display and storage of digital collectibles in the nature of interactive media, video, photography, music, statistics, data, graphics, or visual effects, represented by non-fungible tokens via a blockchain network; entertainment services, namely, providing an online virtual environment for trading virtual cards and tokens; providing contests, games and challenges for users to participate in with prizes and rewards in the nature of digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events via an interactive website; providing online electronic game software and video game software; providing entertainment news and information relating to electronic games, video gaming, and esports.

Class 42

(5) Non-downloadable computer programs for blockchain electronic data storage; cloud computing provider services for general storage of electronic data; server hosting; design, development and implementation of software; computer programming services; design and development of game software; providing non-downloadable game software; non-downloadable cloud software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency, and cryptocurrency; non-downloadable cloud software for viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable cloud software for processing

transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; providing temporary use of non-downloadable cloud software for accessing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable cloud software for downloading software, data, and image files; non-downloadable cloud software for managing digital and virtual currency; non-downloadable cloud software for managing digital assets; non-downloadable cloud software for managing non-fungible tokens (NFTs); non-downloadable cloud software for use as a digital wallet; software as a service (SaaS) services featuring software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency, cryptocurrency; software as a service (SaaS) services featuring software for use in electronically managing digital currency, virtual currency and cryptocurrency payment and exchange transactions; software as a service (SaaS) services featuring software for viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for processing transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for providing access to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for downloading software, data, and image files; software as a service (SaaS) services featuring software for managing digital and virtual currency; software as a service (SaaS) services featuring software for managing digital assets; software as a service (SaaS) services featuring software for managing non-fungible tokens (NFTs); software as a service (SaaS) services featuring software for use as a digital wallet; platform as a service (PaaS) services featuring software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency and cryptocurrency; platform as a service (PaaS) services featuring software for use in electronically managing digital currency, virtual currency and cryptocurrency payment and exchange transactions; platform as a service (PaaS) services featuring software for viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for processing transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for providing access to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for downloading software, data, and image files; platform as a service (PaaS) services featuring software for managing digital and virtual currency; platform as a service (PaaS) services featuring software for managing digital assets; platform as a service (PaaS) services featuring software for managing non-fungible tokens (NFTs); platform as a service (PaaS) services featuring software for use as a digital wallet; non-downloadable cryptocurrency wallets; providing an online marketplace for non-fungible tokens (NFTs) via a website; providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs) via a website; creation of online retail stores for others, namely providing online non-downloadable software that allows users to create hosted crypto collectible and blockchain-based non-fungible token stores via a website; providing technology that enables internet users to create, bookmark, annotate, and publicly share data via a website; providing online non-downloadable software which provides members with the ability to access multiple databases for the purpose of purchasing crypto collectible and blockchain-based non-fungible tokens via a members-only website;

application service provider (ASP) services featuring ecommerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; software as a service (SaaS) services featuring software for payment processing; temporary use of on-line non-downloadable computer software for use as a digital wallet; development of IT security software; design and development of computer networks; data mining; data security services, namely, data encryption services; development of computer software for data processing; design of information systems relating to finance; providing on-line non-downloadable computer software for enabling users to electronically create, store, send, receive, accept, exchange, and transmit digital assets and nonfungible tokens based on the blockchain technology; computer services, namely, providing technology information in the field of blockchain, non-fungible tokens, digital currency, cryptocurrency and digital assets; design, development, and implementation of software solutions for security of digital currency, digital assets, non-fungible tokens, digital collectibles, digital art, and blockchain and cryptocurrency transactions; providing non-downloadable software for managing digital collectibles, digital art, crypto-collectibles, and application tokens; providing online non-downloadable software for creating, minting, viewing, authenticating, buying, selling, listing, auctioning and trading non-fungible tokens (NFTs) via a website; providing temporary use of non-downloadable software for minting, viewing, auctioning, authenticating collecting, buying, selling and trading virtual items, digital collectibles, crypto collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, and digital art, and digital items in the nature of interactive media, images, videos, audio, three-dimensional art, photography, music, data, statistics, graphics, and visual effects; platform as a service (PAAS) featuring computer software platforms for individuals and organizations to create, mint, upload and sell digital assets and non-fungible tokens; development, design, operation, administration, display and storage of digital collectibles, represented by non-fungible tokens via a blockchain network; providing temporary use of on-line non-downloadable software to enable consumers and businesses to manage, use and transfer digital assets, virtual currency, cryptocurrency and crypto-collectibles authenticated by nonfungible tokens (NFTs) and application tokens using distributed ledger technology; providing temporary use of on-line non-downloadable software for use in accessing, reading, tracking, managing, and using blockchain technology; software as a service (SaaS) featuring software for the management, use and transfer of digital assets, crypto-collectibles, digital collectibles, non-fungible tokens, and application tokens; providing online, non-downloadable computer software for the creation, storage, display, register, purchase, sale, transfer and trade of digital collectibles and digital works, namely images, photographs, art, videos and audio recordings represented by non-fungible tokens via a blockchain network; non-downloadable computer software featuring digital collectibles, comprising interactive media, images, videos, audio, three-dimensional art, digital art, photography, music, data, statistics, graphics, and visual effects, represented by non-fungible cryptographic tokens via a blockchain network; platform as a service (PaaS) services featuring computer software to allow users to initiate, process, execute, record, authenticate and verify cryptocurrency transactions on a blockchain; software as a service (SaaS) services featuring software for use in database management, database integration, word processing, and administration of computer networks; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; platform as a service (PaaS) services featuring computer software platforms for use in database management, database integration, and administration of computer networks; platform as a service (PaaS) services featuring computer software to allow users to perform electronic business transactions via a global computer network; platform as a service (PaaS) services featuring computer software platforms for electronic messaging and transmission of text, graphics and data; platform as a service (PaaS) featuring computer software for creating virtual communities and transmission of information;

providing platform as a service featuring electronic financial platform software for facilitating, managing, monitoring, validating, verifying, and tracking financial transactions in the field of virtual currency, cryptocurrency, and digital currency; providing temporary use of non-downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for facilitating, accessing, managing, monitoring, validating, verifying, transferring assets and information for use with blockchain technology; providing temporary use of non-downloadable software for use as a database with blockchain technology; providing online non-downloadable computer software for data authentication via blockchain and for purchasing, selling, storing, managing, authenticating, and sharing nonfungible tokens, and displaying and storing digital assets and nonfungible tokens via a website; computer services, namely, providing non-downloadable software for mining cryptocurrencies; providing temporary use of non-downloadable software that uses distributed ledger technology for use in connection with online software applications, namely software for managing electronic payment transactions using distributed ledger technology (DLT); application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining software applications, software, websites and databases on a global computer network for others in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, non-fungible tokens, digital collectibles, and digital assets; computer services, namely, data encryption, data decryption, data conversion, data coding services in the nature of computer programming, and data security services in the nature of design and development of data security systems; platform as a service (PAAS) featuring computer software platforms for providing design, testing, deployment, and management of blockchain systems; platform as a service (PAAS) featuring computer software platforms for the deployment, transfer, and management of fiat currency and cryptocurrency; design, development, and implementation of software for hierarchical deterministic multisignature (HDM) wallets and third party verification services for blockchain and cryptocurrency transactions; providing technology that enables users to engage in cryptocurrency mining and verification services for cryptocurrency via a website; consultation services, namely, software development consulting in the field of blockchain technology and cryptocurrency; computer services, namely, creating an online community for enthusiasts to discuss and trade digital collectibles; providing online, non-downloadable virtual goods, namely, online non-downloadable computer programs for the creation and trade of digital collectibles; providing temporary use of non-downloadable computer software for creating an authenticated digital non-fungible token and an authenticated replica thereof; providing temporary use of non-downloadable software to serve as an exchange with blockchain technology, namely software for exchanging blockchain assets; NFT minting services, namely providing online non-downloadable computer software for minting non-fungible tokens [NFTs]; providing online non-downloadable computer software for minting, creating, storing, and providing user authentication services for non-fungible tokens and digital assets using blockchain technology.

Class 45

(6) Online social networking services; providing legal information on the development of privacy, security, non-fungible tokens, digital collectibles, crypto-collectibles, blockchain and distributed ledger technologies, and data governance law via a website.

Computer hardware; downloadable software for use in electronically trading, storing, sending, receiving, accepting, buying, selling, accessing, and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; downloadable software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, virtual currency and cryptocurrency; downloadable software for use in electronically managing digital currency, virtual currency, and cryptocurrency payment and exchange transactions; downloadable software for viewing crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for processing transactions related to crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for providing access to crypto-collectibles, non-fungible tokens and digital application tokens; downloadable software for downloading software, data, and image files from the internet; downloadable software for managing digital and virtual currency; downloadable software for use in managing portfolios of digital assets; downloadable software for managing non-fungible tokens (NFTs); downloadable software for use as a digital wallet; downloadable cryptocurrency wallets; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; downloadable payment processing software; downloadable ecommerce software to allow users to perform electronic transactions; downloadable software that connects to electronic wallets enabling users to initiate, process and execute transactions; downloadable software in the nature of a mobile application for providing access to crypto-collectibles, application tokens and nonfungible tokens; downloadable software in the nature of a mobile application for minting and selling nonfungible tokens, crypto-collectibles, digital collectibles, digital application tokens, and non-fungible assets; downloadable software in the nature of a mobile application, namely, software for providing access to an online marketplace for digital and physical collectibles, crypto-collectibles and non-fungible tokens; downloadable software to enable consumers and businesses to electronically manage, use and transfer digital assets, virtual currency, cryptocurrency, crypto-collectibles, non-fungible tokens, and digital application tokens; downloadable software that enables users to electronically hold and store cryptocurrency, virtual currency, digital assets, crypto-collectibles, non-fungible tokens and digital application tokens via an electronic wallet; downloadable software to create and

manage electronic wallets; downloadable software for facilitating a cryptocurrency, digital asset, virtual currency, crypto-collectibles, non-fungible tokens and other application tokens transactions; namely downloadable computer software for facilitating blockchain-based financial transactions; non-fungible tokens (NFTs) used with blockchain technology featuring collectible digital items in the nature of interactive media, images, videos, audio, three-dimensional art, digital art, photography, music, data, statistics, graphics, and visual effects; downloadable digital media, digital works and digital collectibles represented by non-fungible tokens via a blockchain network; downloadable digital media, namely, non-fungible tokens used with blockchain technology featuring collectible digital items featuring players, games, footage, video highlights, data, statistics, records, visual effects and virtual experiences depicted in video, audio, graphics, and photography; downloadable computer software via a blockchain network to create, display, register, trade, purchase, sell and transfer digital collectibles and digital works, namely images, photographs, art, videos and audio recordings; downloadable software for in the form of web wallets for storing virtual currency, tokens, non-fungible token (NFT), photo cards, and multimedia files using blockchain technology; downloadable computer software for use as an electronic wallet; downloadable computer software for generating non-fungible tokens for use in virtual worlds; downloadable computer software for generating cryptographic keys for use in virtual worlds; digital media, namely, non-fungible tokens (NFTs) used with blockchain technology featuring audio recordings, videos, text files, and graphics; downloadable and recorded computer communications software to allow customers to access bank account information and transact business; computer software for use of digital collectibles in on-line contests, games and challenges; downloadable game software; recorded computer software in the form of web wallets for storing virtual currency, tokens, non-fungible token (NFT) and multimedia files using blockchain technology; downloadable multimedia files containing text, video, audio and images authenticated non-fungible tokens; downloadable multimedia files containing text relating to games, sports, art, entertainment and general consumer merchandise authenticated by non-fungible tokens; downloadable multimedia files containing video relating to games, sports, art, entertainment and general consumer merchandise authenticated by non-fungible tokens; downloadable audio and video recordings featuring content authenticated by non-fungible tokens; video recordings, namely downloadable digital content being videos; downloadable virtual goods, namely, non-fungible tokens (NFTs); downloadable digital media, namely, digital collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, and digital artworks; downloadable software for processing digital files, namely digital art, videos, photographs, music, statistics, graphics, and visual effects; all of the foregoing only in the field of crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens, and cryptocurrencies.

