Canada

Trademarks Journal

Vol. 73 No. 3718

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods**Class 09**

(1) Scientific, nautical, surveying, photographic, optical, weighing, measuring, signalling, checking, supervision, life-saving, rescue apparatus and instruments, namely marine compasses, inertial navigation systems, gyrocompasses, sonars, marine depth finders, marine radios; marine control systems, namely dynamic positioning system hardware and software for the positioning and management of ships; surface marine apparatus that may be equipped with devices for measuring water depths and processing oceanographic data, namely floating electronic and mechanical apparatus for navigation, marine positioning and marine surveying, equipped with sensors, video cameras, infrared cameras, radars, sonars, laser range finders, marine depth finders, hydrometers, hygrometers, for measuring (sounding) water depths and processing oceanographic data; apparatus intended for hydrographic activities, namely surveying instruments, marine monitoring radars, hydroacoustic surveying instruments, software for marine depth mapping, video cameras, infrared cameras, radars, sonars, laser range finders, marine depth finders; multi-purpose civil and military surface apparatus, namely hydrographic apparatus for surface water and underwater monitoring, acoustic wave sensors for surface waters, hydrographic surveying, marine monitoring radars; surface apparatus equipped with devices for monitoring, measuring and observing marine depths, namely water level indicators, magnetic compasses; marine apparatus that can be equipped with sensors and transmitters and used for civil and military activities, namely radio transmitters and receivers, optical sensors, infrared sensors, photographic cameras with linear image sensors; marine apparatus for measuring, navigation, observation, monitoring, detection, signalling, communication, positioning at sea and underwater, namely marine compasses, gyrocompasses, inertial navigation systems, marine depth finders, acoustic surface and underwater detection devices, namely liquid level sensors, surface and underwater sonar surveying apparatus, namely magnetic compasses for surveying, surface and underwater apparatus with integrated positioning systems, namely global positioning system [GPS] transmitters; marine apparatus that can be equipped with obstacle detection sensors, namely proximity sensors for the detection of schools of fish; surface marine apparatus that can be

equipped with optical systems, namely radio signal antennas, microwave antennas, low-power military infrared lasers, cameras, radars, telecommunication equipment, namely transmitters, namely radio transmitters for remote controls, global positioning system (GPS) transmitters, telecommunication equipment, namely audio and video transmitters and receivers, speed and position measuring apparatus, namely pressure gauges; optical systems, namely optical frequency metrology devices, radio signal antennas, microwave antennas, low-power military infrared lasers, cameras, radars, that can be equipped with sounding lines, hydrometers, hygrometers, pressure gauges, micrometers, water level indicators, compasses, sextants, sonars, radars, probes for scientific use, namely marine depth finders, telecommunication equipment, namely audio and video transmitters and receivers, inertial navigation systems, optical sensors, electro-optical sensors, software and computer programs for image processing, computer programs and software for image processing, devices for recording, transmitting, reproducing sound, namely acoustic amplifiers, audio speakers, personal headphones for use with sound transmitting systems, boom poles for sound transmission apparatus, digital voice recorders, digital audio tape recorders and devices for recording, transmitting, reproducing images, namely digital photographic cameras, image scanners, slide projectors, optical data carriers, namely data cables, optical transmitters, optical switches, optical communication instrument, namely fibre optic cables, optical switches, optical transceivers, satellite communication apparatus, namely satellite telephones, satellite global positioning system (GPS) receivers, data communication receivers, namely satellite geolocation receivers, satellite receivers; sounding lines, hydrometers, hygrometers, pressure gauges, micrometers, water level indicators, compasses, sextants, sonars, radars, marine depth finders, devices for recording, transmitting, reproducing sound, namely acoustic amplifiers, audio speakers, personal headphones for use with sound transmitting systems, boom poles for sound transmission apparatus, digital voice recorders, digital audio tape recorders and devices for recording, transmitting, reproducing images, namely digital photographic cameras, video mixers, image scanners, video processors, slide projectors; marking buoys; signalling buoys; vehicle navigation apparatus for the remote guidance of vehicles using electronic signals; automatic piloting devices for marine vehicles, namely driving simulators for the steering and control of vehicles; autonomous steering control systems comprising starter control systems, speed control and maneuvering systems for marine vehicles; auto-pilot for boats; auto-pilot for surface drones intended for hydrographic activities; autopilot for surface drones with civil and military multi-purpose capabilities, in particular hydrographic; remote control devices, namely radio transmitters for remote controls; computer hardware for accessing and transmitting digital data remotely via a global computer network, namely computer hardware for enabling users to perform electronic commercial transactions via a global network; downloadable software for the remote control of scientific, nautical, surveying, photographic, optical, weighing, measuring, signalling, checking, supervision, life-saving and rescue apparatus and instruments, namely marine compasses, marine depth finders, acoustic surface and underwater detection devices, namely liquid level sensors, surface and underwater sonar surveying apparatus, namely magnetic compasses for surveying, surface and underwater apparatus with integrated positioning systems, namely global positioning system [GPS] transmitters; recorded software and programs for use in marine and underwater navigation, monitoring and positioning of ships, marine engines and submarines; speed governors for marine and underwater vehicles; apparatus for measuring the speed of vehicles, people, animals and weapons; apparatus for measuring the position of vehicles, people, animals and weapons, namely tachymeters, satellite geolocation receivers (GPS), laser distance sensors, range finders; apparatus for recording time, namely time clocks, automatic timers, time switches, Geiger counters; naval and underwater signalling apparatus, namely LED emergency underwater lights for submarine rescue, rotating signalling lights.

Class 12

(2) Apparatus for locomotion by water, namely ships, seaplanes, boats, marine and underwater drones; remote-controlled marine vehicles, namely civilian drones, marine and underwater drones for hydrographic surveying, marine and underwater drones for hydrographic monitoring and remotely operated marine and underwater vehicles; unmanned vehicles, namely ships, marine and underwater drones for hydrographic surveying, marine and underwater drones for hydrographic monitoring, unmanned marine and underwater vehicles; control devices for boats; control devices for drones; military drones; civilian drones; camera drones; marine drones, marine surface drones intended for hydrographic activities, marine surface drones with civil and military multi-purpose capabilities, in particular hydrographic.

Services**Class 38**

(1) Satellite transmission of messages and data for air and underwater navigation; provision of multi-user access to global information networks for the transfer and dissemination of information and files on land and at sea; electronic transmission of images and photographs via a global computer network; electronic transmission of digital data, namely hydrographic and oceanographic data and images and marine and underwater monitoring data and images via a global computer network; transmission and dissemination of data, namely digital images, via a global computer network; transmission of data, namely digital images, messages, data for marine and underwater navigation, GPS coordinates, route plans via communications by computer terminals, namely desktop computers, portable computers, electronic tablets.

Class 42

(2) Scientific and technological services, namely engineering work, namely evaluation of new inventions, feasibility studies, data collection in the fields of underwater navigation, monitoring and positioning, underwater imaging, oceanographic measuring, underwater exploration; design and development of computers, software, computer systems in the fields of underwater navigation, monitoring and positioning, underwater imaging, oceanographic measuring, underwater exploration; engineering work, namely technical advice and expertise in the fields of land and sea monitoring, detection and communication, engineering work, namely research and development of new products for others in the fields of land and sea monitoring, detection and communication; scientific and technological services, namely evaluations, estimates and research, namely conduct of feasibility studies, data collection in the fields of land, marine and underwater positioning, land, marine and underwater alignment, land, marine and underwater locating, navigation, monitoring and communication.

Goods

Class 09

(1) Computer hardware, and parts and fittings for any of the aforesaid goods; on-board computers for vehicles, and parts and fittings for any of the aforesaid goods; computers for autonomous-driving, and parts and fittings for any of the aforesaid goods; on board electronic systems for providing driving and parking assistance, and parts and fittings for any of the aforesaid goods; on board electronic systems for automatic braking, and parts and fittings for any of the aforesaid goods; on board electronic systems to assisting in maintaining or changing lanes when driving, and parts and fittings for any of the aforesaid goods; cruise control systems for vehicles, and parts and fittings for any of the aforesaid goods; vehicle speed control apparatus, namely, electronic speed controllers, and parts and fittings for the aforesaid goods; automotive computer software and hardware, and parts and fittings for any of the aforesaid goods; computer software in the automotive field, namely, computer software for use in providing multiple user access to a global computer information network, computer software for wireless reception, storage and transmission of data and messages, namely, to provide Internet access, access to wireless local area networks, and to permit the sharing and storage of the user's mobile phone information and personal text messages with the motor vehicle, computer software to enable electronic payments, computer software to enable electronic operation of access barriers and entrance controls, namely, to open, close, lock and unlock doors and gates, computer software to enable wearable and portable devices, namely, smart watches, smart wristbands, smart rings, hand-held computers, and mobile phones to act as remote controllers for controlling access, security and movement of motor vehicles, and computer software to operate and manage car-sharing and ride-sharing programs, and computer software for computing, comparing, analyzing and selling insurance in the automotive field; interactive multimedia software featuring audio and video information for automotive customers, enthusiasts, and dealers on the subject of motor vehicles; automotive computer software and hardware, namely, computer software and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants, and its environment, and parts and fittings for the aforesaid goods; telemetry monitoring devices for motor vehicle and engine applications, namely, electronic global positioning system (GPS), optical, pressure, radar, radio, satellite, and temperature sensors and wireless global positioning system (GPS), optical, pressure, radar, radio, satellite, and

temperature receivers and transmitters, and parts and fittings for the aforesaid goods; electric control panels, and parts and fittings for any of the aforesaid goods; electric control apparatus and instruments for motor vehicles and engines, namely, electronic control systems for engines, simulators for the steering and control of vehicles, vehicle climate controls, cruise controls for motor vehicles, and parts and fittings for the aforesaid goods; sensors, namely, motion sensors, pressure sensors, speed sensors, ultrasonic sensors, and acceleration sensors, and parts and fittings for the aforesaid goods; integrated electronic safety systems for vehicles, namely, electronic tire pressure monitors, back-up sensors and cameras, on-board vehicular surveillance system comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, electronic vibration, shock, motion, angle, temperature and voltage monitors, and alarms in the nature of electronic warning bells and electronic warning lights, and parts and fittings for the aforesaid goods; safety and driving assistant systems, and parts and fittings for any of the aforesaid goods; lasers for use in relation to vehicles, namely, laser object detectors for use on vehicles, and parts and fittings for the aforesaid goods; LADAR apparatus for vehicles comprised of a laser for use in measuring distance, a laser scanner, and a specialized global positioning system (GPS) receiver, and parts and fittings for the aforesaid goods; radar for vehicles to detect objects around the vehicle, and parts and fittings for the aforesaid goods; cameras for vehicles, and parts and fittings for any of the aforesaid goods; onboard cameras, and parts and fittings for any of the aforesaid goods; action cameras, and parts and fittings for any of the aforesaid goods; parking sensors and rear-view cameras for vehicles, and parts and fittings for any of the aforesaid goods; automotive measuring instruments, namely, measuring transducers, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges, and parts and fittings for the aforesaid goods; mobile applications and wireless transmission and receiving equipment for use in connection with autonomous and hands-free driving, automobile safety features and warning or alarm functions, accident prevention and traffic alerts, and parts and fittings for any of the aforesaid goods; driving control unit for vehicles, namely, electrical controllers for gas and diesel engines, and parts and fittings for the aforesaid goods; driver assistance systems for motor vehicles, and parts and fittings for any of the aforesaid goods; charging stations for charging electric vehicles, and parts and fittings for any of the aforesaid goods; electric cables for use in charging electric vehicles, and parts and fittings for the aforesaid goods; batteries for vehicles, and parts and fittings for any of the aforesaid goods; electric accumulators, voltage regulators, aerials, electric batteries and mountings for vehicles, and parts and fittings for any of the aforesaid goods; motor vehicle alarm sensors, and parts and fittings for the aforesaid goods; gauges, namely, fuel gauges, pressure gauges, tire pressure gauges, tire tread depth gauges, and parts and fittings for the aforesaid goods; instrument panels and clusters, namely, panels containing odometers, speedometers, and tachometers, and parts and fittings for the aforesaid goods; odometers, and parts and fittings for any of the aforesaid goods; speedometers, and parts and fittings for any of the aforesaid goods; tachometers, and parts and fittings for any of the aforesaid goods; temperature sensors, and parts and fittings for any of the aforesaid goods; voltmeters, and parts and fittings for any of the aforesaid goods; ammeters, and parts and fittings for any of the aforesaid goods; proximity sensors; electric circuit breakers, and parts and fittings for any of the aforesaid goods; electric commutators for motor vehicles, and parts and fittings for the aforesaid goods; electric control apparatus and instruments for motor vehicles and engines, namely, electronic control systems for engines, simulators for the steering and control of vehicles, vehicle climate controls, cruise controls for motor vehicles, and parts and fittings for the aforesaid goods; electrical sensors, and parts and fittings for any of the aforesaid goods; fire extinguishers for motor vehicles, and parts and fittings for the aforesaid goods; lenses for lamps, namely, anti-reflective lenses, and parts and fittings for the aforesaid goods; printed electrical circuits, and parts and fittings for any of the aforesaid goods; electric

relays, and parts and fittings for any of the aforesaid goods; electric current switches, and parts and fittings for the aforesaid goods; electric wiring harnesses for automobiles, and parts and fittings for the aforesaid goods; mechanical remote controls for motors for vehicles, namely, remote control starters for vehicles, remote controls for operating vehicle alarms, electronic key fobs being remote control apparatus, and parts and fittings for the aforesaid goods; remote control starters for vehicles, and parts and fittings for any of the aforesaid goods; emergency warning lights, and parts and fittings for any of the aforesaid goods; emergency notification system, and parts and fittings for any of the aforesaid goods; electronic interface modules sold as an integral part of a vehicle, and parts and fittings for any of the aforesaid goods; display panels for vehicles, namely, flat panel display screens and touchscreens, and parts and fittings for the aforesaid goods; electronic driver display systems for vehicles, and parts and fittings for any of the aforesaid goods; audio, audiovisual or telecommunications equipment, namely, audiovisual receivers, radios, televisions, telephones, and parts and fittings for the aforesaid goods; car radios, and parts and fittings for the aforesaid good; in-car entertainment systems comprising multiple image computer display screen, multiple input devices, namely, mobile phones, digital music players, digital video players, smart watches, smart wristbands, smart rings, hand-held computers, MP3 and MP4 players, television, DVD player, touchscreen monitors, USB charging port, and parts and fittings for the aforesaid goods; televisions, and parts and fittings for the aforesaid goods; televisions, and parts and fittings for any of the aforesaid goods; radios, and parts and fittings for any of the aforesaid goods; CD players, and parts and fittings for any of the aforesaid goods; personal digital assistants, and parts and fittings for any of the aforesaid goods; tablet computers, and parts and fittings for any of the aforesaid goods; multimedia devices, namely, portable media players being digital music players and digital video players, and parts and fittings for the aforesaid goods; MP3 or MP4 apparatus and equipment, namely, MP3 and MP4 players, and parts and fittings for the aforesaid goods; mobile hard drives, and parts and fittings for any of the aforesaid goods; Universal Serial Bus drives, and parts and fittings for any of the aforesaid goods; cases and holders for mobile phones, smartphones, computers, personal digital assistants, laptops, notebook computers, and parts and fittings for any of the aforesaid goods; chargers for mobile phones, smartphones, laptop and tablet computers, and parts and fittings for any of the aforesaid goods; telephones, and parts and fittings for any of the aforesaid goods; mobile telephones, and parts and fittings for any of the aforesaid goods; mobile phone and tablet computer headsets and accessories, and parts and fittings for any of the aforesaid goods; straps for telephone handsets, and parts and fittings for any of the aforesaid goods; screensavers for phones and tablets, and parts and fittings for any of the aforesaid goods; car telephones, and parts and fittings for the aforesaid goods; highway emergency warning equipment, namely, vehicle breakdown warning triangles, and parts and fittings for the aforesaid goods; thermometers for motor vehicles, not for medical purposes, and parts and fittings for the aforesaid goods; directional compasses; calculators, and parts and fittings for any of the aforesaid goods; electronic instructional and teaching apparatus and instruments, namely, vehicle drive training simulators, and parts and fittings for the aforesaid goods; decorative magnets; tape measures, and parts and fittings for any of the aforesaid goods; eyewear, namely, eye glasses, sunglasses, driving glasses, skiing goggles; cases for eyeglasses, sunglasses and skiing goggles; drivers helmets, and parts and fittings for any of the aforesaid goods; racing driver protective clothing; articles of protective clothing for wear by motorist for protection against accident and injury, namely, shoes for protection against accidents, protective helmets for motorists, safety helmets, protective gloves for motorists; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, and parts and fittings for the aforesaid goods; navigational systems, comprising electronic transmitters, receivers, circuitry, microprocessors, cellular telephone and computer software all for use in navigation and all

integrated into a motor vehicle, and parts and fittings for any of the aforesaid goods; downloadable electronic maps; wireless radio and data transmission and receiving equipment, namely, sensors, namely, motion sensors, proximity sensors, temperature sensors, optical sensors, ultrasound sensors, light curtain sensors, pressure sensors and acceleration sensors, computers, and data wireless transceivers to provide connectivity within a vehicle, between vehicles, with cell phones, and with data centres, and parts and fittings for the aforesaid goods; interactive multimedia software, namely, interactive computer application software for a mobile device and computer that enables users to connect remotely with their vehicles to access vehicle information and control functions, and interactive computer application software for a mobile device and computer that provides customized information about the functions and features of a motor vehicle; electric connections, namely, electric wires and connection fittings therefor; wireless controllers used in connection with vehicles and vehicle engines to remotely monitor and control the function and status of vehicle mechanical and electrical systems, namely, radar detectors, light detectors, electric control panels, telemetry devices comprising electronic global positioning system (GPS), optical, pressure, radar, radio, satellite, and temperature sensors and wireless global positioning system (GPS), optical, pressure, radar, radio, satellite, and temperature receivers and transmitters, all for use in connection with vehicles, and parts and fittings for the aforesaid goods; communications apparatus, namely, radio, satellite, and GPS transmitters and receivers used in sending and receiving electronic communication signals via vehicles, and parts and fittings for the aforesaid goods; computer hardware and software for tracking driver behavior; electric global positioning system (GPS), optical, pressure, radar, radio, satellite, and temperature sensors, computers and wireless global positioning system (GPS), optical, pressure, radar, radio, satellite, and temperature transceivers to provide connectivity within the vehicle, between vehicles, with cell phones, and with data processing centers, and parts and fittings for the aforesaid goods; computer hardware, computer software and electrical apparatus, namely, touchscreen monitor and computer operating system that allows tactile, audible and visual interfaces to interact with occupants of the vehicle; wireless receivers and transmitters for use in connection with remote computers for use in automobiles for tracking, monitoring and diagnosing maintenance for vehicles and for providing vehicle maintenance information to drivers, and parts and fittings for the aforesaid goods; computer application software for use by drivers and passengers of vehicles for accessing, viewing, and interacting with and downloading information and entertainment content, namely, news, digital video recordings, music, podcasts; downloadable software and on-board computer software that provides users with remote and in-vehicle access to make restaurant reservations, locate and reserve parking, make travel arrangements, request valet service, order transport and delivery of parcels, order chauffeur and concierge services, locate vehicle charging stations, order taxi transportation, book tickets for sporting, cultural and entertainment events, book rental cars and lease of cars, set up ride shares, request and obtain car history, participate in car rental club, obtain information about public and mass transit, manage business travel, track driver decisions to collect and transmit results with recommendation for vehicle selection, plan routes and modes of transportation with possibility to earn points that can be used to acquire work benefits and vouchers for goods and services of others, coordinate and engage transportation services, provide communication and entertainment connectivity by means of mobile phones, personal digital assistants (PDAs), and direct to in-vehicle screens in connection with the use of motor land vehicles, provide connectivity within the vehicle, between vehicles, with cell phones, and with data centres; diagnostic apparatus consisting of sensors, namely, motion sensors, pressure sensors, liquid level sensors, temperature sensors, timing sensors, and acceleration sensors for use in testing vehicle function and in diagnosing vehicle electrical and mechanical problems, and parts and fittings for the aforesaid goods; software and software applications to allow users to track and locate stolen vehicles, charge electronics, and store and synchronize collected personalized user

and vehicle information, namely, driver identification information, driver habits, driver's driving record, vehicle history, vehicle function reports, vehicle maintenance and repair alerts and records; electronic interface modules for wired and wireless interface of mobile phones and wearable and portable electronic devices with an automotive electronics system, namely, smart watches, smart wristbands and hand-held computers, and parts and fittings for the aforesaid goods; integrated electronic computer systems for automated vehicle control comprising electronic control unit that monitors engine performances and delivers re-calculated sensor values to the original engine control unit to increase engine performance, and parts and fittings for the aforesaid goods; downloadable mobile applications to detect vehicle location, start vehicle, lock and unlock vehicle, view fuel level and odometer reading, control temperature in vehicle, track history of vehicle use; application software for use in vehicles for remote start, setting climate control, unlocking vehicles, tracking vehicle use, storing vehicle information, contacting customer services for automobiles and stolen vehicle center, and to obtain vehicle diagnostic data, monitor and manage vehicle maintenance service; computer games, computer games software; computer software and electronic databases containing data sets and data files in the field of motor vehicles for 3D printing, the design and manufacture of motor vehicles and parts and accessories therefor, and the design and manufacture of replica and model vehicles and parts and accessories therefor; computer-aided design (CAD) software and data files; downloadable image files in the field of motor vehicles; electronic databases containing image files; electronic databases containing downloadable files, data sets, data files and software relating to car sharing schemes for matching drivers with cars; electronic databases containing downloadable files, data set file, and data files and software relating to vehicle driver behaviour for improving safety risks, providing safety warnings and correcting driver error; simulators for the steering and control of land vehicles, and parts and fittings for any of the aforesaid goods; downloadable architectural models of vehicles and vehicle interiors; virtual reality software for playing computer games and motor vehicle driver training and computer hardware, and parts and fittings for any of the aforesaid goods; augmented reality software for integrating electronic vehicle data with real world environments and augmented reality computer hardware, and parts and fittings for the aforesaid goods

Class 12

(2) Vehicles, namely cars, and structural parts for all of the aforesaid goods; motor vehicles, namely, automobiles, trucks, vans, sport utility vehicles, and structural parts for all of the aforesaid goods; apparatus for locomotion by land, air and water, namely, cars, airplanes and boats, and structural parts for all of the aforesaid goods; motorized land vehicles, namely, cars, and structural parts for all of the aforesaid goods; Armored land vehicles, and structural parts for all of the aforesaid goods; off-road vehicles, and structural parts for all of the aforesaid goods; all-terrain vehicles (ATVs), and structural parts for all of the aforesaid goods; sport all-terrain vehicles, and structural parts for all of the aforesaid goods; utility all-terrain vehicles, and structural parts for all of the aforesaid goods; off-road buggies, and structural parts for all of the aforesaid goods; recreational vehicles, and structural parts for all of the aforesaid goods; off-road vehicles, namely, off-road utility vehicles, off-road trucks, and off-road terrain vehicles, and structural parts for all of the aforesaid goods; all-terrain vehicles (ATVs), and structural parts for all of the aforesaid goods; sport utility vehicles, and structural parts for all of the aforesaid goods; all-terrain vehicles in the nature of side-by-sides, and structural parts for all of the aforesaid goods; tractors, and structural parts for all of the aforesaid goods; driverless motor vehicles, namely driverless cars, and structural parts for all of the aforesaid goods; autonomous motor vehicles, namely autonomous automobiles, trucks, vans, sport utility vehicles, and structural parts for all of the aforesaid goods; racing cars, and structural parts for all of the aforesaid goods; reconditioned classic vehicles, namely reconditioned classic automobiles, trucks, vans, sport utility vehicles, and structural parts

for all of the aforesaid goods; vehicles sold in kit form; commercial vehicles, namely trucks and vans, and structural parts for all of the aforesaid goods; electric vehicles, namely, electrically powered motor vehicles, and structural parts for all of the aforesaid goods; electric vehicles, and structural parts for all of the aforesaid goods; hybrid vehicles, and structural parts for all of the aforesaid goods; military vehicles, namely, armoured cars, armoured trucks, tanks, military automobiles and sport utility vehicles, and structural parts for all of the aforesaid goods; vehicles for use by emergency services, search and rescue services, namely, police vehicles, namely, cars, trucks, vans, sport utility vehicles and ambulances, and structural parts for all of the aforesaid goods; powertrain mechanism comprised of clutch, transmission, drive shaft, and differential for land vehicles, and parts and fittings for all of the aforesaid goods; engines for land vehicles, and structural parts for all of the aforesaid goods; motors for land vehicles, and structural parts for all of the aforesaid goods; engines for motorcycles, and structural parts for all of the aforesaid goods; motors for motorcycles, and parts and fittings for all of the aforesaid goods; engines for bicycles, and parts and fittings for all of the aforesaid goods; motors for bicycles, and structural parts for all of the aforesaid goods; engines for racing cars, and structural parts for all of the aforesaid goods; motorcycles, and structural parts for all of the aforesaid goods; dirt bikes, and structural parts for all of the aforesaid goods; motorized food carts and food trucks, and structural parts for all of the aforesaid goods; trailers, namely, car trailers, truck trailers, bicycle trailers, boat trailers, travel trailers, cargo trailers, utility trailers, and parts and fittings for all of the aforesaid goods; arm rests for vehicle seats, and structural parts for all of the aforesaid goods; luggage bags specially adapted for fitting in the boot of vehicles; car interior organizer bags, nets and trays specially adapted for fitting in vehicles, and structural parts for all of the aforesaid goods; head-rests for vehicle seats, and structural parts for all of the aforesaid goods; vehicle head rest covers, and structural parts for all of the aforesaid goods; wing mirror protective and vanity covers, and structural parts for all of the aforesaid goods; car seat covers; covers for vehicle steering wheels; steering wheels for vehicles, and structural parts for all of the aforesaid goods; fitted covers for vehicles; wheels for vehicles, and parts and fittings for all of the aforesaid goods; alloy wheels, and parts and fittings for all of the aforesaid goods; wheel trims, and parts and fittings for all of the aforesaid goods; wheel rims, and parts and fittings for all of the aforesaid goods; spare wheels, and parts and fittings for all of the aforesaid goods; hub caps for wheels, and structural parts for all of the aforesaid goods; hub centre caps, and structural parts for all of the aforesaid goods; wheel covers; wheel sprockets, and structural parts for all of the aforesaid goods; tyres, and structural parts for all of the aforesaid goods; automobile tyres, bicycle tyres, and structural parts for all of the aforesaid goods; inner tubes for tyres; puncture repair outfits for bicycle tires; spoilers for vehicles, and structural parts for all of the aforesaid goods; covers for vehicles; seats for vehicles, and structural parts for all of the aforesaid goods; safety seats for vehicles, and structural parts for all of the aforesaid goods; safety belts for vehicles, and parts and fittings for all of the aforesaid goods; safety harnesses for vehicles, and parts and fittings for all of the aforesaid goods; safety signals [audible] for vehicles; anti-theft alarms for vehicles; anti-theft locks for use on automobile steering wheels; anti-theft warning apparatus for motor cars; electrical anti-theft installations for vehicles; car security alarm systems; security alarms for vehicles; airbags for vehicles, and structural parts for all of the aforesaid goods; radiator grilles for vehicles, and structural parts for all of the aforesaid goods; trim panels for vehicle bodies, and parts and fittings for all of the aforesaid goods; doors for vehicles, and structural parts for all of the aforesaid goods; vehicle windows, and structural parts for all of the aforesaid goods; vehicle windshields, and structural parts for all of the aforesaid goods; window glass for vehicles [finished products] and windshields, and structural parts for all of the aforesaid goods; roof windows for vehicles, and structural parts for all of the aforesaid goods; skylight windows for vehicles, and structural parts for all of the aforesaid goods; vehicle bumpers, and structural parts for all of the aforesaid goods; vehicle centre consoles sold as

parts of vehicles and which incorporate electronic interfaces; disposable protectors for steering wheels and road wheels, all made of polythene or of plastic film or sheet materials; bicycles, and structural parts for all of the aforesaid goods; electric bicycles, and structural parts for all of the aforesaid goods; children's bicycles, and structural parts for all of the aforesaid goods; balance bikes, and structural parts for all of the aforesaid goods; tricycles, and structural parts for all of the aforesaid goods; parts, fittings and accessories for bicycles; mounts adapted for bicycles, and structural parts for all of the aforesaid goods; bicycle saddlebags, and structural parts for all of the aforesaid goods; hover boards, and structural parts for all of the aforesaid goods; electric scooters, and structural parts therefor; motor scooters, and structural parts therefor; quadricycles; quad bikes; motorised unicycles, and structural parts for all of the aforesaid goods; go-karts, and structural parts for all of the aforesaid goods; carts being motorised land vehicles, and structural parts for all of the aforesaid goods; golf carts, and structural parts for all of the aforesaid goods; kite buggies, and structural parts for all of the aforesaid goods; strollers and prams, and their parts and accessories; baby, infant and child seats for vehicles, and structural parts for all of the aforesaid goods; sun blinds, roof racks, luggage carriers and nets, cycle carriers, sail board carriers, ski carriers, and snow chains, all for vehicles, and parts and fittings for all of the aforesaid goods; aircraft, and structural parts for all of the aforesaid goods; space vehicles, and structural parts for all of the aforesaid goods; drones, namely, camera drones, civilian drones, delivery drones, photography drones and military drones; unmanned aerial vehicles, and structural parts for all of the aforesaid goods; personal air vehicles, and structural parts for all of the aforesaid goods; parachutes, and structural parts for all of the aforesaid goods; hovercraft, and structural parts for all of the aforesaid goods; underwater vehicles, namely, underwater remotely operated vehicles for transport underwater and for underwater inspection, and structural parts for all of the aforesaid goods; jet vehicles for water sports, and structural parts for all of the aforesaid goods; teleoperated vehicles, not toys, and parts and fittings for all of the aforesaid goods

