CANADIAN ELEMENT NORAD

2025 ANNUAL HISTORICAL REPORT

Unit NORAD Headquarters (NORAD HQ) and Canadian Forces Support Unit Colorado Springs (CFSU (CS)) are located at Peterson Air Force Base, Colorado Springs, CO. This Annual Historical Report addresses the activities of NORAD HQ UIC 2350 and CFSU (CS) UIC 2672. CANELEMNORAD also includes six Canadian Detachments in the United States report.

UIC UIC 2350: NORAD HQ

UIC 2672: CFSU (CS)

CFOO CFOO2672: CFSU(CS)

CANADIAN ELEMENT NORAD

2025 ANNUAL HISTORICAL REPORT

Formation Commander	<p>LGen Blaise F. Frawley (1 Jan 25 - 15 Jul 25), NORAD Deputy Commander, Colorado Springs, CO, USA.</p> <p>LGen Iain S. Huddleston (15 Jul 25 - 31 Dec 25), NORAD Deputy Commander, Colorado Springs, CO, USA.</p>
Commanding Officers	<p>LCol Marie-Helene Tremblay (1 Jan 25 – 15 Aug 25), Commanding Officer, Canadian Forces Support Unit (Colorado Springs), CO, USA.</p> <p>LCol Bradley Schur (15 Aug 25 – 31 Dec 25), Commanding Officer, Canadian Forces Support Unit (Colorado Springs), CO, USA.</p> <p>LCol Gabriel Hanselbacher (01 Jan 25 - 31 Dec 25), Commanding Officer, Detachment Joint Base Elmendorf-Richardson, AK, USA.</p> <p>LCol Dale Campbell (1 Jan 25 – 15 Jul 25), Commanding Officer, Detachment Joint Base Lewis-McChord (WADS), WA, USA.</p> <p>LCol Olivier Maltais (15 Jul 25 – 31 Dec 25), Commanding Officer, Detachment Joint Base Lewis-McChord (WADS), WA, USA.</p> <p>LCol Joseph Shorrocks (1 Jan 25 – 31 Dec 25), Commanding Officer, Detachment Rome (EADS), NY, USA.</p> <p>LCol Andrew Baier (1 Jan 25 – 31 Dec 25), Commanding Officer, Detachment Tinker, OK, USA.</p> <p>LCol Blaise Boutilier (1Jan 25 – 31 Dec 25), Commanding Officer, Detachment Tyndall, FL, USA.</p> <p>LCol Phillip Desmarais (1 Jan 25 – 31 Dec 25), Commanding Officer, Detachment Vandenberg, CA, USA. .</p>

Period Covered: This report covers the period 1 January 2025 to 31 December 2025.

1. There are 315 filled positions in CANADIAN ELEMENT NORAD. This report covers NORAD HQ (127 positions), and Canadian Forces Support Unit Colorado Springs (CFSU (CS)) (33 positions) from the Colorado Springs area. The body of this report is written in two parts:
 - a. Operations, HQ North American Aerospace Defense Command (NORAD) and United States Northern Command (USNORTHCOM), Peterson SFB, CO; and
 - b. Canadian Forces Support Unit, Peterson SFB, CO to include all social and community-based programs and events.
2. The Canadian Forces continuing participation in these jointly staffed units exemplifies Canada's ongoing commitment to the mutual defence of North America under the bi-national North American Aerospace Defence Command Agreement framed within the Basic Defense Document.
3. This report will cover a number of specific areas related to the NORAD Mission, including specific news releases, training, followed by various Annexes covering each of the subordinate detachments.

NARRATIVE - OPERATIONS

NORAD Public Affairs News Releases for 2025

4. The following is a chronological list of news releases and feature stories containing relevant Canadian content published by NORAD Public Affairs during 2025.