Services

Class 35

(1) Retail sale of digital art and non fungible tokens (NFTs); business management services; providing an online marketplace for buyers and sellers of goods and services; advertising the goods and services of others, direct marketing of the goods and services of others, and promoting the goods and services of others over the Internet; providing an online marketplace for non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of crypto collectibles, digital collectibles, digital assets and media content; providing an online marketplace for buyers and sellers of blockchain-based non-fungible assets; operating an on-line marketplace featuring crypto collectibles and blockchain-based non-fungible assets; online auction services; providing an online retail store featuring digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of

music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events, authenticated by non-fungible tokens (NFTs); providing an online retail store featuring digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events, using crypto currencies and virtual currencies; operating online marketplaces for sellers and buyers of goods and services; providing an online marketplace for buyers and sellers of goods and services to create, post, mint, promote, and exchange crypto collectibles, digital collectives, digital art, non-fungible tokens and assets, digital assets and other application tokens; online retail store and marketplace services featuring digital collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, virtual currency, digital art, and digital items in the nature of interactive media, images, videos, audio, three-dimensional art, photography, music, data, statistics, graphics, and visual effects; operating an online marketplace for displaying, registering, purchasing, selling, trading, listing, and transferring digital assets, digital works, and digital collectibles represented by non-fungible tokens via a blockchain network; providing online registration services, namely maintaining a register of participants in online communities and online forums via a global computer network; providing a searchable online advertising guide featuring the goods and services of others; providing information regarding third party consumer products selected by users for the commercial purpose of assisting with the selection of those products to meet the consumer's needs; providing an on-line commercial information directory on the internet; compilation and systemization of data into databases; providing pricing information about the goods and services of others via the global computer network; e-commerce services, namely, providing information about third party consumer products selected by users via global computer networks for sales purposes for others; database management services; connecting sellers with buyers of third-party goods and services through a website; online registry services, namely, maintaining and recording the ownership of art, antiques, fossils, archeological artifacts, historic artifacts, cultural artifacts, and other collectibles.

Class 36

(2) Financial services in the nature of payment processing services; payment processing services, namely processing of electronic wallet payments; digital currency electronic wallet services; cryptocurrency trading and exchange services; electronic fund transfer; electronic transfer of virtual currency, tokens, electronic payments, and digital assets; financial services, namely, financial exchange of virtual currencies, digital currency, cryptocurrency and digital assets; issuance of digital tokens; electronic commerce payment services; providing financial information in the fields of cryptocurrency, digital currency, virtual currency, crypto tokens, non-fungible tokens, non-fungible assets and crypto-collectibles; financial services, namely, non-fungible token trading; asset management services for digital assets in the nature of non-fungible tokens comprising art, antiques, videos, music, tickets, digital content, historic artifacts, cultural artifacts, and other collectibles; brokerage services for art, antiques, videos, music, tickets, digital content, historic artifacts, cultural artifacts, and crypto-collectibles; all of the foregoing only in the field of crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens, and cryptocurrencies.

Class 38

(3) Telecommunication services, namely providing multiple user access to a computer network; data streaming services, namely streaming of audio and video content via the internet, other computer networks, wireless networks and electronic communication networks; electronic data transmission, namely, transmission of voice, images, graphics, audio, video, and multimedia by

means of wired and wireless networks; streaming of audio, video, and audiovisual material on the internet; streaming of audio and video content tethered downloads via the internet, other computer networks, wireless networks and electronic communication networks; providing online chat rooms; providing access to online forums for discussions and transmission of messages, audio files, and video files among users.

Class 41

(4) Entertainment services, namely, provision of online games, computer games, online virtual reality games, online augmented reality games, and tournaments, contests, and video game competitions in the fields of online games, computer games, online virtual reality games, online augmented reality games; games and gaming services, namely, providing online computer games; entertainment services namely, providing non-downloadable digital collectibles, represented by non-fungible tokens via a blockchain network featuring footage, videos, data, statistics, records, images, art, visual effects, photography, graphics, and virtual experiences; production, distribution, display and storage of digital collectibles in the nature of interactive media, video, photography, music, statistics, data, graphics, or visual effects, represented by non-fungible tokens via a blockchain network; entertainment services, namely, providing an online virtual environment for trading virtual cards and tokens; providing contests, games and challenges for users to participate in with prizes and rewards in the nature of digital collectibles in the nature of downloadable audio files, video files, image files, audiovisual files, and text files in the fields of music, art, photography, graphics, visual effects, film, dance, comedy, sports, gaming, entertainment, health, fitness, fashion, education, business, statistics, and virtual events via an interactive website; providing online electronic game software and video game software; providing entertainment news and information relating to electronic games, video gaming, and esports.

Class 42

(5) Non-downloadable computer programs for blockchain electronic data storage; cloud computing provider services for general storage of electronic data; server hosting; design, development and implementation of software; computer programming services; design and development of game software; providing non-downloadable game software; non-downloadable cloud software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency, and cryptocurrency; non-downloadable cloud software for viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable cloud software for processing transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; providing temporary use of non-downloadable cloud software for accessing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; non-downloadable cloud software for downloading software, data, and image files; non-downloadable cloud software for managing digital and virtual currency; non-downloadable cloud software for managing digital assets; non-downloadable cloud software for managing non-fungible tokens (NFTs); non-downloadable cloud software for use as a digital wallet; software as a service (SaaS) services featuring software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency, cryptocurrency; software as a service (SaaS) services featuring software for use in electronically managing digital currency, virtual currency and cryptocurrency payment and exchange transactions; software as a service (SaaS) services featuring software for

viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for processing transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for providing access to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; software as a service (SaaS) services featuring software for downloading software, data, and image files; software as a service (SaaS) services featuring software for managing digital and virtual currency; software as a service (SaaS) services featuring software for managing digital assets; software as a service (SaaS) services featuring software for managing non-fungible tokens (NFTs); software as a service (SaaS) services featuring software for use as a digital wallet; platform as a service (PaaS) services featuring software for use in electronically trading, storing, sending, receiving, buying, selling, accessing, accepting and transmitting crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for use in electronically trading, storing, sending, receiving, accepting and transmitting digital currency, virtual currency and cryptocurrency; platform as a service (PaaS) services featuring software for use in electronically managing digital currency, virtual currency and cryptocurrency payment and exchange transactions; platform as a service (PaaS) services featuring software for viewing crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for processing transactions related to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for providing access to crypto-collectibles, digital collectibles, non-fungible tokens and digital application tokens; platform as a service (PaaS) services featuring software for downloading software, data, and image files; platform as a service (PaaS) services featuring software for managing digital and virtual currency; platform as a service (PaaS) services featuring software for managing digital assets; platform as a service (PaaS) services featuring software for managing non-fungible tokens (NFTs); platform as a service (PaaS) services featuring software for use as a digital wallet; non-downloadable cryptocurrency wallets; providing an online marketplace for non-fungible tokens (NFTs) via a website; providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs) via a website; creation of online retail stores for others, namely providing online non-downloadable software that allows users to create hosted crypto collectible and blockchain-based non-fungible token stores via a website; providing technology that enables internet users to create, bookmark, annotate, and publicly share data via a website; providing online non-downloadable software which provides members with the ability to access multiple databases for the purpose of purchasing crypto collectible and blockchain-based non-fungible tokens via a members-only website; application service provider (ASP) services featuring ecommerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; software as a service (SaaS) services featuring software for payment processing; temporary use of on-line non-downloadable computer software for use as a digital wallet; development of IT security software; design and development of computer networks; data mining; data security services, namely, data encryption services; development of computer software for data processing; design of information systems relating to finance; providing on-line non-downloadable computer software for enabling users to electronically create, store, send, receive, accept, exchange, and transmit digital assets and nonfungible tokens based on the blockchain technology; computer services, namely, providing technology information in the field of blockchain, non-fungible tokens, digital currency, cryptocurrency and digital assets; design, development, and implementation of software solutions for security of digital currency, digital assets, non-fungible tokens, digital collectibles, digital art, and blockchain and cryptocurrency transactions; providing non-downloadable software for managing digital collectibles, digital art, crypto-collectibles, and application tokens; providing online

non-downloadable software for creating, minting, viewing, authenticating, buying, selling, listing, auctioning and trading non-fungible tokens (NFTs) via a website; providing temporary use of non-downloadable software for minting, viewing, auctioning, authenticating collecting, buying, selling and trading virtual items, digital collectibles, crypto collectibles, digital tokens, non-fungible tokens (NFTs), cryptocurrencies, and digital art, and digital items in the nature of interactive media, images, videos, audio, three-dimensional art, photography, music, data, statistics, graphics, and visual effects; platform as a service (PAAS) featuring computer software platforms for individuals and organizations to create, mint, upload and sell digital assets and non-fungible tokens; development, design, operation, administration, display and storage of digital collectibles, represented by non-fungible tokens via a blockchain network; providing temporary use of on-line non-downloadable software to enable consumers and businesses to manage, use and transfer digital assets, virtual currency, cryptocurrency and crypto-collectibles authenticated by nonfungible tokens (NFTs) and application tokens using distributed ledger technology; providing temporary use of on-line non-downloadable software for use in accessing, reading, tracking, managing, and using blockchain technology; software as a service (SaaS) featuring software for the management, use and transfer of digital assets, crypto-collectibles, digital collectibles, non-fungible tokens, and application tokens; providing online, non-downloadable computer software for the creation, storage, display, register, purchase, sale, transfer and trade of digital collectibles and digital works, namely images, photographs, art, videos and audio recordings represented by non-fungible tokens via a blockchain network; non-downloadable computer software featuring digital collectibles, comprising interactive media, images, videos, audio, three-dimensional art, digital art, photography, music, data, statistics, graphics, and visual effects, represented by non-fungible cryptographic tokens via a blockchain network; platform as a service (PaaS) services featuring computer software to allow users to initiate, process, execute, record, authenticate and verify cryptocurrency transactions on a blockchain; software as a service (SaaS) services featuring software for use in database management, database integration, word processing, and administration of computer networks; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; platform as a service (PaaS) services featuring computer software platforms for use in database management, database integration, and administration of computer networks; platform as a service (PaaS) services featuring computer software to allow users to perform electronic business transactions via a global computer network; platform as a service (PaaS) services featuring computer software platforms for electronic messaging and transmission of text, graphics and data; platform as a service (PaaS) featuring computer software for creating virtual communities and transmission of information; providing platform as a service featuring electronic financial platform software for facilitating, managing, monitoring, validating, verifying, and tracking financial transactions in the field of virtual currency, cryptocurrency, and digital currency; providing temporary use of non-downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for facilitating, accessing, managing, monitoring, validating, verifying, transferring assets and information for use with blockchain technology; providing temporary use of non-downloadable software for use as a database with blockchain technology; providing online non-downloadable computer software for data authentication via blockchain and for purchasing, selling, storing, managing, authenticating, and sharing nonfungible tokens, and displaying and storing digital assets and nonfungible tokens via a website; computer services, namely, providing non-downloadable software for mining cryptocurrencies; providing temporary use of non-downloadable software that uses distributed ledger technology for use in connection with online software applications, namely software for managing electronic payment transactions using distributed

