Three-dimensional (3-D)
Position

Visual Representation

Trademark Description

The trademark consists of the following elements positioned on a three-dimensional octagonal bottle with wide shoulders that flare out just below the neck, and with sides that curve inward toward the center of the bottle and flare out at the bottom of the bottle, as shown in the visual representation. The central front surface of the bottle is flanked on each side by a plane which meets the central surface at an angle. Each plane features a diamond pattern that begins just below the shoulders of the bottle and runs down the length of each side of the bottle, with slightly larger diamond shapes at the shoulders than the sides. The stopper is a stylized crown with a series of vertical lines on the bottom and the top. The bottle in three-dimensions shown in dotted outline does not form part of the trademark but is included merely to show the position of the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. Colour is claimed as a feature of the trademark. The wording "MONKEY SUSHI" is in white. The monkey's face is enclosed within a rectangular shape with rounded edges, outlined in black. The inner center of the face forms a heart-shaped contour outlined in black, while the outer portion of the face features diagonal orange and white stripes, designed to resemble a sushi roll. The monkey's eyes and mouth are solid black, and the nose is circular in orange with a black outline. The ears are composed of two parts: the inner section is light green with a black outline in a half-circle shape, and the outer section is white with a black outline in a half-ring shape. The background is red with a repeating pattern of the words "MONKEY SUSHI" in a translucent orange colour.

Certification Mark Standard

The mark "Courtside Care" certifies that the goods and services provided under this mark meet the standards set by Courtside Care, an independent nonprofit organization dedicated to promoting community health and wellness through basketball and other sports. The mark signifies that:

Healthcare Focus: Programs, services, and events bearing the mark prioritize equitable access to healthcare resources, education, and wellness initiatives designed to improve physical and mental well-being, particularly in underserved communities.

Sports Integration: The certified programs leverage basketball and other sports as a vehicle to promote healthy lifestyles, teamwork, personal growth, and community engagement.

Community Impact: Goods and services associated with this mark are designed to create measurable social impact by addressing systemic health disparities, fostering inclusivity, and encouraging positive lifestyle changes.

Standards of Excellence: Organizations, programs, or events using the mark adhere to Courtside Care's established standards for delivering high-quality, community-driven health and sports programming, ensuring accountability and meaningful outcomes.

The certification mark is not intended to indicate the origin of the goods or services, but rather to certify that they meet the specified criteria set forth by Courtside Care.

electronic pipettes for medical purposes; electronic pulse massagers; electronic pulse massagers; electronic quantum magnetic resonance analyzer for medical diagnostic purposes; electronic quantum magnetic resonance analyzer for medical diagnostic purposes; electronic temperature monitors for medical purposes; electronic temperature monitors for medical purposes; Elizabethan collars for veterinary purposes; Elizabethan collars for veterinary purposes; emergency pelvic clamps; emergency pelvic clamps; emergency stretchers; emergency stretchers; emergency use resuscitators; emergency use resuscitators; endobronchial tubes; endobronchial tubes; endodontic container for holding dental drill, dental burs and dental files; endodontic container for holding dental drill, dental burs and dental files; endodontic files; endodontic files; endoprostheses; endoprostheses; endoscopes for medical purposes; endoscopes for medical purposes; endoscopic apparatus for medical purposes; endoscopic apparatus for medical purposes; endoscopic cameras for medical purposes; endoscopic cameras for medical purposes; endoscopic equipment; endoscopic equipment; endoscopic video processors for medical and surgical purposes; endoscopic video processors for medical and surgical purposes; endoscopy cameras; endoscopy cameras; endoscopy cameras for medical purposes; endoscopy cameras for medical purposes; endotracheal tubes; endotracheal tubes; enema apparatus for medical purposes; enema apparatus for medical purposes; enema kits; enema kits; enteral feeding pumps; enteral feeding pumps; enteroscopes; enteroscopes; esophagoscopes; esophagoscopes; evacuator tips for dental examination; evacuator tips for dental examination; examination couches specially made for medical use; examination couches specially made for medical use; examination gloves for medical purposes; examination gloves for medical purposes; examination table for domestic animals; examination table for domestic animals; examination tables for hospital use; examination tables for hospital use; examining tables for hospital use; examining tables for hospital use; exercise balls for physical therapy and rehabilitation of animals; exercise balls for physical therapy and rehabilitation of animals; exercise footwear for medical rehabilitation purposes; exercise footwear for medical rehabilitation purposes; extenders for sanitary masks for protection against viral infection; extenders for sanitary masks for protection against viral infection; extension sets comprised of stopcocks for infusion of fluids, infusion manifolds and infusion valves for medical purposes; extension sets comprised of stopcocks for infusion of fluids, infusion manifolds and infusion valves for medical purposes; external defibrillators; external defibrillators; external fixators; external fixators; external nasal dilators; external nasal dilators; eye bath; eye bath; eye charts for medical examination use; eye charts for medical examination use; eye drop guides; eye drop guides; eye droppers for medical purposes; eye droppers for medical purposes; eye massagers; eye massagers; eye misalignment diagnostic apparatus for medical purpose; eye misalignment diagnostic apparatus for medical purpose; eye shields for medical use; eye shields for medical use; eye shields for microdermabrasion and facials; eye shields for microdermabrasion and facials; eye testing machines; eye testing machines; eye wash bottles; eye wash bottles; eye wash cups for cleansing eyes; eye wash cups for cleansing eyes; eye wash cups for medical purposes; eye wash cups for medical purposes; eye wash irrigators for medical use; eye wash irrigators for medical use; eyelid weights for use in ophthalmic surgery; eyelid weights for use in ophthalmic surgery; face covers being sanitary masks for protection against viral infection; face covers being sanitary masks for protection against viral infection; face masks being sanitary masks for protection against viral infection; face masks being sanitary masks for protection against viral infection; face masks for medical purposes; face masks for medical purposes; face masks for medical use for antibacterial protection; face masks for medical use for antibacterial protection; face masks for medical use for toxic substance protection; face masks for medical use for toxic substance protection; face masks for surgical use; face masks for surgical use; face masks for surgical use for antibacterial protection; face masks for surgical use for antibacterial protection; face masks for surgical use for toxic substance protection; face masks for surgical use for toxic substance protection;

substance protection; face masks for use by health care providers; face masks for use by health care providers; face shield for face masks for medical purposes; face shield for face masks for medical purposes; face shield for protective breathing masks for medical purposes; face shield for protective breathing masks for medical purposes; face shield for respiratory masks for medical purposes; face shield for respiratory masks for medical purposes; face shield for sanitary masks for medical use; face shield for sanitary masks for medical use; face shields for dental use; face shields for dental use; face shields for medical use; face shields for medical use; facial aesthetic treatment apparatus using ultrasonic waves; facial aesthetic treatment apparatus using ultrasonic waves; facial ice globes in the nature of massage apparatus; facial ice globes in the nature of massage apparatus; facial masks for sanitary purposes; facial masks for sanitary purposes; facial massagers; facial massagers; facial prostheses; facial prostheses; facial scraping board for gua sha therapy; facial scraping board for gua sha therapy; facial toning machines for cosmetic use; facial toning machines for cosmetic use; faecal pouches; faecal pouches; feeding bottle teats; feeding bottle teats; feeding bottle valves; feeding bottle valves; feeding bottles; feeding bottles; feeding bottles for babies; feeding bottles for babies; feeding cups for medical purposes; feeding cups for medical purposes; fetal heart monitors; fetal heart monitors; fever thermometers; fever thermometers; fiberscopes for medical use; fiberscopes for medical use; fibrescopes for medical use; fibrescopes for medical use; filling instruments for dental purposes; filling instruments for dental purposes; filters for blood and blood components; filters for blood and blood components; filters for respiratory masks for medical purposes; filters for respiratory masks for medical purposes; filters for ultraviolet rays, for medical purposes; filters for ultraviolet rays, for medical purposes; finger cots for diagnostic purposes; finger cots for diagnostic purposes; finger cots for medical purposes; finger cots for medical purposes; finger guards for medical purposes; finger guards for medical purposes; finger splints; finger splints; fingerstalls for diagnostic purposes; fingerstalls for diagnostic purposes; fingerstalls for medical purposes; fingerstalls for medical purposes; fitted coverings for medical exam tables; fitted coverings for medical exam tables; fitted covers for orthopedic casts; fitted covers for orthopedic casts; fitted covers for patient x-ray radiation shields; fitted covers for patient x-ray radiation shields; fitted covers for underarm crutch pads; fitted covers for underarm crutch pads; fitted plastic extruded coverings for braces for protecting the inside of the lips from painful ulcers; fitted plastic extruded coverings for braces for protecting the inside of the lips from painful ulcers; flavoured condoms; flavoured condoms; flea combs; flea combs; flea removal tools for medical purposes; flea removal tools for medical purposes; flexible medical endoscopes; flexible medical endoscopes; flow cytometers for medical diagnostic uses; flow cytometers for medical diagnostic uses; foam head positioners for surgical and medical use; foam head positioners for surgical and medical use; foam knee positioners for surgical and medical use; foam knee positioners for surgical and medical use; foam lateral leg positioners for surgical and medical use; foam lateral leg positioners for surgical and medical use; foam leg positioners for surgical and medical use; foam leg positioners for surgical and medical use; foam massage rollers; foam massage rollers; foot braces for medical purposes; foot braces for medical purposes; foot massage apparatus; foot massage apparatus; foot massagers; foot massagers; foot orthosis; foot orthosis; foot retractors for use in podiatric surgery; foot retractors for use in podiatric surgery; forceps; forceps; forceps elevators; forceps elevators; forceps for dental technical purposes; forceps for dental technical purposes; forceps for medical purposes; forceps for medical purposes; forceps for repositioning; forceps for repositioning; galvanic belts for medical purposes; galvanic belts for medical purposes; gamma cameras for medical purposes; gamma cameras for medical purposes; gastric lavage apparatus; gastric lavage apparatus; gastroscopes; gastroscopes; gene testing medical apparatus for identification of genus specific and species specific DNA and RNA sequences; gene testing medical apparatus for identification of genus specific and species specific DNA and RNA sequences; gloves for dental purposes; gloves