NORAD monitors Russian aircraft operating in the Arctic

30 Jan 2025

5. **PETERSON SPACE FORCE BASE, Colo.** – The North American Aerospace Defense Command (NORAD) monitored multiple Russian military aircraft activity in the Arctic earlier this week.
6. The Russian aircraft remained in international airspace and did not enter Alaskan or Canadian Air Defense Identification Zones or sovereign airspace. This activity is not seen as a threat.
7. Under its mission of maintaining comprehensive domain awareness in the Arctic, NORAD launched a combat air patrol from its Canadian NORAD Region (CANR) to the northern region of Canada, and an air patrol from its Alaskan NORAD Region (ANR) off the coast of the Alaska/Yukon border, to further track the activity.
8. The CANR patrol consisted of two Canadian CF-18s, and one KC-135 refueling aircraft (Tanker), and the ANR patrol consisted of two U.S. F-35s, one E-3 (AWACS) and two KC-135 refueling aircraft (Tankers).
9. Within several hours following these launches, NORAD also sent two F-16s from Alaska toward Greenland exercising its standard agreement with the Kingdom of Denmark to forward posture NORAD presence in the Arctic. This activity is not in response to any current threat.

10. NORAD employs a layered defense network of satellites, ground-based and airborne radars, and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD Air Defense Exercise Over Tucson, Arizona

5 Feb 2025

11. NORAD F-16s and general aviation aircraft from the Civil Air Patrol will participate in the exercise. Aircraft will operate at approximately 8,500 feet and will likely be visible to the public.
12. NORAD routinely conducts air defense exercises using a variety of scenarios, including airspace restriction violations, hijackings and responding to unknown aircraft to test responses, systems and equipment. All NORAD exercises are carefully planned and are closely controlled.
13. The defense of Canada and the United States is NORAD's top priority. Operation NOBLE EAGLE is the name given to air sovereignty and air defense missions in North America. For more than 65 years, NORAD aircraft have identified and intercepted potential air threats to North America in the execution of the command's aerospace warning and aerospace control missions.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

18 Feb 2025

14. **COLORADO SPRINGS, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked Russian military aircraft operating in the Alaskan Air Defense Identification Zone (ADIZ) on Feb. 18, 2025.
15. The Russian aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in Alaskan ADIZ occurs regularly and is not seen as a threat.
16. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
17. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

19 Feb 2025

18. **COLORADO SPRINGS, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked Russian military aircraft operating in the Alaskan Air Defense Identification Zone (ADIZ) on Feb. 19, 2025.
19. The Russian aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in Alaskan ADIZ occurs regularly and is not seen as a threat.

20. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
21. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD conducts Operation NOBLE DEFENDER in Pituffik, Greenland

25 Feb 2025

22. **COLORADO SPRINGS, Colo.** – From January 28 to February 11, 2025, American and Canadian personnel and aircraft from all three North American Aerospace Defense Command (NORAD) Regions deployed to Pituffik Space Base, Greenland to form the 41st Air Expeditionary Group (AEG) in support of Operation NOBLE DEFENDER (OND). This operation occurs at planned intervals and builds on long-standing defensive cooperation between the United States, Canada, and the Kingdom of Denmark to enhance capabilities, readiness, and ability to deter competitors.
23. First designated a NORAD air defense operation in 2018, OND demonstrates NORAD's ability to defend the approaches of North America from current and future threats, maintain mission readiness in diverse and challenging environments, and to preserve capacity for follow-on operations. These objectives are met by integrating capability across multi- and complementary domains in collaboration with NATO Allies.
24. This most recent OND saw the deployment of roughly 125 Canadian and American NORAD personnel from the Alaskan NORAD Region (ANR), the Canadian NORAD Region (CANR) and the Continental U.S. NORAD Region (CONR). Participating NORAD aircraft included F-16s, KC-135s, E-3s, CF-18s, C-150s and CH-149s. Royal Danish Air Force standby Search and Rescue (SAR) support was a critical enabler.
25. During the operation, local temperatures were regularly below 0 degrees Fahrenheit, with the coldest days reaching minus 29 degrees F (-34 C) and a wind chill of minus 56 degrees F (-49 C). Maintenance and Civil Engineering crew operated tirelessly in these conditions to ensure aircrews were able to conduct flying missions.
26. Each iteration of OND strengthens and progresses NORAD's missions of aerospace warning, aerospace control, and maritime warning for North America.