ledger technology (DLT); application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining software applications, software, websites and databases on a global computer network for others in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, non-fungible tokens, digital collectibles, and digital assets; computer services, namely, data encryption, data decryption, data conversion, data coding services in the nature of computer programming, and data security services in the nature of design and development of data security systems; platform as a service (PAAS) featuring computer software platforms for providing design, testing, deployment, and management of blockchain systems; platform as a service (PAAS) featuring computer software platforms for the deployment, transfer, and management of fiat currency and cryptocurrency; design, development, and implementation of software for hierarchical deterministic multisignature (HDM) wallets and third party verification services for blockchain and cryptocurrency transactions; providing technology that enables users to engage in cryptocurrency mining and verification services for cryptocurrency via a website; consultation services, namely, software development consulting in the field of blockchain technology and cryptocurrency; computer services, namely, creating an online community for enthusiasts to discuss and trade digital collectibles; providing online, non-downloadable virtual goods, namely, online non-downloadable computer programs for the creation and trade of digital collectibles; providing temporary use of non-downloadable computer software for creating an authenticated digital non-fungible token and an authenticated replica thereof; providing temporary use of non-downloadable software to serve as an exchange with blockchain technology, namely software for exchanging blockchain assets; NFT minting services, namely providing online non-downloadable computer software for minting non-fungible tokens [NFTs]; providing online non-downloadable computer software for minting, creating, storing, and providing user authentication services for non-fungible tokens and digital assets using blockchain technology.

Class 45

(6) Online social networking services; providing legal information on the development of privacy, security, non-fungible tokens, digital collectibles, crypto-collectibles, blockchain and distributed ledger technologies, and data governance law via a website.

Goods

Class 07

(1) Injection molding machines; hot runner systems for injection molding machines, parts and fittings thereof; manifolds for use in injection molding machines, parts and fittings thereof.

Class 09

(2) Control system apparatus comprised of computers and computer firmware with operator interface used for the purpose of controlling temperatures, pressures and mechanical operation of components in hot runner systems for use in injection molding machines.

Services

Class 37

(1) Refurbishment, and maintenance services in relation to hot runner systems for injection molding machines, parts and fittings thereof and manifolds for use in injection molding machines.

Class 42

(2) Engineering services, namely consultancy services relating to the operation of control system apparatuses for the purpose of controlling temperatures, pressures and mechanical operation of components in hot runners systems for use in injection molding machines.

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) blue and green is/are claimed as a feature of the mark. The mark consists of a design of two boxes to the left of letters "GCube". The "G" is green and "Cube" is blue. The box design consists of small box inside a larger box, separated by a white outline. The lower left side of the small box is light green, the top of the small box transitions left to right from light green to medium green, and the lower right side of the small box is dark green. The larger box is made up of six quadrilateral sections. The first lower left quadrilateral is medium blue; moving clockwise, the second quadrilateral transitions bottom to top from light blue to medium blue; the third quadrilateral transitions from left to right from light blue to slightly darker blue; the fourth quadrilateral transitions left to right from medium blue to light blue; the fifth quadrilateral transitions from top to bottom light blue to dark blue; and the sixth quadrilateral transitions from dark blue along the outer edge to medium blue towards the edge of the small box.

Services

Class 36

Insurance underwriting for all types of insurance; guarantee insurance underwriting; financial investment services, namely, administering the issuance, underwriting and distribution of securities and securities underwriting.

Goods

Class 06

(1) Metal hardware nuts, namely metal inserts for composite material and metal for use in satellite technology, metal nuts and metal nuts for insertion; Mechanical fastening connecting elements of metal to be used in satellite technology; Mechanical fastening connecting elements of metal to be used in the rocket and space industries.

Class 07

(2) Machinery, namely, solar-powered electricity generators and motors, gears and drives for orientating solar panels; Machinery for the construction, positioning, control, protection, and power supply of satellite platforms and space stations; Machinery for rotating solar modules (solar array drive mechanisms); Machinery, namely solar power generation by satellites, namely electrical subsystems and power distribution units for power distribution in satellites, and slip rings for transmitting power in satellites; Machinery, namely antenna alignment mechanisms and antenna rotation drives for satellites; Industrial robots for machines and machine tools for the space industry; Machines and machine tools for manufacturing space products; Unmanned transportation conveyors being cargo handling machines and machine tools for transporting loads adapted to the space industry, namely power-operated lift used to transport and place portable storage metal containers for the space and aerospace industry, namely climate-controlled shipping containers for air and ground transportation of spacecrafts; Machine tools for testing space products.

Class 09

(3) Computers for managing control devices for aircrafts, namely, on-board spacecraft navigation receivers for precise orbit determination, precise point positioning, velocity and time for orbit raising and station keeping of spacecraft systems, on board computers, interface units, and mass memories for command and data handling for telecom, navigation, science and earth observation spacecrafts, guidance and control computers for launch vehicles, custom payload electronics and computers for launch vehicles and payloads, navigation signal and chirp generators, mission receivers, and transmitted signal equalizers for spacecraft; machines, apparatus and instruments embedded with computer software for testing and visualization of space products namely aircrafts

and space vehicles in the nature of graphical representation and analysis of satellites; electric and electronic control apparatus embedded with computer software and applications for machines or motors and engines namely aircraft and space navigation systems; control apparatus for space vehicles and launch vehicles namely autonomous navigation systems for aircrafts and space vehicles; Aircraft, space vehicles and satellite antenna system; Control apparatus for satellites; Machines, namely, robotic inspection tools for space exploration in the area of testing equipment for measuring the temperature, pressure, position or form of work pieces, for testing spacecraft flight hardware and components and ground support trolleys for spacecraft; Machines namely avionic ground support test equipment, for, fuel quantity testers, fuel quantity sensors, air data testers, air data sensors, turbine temperature testers, turbine temperature sensors, pressure testers and cable tensiometers in the area testing spacecraft flight hardware and components and ground support trolleys for spacecraft namely, robotic inspection tools for space exploration; Machines, apparatus and instruments embedded with computer software for monitoring, controlling, and energy optimizing of electric motors in industrial machines sold as a component of electronic controllers and electronic motor drives; Computers for managing control devices for aircraft; Electronic controllers for flight control systems ; Computers for managing control devices for space vehicles and aircraft, namely solar array drive electronics, antenna pointing electronics, thruster pointing mechanism electronics, and central power supply units.

Class 12

(4) Airplanes and structural parts for airplanes; Space vehicles and structural parts for space vehicles; Aerodynamic fairings for payload vehicles; Civilian drones and structural components.

Class 13

(5) Ballistic Weapons and rockets (projectiles).

Class 17

(6) Caulking materials and insulation materials for temperature or electrical insulation and building insulation, namely, insulating slabs and insulating sheathing spacecrafts and medical devices.

Class 20

(7) Non-metal fastener or connector, nuts, bolts, dowels to be used in satellite technology; Non-metal fastener or connector, nuts, bolts, dowels to be used in the rocket and space industries.

Services**Class 37**

(1) Maintenance, repair and overhaul of aircraft; Installation, maintenance and repair of aircraft engines.

Class 38

(2) Providing access to database for the Transmission and reception of data via telecommunication; Providing virtual data center access for data transfer via telecommunication.

Class 40

(3) Material processing, namely metal and aluminum processing.

Class 42

(4) Software development.

Class 07

(1) Machines, namely, boring machines for metalworking, garbage disposal machines, knife grinding machines, excavating machines, waste-crushing machines for recycling batteries, cord making machines, kneading machines for industrial purposes, sintering machines for chemical processing, bending machines for metalworking, cutting machines for metalworking, drilling machines for metalworking, metal drawing machines, blowing machines for the compression, sucking and carrying of grain, printing machines for use on sheet metal, electric wood saw machines, machines for manufacturing semiconductors, power machines for mowing, packaging machines for food, textile bonding machines, metalworking machines for producing metal parts of batteries and metal parts of electronic components for power electronics and metal casings and 3D printing machines, vacuum packing machines, key making machines, pressure washing machines, milling machines, packaging machines, dishwashing machines, kitchen machines, namely, electric standing mixers, shearing machines for animals, cigarette machines for industrial purposes, corn and grain husking machines, yarn spinning machines, meat processing machines, cereal processing machines, knitting machines, blending machines for chemical processing, metal forming machines, saw machines, milling machines for the treatment of ceramics and metal, galvanizing machines, washing machines for clothes, Machines for the production of automobile parts, machines for the production and processing of floor coverings, wallpaper, paper webs, films and technical textiles, filling machines and laminating machines for industrial use; machine tools, namely power operated metalworking machine tools, namely, drilling tools, power operated metalworking machine tools, namely, boring tools and machine tools for forming, riveting, swaging, and flaring of metal and plastics; power-operated tools, namely grinders, buffers, drill hammers and machine tools for abrasive jet cutting and machining; aeroplane motors, airplane motors, boat motors, direct current motors, electric motors for machines, electric starter motors, elevator motors, engines and motors for the generation of electric power, linear motors, marine motors, motors and engines used in industrial applications, power tool motors, servo motors, winch motors; machine coupling and transmission components, other than for land vehicles; agricultural

implements, other than hand-operated hand tools, namely, coulters, hay balers, incorporators, rollers, corn huskers, fertilizer distributors, manure spreaders, broadcast seeders, hay rakes, harvesters, reapers, mowers, disc harrows, plows and broadforks; wind turbines; wind mills, namely wind-powered electricity generators; wind energy generators; electric generators using solar cells; electric power supplies in the nature of generators, namely, emergency power generators, electricity generators and steam operated power generators.