for dental purposes; gloves for massage; gloves for massage; gloves for medical examinations; gloves for medical examinations; gloves for medical purposes; gloves for medical purposes; gloves for medical use; gloves for medical use; gloves for protection against chemotherapy drugs and fentanyl exposure; gloves for protection against chemotherapy drugs and fentanyl exposure; gloves for use in hospitals; gloves for use in hospitals; gloves for veterinary purposes; gloves for veterinary purposes; glucose monitoring systems and meters for medical purposes; glucose monitoring systems and meters for medical purposes; graduated compression hosiery; graduated compression hosiery; grinding discs for dental applications; grinding discs for dental applications; grinding discs for dental purposes; grinding discs for dental purposes; grinding discs for dental use; grinding discs for dental use; grinding instruments for dental use; grinding instruments for dental use; guiding sheath for surgical purposes; guiding sheath for surgical purposes; gum massagers; gum massagers; gum massagers for babies; gum massagers for babies; gum stimulators for dental purposes; gum stimulators for dental purposes; gynecological dilators; gynecological dilators; gynecological medical instruments for characterising or measuring a women's reproductive organs; gynecological medical instruments for characterising or measuring a women's reproductive organs; gynecological medical instruments for examining women's reproductive organs; gynecological medical instruments for examining women's reproductive organs; haemocytometers; haemocytometers; haemoglobinometers; haemoglobinometers; haemostats; haemostats; hair prostheses; hair prostheses; hand and finger exercisers for therapeutic purposes; hand and finger exercisers for therapeutic purposes; hand braces for medical purposes; hand braces for medical purposes; hand-held massage rollers; hand-held massage rollers; hand-held mirrors for use in dental inspection; hand-held mirrors for use in dental inspection; hand-held percussion massagers; hand-held percussion massagers; hand-operated breast pumps; hand-operated breast pumps; handheld mirrors for use in dental inspection; handheld mirrors for use in dental inspection; haptic suits for medical purposes; haptic suits for medical purposes; health trusses; health trusses; hearing aids; hearing aids; hearing aids for the deaf; hearing aids for the deaf; hearing prostheses; hearing prostheses; hearing protection earmuffs; hearing protection earmuffs; hearing protection earmuffs used in shooting sports; hearing protection earmuffs used in shooting sports; hearing protection earmuffs used in the construction industry; hearing protection earmuffs used in the construction industry; hearing protection earpieces; hearing protection earpieces; hearing protection earpieces for remote communication; hearing protection earpieces for remote communication; hearing protection headsets; hearing protection headsets; hearing protection headsets for remote communication; hearing protection headsets for remote communication; heart monitors; heart monitors; heart monitors to be worn during exercise; heart monitors to be worn during exercise; heart pacemakers; heart pacemakers; heart rate monitors; heart rate monitors; heart rate recorders; heart rate recorders; heartbeat measuring apparatus; heartbeat measuring apparatus; heat lamps for medical purposes; heat lamps for medical purposes; heating cushions for medical purposes; heating cushions for medical purposes; heating packs for therapeutic purposes; heating packs for therapeutic purposes; heating pad inserts for use with back support braces powered by USB cables for medical purposes; heating pad inserts for use with back support braces powered by USB cables for medical purposes; heating pad inserts for use with knee support braces powered by USB cables for medical purposes; heating pad inserts for use with knee support braces powered by USB cables for medical purposes; heel pads for orthopaedic use; heel pads for orthopaedic use; heel supports for orthopaedic use; heel supports for orthopaedic use; heelpieces for orthopaedic purposes; heelpieces for orthopaedic purposes; hemocytometers; hemocytometers; hemodialysis catheters; hemodialysis catheters; hemodialysis equipment; hemodialysis equipment; hemoglobinometers; hemoglobinometers; hemostatic suture instruments; hemostatic suture instruments; hemostats; hemostats; hernia bandages; hernia bandages; high

density lipoprotein cholesterol testing apparatus for medical diagnostic purposes; high density lipoprotein cholesterol testing apparatus for medical diagnostic purposes; high filter surgical masks; high filter surgical masks; high frequency electromagnetic apparatus for esthetic use on the skin; high frequency electromagnetic apparatus for esthetic use on the skin; high frequency electromagnetic therapy apparatus; high frequency electromagnetic therapy apparatus; high frequency generators for medical purposes; high frequency generators for medical purposes; hip implants; hip implants; hip prostheses; hip prostheses; hoists for mobility-impaired persons; hoists for mobility-impaired persons; holders for feeding bottles; holders for feeding bottles; holders specially adapted for orthodontic retainers; holders specially adapted for orthodontic retainers; hoof casting tape for veterinary purposes; hoof casting tape for veterinary purposes; hooks for spondylolysis; hooks for spondylolysis; horsehair gloves for massage; horsehair gloves for massage; hospital beds; hospital beds; hospital beds and their parts; hospital beds and their parts; hospital bedside tables and their parts; hospital bedside tables and their parts; hospital enamelware; hospital enamelware; hospital gurneys; hospital gurneys; hot air vibrators for medical purposes; hot air vibrators for medical purposes; hot therapy wraps; hot therapy wraps; hydradermabrasion facial machine; hydradermabrasion facial machine; hydrogen inhalers; hydrogen inhalers; hydrophilic guide wire to track catheters; hydrophilic guide wire to track catheters; hydrophilic guidewires to track catheters; hydrophilic guidewires to track catheters; hydrostatic beds for medical purposes; hydrostatic beds for medical purposes; hyperbaric oxygen chambers for medical purposes; hyperbaric oxygen chambers for medical purposes; hypodermic needles; hypodermic needles; hypodermic syringes; hypodermic syringes; hypogastric belts; hypogastric belts; hysteroscopes; hysteroscopes; ice and thermal bags for medical purposes; ice and thermal bags for medical purposes; ice bag pillows for medical purposes; ice bag pillows for medical purposes; ice bags for medical purposes; ice bags for medical purposes; image sensors for medical purposes, namely, electronic sensor used to convert light into a digital image; image sensors for medical purposes, namely, electronic sensor used to convert light into a digital image; implant abutments for dental purposes; implant abutments for dental purposes; implant bridges for dental purposes; implant bridges for dental purposes; implant-supported bridges for dental purposes; implant-supported bridges for dental purposes; implantable cardioverter defibrillators (ICDs); implantable cardioverter defibrillators (ICDs); implantable drug delivery device; implantable drug delivery device; implantable drug delivery pumps; implantable drug delivery pumps; implantable loop recorders; implantable loop recorders; implantable nerve and muscle stimulator for health and medical purposes for the treatment of sleep apnea; implantable nerve and muscle stimulator for health and medical purposes for the treatment of sleep apnea; implantable ocular drug delivery devices; implantable ocular drug delivery devices; implantable scaffolds comprising artificial materials for maintaining tissue contour; implantable scaffolds comprising artificial materials for maintaining tissue contour; implantable subcutaneous drug delivery devices; implantable subcutaneous drug delivery devices; implantable wireless microsensors for use in the field of medicine; implantable wireless microsensors for use in the field of medicine; implants for use in bone grafting; implants for use in bone grafting; implants for use in facial surgery; implants for use in facial surgery; implants for use in jaw surgery; implants for use in jaw surgery; implants for use in jawbone surgery; implants for use in jawbone surgery; implants for use in oral surgery; implants for use in oral surgery; implants for use in tendons; implants for use in tendons; incontinence bed pads; incontinence bed pads; incontinence mattress protectors; incontinence mattress protectors; incontinence sheets; incontinence sheets; incubators for babies; incubators for babies; incubators for medical purposes; incubators for medical purposes; infant incubators; infant incubators; inflatable mattresses for medical purposes; inflatable mattresses for medical purposes; inflation devices for balloon catheters; inflation devices for balloon catheters; infrared lamps for medical purposes; infrared lamps for medical purposes; Infrared radiation detectors for