Services

Class 38

(1) Telecommunication access services, namely, telephone and global computer network communication services, namely, electronic mail, telephone communication services, providing multiple user access to the Internet; providing electronic instant message alerts via the internet notifying individuals of timing for vehicle maintenance; providing electronic transmission of motor vehicle information, audio and video messages and data, namely, providing e-mail and messenger notification alerts to individuals related to vehicle maintenance requirements, vehicle performance, vehicle security and driver alerts; providing electronic transmission of data, namely, text, audio, video and images, for the control of autonomous vehicles via a global computer network; providing electronic transmission of data, namely, text, audio, video and images for providing access to a global computer network; providing electronic transmission of data, namely, text, audio, video and images for payment; providing electronic transmission of data, namely, text, audio, video and images for remote starting of engines; providing electronic transmission of data, namely, text, audio, video and images relating to fitness tracking; providing electronic transmission of data, namely, text, audio, video and images relating to authentication of user identity; Mobile telephone communications; email services; providing electronic transmission of satellite navigation information via a computer network; operating a value added network (VAN) via global computer networks; Providing telecommunications connections and user access to a global computer network; Providing user access to global positioning signals for navigation purposes; Providing access to a website featuring transport and traffic information and connecting calls for roadside and emergency assistance; Providing telecommunication connectivity services and access to electronic communications networks, for transmission and download or reception of audio, video or

multimedia content; delivery, transmission, streaming, broadcasting, webcasting of data and digital content, including of information, music, video, podcasts and audio recordings; Electronic transmission of digital music via a computer network; Telecommunications services for receiving, coordinating and forwarding of remote calls on vehicle condition; Electronic transmission of text, audio, video, image, signals, position, movement and data between land vehicles, land vehicle components, data centers, phones, personal computers and other electronic and digital devices; Computer aided transmission of signals for vehicle locking mechanism; Providing electronic transmission of information via a computer network in the fields of roads, vehicles, traffic and driving; Providing alerts via the Internet notifying of vehicle battery condition, charging status, charging time, unplug status, and full-charge status; Providing telecommunication connections to the internet to search and locate and provide status of electric vehicle power filling points; telecommunication access services, namely, providing access to an internet website enabling others to transmit, share, upload, download, forward, access, display, tag and post information, text, images, video and audio content in the field of motor vehicles; providing online chat room services; interactive communications services, namely, telephone and global computer network communication services, namely, electronic mail, telephone communication services, providing multiple user access to the Internet; Providing access to on-line forums for transmission of messages among computer users; Providing access to Internet forums; Advice, information and consultancy in the field of the transmission of voice, text, video and images over a wireless network to and from motor vehicles

Class 42

(2) Scientific and technological services, namely, research and design in the field of vehicles; Industrial analysis and research services in the field of vehicles, travel, mobility and transportation; Design and development of computer hardware; Design and development of computer software; Engineering services, namely the design of car bodies and parts of car bodies; Automotive research, design and development services; engineering design services in the field of automotive engineering; engineering drawing services in the field of automotive engineering; engineering testing services in the field of automotive engineering; design services, drawing services and testing services in the field of automotive engineering; advisory and consultancy services in the field of automotive engineering; design and development of motor vehicle structural parts; Research, design and development of remotely operated motor vehicles and drones; product design and development of accessories for vehicles; design of the interior of vehicles; conducting technical tests and analysis in the automotive industry, namely, conducting crash tests; providing virtual computer systems and virtual computer environments through cloud computing for use in connection with motor land vehicles; providing augmented reality computer systems for use in connection with vehicles or remotelyoperated devices; Vehicle diagnostic services, namely, providing vehicle diagnostic information, vehicle mileage, vehicle maintenance needs, vehicle diagnostic readings and diagnostic trouble codes to drivers and car dealers regarding vehicles via cellular technology; Research, development and testing of new products and materials, advisory and consultancy services relating to research, development and testing of new materials; Rental of computers and computer software; Laboratory testing of materials; Computer programming; Software development, programming, updating and implementation; programming, updating and implementation of computer hardware, software and data files relating to autonomous and semiautonomous driving; Development, programming, updating and implementation of computer hardware, software and data files relating to remotely-operated vehicles and devices, including automobiles and drones; Development, programming, updating and implementation of computer hardware, software and data files relating to 3-D printing; Hosting of computer sites (websites); computer technology consultancy services; Hosting an online community website featuring

information about vehicles and remotely-operated devices; Computer systems monitoring services that allow users to remotely view, monitor, program, operate and control motor vehicle systems for others via the internet; Remote monitoring of electric battery charging systems used in land vehicles; Providing an inspection program for pre-owned vehicles; Automobile diagnostic services, namely, providing interactive information concerning the status and power of vehicles via mobile phones and computer networks and monitors; Computer systems monitoring services that allow users to remotely program the time for turning on heating or air conditioners and other features in vehicles via mobile phones and the Internet; Information, consultancy and advice relating to any of the aforesaid services; Consulting services in the field of environmental assessment and planning; professional consultancy in relation to the conservation of energy; advisory services in the fields of environmental compliance and permitting; technical project studies, programs, and campaigns in the field of environmental conservation; environmental monitoring services; accreditation and consultancy services relating to environmental issues and compliance with environmental requirements; Clothing design; Design of protective clothing; design of sports clothing; Graphic design services; Scientific information, advice and consultancy relating to the aforesaid services

(1) Coal-tar roofing adhesive; waterproofing chemical compositions in pre-fabricated and self-adhering liquid form, to serve as an air and water barrier membrane that is permeable to vapor, for use in construction, particularly for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; waterproofing chemical compositions in pre-fabricated and self-adhering liquid form, to serve as an air and water barrier membrane that is non-permeable to vapor, for use in construction, particularly for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; waterproofing chemical compositions in pre-fabricated liquid form, to serve as a water barrier membrane for use in construction, particularly for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; waterproofing chemical compositions in pre-fabricated and self-adhering liquid form, to serve as an air and water barrier membrane for use in construction, particularly for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; roofing adhesive and waterproofing chemical compositions for articles of masonry, wood and other building and construction surfaces; polymer based coatings other than paints, namely, acrylic coatings for use

on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; polymer based coatings other than paints, namely, acrylic coatings for use as water-resistant and waterproofing coatings on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; polymer coatings other than paints, namely, urethane based coatings for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; polymer coatings other than paints, namely, urethane based coatings for use as water-resistant and waterproof coatings on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; polymer coatings other than paints, namely, acrylic water-based coatings having a chemical composition with anti-microbial properties for use on surfaces of building materials, namely, concrete, brick, stone, wood, glass, metal, plastic, masonry, composite wood, plastic composites, metal composites, and stucco; polymer coatings other than paints, namely, acrylic water-based coatings having a chemical composition with anti-microbial properties for roofing; polymer coatings other than paints, namely, acrylic water-based coatings having a chemical composition with anti-microbial properties for use on siding, namely, metal siding, aluminum siding, vinyl siding, wood siding, concrete siding, stone veneer siding, and fiber cement siding; polymer coatings other than paints, namely, clear acrylic water-based coatings having a chemical composition with anti-microbial properties for use on surfaces of building materials, namely, concrete, brick, stone, wood, glass, metal, plastic, masonry, composite wood, plastic composites, metal composites, and stucco, roofing, and siding, namely, metal siding, aluminum siding, vinyl siding, wood siding, concrete siding, stone veneer siding, and fiber cement siding; polymer coatings other than paints, namely, clear acrylic water-based coatings in spray form and having a chemical composition with anti-microbial properties for use on surfaces of building materials, namely, concrete, brick, stone, wood, glass, metal, plastic, masonry, composite wood, plastic composites, metal composites, and stucco, roofing, and siding, namely, metal siding, aluminum siding, vinyl siding, wood siding, concrete siding, stone veneer siding, and fiber cement siding; polymer coatings other than paints, namely, clear acrylic water-based coatings with low volatile organic compounds (VOC) and having a chemical composition with anti-microbial properties for use on surfaces of building materials, namely, concrete, brick, stone, wood, glass, metal, plastic, masonry, composite wood, plastic composites, metal composites, and stucco, roofing, and siding, namely, metal siding, aluminum siding, vinyl siding, wood siding, concrete siding, stone veneer siding, and fiber cement siding; chemical sealants for the sealing of roofs, walls and floors; polymer coatings other than paints, namely, urethane based sealants for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures

Class 02

(2) Waterproof paints; polymer based paints for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; polymer based paints for use as water-resistant and waterproofing coatings on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; urethane based paints for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; urethane based paints for use as water-resistant and waterproof coatings on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; acrylic polymer and acrylic copolymer primers; roof paints; epoxy coatings for use on concrete industrial floors; preservative coatings for insulation, drywall and masonry; water-based fire retardant coatings for building construction materials; elastomeric-based coatings for use on roofs, walls and building foundations; polyurethane surface coatings for use on roofs, walls and floors of building structures, namely, a moisture barrier with abrasion resistant properties

Class 06

(3) Metal roofing grids; metal building products, namely, roofing; metal roofing, incorporating solar cells, namely, roofing kits comprised of framing for mounting solar panels to a roof, solar modules, electrical connectors for solar panels, ground fault protectors for solar panels, ground fault protectors, power inverter, battery back-up system, all integrated with solar electric panels; metal roofing materials and systems, namely, metal roofing and roofing panels of metal and metal hardware therefor; metal wall panels and metal hardware therefor; sheet metal used in the further manufacture of metal roofing and metal wall products

Class 17

(4) Resin-based sealants, namely, urethane based sealants for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; sealants for buildings, namely, acrylic polymer and acrylic copolymer sealants for inhibiting and preventing staining and degradation of surface coatings on buildings; polymer sealant and bonding agent, namely, resin-based sealants for use in sealing and bonding expansion and control joints, metal reglets, precast concrete panels, tiltup walls, metal curtain walls, concrete copings, window and door perimeters, and glass panel bedding and glazing seams

Class 19

(5) Non-metal soffits; roof panels, not of metal; roof trusses, not of metal; wall panels, not of metal; wood deck panels; asphalt based roof mastics; asphalt granules for roofing; roofing felts; roofing base sheets, namely, thermoplastic polyester sheets for roofing and polycarbonate sheets for roofing; roofing repair fabric; tar-based concrete patching compound; non-metal building products, namely, modified bitumen roofing membranes and modified bitumen membranes for use on the sides of houses and buildings; roofing membranes; single ply roof membrane; non-metal building materials, namely, pre-fabricated, permeable and non-permeable air and water barrier membrane for use as flooring underlayment that can also be used on roofs, floors, walls, ceilings, foundations, pavements being floors, decks and other building structures; non-metal building materials, namely, pre-fabricated self-adhering permeable and non-permeable air and water barrier membrane for use as flooring underlayment, that can also be used on roofs, floors, walls, ceilings, foundations, pavements being floors, decks and other building structures; non-metal building materials, namely, pre-fabricated, self-adhering air, vapor and water barrier membrane for use as flooring underlayment that can also be used on roofs, floors, walls, ceilings, foundations, pavements being floors, decks and other building structures; pre-fabricated laminated vapor barrier membranes for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; pre-fabricated, self-adhering laminated vapor barrier membrane for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; pre-fabricated water barrier waterproofing membrane for use on foundations of buildings; pre-fabricated, self-adhering air and water barrier, waterproofing membrane for use on foundations of buildings; pre-fabricated vapor and water barrier waterproofing membrane for use on roofs, floors, walls, ceilings, foundations, pavements being floors, decks, and other building structures in the nature of floor underlayment; pre-fabricated, self-adhering air, vapor and water barrier waterproofing membrane for use on roofs, floors, walls, ceilings, foundations, pavements being floors, decks and other building structures in the nature of floor underlayments; pre-fabricated air, vapor and water barrier membrane composed of multi-layer polymer film for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; waterproof air, vapor, and water membranes of polymeric modified asphalt for waterproofing buildings; urethane-based membrane for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; urethane based membrane for forming water resistant or waterproof coatings for use on roofs, floors, walls, ceilings, foundations, pavements, decks and other building structures; fiberglass fabrics and mats for

structural reinforcement of single ply, metal, modified and bur roofs, sold directly to roofing customers for use in combination with a roof coating to facilitate in the sealing, maintenance, upgrading, restoration and waterproofing of said roofs; asphalt roof coatings; rubberized asphalt roof coatings; concrete patching compound; elastomeric-based coatings for use on roofs, walls and building foundations; bituminous roof coatings; waterproofing asphalts; tar-based concrete patching compound; non-metal building products, namely, roof membranes and reflective roof membranes not for use with solar energy collection, transmission or generation; coal-tar roofing coating; water-based polymeric modified asphalt emulsion to serve as an air, vapor, and water barrier for waterproofing buildings; polymeric modified asphalt emulsion to serve as an air, water, and vapor barrier for waterproofing buildings; asphalt in liquid form made of solvent-based polymer modified asphalt for use as an air, vapor, and water barrier for waterproofing buildings; asphalt-based roofing primers; asphalt-based roofing paint; acrylic roof coatings; latex roof coatings

Services

Class 35

(1) Business records management for others relating to roofing maintenance; database management for others in the field of roofing maintenance; preparing business and financial reports for others, namely, work history reports that document roofing repair, renovation, replacement and maintenance costs, budget summaries for roof requirements and maintenance and job inspection reports for roofing systems; life cycle and energy-saving cost analyses for roofing systems; consultation services in the field of energy efficiency

Class 37

(2) Roofing consultation; repair, maintenance and installation of roofs; roofing installation and repair; maintenance services relating to flooring, namely, coating and resurfacing services; roofing consultation, namely, evaluating the roofing needs of others and determining the appropriate roofing system in response to the analysis; building inspections, namely, roofing inspections in the course of building construction or repair; roofing installation and maintenance; construction project management services in the field of installation of roofing; providing information relating to roofing maintenance via a database; providing consulting services in the field of roof maintenance based on a review of construction details, photographic documentation, architectural drawings, visual observation notes, core sample documentation, and lab analysis reports; roof replacement consulting featuring a comparative analysis of roofing solutions based on application-specific concerns and requirements; installation services for roofing systems for buildings and related components to the custom design and specification of others

Class 40

(3) Custom manufacture of metal and non-metal roofing, walls, and deck panels for others

Class 42

(4) Engineering services in the field of roofing; technical planning of renewable energy generation systems for use on homes and buildings; Technology consultation services in the field of renewable energy

Computer application software for managing, tracking and reporting business process management performance metrics; Recorded computer programs and recorded computer software for managing, tracking and reporting business information related to corporate governance, business process management and regulatory compliance, available online from databases and the Internet; Downloadable computer software for creating workflows for human resources; Computer software for resource planning for supply chain management; Computer software for accounting; Computer software for document management in the field of policy, process and procedure, process automation and robotic process automation, for standards management and implementation, all for business purposes; Computer software for timing and industrial process control; Downloadable computer software applications for creating workflows for human resources; Downloadable computer software applications for resource planning for supply chain management; Downloadable computer software applications for accounting; Downloadable computer software applications for document management in the field of policy, process and procedure, process automation and robotic process automation, for standards management and implementation, all for business purposes; Downloadable computer software applications for timing and industrial process control; Education software containing topics of instruction in the fields of accounting, branding, business leadership, business management, business process management, financial planning and financial management, information technology security, and sales; Computer based training apparatus, namely tablets and laptops with downloaded educational software containing topics of instruction in the fields of accounting, branding, business leadership, business management, business process management, financial planning and financial management, information technology security, and sales; Computer programs featuring information, training guides and training manuals for the training of personnel in the fields of accounting, branding, business leadership, business management, business process management, financial planning and financial management, information technology security, and sales; Training guides in electronic format; Training manuals in electronic format; Self-paced downloadable training guides in electronic format in the fields of business and finance; Self-paced

downloadable training manuals in electronic format in the fields of business and finance; Computer programs for receiving, processing and analyzing data in the field of automated business processes

Services

Class 35

(1) Marketing services in the field of software publishing for others; Administration of business affairs; Administration relating to business planning; Advice relating to business management; Advice relating to business organisation; Advisory services for business management; Advisory services relating to business organisation; Advisory services relating to business planning; Advisory services relating to business risk management; Benchmarking (evaluation of business organisation practices for business management purposes); Business accounts management; Business advisory services relating to the establishment of franchises; Strategic business analysis services; Business consultancy services relating to data processing in the field of invoice management, payroll, financial investment services and customer management; Business consultancy services relating to marketing, namely providing business advice relating to marketing; Business consultancy services relating to the supply of quality management systems; Business development services being business incubation services; Business efficiency expert services; Business efficiency services, namely preparation of business profitability and feasibility studies; Business information management services; Business management and administration services supporting utilisation of a global computer network; Business modelling services, business statistical analysis and reporting in the field of supply chain modeling; Business monitoring services, namely business process management and business process re-engineering; Business project management; Business records keeping, namely financial records management; Business strategic planning; Business management supervision; Collecting business information, namely market research information; Commercial business management; Compilation of business data, namely market statistics; Computer assisted business information collection and compilation, namely market research information and statistics; Computerised management of financial business records; Consultancy relating to business document management; Consultancy relating to business efficiency, namely business efficiency expert services; Consultancy relating to business organisation; Consultancy relating to business planning; Consultancy relating to the establishment and running of businesses; business auditing, namely examining, reviewing or assessing the working of businesses and organizations; Preparation of documents relating to business; Provision of business administration, business management and business process management assistance; Service to assist in establishing a network of business contacts

Class 41

(2) Business educational services, namely arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars in the field of business management, business process management and financial management; Business training consultancy services, namely consultancy and information services in the field of arranging and conducting courses on business management, business, process management and financial management; Conducting of business conferences; Advisory services relating to training, namely providing advice in the field of arranging and conducting courses on business management, business process management and financial management; Arranging of exhibitions for training purposes in the field of business management, business process management; Providing Coaching in the field of business management; Computer based training in the field of business management, business process management and financial management; Provision of information relating to training in the field of business management, business process

management and financial management; Provision of training facilities, namely providing classroom facilities for training in the field of business management, business process management and financial management; Setting of training standards, namely developing and promoting standards and best practices in the field of business management, business process management and financial management training; Technical training, namely arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars in the field of computer software development for use in business management, business process management and financial management

Class 42

(3) Advisory services relating to computer software; Computer software consultancy; Computer software design; Computer software development; Computer software engineering; Computer software programming services; Computer support services, namely technical support for diagnosing computer hardware problems, computer software technical support services; software as a service (SaaS) provide for hosting software for use by others for creating workflows for human resources, for resource planning for supply chain management, for accounting, for document management in the field of policy, process and procedure, process automation and robotic process automation, for standards management and implementation, all business purposes, and for timing and industrial process control; Installation of middleware computer software for business process automation, robotic process automation, business process management, business workflows, artificial intelligence workflows, artificial intelligence processes, deterministic processes, probabilistic processes, human-artificial intelligence workflows, human-artificial intelligence agent workflows, human-artificial intelligence process management, and human-artificial intelligence processes, knowledge management, artificial intelligence chat assistant, and artificial intelligence assistant; Maintenance of computer software; Providing non-downloadable web-based software for use in the fields of business and finance; Rental of computer software; Software as a service (SaaS) for use in the fields of business and finance; Updating of computer software; Computerised business information storage, namely electronic data storage for archiving business records; Development of industrial processes using computer software and development tools in the field of artificial intelligence; Services for monitoring industrial processes, namely monitoring of computer system operation and equipment automation systems by remote access

Trademark Type

Standard Characters

Goods

Class 01

(1) Coolants; antifreeze; hydraulic fluids; chemical motor oil additives; chemical additives for engine oil; chemical additives for fuel treatment; chemical treatments for internal combustion engines, namely, anti-knock substances; chemical additives for use with internal combustion engine fuels

Class 07

(2) Diesel and gasoline-driven internal combustion engines, for power generation, other than for land vehicles, and parts therefor; diesel and gasoline-driven internal combustion engines for boats, other than land vehicles, and parts therefor; diesel and gasoline-driven internal combustion engines for mining equipment and parts therefor, and replacement parts for all the aforesaid; diesel engines for mining machines, and replacement parts therefor; engines, other than for land vehicles, namely, boat engines, airplane engines, marine engines, engines for the generation of electric power, engines for industrial machinery, engines for gas operated power generators, and replacement parts therefor; diesel and gasoline-driven combustion engines and their parts for the generation of electricity; engines for boats; motors for boats; compressed air engines for other than land vehicles, namely, compressed air engines for industrial machinery, compressed air engines for power generation, and replacement parts therefor; driving motors other than for land vehicles, for use in agricultural machinery, industrial machinery, remote controlled robots, and replacement parts therefor; current generators; oil filters; oil, gasoline, diesel fuel and air filters for motors and engines; anti-pollution devices being catalytic converters for motors and engines, and replacement parts therefor; filters for cleaning cooling air for engines; filters for machines for generating electricity or engines; fuel filters and structural parts thereof; air filters for engines and motors and oil filters and structural parts thereof; oil, gasoline, air and fuel filters for motors and engines of land and marine vehicles; engine parts, namely, turbochargers and parts thereof; canisters and housing air filters for engines and motors and oil filters and replacement; filters for the reduction of emissions from exhaust and the reduction of noise for use with engines; machine parts, namely, heavy-duty starting fluid pumping systems comprised of electrical and mechanical mounting kits containing valves and valve fittings, cylinder clamps, switches, control cables, compression nuts and sleeves, starting fluid cylinders and gaskets, starting fluid spray cans, and injectors, sprayers

and atomizers, and replacement parts therefor; parts of machines, namely, compressed air pumps, air condensers, starter alternators, anti-friction bearings for machines, anti-friction pads for machines, machine aprons, axles for machines, ball rings for bearings, ball-bearings, bearing brackets for machines, bearings for transmission shafts, engine bearings, for use in industrial machinery, and replacement parts therefor; machine parts, namely, bearings and bushings, roller bearings, bearing housings and bearing inserts; engine parts, namely, fan belts for motors and engines, belt conveyors, belts for conveyors, belts for machines, belts for motors and engines; cartridges for filtering machines, being air filters, fuel filters, and lubricant filters used in heavy-duty diesel engines, and replacement parts therefor; catalytic converters; centrifugal grinding machines; centrifugal compressing machines; centrifugal machines being centrifugal blowers, centrifugal casting machines; machines for the centrifugal separation of fluids for industrial use, and replacement parts therefor; compressed air machines, namely, compressed air dryers for vehicle engines, compressed air pumps, and replacement parts therefor; compressed air pumps; connecting rods for machines, motors and engines; fuel conversion kits for internal combustion engines comprising supply lines, fuel cylinders, fuel-specific injectors, and replacement parts therefor; crank shafts; crankcases for machines, motors and engines; cranks being parts of machines, and replacement parts therefor; cylinder heads for engines; cylinders for motors and engines; pistons; pistons for cylinders; exhaust pipes for motors and engines and replacement parts therefor; fans for motors and engines; fuel injection devices for internal combustion engines; gear boxes other than for land vehicles, namely, gear boxes for motors, gear boxes for engines, gear boxes for industrial machinery, and replacement parts therefor; Planetary gears, other than for land vehicles, and replacement parts therefor; Bearing housings for machines; and replacement parts therefor; igniting devices for internal combustion engines, namely, ignitions for vehicles, and replacement parts therefor; injectors for engines; joints for engines; lubricating pumps; control cables for machines, engines for industrial machinery, and replacement parts therefor; control mechanisms being control valves for regulating the flow of gasses and liquids for machines, internal combustion engines for power generation, other than for land vehicles, and replacement parts therefor; pneumatic controls being pneumatic valves for machines, motors and engines other than for land vehicles, and replacement parts therefor; Chaser machine tools used to assemble, disassemble, repair, service and maintain machines, motors and engines in vehicles for land use, and replacement parts therefor; Chaser machine tools used to assemble, disassemble, repair, service and maintain machines, motors and engines in vehicles other than for land use, and replacement parts therefor; mufflers for motors and engines; pumps namely, axial pumps, lubricating pumps, air compressor pumps, circulating pumps, bilge pumps, engine fuel pumps, hydraulic pumps, pneumatic pumps for machines, engines, for machines, engines and motors, and replacement parts for all the aforesaid; cooling radiators for motors and engines; reduction gears other than for land vehicles; piston rings; sealing joints for engines; machine shaft couplings; silencers for motors and engines; sparking plugs for internal combustion engines; starters for motors and engines; torque converters other than for land vehicles; transmission chains other than for land vehicles, for industrial machinery, and replacement parts therefor; transmission shafts, other than for land vehicles, namely, for boats, for industrial machinery, and replacement parts therefor; transmissions for machines; transmissions, other than for land vehicles, namely, transmissions for machines, and replacement parts therefor; turbo compressors for engines; valves for machines, namely, valves being parts of machines, ball valves being parts of machines, back pressure valves being parts of machines, butterfly valves being parts of machines, angle valves being parts of machines, hydraulic valves being parts of machines, pressure regulating valves being parts of machines, and replacement parts for all the aforesaid; emission pollution control systems for machines, motors, and engines other than for land vehicles, namely, electrostatic emission control devices being precipitators for reducing particular emission

in industrial applications; engine parts for vehicles, namely, camshafts, fuel nozzles, compressors, crankcases, crankcase breathers, exhaust manifolds, exhaust silencers, ignition parts, namely, condensers and points, radiators, starters, oil tanks, oil tank plugs and caps, push rods, rocker arms, water pumps, and engine cases; power tools and attachments therefor for automotive and industrial use, namely, vacuum pumps; power tools for industrial use in measuring and testing engines and generators in connection with automotive, engine and vehicle diagnostics, maintenance and repair, namely, valves being parts of machines for regulating pressure; machine tools in the nature of metal spring tensioning bars for providing and maintaining tension between two engine components; power tool accessories in the nature of barring socket adaptors being parts of machines to connect a power operated rotator to the drive gears of an engine to enable the power rotator to operate the drive gears and facilitate assembly and synchronization of engine components for automotive and industrial use in measuring and testing the function of engines and generators in automotive, engine and vehicle diagnostics, maintenance and repair; oil, gasoline, diesel fuel and air filters for the reduction of emissions in for motors and engines; air filters for pneumatic controls being parts of machines and oil filters for mechanical purposes, and replacement parts therefor; hydraulic fluid filters for mechanical purposes namely, hydraulic filters for vehicle engines, and replacement parts therefor; emission reduction filters for the reduction of emissions from exhaust and the reduction of noise for use with engines; Air filters for engines; fuel economizers for motors and engines, lubricating pumps and oil refining machines, namely, oil separators; emission pollution control systems, namely, emission reduction units for motors and engines, namely, EGR valves, PCV valves, catalytic converters; alternators, for trains; alternators for boats, alternators for motor vehicles, and replacement parts therefor; hydraulic controls being hydraulic valves for machines, engines and motors; fan belts for motors and engines; diesel engines for boats; motors, electric other than for land vehicles, namely, electric motors for machines,; dynamos; automobile engine spark plugs; turbochargers, superchargers, replacement spares of turbochargers and superchargers, air compressors and wastegate valves for machines and for engines other than for land vehicles; machines and machine tools for removing waste materials and motors for such machines; fuel vending pumps for service stations; engines for air cushion vehicles

Class 12

(3) Internal combustion engines for land vehicles; engines for land vehicles; motors and engines for land vehicles; transmissions for land vehicles; air pumps for automobiles; torque converters for land vehicles; driving chains for land vehicles; couplings and belting for land vehicles, namely, trailer couplings, drive belts, belts for vehicle transmissions; replacement parts for the aforesaid goods

Class 16

(4) Decorative decals for vehicles; pens; gift bags, of paper, gift bags of plastic, gift bags of cardboard; desktop business card holders; blank journals; note pads; note paper; presentation folders; manuals and brochures in the fields of operation and maintenance of engines, power generators, and alternators; catalogs in the field of replacement parts for engines, power generators, and alternators; calendars

Class 25

(5) Men's and women's clothing, namely, sweatshirts, hooded sweatshirts, aprons, shirts, jackets, baseball caps and hats, ski caps, fleece caps, gloves, headbands, scarves, quilted vests, and coveralls; t-shirts for toddlers and children

Services

Class 37

(1) Maintenance, repair and servicing of aviation engines, internal combustion engines and of parts thereof; maintenance, repair and servicing of turbochargers and air compressors and parts and fittings therefor; vehicle maintenance; motor vehicle maintenance and repair services; vehicle engine maintenance and repair services; servicing of internal combustion engines and of parts thereof; rebuilding machine engines that have been worn or partially destroyed; rebuilding engines that have been worn or partially destroyed; vehicle lubrication; electrical generator maintenance and repair services; repair and maintenance of generating plants and generator sets; vehicle fleet maintenance services; servicing, repairing, reconditioning and rebuilding of small engines and parts thereof; information and advisory services relating to maintenance, repair, servicing, reconditioning, and rebuilding of engines, motors, and parts thereof

Class 40

(2) Rental of power generating equipment, namely, rental of electricity generators and electrical distribution equipment, namely, electrical power distribution substations, distribution boxes, distribution blocks

Design

Visual Representation

The image shows the text 'PURE CARIB BEAN' in a bold, handwritten, brush-stroke style. The letters are black and have a slightly irregular, artistic feel. The text is arranged in three lines: 'PURE' on the top line, 'CARIB' on the middle line, and 'BEAN' on the bottom line. The letters are closely spaced and the overall impression is one of a casual, hand-drawn logo.

Class 06

Common metals and their alloys; iron; steel alloys; nickel alloys; brazing alloys; copper alloys; casting alloys; titanium alloy; aluminium alloys; chromium alloys; magnesium alloys; brass alloys; metal alloys for further manufacturing; zinc based alloys; alloyed iron; non-ferrous metal alloys; uranium alloy; alloys of mercury, tin and tungsten; iron alloys; ores; iron ores; pig iron; pure iron; iron ore; iron produced by hydrogen generated via water electrolysis using renewable energy; iron produced by hydrogen and ammonia; iron produced by electrochemicals; metallic ores; ferrous ores; processed metal ores; processed iron ores; iron, unwrought or semi-wrought; metal powders; ore powders; iron powders; ore mineral, being metal; hematite minerals, being iron ores; magnetite minerals, being iron ores; common metals, unwrought or semi-wrought; alloys of common metals; ores of metal; limonite; chrome ores; steel; steel produced by renewable energy; metal building products, namely, acoustic panels, awnings, steel and iron bars, beams, roller blinds of steel, metal exterior blinds, building boards, ceiling boards, building panels, casings of metal, cladding, doors, metal piles, metal mats for use as load support surfaces in the construction industry, anchor bolts, braces for load handling, pre-fabricated metal architectural columns, formwork, flashings, steel frameworks, steel frames, fascia, floor boards, linings, lintels, partitions, pillars, pipes for building purposes, namely, branching pipes of metal, steel rails, metal roofing materials, reinforcement materials, slabs, tiles, window frames and wall claddings.