Class 09

(2) Electric dry cells and rechargeable lithium-ion batteries, rechargeable nickel metal hydride batteries, rechargeable nickel-cadmium batteries, unchargeable general purpose batteries, vape pen batteries, watch batteries, wireless headset batteries, accumulators being electrical storage batteries, automotive batteries, batteries and battery chargers for mobile telephones, batteries and battery chargers for notebook computers, batteries for augmented reality glasses, batteries for electric bicycles, batteries for electric boats, batteries for electric watercraft, batteries for electronic cigarettes, batteries for off road vehicles, batteries for on road vehicles, camera batteries, coin batteries for consumer electronic devices, electric batteries for cameras, electric batteries for e-book readers, electric batteries for personal digital assistants, electric batteries for portable computers, electric batteries for smartphones, electric batteries for tablet computers, electric batteries for watches, hearing aid batteries, lead acid batteries, rechargeable alkaline batteries, rechargeable batteries for portable computers, rechargeable batteries for electric vehicles, rechargeable batteries for mobile phones, rechargeable batteries for smart phones, rechargeable batteries for tablet computers, rechargeable lithium batteries, rechargeable sodium ion batteries, all-solid-state batteries; cell and battery chargers, namely, battery chargers for use with vehicle batteries, wallboxes, battery chargers for use with mobile phones, battery chargers for use with power-operated hand tools, chargers for sodium ion batteries, chargers for all-solid-state batteries, chargers for battery energy storage systems, automotive battery chargers, battery chargers for notebook computers, battery chargers for e-book readers, battery chargers for personal digital assistants, camera battery chargers, cellular phone battery charger for use in vehicles, chargers for alkaline batteries, chargers for C-cell batteries, chargers for electric batteries for electric vehicles, chargers for general purpose batteries, electric vehicle chargers, hearing aid battery chargers, induction chargers for electric vehicles, lead-acid battery chargers, lithium-ion battery chargers, portable battery chargers for use with smart phones, smart chargers for electric vehicles, wireless battery chargers for computers and notebooks, wireless chargers for smartphones, wireless chargers for smartwatches, battery chargers for Battery Energy Storage Systems (BESS), battery chargers for built-in Battery Energy Storage System (BESS) applications, battery chargers for remote charging systems, battery chargers for contactless wireless charging, battery chargers with integrated intelligent charging controls, battery chargers for use with PCs, battery chargers for use with electronic cigarettes and battery chargers for use with computers; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments, namely, voltmeters, ammeters, power meters for metering and monitoring electric power consumption; Electrical power converters for battery energy storage systems, grid stabilization, and load balancing apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity, namely, inverters, power inverters, inverters for power supply, photovoltaic inverters, rectifiers, current rectifiers, power switches, light switches, electric switches, electric transformers, electric voltage transformers, electric cables, in particular electric cables for wallbox charging stations, sockets, in particular sockets for wallbox charging stations, resistors for distributing or controlling electric current and electrical gang boxes; electric cables for the transmission of sounds and images, optical fibers for

the transmission of sounds and images, personal headphones for use with sound transmitting systems, sound amplifiers, sound bars, sound masking loudspeakers, sound mixers, cameras with linear image sensors, fibre optic light and image conduits, image scanners, videophones, computer hardware for data processing, data cables, data loggers, data synchronization cables, data transmission cables, usb data cables; recorded software for controlling and monitoring the charging and discharging of batteries, and recorded software for monitoring the state of charge of batteries, battery failures, and the battery lifetime; downloadable software for controlling and monitoring the charging and discharging of batteries, and downloadable software for monitoring the state of charge of batteries, battery failures, and the battery lifetime; cash registers, calculating devices, namely, calculators and calculating machines; computers and computer peripherals, namely computer mice, computer keyboards, headsets with microphone, microphones, computer printers, webcams, computer speakers, computer scanners, computer disc drives; photovoltaic apparatus for converting solar radiation to electrical energy, namely, photovoltaic solar modules for production of electricity, photovoltaic cells also including a solar thermal collector sold as a unit and photovoltaic solar modules for production of electricity; recorded application software for cloud computing services, namely application software for controlling and monitoring the charging and discharging of batteries, monitoring the state of charge of batteries, battery failures and the battery lifetime, and securing the battery data in a cloud memory, downloadable application software for cloud computing services, namely application software for controlling and monitoring the charging and discharging of batteries, monitoring the state of charge of batteries, battery failures and the battery lifetime, and securing the battery data in a cloud memory; downloadable electronic publications in the nature of downloadable computer software manuals for software for controlling and monitoring the charging and discharging of batteries, and software for monitoring the state of charge of batteries, battery failures and the battery lifetime; computer hardware for data processing.

Services

Class 35

(1) Holding company services, namely, business management services and business administration services for subsidiaries and affiliates; commercial management services, namely, management of computerized databases and in particular management of computerized databases including data about the power use of electric devices and the status of batteries; commercial management services, namely, commercial management of stored energy and its sale to third parties; data processing in the field of electrical energy information regarding the consumption of electrical energy; data processing in the field of energy trading volumes regarding the amount of energy traded; systematization, management and processing of battery lifecycle data; processing and systematization of battery data in order to analyze the performance of the battery and to indicate battery maintenance; systematization, management and processing of battery data in order to gain insights for the improvement of the batteries; AI-based systematization, management and processing of battery cycle data and battery production data in order to gain insights for the improvement of the battery product and the battery production process; commercial intermediary services in the framework of bringing prospective private investors in contact with entrepreneurs looking for financing.

Class 36

(2) Holding company services, namely providing investment capital; preparation of financial reports; financial management for holding companies; services provided by investment consultants, namely, investment consultation; capital investment; investment services in the nature of providing venture capital, development capital, private equity and investment funding in

particular for companies being active in the field of new technologies; financial analysis services in relation to investment; capital investment for third parties; investment portfolio management; drafting of investment savings plans; arranging of financial investments; investment portfolio management; development of investment portfolios as financial affairs.

Class 37

(3) Building construction, construction of energy producing and energy storing facilities, construction of recycling facilities, construction of laboratories and research facilities, construction of warehouses; installation of power generation equipment and electrical energy storing equipment; repair of machines, namely, boring machines for metalworking, garbage disposal machines, knife grinding machines, excavating machines, mineworking machines, cord making machines, kneading machines for industrial purposes, sintering machines for chemical processing, slotting machines, bending machines for metalworking, cutting machines for metalworking, drilling machines for metalworking, leather-working machines, metal drawing machines, blowing machines for the compression, sucking and carrying of grain, printing machines for use on sheet metal, electric wood saw machines, machines for manufacturing semiconductors, power machines for mowing, packaging machines for food, earth drilling machines, textile bonding machines, metalworking machines, namely, machining centers, industrial printing machines, vacuum packing machines, key making machines, sharpening machines, crushing machines for industrial purposes, machines for plastics working, pressure washing machines, milling machines, packaging machines, drilling machines, dishwashing machines, kitchen machines, namely, electric standing mixers, shearing machines for animals, cigarette machines for industrial purposes, corn and grain husking machines, yarn spinning machines, meat processing machines, cereal processing machines, knitting machines, blending machines for chemical processing, beverage processing machines, metal forming machines, saw machines, milling machines for the treatment of ceramics and metal, galvanizing machines, washing machines for clothes, Machines for the production of automobile parts, machines for the production and processing of floor coverings, wallpaper, paper webs, films and technical textiles, filling machines and laminating machines for industrial use, machine tools, namely power operated metalworking machine tools, namely, drilling tools, power operated metalworking machine tools, namely, boring tools and machine tools for forming, riveting, swaging, and flaring of metal and plastics, power-operated tools, namely grinders, buffers, drill hammers and machine tools for abrasive jet cutting and machining, agricultural implements, other than hand-operated hand tools, namely, coulters, hay balers, incorporators, rollers, corn huskers, fertilizer distributors, manure spreaders, broadcast seeders, hay rakes, harvesters, reapers, mowers, disc harrows, plows and broadforks, automatic distribution machines, namely machines for distribution of concrete, namely, concrete placing booms, mechanical spreaders and agricultural seed planting machines, wind energy generators, namely wind turbines, wind-powered electricity generators and offshore wind turbines, electric power supplies in the nature of generators, namely, emergency power generators, electricity generators and steam operated power generators, electric dry cells and batteries, cell and battery chargers, namely, battery chargers for use with vehicle batteries, battery chargers for use with mobile phones, battery chargers for use with power-operated hand tools, battery charge devices, battery chargers for use with PCs, battery chargers for use with electronic cigarettes and battery chargers for use with computers, voltmeters, ammeters, power meters for metering and monitoring electric power consumption, inverters, power inverters, inverters for power supply, photovoltaic inverters, rectifiers, current rectifiers, power switches, light switches, electric switches, electric transformers, electric voltage transformers, electric cables, resistors for distributing or controlling electric current and electrical gang boxes, photovoltaic apparatus for converting solar radiation to electrical energy, namely, photovoltaic solar modules for production of electricity, photovoltaic cells

also including a solar thermal collector sold as a unit and photovoltaic solar modules for production of electricity and data processing systems comprised of data processing equipment; charging of electric vehicles and hybrid vehicles; computer and telephone battery recharge services; battery replacement services, namely, battery charging services for motor vehicles, installation, maintenance and repair of batteries and battery regeneration services; installation and maintenance of energy production installations.

Class 39

(4) Transport, namely, freight transportation by air, by boat, by rail or by truck regarding batteries and devices for storing electrical energy; distribution of electrical energy to residential and commercial users; energy storage services, namely technical operation of energy storage platforms for third parties for physical storage and subsequent distribution of energy.

Class 40

(5) Treatment of materials, namely sintering of metal parts for others and sintering of ceramic parts for others, custom 3D printing for others, vapour depositing on metal surfaces, sand blast treatment, processing of metal surfaces by precision grinding and abrasive polishing, treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes, treatment of metal parts to prevent corrosion, laminating of textiles, coating of optical lenses, stainless steel brushing services in the nature of surface finishing of metal articles, coating of metal surfaces using chemical vapour deposition processes, metal treating, electrochemical treatment of metal, galvanization, enameling of metals, millworking, zinc plating, annealing, engraving, metal hardening, soldering, hard chromium plating of metal surfaces, woodworking, cold forming of metal, ceramic processing, laser scribing services, laser engraving, metal brazing, magnetization, treatment of materials for the manufacture of ceramic goods, treatment of materials using chemicals, treating, namely, tempering of metal, treating, namely, shaping of metal, treating, namely, stamping of metal, treating, namely, forging of metal, treating, namely, embossing of metal, metal plating; metal finishing services, surface finishing of metals, metal pressing, metal stamping, metallurgical services in the nature of surface hardening treatment of metals, cutting of metal, paint mixing services, surface finishing of metal articles, optical glass grinding, powder coating of manufactured products, sawmill services, namely sawmill planning, sandblasting services, grinding, metal melting services, blacksmithing, steel cutting and welding services; recycling of trash and waste; air purification and water treatment; rental of batteries for electric cars, rental of batteries for electric bicycles, rental of batteries for electric motor scooters, rental of batteries for electric motorcycles, rental of batteries for electric boats, rental of batteries for laptops, rental of batteries for mobile phones, rental of batteries for computers, rental of batteries for drones; production of energy; production of electricity, in particular production of electrical energy from renewable sources; rental of electricity generators.