medical purposes; Infrared radiation detectors for medical purposes; infrared radiation scanners for medical purposes; infrared radiation scanners for medical purposes; infrared radiator units for therapeutic purposes; infrared radiator units for therapeutic purposes; infrared thermometers for medical purposes; infrared thermometers for medical purposes; infusion pumps; infusion pumps; inhaler with valved holding chamber used to improve the delivery of medication to the lungs; inhaler with valved holding chamber used to improve the delivery of medication to the lungs; inhalers containing cannabinoids for medical use; inhalers containing cannabinoids for medical use; inhalers for administering aerosol medications to a patient's respiratory system; inhalers for administering aerosol medications to a patient's respiratory system; inhalers for medical purposes sold empty; inhalers for medical purposes sold empty; inhalers for therapeutic use; inhalers for therapeutic use; injection needles; injection needles; injection needles for medical purposes; injection needles for medical purposes; injection needles for medical use; injection needles for medical use; injection syringes; injection syringes; injectors for medical purposes; injectors for medical purposes; inner cover for face masks for medical purposes; inner cover for face masks for medical purposes; inner cover for protective breathing masks for medical purposes; inner cover for protective breathing masks for medical purposes; inner cover for respiratory masks for medical purposes; inner cover for respiratory masks for medical purposes; inner cover for sanitary masks for medical purposes; inner cover for sanitary masks for medical purposes; insertable cardiac monitors; insertable cardiac monitors; insertion sleeves for breast augmentation, reduction, reconstruction and lift surgery; insertion sleeves for breast augmentation, reduction, reconstruction and lift surgery; instrument cases for use by doctors; instrument cases for use by doctors; instruments for use in gastrointestinal surgery; instruments for use in gastrointestinal surgery; instruments for use in prosthetic dentistry; instruments for use in prosthetic dentistry; instruments used in foot surgery; instruments used in foot surgery; insufflators; insufflators; insulin injectors; insulin injectors; insulin injectors sold empty; insulin injectors sold empty; insulin pens; insulin pens; insulin pens sold empty; insulin pens sold empty; insulin pumps; insulin pumps; insulin syringes; insulin syringes; intense pulsed light (IPL) hair removal devices for medical purposes, corded; intense pulsed light (IPL) hair removal devices for medical purposes, corded; intense pulsed light (IPL) hair removal devices for medical purposes, cordless; intense pulsed light (IPL) hair removal devices for medical purposes, cordless; internal nasal dilators; internal nasal dilators; interpupillometers; interpupillometers; intra-ocular lenses; intra-ocular lenses; intra-oral light systems; intra-oral light systems; intracardiac catheter; intracardiac catheter; intramedullary nails; intramedullary nails; intramedullary plugs; intramedullary plugs; intramedullary rods; intramedullary rods; intraocular implants for changing eye color made from artificial materials; intraocular implants for changing eye color made from artificial materials; intraocular lens biometers; intraocular lens biometers; intraocular lenses; intraocular lenses; intraocular lenses (iols) for use as a replacement for a patient's original lens; intraocular lenses (iols) for use as a replacement for a patient's original lens; intraocular prostheses [lenses] for surgical implantation; intraocular prostheses [lenses] for surgical implantation; intraocular prostheses in the nature of lenses for surgical implantation; intraocular prostheses in the nature of lenses for surgical implantation; intraocular prosthesis lenses for surgical implantation; intraocular prosthesis lenses for surgical implantation; intraocular prosthetic lenses for surgical implantation; intraocular prosthetic lenses for surgical implantation; intrauterine devices for contraception; intrauterine devices for contraception; intravascular implant medical devices made of artificial material; intravascular implant medical devices made of artificial material; intravenous administration sets; intravenous administration sets; intravenous bags sold empty for intravenous therapy; intravenous bags sold empty for intravenous therapy; intravenous catheters; intravenous catheters; intravenous drips; intravenous drips; intravenous feeding bottles; intravenous feeding bottles; intravenous feeding tubes; intravenous feeding tubes; intravenous poles; intravenous poles; intravenous solution stands; intravenous solution stands; intubation

boxes for medical purposes; intubation boxes for medical purposes; invalid hoists; invalid hoists; invalid lifts; invalid lifts; invalid walkers; invalid walkers; irrigation cannulae for laparoscopy; irrigation cannulae for laparoscopy; irrigators for medical purposes; irrigators for medical purposes; irrigators for medical use; irrigators for medical use; jade facial rollers; jade facial rollers; jet injection device; jet injection device; jet injectors for medical purposes; jet injectors for medical purposes; joint prostheses; joint prostheses; keratomes; keratomes; keratometers; keratometers; keratoscopes; keratoscopes; kinesiology tapes; kinesiology tapes; kinesiology tapes for medical purposes; kinesiology tapes for medical purposes; kinesiology tapes for physiotherapy purposes; kinesiology tapes for physiotherapy purposes; kits for testing sperm quality for home use comprised of medical diagnostic instruments for the analysis of body fluids; kits for testing sperm quality for home use comprised of medical diagnostic instruments for the analysis of body fluids; knee bandages, orthopaedic; knee bandages, orthopaedic; knee bandages, orthopedic; knee bandages, orthopedic; knee braces; knee braces; knee orthosis; knee orthosis; knee support braces; knee support braces; knee supports for medical purposes; knee supports for medical purposes; knives for medical use; knives for medical use; knives for surgical purposes; knives for surgical purposes; knives for surgical use; knives for surgical use; lamps for light therapy; lamps for light therapy; lamps for medical purposes; lamps for medical purposes; lancets; lancets; lanyards for holding sanitary face masks; lanyards for holding sanitary face masks; laryngeal masks; laryngeal masks; laryngoscopes; laryngoscopes; laser diode photocoagulators; laser diode photocoagulators; laser therapy helmets for treating alopecia; laser therapy helmets for treating alopecia; lasers for beauty therapy; lasers for beauty therapy; lasers for cosmetic purposes; lasers for cosmetic purposes; lasers for dental purposes; lasers for dental purposes; lasers for eye surgery; lasers for eye surgery; lasers for medical purposes; lasers for medical purposes; lasers for ophthalmic purposes; lasers for ophthalmic purposes; lasers for skin treatment; lasers for skin treatment; lasers for surgical and medical use; lasers for surgical and medical use; lasers for surgical use; lasers for surgical use; lasers for the cosmetic treatment of the face and skin; lasers for the cosmetic treatment of the face and skin; lasers for the cosmetic treatment of the face- skin- hair follicles; lasers for the cosmetic treatment of the face- skin- hair follicles; lasers for veterinary purposes; lasers for veterinary purposes; latex gloves for dental purposes; latex gloves for dental purposes; latex gloves for medical purposes; latex gloves for medical purposes; latex gloves for surgical purposes; latex gloves for surgical purposes; latex gloves for veterinary purposes; latex gloves for veterinary purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; LED masks for therapeutic purposes; LED masks for therapeutic purposes; lice combs; lice combs; lip retractors; lip retractors; lithotomical instruments; lithotomical instruments; lithotomy forceps; lithotomy forceps; lithotripsy devices for the treatment of gall stones; lithotripsy devices for the treatment of gall stones; lithotripsy devices for the treatment of kidney stones; lithotripsy devices for the treatment of kidney stones; lithotripters; lithotripters; love dolls; love dolls; low air loss mattresses for medical or therapeutic use; low air loss mattresses for medical or therapeutic use; low frequency electric therapy apparatus; low frequency electric therapy apparatus; low-frequency electromagnetic therapy apparatus; low-frequency electromagnetic therapy apparatus; luer lock needles for medical purposes; luer lock needles for medical purposes; luer tapers for medical purposes; luer tapers for medical purposes; lumbar belts; lumbar belts; lung forceps; lung forceps; magnetic bracelets for medical purposes; magnetic bracelets for medical purposes; magnetic field generators for medical purposes; magnetic field generators for medical purposes; magnetic orthopedic insoles for shoes; magnetic orthopedic insoles for shoes; magnetic resonance CT apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; magnetic resonance imaging