Services

Class 35

(1) Business services, namely business research services; business administration; business management; business advice and assistance; business management and organisation consultancy; business analysis; compilation and analysis of statistical information, namely statistical analysis and reporting services for business purposes, compilation of statistics; advertising the goods and services of others; preparing and placing advertisements for others; advertising consultancy; advertising and business management consultancy provided on-line from

computer database or internet; advertising goods and services of others by promoting the availability of goods for purchase via a global computer network; advertising goods and services of others by promoting the availability of goods for selection via a global computer network; advertising the goods and services of others through all public communication means; advertising goods and services of others by promoting the availability of goods for ordering via a global computer network; compilation, production and dissemination of advertising matter for others; business marketing consulting services; business advice relating to marketing; marketing consulting services; consultancy and advisory services in the field of business marketing; marketing services in the field of arranging for the distribution of the products of others; retailing and wholesaling of iron; retailing and wholesaling of iron produced by renewable energy sources; retailing and wholesaling of steel; retailing and wholesaling of steel produced by renewable energy sources; conducting market surveys for others; conducting business and market research surveys for others; compiling research and statistical data for business purposes; computerised online ordering services in the field of iron ores, steel alloys, metal alloys for further manufacturing, alloyed iron, non-ferrous metal alloys, alloys of gold and silver, gold, silver, pig iron, pure iron, magnetite, iron produced by hydrogen and ammonia, unwrought or semi-wrought iron, iron powders, steel and steel produced by hydrogen and ammonia, and products made from steel or iron being steel acoustic panels, steel awnings, steel and iron bars, steel beams, roller blinds of steel, steel and iron exterior blinds, steel building boards, steel ceiling boards, steel building panels, iron and steel casings, iron and steel cladding, iron and steel doors, iron and steel piles, iron and steel mats for use as load support surfaces in the construction industry, iron and steel anchor bolts, iron and steel braces for load handling, pre-fabricated iron and steel architectural columns, iron and steel formwork, iron and steel flashings, steel frameworks, steel frames, iron and steel fascia, iron and steel floor boards, iron and steel linings, iron and steel lintels, iron and steel partitions, iron and steel pillars, iron and steel branching pipes, iron and steel rails, iron and steel roofing materials, steel reinforcement materials, steel slabs, iron and steel tiles, iron and steel window frames, iron and steel wall claddings, steel chassis for vehicles, aircraft, boats, ships, barges and drones, and steel structural parts for vehicles, aircraft, boats, ships, barges and drones; office functions namely providing office functions for others, namely business administration consultancy, secretarial services, receptionist services, photocopying services, invoicing services; cost price analysis; public relations; import-export agency services; sales promotion for others by means of website information and public relations campaigns; promoting the sale of goods and services for others through a consumer loyalty program; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, iron and steel; business and administrative management services relating to the operation of hydrogen production and generation plants; business and administrative management services relating to the operation of iron production facilities and plants; business and administrative management services relating to steel production facilities and plants; business and administrative management services relating to the operation of energy production and generation plants; business and administrative management services relating to the operation of solar power, turbine power, hydropower production facilities and plants; business and administrative management services relating to the operation of ammonia production and generation plants; personnel management; business project management services; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business project management services for iron and steel production facilities and plants; business information management; procurement services for others (purchasing goods and services for other businesses), namely, purchasing in the fields of iron

ores, steel alloys, metal alloys for further manufacturing, alloyed iron, non-ferrous metal alloys, alloys of gold and silver, gold, silver, pig iron, pure iron, magnetite, iron produced by hydrogen and ammonia, unwrought or semi-wrought iron, iron powders, steel and steel produced by hydrogen and ammonia, products made from steel or iron being steel acoustic panels, steel awnings, steel and iron bars, steel beams, roller blinds of steel, steel and iron exterior blinds, steel building boards, steel ceiling boards, steel building panels, iron and steel casings, iron and steel cladding, iron and steel doors, iron and steel piles, iron and steel mats for use as load support surfaces in the construction industry, iron and steel anchor bolts, iron and steel braces for load handling, pre-fabricated iron and steel architectural columns, iron and steel formwork, iron and steel flashings, steel frameworks, steel frames, iron and steel fascia, iron and steel floor boards, iron and steel linings, iron and steel lintels, iron and steel partitions, iron and steel pillars, iron and steel branching pipes, iron and steel rails, iron and steel roofing materials, steel reinforcement materials, steel slabs, iron and steel tiles, iron and steel window frames, iron and steel wall claddings, steel chassis for vehicles, aircraft, boats, ships, barges and drones, and steel structural parts for vehicles, aircraft, boats, ships, barges and drones; providing business information in the fields of mining, energy production, energy conservation, energy management, renewable energy, adoption of green sources of electricity and fuel, iron based products, steel based products, iron ores, pig iron, pure iron, magnetite, iron produced by hydrogen and ammonia, unwrought or semi-wrought iron, iron powders, steel and steel produced by hydrogen and ammonia, metal alloys for further manufacturing, and products made from iron or steel via a web site; the bringing together, for the benefit of others, of a variety iron and steel goods being iron ores, pig iron, pure iron, iron ore, iron produced by hydrogen and ammonia, steel produced by hydrogen and ammonia, unwrought or semi-wrought iron, iron powders, steel, acoustic panels, awnings, iron and steel bars, steel beams, roller blinds of steel, steel building boards, steel ceiling boards, steel building panels, iron and steel casings, iron and steel cladding, iron and steel doors, iron and steel piles, iron and steel mats for use as load support surfaces in the construction industry, iron and steel anchor bolts, iron and steel braces for load handling, pre-fabricated iron and steel architectural columns, iron and steel formwork, iron and steel flashings, steel frameworks, steel frames, iron and steel fascia, iron and steel floor boards, iron and steel linings, iron and steel lintels, iron and steel partitions, iron and steel pillars, iron and steel branching pipes for building purposes, iron and steel rails, iron and steel roofing materials, steel reinforcement materials, steel slabs, iron and steel tiles, window frames, iron and steel wall claddings, steel chassis for vehicles, aircraft, boats, ships, barges and drones, steel structural parts for vehicles, aircraft, boats, ships, barges and drones, energy and energy goods being electricity, electrical energy, gas energy, combustible gases for use as an energy source, hydrogen for use as an energy source, ammonia for use as an energy source, liquefied gases for use as an energy sources, fuels and gases for heating and lighting purposes, renewable energy and renewable energy goods being electricity derived from renewable sources, solar energy, wind energy and geothermal energy, enabling customers to conveniently view and purchase those goods.

Class 39

(2) Sea transportation of goods; air transportation of goods; rail transportation of goods; transportation of goods by motor vehicle; cargo shipping services; packaging and storage of goods; transportation by ship, truck or train, transmission through pipelines, storage, supplying, distribution and delivery of hydrogen gas; transportation by ship, truck or train, transmission through pipelines, storage, supplying, distribution and delivery of hydrogen gas produced by renewable energy sources; transportation by ship, truck or train, transmission through pipelines, storage, supplying, distribution and delivery of ammonia; transportation by ship, truck or train, transmission through pipelines, storage, supplying, distribution and delivery of ammonia produced

by renewable energy sources; transportation by ship, truck or train, storage, supply, distribution and delivery of iron; transportation by ship, truck or train, storage, supply, distribution and delivery of iron made by renewable energy sources; transportation by ship, truck or train, storage, supply, distribution and delivery of steel; transportation by ship, truck or train, storage, supply, distribution and delivery of steel made by renewable energy sources; energy storage services, namely transmission and distribution of renewable energy, namely, solar energy, wind energy and geothermal energy; transportation by ship, truck or train, transmission through pipelines and power lines, storage, supplying, distribution and delivery of energy, namely, ammonia energy, hydrogen energy, solar energy, renewable energy, electricity, gas, natural gas, fuel, graphite and other hydrocarbon energy; utility services, namely, transmission, storage, distribution and supplying of electricity; electricity supplying services, namely, distribution of electrical energy to residential and commercial users; storage, transportation and distribution of water, namely, public utility services in the form of water supplying and distribution; warehousing services; supply chain logistics and reverse logistics services consisting of the storage and transport of goods for others by air, rail, ship or truck.

Class 40

(3) Production of iron; production of iron produced by renewable energy sources; production of iron using electrochemicals; production of iron using hydrogen produced by water electrolysis using renewable energy; production of iron using hydrogen and ammonia; production of steel; production of steel produced by renewable energy sources; production and generation of renewable energy, namely production of gas from renewable sources, generation of electricity from renewable sources; production and generation of hydrogen; production and generation of hydrogen produced by renewable energy sources; production and generation of ammonia; production and generation of ammonia produced by renewable energy sources; production and generation of solar energy, renewable energy, ammonia energy, hydrogen energy, electricity and water energy; production and generation of renewable energy, namely, solar energy, wind energy and geothermal energy; electricity generation by renewable energy sources; production of electricity by renewable energy sources; operation of renewable electricity generation plants; renewable gas processing and treatment; processing of gas derived from renewable energy sources; processing and conversion of energy, ammonia, hydrogen, gas and fuels, namely, energy and fuel recycling services, namely, capturing and conversion of wasted energy, hydrogen, ammonia, gas and fuels into electricity and useful steam generated from renewable energy sources; processing and conversion of fuels and energy, namely, energy and fuel recycling services, namely, capturing and conversion of wasted energy into electricity and useful steam; processing and conversion of energy generated from renewable sources, namely, energy and fuel recycling services, namely, capturing and conversion of wasted energy into electricity and useful steam; water purification; water treatment services; waste water treatment services; operation of water treatment facilities; treatment of materials, namely, treatment of hydrogen gas and ammonia gas by means of heating, cooling, chemical treatment or electrolysis; treatment of materials in the nature of metals and metal ores; heat treatment services for hydrogen, ammonia, metals and metal ores; furnace heat treatment services; electrochemical electrolysis treatment services for hydrogen, ammonia, metals and metal ores; recycling services, namely, processing and conversion of wasted energy, ammonia, gas and fuels into electricity and useful steam; recycling of chemicals, batteries, materials, waste and industrial goods; carbon offsetting services (recycling); energy recycling services that capture and convert wasted energy into electricity and useful steam generated from renewable energy sources; operation of hydrogen production and generation plants for others; operation of iron production facilities and plants for others; operation of steel production facilities and plants for others; operation of renewable energy production and generation plants for others; operation of solar

power, turbine power, hydropower production facilities and plants for others; custom manufacture of products, equipment, installations and systems associated with renewable energy production, storage, supply and conversion, namely electricity generators, hydraulic turbines, steam turbines, wind turbines, gas turbines, batteries, solar panels, liquefied gas storage tanks, metal fluid storage tanks, gas storage tanks, power-line transmission machines and apparatus, and fuel cells; custom manufacture of products, equipment, installations and systems associated with hydrogen production, storage, supply and conversion, namely landfill gas capture systems, electrolysis machines for generating hydrogen, electrolysis machines for generating gases, industrial reactors, gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, metal fluid storage tanks, and hydrogen dispensing pumps for service stations; custom manufacture of products, equipment, installations and systems associated with hydrogen produced by renewable energy sources, namely landfill gas capture systems, electrolysis machines for generating hydrogen, electrolysis machines for generating gases, industrial reactors, gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, metal fluid storage tanks, and hydrogen dispensing pumps for service stations; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of hydrogen made by renewable energy sources, namely gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, metal fluid storage tanks, and hydrogen dispensing pumps for service stations; operation of ammonia production and generation plants for others; custom manufacture of products, equipment, installations and systems associated with ammonia production, storage, supply and conversion, namely landfill gas capture systems, electrolysis machines for generating gases, industrial reactors, gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, and metal fluid storage tanks; custom manufacture of products, equipment, installations and systems associated with ammonia produced by renewable energy sources, namely landfill gas capture systems, electrolysis machines for generating gases, industrial reactors, gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, and metal fluid storage tanks; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of ammonia, made by renewable energy sources, namely gas storage tanks, liquefied gas storage tanks, tanker vehicles, fuel cells, machines for gas compression and chilling, and metal fluid storage tanks; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of renewable energy, namely batteries, liquefied gas storage tanks, metal fluid storage tanks, gas storage tanks, power-line transmission machines and apparatus, and fuel cells; custom manufacture of products, equipment, installations and systems associated with energy produced by ammonia and renewable energy sources, namely electricity generators, hydraulic turbines, steam turbines, wind turbines, gas turbines, batteries, solar panels, liquefied gas storage tanks, metal fluid storage tanks, gas storage tanks, power-line transmission machines and apparatus, and fuel cells; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron, namely smelting machines, arc furnaces and blast furnaces; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel, namely smelting machines, arc furnaces blast furnaces, molten oxide electrolyzers and water purifiers; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron, made by renewable energy sources, namely smelting machines, arc furnaces and blast furnaces; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel made by renewable energy sources, namely smelting machines, arc furnaces and blast furnaces; information, advisory and consultancy services via a website in relation to the aforesaid services.

Goods

Class 07

(1) Handling apparatus for loading and unloading, namely food loading and unloading machines; Food filling machines; packaging machines for food; automatic wrapping machines for food; pumps [machines], in particular, impeller pumps, screw pumps and cavity pumps, for use in the food industry [machinery]; batch loading machines for food industry batch loading; batch sorting machines, namely sorting machines for food industry sorting; belt conveyors; belts for conveyors; rubber bands for use on loading and unloading machinery and apparatus; pallet loading belts; automatic loading systems comprised of conveyers and food handling robots for horizontal plate freezers for use in the field of food industry; cranes [lifting and hoisting apparatus]; grab buckets for forklift trucks; wrapping machines; automated wrapping machines; stretch-wrapping machines for applying plastics material to palletised loads; vacuum packaging machines; screw conveyor; pelletizer; feeding conveyors; vibrating feeder; refrigerant condensers.

Class 09

(2) Computer software for use in database management in the field of food industry; computers and peripheral devices adapted for use with computers, namely computer hardware; computer hardware and embedded operating software for use with Human-Machines Interface (HMI); touch screens; CO2 PH control systems comprised of computer hardware, digital pH meters for controlling PH levels; computer hardware modules for use in electronic devices using the Internet

of Things [IoT]; computer application software for the management and connection of third-party Internet of Things [IoT] enabled freezing, heating and cooling installations for the food industry and for food loading and unloading machines.

Class 11

(3) Cooling installations in the nature of refrigerators and freezers, cabinets and chambers for deep freezing; refrigerated shelves; refrigerating machines; refrigerating installations in the nature of refrigerators and freezers, and cabinets and chambers therefore; refrigerating apparatus in the nature of refrigerators and freezers, and cabinets and chambers therefore; cooling installations for freezing; industrial cooling installations; industrial freezing installations; freezing installations in the nature of refrigerators and freezers, and cabinets and chambers therefore; freezing machines; freezing plates; deep freezing apparatus in the nature of deep freezers and cabinets and chambers therefore; apparatus for freezing foodstuffs in the nature of freezers and cabinets and chambers therefore; cryogenic freezers; cryogenic freezing equipment in the nature of freezers and cabinets and chambers therefore; linear freezing tunnels; dual belt freezing tunnel; multi-pass freezer; upright freezer; chest freezers; immersion freezing chamber; mechanical freezing equipment in the nature of freezers and cabinets and chambers therefore; tunnel freezers; IQF-freezers; impingement tunnel freezer; single, double and triple belt freezers; hardening tunnels being combination apparatus for cooling, freezing and heating; flow freezers; heating machinery, namely, steam ovens, electric ovens, industrial cooking ovens, electric sous-vide cookers; industrial heating apparatus namely heating machinery, namely, steam ovens, electric ovens, industrial cooking ovens, electric sous-vide cookers; heat treatment equipment namely, steam ovens, electric ovens, industrial cooking ovens, electric sous-vide cookers; water chiller; cryogenic tunnels for cooling and freezing; sanitizing tunnels for cleaning food; steam ovens; freezing installations, namely cryogenic spirals, plate belt tunnel for freezing, tornado tunnel for freezing, freezer belt, batch freezer, single batch freezer, double batch freezer, mini batch freezer, lab batch freezer, immersion freezer, crust freezer and spiral carton freezer; cooking ovens for professional purposes; cooking ovens for household purposes; sous-vide cookers and pasteurisers.

Services

Class 35

(1) Retail services and wholesale services, including via global computer networks, of industrial cooling installations, refrigerated shelves, refrigerating machines, cooling apparatus and appliances, refrigerant condensers, industrial cooling installations, industrial freezing installations, freezers, freezing plates, deep freezing apparatus, apparatus for freezing foodstuffs, cooling and freezing agents, wrapping machines for food, pumps; retail services and wholesale services, including via global computer networks, of batch loading and sorting machines, belt conveyors, pallet loading belts, automatic loading systems for horizontal plate freezers, cranes; retail services and wholesale services, including via global computer networks, of grab buckets for forklift trucks, wrapping machines, automated wrapping machines, stretch-wrapping machines for applying plastics material to palletised loads, vacuum packaging machines; retail services and wholesale services, including via global computer networks, of handling apparatus for loading and unloading, filling machines, automatic wrapping machines for food, pumps for use in the food industry, belts for conveyors, rubber tracks for use with crawlers on loading-unloading machines and apparatus, screw conveyor, pelletizer, feeding conveyors and vibrating feeder; retail services and wholesale services, including online retail and wholesale services via global computer networks, of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data namely computer hardware and computer software; retail services and wholesale services, including via global computer networks, of recorded and downloadable media, computer software,

blank digital or analogue recording and storage media; retail services and wholesale services, including via global computer networks, of computers and peripheral devices adapted for use with computers, Human-Machine Interface (HMI) hardware and software, touch screens, CO2 PH control systems, computer hardware modules for use in electronic devices using Internet of Things [IoT], computer application software for use in implementing Internet of Things [IoT]; retail services and wholesale services, including via global computer networks, of refrigerating appliances and installations, cooling installations for deep freezing, freezers, cryogenic freezers, cryogenic freezing equipment, linear freezing tunnels, cryogenic tunnels for cooling and freezing, dual belt tunnel for freezing, sanitary clean tunnel for sanitation of food, multi-pass freezer, upright freezer, chest freezer, immersion chamber for freezing, mechanical freezing equipment, tunnel freezers, IQF-freezers, impingement tunnel freezer, single/double/triple belt freezer; retail services and wholesale services, including via global computer networks, of freezers, namely cryogenic spirals, plate belt tunnel for freezing, tornado tunnel for freezing, freezer belt, batch freezer, single batch freezers, double batch freezers, mini-batch freezer, lab batch freezer, immersion freezer, crust freezer and spiral carton freezer; retail services and wholesale services, including via global computer networks, of heating machinery, industrial apparatus for heating of ovens, steam ovens, sous-vide cookers and pasteurisers, heat treatment equipment and water chiller; advertising, marketing and promotional services in relation to industrial cooling installations, refrigerated shelves, cooling machinery, cooling apparatus, refrigerant condensers, industry freezers, freezers, freezing plates, apparatus for freezing, apparatus for freezing of food and refrigerants, packaging machines for food and pumps; advertising, marketing and promotional services in relation to batch loading and sorting machines, belt conveyors, pallet loading belts, automatic loading systems for horizontal plate freezers, cranes, grab buckets for forklift trucks, wrapping machines, automatic wrapping machines, stretch-wrapping machines for applying plastics material to palletised loads, vacuum packaging machines.

Class 37

(2) Installation, repair and maintenance of industrial cooling installations, refrigerated shelves, refrigerating machines, refrigerating apparatus, refrigerant condensers, industrial cooling installations, freezers, freezing plates, deep freezing apparatus, apparatus for freezing foodstuffs, handling apparatus for loading and unloading, filling machines, packaging machines for food; installation, repair and maintenance of pumps, batch loading and sorting machines, belt conveyors, pallet loading belts, loading systems, cranes [lifting and hoisting apparatus], grab buckets for forklift trucks, wrapping machines, automatic wrapping machines, stretch-wrapping machines for applying plastics material to palletised loads, vacuum packaging machines; installation, repair and maintenance of freezing equipment; installation, repair and maintenance of handling apparatus for loading and unloading, filling machines, automatic wrapping machines for food, pumps for use in the food industry, belts for conveyors, rubber bands for use on loading and unloading machinery and devices, screw conveyor, pelletizer, feeding conveyors, vibrating feeder; installation, repair and maintenance of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data, namely computer hardware; installation, repair and maintenance of recorded and downloadable media, computer software, blank digital or analogue recording and storage media; installation, repair and maintenance of computers and peripheral devices adapted for use with computers, Human-Machine Interface (HMI) hardware and software, touch screens, CO2 PH control systems, computer hardware modules for use in electronic devices using Internet of Things [IoT], computer application software for use in implementing the Internet of Things [IoT]; installation, repair and maintenance of refrigerating machines, refrigerating installations, cooling installations for freezing, freezing installations, cryogenic freezers, cryogenic freezing equipment, linear freezing tunnels, cryogenic tunnels,

cryogenic spirals, plate belt tunnel for freezing, dual belt freezing tunnel, tornado tunnel for freezing, sanitary clean tunnel, freezer belt, multi-pass freezer, batch freezer, single batch freezer, double batch freezer, cryo-test batch freezers, mini-batch freezer, lab batch freezer, immersion freezer, cryogenic tumbler, cryogenic snow horn, upright freezer, chest freezer, immersion freezing chamber, mechanical freezing equipment, tunnel freezers, IQF freezers, impingement tunnel freezer, crust freezer, single, double and triple belt freezers, hardening tunnels, flow freezers and spiral carton freezer; installation, repair and maintenance of heating machines, industrial apparatus for heating, spiral ovens, maxi-cook in-line steam cooker, spiral sous vide, spiral pasteurizer apparatus, spiral proofer for rising of dough, spiral conditioner, cooking equipment, water chiller; replacement of cooling agents and refrigerants; provision of information in the field of repair and maintenance of freezers and freezing apparatus in the nature of freezers and cabinets and chambers therefore for deep freeze; repair of cranes; repair or maintenance of conveyors.

The logo for Regal Rexnord, featuring a stylized leaf symbol to the left of the company name. The leaf is composed of a large curved line followed by a smaller curved line, and a small leaf symbol at the end. The text "RegalRexnord" is in a bold, sans-serif font.

Trademark Description

The mark consists of a large curved line followed by a smaller curved line followed by a small leaf symbol all in the shape of a bigger leaf followed by a stylized version of the words "REGAL REXNORD".

Goods

Class 06

(1) Keystocks.

Class 07

(2) Transmissions for industrial machines, and structural parts therefor, none of the foregoing for motor vehicles; machine parts, namely, mechanical, electrical, and electromechanical power transmission components, and bearing products for machines, namely, gears, gear racks, torque limiters, idlers, tighteners, sheaves, chain guides, wear strips, flange mountings with bearings, bearings, bearing seals, adaptor bearings, pillow blocks, flange blocks, take-up units, take-up frames, bushings, belts, flexible couplings, roller chain drives, sprockets, roller chains, pulleys, motor bases, chain tools, namely, machine tools for disconnecting roller chain in bulk lengths for cutting, repair and alternation of roller chain, keys, hubs for the adjustment of motor drives, gear drives and cams, keystone, speed reducers, geared sprockets, gear spindles, electrical adjustable speed drives, springs, pins, retainer rings, AC and DC electric motors, electric motor bases, clutches, clutch brakes, clutch brake couplings, wire for maintaining a uniform air gap in electromagnetic friction clutches and brakes, ball screws, machinery shaft couplings, set collars, locking collars for antifriction bearing units, torque converters, torque overload devices, u-joints; vibration dampeners and detuners being motor mufflers for machines other than vehicles; roll crushers being crushing machines for use in mining applications and mineral processing; impact crushers being rock crushing machines; hydraulic rock breakers; mixers and blenders for commercial applications, namely, concrete mixers, slurry blender machines for use in oil or gas well hydraulic fracturing operations; industrial machines for commercial applications, namely, roll

crushers, impact crushers, breakers, and mixers and blenders for use in the cement, lime, gypsum, ceramic, refractory, metallurgical and mining industries; pipe couplers being parts of machines; pipe couplers for industrial machinery; hand cranks being parts of machines; pneumatic controls for machines, namely, dials in the shape of drums for making adjustments to timing belts for machines; pneumatic ratchet wenchers; pawls being gear lever knobs for machines; vertical reciprocating hoists, and reciprocating beam conveyers; conveyors, conveyor belts, conveyor lines and replacement parts therefore; mechanical drives for machines, namely, gear drives for automated industrial machinery; electric motors for machines; industrial V-belts being driving belts for machines; electric generators; lubricating machines for use in applying lubricants to industrial power transmission products, namely, machine bearings, cam chains and sprockets, gearing for machines, and linear slide rests being parts of machines and industrial guide rails for conveyors; rubber belts for machines in which cords are imbedded; flexible link belts for machines; synchronous drive belts and sprockets, all being parts of machines; variable speed change gears and variable speed change motors, other than for land vehicles; driveshaft for machines; flexible disc couplings for machines; worm gear reduction units being parts of machines; self-aligning spherical bearings and self-aligning spherical rod-end bearings for machines and machine parts; chain return support and guides being machine parts for conveyors; lathes for metalworking; ball bearings for conveyors; air filters for use in enclosed gear drives; vibrating moving and processing equipment, namely, conveyors for moving bulk materials and loose articles, screens for moving, separating, and sizing loose materials, mechanized livestock feeders for feeding loose material at a controlled rate; spiral conveyors for advancing upward materials in a continuous spiral; drying and heating conveyers; actuator nuts being machine parts, each comprising the internally threaded element for a mechanical movement having a rotational input and an axial output; machine parts, namely, conveyor belt backstops, welded and fabricated metal bearing housings, cast bearing housings, mechanical contact seals and mechanical labyrinth seals, oil collection pans, oil pumps for use in gear drives, oil anti-foaming devices consisting primarily of ported steel valve blocks and pipe plug valve fittings, breather vents being pressure regulating valves, torque arms not for land vehicles, namely, torque arms for machines, swing base springs being parts of machines, shaft fans for use in gear drives, air shrouds being fans for machine engines, oil pump hoses, oil dipsticks, electric motor mounts, transition motor bases, pump motor adapters, oil exclusion pans being oil separators, and cooling devices, namely, cooling plates being liquid cold plates and heat exchangers; motor, manually or hydraulically operated fixed cone dispersion valves for regulated free discharge of liquids, namely, control valves for regulating the flow of liquids; pump control valves; electric motors for machines for the heating and air-conditioning market; commercial refrigeration evaporator fan motor; AC electrical motors for machines and parts therefor; motors for use in residential and commercial HVAC systems; motors other than for land vehicles, namely, electric motors for machines; motors, namely, AC motors for variable speed operation for use in connection with heating, ventilation, and air conditioning; motors, namely, AC motors for use in connection with heating, ventilation, air conditioning and pumps; electric motors for machines and their parts, namely, housings made of cold extruded steel, housings made of non-ferrous metals, stamped metal parts and molded plastic parts; electric gearhead motors for machines; electric motors and generators for use with jetted tubs, pools and spas; condenser fan motors for residential and commercial air conditioning systems, not for land vehicles; three-phase asynchronous electric motors for machines; industrial hydraulic valve actuators; industrial pneumatic valve actuators; machine parts, namely, modular plastic belts; permanent magnet axial motor with integral motor controller in the nature of electric motors for machines and their parts, not for land vehicles; electric motors, namely, variable speed motors for swimming pool pumps.

Class 09

(3) Electrical components and parts and accessories therefor, namely, capacitors, voltage regulators, electricity sensors; none of the foregoing for motor vehicles; electric motion control switches for controlling the output of electric machine motors and connected machinery, none of the foregoing for motor vehicles; fan speed controls, none of the foregoing for motor vehicles; software for use in determining the performance compatibility of electronic components in conveying machines; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears, and conveyors and conveyor machines; downloadable software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and gears, and conveyors and conveyor machines; remote control for wirelessly communicating with an electronically commutated motor for industrial machines; electrical components, namely, terminal blocks, sectional terminal blocks, electrical power distribution blocks, holders specially adapted for electrical fuses, sectional holders specially adapted for electrical fuses, and structural parts thereof; electronic lock assemblies; electrical components of electric motors, namely, electric magnet wires, electrical ties, and magnetic slot wedges; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable software, namely, a mobile application for use in installation and maintenance of blower motors for heating, ventilation, air conditioning systems; software in the nature of a mobile application for monitoring the operational performance of commercial and industrial power transmission equipment in HVAC systems, namely, monitoring power and energy consumption, motors, bearings, belts, ambient interior air and exterior air temperature, humidity, and the rotational speed of said equipment to validate energy savings; capacitors for use in residential and commercial HVAC systems; electrical diagnostic equipment to analyze HVAC systems that use variable speed blower motors; electronic controllers for engines, namely, electronic power switches and electrical relays; power generation equipment, namely, control panels for engines and generators; control devices for engines and generators, namely, microprocessor engine controllers, microprocessor generator controllers, electronic engine speed sensors, AC voltage sensors, battery voltage sensors, and annunciators; communication control devices, namely, communication interface modules that communicate with engines and generators; downloadable software for remote communication with, remote control of, and monitoring of engines and generators; automatic transfer switches (ATS) for engines and generators; transfer switch control devices for engines and generators, namely, automatic transfer switches (ATS) for controlling the transfer of the supply of power from one power source to another; changeover switches for engines and generators for transferring the supply of power from one power source to another; voltage switchgear for engines and generators for automatic standby; downloadable software applications for prime power and distributed generation, namely, software for use in controlling power generation system installations; chargers for batteries used in engines; chargers for switchgear station service batteries; load banks for use in load testing and exercising engines and generators; wireless control application for swimming pool pumps, namely, hardware for the wireless control of swimming pool pumps, computer software programs for the wireless control of swimming pool pumps and downloadable software in the nature of a mobile application for wireless control of swimming pool pumps; sensors, namely, motion sensors, temperature sensors, timing sensors and vibration sensors for industrial machines; motion sensors for use with power transmissions for machines.

Class 11

(4) Ventilators, blowers and draft inducers, heating, ventilation, and air conditioning (HVAC) units, drying, heating and cooling systems for conveyors, assembly line conveyor machinery, and other transmission lines, namely, conveyor lines; cooling devices, namely, cooling plates; heat exchangers, other than parts of machines; exhaust ventilators for kitchens, bathrooms, exhaust, heat recovery, power roof, turbine, wall mount, and filtered supply devices being ventilating fans, none of the foregoing for motor vehicles; blowers and draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; heating, ventilation, and air conditioning (HVAC) units, none of the foregoing for motor vehicles, namely, HVAC systems for commercial and residential buildings; ventilating fans for commercial and industrial use and parts and accessories therefor, namely, fan blade assemblies, none of the foregoing for motor vehicles; chimney blowers, fireplace blowers, and hot air blowers for use in HVAC systems and parts and accessories therefor, namely, wheels and housings, none of the foregoing for motor vehicles; electric heaters and parts and accessories therefor, namely, draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; ventilating fans, circulating electric fans; circulating fans for use in heating, ventilation, and air conditioning units, portable window fans, portable casement fans, oscillating fans, pedestal fans, kitchen ventilators, bathroom ventilators, range hood ventilators, bathroom heaters, recovery ventilators featuring indicator lights for use in bathrooms, utility ventilators, namely, energy recovery ventilators and heat recovery ventilators, power attic space ventilators, ventilator housings made of cold extruded steel, non-ferrous metals, stamped metal parts and molded plastic parts, electric baseboard heaters, wall and ceiling heaters, electric space heaters, electric fireplaces, electric furnaces for industrial purposes, air conditioning units and parts therefor, heat pumps, electric ventilating exhaust fan air blowers and heaters for saunas; blowers for use in residential and commercial HVAC systems and refrigeration systems; blower assembly for use in heating, ventilation, and air conditioning units comprised of a fan, motor and motor controller; fans for use in heating, ventilation, and air conditioning units.