Class 41

(6) Training services in the field of sustainable energy, energy storage, energy savings, protection of the environment, and science, sustainable business models and circular economy, recycling, electricity production, safety on the job and environment mindfulness; organization and conducting of seminars, congresses and educational courses in the field of sustainable energy, energy storage, energy savings, protection of the environment, and science, sustainable business models and circular economy, recycling, electricity production, safety on the job and environment mindfulness.

Class 42

(7) Engineering services, namely, scientific research with respect to battery systems and energy supply systems; technological advisory services in the field of energy production and use; research

in the field of energy; scientific and technological services, namely, scientific research, analysis, testing in the field of power plants, batteries, energy storage devices, production of electrical energy, electrical energy, energy storage, energy savings, and recycling technology and design services relating thereto; industrial analysis and industrial research in the field of batteries, energy storage devices, physics, material sciences, power plants, energy storage, energy production, energy savings, and recycling technology and electricity; authentication in the field of batteries and energy storage devices and spare parts thereof and providing quality assurance in the field of batteries and energy storage devices; design and development of computers and software; consultancy services relating to energy efficiency; design and development of systems for regenerative energy production; cloud computing featuring software for controlling and monitoring the charging and discharging of batteries, and software for monitoring the state of charge of batteries, battery failures and the battery lifetime; cloud hosting in the nature of computer services, namely cloud hosting provider services; cloud-stored data protection services, namely, computer virus protection services; cloud storage services for electronic data relating to the status of batteries; consulting services in the field of cloud computing in the nature of cloud computer networks and cloud computing applications; hosting, namely, hosting computer software applications of others featuring software for controlling and monitoring the charging and discharging of batteries, and software for monitoring the state of charge of batteries, battery failures and the battery lifetime; software as a service (SAAS) services featuring software for controlling and monitoring the charging and discharging of batteries, and software for monitoring the state of charge of batteries, battery failures and the battery lifetime, and rental of software; engineering services in data processing technology, namely development and creation of computer programmes for data processing; information technology services, namely, computer technology consultancy services; development of batteries and energy storage devices.

Goods

Class 01

(1) Filtering media and materials of chemical substances and of unprocessed plastics for use in removing and separating particulates in ion exchangers; chemical preparations and materials for film, photography and printing; unprocessed plastics; adhesives for use in the automotive, trucking and trailer industries; growing media, fertilizers and chemicals for use in agriculture, horticulture and forestry; industrial detergents for use in manufacture and industry; chemical substances, chemical materials and chemical preparations for use in coating films and surface coatings and for use in industry; hydrogen, oxygen for industrial purposes, rare earths and liquid air; unprocessed artificial and synthetic resins; starches for use in manufacturing and industry; fillers for reinforcing membranes; chemical and organic compositions for use in the manufacture of food and beverages; hydrogen; catalysts, namely, biochemical catalysts, catalysts for use in the manufacture of industrial chemicals, oil cracking catalysts, fluid cracking catalysts, catalysts for use in control of hydrogen emissions, catalysts for use in fuel cells, catalysts for use in the manufacture of synthetics, rubbers and polymers

Class 06

(2) Unwrought or semi-wrought common metals; doors, gates, windows and window coverings of metal; statues and works of art of common metals; containers of metal for storage, transport and packaging; gas storage and gas storage tanks made of metal, carbon fibers and/or other materials; tubing of metals for joining and terminating pipes for industrial use; reinforcing materials of metal for pipes; non machine element metal valves; structural and replacement parts for all the aforesaid goods

Class 07

(3) Earth moving scrapers and earth haulers and dozer loaders being earth moving machines; rubber tracks being part of crawlers on mining machines; extractors for mines; Pumps, namely, engine fuel pumps, oil drain pumps, circulating pumps, water pumps for motors and engines, electric pumps, compressed air pumps, air pumps for fuel cells, air pumps for fuel cell aggregate, vacuum pumps, suction pumps diffusion pumps, feed pumps for fuel cells, fuel pumps for fuel cells, turbochargers for fuel cells, turbogenerators, turbocompressors; industrial robot module system, namely, industrial robots and power-operated lifting and moving equipment, namely, forklifts for carrying pallets; snow grooming equipment; current generators; sweeping and laundering machines; structural and replacement parts for the aforesaid goods, namely, valves for pumps, pump control valves, hydraulic valves being parts of machines, hydraulic valve actuators, and pneumatic valve actuators

Class 09

(4) Magnetizers and demagnetizers; scientific and laboratory devices for detecting, monitoring, and simulating physical reactions using electricity, namely, instruments for monitoring physical movements of gases and fluids, instruments and devices for monitoring and detecting the physical state and temperature and physical properties of fluid and gaseous materials; apparatus and instruments for electricity, namely, electric meters, electric conduits, wire connectors, electricity distribution consoles, distribution boards, electrical storage batteries, supercapacitors for energy storage, electricity control panels, static electricity eliminators, electricity limiters, electricity inverters, electronic controllers used to reduce power consumption, voltage regulators for electric power and scientific apparatus and instruments for measuring electricity consumption, ducts specially adapted for holding and spacing electricity conduits; three-dimensional movement based computer systems for vehicle security and safety; measuring, detecting and monitoring instruments, indicators and controllers, namely, test stations for fuel cells, gas detecting apparatuses for detecting the presence of gas, exhaust gas temperature gauges, gas pressure indicators, air and fuel ratio gauges, vacuum gauges, water temperature gauges, water testing instrumentation for monitoring and measuring conductivity, conductivity meters, pressure relief valves for regulating the flow of gases and liquids in fuel cells; scientific research and laboratory apparatus for use with membrane filtration, namely, water filter controllers and downloadable computer software for detecting and measuring water quality, sold as a unit; fuel cells; fuel cell stacks; fuel cell units; fuel cell engines; fuel cell electrodes; reformers for fuel cells; structural and replacement parts for the aforesaid products, namely, automatic valves, electric valve actuators, expansion valve for fluid control, electronic valves for controlling gas or fluid, pressure indicating plugs for valves

Class 12

(5) Vehicles and conveyances, namely, cars, vans, trucks, boats, air vehicles for transport, namely airplane and space vehicles, aircrafts, land vehicles, namely autonomous land vehicle, industrial land vehicles, namely armoured land vehicles, light rail vehicles, rail vehicles, namely, passenger carriages, rail vehicles, namely, trains and structural parts therefor, marine crafts and marine

vehicles, namely, run-abouts, golf cars, automatic guided vehicles; structural parts and accessories for cars, trucks, boats, air vehicles for transport and space vehicles, aircraft, land vehicles, industrial land vehicles, light rail vehicles, rail vehicles, namely, passenger carriages, rail vehicles, namely, trains and structural parts therefor, marine crafts and marine vehicles, namely, run-abouts, golf cars, automatic guided vehicles, namely, air pumps, air pressure pumps, vehicle fuel tanks, and gas tanks, aggregates for fuel cell vehicle; hydrogen fuel cell-powered vehicles, namely, hydrogen fuel cell drayage trucks, hydrogen fuel cell drayage vans, hydrogen fuel cell automobiles, hydrogen fuel cell boats, hydrogen fuel cell air vehicles for transport and space vehicles, aircraft, hydrogen fuel cell utility vehicles; fuel cell-powered vessels; structural and replacement parts for the aforesaid goods, namely, fuel cell storage cells and component parts therefor, tanks for fuel storage, coolant storage, oil storage, and water storage aggregates for hydrogen fuel cell vehicle

Class 20

(6) Gas reservoirs and containers for gas of carbon fibres and/or not of metal.

Services

Class 35

(1) Promoting commercial interests in the field of application of fuel cells in transportation and vehicle; providing commercial information and lobbying services commercial management, consultancy and feasibility studies in the field of fuel cell, providing consumer information services related to fuel cells, fuel cell vehicles, and their parts; public relations services; product demonstration of fuel cell aggregates and fuel cell- powered vehicles; window display services in the field of fuel cell and fuel cell-powered vehicle; organization of exhibition for commercial purpose in the field of fuel cell-powered vehicles and the marketing and sale of such products, arranging and conducting product show and trade show in the field of fuel cell and fuel cell-powered vehicles, creation and management of advertising content in the field of fuel cell and fuel cell-powered vehicles, for others, provision of information in the field of fuel cell and fuel cell-powered vehicles; loyalty, incentive and bonus program services; providing advertising time and space for direct and online for marketing advertising of the goods and services of others; distribution of content for marketing advertising for others; advertising, marketing and promotional consultancy, advisory and assistance services; rental of exhibition spaces, rental of equipment and machines in the field of fuel cell and fuel cell-powered vehicles; consumer information services related to fuel cells, fuel cell vehicles, and their parts; retail and wholesale services related to fuel cells, fuel cell vehicles and their parts; business administration assistance in the field of sales and marketing; business management and administrative services; accountancy, book keeping and auditing; administration of market research data and statistics; human resources management and recruitment services; clerical services; business administration consultancy and advisory services; rental of office machines and equipment; business analysis and research services; marketing studies; providing and arrangement of data collection services for others

Class 37

(2) Construction, installation and repair infrastructure, pipeline infrastructure and utilities for hydrogen extraction and generation; rental of tools, plant and equipment for construction and demolition; extraction of natural gas and hydrogen; installation, cleaning, repair and maintenance work related to vehicles, fuel cells, fuel cell infrastructure and hydrogen gas infrastructure; rental, rental of objects in connection with the aforesaid services; consultancy and information in relation to the aforesaid services

Class 42

(3) IT services, namely development, programming and implementation of computer software, development of computer hardware, Hosting of platforms for predictive maintenance of fuel cell systems, Cloud-based platforms for remote configuration and diagnostics of energy systems; Software as a service (SaaS) featuring software for monitoring, analyzing and optimizing fuel cell performance and rental of software; rental of computer hardware and facilities; IT consultancy, advisory and information services; IT security services in the nature of protection and recovery of computer data; computer programming for data duplication and conversion; data coding services being computer programming; computer analysis and diagnostics; research, development and implementation of computer hardware and software systems; computer project management; data mining; digital water-marking; computer programming services; computer network security services; computer network services; updating the memory banks of computer systems; data migration services; updating of websites, for others; monitoring of computer systems by remote access; scientific and technological services in the field of clean energy, fuel cells and hydrogen technologies, Technological consultancy relating to the integration of fuel cells in industrial and mobile applications; Technical testing and quality control of fuel cell components, stacks, and systems, Performance testing and validation of hydrogen-based energy systems; design and development of computer hardware and software; rental of computer software; rental of computer hardware and facilities; technological consultancy in the field of hydrogen gas infrastructure and fuel cells; technological consultancy relating to development and assembly of prototypes of hydrogen gas installations and systems.

Colour Claim

Colour is claimed as a feature of the trademark. The colors green, dark green, and light green are claimed as a feature of the trademark. The mark consists of various shades of green, dark green, and light green interacting with each other and forming a woman's face silhouette with hair.

Goods

Class 07

(1) Installations for the treatment of organic silt comprising equipment that processes silt, namely industrial plants that process silt involving heat recovery, pasteurisation and biological hydrolysis, in particular silt obtained from treatment of wastewater, drinking water and process water, namely sludge pasteurizers, thermal hydrolysis reactors, heat recovery systems, and biological hydrolysis reactors.

