The following statement presents the total amount spent in 2024–2025 for each transfer payment. A transfer payment is a grant, contribution or other payment made by the Government for which no goods or services are received. This information is displayed under each ministry.

This statement also provides, for each class of recipients, a detailed listing, where applicable, of the payments (i.e. cash payments and accrued charges) aggregating to \$100,000 or over to a recipient (one individual or organization). This detail shows the name and location of the recipient, together with the total amount paid. In cases where certain organizations have more than one place of business, their Head Office location was used for reporting purposes.

In addition, this statement presents, for each class of recipients, the total amount of payments to a recipient aggregating to less than \$100,000 and the total number of recipients.

Amounts reported include both internal and external expenditures. Whereas external expenditures result from transactions between the Government and outside parties, internal expenditures result from transactions involving organizations that are part of the Government of Canada as a reporting entity.

Section 6 of Volume III of the 2024–2025 *Public Accounts of Canada* presents the total amount spent as transfer payments in the current fiscal year by department and agency under each ministry.

A full or partial basic Old Age Security pension is payable at age 65 or later to seniors who meet the residence and legal status requirements.

Entitlement is normally based on marital status and income in the preceding calendar year, computed in accordance with the *Income Tax Act*. Where a married or common-law couple is concerned, entitlement is based on their combined income.

The Allowance is payable to the spouse or common-law partner of a pensioner, and to widows and widowers aged 60 to 64. All recipients must meet certain residence requirements. Entitlement is based on income.