Services**Class 37**

(1) Technical support services, namely, providing advice concerning installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 41

(2) Educational services, namely, conducting classes, seminars and workshops in the field of commercial and industrial power transmission equipment, power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 42

(3) Providing temporary use of non-downloadable cloud-based software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; providing temporary use of non-downloadable cloud-based augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; design and development of software for multimedia data storing and recalling for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, motors, generators, shafts, couplings, bearings and gears and conveyors and conveyor systems; technical

support services, namely, computer software installation, maintenance and repair for the foregoing; diagnostic services in the field of commercial and industrial power transmission equipment and components; design for others in the field of commercial and industrial power transmission equipment and components; monitoring of commercial and industrial power transmission equipment and components to ensure proper functioning; design of commercial and industrial power transmission equipment for others; consulting services in the field of product development and custom design of electric motors for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems, none of the foregoing for motor vehicles; consulting services in the field of product development and custom design of electric motors, none of the foregoing for motor vehicles; product failure analysis services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; product failure analysis services, namely, testing of new products of others; new product design services; engineering services for power transmission machines and components therefor, comprising bearings, couplings, motors, gearing, conveyor and drive systems, and custom-made plastic parts; technical support services, namely, providing technical advice concerning the design of bearings, couplings, motors, gearing, and conveyor and drive systems, all relating to power transmission machines; technical support services, namely, computer software installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; diagnostic services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; design for others in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; consulting services in the field of product development and custom design of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

(2) Transmissions for industrial machines, and structural parts therefor, none of the foregoing for motor vehicles; machine parts, namely, mechanical, electrical, and electromechanical power transmission components, and bearing products for machines, namely, gears, gear racks, torque limiters, idlers, tighteners, sheaves, chain guides, wear strips, flange mountings with bearings, bearings, bearing seals, adaptor bearings, pillow blocks, flange blocks, take-up units, take-up frames, bushings, belts, flexible couplings, roller chain drives, sprockets, roller chains, pulleys, motor bases, chain tools, namely, machine tools for disconnecting roller chain in bulk lengths for cutting, repair and alternation of roller chain, keys, hubs for the adjustment of motor drives, gear drives and cams, keystick, speed reducers, geared sprockets, gear spindles, electrical adjustable

speed drives, springs, pins, retainer rings, AC and DC electric motors, electric motor bases, clutches, clutch brakes, clutch brake couplings, wire for maintaining a uniform air gap in electromagnetic friction clutches and brakes, ball screws, machinery shaft couplings, set collars, locking collars for antifriction bearing units, torque converters, torque overload devices, u-joints; vibration dampeners and detuners being motor mufflers for machines other than vehicles; roll crushers being crushing machines for use in mining applications and mineral processing; impact crushers being rock crushing machines; hydraulic rock breakers; mixers and blenders for commercial applications, namely, concrete mixers, slurry blender machines for use in oil or gas well hydraulic fracturing operations; industrial machines for commercial applications, namely, roll crushers, impact crushers, breakers, and mixers and blenders for use in the cement, lime, gypsum, ceramic, refractory, metallurgical and mining industries; pipe couplers being parts of machines; pipe couplers for industrial machinery; hand cranks being parts of machines; pneumatic controls for machines, namely, dials in the shape of drums for making adjustments to timing belts for machines; pneumatic ratchet wenchers; pawls being gear lever knobs for machines; vertical reciprocating hoists, and reciprocating beam conveyers; conveyors, conveyor belts, conveyor lines and replacement parts therefore; mechanical drives for machines, namely, gear drives for automated industrial machinery; electric motors for machines; industrial V-belts being driving belts for machines; electric generators; lubricating machines for use in applying lubricants to industrial power transmission products, namely, machine bearings, cam chains and sprockets, gearing for machines, and linear slide rests being parts of machines and industrial guide rails for conveyors; rubber belts for machines in which cords are imbedded; flexible link belts for machines; synchronous drive belts and sprockets, all being parts of machines; variable speed change gears and variable speed change motors, other than for land vehicles; driveshaft for machines; flexible disc couplings for machines; worm gear reduction units being parts of machines; self-aligning spherical bearings and self-aligning spherical rod-end bearings for machines and machine parts; chain return support and guides being machine parts for conveyors; lathes for metalworking; ball bearings for conveyors; air filters for use in enclosed gear drives; vibrating moving and processing equipment, namely, conveyors for moving bulk materials and loose articles, screens for moving, separating, and sizing loose materials, mechanized livestock feeders for feeding loose material at a controlled rate; spiral conveyors for advancing upward materials in a continuous spiral; drying and heating conveyers; actuator nuts being machine parts, each comprising the internally threaded element for a mechanical movement having a rotational input and an axial output; machine parts, namely, conveyor belt backstops, welded and fabricated metal bearing housings, cast bearing housings, mechanical contact seals and mechanical labyrinth seals, oil collection pans, oil pumps for use in gear drives, oil anti-foaming devices consisting primarily of ported steel valve blocks and pipe plug valve fittings, breather vents being pressure regulating valves, torque arms not for land vehicles, namely, torque arms for machines, swing base springs being parts of machines, shaft fans for use in gear drives, air shrouds being fans for machine engines, oil pump hoses, oil dipsticks, electric motor mounts, transition motor bases, pump motor adapters, oil exclusion pans being oil separators, and cooling devices, namely, cooling plates being liquid cold plates and heat exchangers; motor, manually or hydraulically operated fixed cone dispersion valves for regulated free discharge of liquids, namely, control valves for regulating the flow of liquids; pump control valves; electric motors for machines for the heating and air-conditioning market; commercial refrigeration evaporator fan motor; AC electrical motors for machines and parts therefor; motors for use in residential and commercial HVAC systems; motors other than for land vehicles, namely, electric motors for machines; motors, namely, AC motors for variable speed operation for use in connection with heating, ventilation, and air conditioning; motors, namely, AC motors for use in connection with heating, ventilation, air conditioning and pumps; electric motors for machines and their parts, namely, housings made of cold extruded steel, housings made of non-ferrous metals,

stamped metal parts and molded plastic parts; electric gearhead motors for machines; electric motors and generators for use with jetted tubs, pools and spas; condenser fan motors for residential and commercial air conditioning systems, not for land vehicles; three-phase asynchronous electric motors for machines; industrial hydraulic valve actuators; industrial pneumatic valve actuators; machine parts, namely, modular plastic belts; permanent magnet axial motor with integral motor controller in the nature of electric motors for machines and their parts, not for land vehicles; electric motors, namely, variable speed motors for swimming pool pumps.

Class 09

(3) Electrical components and parts and accessories therefor, namely, capacitors, voltage regulators, electricity sensors; none of the foregoing for motor vehicles; electric motion control switches for controlling the output of electric machine motors and connected machinery, none of the foregoing for motor vehicles; fan speed controls, none of the foregoing for motor vehicles; software for use in determining the performance compatibility of electronic components in conveying machines; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears, and conveyors and conveyor machines; downloadable software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and gears, and conveyors and conveyor machines; remote control for wirelessly communicating with an electronically commutated motor for industrial machines; electrical components, namely, terminal blocks, sectional terminal blocks, electrical power distribution blocks, holders specially adapted for electrical fuses, sectional holders specially adapted for electrical fuses, and structural parts thereof; electronic lock assemblies; electrical components of electric motors, namely, electric magnet wires, electrical ties, and magnetic slot wedges; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable software, namely, a mobile application for use in installation and maintenance of blower motors for heating, ventilation, air conditioning systems; software in the nature of a mobile application for monitoring the operational performance of commercial and industrial power transmission equipment in HVAC systems, namely, monitoring power and energy consumption, motors, bearings, belts, ambient interior air and exterior air temperature, humidity, and the rotational speed of said equipment to validate energy savings; capacitors for use in residential and commercial HVAC systems; electrical diagnostic equipment to analyze HVAC systems that use variable speed blower motors; electronic controllers for engines, namely, electronic power switches and electrical relays; power generation equipment, namely, control panels for engines and generators; control devices for engines and generators, namely, microprocessor engine controllers, microprocessor generator controllers, electronic engine speed sensors, AC voltage sensors, battery voltage sensors, and annunciators; communication control devices, namely, communication interface modules that communicate with engines and generators; downloadable software for remote communication with, remote control of, and monitoring of engines and generators; automatic transfer switches (ATS) for engines and generators; transfer switch control devices for engines and generators, namely, automatic transfer switches (ATS) for controlling the transfer of the supply of power from one power source to another; changeover switches for engines and generators for transferring the supply of power from one power source to another; voltage switchgear for engines and generators for automatic standby; downloadable software applications for prime power and distributed generation, namely,

software for use in controlling power generation system installations; chargers for batteries used in engines; chargers for switchgear station service batteries; load banks for use in load testing and exercising engines and generators; wireless control application for swimming pool pumps, namely, hardware for the wireless control of swimming pool pumps, computer software programs for the wireless control of swimming pool pumps and downloadable software in the nature of a mobile application for wireless control of swimming pool pumps; sensors, namely, motion sensors, temperature sensors, timing sensors and vibration sensors for industrial machines; motion sensors for use with power transmissions for machines.

Class 11

(4) Ventilators, blowers and draft inducers, heating, ventilation, and air conditioning (HVAC) units, drying, heating and cooling systems for conveyors, assembly line conveyor machinery, and other transmission lines, namely, conveyor lines; cooling devices, namely, cooling plates; heat exchangers, other than parts of machines; exhaust ventilators for kitchens, bathrooms, exhaust, heat recovery, power roof, turbine, wall mount, and filtered supply devices being ventilating fans, none of the foregoing for motor vehicles; blowers and draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; heating, ventilation, and air conditioning (HVAC) units, none of the foregoing for motor vehicles, namely, HVAC systems for commercial and residential buildings; ventilating fans for commercial and industrial use and parts and accessories therefor, namely, fan blade assemblies, none of the foregoing for motor vehicles; chimney blowers, fireplace blowers, and hot air blowers for use in HVAC systems and parts and accessories therefor, namely, wheels and housings, none of the foregoing for motor vehicles; electric heaters and parts and accessories therefor, namely, draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; ventilating fans, circulating electric fans; circulating fans for use in heating, ventilation, and air conditioning units, portable window fans, portable casement fans, oscillating fans, pedestal fans, kitchen ventilators, bathroom ventilators, range hood ventilators, bathroom heaters, recovery ventilators featuring indicator lights for use in bathrooms, utility ventilators, namely, energy recovery ventilators and heat recovery ventilators, power attic space ventilators, ventilator housings made of cold extruded steel, non-ferrous metals, stamped metal parts and molded plastic parts, electric baseboard heaters, wall and ceiling heaters, electric space heaters, electric fireplaces, electric furnaces for industrial purposes, air conditioning units and parts therefor, heat pumps, electric ventilating exhaust fan air blowers and heaters for saunas; blowers for use in residential and commercial HVAC systems and refrigeration systems; blower assembly for use in heating, ventilation, and air conditioning units comprised of a fan, motor and motor controller; fans for use in heating, ventilation, and air conditioning units.

Services

Class 37

(1) Technical support services, namely, providing advice concerning installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 41

(2) Educational services, namely, conducting classes, seminars and workshops in the field of commercial and industrial power transmission equipment, power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 42

(3) Providing temporary use of non-downloadable cloud-based software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric

generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; providing temporary use of non-downloadable cloud-based augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; design and development of software for multimedia data storing and recalling for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, motors, generators, shafts, couplings, bearings and gears and conveyors and conveyor systems; technical support services, namely, computer software installation, maintenance and repair for the foregoing; diagnostic services in the field of commercial and industrial power transmission equipment and components; design for others in the field of commercial and industrial power transmission equipment and components; monitoring of commercial and industrial power transmission equipment and components to ensure proper functioning; design of commercial and industrial power transmission equipment for others; consulting services in the field of product development and custom design of electric motors for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems, none of the foregoing for motor vehicles; consulting services in the field of product development and custom design of electric motors, none of the foregoing for motor vehicles; product failure analysis services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; product failure analysis services, namely, testing of new products of others; new product design services; engineering services for power transmission machines and components therefor, comprising bearings, couplings, motors, gearing, conveyor and drive systems, and custom-made plastic parts; technical support services, namely, providing technical advice concerning the design of bearings, couplings, motors, gearing, and conveyor and drive systems, all relating to power transmission machines; technical support services, namely, computer software installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; diagnostic services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; design for others in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; consulting services in the field of product development and custom design of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Trademark Description

The mark consists of a stylized version of the word "REGAL" followed by a large curved line followed by a smaller curved line followed by a small leaf symbol all in the shape of a bigger leaf above a stylized version of the word "REXNORD".

Goods

Class 06

(1) Keystocks.

Class 07

(2) Transmissions for industrial machines, and structural parts therefor, none of the foregoing for motor vehicles; machine parts, namely, mechanical, electrical, and electromechanical power transmission components, and bearing products for machines, namely, gears, gear racks, torque limiters, idlers, tighteners, sheaves, chain guides, wear strips, flange mountings with bearings, bearings, bearing seals, adaptor bearings, pillow blocks, flange blocks, take-up units, take-up frames, bushings, belts, flexible couplings, roller chain drives, sprockets, roller chains, pulleys, motor bases, chain tools, namely, machine tools for disconnecting roller chain in bulk lengths for cutting, repair and alternation of roller chain, keys, hubs for the adjustment of motor drives, gear drives and cams, keystick, speed reducers, geared sprockets, gear spindles, electrical adjustable speed drives, springs, pins, retainer rings, AC and DC electric motors, electric motor bases, clutches, clutch brakes, clutch brake couplings, wire for maintaining a uniform air gap in electromagnetic friction clutches and brakes, ball screws, machinery shaft couplings, set collars, locking collars for antifriction bearing units, torque converters, torque overload devices, u-joints;

vibration dampeners and detuners being motor mufflers for machines other than vehicles; roll crushers being crushing machines for use in mining applications and mineral processing; impact crushers being rock crushing machines; hydraulic rock breakers; mixers and blenders for commercial applications, namely, concrete mixers, slurry blender machines for use in oil or gas well hydraulic fracturing operations; industrial machines for commercial applications, namely, roll crushers, impact crushers, breakers, and mixers and blenders for use in the cement, lime, gypsum, ceramic, refractory, metallurgical and mining industries; pipe couplers being parts of machines; pipe couplers for industrial machinery; hand cranks being parts of machines; pneumatic controls for machines, namely, dials in the shape of drums for making adjustments to timing belts for machines; pneumatic ratchet wenchers; pawls being gear lever knobs for machines; vertical reciprocating hoists, and reciprocating beam conveyers; conveyors, conveyor belts, conveyor lines and replacement parts therefore; mechanical drives for machines, namely, gear drives for automated industrial machinery; electric motors for machines; industrial V-belts being driving belts for machines; electric generators; lubricating machines for use in applying lubricants to industrial power transmission products, namely, machine bearings, cam chains and sprockets, gearing for machines, and linear slide rests being parts of machines and industrial guide rails for conveyors; rubber belts for machines in which cords are imbedded; flexible link belts for machines; synchronous drive belts and sprockets, all being parts of machines; variable speed change gears and variable speed change motors, other than for land vehicles; driveshaft for machines; flexible disc couplings for machines; worm gear reduction units being parts of machines; self-aligning spherical bearings and self-aligning spherical rod-end bearings for machines and machine parts; chain return support and guides being machine parts for conveyors; lathes for metalworking; ball bearings for conveyors; air filters for use in enclosed gear drives; vibrating moving and processing equipment, namely, conveyors for moving bulk materials and loose articles, screens for moving, separating, and sizing loose materials, mechanized livestock feeders for feeding loose material at a controlled rate; spiral conveyors for advancing upward materials in a continuous spiral; drying and heating conveyers; actuator nuts being machine parts, each comprising the internally threaded element for a mechanical movement having a rotational input and an axial output; machine parts, namely, conveyor belt backstops, welded and fabricated metal bearing housings, cast bearing housings, mechanical contact seals and mechanical labyrinth seals, oil collection pans, oil pumps for use in gear drives, oil anti-foaming devices consisting primarily of ported steel valve blocks and pipe plug valve fittings, breather vents being pressure regulating valves, torque arms not for land vehicles, namely, torque arms for machines, swing base springs being parts of machines, shaft fans for use in gear drives, air shrouds being fans for machine engines, oil pump hoses, oil dipsticks, electric motor mounts, transition motor bases, pump motor adapters, oil exclusion pans being oil separators, and cooling devices, namely, cooling plates being liquid cold plates and heat exchangers; motor, manually or hydraulically operated fixed cone dispersion valves for regulated free discharge of liquids, namely, control valves for regulating the flow of liquids; pump control valves; electric motors for machines for the heating and air-conditioning market; commercial refrigeration evaporator fan motor; AC electrical motors for machines and parts therefor; motors for use in residential and commercial HVAC systems; motors other than for land vehicles, namely, electric motors for machines; motors, namely, AC motors for variable speed operation for use in connection with heating, ventilation, and air conditioning; motors, namely, AC motors for use in connection with heating, ventilation, air conditioning and pumps; electric motors for machines and their parts, namely, housings made of cold extruded steel, housings made of non-ferrous metals, stamped metal parts and molded plastic parts; electric gearhead motors for machines; electric motors and generators for use with jetted tubs, pools and spas; condenser fan motors for residential and commercial air conditioning systems, not for land vehicles; three-phase asynchronous electric motors for machines; industrial hydraulic valve actuators; industrial

pneumatic valve actuators; machine parts, namely, modular plastic belts; permanent magnet axial motor with integral motor controller in the nature of electric motors for machines and their parts, not for land vehicles; electric motors, namely, variable speed motors for swimming pool pumps.

Class 09

(3) Electrical components and parts and accessories therefor, namely, capacitors, voltage regulators, electricity sensors; none of the foregoing for motor vehicles; electric motion control switches for controlling the output of electric machine motors and connected machinery, none of the foregoing for motor vehicles; fan speed controls, none of the foregoing for motor vehicles; software for use in determining the performance compatibility of electronic components in conveying machines; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears, and conveyors and conveyor machines; downloadable software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and gears, and conveyors and conveyor machines; remote control for wirelessly communicating with an electronically commutated motor for industrial machines; electrical components, namely, terminal blocks, sectional terminal blocks, electrical power distribution blocks, holders specially adapted for electrical fuses, sectional holders specially adapted for electrical fuses, and structural parts thereof; electronic lock assemblies; electrical components of electric motors, namely, electric magnet wires, electrical ties, and magnetic slot wedges; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable software, namely, a mobile application for use in installation and maintenance of blower motors for heating, ventilation, air conditioning systems; software in the nature of a mobile application for monitoring the operational performance of commercial and industrial power transmission equipment in HVAC systems, namely, monitoring power and energy consumption, motors, bearings, belts, ambient interior air and exterior air temperature, humidity, and the rotational speed of said equipment to validate energy savings; capacitors for use in residential and commercial HVAC systems; electrical diagnostic equipment to analyze HVAC systems that use variable speed blower motors; electronic controllers for engines, namely, electronic power switches and electrical relays; power generation equipment, namely, control panels for engines and generators; control devices for engines and generators, namely, microprocessor engine controllers, microprocessor generator controllers, electronic engine speed sensors, AC voltage sensors, battery voltage sensors, and annunciators; communication control devices, namely, communication interface modules that communicate with engines and generators; downloadable software for remote communication with, remote control of, and monitoring of engines and generators; automatic transfer switches (ATS) for engines and generators; transfer switch control devices for engines and generators, namely, automatic transfer switches (ATS) for controlling the transfer of the supply of power from one power source to another; changeover switches for engines and generators for transferring the supply of power from one power source to another; voltage switchgear for engines and generators for automatic standby; downloadable software applications for prime power and distributed generation, namely, software for use in controlling power generation system installations; chargers for batteries used in engines; chargers for switchgear station service batteries; load banks for use in load testing and exercising engines and generators; wireless control application for swimming pool pumps, namely, hardware for the wireless control of swimming pool pumps, computer software programs for the

wireless control of swimming pool pumps and downloadable software in the nature of a mobile application for wireless control of swimming pool pumps; sensors, namely, motion sensors, temperature sensors, timing sensors and vibration sensors for industrial machines; motion sensors for use with power transmissions for machines.

Class 11

(4) Ventilators, blowers and draft inducers, heating, ventilation, and air conditioning (HVAC) units, drying, heating and cooling systems for conveyors, assembly line conveyor machinery, and other transmission lines, namely, conveyor lines; cooling devices, namely, cooling plates; heat exchangers, other than parts of machines; exhaust ventilators for kitchens, bathrooms, exhaust, heat recovery, power roof, turbine, wall mount, and filtered supply devices being ventilating fans, none of the foregoing for motor vehicles; blowers and draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; heating, ventilation, and air conditioning (HVAC) units, none of the foregoing for motor vehicles, namely, HVAC systems for commercial and residential buildings; ventilating fans for commercial and industrial use and parts and accessories therefor, namely, fan blade assemblies, none of the foregoing for motor vehicles; chimney blowers, fireplace blowers, and hot air blowers for use in HVAC systems and parts and accessories therefor, namely, wheels and housings, none of the foregoing for motor vehicles; electric heaters and parts and accessories therefor, namely, draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; ventilating fans, circulating electric fans; circulating fans for use in heating, ventilation, and air conditioning units, portable window fans, portable casement fans, oscillating fans, pedestal fans, kitchen ventilators, bathroom ventilators, range hood ventilators, bathroom heaters, recovery ventilators featuring indicator lights for use in bathrooms, utility ventilators, namely, energy recovery ventilators and heat recovery ventilators, power attic space ventilators, ventilator housings made of cold extruded steel, non-ferrous metals, stamped metal parts and molded plastic parts, electric baseboard heaters, wall and ceiling heaters, electric space heaters, electric fireplaces, electric furnaces for industrial purposes, air conditioning units and parts therefor, heat pumps, electric ventilating exhaust fan air blowers and heaters for saunas; blowers for use in residential and commercial HVAC systems and refrigeration systems; blower assembly for use in heating, ventilation, and air conditioning units comprised of a fan, motor and motor controller; fans for use in heating, ventilation, and air conditioning units.

Services

Class 37

(1) Technical support services, namely, providing advice concerning installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, hvac systems and refrigeration systems.

Class 41

(2) Educational services, namely, conducting classes, seminars and workshops in the field of commercial and industrial power transmission equipment, power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 42

(3) Providing temporary use of non-downloadable cloud-based software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; providing temporary use of non-downloadable cloud-based augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine

couplings, machine bearings and transmission gears and conveyors and conveyor machines; design and development of software for multimedia data storing and recalling for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, motors, generators, shafts, couplings, bearings and gears and conveyors and conveyor systems; technical support services, namely, computer software installation, maintenance and repair for the foregoing; diagnostic services in the field of commercial and industrial power transmission equipment and components; design for others in the field of commercial and industrial power transmission equipment and components; monitoring of commercial and industrial power transmission equipment and components to ensure proper functioning; design of commercial and industrial power transmission equipment for others; consulting services in the field of product development and custom design of electric motors for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems, none of the foregoing for motor vehicles; consulting services in the field of product development and custom design of electric motors, none of the foregoing for motor vehicles; product failure analysis services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; product failure analysis services, namely, testing of new products of others; new product design services; engineering services for power transmission machines and components therefor, comprising bearings, couplings, motors, gearing, conveyor and drive systems, and custom-made plastic parts; technical support services, namely, providing technical advice concerning the design of bearings, couplings, motors, gearing, and conveyor and drive systems, all relating to power transmission machines; technical support services, namely, computer software installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; diagnostic services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; design for others in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; consulting services in the field of product development and custom design of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Visual Representation

The word "HALO" is rendered in a bold, red, sans-serif typeface. The letters are closely spaced, and the 'H' and 'A' are particularly prominent due to their height and width.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the stylized word HALO in red.

Goods

Class 06

(1) Metal building fittings, namely, locks for doors and parts therefor, locksets for doors, door latch sets comprised of metal door latches and screws, and parts therefor; metal door handle sets comprised of metal door handles and screws; metal door hardware, namely, latch plates; metal door strikes; metal keys and key blanks

Class 09

(2) Fingerprint scanners; Electronic door locks incorporating fingerprint scanners; Biometric fingerprint door locks; Electronic door locks; Wireless electronic door locking systems consisting of wireless electronic door locks, wireless embedded gateway software for transmitting and receiving signals for electronic door locks, wireless electrical plugs, and electronic key fobs; Wireless electrical plugs which enable wireless control of door locks; Wireless gateways, namely, computer hardware and embedded software for transmitting and receiving signals for electronic door locks being remote control apparatus; Encoded electronic wireless key fobs for controlling electronic door locks; Downloadable computer application software for computers, mobile phones and mobile computing devices, namely, software for controlling, monitoring and managing electronic locks, access control devices and encrypted electronic keys

Application Number 2,225,003
Language of Application English

Filing Date 2022-11-30

Class 06

(1) Keystocks.

Class 07

(2) Transmissions for industrial machines, and structural parts therefor, none of the foregoing for motor vehicles; machine parts, namely, mechanical, electrical, and electromechanical power transmission components, and bearing products for machines, namely, gears, gear racks, torque limiters, idlers, tighteners, sheaves, chain guides, wear strips, flange mountings with bearings, bearings, bearing seals, adaptor bearings, pillow blocks, flange blocks, take-up units, take-up frames, bushings, belts, flexible couplings, roller chain drives, sprockets, roller chains, pulleys, motor bases, chain tools, namely, machine tools for disconnecting roller chain in bulk lengths for cutting, repair and alternation of roller chain, keys, hubs for the adjustment of motor drives, gear drives and cams, keystone, speed reducers, geared sprockets, gear spindles, electrical adjustable speed drives, springs, pins, retainer rings, AC and DC electric motors, electric motor bases, clutches, clutch brakes, clutch brake couplings, wire for maintaining a uniform air gap in electromagnetic friction clutches and brakes, ball screws, machinery shaft couplings, set collars, locking collars for antifriction bearing units, torque converters, torque overload devices, u-joints; vibration dampeners and detuners being motor mufflers for machines other than vehicles; roll crushers being crushing machines for use in mining applications and mineral processing; impact crushers being rock crushing machines; hydraulic rock breakers; mixers and blenders for commercial applications, namely, concrete mixers, slurry blender machines for use in oil or gas well hydraulic fracturing operations; industrial machines for commercial applications, namely, roll crushers, impact crushers, breakers, and mixers and blenders for use in the cement, lime, gypsum, ceramic, refractory, metallurgical and mining industries; pipe couplers being parts of machines; pipe couplers for industrial machinery; hand cranks being parts of machines; pneumatic controls for machines, namely, dials in the shape of drums for making adjustments to timing belts for machines; pneumatic ratchet wenchers; pawls being gear lever knobs for machines; vertical reciprocating hoists, and reciprocating beam conveyers; conveyors, conveyor belts, conveyor lines and replacement parts therefore; mechanical drives for machines, namely, gear drives for

automated industrial machinery; electric motors for machines; industrial V-belts being driving belts for machines; electric generators; lubricating machines for use in applying lubricants to industrial power transmission products, namely, machine bearings, cam chains and sprockets, gearing for machines, and linear slide rests being parts of machines and industrial guide rails for conveyors; rubber belts for machines in which cords are imbedded; flexible link belts for machines; synchronous drive belts and sprockets, all being parts of machines; variable speed change gears and variable speed change motors, other than for land vehicles; driveshaft for machines; flexible disc couplings for machines; worm gear reduction units being parts of machines; self-aligning spherical bearings and self-aligning spherical rod-end bearings for machines and machine parts; chain return support and guides being machine parts for conveyors; lathes for metalworking; ball bearings for conveyors; air filters for use in enclosed gear drives; vibrating moving and processing equipment, namely, conveyors for moving bulk materials and loose articles, screens for moving, separating, and sizing loose materials, mechanized livestock feeders for feeding loose material at a controlled rate; spiral conveyors for advancing upward materials in a continuous spiral; drying and heating conveyers; actuator nuts being machine parts, each comprising the internally threaded element for a mechanical movement having a rotational input and an axial output; machine parts, namely, conveyor belt backstops, welded and fabricated metal bearing housings, cast bearing housings, mechanical contact seals and mechanical labyrinth seals, oil collection pans, oil pumps for use in gear drives, oil anti-foaming devices consisting primarily of ported steel valve blocks and pipe plug valve fittings, breather vents being pressure regulating valves, torque arms not for land vehicles, namely, torque arms for machines, swing base springs being parts of machines, shaft fans for use in gear drives, air shrouds being fans for machine engines, oil pump hoses, oil dipsticks, electric motor mounts, transition motor bases, pump motor adapters, oil exclusion pans being oil separators, and cooling devices, namely, cooling plates being liquid cold plates and heat exchangers; motor, manually or hydraulically operated fixed cone dispersion valves for regulated free discharge of liquids, namely, control valves for regulating the flow of liquids; pump control valves; electric motors for machines for the heating and air-conditioning market; commercial refrigeration evaporator fan motor; AC electrical motors for machines and parts therefor; motors for use in residential and commercial HVAC systems; motors other than for land vehicles, namely, electric motors for machines; motors, namely, AC motors for variable speed operation for use in connection with heating, ventilation, and air conditioning; motors, namely, AC motors for use in connection with heating, ventilation, air conditioning and pumps; electric motors for machines and their parts, namely, housings made of cold extruded steel, housings made of non-ferrous metals, stamped metal parts and molded plastic parts; electric gearhead motors for machines; electric motors and generators for use with jetted tubs, pools and spas; condenser fan motors for residential and commercial air conditioning systems, not for land vehicles; three-phase asynchronous electric motors for machines; industrial hydraulic valve actuators; industrial pneumatic valve actuators; machine parts, namely, modular plastic belts; permanent magnet axial motor with integral motor controller in the nature of electric motors for machines and their parts, not for land vehicles; electric motors, namely, variable speed motors for swimming pool pumps.

Class 09

(3) Electrical components and parts and accessories therefor, namely, capacitors, voltage regulators, electricity sensors; none of the foregoing for motor vehicles; electric motion control switches for controlling the output of electric machine motors and connected machinery, none of the foregoing for motor vehicles; fan speed controls, none of the foregoing for motor vehicles; software for use in determining the performance compatibility of electronic components in conveying machines; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power

transmission devices; downloadable augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears, and conveyors and conveyor machines; downloadable software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and gears, and conveyors and conveyor machines; remote control for wirelessly communicating with an electronically commutated motor for industrial machines; electrical components, namely, terminal blocks, sectional terminal blocks, electrical power distribution blocks, holders specially adapted for electrical fuses, sectional holders specially adapted for electrical fuses, and structural parts thereof; electronic lock assemblies; electrical components of electric motors, namely, electric magnet wires, electrical ties, and magnetic slot wedges; computer application software for mobile smart phones, namely, software for providing access to searchable databases of information about industrial and commercial power transmission devices; downloadable software, namely, a mobile application for use in installation and maintenance of blower motors for heating, ventilation, air conditioning systems; software in the nature of a mobile application for monitoring the operational performance of commercial and industrial power transmission equipment in HVAC systems, namely, monitoring power and energy consumption, motors, bearings, belts, ambient interior air and exterior air temperature, humidity, and the rotational speed of said equipment to validate energy savings; capacitors for use in residential and commercial HVAC systems; electrical diagnostic equipment to analyze HVAC systems that use variable speed blower motors; electronic controllers for engines, namely, electronic power switches and electrical relays; power generation equipment, namely, control panels for engines and generators; control devices for engines and generators, namely, microprocessor engine controllers, microprocessor generator controllers, electronic engine speed sensors, AC voltage sensors, battery voltage sensors, and annunciators; communication control devices, namely, communication interface modules that communicate with engines and generators; downloadable software for remote communication with, remote control of, and monitoring of engines and generators; automatic transfer switches (ATS) for engines and generators; transfer switch control devices for engines and generators, namely, automatic transfer switches (ATS) for controlling the transfer of the supply of power from one power source to another; changeover switches for engines and generators for transferring the supply of power from one power source to another; voltage switchgear for engines and generators for automatic standby; downloadable software applications for prime power and distributed generation, namely, software for use in controlling power generation system installations; chargers for batteries used in engines; chargers for switchgear station service batteries; load banks for use in load testing and exercising engines and generators; wireless control application for swimming pool pumps, namely, hardware for the wireless control of swimming pool pumps, computer software programs for the wireless control of swimming pool pumps and downloadable software in the nature of a mobile application for wireless control of swimming pool pumps; sensors, namely, motion sensors, temperature sensors, timing sensors and vibration sensors for industrial machines; motion sensors for use with power transmissions for machines.