Class 09

(2) Software used in the fields of water and wastewater treatment to operate, automate and control industrial plants that process organic silt via heat recovery, pasteurisation and biological hydrolysis for the purpose of sanitizing, stabilizing, and reducing the volume of the silt to enable safe disposal.

Colour Claim

Colour is claimed as a feature of the trademark. The rounded square is green and the arrow and word BMOVE are each in white.

Goods

Class 09

Computer programs, downloadable, software, computer applications and mobile apps for the processing of electronic payments and the transfer of money to and from others; computer programs, downloadable, software, computer applications and mobile apps for monitoring, displaying and calculating parking times and fees, and for the transfer of money in connection with parking; computer programs, downloadable, software, computer applications, downloadable, and mobile apps for the automatic control of vehicle parking spaces; electronic databases in the field of public infrastructure recorded on computer media.

Services

Class 36

(1) Processing of electronic payments; tax and duty payment services; electronic toll collection services; payment of parking fees using smartphone applications; electronic payment services; warranty services for road vehicles; insurance consultancy and insurance brokerage, in particular in relation to vehicle insurance; financial clearing for the rental of electric vehicles and for operating service stations and charging stations; issuance of credit cards.

Class 37

(2) Providing information on the repair of land vehicles; charging of electric vehicles.

Class 38

(3) Operating a wide-area network (WAN); providing access to databases via telecommunications networks; providing computer network access via fiber optic networks; providing access to online forums, chat rooms and electronic bulletin boards for the transmission of messages, comments and multimedia content among users; providing access to vehicle sharing portals; providing access to a platform for real-time multimedia communications via a website on the internet; providing access to a website containing news, information and advice on the topics of vehicle parking manoeuvres, vehicle parking fines, vehicle parking fee rates, traffic, vehicle driving, charging of electric vehicles, insurance and payment services; electronic exchange of messages, images and photographs via a global computer network; providing user access to search engines; providing access to electronic pages and computer databases.

Class 39

(4) Traffic information; reservation of parking spaces; parking place rental; navigational advisory services; providing information relating to vehicle parking services; vehicle parking; providing of parking spaces.

Class 42

(5) Software as a service [SaaS] featuring software for monitoring, displaying and calculating parking times and fees, and for the transfer of money in connection with parking; rental of software for monitoring, displaying and calculating parking times and fees, and for the transfer of money in connection with parking; development and maintenance of computer software.

Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely digital video recorders, audio recorders, audio receivers; audio recordings featuring music and brand identity information related to sonic branding; voice recording and replaying apparatus, namely digital voice recorders, integrated chip [IC] voice recorders; music production apparatus, namely studio audio monitors for music production; music measuring devices, namely studio monitors for music production; blank magnetic discs, blank magnetic tapes for tape recorders; blank or pre-recorded CD-Is [interactive compact discs] for sound recordings; blank or pre-recorded CD-ROMs for sound recordings; blank or pre-recorded recording discs; blank audio discs, pre-recorded audio discs featuring music; blank or pre-recorded compact discs (CDs) featuring music and sonic brand identity information; blank audio tapes and pre-recorded audio tapes; data storage devices being magnetic tapes and discs; devices for playing sound media, namely monitors, speakers, earphones; digital sound processors; music composition software; digital sound field processors; sound mixers; sound recording tapes; audio recorders, tape recorders, compact disc recorders; sound recordings in the form of discs; downloadable musical sound recordings; downloadable music recordings; sound recording films, namely audiovisual recordings about goods and services for promoting brand identity; software for creating and editing music and sound.

Services

Class 35

(1) Advertising services for the goods and services of others; business administration, business management and business administration; office functions, namely secretarial and clerical services; artistic agency; advertising agency, development of communication campaigns in the field of public relations; public relations agency; business advice and intelligence in the field of audio and musical identity creation; business advice and intelligence in the field of voice identity creation; advertising services, namely creating brand identity for others using music and sound; sonic brand management; advertising services for the creation of a brand identity for others related

to sonic brands; consultancy regarding advertising communication strategies, namely positioning of sonic brands; online advertising for others on a computer network; display advertising; promotion of the goods and services of others through advertisements in printed brochures and pamphlets; rental services for advertising space; radio and television broadcasting of business and advertising information for others online via global communication networks (the Internet) and private access networks (intranet), namely radio and television advertising of the goods and services of others; rental of advertising space on websites and rental of advertising time in cinemas; mail advertising for others; dissemination and distribution of advertising materials for others, namely tracts, flyers, printed matter, samples, free CD-ROMs; advertising document reproduction; rental of advertising space, creation and updating of advertising materials for others; media plan development services, namely preparation and execution of plans and concepts for media advertising, economic forecasting, business management assistance; arranging and conducting art exhibitions for commercial or advertising purposes; arrangement of subscriptions to the online publications of others; arranging and conducting advertising campaigns for the goods and services of others; organization and management of loyalty programs and promotion of the sale of goods and services for other businesses through loyalty programs; dissemination of online advertising for others on electronic communication networks; marketing studies; market studies and analysis; marketing research services, namely assessing the impact of advertising on audiences; production of advertising materials, namely production of sound recordings for marketing purposes; production of advertising materials, namely production of sound recordings for advertising purposes.

Class 41

(2) Creation, editing and production of music; video tape editing; production of sound recordings, namely editing and creation services for sonic and musical identities; production of sound recordings, namely editing and creation services for voice identities; production of sound recordings, namely editing and creation services for sonic and musical identities; production of music recordings; record production; recording studio services, namely production of sound recordings; recording studio services; audio production services; recording, production and distribution of music recordings; operation of audio equipment for producing musical works; post-production editing services in the fields of music, videos and film; transmission, reception and processing of sound recordings, namely production, presentation, publishing and rental of sound recordings; production, distribution and reproduction of sound recordings; music production; music composition services; music transcription; organization of exhibitions for cultural and educational purposes in the field of music; presentation of music shows; advice related to film and music production; production of musical works in a recording studio; music editing services; provision of physical facilities for rehearsing and recording films, shows, plays and music training; entertainment services in the form of live musical shows; music publishing services; music composition services; use of video film sound recordings for the production of sonic and musical identities; provision of non-downloadable online digital music; rental of phonographic and music recordings; production of sound and music recordings; sound recording studio services; music video production services.

Class 42

(3) Research and evaluation services in the field of creating sonic and musical identities; research and evaluation services in the field of creating voice identities; development and design of digital sound and image media; digitization of music and video images into downloadable media; electronic storage services for digital music.

Goods

Class 09

Photographic, optical, measuring, signaling, detecting, testing and inspecting apparatus and instruments, namely, electro-optical instruments for use in inspection and measurement of defects in vehicle parts and pieces; optical inspection apparatus for inspecting the circuitry used in vehicles for industrial use, namely an automotive circuit tester; electric ultrasound flaw detectors in vehicles and integral parts thereof; measuring devices, namely, measuring equipment to inspect the adequacy of sealer and mastic application and detect defects related with bead continuity, bead width, bead length and bead position; detecting devices, namely, paint quality detection devices to detect small defects in vehicle coating; monitoring devices, namely, electronic device for monitoring and inspecting the quality of glazing in vehicles to prevent the entry of water and verify the absence of air bubbles; electrical controlling devices, namely, electrical controllers for locking, starting, steering and lights of a vehicle; scientific apparatus, namely, sensing and signaling devices for testing and quality control of materials processing by laser in the vehicle manufacturing industry; visual monitoring apparatus namely, a system consisting of cameras and lasers for scanning tires and obtaining three-dimensional models on which software algorithms perform, read and analyze all the writings and symbols imprinted on tire automatic lettering; diagnostic apparatus

for testing the gap and flush of doors and vehicle parts, not for medical use; central processing units (CPU) for processing information, data, sound or images; computer hardware for data processing in real time; optical sensors; optical viewfinders; cameras for monitoring and inspecting vehicles in an industrial installation; display monitors providing a full panoramic view of a vehicle; computer hardware for data processing; downloadable computer software for use in database management and obtaining reports as a spreadsheet for the analysis of defects in vehicle components; downloadable computer software for performing diagnostics and troubleshooting defects in vehicle components; downloadable computer software for scanning images; downloadable computer software for processing digital images; downloadable image processing computer software for providing a full panoramic view of a vehicle; downloadable software for industrial process control; downloadable computer software programs for optical character recognition; all of the foregoing relating to artificial vision technology

Services

Class 37

(1) Installation, maintenance and repair services of inspection machines and equipment for diagnosis and verification of faults, defects or errors in vehicles; installation of automation equipment for industrial manufacturing of vehicles; repair and maintenance of optical machines and instruments for manufacturing vehicles and for troubleshooting defects in vehicles; maintenance of computer hardware for data processing; maintenance of automated machinery for manufacturing vehicles and for troubleshooting defects in vehicles; inspection of automobiles and their parts prior to maintenance and repair; provision of information on automotive repair or maintenance; all of the foregoing relating to artificial vision technology

Class 42

(2) Electrical engineering services; computer hardware and software engineering services; engineering services in the field of robotics, namely, design and development of artificial intelligence-based robotic systems for manufacturing vehicles and for troubleshooting defects in vehicles; technical research in the field of computerized automation of industrial processes for manufacturing vehicles and for troubleshooting defects in vehicles; quality control testing of industrial machinery; monitoring of quality control processes in the manufacturing of vehicles; inspection of defects in vehicle parts and components thereof for quality control; motor vehicle design of corrective treatments to fix defects in vehicle structures; creation of control software programs for automatic measurement, assembly, adjustment and visualization related thereto in the vehicle manufacturing industry; creation, maintenance and development of software; design and development of software for image processing; design of specialist machinery for use in the manufacture of vehicles; design and development of diagnostic apparatus in the nature of computer hardware; all of the foregoing relating to artificial vision technology

Standard Characters

Goods

Class 01

(1) Chemically or physically modified starches; maltodextrins for industrial use; animal and vegetable albumin as a raw material; gelling agents for industrial use; baking release agents [chemical products]; enzymes for use in the baking industry; baking and cooking activating agents for industrial use; chemical preparations for binding dough; dough conditioning agents for industrial use; dough stabilising agents [baking activating agents for industrial use]

Class 03

(2) Baking flavours [essential oils]

Class 09

(3) Downloadable computer software for downloading and reading electronic publications in the nature of newsletters, books, booklets, brochures, hand-outs, teaching material in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; downloadable mobile applications for downloading and reading electronic publications in the nature of newsletters, books, booklets, brochures, hand-outs, teaching material in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; downloadable educational media, namely, audio files, video recordings, multimedia files featuring baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products and baking mixes; downloadable electronic publications in the nature of newsletters, books, brochures, hand-outs, teaching material in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; downloadable video recordings featuring baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; downloadable sound recordings featuring baking, baking science, baking demonstrations, nutrition, the development, productions and distribution of baking ingredients, baking agents, baked

products, and baking mixes; podcasts; downloadable software applications in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; computer applications for educational purposes in the field of baking, baking science, baking demonstrations, nutrition, the development, productions and distribution of baking ingredients, baking agents, baked products, and baking mixes; all the aforementioned goods in particular in connection with the development, production and distribution of baking ingredients, baking agents and baking mixes

