Statement outlining results, risks and significant changes in operations, personnel and program

1. Introduction

This quarterly report has been prepared by management as required by section 65.1 of the Financial Administration Act and in the form and manner prescribed by the Treasury Board Directive on Accounting Standards. This report should be read in conjunction with the 2025-26 Main Estimates.

The mandate of the Canadian Intergovernmental Conference Secretariat (CICS) is to support federal, provincial and territorial governments in the planning and conduct of senior level intergovernmental conferences held across Canada. The primary objective of CICS is to relieve client departments of the numerous technical and logistical tasks associated with the planning and conduct of multilateral conferences, thereby enabling participants to concentrate on substantive intergovernmental policy issues. CICS provides continuous, effective and impartial logistical support to these meetings.

The quarterly report has not been subject to an external audit or review.

Basis of presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the department's spending authorities granted by Parliament and those used by the department consistent with the 2025-26 Main Estimates. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before money can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

As part of the departmental performance reporting process, CICS prepares its annual departmental financial statements on a full accrual basis in accordance with Treasury Board accounting policies, which are based on Canadian Generally Accepted Accounting Principles for the public sector. However, the spending authorities voted by Parliament remain on an expenditure basis.

2. Highlights of fiscal quarter and fiscal year to date (YTD) results

Operating expenditures from July 1 to September 30, 2025, increased slightly by \$91,000 in the second quarter compared to the same period in 2024-2025. This increase is primarily attributable to personnel-related expenses, as well as costs associated with equipment, supplies, and materials. To date, CICS has supported 30 in-person conferences and 49 videoconferences, compared with 30 in-person conferences and 39 videoconferences during the same period in 2024-2025.

2.1 Statement of Authorities

CICS' authorities for 2025-26 as of the second quarter are approximately \$196,000 lower than last year (a decrease of \$256,000 in voted authorities and an increase of \$60,000 in statutory authorities). This variance is mainly due to the fact that the operating budget carry-forward for the current fiscal year is significantly lower than in the previous year.

2.2 Statement of Department Budgetary Expenditures by Standard Object

Year to date operating expenses to September 30, 2025, are \$3.5 million, approximately \$479,000 lower than for the same period in 2024-25. The observed decrease is largely attributable to the following factors:

- Personnel: a decrease of \$36,000 primarily due to temporary staffing gaps and lower personnel-related expenditures.
- Transportation and communications: a decrease of \$122,000 achieved through more efficient equipment transport. Equipment is strategically shipped to support multiple conferences in various cities before being returned to headquarters, helping to reduce overall transportation costs.
- Professional and special services: a decrease of \$233,000, primarily due the completion of the evaluation program last year and the prior year’s investment in the crate room setup.
- Rentals: a decrease of \$99 000 primarily because fewer external rental companies were required to support program activities during the period.

3. Risks and Uncertainties

CICS does not convene intergovernmental meetings. It is called upon to respond to decisions taken by governments to meet on key national or specific issues. Decisions concerning the location of such meetings, their number in a given fiscal year, their timing and duration, are all factors beyond the control of the Secretariat. CICS continues to develop and use forecasting tools to estimate costs and plan for conferences as requests are received.

As a micro agency, CICS is at risk of losing key personnel and experiencing vacancies in key roles. CICS continues to target greater provincial and territorial representation among Conference Services staff to maintain a high level of neutrality and welcome diverse perspectives to its service delivery model.

4. Significant changes in relation to operations, personnel, and program

During this quarter, operations, staffing, and program activities remained stable, with no major changes. The additional funding received through Budget 2023 enabled CICS to maintain continuity of services and provide consistent support to its clients. In addition, efforts were made to optimize internal processes and strengthen operational efficiency. CICS remains committed to delivering high-quality services and responding to client needs in a proactive and efficient manner.