Class 11

(4) Ventilators, blowers and draft inducers, heating, ventilation, and air conditioning (HVAC) units, drying, heating and cooling systems for conveyors, assembly line conveyor machinery, and other transmission lines, namely, conveyor lines; cooling devices, namely, cooling plates; heat exchangers, other than parts of machines; exhaust ventilators for kitchens, bathrooms, exhaust, heat recovery, power roof, turbine, wall mount, and filtered supply devices being ventilating fans, none of the foregoing for motor vehicles; blowers and draft inducers for fireplaces and furnaces,

none of the foregoing for motor vehicles; heating, ventilation, and air conditioning (HVAC) units, none of the foregoing for motor vehicles, namely, HVAC systems for commercial and residential buildings; ventilating fans for commercial and industrial use and parts and accessories therefor, namely, fan blade assemblies, none of the foregoing for motor vehicles; chimney blowers, fireplace blowers, and hot air blowers for use in HVAC systems and parts and accessories therefor, namely, wheels and housings, none of the foregoing for motor vehicles; electric heaters and parts and accessories therefor, namely, draft inducers for fireplaces and furnaces, none of the foregoing for motor vehicles; ventilating fans, circulating electric fans; circulating fans for use in heating, ventilation, and air conditioning units, portable window fans, portable casement fans, oscillating fans, pedestal fans, kitchen ventilators, bathroom ventilators, range hood ventilators, bathroom heaters, recovery ventilators featuring indicator lights for use in bathrooms, utility ventilators, namely, energy recovery ventilators and heat recovery ventilators, power attic space ventilators, ventilator housings made of cold extruded steel, non-ferrous metals, stamped metal parts and molded plastic parts, electric baseboard heaters, wall and ceiling heaters, electric space heaters, electric fireplaces, electric furnaces for industrial purposes, air conditioning units and parts therefor, heat pumps, electric ventilating exhaust fan air blowers and heaters for saunas; blowers for use in residential and commercial HVAC systems and refrigeration systems; blower assembly for use in heating, ventilation, and air conditioning units comprised of a fan, motor and motor controller; fans for use in heating, ventilation, and air conditioning units.

Services

Class 37

(1) Technical support services, namely, providing advice concerning installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, hvac systems and refrigeration systems.

Class 41

(2) Educational services, namely, conducting classes, seminars and workshops in the field of commercial and industrial power transmission equipment, power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Class 42

(3) Providing temporary use of non-downloadable cloud-based software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; providing temporary use of non-downloadable cloud-based augmented reality software for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, electric motors, electric generators, drive shafts, machine couplings, machine bearings and transmission gears and conveyors and conveyor machines; design and development of software for multimedia data storing and recalling for monitoring, storing and analyzing measured operating performance of rotating machinery, namely, motors, generators, shafts, couplings, bearings and gears and conveyors and conveyor systems; technical support services, namely, computer software installation, maintenance and repair for the foregoing; diagnostic services in the field of commercial and industrial power transmission equipment and components; design for others in the field of commercial and industrial power transmission equipment and components; monitoring of commercial and industrial power transmission equipment and components to ensure proper functioning; design of commercial and industrial power transmission equipment for others; consulting services in the field of product development and custom design of electric motors for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems, none of the

foregoing for motor vehicles; consulting services in the field of product development and custom design of electric motors, none of the foregoing for motor vehicles; product failure analysis services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; product failure analysis services, namely, testing of new products of others; new product design services; engineering services for power transmission machines and components therefor, comprising bearings, couplings, motors, gearing, conveyor and drive systems, and custom-made plastic parts; technical support services, namely, providing technical advice concerning the design of bearings, couplings, motors, gearing, and conveyor and drive systems, all relating to power transmission machines; technical support services, namely, computer software installation, maintenance and repair for power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; diagnostic services in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; design for others in the field of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems; consulting services in the field of product development and custom design of power generation equipment, residential and commercial ventilation systems, HVAC systems and refrigeration systems.

Colour Claim

Colour is claimed as a feature of the trademark. The word "KONCAR", including the horizontal accent above the letter "C", are blue.

Goods

Class 04

(1) electrical energy from renewable sources, namely solar energy, wind energy, hydro energy, geothermal energy, biomass energy.

Class 07

(2) electric generators; electric power generators; electric power generators using geothermal power; electric power generators using waste heat; electrical generators using hydrogen fuel cells; electrical generators using solar cells; electricity generators; electric clothing pressing machines; vacuum cleaners for industrial purposes; vacuum cleaners; dishwashers; washing machines [laundry]; hydroelectric installations for generating electricity; rotating centres being parts of machines; synchronous alternating current generators; asynchronous (induction) machines for industrial purposes; cooling fans for automobile engines; cooling radiators for motors and engines; cooling water tanks for automobile engines pumps for cooling engines low voltage motors for industrial purposes; diesel electric generators; turbogenerators.

Class 09

(3) Personal computers; solar energy collectors for electricity generation; railway signals; electrical transformers [for telecommunication apparatus]; current transformers; distribution transformers; electronic power transformers; voltage regulators; static exciters; current collectors; power transformers; computer programs for connecting to remote computers and computer networks; railway signals; high voltage transformers; computer operating systems; computer programs for connecting to remote computers and computer networks; software for monitoring electrical power; computer software for controlling of vehicles; computer systems for vehicle safety and security for

autonomous vehicles; computer-controlled steering system for vehicles featuring smart technology; meters for measuring values of electrical parameters; voltage regulators for electric power; electric voltage transformers; electronic power transformers; security software; traffic-light signaling devices; software for computer-aided engineering (CAE); electric current collectors; software for supervisory control and data acquisition (SCADA); downloadable computer software and mobile application software for advanced meter management for monitoring electrical energy usage; downloadable computer software and mobile application software for advanced energy systems for monitoring energy systems for monitoring energy use and distribution; downloadable computer software and mobile application software for collecting and analyzing data in the field of advanced urban infrastructure; downloadable computer software and mobile application software for collecting and analyzing data in the field of advanced critical infrastructure; computer firmware for remote monitoring of function of hardware and computer network; downloadable computer software and mobile application software for monitoring hybrid energy microgrids; downloadable computer software and mobile application software for collecting and analysing data in the field of active asset management; downloadable computer software and mobile application software for monitoring the electricity market; downloadable computer programs for searching the contents of computers and computer networks by remote control; downloadable computer system for electric transformer monitoring; electric power switches; electrical switchgear, namely, voltage boosting devices for electric power lines; high voltage and medium voltage electrical switchgear and apparatus, namely, voltage boosting devices for electric power lines; low-voltage power supplies for energy distribution; transformers for measuring power in large systems; information technology equipment; apparatus for transmission of communication via mobile phones.

Class 11

(4) extraction hoods for freezers; chest freezers; hair dryers; hair driers [dryers]; microwave ovens [cooking apparatus]; bread toasters; bread-making machines; electric coffee brewers; ice machines; water heaters; solar thermal collectors [heating]; refrigerators; electric central heating boiler systems; roasting jacks; roasting spits; barbecues; induction ranges; electric ranges; gas cookers; clothes dryers; ventilating fans; electric space heaters; ventilation hoods; electric cooking ovens for household purposes; electric cooking ovens for professional purposes; electric refrigerators; air-conditioning units; deep frying machines; heating radiators for solid, liquid or gaseous fuels; electric cooking pots and pans; gas stoves; cooking grids; cooking grills.

Class 12

(5) cars; trolley buses; self-generating electric locomotives [diesel-electric locomotives]; trams [vehicles]; railcars; rail wagons; electric locomotives; trailers for vehicles and structural parts thereof; freight trains, hydrogen fueled trains, self-driving trains; electric power train; rail cars; land vehicles for transportation; diesel-electric locomotives.

Services

Class 37

(1) maintenance and repair of wind power plants; construction of wind power plants; installation of hydropower systems; installation of environmental engineering systems; installation of equipment for thermal power plants, biopower plants, cogeneration and renewable energy facilities; advisory services relating to the construction of buildings, namely power plants; repair and maintenance of power plants, namely hydroelectric powerplants, solar powerplants, wind power plants, geothermal power plants, nuclear power plants; construction of power plants, namely hydroelectric powerplants, solar powerplants, wind power plants, geothermal power plants, wave energy power plants; construction services, namely, custom construction of commercial communities; building construction for energy systems infrastructure projects; building construction for rail infrastructure

projects; refurbishment of buildings, namely power plants; construction services, namely, installation of environmental containment systems; installation and maintenance of power generation equipment; building and plant construction management.

Class 38

(2) operating a wide-area network (WAN); providing access to databases via telecommunications networks; providing telecommunications connections to the Internet; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes.

Class 40

(3) Production of electrical power from renewable sources; treatment of waste materials in the field of environmental pollution control; energy production.

Class 41

(4) conducting training programs in the field of power plant operations for clients and clients' staff.

Class 42

(5) Technical design services relating to electricity plants; design and development of data processing software; industrial design; maintenance of computer software; computer software research; updating of computer software; computer software design; software creation; computer system design and development; environmental assessment services; monitoring of computer systems by remote access; digitization of documents; computer diagnostic services; electrical engineering services; maintenance of computer software relating to computer security and prevention of computer risks; telecommunication network security consultancy; IT security services in the nature of protection and recovery of computer data; environmental monitoring services; analysis and testing services relating to electrical engineering apparatus; engineering services relating to computers; quality control testing services for industrial machinery; authentication, issuance, validation and revocation of digital certificates; industrial analysis and research services in the field of engineering in energy and electrical industry; scientific research services in the field of engineering in energy and electrical industry; technological consulting services in the field of energy systems engineering; computer software development; laboratory research in the field of chemistry; laboratory research in the field of energy systems engineering; computer programming of electronic control systems; engineering services for design and construction of rail vehicles; engineering services for design and construction of and power plants, namely hydroelectric powerplants; consulting services in the fields of energy measurement to improve energy efficiency; design and development of Internet security programs; conducting survey services for the oil and gas, energy, mining, environmental and construction industries; scientific research in the field of environmental protection; preparation of reports relating to technical project studies for projects in the field of environmental protection; technical consultation in the field of power plant engineering; technical consulting in the field of environmental engineering; telecommunications hardware and software engineering; engineering services, namely, transportation engineering in the field of operation of transportation facilities.

Trademark Type

Standard Characters

Goods

Class 09

Electrical contact and measurement devices and high-frequency equipment for electric and electronic test engineering, namely coaxial connectors and monitoring modules for measuring solar cells for electrical impedance and voltage to ensure electrical efficiency, testing probes for testing the functioning of electrical components and assemblies, test adapters for testing the functioning of electrical components and assemblies, and testing probes for testing integrated circuits, for testing power amplifiers and for testing radio frequency signals switches; electrical test contacts composed of an inner conductor and outer conductor for electrical circuits; electrical couplings, including spring-contact couplings for the automated contacting of plugs, sockets and circuit boards; metallic electrical lines and wires and cables for forming a test pin; electrical measurement apparatus for testing the functionality of electric components and assemblies, namely, integrated circuit test sockets, testing probes for testing semiconductors; current switches, cut-out switches, electrical disconnect switches, fault current switches, high-frequency switching power supplies; transmitter for electronic signals, namely in the form of radio frequency transmitters; connecting parts and components for electrical lines, namely, coaxial cable connectors and electrical connectors for the connection to an electrical transmission line and for the connection to meters for measuring electrical inductance, capacitance and resistance; electrical contact analyzers for testing the functioning of electrical components and assemblies; test pins for testing and measuring the flow of electricity in an electrical circuits high-current contact pins, high-current clamps contacts, high-current terminals boxes, battery testing terminals, electrical plug-in connectors, junction sleeves for electric cables; manual test adapters for carrying out semiconductor tests and semiconductor testing and testing of electrical components, pneumatic test adapters for carrying out semiconductor tests and semiconductor testing and testing of electrical components, vacuum test adapters for carrying out semiconductor tests and semiconductor testing and testing of electrical components, electrical test adapters for carrying out semiconductor tests and semiconductor testing and testing of electrical components, high-frequency test adapters for carrying out semiconductor tests and semiconductor testing and testing of electrical components, drive units for test adapters for carrying out semiconductor tests and

semiconductor testing and testing of electrical components, test sockets and electrical contacts, in particular for carrying out semiconductor tests and semiconductor testing and testing of electrical components, accessories for test adapters and test devices used for carrying out semiconductor tests and semiconductor testing and testing of electrical components, namely board marker probes, interface blocks, namely electrical disconnects for stopping the flow of electricity in an electrical circuit, tools for the installation and development of plug-in contacts and contact pins and test adapters plugs, test electrical plugs and electrical test heads for carrying out semiconductor testing and testing of electrical components

Services

Class 42

Product development in the field of electrical measurement technology engineering and electrical measurement technology engineering services; industrial and scientific research and development, namely the implementation of development processes and design processes in the area of high-frequency technology, high-frequency measuring technology and in the field of mechanical engineering and testing equipment technology; development of electronic circuits; services of a design engineer, namely the creation and planning of design processes of automated machinery for use in the field of electrical engineering; technical quality and material testing in the field of electrical engineering and high-frequency measuring technology, including the use of high-frequency test pins; preparation of technical reports in the field of high-frequency metrology and in the field the use of high-frequency test pins for measuring the flow of electricity in an electrical circuits

Goods

Class 28

Toys and games, namely, hand-held units for playing electronic games, except those adapted for use with external display screens or monitors, not including headsets, headphones, adapters, multi-media speakers, amplifiers, cables and microphones; Hand-held electronic game units adapted for use with an external display screen or monitor, namely video game consoles, LCD games consoles, and handheld consoles for playing video games, not including headsets, headphones, adapters, multi-media speakers, amplifiers, cables and microphones

Services

Class 35

(1) Organization of trade fairs and exhibitions for commercial or advertising purposes, via the internet and via electronic media, namely events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; business organization consultancy with regard to the preparation, conducting and arranging of trade fairs and exhibitions; promoting the goods and services of other by arranging for sponsors to affiliate their goods and services with award programs; presentation of companies and their products and services, on the internet and in other media, namely the organization and conducting of product and service presentations; commercial business management services in the field of electronic games; rental of exhibition and trade fair stands; public relations services; advertising on the Internet for others; advertising the goods and services of others via electronic media and specifically the internet; providing and rental of advertising space on the internet and at trade fairs and exhibitions for commercial or advertising purposes; dissemination of advertising materials for others; compilation of statistics; editing of texts for advertising purposes; market research and market analysis; marketing research and sales

promotions for others by means of website information and public relations campaigns; providing commercial and business information on electronic media, and information in the field of advertising; collating of data in computer databases, compiling and publication of address data, in particular internet addresses, for advertising purposes; wholesaling, retailing and mail order, also provided via the internet, in relation to the following goods: data-processing apparatus, data processing equipment, accessories for the aforesaid goods, namely, computers and computer accessories for computer games, electronic publications in the field of videogames and videogame tournaments, not including headsets, headphones, adapters, multi-media speakers, amplifiers, cables and microphones, printed publications, software, electronic games, furniture, in particular seating furniture, for example, seats [adapted for computer game players] and bean bags, clothing, footwear, headgear; wholesaling, retailing and mail order, also provided via the internet, in relation to the following goods: horological and chronometric instruments, parts for clocks, parts of chronometric instruments, jewellery, precious stones, goods made of precious metals and their alloys and coated therewith, namely medals, badges for wear, statues and figurines, figurines (statuettes), sculpture, busts, objects of art, trophy cups, ornamental action figures, key rings [fantasy goods, jewellery]; wholesaling, retailing and mail order, also provided via the internet, in relation to the following goods: umbrellas, parasols, canes, luggage, handbags, pocket wallets and all-purpose portable containers, not including headsets, headphones, adapters, multi-media speakers, amplifiers, cables and microphones, goods, made from the following materials: articles of porcelain, ceramics, majolica and glass, in particular cups and other tableware

Class 41

(2) Arranging and conducting exhibitions in the field of videogames for cultural, entertainment, and sporting purposes, via the internet and electronic media, via concert series, and via street parties; arranging and conducting of educational congresses, conferences, seminars and workshops by providing of training, via the internet and electronic media, and providing of additional training programs and training material, in the field of videogames; publication of printed and electronic text, image and sound material, except for advertising purposes, namely in the form of printed and electronic publications in the nature of newspapers, periodicals, magazines, books, calendars, prospectuses, pamphlets and printed databases, also recorded on electronic media; entertainment, namely organizing and conducting tournaments, contests, competitions, and award ceremonies via the Internet for entertainment purposes in the field of videogames; publishing of electronic content, namely publishing of electronic publications on the Internet (not downloadable) in the nature of non-downloadable newspapers, periodicals, magazines, books, calendars, prospectuses, pamphlets and printed databases, e-books, audio books, music and illustrations

Services

Class 35

(1) Business services provided to the cosmetic industry, namely, the collection, analysis and reporting of ingredients used in the manufacture of cosmetics; providing business information in the field of ingredients used in the manufacture of cosmetics via an online database; business consulting to business professionals in the field of identifying, naming and categorizing cosmetic ingredients; providing commercial and business information in the field of cosmetic ingredients; commercial information and advice for consumers, namely, providing a computer database for the exchange of information about cosmetic ingredients; compilation of statistical information in the field of cosmetic ingredients.

Class 42

(2) Scientific research, cosmetic research, material testing, all to identify ingredients used in the manufacture of cosmetics; scientific and technological services, namely, research and analysis in the field of identifying ingredients used in the manufacture of cosmetics; computer services, namely creating computer network based indexes of information, websites and resources in the field of ingredients used in the manufacture of cosmetics; computer services, namely, creating an on-line community for registered users to participate in discussions, share recommendations, get feedback from their peers relating to ingredients used in the manufacture of cosmetics; computer services, namely, creating computer network based indexes of information, and websites; providing customized computer searching services, namely, searching and retrieving information relating to ingredients used in the manufacture of cosmetics at the customer's specific request via the Internet; scientific research consultancy in relation to the naming of ingredients, namely identifying the ingredients used in the manufacture of cosmetics through chemical analysis and assessing the quality and safety of the ingredients; providing an online database of information relating to the identification of ingredients used in the manufacture of cosmetics and an online non-downloadable software for the analysis and identification of cosmetic ingredients; providing non-downloadable cloud-based software for use in identifying cosmetic ingredients; providing direct connection services between computer users for exchanging product data, namely, providing temporary use of online non-downloadable software for the exchange of data relating to the

identification of ingredients used in the manufacture of cosmetics; scientific, cosmetic and technological services, namely, research and design in the fields of cosmetics; hosting of digital content on the internet; providing online database search tools, namely, provision of Internet search engines for searching online databases; industrial research relating to the identification of ingredients used in the manufacture of cosmetics; computer services, namely, providing scientific research information from a computer database via a global computer network in the form of bibliographic citations and abstracts of journal articles, reports and research materials relating to the identification of ingredients used in the manufacture of cosmetics in the science and technology, and scientific research fields; consultation and information services relating to the identification of ingredients used in the manufacture of cosmetics.

Class 45

(3) Licensing of intellectual property, namely, comprehensive list of ingredients used in cosmetic and personal care products; licensing of intellectual property.

MIXING UP A TASTE OF ADVENTURE EVERY DAY

Trademark Type

Standard Characters

Goods

Class 07

(1) Electric food grinders and food blenders; electric food mixers; electric knives; electric food slicers; electric can openers; electric juicers

Class 08

(2) Flatware, namely, knives, forks and spoons; disposable cutlery, namely, knives, forks and spoons; serving utensils, namely, serving knives; scissors; kitchen knives; knife sets, namely, knives being tableware; hand-operated apple corers; kitchen scissors; meat tenderizer, namely, kitchen mallet; kitchen mallets being hand tools; non-electric can openers; non-electric food peelers, namely, non-electric fruit peelers, non-electric potato peelers, and non-electric vegetable peelers; kitchen utensils, namely, non-electric pizza cutters; spoons being tableware

Class 09

(3) Kitchen timers, non-electric; measuring spoons and cups; kitchen food scales; decorative magnets; meat thermometers; cocktail jiggers; household thermometers

Class 11

(4) Electric coffee makers; electric griddles; electric skillets; electric toasters; electric sandwich makers; electric frying pans; electric food warmers; electric popcorn poppers; electric waffle makers; fondue sets, namely, electric fondue pots and burners, forks, bowls and candles sold as a unit; electric slow cookers; electric indoor grills; electric toaster ovens; electric ice cream makers

Class 20

(5) Footstools; step ladders not of metal; wine racks

Class 21

(6) Dinnerware; disposable dinnerware, namely, plates, bowls, cups and serving trays; drinking glasses; candle holders; storage baskets for household purposes; cutting boards; non-electric French presses; cooking strainers; colanders; kitchen utensils, namely, bulb basters, food basters, basting brushes; graters for kitchen use, serving tongs, kitchen ladles, serving ladles, cooking

spoons, serving scoops, whisks, rolling pins; butter dishes; spatulas for kitchen use; potato mashers; salad spinner; garlic press; citrus squeezers; zesters; wine openers and bottle openers; pastry brushes; non-electric cookware, namely, pots and pans; bakeware; pots and pans; Dutch ovens; non-electric griddle; paper cupcake baking liners; bottle stoppers specially adapted for use with wine bottles; ice buckets; wine bottle cradles; cookie cutters; bowls; wooden salad bowl set; cookie and cake decorating tools, namely, cookie and cake decorating sets sold as a unit comprised primarily of decorating tubes, couplers and tips; mugs; oven mitts; drink coasters; cocktail shakers; trivets; spoon rest; food clips not of metal for sealing food; utensil holders, namely, rotating holders for kitchen utensils; hand-operated flour sifters for household use; serving dishes; recipe boxes; pitchers; carafe; creamer and sugar set; hand-operated salt and pepper mills; tea pots; towel holders, namely, towel rings and rails; spice racks; countertop paper towel holders; all-purpose portable household containers; non-electric coffee makers; dish drying mat; dish drainers; dish drying racks; skillets; food storage containers, namely, plastic storage containers for household use for food; serving utensils, namely, serving forks and serving spoons; nut crackers; fondue forms in the nature of fondue pots without heat source; non-electric food peelers, namely, non-electric garlic peeler sleeves; dish cloths; plastic place mats; food scrubbing brushes; brushes and sponges for cleaning dishes; ice buckets; water buckets; soap dispensers; waste baskets and trash cans; barbecue tools and utensils, namely, barbeque spatulas, tongs, forks

Class 24

(7) Kitchen linens; kitchen towels of textile; plastic table covers; table cloths of textile; textile place mats; table napkins of textile

Class 25

(8) Aprons

Class 27

(9) Floor mats; rugs; door mats

Goods

Class 07

(1) aeronautical engines; motors, other than for land vehicles, namely for air vehicles and vertical take-off and landing (vtol) aircrafts; electric valve actuators for propulsion units for air vehicles; propulsion units consisting of fuel cells, airplane motor, and rotor blades for air vehicles; alternating current motors for aircrafts, namely alternators for vertical take-off and landing (vtol) aircrafts; electric driving motors for air vehicles; electric engines for the generation of electric power for air vehicles; engines for aircraft, namely engines for vertical take-off and landing (vtol) aircrafts; aeronautical electric motors; aeronautical electric engines and parts thereof; crankcases for machines, motors and engines for air vehicles; generators of electricity for air vehicles; control mechanisms, namely, hydraulic valve controls, pneumatic valve controls for machines, engines and motors for aircrafts; hydraulic and pneumatic engine drive units for manned drones; electric engine drive units for manned drones; electric motors for drones

Class 09

(2) computer software for coordinating transportation, namely, software for the automated scheduling and dispatch of aircraft to customers; flight simulators; application software for wireless devices for the automated scheduling and dispatch of aircraft to customers; mobile apps for coordinating transportation services, namely, software for the automated scheduling and dispatch of aircraft to customers; scientific apparatus and instruments, namely, physical sensors in the nature of motion sensors for supervision purposes, surface acoustic wave sensors; photographic and cinematographic apparatus and instruments, namely, photographic camera, imaging camera, continuous imaging recording camera on film and on hard drive; signaling apparatus and instruments, namely, rotating signaling lights, for use with a GPS navigation system and a satellite navigation systems; checking apparatus and instruments, namely, directional compasses and aerial compasses; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely control boards being electrical circuit boards; apparatus for recording, transmission or reproduction of sound and images, namely audio recorders, radios, electric cables for the transmission of sounds and images, optical fibers for the transmission of sounds and images; data processing apparatus, namely computer scanners, laser

scanners, thermal scanners, optical scanners and computers; electric accumulators for air vehicles; alarms based on an aerial monitoring analysis, namely, fire, gas, personal security, and sound alarms being sirens; electric connectors; connections for electric lines; steering apparatus, automatic, for air vehicles, namely, computer hardware and software for steering the control of helicopters, airplanes, manned and unmanned drones, electrically driven multicopters; observation instruments, namely, binoculars, telescope, surveillance cameras, observation cameras, monitoring cameras; computers; computer peripheral devices, namely digital cameras, computer keyboards, computer mice, scanners, printers, audio speakers, and screen displays; computer operating programs, recorded for steering and controlling air vehicles, for air vehicle navigation, and for collecting air vehicle condition and diagnostic data; data storage media, namely recorded digital storage media being flight data recorders containing aviation and global positioning system data; computer hardware for data processing; data processing apparatus, namely data processors and data processing equipment namely computer hardware; receiving apparatus, namely, wireless radio data transmitters and receivers, radio receiving set comprised of radio receivers, transceivers, radio antennas, and radio tuners, microwave receiving set comprised of microwave receivers, transceivers, and antennas, radio transceiver; GPS navigation devices, namely GPS transmitters and receivers for air vehicles; electric regulating apparatus, namely voltage regulators for electric current, electric field, electric voltage, electric signals; chargers for electric batteries for electric vehicles; measuring apparatus, namely, portable global positioning system (GPS) device consisting of positioning sensors and distance sensors; measuring instruments, namely, radar detectors and sonar; automated drone detection systems comprising image sensors and video cameras; downloadable and recorded computer software for monitoring, analysing, controlling and operating physical world operations, namely, for monitoring, analysing, controlling and operating air vehicles in electric power generation, transmission and distribution facilities and the use of sustainable energy in aeronautics operations; downloadable and recorded computer operating programs to operate air vehicles; autonomous navigation systems for air vehicles consisting of GPS receivers and transmitters, GPS sensors for determining rate of motion for vehicles, cameras; downloadable and recorded computer applications software for autonomous navigation of air vehicles; computers for managing control devices for aircraft; flight controlling apparatus, namely, onboard computers; downloadable and recorded computer software for flight control

Class 12

(3) roadable aircraft, namely, vertical take-off and landing (vtol) aircrafts vehicles capable of locomotion on land and in air; apparatus for locomotion by land, air or and water, namely vertical take-off and landing (vtol) aircrafts; aerodynamic wings for airplanes; airplanes and structural parts therefor; electrically powered aircraft; undercarriage aircraft parts; aeroplanes; aircraft; tilt rotor aircraft; fuel cell powered aircraft; hybrid-electric aircraft, powered by hydrogen, fuel cells, batteries, or turbomachinery, and structural parts therefor; propellers for aircrafts; airfoils for aircrafts; vehicles, namely, vertical take-off and landing (VTOL) aircrafts and electric vertical take-off and landing (eVTOL) aircrafts and structural parts therefor; vehicles, namely, aircraft, and structural parts therefor; vehicles, namely, unmanned aerial vehicles (UAVs), remotely piloted aircrafts, autonomous robotic aircraft, and remotely piloted vertical take-off and landing (VTOL) aircrafts and electric vertical take-off and landing (eVTOL) aircrafts and structural parts therefor; aeronautical apparatus, machines and appliances, namely screw-propellers, tilt rotors aircraft, tires; safety belts for air vehicle seats; parachutes; aeronautical apparatus, machines and appliances, namely, helicopters, airplanes, manned and unmanned delivery, military and civilian drones, electrically driven multicopters being an unmanned aerial vehicles (UAVs); aircraft fuselages; aircraft landing gear; automatic guided air vehicles; autonomous aircraft; camera drones, other than toys; delivery drones; drones, namely drones for shipping goods, military

drones, photography drones; helicopters; parts and fittings for aircrafts, airplanes, helicopters, camera drones, delivery drones, civilian drones, unmanned aerial vehicles (UAVs), vertical take-off and landing (vtol) aircrafts; pilotless aircraft; propeller airplanes; propellers for aircraft; remote controlled air vehicles, namely airplanes, camera drones, delivery drones, helicopters, electrically driven multicopters being an unmanned aerial vehicles (UAVs), vertical take-off and landing (vtol) aircrafts; rescue drones; stability control systems, namely stabilizers for air vehicles; joysticks for aircraft; wings for aircraft; civilian drones

Services

Class 37

(1) maintenance of aircraft; airplane maintenance and repair; maintenance, repair, refitting, refurbishment, renovation, and overhaul of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of aircraft and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of unmanned aircraft and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of aircraft engines and engine systems; providing total system support for training, maintenance, and operation of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles, namely, providing maintenance and repair of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles; providing total system support for training, maintenance, and operation of aircraft, namely, providing maintenance and repair of aircraft; providing total system support for training, maintenance, and operation of unmanned aircraft, namely, providing maintenance and repair of unmanned aircraft; providing total system support for training, maintenance, and operation of aircraft engines and engine systems, namely, providing maintenance and repair of aircraft engines and engine systems