Class 16

(4) Regularly printed publications, namely, newsletters, books, booklets, brochures, hand-outs, teaching material in the field of baking, baking science, baking ingredients, baking agents, baking mixed, doughs, food, nutrition; photographs; plastic films and bags for wrapping and packaging purposes

Class 29

(5) Mixtures, semi-prepared preparations and ingredients consisting mainly of meat and meat by-products, namely, meat by-products, minced meat, prepared meat; mixtures, semi-prepared preparations and ingredients consisting mainly of poultry and poultry by-products, namely, processed poultry, poultry by-products; mixtures, semi-prepared preparations and ingredients consisting mainly of game and game products, namely, game, not live, game preserves; mixtures, semi-prepared preparations and ingredients consisting mainly of fish and fish products, namely, processed fish, preserved fish, fish mousse; mixtures, semi-prepared preparations and ingredients consisting mainly of crustaceans, not live, and mollouscs, not live, namely, crab meat, shrimp paste, cooked snails, canned snails; mixtures, semi-prepared preparations and ingredients consisting mainly of prepared vegetables, namely, processed vegetables, preserved vegetables, cooked vegetables, dried vegetables, vegetable mousses; mixtures, semi-prepared preparations and ingredients consisting mainly of prepared fruits, namely, processed fruits, preserved fruits, crystallized fruit, dried fruits, dried fruits in powder form, fruit based filling for cakes and pies, fruit-based concentrate for cooking, fruit pulp, fruit peel, pressed fruit paste; mixtures, semi-prepared preparations and ingredients consisting mainly of jellies, namely, jellies for food other than confectionery; mixtures, semi-prepared preparations and ingredients consisting mainly of jams, namely, fruit jam, jams; mixtures, semi-prepared preparations and ingredients consisting mainly of compotes, namely, compotes, fruit compotes; all the aforesaid goods for use as fillings or toppings or for use in preparation of pastry and confectionery; preserved, dried and cooked fruits and vegetables; extracts and concentrates from fruits and vegetables; secondary plant substances from fruits and vegetables for human consumption, namely, processed fruit and vegetable peels, processed fruit and vegetable fibres; baking fats; edible fats; milk and milk products; yoghurt and curd dishes; edible vegetable oils; eggs; whole egg powder; egg white powder; white of eggs; albumen for culinary purposes; gelling agents [gelatine]; jams; butter; buttercream; fruit preparations for use as fillings or spreads in preparation of bakery and confectionery products; gelling agents for cream; edible fat powder

Class 30

(6) Food preparations and ingredients based on coffee, namely coffee extracts, coffee essences, ground coffee, artificial coffee, coffee beans, coffee coated nuts; food preparations and ingredients based on tea, namely, tea extracts, processed tea leaves, flavourings of tea, other than essential oils, for food or beverage; food preparations and ingredients based on cocoa, namely, cocoa powder, cocoa-based ingredients in confectionery products, cocoa extracts for human consumption, cocoa-based condiments and seasonings for food and drink, cocoa mixes, cocoa-based ingredients in confectionery products; food preparations and ingredients based on sugar,

namely, crystallized sugar for decorating cakes, crystallized sugar for decorating food, caramelized sugar, powdered sugar, granulated sugar, brown sugar, flavoured sugar and sugar substitutes for culinary purposes, confectionery made of sugar; food preparations and ingredients based on sugar substances, namely, sugar substitutes for culinary purposes; confectionery made on sugar substitutes; food preparations and ingredients based on spices with the addition of natural and artificial flavourings, namely, baking spices, natural spices, organic spices, spice blends, spice mixes; coffee, tea and cocoa drinks, including in instant form; mixtures of coffee, cocoa and spices for the preparation of bakery and confectionery products, namely, spice mixes, mixtures containing coffee extracts, coffee essences, ground coffee or artificial coffee, mixtures containing cocoa powder, cocoa essences, cocoa extracts for human consumption or cocoa-based condiments; flours; swelling flours, including those containing diastase; prepared flour and semi-prepared flour mixtures for baking; baking preparations and ingredients for the preparation of bakery and confectionery products based on cereal products, namely, yeast extracts for food, baking powder, baking soda; starches and starch products, namely pre-gelatinised starches, starch sugar, starch syrup, maltodextrins and roast dextrins [included in this class]; dough acidifiers; leaven; baking powders and yeasts; bakery and confectionery products, namely, bread, biscuits, cakes, and bakery products, namely, sweet bakery goods, mixes for bakery goods containing cornmeal, baked goods, namely, crumbles, confectionery chips for baking, confectionery made of sugar, confectionery, namely, candy and chocolate, chocolate confectionery, almond confectionery; bread; biscuits [patisserie]; long-life bakery goods, namely, cookies, muffins, biscuits; baking, filling, decorating, coating and glazing compounds and creams for pastry and confectionery; preparations and ingredients for making cake doughs, short pastry doughs and yeast doughs, plain cake, biscuit dough, choux dough and basic dough compounds for pastry preparations; thickeners, gelling agents [glucose syrup] and preparations for stiffening whipped cream; honey and invert sugar cream [artificial honey]; natural and artificial flavourings, essences and extracts for foodstuffs, namely, flavourings, other than essential oils, for cakes, vanillin for use as a food flavouring, vanilla extracts for use as a food flavouring, almond extracts for use as a food flavouring, coconut extracts for use as a food flavouring, fruit flavourings for food or beverages, except essences, coffee essences, malt extracts for food, cocoa extracts for human consumption, tea extracts; spices, mixtures of spices, including in the form of essences, extracts or concentrates; preparations of spices; condiments, namely, food condiment consisting primarily of ketchup and salsa, savoury sauces used as condiments; edible ices; long-life edible ices; powders for making ice cream; dextrose; malt flour, malt extracts and other malt preparations for foodstuffs, namely, malt flour, diastatic and non-diastatic malt flours, malt extracts for food, malt biscuits; malt bread; malt coffee; malt cakes; malt biscuits; malted bread mix; malt coffee extracts; malt for human consumption; fruited malt loaf; malt extracts for food; malt extracts used as flavouring; biscuits for human consumption made from malt; malt extracts [malt syrup] for use as a baking agent; dough; dough products, namely, bread doughs, cake doughs, pastry dough, frozen dough, wafer dough, cookie dough; dough ferments; dough casings; dough flours; dough mixtures; foodstuffs made from dough, namely, bread, pies, pastries, cakes; mixtures of dough; doughs ready for baking; flour mixtures for baking purposes; mixtures for the preparation of bakery products, namely, mixes for making baking batters; preparations for making bakery products, namely, mixes for bakery goods

Class 31

(7) Malt; malt for brewing or distilling; malt germs; malt grains [unprocessed]; malt for brewing; malt for distilling; unprocessed cereals; beer barley, namely brewing barley for use in brewing beer

Class 32

(8) Beers; mineral and aerated waters and other non-alcoholic drinks in the nature of non-alcoholic carbonated drinks; malt beer; fruit drinks; fruit juices; syrups and other preparations in the nature of powders and concentrates for making soft drinks and non-alcoholic fruit-flavoured beverages; essences for making beverages; extracts of hops for making beer; beer and brewery products, namely, malt extracts, hops, specialty grains and brewer's yeast; beer wort; beer-based beverages; malt wort; non-alcoholic malt beverages

Services

Class 35

(1) Wholesale and retail services for chemically or physically modified starches, maltodextrins for industrial uses, animal and vegetable albumin as a raw material, gelling agents for industrial use, gelling agents for cream, fat powders, fatty acids, baking release agents [chemical products], enzymes for use in the baking industry, baking and cooking activating agents for industrial use, chemical preparations for binding dough, dough conditioning agents for industrial uses, dough stabilising agents [baking activating agents for industrial use]; wholesale and retail services for baking flavourings [essential oils]; wholesale and retail services for mixtures, semi-prepared preparations and ingredients consisting mainly of minced meat, prepared meat, processed poultry, poultry products, game, not live, game preserves, processed fish, preserved fish, fish mousse, crab meat, shrimp paste, cooked snails, canned snails, processed vegetables, preserved vegetables, cooked vegetables, dried vegetables, vegetable mousses, processed fruits, preserved fruits, crystallized fruit, dried fruits, dried fruits in powder form, fruit based filling for cakes and pies, fruit-based concentrate for cooking, fruit pulp, fruit peel, pressed fruit paste, jellies for food other than confectionery, fruit jam, jams, compotes, fruit compotes, all the aforesaid goods for preparation of bakery and confectionery products and fillings and toppings for bakery and confectionery products; wholesale and retail services for preserved, dried and cooked fruits and vegetables, extracts and concentrates from fruits and vegetables, secondary plant substances from fruits and vegetables for human consumption, baking fats, edible fats, milk and milk products, yoghurt and curd dishes, edible vegetable oils, eggs, whole egg powder, egg white powder, gelling agents, jams, butter and buttercream fruit mixtures for preparation of bakery and confectionery products; wholesale and retail services for coffee extracts, coffee essences, ground coffee, artificial coffee, coffee beans, coffee coated nuts, tea extracts, processed tea leaves, flavourings of tea, other than essential oils, for food or beverages, cocoa powder, cocoa-based ingredient in confectionery products, cocoa extracts for human consumption, cocoa-based condiments and seasonings for food and drink, cocoa mixes, cocoa-based ingredients in confectionery products, crystallized sugar for decorating cakes, crystallized sugar for decorating food, caramelized sugar, powdered sugar, granulated sugar, brown sugar, flavoured sugar, sugar and sugar substitutes for culinary purposes, confectionery made of sugar, confectionery made of sugar substitutes, baking spices, natural spices, organic spices, spice blends, spice mixes; wholesale and retail services for coffee, tea and cocoa drinks, including in instant form, mixtures of coffee, cocoa, processed fruits, preserved fruits, crystallized fruit, dried fruits, dried fruits in powder form, fruit based filling for cakes and pies, fruit-based concentrate for cooking, fruit pulp, fruit peel, pressed fruit paste, jellies for food other than confectionery, fruit jam, jams, compotes, fruit compotes and baking spices, natural spices, organic spices, spice blends, spice mixes for preparing bakery and confectionery products, flours, swelling flours, including those containing diastase, prepared flour and semi-prepared flour mixtures for baking, baking preparations and ingredients for the preparation of bakery and confectionery products based on cereal products, starches and starch products, namely pre-gelatinised starches, starch sugar, starch syrup, maltodextrins and roast dextrins; wholesale and retail services for dough acidifiers, leaven, baking powders and yeasts, bakery and confectionery products, bread, biscuits and long- life bakery goods; wholesale and retail services