[MRI] apparatus for medical purposes; magnetic resonance imaging [MRI] apparatus for medical purposes; magnetic resonance imaging [MRI] scanners; magnetic resonance imaging [MRI] scanners; magnetic resonance imaging machines and instruments for medical purposes and structural and replacement parts therefor, namely, electrical coils, antennas and magnets; magnetic resonance imaging machines and instruments for medical purposes and structural and replacement parts therefor, namely, electrical coils, antennas and magnets; magnetic resonance tomography [MRT] apparatus; magnetic resonance tomography [MRT] apparatus; magnetic therapy insoles; magnetic therapy insoles; magnifying glasses, for medical examination purposes, that fit on the user's face in the manner of eyeglasses; magnifying glasses, for medical examination purposes, that fit on the user's face in the manner of eyeglasses; magnifying loupes for medical purposes; magnifying loupes for medical purposes; manual sputum aspirators; manual sputum aspirators; manually-operated resistance bands for physical therapy purposes; manually-operated resistance bands for physical therapy purposes; manually-operated resistance tubing for physical therapy purposes; manually-operated resistance tubing for physical therapy purposes; mask frames specially adapted for placement underneath sanitary masks for protection against viral infection; mask frames specially adapted for placement underneath sanitary masks for protection against viral infection; masks for use by medical and dental personnel; masks for use by medical and dental personnel; masks for use by medical personnel; masks for use by medical personnel; massage balls; massage balls; massage beds for medical purposes; massage beds for medical purposes; massage chairs; massage chairs; massage chairs with built-in massage apparatus; massage chairs with built-in massage apparatus; massage gloves; massage gloves; massage mats with built-in massage apparatus; massage mats with built-in massage apparatus; massage mats with built-in massage apparatus for use in vehicles; massage mats with built-in massage apparatus for use in vehicles; massage mitts; massage mitts; massage rollers; massage rollers; massage sticks; massage sticks; massage stones; massage stones; mastectomy bras for medical purposes; mastectomy bras for medical purposes; mastoid retractors; mastoid retractors; maternity belts; maternity belts; maternity support belts for medical purposes; maternity support belts for medical purposes; mattress topper for medical use; mattress topper for medical use; mattresses for hospital patient trolleys; mattresses for hospital patient trolleys; medical lamps; medical lamps; medical and surgical catheters; medical and surgical catheters; medical and surgical cutters for cutting human or animal tissue and organs; medical and surgical cutters for cutting human or animal tissue and organs; medical and surgical knives and cutters for cutting human or animal tissue and organs; medical and surgical knives and cutters for cutting human or animal tissue and organs; medical and surgical knives for cutting human or animal tissue and organs; medical and surgical knives for cutting human or animal tissue and organs; medical and surgical laparoscopes; medical and surgical laparoscopes; medical and surgical laparoscopes and catheters; medical and surgical laparoscopes and catheters; medical apparatus and instruments for amplifying nucleic acid DNA and RNA molecules; medical apparatus and instruments for amplifying nucleic acid DNA and RNA molecules; medical apparatus and instruments for cpap (continuous positive airway pressure) and bi-level therapy; medical apparatus and instruments for cpap (continuous positive airway pressure) and bi-level therapy; medical apparatus and instruments for the field of tissue viscoelasticity and steatosis detection; medical apparatus and instruments for the field of tissue viscoelasticity and steatosis detection; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus and instruments, namely a container with an applicator for applying the remedy for removing warts; medical apparatus and instruments, namely a container with an applicator for applying the remedy for removing warts; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical apparatus for intravenous administration of

fluids, namely, fluid warmers; medical apparatus for intravenous administration of fluids, namely, fluid warmers; medical apparatus for neurographic purposes namely, electrical stimulation apparatus for the mapping of nerves; medical apparatus for neurographic purposes namely, electrical stimulation apparatus for the mapping of nerves; medical apparatus for the treatment of obstructive sleep apnea; medical apparatus for the treatment of obstructive sleep apnea; medical apparatus for the treatment of sleep apnea, namely, an upper airway stimulator; medical apparatus for the treatment of sleep apnea, namely, an upper airway stimulator; medical apparatus, namely, a hand covering device to remove ticks, fleas and pests from humans and pets; medical apparatus, namely, a hand covering device to remove ticks, fleas and pests from humans and pets; medical apparatus, namely, an ear wash device in the nature of a container to be filled with appropriate fluid by the user for flushing ear wax from the ear; medical apparatus, namely, an ear wash device in the nature of a container to be filled with appropriate fluid by the user for flushing ear wax from the ear; medical bags designed to hold medical instruments; medical bags designed to hold medical instruments; medical balloons; medical balloons; medical boots for foot fractures and broken ankles; medical boots for foot fractures and broken ankles; medical care beds and their parts; medical care beds and their parts; medical catheters; medical catheters; medical clamps; medical clamps; medical compression bands for hips; medical compression bands for hips; medical compression bands for the chest; medical compression bands for the chest; medical compression bands for the torso; medical compression bands for the torso; medical compression body limb sleeves; medical compression body limb sleeves; medical compression stockings; medical compression stockings; medical compression stockings and tights; medical compression stockings and tights; medical compression tights; medical compression tights; medical device for analysing and measuring muscle pain; medical device for analysing and measuring muscle pain; medical device, namely adhesive patches, for menstrual pain relief; medical device, namely adhesive patches, for menstrual pain relief; medical device, namely, a pessary for the management of the symptoms of female stress urinary incontinence, urinary incontinence and prolapse of pelvic organs; medical device, namely, a pessary for the management of the symptoms of female stress urinary incontinence, urinary incontinence and prolapse of pelvic organs; medical devices and kits, namely, blood vessel occlusion balloons; medical devices and kits, namely, blood vessel occlusion balloons; medical devices for dosimetry purposes in the field of radiotherapy; medical devices for dosimetry purposes in the field of radiotherapy; medical devices for inter-vaginal use in administering a pharmaceutical agent, namely, a hormone, a spermicide, a protein, or a regenerative medicine; medical devices for inter-vaginal use in administering a pharmaceutical agent, namely, a hormone, a spermicide, a protein, or a regenerative medicine; medical devices for monitoring, measuring and displaying respiratory breathing patterns; medical devices for monitoring, measuring and displaying respiratory breathing patterns; medical devices for placing and securing catheters; medical devices for placing and securing catheters; medical devices for predicting and preventing respiratory dysfunction during breathing assistance; medical devices for predicting and preventing respiratory dysfunction during breathing assistance; medical devices for spinal disc repair in the nature of spinal disc implants made from artificial substances; medical devices for spinal disc repair in the nature of spinal disc implants made from artificial substances; medical devices for the prevention of female stress urinary incontinence, urinary incontinence and prolapse of pelvic organs; medical devices for the prevention of female stress urinary incontinence, urinary incontinence and prolapse of pelvic organs; medical devices for the qualitative detection of antibodies in human specimens collected as plasma or dried blood spots; medical devices for the qualitative detection of antibodies in human specimens collected as plasma or dried blood spots; medical devices for the qualitative detection of COVID-19 and other coronavirus antibodies in human specimens collected as plasma or dried blood spots; medical devices for the qualitative detection of COVID-19 and other