Class 39

(2) rental and leasing of aircraft and aircraft equipment, namely aircraft engines, aircraft replacement parts, and aircraft control systems; rental and leasing of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and equipment, namely aircraft engines, aircraft replacement parts, and aircraft control systems; rental services, namely, rental of vehicles and equipment used in aviation ground support for transportation purposes, namely equipment for fueling, maintaining, and servicing aircraft and providing services to passengers to allow for ingress and egress of the aircraft; air transportation of passengers and goods; conveyance rental and sharing services, namely, arranging and coordinating peer-to-peer vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles sharing and rental services; coordinating travel arrangements for individuals and for groups; delivery of goods by air; providing information to travelers about air and land transportation arrangements, vehicle rental and air vehicle sharing services via a website; providing information in the field of travel transportation by air via a website; providing information in the field of delivery services, namely delivery of goods by air, and arranging and booking for delivery services, namely delivery of goods by air, via a website; providing information relating to travel transportation by air and reservation and booking of transportation for passengers via a website; providing information regarding travel arrangement via a website; providing information relating to transportation of passengers by air vehicle, traffic and real-time travel times via a website; providing information relating to the planning and booking of air vehicle travel and air vehicle transportation, via electronic means; providing information relating to traffic and traffic congestion; transportation and delivery services, namely, monitoring, managing, and tracking of transportation of persons and

delivery of goods and packages by air, rail, ship and truck; monitoring, managing, and tracking of conveyances being motor vehicles and air vehicles in transit for transportation purposes; transportation of passengers and goods by motor vehicle and air transportation; travel arrangement, namely, coordinating travel arrangements for individuals and for groups; travel arrangement, namely, arranging distance-based vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles ridesharing services; travel arrangement, namely, transport arrangement for travelers; conveyance rental, namely rental of motor vehicles and aircrafts, and aircraft sharing services; aircraft vehicle rental services; aircraft vehicle sharing services, namely, arranging and coordinating temporary use of aircraft vehicles; providing information about air and land transportation and travel; transportation management services, namely, planning, coordinating, and tracking the transportation of people and conveyances by air and motor vehicles; providing information in the field of transportation by air and motor vehicles via a website; providing information about travel, via the Internet; providing public transit information via a website; providing information about public transit schedules, travel routes, and travel prices via a website; providing information about costs for air transportation and motor vehicle transportation of passengers and goods via a website; conveyance rental of aircraft and motor vehicles and aircraft and motor vehicle sharing services, namely, providing information about transit, namely, information about aircraft and motor vehicle sharing transit booking, coordination, arrangement, ticketing, ridership, delays, and location via a website; providing information on travel via a website; providing information regarding travel arrangements for travelers via a website; providing information relating to the planning and booking of aircraft travel for travelers, via electronic means; arrangement of air transportation and motor vehicle transportation for travelers; transport, namely, air transportation of passengers and goods by air; transport, namely, air transportation services for passengers and goods

Class 42

(3) aircraft design; aircraft development for aviation; design of computer programs and software relating to aircraft; technical research in the field of aircraft technology; research in the field of the mechanical engineering; research and development services in the field of sustainable aircrafts; providing temporary use of online non-downloadable software for providing air and land vehicle transportation services, in the nature of bookings for air and land vehicle transportation services and for dispatching aircraft to customers; engineering services in the field of aviation; designing and testing vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and structural parts therefor; engineering services in the field of aircraft and aircraft components; engineering consultation and advice in the fields of civilian aviation electronic systems and aircraft components and aeronautics, and designing and testing of mechanical and electrical apparatus, namely civilian aviation electronic systems and aircraft components; scientific and technological services in the nature of research and design in the fields of civilian aviation electronic systems and aircraft components and aeronautics, and designing and testing of mechanical and electrical apparatus, namely civilian aviation electronic systems and aircraft components; industrial analysis and research services to improve security screening and aviation security; design and development of advanced motion control systems for precision control of complex structures, namely aircraft controls and equipment for implementing control laws and air and land vehicles in unique situations and environments, namely, specialty aircraft controls for implementing control laws, and air and land vehicles; research, development, and testing of computer hardware and software in the field of pilot training, design and development of software; providing temporary use of online non-downloadable software for analyzing transportation and deliveries, namely air vehicle data, air vehicle operational data, air vehicle maintenance data, route data of air vehicles, air passenger data, and data associated with the behavior and control of the

aircraft; providing temporary use of online non-downloadable software for analyzing, namely air vehicle data, air vehicle operational data, air vehicle maintenance data, route data of air vehicles, air passenger data, and data associated with the behavior and control of the aircraft transportation and deliveries for employees and customers; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, and booking air vehicles for transportation and deliveries of passengers and goods; providing temporary use of online non-downloadable software for arranging, scheduling, managing, and coordinating air vehicles for transportation and deliveries for employees and customers; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, and booking vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles; providing temporary use of online non-downloadable software for receiving and responding to requests for air vehicle transportation; providing temporary use of online non-downloadable software for accessing aviation ridesharing services; providing temporary use of online non-downloadable software for coordinating air vehicle transportation and delivery services, bookings for air vehicle transportation services and for dispatching air vehicles to customers; providing temporary use of online non-downloadable software for providing push-notifications to air vehicle passengers and vehicle operators and pilots using mobile devices being mobile telephones, smart phones, computers; providing temporary use of online non-downloadable software for providing air vehicle transportation and delivery services, bookings for air vehicle transportation services and for dispatching air vehicles to customers; providing temporary use of online non-downloadable software for use by vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicle operators and passengers and potential passengers for arranging and managing ridesharing; research and development in the field of machine learning, namely autonomous vehicle navigation and control; providing temporary use of online non-downloadable software for accessing and viewing air transit information, schedules, routes, and prices; providing temporary use of online non-downloadable software for comparing air vehicle transportation costs; providing temporary use of online non-downloadable software for booking travel by air vehicle; electronic monitoring and reporting of transportation passenger data using computers and sensors; electronic monitoring and reporting of passenger data related to trip delays, vehicle location, and trip anomalies being flight delays, flight changes, using computers and sensors; providing temporary use of online non-downloadable software for managing and tracking vehicles, fleets of vehicles, and scheduling vehicle operators and pilots; providing temporary use of online non-downloadable software for performing safety checks of vehicles, fleets of vehicles, and vehicle operators and pilots; providing temporary use of online non-downloadable real-time map software for tracking vehicles, deliveries, and people; providing temporary use of online non-downloadable real-time map software for tracking vehicles, fleets of vehicles, and scheduling vehicle operators and pilots; providing temporary use of online non-downloadable real-time map software for tracking vehicles, employees, and customers during trips; providing temporary use of online non-downloadable software for tracking number of trips, vehicle, operator, and pilot hours, and operator and pilot earnings; providing temporary use of online non-downloadable software for accessing a marketplace of available vehicles and vehicle operators and pilots; providing temporary use of online non-downloadable software for searching for and contacting vehicle operators and pilots; providing temporary use of online non-downloadable software for matching consumers with vehicle operators and pilots; providing temporary use of online non-downloadable software for accessing a marketplace of available vehicles and vehicle operators and pilots; providing temporary use of online non-downloadable software for searching for and contacting vehicle operators and pilots; providing temporary use of on-line non-downloadable computer software for accessing GPS and motion sensor data for safety and emergency response purposes; providing temporary use of on-line non-downloadable

computer software for detecting trip delays, vehicle location, and trip anomalies being flight delays, flight changes; providing temporary use of on-line non-downloadable computer software for emergency response assistance purposes in the field of aviation; providing temporary use of on-line non-downloadable computer software for passenger safety and incident detection on air vehicles; providing temporary use of on-line non-downloadable computer software that enables customers to communicate with customer service representatives in the field of air vehicle transportation; providing temporary use of on-line non-downloadable computer software that monitors and analyzes global positioning systems (GPS) data to detect trip irregularities; providing temporary use of on-line non-downloadable emergency notification system software for safety and emergency response purposes for air vehicle passengers and operators; providing temporary use of on-line non-downloadable emergency notification system software for accessing a global communication network for air vehicle passengers and operators and allowing audio text communication between users and emergency and support responders namely, police, paramedics, and medical personnel; providing temporary use of on-line non-downloadable emergency notification system software for providing safety alerts, push-notifications, and remote notifications to users and emergency response entities namely, police, paramedics, and medical personnel; providing temporary use of on-line non-downloadable software for calculating and displaying air transit routes; providing temporary use of on-line non-downloadable software for GPS navigation systems; providing temporary use of on-line non-downloadable software for purchasing and storing transit tickets and passes; providing temporary use of on-line non-downloadable software for travel route planning; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, booking, and dispatching services for transportation of passengers and goods by air vehicle; providing temporary use of online non-downloadable software for providing transportation by air vehicle services, bookings for air vehicle transportation services and for dispatching vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles to customers

Trademark Description

The mark consists of a stylized chevron design with pointed ends above the wording "SUPERNAL".

Goods

Class 07

(1) aeronautical engines; motors, other than for land vehicles, namely for air vehicles and vertical take-off and landing (vtol) aircrafts; electric valve actuators for propulsion units for air vehicles; propulsion units consisting of fuel cells, airplane motor, and rotor blades for air vehicles; alternating current motors for aircrafts, namely alternators for vertical take-off and landing (vtol) aircrafts; electric driving motors for air vehicles; electric engines for the generation of electric power for air vehicles; engines for aircraft, namely engines for vertical take-off and landing (vtol) aircrafts; aeronautical electric motors; aeronautical electric engines and parts thereof; crankcases for machines, motors and engines for air vehicles; generators of electricity for air vehicles; control mechanisms, namely, hydraulic valve controls, pneumatic valve controls for machines, engines and motors for aircrafts; hydraulic and pneumatic engine drive units for manned drones; electric engine drive units for manned drones; electric motors for drones

Class 09

(2) computer software for coordinating transportation, namely, software for the automated scheduling and dispatch of aircraft to customers; flight simulators; application software for wireless devices for the automated scheduling and dispatch of aircraft to customers; mobile apps for coordinating transportation services, namely, software for the automated scheduling and dispatch of aircraft to customers; scientific apparatus and instruments, namely, physical sensors in the nature of motion sensors for supervision purposes, surface acoustic wave sensors; photographic and cinematographic apparatus and instruments, namely, photographic camera, imaging camera, continuous imaging recording camera on film and on hard drive; signaling apparatus and instruments, namely, rotating signaling lights, for use with a GPS navigation system and a satellite navigation systems; checking apparatus and instruments, namely, directional compasses and aerial compasses; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely control boards being electrical circuit boards; apparatus for recording, transmission or reproduction of sound and images, namely audio recorders, radios, electric cables for the transmission of sounds and images, optical fibers for the transmission of sounds and images; data processing apparatus, namely computer scanners, laser scanners, thermal scanners, optical scanners and computers; electric accumulators for air vehicles; alarms based on an aerial monitoring analysis, namely, fire, gas, personal security, and sound alarms being sirens; electric connectors; connections for electric lines; steering apparatus, automatic, for air vehicles, namely, computer hardware and software for steering the control of helicopters, airplanes, manned and unmanned drones, electrically driven multicopters; observation instruments, namely, binoculars, telescope, surveillance cameras, observation cameras, monitoring cameras; computers; computer peripheral devices, namely digital cameras, computer keyboards, computer mice, scanners, printers, audio speakers, and screen displays; computer operating programs, recorded for steering and controlling air vehicles, for air vehicle navigation, and for collecting air vehicle condition and diagnostic data; data storage media, namely recorded digital storage media being flight data recorders containing aviation and global positioning system data; computer hardware for data processing; data processing apparatus, namely data processors and data processing equipment namely computer hardware; receiving apparatus, namely, wireless radio data transmitters and receivers, radio receiving set comprised of radio receivers, transceivers, radio antennas, and radio tuners, microwave receiving set comprised of microwave receivers, transceivers, and antennas, radio transceiver; GPS navigation devices, namely GPS transmitters and receivers for air vehicles; electric regulating apparatus, namely voltage regulators for electric current, electric field, electric voltage, electric signals; chargers for electric batteries for electric vehicles; measuring apparatus, namely, portable global positioning system (GPS) device consisting of positioning sensors and distance sensors; measuring instruments, namely, radar detectors and sonar; automated drone detection systems comprising image sensors and video cameras; downloadable and recorded computer software for monitoring, analysing, controlling and operating physical world operations, namely, for monitoring, analysing, controlling and operating air vehicles in electric power generation, transmission and distribution facilities and the use of sustainable energy in aeronautics operations; downloadable and recorded computer operating programs to operate air vehicles; autonomous navigation systems for air vehicles consisting of GPS receivers and transmitters, GPS sensors for determining rate of motion for vehicles, cameras; downloadable and recorded computer applications software for autonomous navigation of air vehicles; computers for managing control devices for aircraft; flight controlling apparatus, namely, onboard computers; downloadable and recorded computer software for flight control

Class 12

(3) roadable aircraft, namely, vertical take-off and landing (vtol) aircrafts vehicles capable of locomotion on land and in air; apparatus for locomotion by land, air or and water, namely vertical

take-off and landing (vtol) aircrafts; aerodynamic wings for airplanes; airplanes and structural parts therefor; electrically powered aircraft; undercarriage aircraft parts; aeroplanes; aircraft; tilt rotor aircraft; fuel cell powered aircraft; hybrid-electric aircraft, powered by hydrogen, fuel cells, batteries, or turbomachinery, and structural parts therefor; propellers for aircrafts; airfoils for aircrafts; vehicles, namely, vertical take-off and landing (VTOL) aircrafts and electric vertical take-off and landing (eVTOL) aircrafts and structural parts therefor; vehicles, namely, aircraft, and structural parts therefor; vehicles, namely, unmanned aerial vehicles (UAVs), remotely piloted aircrafts, autonomous robotic aircraft, and remotely piloted vertical take-off and landing (VTOL) aircrafts and electric vertical take-off and landing (eVTOL) aircrafts and structural parts therefor; aeronautical apparatus, machines and appliances, namely screw-propellers, tilt rotors aircraft, tires; safety belts for air vehicle seats; parachutes; aeronautical apparatus, machines and appliances, namely, helicopters, airplanes, manned and unmanned delivery, military and civilian drones, electrically driven multicopters being an unmanned aerial vehicles (UAVs); aircraft fuselages; aircraft landing gear; automatic guided air vehicles; autonomous aircraft; camera drones, other than toys; delivery drones; drones, namely drones for shipping goods, military drones, photography drones; helicopters; parts and fittings for aircrafts, airplanes, helicopters, camera drones, delivery drones, civilian drones, unmanned aerial vehicles (UAVs), vertical take-off and landing (vtol) aircrafts; pilotless aircraft; propeller airplanes; propellers for aircraft; remote controlled air vehicles, namely airplanes, camera drones, delivery drones, helicopters, electrically driven multicopters being an unmanned aerial vehicles (UAVs), vertical take-off and landing (vtol) aircrafts; rescue drones; stability control systems, namely stabilizers for air vehicles; joysticks for aircraft; wings for aircraft; civilian drones

Services

Class 37

(1) maintenance of aircraft; airplane maintenance and repair; maintenance, repair, refitting, refurbishment, renovation, and overhaul of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of aircraft and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of unmanned aircraft and of parts and fittings therefor; maintenance, repair, refitting, refurbishment, renovation, and overhaul of aircraft engines and engine systems; providing total system support for training, maintenance, and operation of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles, namely, providing maintenance and repair of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles; providing total system support for training, maintenance, and operation of aircraft, namely, providing maintenance and repair of aircraft; providing total system support for training, maintenance, and operation of unmanned aircraft, namely, providing maintenance and repair of unmanned aircraft; providing total system support for training, maintenance, and operation of aircraft engines and engine systems, namely, providing maintenance and repair of aircraft engines and engine systems

Class 39

(2) rental and leasing of aircraft and aircraft equipment, namely aircraft engines, aircraft replacement parts, and aircraft control systems; rental and leasing of vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and equipment, namely aircraft engines, aircraft replacement parts, and aircraft control systems; rental services, namely, rental of vehicles and equipment used in aviation ground support for transportation purposes, namely equipment for fueling, maintaining, and servicing aircraft and providing services

to passengers to allow for ingress and egress of the aircraft; air transportation of passengers and goods; conveyance rental and sharing services, namely, arranging and coordinating peer-to-peer vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles sharing and rental services; coordinating travel arrangements for individuals and for groups; delivery of goods by air; providing information to travelers about air and land transportation arrangements, vehicle rental and air vehicle sharing services via a website; providing information in the field of travel transportation by air via a website; providing information in the field of delivery services, namely delivery of goods by air, and arranging and booking for delivery services, namely delivery of goods by air, via a website; providing information relating to travel transportation by air and reservation and booking of transportation for passengers via a website; providing information regarding travel arrangement via a website; providing information relating to transportation of passengers by air vehicle, traffic and real-time travel times via a website; providing information relating to the planning and booking of air vehicle travel and air vehicle transportation, via electronic means; providing information relating to traffic and traffic congestion; transportation and delivery services, namely, monitoring, managing, and tracking of transportation of persons and delivery of goods and packages by air, rail, ship and truck; monitoring, managing, and tracking of conveyances being motor vehicles and air vehicles in transit for transportation purposes; transportation of passengers and goods by motor vehicle and air transportation; travel arrangement, namely, coordinating travel arrangements for individuals and for groups; travel arrangement, namely, arranging distance-based vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles ridesharing services; travel arrangement, namely, transport arrangement for travelers; conveyance rental, namely rental of motor vehicles and aircrafts, and aircraft sharing services; aircraft vehicle rental services; aircraft vehicle sharing services, namely, arranging and coordinating temporary use of aircraft vehicles; providing information about air and land transportation and travel; transportation management services, namely, planning, coordinating, and tracking the transportation of people and conveyances by air and motor vehicles; providing information in the field of transportation by air and motor vehicles via a website; providing information about travel, via the Internet; providing public transit information via a website; providing information about public transit schedules, travel routes, and travel prices via a website; providing information about costs for air transportation and motor vehicle transportation of passengers and goods via a website; conveyance rental of aircraft and motor vehicles and aircraft and motor vehicle sharing services, namely, providing information about transit, namely, information about aircraft and motor vehicle sharing transit booking, coordination, arrangement, ticketing, ridership, delays, and location via a website; providing information on travel via a website; providing information regarding travel arrangements for travelers via a website; providing information relating to the planning and booking of aircraft travel for travelers, via electronic means; arrangement of air transportation and motor vehicle transportation for travelers; transport, namely, air transportation of passengers and goods by air; transport, namely, air transportation services for passengers and goods

Class 42

(3) aircraft design; aircraft development for aviation; design of computer programs and software relating to aircraft; technical research in the field of aircraft technology; research in the field of the mechanical engineering; research and development services in the field of sustainable aircrafts; providing temporary use of online non-downloadable software for providing air and land vehicle transportation services, in the nature of bookings for air and land vehicle transportation services and for dispatching aircraft to customers; engineering services in the field of aviation; designing and testing vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles and structural parts therefor; engineering services in the field of aircraft and

aircraft components; engineering consultation and advice in the fields of civilian aviation electronic systems and aircraft components and aeronautics, and designing and testing of mechanical and electrical apparatus, namely civilian aviation electronic systems and aircraft components; scientific and technological services in the nature of research and design in the fields of civilian aviation electronic systems and aircraft components and aeronautics, and designing and testing of mechanical and electrical apparatus, namely civilian aviation electronic systems and aircraft components; industrial analysis and research services to improve security screening and aviation security; design and development of advanced motion control systems for precision control of complex structures, namely aircraft controls and equipment for implementing control laws and air and land vehicles in unique situations and environments, namely, specialty aircraft controls for implementing control laws, and air and land vehicles; research, development, and testing of computer hardware and software in the field of pilot training, design and development of software; providing temporary use of online non-downloadable software for analyzing transportation and deliveries, namely air vehicle data, air vehicle operational data, air vehicle maintenance data, route data of air vehicles, air passenger data, and data associated with the behavior and control of the aircraft; providing temporary use of online non-downloadable software for analyzing, namely air vehicle data, air vehicle operational data, air vehicle maintenance data, route data of air vehicles, air passenger data, and data associated with the behavior and control of the aircraft transportation and deliveries for employees and customers; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, and booking air vehicles for transportation and deliveries of passengers and goods; providing temporary use of online non-downloadable software for arranging, scheduling, managing, and coordinating air vehicles for transportation and deliveries for employees and customers; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, and booking vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles; providing temporary use of online non-downloadable software for receiving and responding to requests for air vehicle transportation; providing temporary use of online non-downloadable software for accessing aviation ridesharing services; providing temporary use of online non-downloadable software for coordinating air vehicle transportation and delivery services, bookings for air vehicle transportation services and for dispatching air vehicles to customers; providing temporary use of online non-downloadable software for providing push-notifications to air vehicle passengers and vehicle operators and pilots using mobile devices being mobile telephones, smart phones, computers; providing temporary use of online non-downloadable software for providing air vehicle transportation and delivery services, bookings for air vehicle transportation services and for dispatching air vehicles to customers; providing temporary use of online non-downloadable software for use by vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicle operators and passengers and potential passengers for arranging and managing ridesharing; research and development in the field of machine learning, namely autonomous vehicle navigation and control; providing temporary use of online non-downloadable software for accessing and viewing air transit information, schedules, routes, and prices; providing temporary use of online non-downloadable software for comparing air vehicle transportation costs; providing temporary use of online non-downloadable software for booking travel by air vehicle; electronic monitoring and reporting of transportation passenger data using computers and sensors; electronic monitoring and reporting of passenger data related to trip delays, vehicle location, and trip anomalies being flight delays, flight changes, using computers and sensors; providing temporary use of online non-downloadable software for managing and tracking vehicles, fleets of vehicles, and scheduling vehicle operators and pilots; providing temporary use of online non-downloadable software for performing safety checks of vehicles, fleets of vehicles, and vehicle operators and pilots; providing temporary use of online non-

downloadable real-time map software for tracking vehicles, deliveries, and people; providing temporary use of online non-downloadable real-time map software for tracking vehicles, fleets of vehicles, and scheduling vehicle operators and pilots; providing temporary use of online non-downloadable real-time map software for tracking vehicles, employees, and customers during trips; providing temporary use of online non-downloadable software for tracking number of trips, vehicle, operator, and pilot hours, and operator and pilot earnings; providing temporary use of online non-downloadable software for accessing a marketplace of available vehicles and vehicle operators and pilots; providing temporary use of online non-downloadable software for searching for and contacting vehicle operators and pilots; providing temporary use of online non-downloadable software for matching consumers with vehicle operators and pilots; providing temporary use of online non-downloadable software for accessing a marketplace of available vehicles and vehicle operators and pilots; providing temporary use of online non-downloadable software for searching for and contacting vehicle operators and pilots; providing temporary use of on-line non-downloadable computer software for accessing GPS and motion sensor data for safety and emergency response purposes; providing temporary use of on-line non-downloadable computer software for detecting trip delays, vehicle location, and trip anomalies being flight delays, flight changes; providing temporary use of on-line non-downloadable computer software for emergency response assistance purposes in the field of aviation; providing temporary use of on-line non-downloadable computer software for passenger safety and incident detection on air vehicles; providing temporary use of on-line non-downloadable computer software that enables customers to communicate with customer service representatives in the field of air vehicle transportation; providing temporary use of on-line non-downloadable computer software that monitors and analyzes global positioning systems (GPS) data to detect trip irregularities; providing temporary use of on-line non-downloadable emergency notification system software for safety and emergency response purposes for air vehicle passengers and operators; providing temporary use of on-line non-downloadable emergency notification system software for accessing a global communication network for air vehicle passengers and operators and allowing audio text communication between users and emergency and support responders namely, police, paramedics, and medical personnel; providing temporary use of on-line non-downloadable emergency notification system software for providing safety alerts, push-notifications, and remote notifications to users and emergency response entities namely, police, paramedics, and medical personnel; providing temporary use of on-line non-downloadable software for calculating and displaying air transit routes; providing temporary use of on-line non-downloadable software for GPS navigation systems; providing temporary use of on-line non-downloadable software for purchasing and storing transit tickets and passes; providing temporary use of on-line non-downloadable software for travel route planning; providing temporary use of online non-downloadable software for arranging, procuring, scheduling, engaging, coordinating, managing, booking, and dispatching services for transportation of passengers and goods by air vehicle; providing temporary use of online non-downloadable software for providing transportation by air vehicle services, bookings for air vehicle transportation services and for dispatching vertical take-off and landing (VTOL) vehicles and electric vertical take-off and landing (eVTOL) vehicles to customers

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the stylized blue wording "TUNDRA." Below this is a stylized blue triangle with transparent geometric shapes in the middle. The white in the mark is for transparent purposes and is not claimed as a feature of the mark.

Goods

Class 09

(1) Goggles for sports; downloadable games software; downloadable electronic game programs; downloadable software programs for playing video games; electronic publications, downloadable, in the nature of books and newsletters relating to games and gaming.

Class 25

(2) Sportswear, namely, t-shirts, hoodies, tops as clothing, headwear, and footwear; athletics vests; casual shirts; sports caps being headwear; sports jackets; combative sports uniforms; gym suits.

Services**Class 35**

(1) Sales promotion services for others via selling of tickets for esports events; advertising services, namely, promoting esports events of others; marketing services for promoting the sale of esports events tickets for others; booking of sports personalities for events (services of a promoter).

Class 36

(2) Financial sponsorship of esports activities.

Class 38

(3) Streaming of esports events on the internet; broadcasting of esports events over the internet; provision of access to content, websites and portals; providing access to online forums for transmission of multimedia content among users; providing on-line forums for transmission of messages among computer users; providing internet chatrooms;

Class 41

(4) Esports coaching; esports officiating; providing esports facilities; production of esports events; conducting of live esports events for entertainment purposes; entertainment services in the nature of esports tournaments; production of esports events for television; conducting of live esports events for entertainment purposes; ticket information services for esports events; ticket reservation and booking services for esports events; providing online electronic publications, not downloadable, in the nature of newsletters and books in the field of esports; online sports betting services; providing online electronic publications, not downloadable; online sports betting services; online library services, namely, providing electronic library services which feature electronic information in the form of text, audio and video information; electronic game services and competitions provided by means of the Internet; providing interactive multi-player computer games via the Internet and electronic communication networks; providing online entertainment in the nature of fantasy sports leagues; arranging and conducting e-sports competitions; organisation of esports events; organisation of esports tournaments; providing facilities for sports tournaments; electronic game services provided online from a computer network; arranging of competitions via the internet; provision of on-line computer games; on-line video gaming services; gambling services; organising of community sporting activities and of sporting competitions in the field of esports; entertainment services in the nature of esports tournaments; organisation of conferences, exhibitions and competitions, all in the field of esports; entertainment services, namely, arranging of competitions in the field of education and entertainment, namely math competitions and esports competitions; providing on-line esports information in the field of computer gaming entertainment; providing online esports information on computer and video game strategies; provision of online information relating to game players; providing online entertainment in the nature of game tournaments; information about entertainment and entertainment events provided via online networks and the internet in the field of esports; provision of information relating to esports; educational services relating to esports;

Class 42

(5) Programming of video game software; design and development of computer game software and virtual reality software; computer software technical support services relating to downloading video games including troubleshooting of computer software programs; rental of video game software; providing temporary use of non-downloadable computer software for shipment processing over computer networks, Intranets and the Internet.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the wording "MEDIX" in dark blue and "BIOCHEMICA" with "BI" and "CHEMICA" in dark blue and "O" in red.

Goods

Class 01

(1) Reagents for use in scientific and medical research, namely, antibody reagents for scientific purposes, cell culture reagents for laboratory use, cell culture reagents for scientific or research purposes, diagnostic reagents for medical-scientific research use, in vitro diagnostic reagents for scientific purposes; diagnostic preparations for in vitro testing for medical research use; diagnostic preparations for medical-scientific research use; reagent paper for laboratory use; chemical test paper; protein arrays and nucleotide arrays for scientific and medical research in fields of biological and diagnostic testing; diagnostic preparations for in vitro testing for scientific use; diagnostic preparations for medical-scientific research use; antibodies for use in scientific and medical research, namely, biochemicals in the form of monoclonal antibodies for in vitro scientific use, biochemicals in the form of monoclonal antibodies for research use and monoclonal antibodies for scientific purposes; biological assays for use in fields of biological and diagnostic testing for research use; buffer solutions; in vitro diagnostics, namely chemical control solutions for calibrating and monitoring the accuracy and function of instruments and test results; assay kits consisting of chemical reagents for scientific and medical research, namely, laboratory assay kits; assay kits consisting of biological reagents for scientific and medical research, namely, laboratory assay kits; microbial protein in raw material form for scientific and medical research; proteins in raw material form for scientific research for detecting antibodies; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; laboratory chemicals, namely an antibody reagent used for the detection of antigens in cell and tissue analysis for in vitro diagnostic use; biochemicals in the form of monoclonal antibodies for in vitro and in vivo scientific use; polypeptide biochemicals for in vitro and in vivo scientific use; cell culture reagent medium for medical research

Class 05

(2) Diagnostic chemical reagents for medical or veterinary purposes; medical diagnostic reagents; veterinary diagnostic reagents; diagnostic reagents for medical diagnostic use; diagnostic reagents for medical laboratory use; diagnostic reagents for medical purposes; diagnostic reagents for medical use in in vitro diagnosis; diagnostic test reagents for medical purposes; clinical diagnostic reagents; diagnostic chemical reagents for medical purposes; diagnostic reagents for clinical laboratory use; diagnostic reagents for medical use; reagents for use in diagnostic tests for medical purposes; monoclonal antibodies for medical and diagnostic use; pregnancy and fertility test kits for home and medical use; medical diagnostic reagents and assays for testing bodily fluids; diagnostic testing kits for home and medical use comprised primarily of medical diagnostic reagents and assays for testing bodily fluids; reagent media for medical diagnostic purposes; medical diagnostic reagents; immunological reagent media for medical purposes; immunological diagnostic testing materials for medical use; immunological diagnostic substances for medical use; immunological diagnostic test strips; immunological diagnostic reagents; diagnostic reagents for medical use; diagnostic agents for pharmaceutical use; diagnostic biomarker reagents for medical purposes; protein arrays for medical diagnosis purposes, namely, diagnosing cancer; monoclonal antibodies for use in disease testing, namely, cancer diagnosis; leukocyte antibodies for use in disease testing, namely, cancer diagnosis; cytokines and chemokines for use in disease testing, namely, cancer diagnosis; adhesion molecules for use in disease testing, namely, cancer diagnosis; endothelial cells for medical use; progenitor cells for medical use; medical diagnostic reagents and assays for detecting apoptosis; medical diagnostic reagents for cellular transduction; stem cells for medical use

Class 10

(3) Medical testing devices utilizing immunological methods, in the form of kits primarily comprised of test strips capable of visual or instrument read out of test results, buffer tubes, medical specimen collection loops and vials, for use in testing of blood, plasma, serum, and other bodily fluids; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional and home use for analysing oral fluid, urine, feces, amniotic fluid, vaginal secretions, cervical secretions, cervico-vaginal secretions, finger stick or venipuncture whole blood, plasma, serum, exudate, skin, csf (cervicospinalfluid), ascites, and pleural fluids; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional and home use for use in detecting antibodies, antigen, viruses, bacteria and other pathogens, disease markers and metabolites, fecal occult blood, hormones, vitamins, proteins, nucleic acids, toxins, drugs and their metabolites, and drugs of abuse; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional and home use for in vitro diagnostic testing procedures, cardiovascular diagnosis and screening, diabetes monitoring and diagnosis, pregnancy monitoring, monitoring and diagnosing metabolic functions, detecting, screening and monitoring infectious diseases, inflammatory diseases, skin disorders, thyroid diseases and cancer; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional and home use for blood analysis, urine analysis, fecal analysis, saliva analysis, analysis of oral fluids, analysis of amniotic fluids, analysis of csf (cervicospinalfluid), analysis of ascites, analysis of pleural fluids, analysis of exudate, analysis of cervical, vaginal and cervico-vaginal secretions; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional or home use for analysing oral fluid, urine, feces, amniotic fluid, vaginal secretions, cervical secretions, cervico-vaginal secretions, finger stick or venipuncture whole blood, plasma, serum, exudate, skin, csf (cervicospinalfluid), ascites, and pleural fluids; in-vitro diagnostic apparatus, in the form of test kits for medical purposes for professional or home use for use in detecting antibodies, antigen, viruses, bacteria and other pathogens, disease markers and metabolites, fecal occult blood, hormones, vitamins, proteins, nucleic acids, toxins, drugs and their metabolites, and drugs of abuse

Services**Class 40**

(1) Manufacturing services for others in the field of pharmaceuticals, biopharmaceuticals, and diagnostics; contract manufacturing of pharmaceuticals, diagnostic preparations and reagent medium

Class 42

(2) Medical research; pharmaceutical research and development; development of antibodies for others; antibody research and development services; development of assays for diagnostic purposes; conducting clinical trials; consulting services in the field of medical and health care technology; blood testing services for medical research purposes; medical and pharmacological research; providing of information and data relating to medical research and development; product development for others relating to pharmaceuticals, biopharmaceuticals, health care products and medical products; scientific and technological consulting services in the pharmaceutical industry, and research and design relating thereto; industrial analysis in the nature of product testing and research and industrial research in the field of pharmaceuticals, biopharmaceuticals, health care products and medical products; pharmaceutical and biopharmaceutical drug development services; pharmaceutical and biopharmaceutical research and development; product development consultation; product research services, namely, biosafety testing; scientific and technical product development consulting and research services for the pharmaceutical industry; custom design and development of chemical reagents and biochemical assays; monoclonal antibody research and development services

Class 44

(3) Consulting services in the field of diagnostics; consulting regarding diagnostic preparations; medical diagnostic testing and reporting services; blood testing services

Goods

Class 09

(1) Photographic cameras; cameras; microphones; visual display units; loudspeaker enclosures; electronic payment terminals; apparatus for processing cashless payment transactions, namely secure electronic payment terminals for electronic transactions; magnetic recording media in the nature of blank audio cassettes, pre-recorded audio cassettes and video cassettes; recording discs; blank CDs; blank DVDs; MP3 players; calculating machines and computer hardware and software for database management; games for portable telephones, computers and digital players; electronic game software for portable telephones, computers and digital players; computers, portable computers, hand-held computers, mobile computers, personal computers, computers to be worn on the wrist, smart watches, electronic tablets, portable digital players, portable telephones and smart portable telephones with expanded features (smart phones); computer hardware for telecommunications; portable telephones; smart phones; hand-held electronic devices for Internet access and for sending, receiving, recording and storing short messages, electronic messages, telephone calls, faxes, videoconferences, images, sound, music and text, namely electronic tablets, cellular telephones, smart phones and connected watches; hand-held electronic devices for the wireless reception, storage and transmission of data or messages, namely electronic tablets, cellular telephones, smart phones and connected watches; hand-held electronic devices for tracking and organizing personal information, namely electronic tablets, cellular telephones, smart phones and connected watches; hand-held electronic devices for global positioning (GPS) and displaying maps and transport information being hand-held global positioning system (GPS) devices consisting of position sensors; hand-held electronic devices for the detection, storage, tracking, monitoring and transmission of data related to user activity in the nature of position, route, distance travelled, heart rate, namely electronic tablets, cellular

telephones, smart phones and connected watches; covers for computers, mobile and portable telephones; optical apparatus and instruments, namely eyeglasses, sunglasses and magnifying glasses; eyeglass, sunglass, and magnifying glass cases; batteries for computers, electronic tablets, cellular telephones, smart phones and connected watches; batteries for timepieces and chronometric instruments, namely chronometers; downloadable software applications enabling users to search, view and purchase watches, watch bands, watch boxes, watch movements; application software for registering and activating a watch's warranty, enabling users to contact the customer service centre for services and repairs.