NORAD Air Defense Exercise over Green Bay, Wisconsin

11 Mar 2025

27. **PETERSON SPACE FORCE BASE, Colo.** – North American Aerospace Defense Command (NORAD) will conduct a planned live-fly air defense exercise near Green Bay, Wisconsin today.
28. NORAD F-16s and general aviation aircraft from the Civil Air Patrol will participate in the exercise. Aircraft will operate at approximately 8,500 feet and will likely be visible to the public.
29. NORAD routinely conducts air defense exercises using a variety of scenarios, including airspace restriction violations, hijackings and responding to unknown aircraft to test responses, systems and equipment. All NORAD exercises are carefully planned and are closely controlled.

30. Exercising NORAD's response to airspace restriction violations strengthens its ability to carry out daily aerospace warning and control duties for the United States and Canada. Since the January 20, 2025, presidential inauguration, NORAD has responded to more than 20 tracks of interest within the Palm Beach, Florida, TFR area.
31. The defense of Canada and the United States is NORAD's top priority. Operation NOBLE EAGLE is the name given to air sovereignty and air defense missions in North America. For more than 65 years, NORAD aircraft have identified and intercepted potential air threats to North America in the execution of the command's aerospace warning and aerospace control missions.

NORAD Air Defense Exercise Planned for National Capital Region

25 Mar 2025

32. **TYNDALL AIR FORCE BASE, Fla.** -- The North American Aerospace Defense Command will conduct Exercise FALCON VIRGO, a live-fly air defense exercise, on March 25, 2025, between 10 a.m. and 12 p.m. EDT in the National Capital Region.
33. Under the direction of the Continental U.S. NORAD Region, NORAD aircraft participating in the exercise include a U.S. Coast Guard MH-65D Dolphin helicopter and Civil Air Patrol C-182 aircraft.
34. Some portions of the exercise may involve flights at approximately 2,500 feet. In the event of inclement weather, the exercise is scheduled to commence the next day at the same time.
35. NORAD routinely conducts exercises with various scenarios, including airspace restriction violations, hijackings, and responses to unknown aircraft. All NORAD exercises are carefully planned and closely controlled.
36. Falcon Virgo is a routine exercise in support of Operation Noble Eagle, encompassing all air sovereignty and air defense missions in North America.
37. Since its inception, NORAD aircraft have identified and intercepted potential air threats to North America in the execution of its aerospace warning and aerospace control missions; and, under its maritime warning mission, maintains a watchful eye over Canadian and U.S. internal waterways and maritime approaches.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

14 April 2025

38. **COLORADO SPRINGS, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked Russian military aircraft operating in the Alaskan Air Defense Identification Zone (ADIZ) on April 14, 2025.
39. The Russian aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in Alaskan ADIZ occurs regularly and is not seen as a threat.
40. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.

41. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

Transfer of Appointment Ceremony for Deputy Commander NORAD

15 July 2025

42. **PETERSON SPACE FORCE BASE, Colo.** – Lieutenant-General Iain S. Huddleston assumed the position of Deputy Commander, North American Aerospace Defense Command, from Lieutenant-General Blaise F. Frawley in a transfer of appointment ceremony today at Peterson Space Force Base, Colorado.
43. The transfer of appointment was presided over by Gen. Gregory M. Guillot, Commander, NORAD and U.S. Northern Command.
44. The Deputy Commander NORAD is also the Commander of the Canadian Element NORAD, which is comprised of all the Canadians assigned to NORAD across North America. Preceding the transfer of appointment, Canadian Armed Forces' Vice Chief of the Defence Staff, Lieutenant-General Stephen R. Kelsey, presided over the Canadian Element NORAD change of command, from Lieutenant-General Frawley to Lieutenant-General Huddleston.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

22 July 2025

45. **COLORADO SPRINGS, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked Russian military aircraft operating in the Alaskan Air Defense Identification Zone (ADIZ) on 22 July 2025.
46. The Russian aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.
47. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
48. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

20 Aug 2025

49. **COLORADO SPRINGS, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked one IL-20 COOT operating in the Alaskan Air Defense Identification Zone (ADIZ) on 20 August 2025.
50. The Russian military aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.