coronavirus antibodies in human specimens collected as plasma or dried blood spots; medical devices for use in diagnosing and treating ailments of the nose and throat; medical devices for use in diagnosing and treating ailments of the nose and throat; medical devices for use in diagnosing ear infections and disorders of the ear; medical devices for use in diagnosing ear infections and disorders of the ear; medical devices for use treating or diagnosing urinary incontinence and prolapse of pelvic organs; medical devices for use treating or diagnosing urinary incontinence and prolapse of pelvic organs; medical devices that deliver electrical fields to treat solid cancer tumors; medical devices that deliver electrical fields to treat solid cancer tumors; medical devices, namely dynamic lumbar supports and exoskeletons; medical devices, namely dynamic lumbar supports and exoskeletons; medical devices, namely, intravascular implants comprised of artificial material; medical devices, namely, intravascular implants comprised of artificial material; medical devices, namely, spinal cross connectors; medical devices, namely, spinal cross connectors; medical diagnostic apparatus for detecting biomarkers in eye fluid; medical diagnostic apparatus for detecting biomarkers in eye fluid; medical drainage tube; medical drainage tube; medical drainage tubes; medical drainage tubes; medical electrodes; medical electrodes; medical emergency airway apparatus bags, namely, medical bags specifically adapted to carry medical apparatus used for airways; medical emergency airway apparatus bags, namely, medical bags specifically adapted to carry medical apparatus used for airways; medical examination tables; medical examination tables; medical feeding tubes; medical feeding tubes; medical fluid connectors ; medical fluid connectors ; medical gloves; medical gloves; medical gloves and slips to aid in the dressing and undressing of compression garments; medical gloves and slips to aid in the dressing and undressing of compression garments; medical gowns; medical gowns; medical guidewires; medical guidewires; medical guidewires and parts and fittings therefor; medical guidewires and parts and fittings therefor; medical hearing instruments; medical hearing instruments; medical hearing instruments and parts of such devices; medical hearing instruments and parts of such devices; medical ice bag holders; medical ice bag holders; medical ice packs; medical ice packs; medical image processors; medical image processors; medical image processors for use in endoscopy procedures; medical image processors for use in endoscopy procedures; medical imaging transducers; medical imaging transducers; medical implant apparatus, namely, healing caps made of artificial matter; medical implant apparatus, namely, healing caps made of artificial matter; medical infusion pumps and parts and fittings therefor; medical infusion pumps and parts and fittings therefor; medical infusion pumps, and parts and fittings therefor; medical infusion pumps, and parts and fittings therefor; medical instrument stands; medical instrument stands; medical instrument tables; medical instrument tables; medical instruments bags; medical instruments bags; medical instruments for breast augmentation, reduction, reconstruction and elevation surgery; medical instruments for breast augmentation, reduction, reconstruction and elevation surgery; medical instruments for breast surgery; medical instruments for breast surgery; medical instruments for cutting tissue; medical instruments for cutting tissue; medical instruments for general examination; medical instruments for general examination; medical instruments for histotripsy of biological tissue; medical instruments for histotripsy of biological tissue; medical instruments for interstitial thermotherapy of biological tissue; medical instruments for interstitial thermotherapy of biological tissue; medical instruments for moxibustion therapy; medical instruments for moxibustion therapy; medical instruments for percutaneous tracheostomy; medical instruments for percutaneous tracheostomy; medical instruments for percutaneous tracheotomy; medical instruments for percutaneous tracheotomy; medical instruments for taking human blood, cell, saliva, urine and sputum sample specimens for medical purposes; medical instruments for taking human blood, cell, saliva, urine and sputum sample specimens for medical purposes; medical instruments for use in mri imaging; medical instruments for use in mri imaging; medical intra-vaginal device, for therapeutic purposes; medical intra-vaginal device, for therapeutic

purposes; medical introducers; medical introducers; medical kits comprising of medical tubing for image guided sonic beam therapy and parts therefor; medical kits comprising of medical tubing for image guided sonic beam therapy and parts therefor; medical kits comprising of medical tubing for use with ultrasound apparatus and parts therefor; medical kits comprising of medical tubing for use with ultrasound apparatus and parts therefor; medical microneedling devices; medical microneedling devices; medical microneedling devices to treat acne- scars and stretch marks; medical microneedling devices to treat acne- scars and stretch marks; medical moxa cones, medical moxa cigars and acupuncture needles for moxibustion therapy; medical moxa cones, medical moxa cigars and acupuncture needles for moxibustion therapy; medical nightstands and their parts; medical nightstands and their parts; medical operating lamps; medical operating lamps; medical patient treatment chairs; medical patient treatment chairs; medical procedure chairs; medical procedure chairs; medical procedure tables; medical procedure tables; medical respirators; medical respirators; medical robots for use in cognitive therapy for children; medical robots for use in cognitive therapy for children; medical robots with attached spoons for assisting physically disabled persons with eating; medical robots with attached spoons for assisting physically disabled persons with eating; medical scissors; medical scissors; medical screw connections; medical screw connections; medical scrubs being clothing; medical scrubs being clothing; medical shunts; medical shunts; medical slings; medical slings; medical specimen containers; medical specimen containers; medical specimen cups; medical specimen cups; medical spirometers; medical spirometers; medical spittoons; medical spittoons; medical stents; medical stents; medical stretchers; medical stretchers; medical support socks; medical support socks; medical support stockings; medical support stockings; medical support tights; medical support tights; medical thermometers; medical thermometers; medical tourniquets; medical tourniquets; medical tubing; medical tubing; medical tubing for administering drugs; medical tubing for administering drugs; medical tubing for irrigation purposes; medical tubing for irrigation purposes; medical tubing for transfusions; medical tubing for transfusions; medical tubing for use in vascular procedures; medical tubing for use in vascular procedures; medical ultrasound apparatus; medical ultrasound apparatus; medical vaporizers; medical vaporizers; medical ventilators; medical ventilators; medical waste containers for the disposal of needles and sharps; medical waste containers for the disposal of needles and sharps; medical wrist braces; medical wrist braces; medical x-ray apparatus; medical x-ray apparatus; medical, surgical and orthopaedic implants made of artificial materials; medical, surgical and orthopaedic implants made of artificial materials; medicinal catheters; medicinal catheters; menstrual cups; menstrual cups; mercury arc lamp units for therapeutic purposes; mercury arc lamp units for therapeutic purposes; microcurrent therapy device for the treatment of acne; microcurrent therapy device for the treatment of acne; microdebriders; microdebriders; microdermabrasion and hydrodermabrasion machines; microdermabrasion and hydrodermabrasion machines; microdermabrasion apparatus; microdermabrasion apparatus; microelectrical therapeutic apparatus for use in relieving pain namely, microelectronic neurostimulation apparatus for use in relieving pain; microelectrical therapeutic apparatus for use in relieving pain namely, microelectronic neurostimulation apparatus for use in relieving pain; microneedle dermal pens; microneedle dermal pens; microneedle dermal roller; microneedle dermal roller; microsensor probes for medical purposes; microsensor probes for medical purposes; microsensor probes for medical purposes for measuring the data of human body; microsensor probes for medical purposes for measuring the data of human body; milling instruments for dental use; milling instruments for dental use; mirrors for dentists; mirrors for dentists; mirrors for surgeons; mirrors for surgeons; mirrors used in dentistry; mirrors used in dentistry; mirrors used in surgery; mirrors used in surgery; mittens for medical purposes; mittens for medical purposes; mittens for medical use; mittens for medical use; mobile stretchers for carrying patients; mobile stretchers for carrying patients; mouth guards for dental purposes; mouth

guards for dental purposes; mouth guards for medical purposes; mouth guards for medical purposes; multi-drug testing cups for drug use testing purposes; multi-drug testing cups for drug use testing purposes; multishot needle syringes; multishot needle syringes; muscle stimulators; muscle stimulators; nasal air filters for dust isolation purposes; nasal air filters for dust isolation purposes; nasal air filters for germ isolation purposes; nasal air filters for germ isolation purposes; nasal air filters for pollen isolation purposes; nasal air filters for pollen isolation purposes; nasal air filters for pollution isolation purposes; nasal air filters for pollution isolation purposes; nasal air filters for sanitary purposes; nasal air filters for sanitary purposes; nasal aspirators; nasal aspirators; nasal cannula; nasal cannula; nasal dilators; nasal dilators; nasal filters for medical purposes; nasal filters for medical purposes; nasal irrigation vessel; nasal irrigation vessel; nebulisers for medical purposes; nebulisers for medical purposes; nebulizers for administering aerosol medications to a patient's respiratory system; nebulizers for administering aerosol medications to a patient's respiratory system; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of asthma; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of asthma; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of respiratory diseases; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of respiratory diseases; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of severe acute respiratory diseases; nebulizers for administering medication in the form of a mist inhaled into the lungs for the treatment of severe acute respiratory diseases; nebulizers for administering medication in the form of a mist inhaled into the nasal cavity; nebulizers for administering medication in the form of a mist inhaled into the nasal cavity; nebulizers for medical purposes; nebulizers for medical purposes; nebulizers for respiration therapy; nebulizers for respiration therapy; neck braces; neck braces; needle sheathes; needle sheathes; needleless connectors ; needleless connectors ; needles for injections; needles for injections; needles for medical purposes; needles for medical purposes; neural helmets for medical purposes; neural helmets for medical purposes; nipple hoods for baby nursers; nipple hoods for baby nursers; nipple protectors; nipple protectors; nipple shields; nipple shields; nipple shields for breastfeeding; nipple shields for breastfeeding; nipples for baby bottles; nipples for baby bottles; non-spill medicine spoons for infants; non-spill medicine spoons for infants; nuclear magnetic resonance imaging [NMRI] apparatus; nuclear magnetic resonance imaging [NMRI] apparatus; nurses' tweezers; nurses' tweezers; nursing bottles; nursing bottles; nystagmographs; nystagmographs; obstetric apparatus for cattle; obstetric apparatus for cattle; obstetric delivery bed; obstetric delivery bed; obstetric forceps; obstetric forceps; obstetric tables; obstetric tables; obstetrical forceps; obstetrical forceps; ocular implants; ocular implants; ocular implants made from artificial materials; ocular implants made from artificial materials; ocular speculums; ocular speculums; olfactory dysfunction screening device; olfactory dysfunction screening device; operating tables; operating tables; ophthalmic cameras for medical purposes; ophthalmic cameras for medical purposes; ophthalmic medical devices, namely, a needle-based injection system for delivery of pharmaceuticals to eye tissue; ophthalmic medical devices, namely, a needle-based injection system for delivery of pharmaceuticals to eye tissue; ophthalmometers; ophthalmometers; ophthalmoscopes; ophthalmoscopes; optometric autorefractors; optometric autorefractors; optometric instruments; optometric instruments; oral irrigators and oral cavity suction apparatus for suctioning irrigation agent to promote oral hygiene in patients; oral irrigators and oral cavity suction apparatus for suctioning irrigation agent to promote oral hygiene in patients; oral irrigators for use in dentistry; oral irrigators for use in dentistry; oropharyngeal airways [OPAs]; oropharyngeal airways [OPAs]; orthoses and artificial limbs; orthoses and artificial limbs; orthodontic aligners; orthodontic aligners; orthodontic appliances; orthodontic appliances; orthodontic braces; orthodontic braces; orthodontic brackets; orthodontic brackets; orthodontic headgear; orthodontic