for baking, filling, decorating, coating and glazing compounds and creams for pastry and confectionery, preparations and ingredients for making cake doughs, short pastry doughs and yeast doughs, plain cake, biscuit dough, choux dough and basic dough compounds for pastry preparations; wholesale and retail services for thickeners, gelling agents and preparations for stiffening whipped cream, honey and invert sugar cream [artificial honey], natural and artificial flavourings, essences and extracts for foodstuffs [not including essential oils], spices, mixtures of spices, including in the form of essences, extracts or concentrates; wholesale and retail services for preparations of spices, condiments, edible ices, long- life edible ices, powders for making ice cream, dextrose, malt flour, malt extracts and other malt preparations for foodstuffs, malt bread, malt coffee, malt cakes, malt biscuits, malted bread mix, malt coffee extracts, malt for human consumption, fruited malt loaf, malt extracts for food, malt extracts used as flavouring, biscuits for human consumption made from malt, malt extracts [malt syrup] for use as a baking agent, dough, dough products, dough ferments, dough casings, dough flours, dough mixtures, foodstuffs made from dough, mixtures of dough, doughs ready for baking, flour mixtures for baking purposes, mixtures for the preparation of bakery products, preparations for making bakery products; wholesale and retail services for malt, malt for brewing or distilling, malt germs, malt grains [unprocessed], malt for brewing, malt for distilling, unprocessed cereals, beer barley; wholesale and retail services for beers, mineral and aerated waters and other non-alcoholic drinks, malt beer, fruit drinks, fruit juices, syrups and other preparations for making beverages, essences for making beverages, extracts of hops for making beer, beer and brewery products, beer wort, beer-based beverages, malt wort, non-alcoholic malt beverages; advertising, namely, advertising consultancy, advertising planning for others, advertising on the internet for others, advertising services, namely, promoting the food of others, advertising the goods and services of others; marketing, namely, developing marketing strategies and marketing concepts for others, marketing strategies for others; business management; business administration and business management consultancy; analysis of marketing trends; conducting of marketing studies; marketing advice; development of advertising concepts; public relations; support in marketing and advertising activities, namely, developing marketing strategies, marketing concepts and advertising campaigns for others; advertising for others; sales promotion, namely, administration of sales promotion incentive programs; marketing agency services; digital marketing, namely, digital marketing agency services, namely, development and production of digital marketing campaigns for others; online advertising, namely, online advertising for others via a computer communications network; online marketing, namely, online marketing services featuring food of others; market research and analysis; conducting and preparing market studies; conducting interviews and surveys for qualitative and quantitative market research; information on market research results

Class 38

(2) Telecommunications services, namely, personal communication services; provision of access to platforms on the Internet, namely, a global computer network; podcasting, namely, transmission of podcasts in the field of baking and in the field of development, production and distribution of baking ingredients, baking agents and baking mixes; all the aforementioned services in particular in connection with the development, production and distribution of baking ingredients, baking agents and baking mixes

Class 40

(3) Customised production of bread and doughs

Class 41

(4) Providing online electronic publications, not downloadable in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking

ingredients, baking agents, baked products, and baking mixes; providing non-downloadable online videos in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; creation [writing] of educational content for podcasts; training in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; continuous training in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; educational instruction in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; provision of training courses in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; conduction of online events for training and advanced training in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; organisation and conduction of events, training courses and seminars in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; organisation and conduction of online events for cultural or educational purposes, online training and online seminars in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; publishing services in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; know-how transfer [training] in the field of baking, baking science, baking demonstrations, nutrition, the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; all the aforementioned services in particular in connection with the development, production and distribution of baking ingredients, baking agents and baking mixes

Class 42

(5) Scientific and technological services, namely, research on food, food safety testing and consultation related thereto, scientific research, testing and analysis in the field of the development, production and distribution of baking ingredients, baking agents, baked products, and baking mixes; quality control of goods and services; product development for others

Class 44

(6) Nutritional advice

Goods

Class 06

(1) Nickel-Manganese alloys for further manufacturing, namely, Nickel-Manganese-Gallium alloys, Nickel Manganese-Aluminum alloys, Nickel-Manganese- Antimony alloys, Nickel-Manganese-Tin alloys; Cobalt-Nickel alloys for further manufacturing, namely, Cobalt-Nickel-Aluminum alloys, Cobalt-Nickel-Gallium alloys; Iron Palladium alloys for further manufacturing; crystals of Nickel-Manganese alloys, namely, crystals of Nickel Manganese-Gallium alloys, Nickel-Manganese-Aluminum alloys, Nickel-Manganese- Antimony alloys, and Nickel-Manganese-Tin alloys; crystals of Cobalt-Nickel alloys, namely, crystals of Cobalt-Nickel-Aluminum alloys, and Cobalt-Nickel-Gallium alloys; crystals of Iron-Palladium alloys; metals composite materials containing Nickel-Manganese alloys, in particular containing Nickel-Manganese-Gallium alloys, Nickel-Manganese-Aluminum alloys, Nickel-Manganese- Antimony alloys, Nickel-Manganese-Tin alloys; metals composite materials containing Cobalt-Nickel alloys, in particular Cobalt-Nickel-Aluminum alloys, Cobalt-Nickel-Gallium alloys; metals composite materials containing Iron-Palladium alloys; composite metal foam containing Nickel-Manganese alloys, in particular containing Nickel-Manganese-Gallium alloys, Nickel-Manganese-Aluminum alloys, Nickel-Manganese- Antimony alloys, Nickel-Manganese-Tin alloys; composite metal foam containing Cobalt-Nickel alloys, in particular Cobalt-Nickel-Aluminum alloys, Cobalt-Nickel-Gallium alloys; composite metal foam containing Iron-Palladium alloys; magnetic shape memory alloys for further manufacturing; magnetic and magnetizable materials, namely, magnetic Iron alloys for further manufacturing, in particular Nickel-Iron alloys.

Class 09

(2) Electric linear actuators based on shape memory alloys; downloadable computer application software for social networking services; downloadable computer software for administration of computer local area networks; data processing software for word processing; electromagnets and solenoid valves including electronics for controlling and regulating the same; electromagnets; electromechanical, electromagnetic and thermal actuators; electronic control units for the valve, motor and actuator; generators for converting mechanical, thermal or electromagnetic energy into electricity; computer software platforms for social networking; downloadable application software

for mobile telephones for the assignment of copyright information to digital media files; downloadable mobile applications for enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials; downloadable mobile e-commerce applications to allow users to perform electronic business transactions via a global computer network; downloadable mobile applications for freight management, namely, shipment processing, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranets and the internet for business purposes; downloadable mobile applications for authentication, issuance and validation of digital certificates used for user identification, secure electronic communications, and data encryption; downloadable computer software for managing electronic payment transactions using distributed ledger technology (DLT); downloadable computer software utilizing adaptive control for monitoring, analysing, controlling and running industrial processes; downloadable video recordings featuring music; downloadable computer software for industrial process control; downloadable computer software utilizing adaptive control for industrial processes; downloadable collaboration software platforms for collaborating on shared documents, for real-time collaborative editing of digital documents, and for collaboration management in the field of collaborative computer programming; magnets for industrial purposes; solenoid valves [electromagnetic switches]; solenoid valves; downloadable mobile applications for voice, data and image transmission to mobile phones; downloadable contact tracing sensory software for use in mobile devices for monitoring and alerting of social distances and distance measuring among users; downloadable music files; Real-Time Collaborative Editing (RTCE) software platforms for assisting developers in sharing and collaboratively developing computer software programming code; proportional and switching solenoid valves; industrial process control software; electronic sensors for controlling and regulating electronic devices using the internet of things [IoT], namely, sensors for temperature, humidity, motion, and light detection; sensors for measuring path, velocity, force, pressure, magnetic field, temperature, flow, composition of liquids and gases; biometric sensors and detectors for access control systems; proximity sensors, position sensors, distance sensors, velocity sensors, pressure sensors, temperature sensors, and sensors for the measurement of the flow rate and volume of liquids and gases; computer software for biometric systems for the identification and authentication of persons; software for processing images, graphics and text; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; downloadable computer software for biometric systems for the identification and authentication of persons for the purpose of authorizing access to databases; downloadable software for processing images, graphics and text; downloadable computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text audio, graphics, still images and moving pictures; downloadable collaboration management software platforms for collaborating on shared documents, for real-time collaborative editing of digital documents, and for collaboration management in the field of collaborative computer programming.

Services

Class 35

(1) Advertising the goods and services of others via social media; social media marketing for others; online retail services for downloadable digital music; online retail services for downloadable and pre-recorded music and movies; advertising the goods and services of others; advertising agency services.

Class 38

(2) Providing access to platforms on the internet; providing access to global computer networks; providing access to a video sharing portal; providing on-line chat rooms for social networking; providing user access to global communication networks; provision of access to an electronic marketplace [portal] on computer networks; providing access to e-commerce platforms on the internet; provision of access to internet platforms for the purpose of exchanging digital photographs; providing access to the internet for the interchange of data by electronic means; computer aided transmission of messages, data and images, namely, electronic transmissions of messages and images via a computer network; news agency services; communication services, namely, wireless electronic transmission of digital images over the internet and via wireless and cellular networks; communication services, namely, wireless electronic transmission of voice messages, facsimiles, text messages and electronic mail over the internet and via wireless and cellular networks; network transmission of music, images, radio signals and messages over the internet; telecommunication access services, namely, providing access to mobile internet platforms and portals; wireless broadband communications services, namely the transmission of test data and control signals between sensors, actuators, and diagnostic systems in industrial and automotive environments; providing online chat rooms and electronic bulletin boards for the transmission of messages, comments and multimedia content among computer users; transmission of digital videos, movies, pictures, digital images, text messages, photos, interactive computer games, podcasts, and music via the internet; multimedia messaging services [mms]; providing electronic mail and instant messaging services.

Class 41

(3) Music publishing services; production of musical videos; publishing of electronic publications; publication of printed matter, except for advertising purposes; online publication of electronic books, journals, periodicals and newspapers; electronic library services for the supply of electronic information (including archive information) in the form of text, audio and/or video information.

Class 42

(4) Authentication services for computer security; authentication services, namely, user authentication services using technology for e-commerce transactions, electronic document and e-mail authentication services, user authentication services using single sign-on technology for online software applications, providing user authentication services using biometric hardware and software technology for e-commerce transactions; authenticating works of art; electronic data storage for archiving computer data, namely, photographic images, and business documents, personal documents and corporate documents; electronic storage of digital images; electronic storage of digital music; industrial and scientific research and development in the fields of actuator and sensor technology, materials science, crystals of alloys production and alloy technology; computer services, namely, hosting an interactive web site that allows users to publish and share their own content and images online; platform as a service [PaaS] featuring computer software platforms for allowing users to share images, audio-visual content, video content and messages; encryption of digital images; encryption, decryption and authentication of information, messages and data.

Class 44

(5) Farming equipment rental.

Class 45

(6) Providing authentication of personal identification information [identification verification services]; copyright and industrial property rights management; licensing of intellectual property and copyright.

Trademark Type

Position

Visual Representation

Trademark Description

The trademark consists of one solid green line applied in a particular position on hosiery, namely, completely encircling the lower waist area of the hosiery as shown in the visual representation. The hosiery shown in the dashed outline does not form part of the trademark but is included merely to show the positioning of the sign. The visual representation shows multiple views of the same trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The solid line encircling the lower waist is green in colour.