51. NORAD launched two F-16s and one KC-135 tanker to positively identify and monitor the aircraft in the Alaskan ADIZ.
52. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
53. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

21 Aug 2025

54. **PETERSON SPACE FORCE BASE, Colo** – The North American Aerospace Defense Command (NORAD) detected and tracked one IL-20 COOT operating in the Alaskan Air Defense Identification Zone (ADIZ) on Aug. 21, 2025.
55. NORAD responded with an E-3, two F-16s, and one KC-135 tanker to intercept, visually identify, and monitor the Russian aircraft in the Alaskan ADIZ.
56. The Russian military aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.
57. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
58. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

25 Aug 2025

59. **PETERSON SPACE FORCE BASE, Colo** – The North American Aerospace Defense Command (NORAD) detected and tracked one IL-20 COOT operating in the Alaskan Air Defense Identification Zone (ADIZ) on Aug. 25, 2025.
60. NORAD responded with an E-3, two F-16s, and two KC-135s tanker to intercept and visually identify the Russian aircraft in the Alaskan ADIZ.
61. The Russian military aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.
62. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.

63. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

26 Aug 2025

64. **PETERSON SPACE FORCE BASE, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked one IL-20 COOT operating in the Alaskan Air Defense Identification Zone (ADIZ) on Aug. 26, 2025.
65. NORAD responded with an E-3, two F-16s, and one KC-135 tanker to positively identify the Russian aircraft in the Alaskan ADIZ.
66. The Russian military aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.
67. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
68. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD detects and tracks Russian aircraft operating in the Alaskan Air Defense Identification Zone

25 Sept 2025

69. **PETERSON SPACE FORCE BASE, Colo.** – The North American Aerospace Defense Command (NORAD) detected and tracked two Tu-95s and two Su-35s operating in the Alaskan Air Defense Identification Zone (ADIZ) on Sept. 25, 2025.
70. NORAD responded with an E-3, four F-16s, and four KC-135 tankers to positively identify and intercept in the Alaskan ADIZ.
71. The Russian military aircraft remained in international airspace and did not enter American or Canadian sovereign airspace. This Russian activity in the Alaskan ADIZ occurs regularly and is not seen as a threat.
72. An ADIZ begins where sovereign airspace ends and is a defined stretch of international airspace that requires the ready identification of all aircraft in the interest of national security.
73. NORAD employs a layered defense network of satellites, ground-based and airborne radars and fighter aircraft to detect and track aircraft and inform appropriate actions. NORAD remains ready to employ a number of response options in defense of North America.

NORAD Ready to Track Santa's Flight for 70th Anniversary Year

28 Nov 2025

74. **PETERSON SPACE FORCE BASE, Colo.** – The North American Aerospace Defense Command is ready to track Santa on Dec. 25 and is celebrating the program's 70th anniversary. NORAD monitors and defends North American airspace 25 hours a day, 7 days a week, 365 days a year. On Dec. 25, NORAD has one additional mission: tracking Santa Claus as he makes his way across the globe, delivering presents to children.
75. The NORAD Tracks Santa website (www.noradsanta.org) will launch on Dec. 1. It features Santa's North Pole Village, which includes a holiday countdown, games, a movie theater, holiday music, web store and more. The website is available in nine languages: English, French, Spanish, German, Italian, Japanese, Portuguese, Chinese and Korean.
76. The official NORAD Tracks Santa app is also in the Apple App and Google Play stores to countdown the days until Santa's journey on mobile devices. NORAD Tracks Santa will also be available on Facebook, Instagram, YouTube and X, and on contributor platforms Amazon Alexa, SiriusXM and OnStar.
77. On Dec. 25, trackers worldwide can call 1-877-HI-NORAD (1-877-446-6723) to ask our live operators about Santa's location from 4 a.m. to midnight MST. Additionally, a web-based calling option is available so children without the means to reach NORAD via phone can call the NORAD Tracks Santa Operations Center directly from the noradsanta.org website. Virtual translation services will also support more than 200 languages via the call center.
78. NORAD Tracks Santa is a global experience, and the U.S. and Canadian personnel of NORAD are proud to continue the tradition of delighting families everywhere. Our contributors that help make this possible include:

CANELEMNORAD Annual Training

79. The following training events were attended by members in Colorado Springs, CO in 2024:
 - a. The Formation Leadership Team Symposium for Det COs and Det MWO/WOs, as well as General Officers and HQ Colonels, took place virtually on 20-21 Oct 25; and
 - b. Annual Ground Training Day took place on 18 Nov 25 at the HUB in Colorado Springs.

CFSU (CS)

80. CFSU (CS), as the URS for the CANELEMNORAD Formation as well as the local support unit for Colorado Springs based personnel, experienced a very busy year within all sections. LCol B. Schur along with their command team partner, MWO A. Jno-Baptiste-Jones, Unit MWO CFSU (CS) led the URS team in all facets of the Formation. Maj F. Lewis, DCO CFSU (CS) was responsible for the day-to-day operations of the CFSU (CS). Mr. S. Rivas, Administrative Assistant, processed all passport and visa renewals, and all Employment Authorization Documents for CANELEMNORAD dependants.

Personnel Support Section (PSS)

81. The PSS consisted of 7 personnel - Capt Rogalsky, P Admin O, WO Kolbrich, HR Mgr, Sgt Noel, HR Supr, Sgt Joseph, Snr HRA, PO2 Zanatta, HRA, MS McEvoy, HRA, MS Ralph, HRA, Cpl Gagne, HRA, S1 Rolland, HRA, and Cpl Bebawy, HRA.
- a. CFSU (CS) Posted In: 12;
 - b. CFSU (CS) Posted Out: 10;
 - c. NORAD HQ Posted In: 57;
 - d. NORAD HQ Posted Out: 50;
 - e. NORAD HQ Extension: 23;
 - f. NORAD Fwd Element Posted In: 1;
 - g. NORAD Fwd Element Posted Out: 1;
 - h. Det JBER Posted In: 9;
 - i. Det JBER Posted Out: 8;
 - j. Det JBER Extension: 4;
 - k. Det JBLM Posted In: 8;
 - l. Det JBLM Posted Out: 9;
 - m. Det Rome Posted In: 2;
 - n. Det Rome Posted Out: 1;
 - o. Det Tinker Posted In: 8;
 - p. Det Tinker Posted Out: 8;
 - q. Det Tinker Extension: 7;
 - r. Det Tyndall Posted In: 11;
 - s. Det Tyndall Posted Out: 10;
 - t. Det Vandenberg Posted In: 13;
 - u. Det Vandenberg Posted Out: 8;
 - v. Det Vandenberg Extension: 4.

82. Releases. CANELEMNORAD had 9 releases in 2025:

- a. LGen Frawley, NORAD HQ;
- b. MGen Radiff, NORAD HQ;
- c. BGen Hawthorne, NORAD HQ;
- b. LCol McLeod, NORAD HQ;
- c. Maj Johnson, NORAD HQ;
- d. Maj Mirza, Det Tyndall;
- e. Lt(N) Lee, NORAD HQ;
- f. WO Lampman, NORAD HQ; and
- g. Sgt Said, CFSU (CS).