headgear; orthodontic instruments for dental purposes; orthodontic instruments for dental purposes; orthodontic retainers; orthodontic retainers; orthodontic rubber bands; orthodontic rubber bands; orthokeratology lenses; orthokeratology lenses; orthopaedic bandages; orthopaedic bandages; orthopaedic bandages for joints; orthopaedic bandages for joints; orthopaedic belts; orthopaedic belts; orthopaedic braces; orthopaedic braces; orthopaedic cast padding; orthopaedic cast padding; orthopaedic cushions; orthopaedic cushions; orthopaedic exercise footwear; orthopaedic exercise footwear; orthopaedic foot bandages; orthopaedic foot bandages; orthopaedic footwear; orthopaedic footwear; orthopaedic hip prostheses; orthopaedic hip prostheses; orthopaedic implants; orthopaedic implants; orthopaedic inner soles incorporating arch supports; orthopaedic inner soles incorporating arch supports; orthopaedic inserts for footwear; orthopaedic inserts for footwear; orthopaedic insoles; orthopaedic insoles; orthopaedic insoles for the arch of the foot; orthopaedic insoles for the arch of the foot; orthopaedic insoles incorporating arch supports; orthopaedic insoles incorporating arch supports; orthopaedic joint implants; orthopaedic joint implants; orthopaedic joint implants made from artificial materials; orthopaedic joint implants made from artificial materials; orthopaedic pads for slippers; orthopaedic pads for slippers; orthopaedic shoes; orthopaedic shoes; orthopaedic slippers; orthopaedic slippers; orthopaedic soles; orthopaedic soles; orthopaedic splints; orthopaedic splints; orthopaedic support bandages; orthopaedic support bandages; orthopaedic support knee pads; orthopaedic support knee pads; orthopaedic supports for feet; orthopaedic supports for feet; orthopedic bandages for joints; orthopedic bandages for joints; orthopedic belts; orthopedic belts; orthopedic bone implants; orthopedic bone implants; orthopedic bone screws; orthopedic bone screws; orthopedic braces; orthopedic braces; orthopedic corsets; orthopedic corsets; orthopedic cushions; orthopedic cushions; orthopedic footwear; orthopedic footwear; orthopedic gel cushion insoles for shoes; orthopedic gel cushion insoles for shoes; orthopedic girdles; orthopedic girdles; orthopedic hip prostheses; orthopedic hip prostheses; orthopedic prostheses for knees; orthopedic prostheses for knees; orthopedic seat cushions; orthopedic seat cushions; orthopedic soles; orthopedic soles; orthopedic suspenders; orthopedic suspenders; orthopedic training shoes; orthopedic training shoes; orthotic inserts for footwear; orthotic inserts for footwear; orthotic insoles; orthotic insoles; orthotics for the feet; orthotics for the feet; orthotics for the hands; orthotics for the hands; osseous implants; osseous implants; osseous implants made of artificial materials; osseous implants made of artificial materials; ostomy belts; ostomy belts; ostomy flanges used with pouching systems; ostomy flanges used with pouching systems; ostomy pouch covers; ostomy pouch covers; ostomy pouches; ostomy pouches; ostomy wraps; ostomy wraps; otoscopes; otoscopes; overhead operating room theater lights; overhead operating room theater lights; oxygen concentrators for medical purposes; oxygen concentrators for medical purposes; oxygen masks for medical purposes; oxygen masks for medical purposes; oxygen monitors; oxygen monitors; oxygen monitors for medical purposes; oxygen monitors for medical purposes; oxygenators for medical use; oxygenators for medical use; ozone generators for use in administering ozone therapy; ozone generators for use in administering ozone therapy; ozone monitors for use in administering ozone therapy; ozone monitors for use in administering ozone therapy; pacifier clips; pacifier clips; pacifier cloth for attachment to infant pacifiers; pacifier cloth for attachment to infant pacifiers; pacifiers for babies; pacifiers for babies; padded cushions for medical purposes; padded cushions for medical purposes; padding for orthopaedic casts; padding for orthopaedic casts; padding for orthopedic casts; padding for orthopedic casts; pads for medical use adapted for wheelchair seats; pads for medical use adapted for wheelchair seats; pads for preventing pressure sores on patient bodies; pads for preventing pressure sores on patient bodies; pain relief magnets; pain relief magnets; palatal expanders; palatal expanders; papillotomes; papillotomes; parts and components of dialysis machines; parts and components of dialysis machines; patient examination gowns; patient examination gowns; patient examination tables; patient examination tables; patient fluid

flow meters specially adapted for intravenous (IV) bags to detect emptying speed; patient fluid flow meters specially adapted for intravenous (IV) bags to detect emptying speed; patient fluid flow meters specially adapted for urine collection bags for medical purposes to detect filling speed; patient fluid flow meters specially adapted for urine collection bags for medical purposes to detect filling speed; patient hoists; patient hoists; patient lifts; patient lifts; patient medical monitors for monitoring blood pressure; patient medical monitors for monitoring blood pressure; patient medical monitors for monitoring cardiac activity; patient medical monitors for monitoring cardiac activity; patient medical monitors for monitoring CO2; patient medical monitors for monitoring CO2; patient medical monitors for monitoring electrocardiography; patient medical monitors for monitoring electrocardiography; patient medical monitors for monitoring fetus heart rate; patient medical monitors for monitoring fetus heart rate; patient medical monitors for monitoring gastrointestinal disorders; patient medical monitors for monitoring gastrointestinal disorders; patient medical monitors for monitoring heart rate; patient medical monitors for monitoring heart rate; patient medical monitors for monitoring lung function; patient medical monitors for monitoring lung function; patient medical monitors for monitoring temperature; patient medical monitors for monitoring temperature; patient medical monitors for monitoring vital signs; patient medical monitors for monitoring vital signs; patient safety restraint straps; patient safety restraint straps; patient safety restraints; patient safety restraints; patient stretchers; patient stretchers; patient walkers; patient walkers; patient x-ray radiation shields; patient x-ray radiation shields; peak flow meters; peak flow meters; pediatric breathing masks for medical purpose; pediatric breathing masks for medical purpose; pelvic clamps; pelvic clamps; pelvimeters; pelvimeters; pelvis correction belts; pelvis correction belts; pelvis correction belts for lumbago treatment; pelvis correction belts for lumbago treatment; pen needles for the subcutaneous injection of medications; pen needles for the subcutaneous injection of medications; penis pumps; penis pumps; percussion hammers; percussion hammers; percussion hammers for diagnostic purposes; percussion hammers for diagnostic purposes; periodontal probes; periodontal probes; periosteal elevators; periosteal elevators; peripheral coils for intravascular embolization procedures; peripheral coils for intravascular embolization procedures; personal protective face shields for medical use; personal protective face shields for medical use; personal vibrators; personal vibrators; pessaries; pessaries; pest removal tools for medical purposes; pest removal tools for medical purposes; phlebectomy hooks; phlebectomy hooks; photosensors for medical use; photosensors for medical use; phototherapeutic apparatus for medical purposes; phototherapeutic apparatus for medical purposes; physiotherapeutic apparatus for tissue and organs adjuvant therapy; physiotherapeutic apparatus for tissue and organs adjuvant therapy; pill crushers; pill crushers; pill cutters; pill cutters; pill distributor and organizer boxes for medical purposes; pill distributor and organizer boxes for medical purposes; pillows for medical purposes; pillows for medical purposes; pillows for orthopedic use; pillows for orthopedic use; pins for artificial teeth; pins for artificial teeth; plaster bandages for orthopaedic purposes; plaster bandages for orthopaedic purposes; plaster bandages for orthopedic purposes; plaster bandages for orthopedic purposes; plaster casts for orthopaedic purposes; plaster casts for orthopaedic purposes; plastic bags for transmitting medical specimens; plastic bags for transmitting medical specimens; plastic teething rail covers for babies; plastic teething rail covers for babies; plastic thumb covers to discourage thumb sucking; plastic thumb covers to discourage thumb sucking; plates for dental use; plates for dental use; platinum cauteries for surgical use; platinum cauteries for surgical use; pocket mobile male urine collection device comprised of a plastic bag filled with a gelling agent that solidifies urine on contact; pocket mobile male urine collection device comprised of a plastic bag filled with a gelling agent that solidifies urine on contact; podiatry burs; podiatry burs; polymer film for medical purposes for water or liquid containment for use with patients; polymer film for medical purposes for water or liquid containment for use with patients; polymer film for used as a protective germ barrier for surgical,