Class 14

(2) Precious metals and their alloys; figurines made of precious metals or their alloys; trophies made of precious metals or their alloys; jewellery, namely rings, earrings, cufflinks, bracelets, charms, brooches, chains, necklaces, tie pins, tie tacks, jewellery cases, jewellery boxes; precious stones, semi-precious stones (decorative stones); horological and chronometric instruments, namely chronometers, chronographs, clocks, watches, bracelets, wall clocks, alarm clocks as well as parts, fittings and accessories for the aforesaid goods, namely needles, anchors, balance wheels, barrels, watch cases, watch bands, watch faces, clockworks, watch chains, watch movements, watch springs, watch crystals, timepiece boxes, timepiece cases.

Services

Class 35

Retail and wholesale services for timepieces and jewellery in businesses and via global computer networks, catalogues, mail, telephone, radio and television and via other electronic means; presentation of timepieces and jewellery on the Internet, television, radio and on public display for retail for others; sales promotion for others through advertising on the Internet, television, radio and public display; sales promotion of jewellery and timepieces for others; advertising and marketing services for others through advertising on the Internet, television, radio and public display; public relations services; business management; business administration; office functions in the nature of secretarial services; organization of exhibitions for commercial and advertising purposes for others in the field of timepieces.

Goods

Class 08

(1) Hand tools for electronic device repair, namely, opening picks for electronic devices, spudgers, tweezers, screwdriver bits in the nature of cross-shaped tip bits, flathead bits, star bits, star security bits, pentalobe bits, JIS bits, hex bits, tri-point bits, tri-wing bits, nut driver bits, square bits, gamebits, spanner bits, triangle bits, and bits for ejecting SIM cards, fastening and joining tools in the nature of bit drivers, bit holders, screwdrivers; hand tools, namely socket wrenches, non-electric miniature screwdrivers, precision screwdrivers, and screwdrivers, tap wrenches, flexible head spanners, cutting wheels, glass scrapers, pincers, grippers, namely tweezers, headphone plug extractors, locking pliers, picks for isolating batteries, opening wheels for use in separating screens from mobile phones and tablet computers, driver handles for bits and nuts; hand tool kits for electronic device repair, specifically, tool kits comprised of two or more opening picks for electronic devices, spudgers, tool rolls in the nature of roll-up fabric containers for hand tools, anti-static wrist straps to protect against electrostatic discharge, suction cups for separating components, specifically, glass and gloss plastic, tweezers, magnetic pads for organizing small parts, screwdriver bits in the nature of cross-shaped tip bits, flathead bits, star bits, star security bits, pentalobe bits, JIS bits, hex bits, tri-point bits, tri-wing bits, nut driver bits, square bits, gamebits, spanner bits, triangle bits, and bits for ejecting SIM cards, metal measuring rulers, fastening and joining tools in the nature of soldering irons, bit drivers, bit holders, screwdrivers, hand tools, namely clamps and hammers, hand tools for cutting, drilling, grinding, sharpening and treating surfaces, socket wrenches, non-electric miniature screwdrivers, precision screwdrivers, and screwdrivers, tap wrenches, flexible head spanners, mallets, soldering irons, sealing irons, adhesive-melting and electric irons, wire cutters, flush cutters, cutting wheels for cutting foam, plastic and metals, flush micro cutters, flush macro cutters, utility knives, scissors, and razor blades, glass scrapers, crimping tools in the nature of crimping pliers, pincers, grippers, combination pliers, locking pliers, claws pliers and locking clamps, work mats, namely, magnetic

mats and non-slip mats for work surfaces, electrostatic discharge-safe tools in the nature of antistatic mats, wrist straps, and heating tools for loosening adhesive, shaping components, electronics rework, removing and installing electronics components, and soldering, namely soldering irons and heat guns; manually-operated hand tools for repairing consumer electronic devices, namely, pry bars, picks, levers, expanders, clamps, wedges, screwdrivers, spudgers, tweezers, cutting tools, bit drivers for hand tools, and handles for hand-operated hand tools, roll-up fabric containers for hand tools; manually-operated hand tool kits for repairing consumer electronic devices comprising two or more of manually-operated hand tools, namely, pry bars, picks, levers, expanders, clamps, wedges, screwdrivers, spudgers, tweezers, cutting tools, bit drivers for hand tools, and handles for hand-operated hand tools.

Class 09

(2) Measuring rulers, anti-static products, namely, plastic trays, mats and wrist straps for grounding purposes, batteries for cellphones, tablets and laptops, electric and electronic components for holding parts for mobile phones and tablet computers namely cables; battery adapters for mobile phones and tablet computers, mobile telephone batteries, electrical circuits and circuit boards, integrated circuit chips, electrical circuit boards, integrated electrical circuits, connection cables for mobile phones and tablet computers, battery leads for mobile phones and tablet computers, cable connectors, light emitting diodes, electronic semiconductors, electronic publications recorded on computer media namely guides in the field of do-it-yourself repair, disassembly and reassembly of mobile phones, tablet computers and laptop computers and parts replacement and upgrades, instruction manuals in electronic format, computer documentation in electronic form, namely repair guides and technical guides for repair and maintenance of computers, tablet computers, mobile phones, vehicles, game consoles and cameras; instruction manuals in electronic format, computer documentation in electronic form, namely repair guides and technical guides for repair and maintenance of computers, tablet computers, mobile phones, vehicles, game consoles and cameras.

Class 11

(3) Microwave heating pads not for medical purposes.

Class 16

(4) Adhesives for stationery and household use, drawing boards, posters, stickers, magnetic desk and table top mats for organizing replacement parts for cellphone, tablet and computer repair; books, booklets, textbooks, reference books, photographs (printed), flyers, journals, catalogues, calendars, periodicals, paper bags, pouches of paper, cardboard or plastic, for packaging, wrapping and storage purposes.

Class 17

(5) Synthetic foam supports for electronic equipment components.

Class 18

(6) Messenger bags.

Class 20

(7) Plastic suction cups for securing mobile phones and tablet computers and parts therefor.

Class 21

(8) Screen cleaning cloths.

Class 25

(9) Shirts.

Services**Class 35**

(1) Online retail store services featuring computers, computer peripherals and computer accessories, namely, notebook computers, laptop computers, computer peripheral devices, upgrades, and replacement parts therefor, namely, electric cables and connectors, AC adapters, cleaning kits, computer cases, sound cards, display screens, expansion bay drives, fans, hard and optical drives, keyboards, logic boards, modems, PC cards, power cards, processors, all for use with the above computer hardware and computer peripherals, online retail store services featuring easy-to-use electronic repair and instruction manuals, all for use in do-it-yourself disassembly and reassembly of computer parts replacement and upgrades, commercial trading and consumer information services, namely gross-sale, wholesale, retail sale, Internet sale and mail order retail services, featuring clothing accessories namely lapel pins and iron-on patches; product demonstrations for others in the field of electronics repair.

Class 37

(2) photographic restoration; provision of advisory and information services in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles, for others

Class 40

(3) photographic printing, photographic reproduction and photographic retouching

Class 41

(4) Publishing goods and audiovisual recordings, namely electronic repair and instruction manuals and videos, all for use in do-it-yourself disassembly and reassembly of laptop computer parts replacement and upgrades; publishing and reporting, namely videotaping and production of training videos in the fields of education, entertainment and sports; services for the showing of video recordings, namely providing information via a website featuring video presentations in the field of do-it-yourself disassembly and reassembly of mobile phones, tablet computers and laptop computer and parts replacement and upgrades; Providing information via a website featuring a compilation in the field of do-it-yourself disassembly and reassembly of mobile phones, tablet computers and laptop computer and parts replacement and upgrades; education, education and teaching, training and further training consultancy, training consultancy all in the field of do-it-yourself disassembly and reassembly of mobile phones, tablet computers and laptop computer parts replacement and upgrades, provided online via a computer database or the internet; computer education training; correspondence courses, namely provision of education on-line from a computer database and or via the internet and extranets all in the field of do-it-yourself disassembly and reassembly of mobile phones, tablet computers and laptop computer and parts replacement and upgrades; arranging of courses of instruction, provision of training courses, conducting of audiovisual presentations for entertainment purposes all in the field of do-it-yourself disassembly and reassembly of mobile phones, tablet computers and laptop computer parts replacement and upgrade; provision of online entertainment in the form of non-downloadable videos in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles; providing of electronic publications online in the nature of guides in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles; arranging and conducting of conferences, exhibitions

and competitions in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles; photography services namely photographic and video services, namely photographic and video capture, photographic computer imaging, photographic composition for others; providing searchable publications on a global computer network in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles

Class 42

(5) Designing, managing and monitoring online forums for discussion in the field of do-it-yourself repair and maintenance of computers, phones, game consoles, tablets, computer peripherals, cameras, media players, home theater equipment, audio equipment, sporting goods, automobiles, home fixtures, appliances, clothing, and textiles, providing online support for computer program users, namely troubleshooting computer software problems; design services, namely design and testing of new products for others; design, testing, of new products for others and quality control of new products for others in the field of computer software; product development services, computer software design, computer hardware development, development, programming and implementation of software; IT consultancy in the field of computer hardware and software; design of software, design, maintenance, rental and updating of computer software, computer programming, installation, updating and maintenance of computer software, technological consultancy in the field of computer programs, cloud computing provider services for general storage of data; application service providers, namely hosting of computer software applications, for others, server hosting

Trademark Description

The mark consists of a circle design inside of a stylized letter "D".

Goods

Class 09

Underwater light detection and ranging (LiDAR) systems for geospatial mapping, inspection, and measuring relative distances consisting of cameras, LiDAR sensors, LiDAR scanners, laser scanners, 3D scanners, laser range finders, LiDAR optical targets, and LiDAR systems operating software; underwater LiDAR mounts; recorded software for operating underwater LiDAR sensors and for processing the mapping, inspection, and measurement data collected therefrom

Services

Class 35

(1) Data processing services in the field of underwater and terrestrial measurements and mapping

Class 42

(2) Underwater mapping services; computer modeling services utilizing LiDAR-based data collection; underwater data collection services utilizing LiDAR-based technology; underwater data collection services utilizing autonomous underwater vehicles and remote operating vehicles; subsea oil and gas field and offshore wind field surveying; underwater inspection and measurement in nuclear reactors and spent fuel pools; underwater inspection and measurement in hydroelectric plants; underwater inspection and measurements for water tanks, pipes and infrastructure; underwater inspection and measurement for marine hazards, asset loss, and mining; computer software design and development; metrology services; tool design; leasing of subsea LiDAR sensors; leasing of remote operating vehicles and autonomous underwater vehicles for underwater data collection and inspection; measurement evaluations in the underwater construction, survey, and inspection industry; underwater optical sensor design and development; underwater sensor design and development; underwater inspection and measurement services; underwater inspection and measurement tool design and development; engineering, namely, research and development of new products.

Services

Class 35

(1) Business consulting services in the agriculture field; promoting the business interests of professionals in the fields of health, community development and environmental sustainability; business consulting in the field of environmental management, namely, advising businesses and individuals on issues of environmental impact, conservation, preservation and protection, and economic analysis for business purposes; business consultancy services in relation to corporate social responsibility, namely business consulting service that provides transformational strategies to companies wishing to move towards sustainability and socially responsible business practices, provided mainly to the consumer products industry; providing information in the area of global sustainable business solutions; providing consulting services in the area of global sustainable business solutions; consulting services in the area of sustainable business solutions.

Class 36

(2) Management of a capital investment fund; investment services, namely, asset acquisition, consultation, development and management services; public equity investment management; merchant banking and investment banking services; financial services, namely, investment advice, investment management, investment consultation and investment of funds for others, including private and public equity and debt investment services; provision of a financial exchange for the trading of securities, shares and options and other derivative products; venture capital financing; financial consultation in the field of environmental management, namely, advising business and individuals on issues of portfolio planning and investment planning; providing financial appraisal data for natural assets, natural capital, natural asset companies, natural equities, and nature-based solutions via an internet website portal; financial consultation in the field of natural assets, natural capital, natural asset companies, natural equities, and nature-based solutions; financial management of holding companies, namely, natural asset companies; providing financial accounting data for reporting and accounting purposes via online databases; financial analysis consultation services; financial investment advisory services; financial management advisory services; financial risk assessment services; financial evaluation of development costs relating to

the agriculture industry and global sustainable business solutions; financial and investment services, namely, management and brokerage of securities; securities trading; investment services, namely, asset acquisition, consultation, development and management services; providing information in the field of finance, investments, securities brokerage and securities trading.

Class 42

(3) Analysis and evaluations in the fields of natural assets, regenerative agriculture, and nature-based solutions; consulting services in the field of environmental assessment and planning; wetland habitat development and preservation services, namely, monitoring, testing and analyzing ecological success in the field of environmentally sensitive habitat conservation and preservation of native plants and wildlife; measurement and verification of carbon dioxide and other greenhouse gas emission offsets; development of quality standards for financial accounting and reporting for the accounting industry; research and consulting in the field of environmental protection; hosting a website featuring environmental information; providing temporary use of a web-based software application for providing information in the field of finance, investments, securities brokerage and securities trading; providing temporary use of a web-based software application for buying and selling securities in the nature of collectibles and alternative assets.

Class 44

(4) Forest habitat restoration; providing agricultural advice related to sustainable farming and ranching practices.

Services

Class 40

(1) Recycling of waste and trash; air purification; treatment of waste water; food and beverage preservation namely irradiation of food, pasteurizing of food and beverages, food and beverage canning services; processing of biological materials being microorganisms, cells and stem cells, namely, batch biological treatment services; transformation of a substance and any process involving a change in its essential properties, namely, changes in the genetic information that leads to changes in properties namely gene knockout, gene knock-in, changes in gene regulation, changes in gene expression levels, changes in activity of gene products and other related changes in the genetic information; joining of materials or substances, namely, custom additive manufacturing for others; industrial treatment of hazardous substances, namely, waste, gases and liquids; treatment of materials using biotechnological methods, namely, bio-hazard biological decontamination services.

Class 42

(2) computer hardware development; rental of computer hardware; data coding services being computer programming; scientific and technological services, namely, scientific laboratory services and computer software development in the fields of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; material testing, authentication, namely, quality certification in the field of medical biotechnology, and quality control in the field of medical biotechnology for others; design services namely, designing and developing microbial strains, fermentation processes, enzymes, proteins, bioactive compounds, and genome editing tools for industrial biotechnology applications; biological analysis, namely, analysis of cells and biomarkers; biological therapeutic research services; biological laboratory services, namely, genetic testing for scientific research purposes; biological research and analysis in the fields of cell biology, general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; clinical research in the field of pharmaceuticals and medical research; biomedical research services; provision of research services, namely, product research in the fields of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry;

biomedical research services; industrial research services in the field of pharmaceuticals; medical research; pharmaceutical research services; genetic research services, namely, scientific research in the fields of genetics and genetic engineering; research relating to medical biotechnology; providing information relating to scientific research in the fields of medical biochemistry and medical biotechnology; research relating to medical technology; scientific research in the field of genetic testing and diagnostics; technical research in the fields of genetics and genetic engineering; biochemistry research services; chemical research and analysis services; medical, biopharmaceutical and medical biotechnological research laboratories; research and development of new products for others; computer aided scientific research services, namely scientific research in the fields of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; computer aided industrial research services in the field of pharmaceuticals, medical biotechnology and general medicine; biochemical research and analysis; scientific research relating to cancer biology and infection biology; medical biotechnological research; biotechnological research relating to pharmaceutical industry; scientific and industrial research in the field of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; scientific research for medical purposes in the fields of oncology and infectiology; industrial analysis and research services in the field of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; medical and pharmacological research services; biological research laboratory services; chemical research laboratory services; chemical research; pharmaceutical research and development; DNA screening for scientific research purposes; research and development of new products for others; research in the field of gene therapy; cell separation research services; biochemical research and development; scientific research for medical purposes, namely, research in the field of medical biotechnology and pharmaceuticals; research and development services in the field of chemistry; scientific services, namely, scientific investigations for medical and pharmaceutical purposes and medical research relating thereto; scientific research relating to genetics; scientific research and development in the pharmaceutical and medical biotechnology fields; preparation of biological samples for analysis in research laboratories; scientific research and development in the field of diagnostic preparations for use in assessment of genomic analysis; consultancy in the field of industrial research relating to pharmaceuticals; technical consultancy in the field of scientific research relating to gene editing technology, RNA interference technology, DNA repair technology; analysis of human tissues for medical research; preparation of biological samples for testing and analysis in research laboratories; research and development in the field of microorganisms and cells; biochemical analysis; scientific analysis in the nature of analyzing genome editing processes, enzyme efficiency, biocatalyst performance, bioprocesses, microbial strains, fermentation processes, and bioactive compounds for industrial biotechnology applications; technological analysis services namely, technological analysis of gene editing technology, RNA interference technology, DNA repair technology; chemical analysis; scientific research and analysis in the field of biochemistry; analysis in the field of molecular biology; scientific research in the field of genetics; genetic engineering; molecular biology in the field of biochemistry and cell biology; DNA modification for scientific research; DNA modification, namely, processing genetic information using industrial biotechnological methods for industrial research relating to pharmaceuticals; DNA modification for pharmaceutical research; DNA modification for veterinary research; DNA modification for medical research; DNA modification for veterinary pharmaceutical research; biological testing, namely, preparation of biological samples for testing and analysis in research laboratories; biochemical engineering services in the fields of cell biology, general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; biotechnological research relating to agriculture; biotechnological

research relating to livestock; chemical analysis services relating to the testing of the chemical contents of liquids; chemical analysis services relating to the determination of bacterial content of liquids; chemical analysis services relating to the detection of bacterial content of liquids; bacteriological analyzes; bacteriological research and analysis; bacteriological research and testing; advice on research in the field of pharmacogenetics; advice on pharmaceutical research and development; consultancy in the field of bacteriological research; consultancy services relating to technological research of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; consultancy services relating to scientific research of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; biochemical analyzes; biochemical research service; biotechnical research in the industrial sector relating to pharmaceuticals; computer-aided industrial analysis services in the field of pharmaceuticals; computer-aided scientific analysis in the field of pharmaceuticals; medical research laboratory services; medical laboratory services; DNA verification for scientific research purposes; conducting chemical research; research in the field of biotechnology as applied in the agricultural, pharmaceutical, and industrial fields; research in the field of medicine, namely, preparing conducting, assessing, researching and reporting on scientific studies for medical purposes; scientific research in the medical field; research on chemistry; research and development in the field of bacteriology; research and testing in the fields of bacteriology and virology; pharmaceutical research and development; research and development services in the field of biotechnology, namely in the medical, pharmaceutical, agricultural and industrial fields; research and development services in the field of microorganisms and cells; research work of engineers, namely services of engineers who undertake evaluations, estimates, research and reports in the technological field to provide third parties with access to scientific research and technology; conducting research and evaluations provided by engineers in the scientific field; research for the development of new products in the fields of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; medical research services; pharmaceutical research; pharmaceutical drug development services; pharmaceutical therapeutic treatment development services; technical research service in the fields of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; scientific services, namely, scientific laboratory services and related research in the fields of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; scientific research in the field of bacteriology; scientific research in the field of pharmacy in the fields of genetics and genetic engineering; scientific research in biology, namely, molecular biology advice and scientific research for third parties; scientific research in the field of genetics and genetic engineering; scientific research and development in the fields of genetics and genetic engineering; providing scientific research information and research results through an online searchable database in the fields of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; scientific research services in the fields of gene editing technology, RNA interference technology, DNA repair technology, pharmaceuticals, medical biotechnology and general medicine; scientific and technological services, namely, scientific research, analysis and testing, and research and design relating thereto in the field of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; industrial analysis and research services in the field of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; design and development of computer software for use in the field of medicine, medical technology, biotechnology, biology, biochemistry and chemistry; consultancy and information in relation to the aforesaid services in the fields of

genetics and genetic engineering.

Class 44

(3) Medical services based on biotechnological methods; veterinary services based on biotechnological methods; hygienic and beauty care for human beings or animals based on biotechnological methods; agriculture, horticulture and forestry services based on biotechnological methods, namely, the application of biotechnology for enhancing crop yield and resilience, developing pest resistant plant strains, optimizing soil health, improving plant growth through bio-stimulants, and applying biotechnological solutions for sustainable forestry management; regenerative medicine services; medical analysis services for diagnostic and treatment purposes by medical laboratories; medical treatment using cultured cells; medical screening; livestock breeding; DNA tests for medical purposes; medical analysis services related to the treatment of persons provided by a medical laboratory; health care services for treating cancer and for treating infections; medical analysis services relating to the treatment of persons, namely, medical laboratory services comprising analysis of human bodily fluid and tissue sample; medical analysis services for cancer diagnosis and treatment of persons; medical diagnostic services (conducting of tests and analyzes); medical services in the field of infection; medical services in the field of diabetes; medical and health care services consultancy in the fields of general medicine, medical technology development and research, medical biotechnology, cancer biology, biochemistry and chemistry; medical and health care services relating to DNA, genetics and genetic testing, namely, DNA screening for medical purposes and genetic testing for medical purposes; medical services for the treatment of the skin; medical services for the treatment of diseases of the human body, namely, diabetes, cancer, allergies, infections, and autoimmune disease; medical care and analysis services relating to the patients treatment in the field of oncology; providing health information to patients, namely, information in the field of medical care and analysis services relating to patient treatment.

Class 01

(1) active chemical ingredients for use in the manufacture of anti-cancer drugs; active chemical ingredients for use in the manufacture of pharmaceuticals; adipic acid; adjuvants for use with fertilizers; adjuvants for use with pesticides; agglutinants for use in the manufacture of pharmaceuticals; alkalies; alpha-ketoglutaric acid; anthranilic acid; antioxidants for use in the manufacture of pharmaceuticals; benzoic acid; biochemical catalysts; biochemicals in the form of monoclonal antibodies for in vitro scientific use; biochemicals in the form of monoclonal antibodies for research use; biological assays and kits for use in fields of biological and diagnostic testing for industrial, scientific and research use; carbonic acid; cell culture reagents for laboratory use; chemical additives to fungicides; chemical preparations for use in the manufacture of pharmaceuticals; chromic acid; diagnostic preparations for scientific research use testing for contaminants in food; diagnostic preparations for scientific research use testing for residual pesticides in grain; diagnostic preparations for use in assessment of genomic analysis for scientific use; enzyme substrates for scientific purposes; formic acid; hydrochloric acid; lactic acid; peptide substrates for scientific purposes; phosphoric acid; radium for scientific purposes; reagent paper for scientific or research use; sulfuric acid; synthetic resins, unprocessed; cultures of bacterial microorganisms for laboratory and scientific use; adjuvants for use with agricultural chemicals; plant extracts for use in the manufacture of pharmaceuticals

Class 05

(2) adjuvants for use with vaccines; chemical preparations for the diagnosis of pregnancy; diagnostic preparations for clinical laboratory use; diagnostic preparations for in vitro testing for medical use; diagnostic preparations for medical laboratory use; diagnostic reagents for medical diagnostic use; diagnostic reagents for medical laboratory use; diagnostic reagents for medical

purposes; disinfectants for medical instruments; disinfectants for sterilization; drug delivery agents in the form of coatings for tablets that facilitate the delivery of pharmaceutical preparations; drug delivery agents in the form of dissolvable tablets that provide rapid release of the active ingredients for a wide variety of pharmaceuticals; liquid disinfectants for kitchen surfaces; nutritional supplements consisting of vitamins and minerals; nutritional supplements for brain development; nutritional supplements for general health and well-being; nutritional supplements for relief of pain; reagent paper for medical purposes; urinary tract disinfectants; vaccine adjuvants; vaccines for cattle; vaccines for horses; vaccines for human use; vaccines for swine; veterinary pharmaceuticals for the treatment of intramammary infections, mastitis and dry cow symptoms in cows; veterinary preparations for the prevention and treatment of parasitic infections; veterinary preparations for treatment of intestinal bacteria; Medicines for human purposes, namely, medicines for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; Raw material medicine, namely, medicines for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; pharmaceutical preparations and substances for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; chemico pharmaceutical preparations, for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; biological preparations for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; chemical preparations for pharmaceutical purposes, namely, for cancers, inflammatory diseases, autoimmune diseases, infectious diseases, and coagulation disorders healthcare and clinical applications; chemical preparations for medical purposes, namely, diagnostic chemical reagents for medical purposes; chemical preparations for pharmaceutical purposes, namely, artificial sweeteners, sodium chromate, chemotherapy medication; Chemical preparations for medical purposes, namely, for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious

diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; Drugs for medical purposes, for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; preparations of microorganisms for medical use, for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin; biomedicine, for the treatment of cancer, cardiovascular, hematologic, neurological, gastrointestinal and genetic diseases, inflammatory diseases, autoimmune diseases, infectious diseases, coagulation disorders, infectious and parasitic diseases, neoplasms, diseases of the blood and blood-forming organs, endocrine, nutritional and metabolic diseases, mental, behavioural and neurodevelopmental disorders, sleep-wake disorders, diseases of the nervous system, diseases of the respiratory system, diseases of the digestive system, diseases of the skin;

Class 09

(3) analytical apparatus, namely, an automated slide stainer for use in medical laboratories; automatic chromatography apparatus for laboratory use; computer hardware for data processing; computer software for creating searchable databases of information and data; database management software; diagnostic biomolecule and DNA sequence detection devices for scientific research purposes; downloadable computer software platform for assisting programming developers to collaborate on digital computer programming code as used in multiple application programs; furnaces for laboratory experiments; glassware for laboratory use; laboratory chemical reactors; laboratory instrument for the detection of pathogens and toxins in a biological sample for research use; laboratory robots; laboratory trays; magnetically encoded gift cards; magnetically encoded identification cards; magnetically encoded key cards; ovens for laboratory experiments; petri dishes; recorded computer operating programs; stills for laboratory experiments; surveying instruments; test tubes; computer programs recorded on software designed for use in creating searchable databases of information and data for use in the field of pharmaceutical research; computer software for organizing and viewing digital images; electronic instruments for testing the sterility of medical equipment; electronic instruments for testing the sterility of pharmaceuticals and injectable solutions; laboratory apparatus and instruments, namely, pre-packed chromatography columns for use in chemical synthesis; chemical reactors, chemistry coils, retorts and steam cracking furnaces for use in high temperature chemical reactions;

Class 10

(4) abdominal belts for medical purposes; analyzers for bacterial identification for medical purposes; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; body composition analyzers for medical purposes; casting tape for orthopedic purposes; contraceptives, non chemical; dental instruments; diabetes monitoring equipment for sampling and analyzing blood and body tissue; diagnostic biomarker testing apparatus for use in diagnosis of

eye disease; diagnostic biomolecule and DNA sequence detection devices for clinical medical purposes; diagnostic pregnancy test apparatus to detect hormone levels and ovulation stages; flow cytometers for medical diagnostic uses; high density lipoprotein cholesterol testing apparatus for medical diagnostic purposes; kinesiology tapes for physiotherapy purposes; knee bandages, orthopedic; manually-operated resistance bands for physical therapy purposes; orthopedic belts; orthopedic bone implants; orthopedic bone screws; orthopedic braces; orthopedic footwear; polymerase chain reaction (PCR) tests for the detection of viruses in humans; skin moisture analyzers for medical purposes; suture materials; ultrasonic medical diagnostic apparatus; X-ray diagnostic apparatus; Medical apparatus and instrument for diagnostic use, namely, apparatus for medical diagnostic testing in the fields of cancer or other tissue-based diagnostic testing, cytology and cell-based testing; Hematology analyzers for medical diagnostic uses; Breath gas analyzers for medical diagnostics; Medical diagnostic instruments for the analysis of body fluids; diagnostic biomolecule and DNA sequence readers of biomolecule and DNA sequence testing results for clinical medical use; magnetic resonance imaging (MRI) diagnostic apparatus

Services

Class 35

(1) accounting; administrative services for the relocation of businesses; advertising agency services; advertising consultancy; advertising on the Internet for others; advertising the goods of others; arranging and conducting advertising campaigns for the products and services of others; business management assistance; business management consultancy and advisory services; collection of market research information; computer database management services; computerized management of medical records and files; computerized market research services; database marketing services in the form of compiling customer specific databases; development of marketing campaigns for others; import-export agency services; management and compilation of computerized databases; marketing analysis services; marketing research; marketing research and analysis services; marketing strategies for others; online sale of pharmaceutical, veterinary and sanitary preparations and medical supplies; personnel management consultancy; provision of an on-line marketplace for buyers and sellers of goods and services; public relations consultancy; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies; sponsorship search; systemization of information into computer databases; updating and maintenance of data in computer databases; wholesale sale of pharmaceutical, veterinary and sanitary preparations and medical supplies; wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; Provide business consulting in the field of medical apparatus and instruments for enterprise; providing online business information in the field of medical supplies through global computer network; business intermediary services in the field of medical apparatus and instruments; commercial information and advice for consumers in the choice of products and services in the field of medical apparatus and instruments; advertising goods and services of others by promoting the availability of goods for purchase via a global computer network; business management services relating to information and data compiling and analyzing; providing advice and information relating to commercial business management

Class 40

Goods

Class 01

(1) Chemical preparations in the nature of fragrance oils for use in manufacturing of candles and soap, none of such goods being in the nature of essential oils; chemical additives in the nature of ultra violet light inhibitors for use in manufacturing candles.