Financial Support Services (FSS)

83. The FSS consisted of twelve personnel - Capt Y Kim, Compt, PO1 J. Young, FSS Supr, Sgt O.M. Peters, FSS 2 I/C, Sgt C.J. Forest, Claims I/C, Sgt D.B. LaFave, Fin Management I/C, MCpl A.R.D. Peters, Claims 2 I/C, MCpl G.J.D. Tremblay, Claims, MCpl F. Bolusan, Claims, MCpl C.R. Smith, Fin Management, MCpl Gagnon-Robitaille, Fin Management, Cpl K. Card, Cashier, and Cpl N. Maningat, Claims. The FSS staff oversaw the management of public and non-public funds and provided support to formation members for claims, cashier services, and logistical support for clothing, medal mounting, and tailoring.
84. The initial allocation for DComd NORAD in FY 25/26 was L101 \$2,779,404 CAD, comprising \$1,723,392 CAD in Temporary Duty ceiling and \$18,510 CAD in hospitality ceiling. Additional funding was received for IM/IT L501 of \$433,000 CAD for network infrastructure upgrades, IT equipment, and computer hardware. The Working Capital Fund (WCF) was \$6.5 million CAD.

Telecommunications Information Services Section (TISS)

85. TISS consisted of 7 personnel - Capt Zhao, TIS O, Sgt Caldwell, TM Sgt, MCpl Simard, Plans Supervisor, MCpl Dube, Ops Supervisor, and Cpl Switall, Cpl Bell and Cpl Steele, Network Technicians. Capt Zhao, Sgt Caldwell, MCpl Simard, MCpl Dube and Cpl Bell arrived to the section in 2025. Sgt Caldwell was promoted from MCpl in APS 2025 and MCpl Dube was promoted from Cpl in APS 2025 before arriving from Trenton.
86. The most common ongoing activity within TISS was the completion of service desk tasks such as workstation installations, life-cycling, account administration, and software and hardware issue resolution. In 2025, 664 work tickets were closed, in addition to support provided through email, phone calls, and walk-ins. The section also provided constant IT support to remote sites throughout the United States and assisted SSC, 7 Comms, and GAC with their networks.
87. Procurement and Expenditures. TISS baseline budget was not given for Vote 1 and was \$430,000 CAD for Vote 5. The full allocation was used for the purchase of key equipment and travel to support CANELEMNORAD and CFSU (CS).

- a. New and replacement desktop computers: \$110,000 CAD;
 - b. Replacement laptop computers: \$50,000 CAD;
 - c. Secure KVM equipment: \$90,000 CAD;
 - d. New MFPs: \$10,000 CAD;
 - e. V1 SSC bandwidth cost: \$300,000 CAD;
 - f. Miscellaneous Vote 1 procurement of tools, consumables, and shipping costs: \$19,000 CAD; and
 - g. TAV/TD: \$33,000 CAD.
88. TIS supported several locations remotely, including 6 of the CANELEMNORAD detachments. Annual Technical Assistance Visits (TAVs) were conducted to complete life-cycling, address new requirements, and update cryptography. The following TAVs were completed in 2025:
- a. Det Beal in March 2025 for new DWAN installs;
 - b. Det McChord in April 2025 for life-cycling, maintenance, and crypto updates;
 - c. Det Tinker in April 2025 for life-cycling, maintenance, and crypto updates;
 - d. Det Elmendorf in June 2025 for life-cycling, maintenance, and crypto updates;
 - e. Det Tyndall in August 2025 for life-cycling, maintenance, and crypto updates; and
 - f. Det Rome in September 2025 for life-cycling, maintenance, and crypto updates.
89. Major Milestones:
- a. Ex VIGILANT SHIELD occurs each year to assess the readiness of NORAD. Several DWAN and CSNI installs are required to support the exercise as well as maintenance on existing systems. TIS successfully met the requirements for the exercise in 2025; and
 - b. TIS relocated all level 2 and level 3 network infrastructure from Hangar 104 to Building 30, planning and executing the move to ensure continuity of operations. The section conducted site preparation, coordinated equipment teardown, transport, and reinstallation, re-established full network connectivity within required timelines, quickly resolved issues to minimize service disruption, and ensured all supported detachments maintained operational capability throughout the transition.