medical and veterinary instruments; polymer film for used as a protective germ barrier for surgical, medical and veterinary instruments; polymer film for used as a protective germ barrier for surgical, medical and veterinary instruments; polymerase chain reaction (PCR) tests for the detection of viruses in humans; polymerase chain reaction (PCR) tests for the detection of viruses in humans; polymerase chain reaction (PCR) tests for the detection of viruses in humans; polymerisation apparatus for dental purposes; polymerisation apparatus for dental purposes; polymerisation apparatus for dental purposes; portable devices used for endogenous breathing exercises and for respiratory muscle training; portable devices used for endogenous breathing exercises and for respiratory muscle training; portable devices used for endogenous breathing exercises and for respiratory muscle training; portable earpicks with endoscopy function; portable earpicks with endoscopy function; portable earpicks with endoscopy function; portable hand-held urinals; portable hand-held urinals; portable hand-held urinals; portable medical container for organ and tissue transportation and preservation; portable medical container for organ and tissue transportation and preservation; portable medical container for organ and tissue transportation and preservation; portable medical hypothermic container for organ and tissue transportation and preservation; portable medical hypothermic container for organ and tissue transportation and preservation; portable medical hypothermic container for organ and tissue transportation and preservation; portable medical hypothermic container for organ and tissue transportation and preservation; portable medical temperature regulating container for organ and tissue transportation and preservation; portable medical temperature regulating container for organ and tissue transportation and preservation; portable medical temperature regulating container for organ and tissue transportation and preservation; portable medical temperature regulating container for organ and tissue transportation and preservation; portable oxygen concentrators for medical purposes; portable oxygen concentrators for medical purposes; portable oxygen concentrators for medical purposes; portable plastic urinary device enabling women to stand while urinating; portable plastic urinary device enabling women to stand while urinating; portable plastic urinary device enabling women to stand while urinating; portable sound machines for sleep; portable sound machines for sleep; portable sound machines for sleep; post-natal girdles for medical purposes; post-natal girdles for medical purposes; post-natal girdles for medical purposes; post-operative chest support harnesses; post-operative chest support harnesses; post-operative chest support harnesses; post-operative chest support vests; post-operative chest support vests; post-operative chest support vests; post-operative pressure garments; post-operative pressure garments; post-operative pressure garments; post-surgical bras for medical purposes; post-surgical bras for medical purposes; post-surgical bras for medical purposes; post-surgical girdles for medical purposes; post-surgical girdles for medical purposes; post-surgical girdles for medical purposes; postoperative bra straps; postoperative bra straps; postoperative bra straps; pouches specially adapted for holding pacifiers; pouches specially adapted for holding pacifiers; pouches specially adapted for holding pacifiers; powered bath lifts for mobility-impaired people; powered bath lifts for mobility-impaired people; powered bath lifts for mobility-impaired people; pregnancy girdles for medical purposes; pregnancy girdles for medical purposes; pregnancy girdles for medical purposes; pressure garments for medical purposes; pressure garments for medical purposes; pressure garments for medical purposes; pressure relief mattresses; pressure relief mattresses; pressure relief mattresses; pressure relief pads and cushions; pressure relief pads and cushions; pressure relief pads and cushions; programmable hearing prostheses; programmable hearing prostheses; programmable hearing prostheses; prophylaxis angles; prophylaxis angles; prophylaxis angles; prophylaxis angles; prophylaxis angles; prostate stimulators; prostate stimulators; prostate stimulators; prosthetic instruments for dental purposes; prosthetic instruments for dental purposes; prosthetic instruments for dental purposes; prosthetic ligaments; prosthetic ligaments; prosthetic ligaments; prosthetic limbs; prosthetic limbs; prosthetic limbs; prosthetic sockets used to fasten prosthetic limbs to the body; prosthetic sockets used to fasten prosthetic limbs to the body; prosthetic sockets used to fasten prosthetic limbs to the body; prosthetic tissues for parietal use;

Colour Claim

Colour is claimed as a feature of the trademark. The lettering of WINSTON'S TRAVEL is gold. The two lines underneath the lettering of WINSTON'S TRAVEL are gold. The colouring of the Olde English Bulldogge is as follows: his head is brown with a white blaze running from his forehead to the top of his snout and then down the left side of his upper lip to his jowl; the right of his snout and jowl is a light brown; his nostrils are a pinkish brown; his upper chin is a pinkish brown and his lower chin to his throat is white; his eyes are brown with gold irises; his inner ears are a pinkish brown; his legs are a tawny brown with white paws. His tuxedo jacket is black with a black bow tie and his tuxedo shirt is white. The Olde English Bulldogge is standing on a gray floor in front of a dark blue wall having a grid pattern in darker blue and with a map superimposed on the upper left of the wall. On the left, behind the Olde English Bulldogge are three burgundy attache cases with gold hardware in a stack on the gray floor. On top of the stacked attache cases is a burnt orange globe with a golden stand and support. Superimposed on the upper right-hand side of the wall is a white jetliner having black engine nacelles, black cockpit window, black cabin windows, and a black horizontal trim line running from the nose of the jetliner to the rear approximately one-third of the way up from the bottom of the jetliner. Beneath the jetliner is a cruise ship having a single gold

engine funnel topped in black, with the lower hull in black with a horizontal red plimsoll line, and gold upper trim line, with the upper superstructure of the cruise ship in white with black windows and port holes and bridge windows and having two lifeboats in red on the port side.

unmanned aerial vehicles; camera straps; camera sunshades; camera systems for drones; camera tripods; cameras; cameras for inspecting underground infrastructures; cameras for monitoring and inspecting equipment in a nuclear power station; cameras for self-developing film; cameras for self-developing films; cameras for smartphones; cameras shutters; cameras with linear image sensors; cameras, electric door bells; candy thermometers; capacitance boxes; capacitance meters; capacitive finger sleeves for touchscreen devices; capacitive micromachined ultrasonic transducers, not for medical use; capacitive pens for touch screen devices; capacitive styluses for touch screen devices; capacitor modules; capacitor switches; capacitors; capillary tubes; capillary tubes for laboratory use; car aerials; car antennas; car batteries; car broadcasting tuners; car cassette players; car chargers for devices that are used for heating tobacco; car chargers for electronic cigarettes; car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands free; car navigation computers; car radios; car stereos; car televisions; car video recorders; car videorecorders; carbon dioxide detectors; carbon dioxide discharge valves for use in fire suppression systems; carbon dioxide feeders for treating water by automatically injecting a predetermined concentration of carbonic acid solution for ph control; carbon monoxide detectors; carbon nanotubes for use in extremely small scale electronic and mechanical applications; card punching and sorting machines for data processing; card readers for credit cards; card readers for magnetically encoded cards; card reading equipment; carpenter's levels; carpenters' folding rules; carpenters' rules; carrying cases adapted for compact discs (CDs); carrying cases adapted for computers; carrying cases and containers for contact lenses; carrying cases for cell phones; carrying cases for cellular phones; carrying cases for contact lenses; carrying cases for contact lenses, cases for contact lenses, contact lens blanks, contact lens cases, contact lens containers, contact lenses, containers for contact lenses, optical lenses, sunglasses, eyeglasses; carrying cases for digital music players; carrying cases for document printers; carrying cases for mobile telephones; carrying cases for notebook computers; carrying cases for portable music players; carrying cases for radio pagers; carrying cases for tablets; carrying cases specially adapted for computer printers; cases adapted for anti-pollution masks for respiratory protection; cases adapted for camcorders; cases adapted for cameras; cases adapted for CD players; cases adapted for cellular phones; cases adapted for compact disc players; cases adapted for computers; cases adapted for dust protective masks; cases adapted for DVD players; cases adapted for holding smartwatches; cases adapted for mobile phones; cases adapted for mobile telephones; cases adapted for MP3 players; cases adapted for netbook computers; cases adapted for notebook computers; cases adapted for photographic equipment; cases adapted for respiratory masks for the prevention of accident or injury; cases adapted for sunglasses; cases adapted for video cameras; cases and covers for cameras; cases and covers for cellular phones; cases and covers for laptops; cases and covers for MP3 players; cases fitted for dissecting instruments; cases for binoculars; cases for children's eye glasses; cases for children's spectacles; cases for compact discs; cases for compact discs and DVDs; cases for contact lenses; cases for digital media players; cases for diskettes; cases for diskettes and compact disks; cases for earphones and headphones; cases for electronic diaries; cases for eyeglasses; cases for eyeglasses and sunglasses; cases for floppy disks; cases for goggles for sports; cases for laptops; cases for mobile phones; cases for MP3 players; cases for personal digital assistant; cases for personal digital assistants; cases for photographic cameras; cases for pince-nez; cases for pocket calculators; cases for satellite navigation devices; cases for smartphones; cases for snow goggles; cases for spectacles; cases for spectacles and sunglasses; cases for spectacles, for pince-nez and for contact lenses; cases for sunglasses; cases for tablet computers; cases for telephones; cases for video cameras; cash dispensing machines; cash dispensing machines for making change and for exchange of coins to cash; cash exchanging machines; cash registers; casino management software; cassette players; cassette players for cars; cassette recorders; cassette