Class 02

(2) Dyes for making soap; dyes for colouring wax for use in making candles; dye in the form of blocks for colouring candle wax

Class 03

(3) Reed diffuser bases; scented oils for making soap and candles; essential oils for use in aromatherapy; aromatic essential oils; essential oils for use in making candles; fragrances consisting of essential oils for use in the manufacture of soap and candles; scented oils used to produce aromas when heated; oils for perfumes and scents; fragrance oils; air fragrance reed diffusers; soap making supply kits consisting of fragrance oils for soap, soapmaking base, soap dye; soap making supplies, namely, pouring pitcher, plastic or silicone soap mold, silicone spatula for removing soap from mold, silicone spatula for soap making and plastic spray bottle; soap making supplies, namely, preparations of soap which are based from colourants, fragrances, scented oils and additives in the nature of ultra violet light inhibitors to prevent premature fading; melt and pour bases for soapmaking, namely preparations of soap which may be melted and to which colourants, fragrances, oils and additives may be added to create an altered soap product

Class 04

(4) Candle making supply kits consisting of fragrance oils for candles, soy wax, metal tins, metal lids, pouring pitcher, candle wicks, wick stickers, or wick tabs, wick bars; wick stickers for adhering candle wicks to candle wax; and candle wick tabs secured to candle wicks to apply to candle wax;

candle wicks; wax for making candles; scented wax for use in candle warmers; scented soy wax for use in candle warmers; soy wax for making candles; natural beeswax for use in making candles; candle wick tabs for making candles; candle wick setter for securing candle wicks while making candles

Class 06

(5) Metal tabs for securing wicks while making candles; molds for candlemaking of metal; bars of metal specially adapted for centering candle wicks while making candles; pins of metal specially adapted for centering candle wicks while making candles; spatulas for mixing and smoothing molten wax; electric stainless steel candle wax melters; metal tins for candles; metal lids for tins containing candles; metal lids for candle tins; steel candle-making molds

Class 08

(6) Soap cutters, namely, blades for use in the cutting and shaping of soap; soap cutting boxes, namely, mitre/miter boxes for use in the cutting and shaping of soap; spatulas for mixing and smoothing molten wax, for use in the candle making business.

Class 09

(7) Glass thermometers, digital thermometers not for medical purposes; portable digital weighing scales for kitchen use and for making crafts.

Class 16

(8) Stickers for securing wicks at the base of candles; candle packaging in the nature of paper candle tubes; cardboard boxes; adhesive paper labels; fragrance blotter strips.

Class 20

(9) Molds for candlemaking of plastic; Reeds for use in reed diffusers sold separately; plastic soap-making molds

Class 21

(10) Candle jars; candle jar lids; tealight candle holders; pitchers; spatulas for mixing and smoothing molten wax, for household use; silicone soap-making molds.

Services**Class 35**

(1) Marketing services, namely, promoting the goods and services of others in respect of candle-related and soap-related products of candle and soap producers on the internet; retail store services featuring products for making candles and soap; on-line retail store services featuring products for making candles and soap; distributorship services in the field of products for making candles and soap; providing information to others about starting a soap-making business; providing information to others about starting a candle-making business; providing information about and promoting small businesses in the soap making and candle making industries on the internet

Class 38

(2) Providing on-line electronic bulletin boards for transmission of messages among computer users concerning general, non-scientific information about candles, candle making, and the candle industry; Providing on-line electronic bulletin boards for transmission of messages among computer users concerning general, non-scientific information about soap, soap making, and the soap industry.

Class 41

(3) On-line journals, namely, blogs featuring general, non-scientific information about candles, candle making, and the candle industry; providing information in the form of non-downloadable instructional video presentations featuring general, non-scientific information in the fields of candles, candle making, and the candle industry via a website; providing non-downloadable instructional video presentations featuring general, non-scientific information in the fields of soap, soap making, and the soap industry via a website; online guides, recipes and tutorials on soap making and candle making;

Class 06

(1) Transport containers of metal; metal containers for storage; transportable buildings of metal, namely, metal sheds and shipping containers of metal; transport pallets of metal.

Class 09

(2) Computer software and applications for land vehicle navigation; computer software for managing steering control in autonomous land vehicles; computer software and applications for navigation of autonomous vehicles; computer software for operating electronic driving assistance systems in autonomous vehicles; computer software and applications for electric vehicle navigation; computer systems for driverless cars with intelligent driver assistance system; integrated electronic driver assistance systems for autonomous land vehicles; computers and hardware for autonomous driving; optical sensors; light detection and ranging [LIDAR] apparatus for vehicles; electronic distance meters for vehicles; cameras for vehicles; infrared cameras for vehicles; infrared sensors for vehicles; radars for land vehicles; computer software for use in navigation for and location identification of a delivery vehicle; car navigation computers; navigation apparatus for vehicles in the form of on-board computers; navigational systems for traffic and vehicle security and safety for autonomous vehicles; simulators for the steering and control of vehicles; computer software for logistics management of delivery sequencing and capacity planning in the field of freight transportation; downloadable computer software for logistics management for use in scheduling departure points and transit schedules in the field of freight transportation; software for administrative processing of storage, packaging, delivery and transportation of goods; computer software for tracking and displaying shipment information of consumer goods in the field of purchase order processing for shipping; software for route planning and driver assistance; fleet management software for transportation logistics; computer software for database management; computer software for document management; computer software for inventory management; downloadable software for the monitoring, tracking and analysis of vehicle movement, location, status, and behavior; downloadable software for the monitoring, tracking, and analysis of vehicle movement, status, and behavior for purposes of offering vehicle maintenance, purchasing, sharing, loan and rental services; downloadable software for tracking and managing

vehicle maintenance; software for monitoring, recording, transferring, analysing, managing, processing or reporting of data regarding freight, position, route, roadmap, battery status, charging, costs, carbon emission, traffic, weather, driver performance, waiting times or fill rates for trucks; chargers for electric batteries for electric vehicles; portable battery chargers for use with electric vehicles; smart chargers for electric vehicles; charging stations for electric vehicles; portable charging stations for electric vehicles; software for the management of electric vehicle charging stations; mobile applications, namely, downloadable mobile application for facilitating charging of electric vehicles, locating electric vehicle charging stations, remote observation, management and operation of electric vehicle charging stations, and authentication and payment of electric vehicle charging stations; software for charging electric storage batteries and electric batteries for vehicles; computer software application for reserving and purchasing electric vehicle charging services; computer software application for electric vehicle chargers; electric batteries for powering electric vehicles.

Class 12

(3) Autonomous vehicles; automotive vehicles, namely electric vehicles; electrically powered motor vehicles; electric trucks; trucks; tractor trailers; semi-tractor trailers; light trucks; automatic guided vehicles; unmanned ground vehicles [UGV]; automotive vehicles, namely electric vehicles; autonomous and remotely controlled vehicles for transport on land; cargo trailers; cargo vans; full-trailers; semi-trailer trucks; platform trucks; industrial trucks; vans; trailer vans; trailers for vehicles; tilt trucks; tow trucks; trucks incorporating a crane; autonomous electric vehicles; trucks; electric trucks; autonomous vehicles; self-driving trucks; cargo trailers; bulk hauling trailers; trailer vans; trailers for vehicles and structural parts thereof; platform trailers for trucks and specially adapted parts therefor; utility trailers and structural parts thereof; self-propelled electric dollies; electric utility trailers; electric tractor trailers; electric semi-tractor trailers; electric fulltrailers; electric cargo trailers; electric trailer vans; electric trailers for vehicles; cargo carriers for vehicles; automatic gear boxes for land vehicles; brake systems for land vehicles; brakes for land vehicles; door panels for land vehicles; drive gears for land vehicles; driving motors for land vehicles; electric motors for land vehicle; electronic brakes for vehicles; engines for electric land vehicles; engines for land vehicles; bodies for vehicles; body panels for vehicles.

Class 25

(4) Caps being headwear; beanies; caps with visors; jackets; hooded jackets; light-reflecting jackets; outerwear jackets; waterproof jackets; winter jackets; wind-resistant jackets; vests; fleece vests; wind-resistant vests; shirts; sweatshirts; hooded sweatshirts; casual clothing; outdoor winter clothing; embroidered shirts, sweaters, jackets; casual footwear; exercise footwear; leisure footwear; sports footwear; waterproof shoes; hats; baseball caps; jackets; leggings; leotards; liveries; shirts; socks; jerseys [clothing]; sweaters; tee-shirts; tights; pants; waterproof jackets; waterproof mackintoshes; waterproof pants.

Class 28

(5) Novelty toys for playing jokes; remote-controlled toy vehicles; toy scale model kits; scale model vehicles; stuffed toys; toy models; toy robots; toy vehicles.

Services

Class 35

(1) Business administration in the field of transport and delivery; business management in the field of transport and delivery; business management of transport fleet for others; business consultancy,

in the field of transport and delivery; business management consultancy in the field of transport and delivery; data processing services in the field of transportation; computerized inventory management.

Class 37

(2) Charging of electric vehicles; battery charging service for motor vehicles; vehicle battery charging; charging station services for electric vehicles; vehicle service stations for charging electric vehicles; charging of electric vehicles; wireless charging station services for electric vehicles; rental of portable battery chargers for electric vehicles; rental of battery chargers; rental of portable power chargers; installation, maintenance and repair of chargers, charging stations and charging infrastructures for electric vehicles; electric vehicle charging infrastructure construction.

Class 38

(3) Providing access to the Internet; providing multiple user access to a global computer network; providing multiple-user wireless access to the Internet; wireless charging station services for electric vehicles; providing access to a web portal permitting users to remotely control wireless charging stations for electric vehicles; setting up private 4G/5G telecommunication networks; radio broadcasting; telephone carrier services provided by means of fibre optic cables; transmission of vehicle telematics data by means of wireless computer networks.

Class 39

(4) Transport of goods by motor vehicle, lorry, rail, ship and aeroplane; transportation logistics, namely, supply chain logistics and reverse logistics services in the nature of transportation of goods for others by air, rail, ship or truck; autonomous electric transport services; autonomous electric freight transportation; truck hauling; freight forwarding; freight transportation by truck; freight transportation services by automobile; freight loading services; parcel delivery; transport of goods by truck; packaging of articles for transportation; providing storage facilities for others; warehouse storage services; storage of cargo before transportation; storage of goods in transit; rental of warehouses; computerised distribution planning relating to transportation, namely, arranging delivery of goods, vehicle routing, shipment planning, goods routing; providing information relating to truck transport via a website; locating and tracking of cargo for transportation purposes; consultancy services relating to transportation; freight brokerage; freight transportation brokerage; planning and booking of transport; rental, leasing and loaning of vehicles and autonomous vehicles; rental, leasing and loaning of autonomous vehicles, electric vehicles, and trucks; vehicle rental and leasing services; rental and leasing of trailers; rental of trailers for trucks; rental of pallets and containers for the transport of goods; rental of self-propelled lifting platforms for transportation purposes.

Class 42

(5) Design and development of computer software for autonomous vehicles, logistics, remote driving of vehicles and charging of electric vehicles; installation, updating and maintenance of computer software for logistics, remote driving of vehicles and charging of electric vehicles; computer technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems in the field of logistics management and charging of electric vehicles; software as a service (saas) services featuring software to monitor the status of autonomous vehicles; software as a service (saas) services featuring software for managing fleets of vehicles, managing battery charging networks, managing vehicle drivers, remotely operating land vehicles, autonomously operating land vehicles; providing software as a service (SaaS) services featuring software for the remote management of electric vehicle charging stations; providing software-as-a-service for freight shipment and truck tracking by way of global positioning systems (GPS); cloud hosting of transportation logistics data, vehicle telematics data, and remote

operation of vehicles data; rental of computer software; technical data analysis services, namely, electric meter data analysis; technical project planning in the field of logistics management in the field of freight and transportation, autonomous and electric transport and charging infrastructure for vehicles; consultancy services relating to carbon emissions reduction and environmental sustainability; environmental consultancy services; environmental assessment services; automotive design; motor vehicle design and development services; design of electric batteries for vehicles.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of a circular badge design with a serrated dark blue outer border, followed inwardly by a thin white circular ring and a smaller light blue inner circular ring. At the top of the design appears the phrase "I Never Sleep!" in bold yellow stylized lettering. At the center of the mark is a caricature-style image of a woman with peach-toned skin, black hair, white teeth, and wearing a yellow shirt. The woman is shown partially reclining on a bed with a visible light blue pillow with dark blue contour, light blue bedsheet, and brown headboard in the background. She is holding a stylized smartphone tilted to the right, the smartphone is black, featuring 12 small square and rectangular icons in various colours, including black, white, green, blue, red, purple, yellow, and orange, arranged in a grid layout on a dark background. Near the lower right corner of the mark, just under the woman's right arm are the letter "FMM" in grey color. To the right of the woman's head are two white circular shapes and one cloud in grey with white outline, in which contains six small red rectangular real estate signs with white supporting frames and bearing the word "SOLD" in white uppercase block letters. Below the woman's image are the words "THE Monica Thapar Sales Representative TEAM." The words "THE" and "TEAM" appear in uppercase white letters within red oval-shaped backgrounds. The name "Monica Thapar" appears in yellow stylized script with a black outline, and the words "Sales Representative" appear below in smaller font in the same style. The colours dark blue, light blue,

yellow, red, black, white, peach (skin tone), grey, and brown are claimed as features of the trademark

Goods**Class 09**

downloadable computer software and mobile application software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence

Goods

Class 18

(1) Bags, namely beach bags, handbags, shoulder bags, textile shopping bags, travel bags, backpacks; backpacks for carrying babies, slings for carrying infants, pouch baby carriers, ring slings (baby carriers); slings for carrying babies; suitcases, travel chests; travel kits [leatherwork]; toiletry cases, sold empty; soft bags for carrying and storing clothing; garment bags for travel; cases for personal effects; document portfolios; wallets, card holders [wallets], purses, coin purses, key cases; umbrellas, parasols, sunshades; blankets [clothing] for animals; clothing for pets; bags for carrying animals.

Class 20

(2) Pillows; cushions; air pillows and cushions, other than for medical use; bolsters; sleeping gear and bedding, except bed linen, namely quilted fitted mattress protectors, sleeping pads, sleeping mats; mattresses; mattress pads; bedsprings; beds and bed accessories, in the nature of bedsteads, bed frames, bed headboards, backrests and shelves, non-metal bed casters, bed footboards; headrests (furniture); furniture and furniture parts, namely modular foam prefabricated convertible furniture, seating furniture, divans, couches, benches and sofas, padded folding chairs, easy chairs, folding seats, rocking chairs, recliners, swivel chairs, padded armchairs, lounge chairs, bedroom furniture, living room furniture, nightstands, shelving units; furniture trims and casters, not of metal; bed fittings, not of metal; indoor blinds of textile; rods, coat trees, hooks and rings for curtains and mosquito nets; coat stands; clothes racks; clothes hangers; baskets, not of metal, namely decorative baskets of woven wood, rattan or bamboo, decorative baskets of textile; wickerwork; mirrors; frames for pictures and photographs, frames for art; maternity and nursing pillows; fitted rail protection devices for baby cribs; bumper guards for cribs; anti-roll cushions for babies; head positioning pillows for babies; bassinets; playpen mats; high chairs for children; toy chests; sleeping pads, sleeping mats; pet cushions; beds for household pets.

Class 24

(3) Duvets; bed blankets; bed covers, coverlets (bed covers); quilts, bedspreads, comforters (duvet bedspreads); travel rugs; throws; woollen blankets; mattress protectors, mattress slips and

mattress covers; bed skirts; sheets, fitted sheets, pillowcases, pillow and cushion covers, bed linen; sleeping bags; sleeping bag liners; sleeping bags for babies; bunting bags; cot bumpers [bed linen]; protective covers for furniture; wall hangings of textile; textile fabrics for interior decorating; upholstery fabrics; ticking fabric; fabric and cloth, namely linen fabric and cloth, namely textile cloth, velvet cloth, velvet, woollen cloth; non-woven textile fabrics; indienne cloth; diapered linen; bed linen, namely bed canopies; sheer curtains, curtains of textile or plastic; mosquito nets; household linen, namely kitchen linen, table linen, cloth kitchen towels; bath linen; bath mitts, face towels of textile, bath sheets; picnic blankets; table linen, not of paper; table mat sets of textile; tablecloths and napkins of textile; handkerchiefs of textile; tea towels; blankets for household pets.

Class 25

(4) Clothing, namely robes, bathrobes, pyjamas, night shirts, sleepwear, nightgowns, baby-doll nightgown sets, dressing gowns, T-shirts, shorts suits, hosiery, jackets, underwear, sweaters, jerseys, jumpsuits, snowsuits, pants, leggings, tights, sweatshirts, pullovers, ponchos, jackets, thermal clothing, namely thermal socks, thermal T-shirts, thermal tank tops and thermal underwear, sports clothing, swimwear, beachwear; anoraks and down jackets; socks; slippers, shoes, footwear, namely leisure shoes, bathing shoes, beach shoes; belts [apparel]; headwear, namely hats and caps, beach hats, beanies and headbands; gloves [apparel]; scarves, shawls, shoulder scarves; sleep masks; pocket squares; aprons [clothing]; sleepers for babies; bibs for babies, not of paper; layettes; footmuffs, not electrically heated.

Class 27

(5) Bath rugs; bath mats; mats, doormats, mats and matting, namely straw mats, beach mats.

Services

Class 35

Advertising and promotional services for promoting the sale of bedding, duvets, pillows, blankets, bed and bath linen, household linen and clothing for others; product presentation services on all means of communication, namely on television, on the radio and on the Internet, for the retail, wholesale, mail order sale and online sale of bedding, duvets, pillows, blankets, bed and bath linen, household linen and clothing for others; provision of consumer information and advice related to the selection of goods and services in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; retail and online retail store services in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; retail, online and wholesale services on all electronic means for the remote order of goods, namely pillows, cushions, air pillows and cushions, other than for medical use, bolsters, sleeping gear and bedding, mattresses, mattress pads, bedsprings, beds and bed accessories, in the nature of bedsteads, bed frames, headboards, backrests and shelves, bed casters, footboards, headrests (furniture), furniture and furniture parts, namely divans, couches, benches and sofas, fireside chairs, seats, armchairs, lounge chairs, deck chairs (lounge chairs), furniture trim and casters, bed fittings, indoor blinds of textile, rods, coat trees, hooks and rings for curtains and mosquito nets, coat stands, garment bags [for closets], garment bags for clothing [storage], clothes hangers, wastebaskets, not of metal, baskets, not of metal, wickerwork, looking glasses, bed frames, frames for pictures and photographs, maternity and nursing pillows, rail protection devices for baby cribs, anti-roll cushions for babies, head positioning pillows for babies, bassinets, playpen mats, high chairs for children, toy chests, sleeping pads, sleeping mats, pet cushions, beds for household pets, duvets, bed blankets, bed covers, coverlets (bed covers), quilts, quilt covers, bedspreads, comforters (duvet bedspreads), travel rugs, travel blankets, woollen blankets, mattress protectors, mattress slips and ticking, bed skirts, sheets, fitted sheets, pillowcases, pillow and cushion covers, bed linen, sleeping bags, sleeping bag liners, sleeping bags for babies,

bunting bags for babies, cot bumpers [bed linen], protective covers for furniture, wall hangings of textile, fabrics for interior decorating, upholstery fabrics, fabric and cloth, namely linen fabrics and cloth, namely textile cloth, velvet cloth, velvet, woollen cloth, bed linen, namely, bed canopies, sheers, namely curtains, curtains of textile or plastic, mosquito nets, household linen, namely, kitchen linen, kitchen towels, bath linen, bath mitts, face towels of textile, bath sheets, picnic blankets, table linen, table mat sets of textile, tablecloths and napkins of textile, handkerchiefs of textile, tea towels, blankets for household pets, clothing (including underwear), in particular robes, bathrobes, pyjamas, night shirts, nightwear, baby-doll nightgowns, dressing gowns, T-shirts, bodysuits [undergarments], hosiery, knitwear [clothing], jerseys [clothing], coveralls [clothing and underwear], pants, leggings [pants], tights, sweatshirts, pullovers, ponchos, jackets, thermal clothing, sports clothing, swimwear, beachwear, anoraks and down jackets, socks, soft slippers, shoes, footwear, belts [apparel], headwear, beach hats, beanies and headbands, gloves [apparel], scarves, shawls, shoulder scarves, sleep masks, pocket squares, aprons [clothing], sleepers for babies, bibs, not of paper, layettes, footmuffs, not electrically heated, bags, beach bags, handbags, textile shopping bags, travel bags, backpacks, backpacks for carrying babies, slings for carrying infants, pouch baby carriers, ring slings (baby carriers), slings for carrying babies, suitcases, travel chests, travel kits [leatherwork], vanity cases, bags for carrying and storing clothing, garment bags for travel, cases for personal effects, portfolios, wallets, card holders [wallets], purses, coin purses, key cases, umbrellas, parasols, sunshades, blankets [clothing] for animals, clothing for pets, carrier bags for animals, bath rugs, bath mats, bedside rugs, mats, doormats, matting, hammocks; provision of online sales spaces for buyers and sellers of goods and services; Internet advertising for others; provision of commercial information via websites in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; sales demonstration of goods for others; organization of events, competitions and exhibitions for commercial and advertising purposes in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; business management assistance and consulting; commercial business management and administration; assistance related to business management and planning; business intelligence in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; conduct of business and market research investigations for others; provision of administrative and clerical assistance services for others; business management assistance for industrial or commercial businesses; invoicing; accounting; administrative processing of purchase orders; computerized file management services; cost analysis, economic forecasting, preparation of statistics, market studies, business appraisals; business intermediation services in the field of the manufacture of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing for others; procurement and purchase of goods and services for others in the fields of bedding, duvets, pillows, blankets, bed and bath linen, table linen, household linen and clothing; commercial administration of the licensing of the goods and services of others.

Class 07

(1) Compressors, namely compressors for air conditioners, compressors for dehumidifying machines, compressors for recovering and recycling refrigerant gases, compressors for air deodorizing machines and compressors for refrigerating appliances and installations, namely compressors for refrigerating chambers, refrigerating cabinets, refrigerating machines; refrigerant compressors, namely compressors for refrigerators; heat exchangers being parts of machines.

Class 11

(2) Heat pumps; air coolers; dehumidifiers; electric room deodorizing units; radiators, electric; electric heating fans; electric cooling fans; electric space heaters; electric air heaters for industrial use; electric air heaters for household use; cooling installations for water, namely industrial water chillers; air conditioners; humidifiers; filters for air conditioning; air purifiers, namely air cleaning units; air dryers; heat recovery ventilators; aerators for faucets; ventilating fans; axial-flow fans for air conditioning; heat exchangers, other than parts of machines; steam generators; parts and accessories for the aforementioned goods, namely fans for air-conditioning installations, fans for ventilation installations, filters for air-conditioning installations, filters for ventilation installations, valves for air-conditioning installations, valves for ventilation installations, thermostatic valves for air-conditioning installations, air diffusers for air-conditioning installations, air diffusers for ventilation installations.

Services

Class 35

(1) Retail and wholesale services in relation to compressors, namely compressors for air conditioners, compressors for dehumidifying machines, compressors for recovering and recycling refrigerant gases, compressors for air deodorizing machines and compressors for refrigerating appliances and installations, namely compressors for refrigerating chambers, refrigerating cabinets, refrigerating machines; retail and wholesale services in relation to refrigerant compressors, namely compressors for refrigerators; retail and wholesale services in relation to heat exchangers being parts of machines, heat pumps, air coolers, dehumidifiers, electric room

deodorizing units, electric radiators, electric heating fans, electric cooling fans, electric space heaters, electric air heaters for industrial use, electric air heaters for household use; retail and wholesale services in relation to cooling installations for water, namely industrial water chillers; retail and wholesale services in relation to air conditioners, humidifiers, filters for air conditioning; retail and wholesale services in relation to air purifiers, namely air cleaning units; retail and wholesale services in relation to air dryers, heat recovery ventilators, aerators for faucets, ventilating fans, axial-flow fans for air conditioning, heat exchangers, other than parts of machines, steam generators.

Class 37

(2) Installation, maintenance and repair of compressors, namely compressors for air conditioners, compressors for dehumidifying machines, compressors for recovering and recycling refrigerant gases, compressors for air deodorizing machines and compressors for refrigerating appliances and installations, namely compressors for refrigerating chambers, refrigerating cabinets, refrigerating machines; installation, maintenance and repair of refrigerant compressors, namely compressors for refrigerators; installation, maintenance and repair of heat exchangers being parts of machines, heat pumps, air coolers, dehumidifiers, electric room deodorizing units, electric radiators, electric heating fans, electric cooling fans, electric space heaters, electric air heaters for industrial use, electric air heaters for household use; installation, maintenance and repair of cooling installations for water, namely industrial water chillers; installation, maintenance and repair of air conditioners, humidifiers, filters for air conditioning; installation, maintenance and repair of air purifiers, namely air cleaning units; installation, maintenance and repair of air dryers, heat recovery ventilators, aerators for faucets, ventilating fans, axial-flow fans for air conditioning, heat exchangers, other than parts of machines, steam generators.

Class 06

(1) Metal housings, mounting brackets, spikes, risers and posts, and mounting boxes, all for electric lighting fixtures; metal storage boxes for general use; metal brackets and boxes for mounting electric lights; metal posts, spikes and risers for mounting electric lights.

Class 09

(2) Electrical transformers, electrical power supplies, namely, AC/DC power supplies, batteries for lighting fixtures, lighting control panels, lighting controls, remote controls for lighting, portable power supplies for lighting fixtures, lighting control panels, lighting controls, remote controls for lighting, electrical surge arresters, 9V battery adapters for lighting, AC adapters, power relays, lighting transformer plug in with timer and electrical cable; wire connectors; junction boxes; electric junction boxes; electric relays; photocells; electrical overload relays; current switches; capacitor switches; dimmer switches; electric power switches; power transformers; lighting transformers; electrical adaptors for lighting fixtures, lighting control panels, lighting controls, and remote controls for lighting; controllers for low voltage lighting systems, namely, electronic controllers with programmable user interfaces for powering light fixtures in residential and commercial landscape lighting systems; lighting control panels; lighting controls; remote controls for lighting; outdoor lighting controllers with zone dimming; outdoor lighting controllers with zone dimming color; downloadable software for managing, controlling, and operating lighting systems; downloadable software for controlling lighting systems, creating schedules and lighting themes, and enabling voice control integration with other electronic devices; lighting control circuit boards; lighting control computer hardware; lighting sensors, namely, light sensors; lighting sensors, namely, light systems comprising light sensors and switches; light switches; electrical lighting controllers; electric light dimmers; programmable light dimmers; indoor and outdoor electrical lighting controllers used in connection with computers, computer hardware, computer software, mobile software applications, mobile phones, tablet computers, mobile data receivers, and wireless transmitters and receivers; electronic controllers for powering light fixtures in industrial and commercial lighting systems; downloadable software for lighting indoor and outdoor areas and controlling and programming lighting; lighting system comprised of computer hardware and embedded software for controlling

and programming lighting devices; lighting system comprised of computer hardware and embedded software for controlling and programming on and off times for lights; downloadable software for controlling and programming lighting fixtures; downloadable software for controlling and programming on and off times for lights; electronic controllers with programmable user interfaces for powering light fixtures; Lighting products, namely, lighting control panels, batteries for lighting, lighting systems comprised primarily of electric lighting dimmers, light sensors, light controllers, electrical adapters, and also including LED modules, lighting fixtures, power supplies and wiring; lighting system comprised of computer hardware and recorded software for controlling and programming on and off times for lights, color output of lights, and color changes of lights; downloadable software for controlling and programming on and off times for lights, color output of lights, and color changes of lights.

Class 11

(3) Electric lighting fixtures, light bulbs and light sockets, lenses, reflectors, diffusers, filters and baffles, all for electric lighting fixtures; lighting fixtures; sockets for electric lights; landscape lighting installations; lighting for wall mounting; electric lamps; outdoor lighting, namely, paver lights; LED light strips for decorative purposes; LED lighting fixtures; LED landscape lights; LED lamps; color filters for use in lighting instruments; fitted anti-glare devices for lighting fixtures; strip lighting for outdoor use; mounting brackets, spikes, housing, risers, boxes, and posts specially adapted for use with landscape and architectural lighting installations; electronic features for lights, namely, dimming, timing, on-and-off programming, and zoning, sold as a capability and component of lighting fixtures; electronic features for lights, namely, dimming, timing, on-and-off programming, and zoning, sold as a capability and component of electric lighting fixtures; electronic features for lights, namely, dimming, timing, on-and-off programming, and zoning, sold as a capability and component of LED lighting systems comprising dimmers, sensors, controllers, adapters, LED modules, lighting fixtures, power supplies and wiring; LED lighting systems comprising dimmers, sensors, controllers, adapters, LED modules, lighting fixtures, power supplies and wiring; LED lights and lighting fixtures that allow for dimming, zoning, color changing, and temperature management; lighting controllers sold as integrated components of lighting fixtures and lighting installations that allow for light zoning, light dimming, light color changing, and temperature management; LED lighting system comprising of a beam angle lens, a color filter, a light reflector, and a temperature regulator.

Services

Class 42

Providing online non-downloadable software for creating lighting renderings; providing online non-downloadable software for creating lighting designs; providing online non-downloadable software for creating landscape lighting designs; providing online non-downloadable software for designing landscape lighting systems; providing online non-downloadable software for designing lighting systems; providing online non-downloadable software for designing lighting landscapes; providing online non-downloadable software for illustrating nighttime lighting designs including direction and intensity of each fixture; providing online non-downloadable software for designing landscape lighting; providing online non-downloadable software for creating landscape designs.