CANELEMNORAD MESS AND OTHER EVENTS

90. In 2025, the CANELEMNORAD pers participated in the following events:
- a. TGIT at MLP – 05-Feb-25:
 - b. Superbowl Party – 09-Feb-25

- c. TGIT at MLP – 06-Mar-25;
- d. Winterfest – 19-Mar-25;
- e. Mess Dinner (Battle of Britain) – 10-Apr-25;
- f. Hockey/Ice Skating Event – 24-Apr-25;
- g. TGIT at MLP – 06-Jun-25;
- h. White River Rafting – 06-Jun-25;
- i. Canada Day – USAFA - 01-Jul-25;
- j. CWO PT – Hockey Rink SFB Peterson – 08-Jul-25;
- k. TGIT at MLP – 24-Jul-25;
- l. ND Change of Command – The Hub – 15-Jul-25;
- m. TGIT at MLP – 06-Aug-25;
- n. Pikes Peak Ascend – 20-Aug-25;
- o. TGIT at MLP – 21-Aug-25;
- p. TGIT at MLP – 11-Sep-25;
- q. Mess Golf Tournament – USAFA – 16-Sep-25;
- r. Welcome BBQ – USAFA – 20-Sep-25;
- s. Battle of Britain – Airspace Museum SFB Peterson – 21-Sep-25;
- t. TGIT & ND Town Hall at MLP – 25-Sep-25;
- u. Meet & Greet BBQ – 26-Sep-25;
- v. Truth & Reconciliation Ed Event – MLP – 30-Sep-25;
- w. Oktoberfest – Edelweiss German Restaurant – 03-Oct-25;
- x. TGIT at MLP – 09-Oct-25;
- y. TGIT at MLP – 23-Oct-25;
- z. CWO PT – Baseball Field SFB Peterson – 24-Oct-25;
- aa. TGIT at MLP – 06-Nov-25;
- bb. Remembrance Day – Museum Airpark – 11-Nov-25;
- cc. CWO PT – Basketball Court SFB Peterson – 14-Nov-25;

Canadian Forces Morale and Welfare Services

Military Family Services (US) Colorado Springs

- 91. The mission of Military Family Services (US) is to enhance the operational effectiveness of the Canadian Armed Forces by providing services that foster family resilience and stability in the face of military challenges. This is accomplished by offering consistent, mission-focused, and family-centered services to CAF families residing in the United States.
- 92. MFS (US) in Colorado Springs continued to welcome, orient, and support families as they transitioned between communities. Community-building efforts helped foster support networks and ensured families had access to information and resources needed to navigate challenges. Colorado Springs also benefited from vibrant community-led social groups, including hiking, literature, running, and winter sports groups, that operated independently of MFS (US) and assisted in integrating new members.
- 93. Over the past year, MFS (US) hosted and supported a variety of in-person and virtual events, including:
 - a. Child and Youth Winter Wellness Program;
 - b. 28 Days of Gratitude Program;
 - c. Coffee and Calm Workshop;
 - d. Self-Empowerment and Resilience Workshop;
 - e. Posted In Information Session;
 - f. Babysitters Course;
 - g. Pride Packs;
 - h. Child and Youth Wellness Program - Story Stones;
 - i. Connection Kits - Healthy Relationships;
 - j. Healthcare 101 Information Session;
 - k. Home Alone Course;

- l. NORAD Outlaws vs Colorado Warriors Hockey Game (partnered);
 - m. Welcome BBQ;
 - n. Welcome Brief;
 - o. Les Soirées Francophones;
 - p. Trivia Appy-Hour;
 - q. Children's Christmas Party;
 - r. Canada Day Celebrations; and
 - s. Community Coffee Connections featuring mental health resource support, upcoming events in Colorado, community group advertisements, Coffee with the Padre, and Coffee with Mt Carmel Veteran's Service Center Representative.
94. MFS (US) Colorado Springs remains committed to actively fostering community partnerships. Our involvement in the Space Base Delta 1 Community Action Team (CAT) allows us to exchange resources and ideas, enabling support agencies to discuss current community trends and collaborate on effective strategies. Through this participation, MFS (US) has been able to advocate for the needs of Canadian families and ensure their inclusion in local resource planning and decision-making.