tape players; casualty mannequins for medical professionals; catchers' helmets; cathode ray tubes; cathode-ray tubes; cathodes; cathodes for use in water electrolyzers; CD burners; CD cases; CD drives for computers; CD music recordings; CD players; CD sleeves; CD storage wallets; cd-rom drives; CD-ROM writers; CD-ROMs containing computer games; CD-ROMs containing electronic telephone directories; CD-ROMs containing encyclopedias; CD-ROMs containing music; CDs containing audio recordings of dramatic performances; CDs containing audio recordings of live comedic performances; CDs containing audio recordings of live musical performances; cell culture microplates; cell phone antennas; cell phone auxiliary cables; cell phone backplates; cell phone bag; cell phone batteries; cell phone battery chargers; cell phone battery chargers for use in vehicles; cell phone cases; cell phone cases made of leather or imitations of leather; cell phone covers; cell phone faceplates; cell phone holders; cell phone neck-straps; cell phone protective skins; cell phone screens; cell phone straps; cell phone wallets; cell phones; cellular phone batteries; cellular phone battery charger for use in vehicles; cellular phone battery chargers for use in vehicles; cellular phone cases; cellular phone cases made of leather or imitations of leather; cellular phone covers made of cloth or textile materials; cellular phone straps; cellular phone transmission towers; cellular phones; cellular radio modules; cellular telephone batteries; cellular telephone covers made of cloth or textile materials; cellular telephone straps; cellular telephones; cellular television towers; cement testing machines; central processing unit (CPU) boards; central processing unit (cpu) coolers; central processing unit [CPU] clocks; central processing unit [CPU] coolers; central processing unit [CPU] fans; central processing unit coolers; central processing units; central processing units for wearable computer hardware; centrifuge tubes for laboratory use; centrifuges for laboratory use; centrifuges used as laboratory apparatus; chains and cords for sunglasses; chains for eyeglasses; chains for eyeglasses and sunglasses; chains for pince-nez; chains for spectacles; chains for spectacles and for sunglasses; chains for sunglasses; change-over switches for telecommunication apparatus; changeover switches for telecommunication apparatus; chaps for protection against accident or injury; charge meters; charge regulators for electric vehicles; charge-coupled devices (CCD); chargers for alkaline batteries; chargers for all-solid-state batteries; chargers for C-cell batteries; chargers for cell phones; chargers for electric accumulators; chargers for electric batteries for electric vehicles; chargers for electric toothbrushes; chargers for electronic cigarettes; chargers for general purpose batteries; chargers for mobile telephones; charging carts for tablets and laptops; charging stations for electric shopping carts; charging stations for electric vehicles; charging stations for electronic cigarettes; charging stations for hybrid cars; charging trolleys for tablets and laptops; chemical exposure protective clothing; chemical exposure protective footwear; chemical vapor deposition apparatus for use in research; chemical vapor deposition apparatus for use in scientific laboratory research; chemical vapor deposition laboratory vacuum for use in scientific research; cheque encoding machines; chess timers; children's educational music CDs and DVDs; children's eye glasses; children's eyeglasses; children's spectacles; chin straps for American football helmets; chin straps for athletic use; chin straps for baseball batting helmets; chin straps for baseball helmets; chin straps for football helmets; chin straps for helmets for motorcyclists; chin straps for hockey helmets; chin straps for softball helmets; chip card readers; chip carriers, namely, semiconductor chip housings; chip coils; chip multiprocessors; chipsets for connecting multimedia home devices, home and VoIP phones and digital cordless phone devices; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; chromatography columns for laboratory use; chronographs for use as specialized time recording apparatus; cine cameras; cine projectors; cinematographic cameras; cinematographic projectors; circuit boards; circuit boards provided with integrated circuits; circuit breaker panel boards; circuit breakers; circuit breakers and circuit closers; circuit testers; circuits for heavy current; circular slide rules; clamp meters for measuring electric current; clamp meters for measuring electricity; clapperboards; cleaning

cartridges for photocopy machines and computer printers; cleaning discs for cleaning the lens of optical disc drives used in computers and digital video recorders; clear protective covers adapted for cellular phones; clear protective covers adapted for mobile phones; clear protective covers adapted for MP3 players; clear protective covers adapted for personal digital assistants; clear protective covers adapted for smartphones; clickers for training dogs; clickers for training pets; climate control digital thermostats; clinical centrifuges; clinical decision support software and application; clinometers; clinometers for measuring of angles and slopes; clip-on flashing safety lights; clips for holding smart phone cables; clock generators; clock generators for computers; close-up lenses for cameras; closed captioning glasses; closed circuit television; closed circuit television cameras; cloth helmet pinnies for use in sporting events specially fitted for helmets; clothing and gloves for use in welding for protection against accidents or injury; clothing for protection against accidents; clothing for protection against accidents, irradiation and fire; clothing for protection against biological hazards; clothing for protection against chemicals; clothing for protection against chemicals and radiation; clothing for protection against fire; clothing for protection against injury; clothing for protection against irradiation; clothing for protection against radiation; clothing incorporating LEDs, for the prevention of accidents; clothing to protect from abrasion and impacts; cloud servers; cloud storage gateways; CMOS Image Sensor; coaxial attenuators; coaxial cable splitters; coaxial cables; coaxial cables incorporating filters; coaxial connection gender changers; coaxial relays; cocktail jiggers; cocktail measuring cups; coelostats; coffee densitometers; coin and banknote proofing machines; coin batteries for consumer electronic devices; coin changers; coin counting and sorting machines; coin counting machines; coin sorters; coin sorting machines; coin-operated mechanisms for arcade games; coin-operated mechanisms for arcade slot machines; coin-operated mechanisms for computer games and video games; coin-operated mechanisms for machines that provide betting services; coin-operated mechanisms for operating gates for car parking lots; coin-operated mechanisms for operating photo booths; coin-operated mechanisms for photo booths; coin-operated mechanisms for television sets; coin-operated mechanisms for vending machines; coin-operated musical automata; collimators; color blindness correction glasses; color filters for liquid crystal displays; color filters for television and motion picture film cameras; color laser printers; color separation film; colorimeters; coloring and drawing computer programs featuring learning activities of creative expression for children; colour blindness correction glasses; colour filters for liquid crystal display [LCD] screens; colour filters for television and cinematographic cameras; colour filters for television and motion picture film cameras; colour laser printers; colour printers; colour separation films; combination antennas; combination carbon monoxide and smoke detectors; combination video players and recorders; combustible gas concentration detectors; combustion boats for laboratory use; combustion spoons for laboratory use; communication modems; communication software namely, video and audio conferencing software; communication software to access data stored on an oximeter and transfer data to another device; communication software to allow players access to play, rate, and discuss casino and gambling games; communications computers; communications software for monitoring and managing electrical charging stations and networks; compact digital cameras; compact disc boxes; compact disc cases; compact disc drives for computers; compact disc players; compact disc recorders; compact discs containing computer games; compact discs containing encyclopedias; compact discs containing music; compact discs featuring music; compact discs featuring music and spoken word in the form of poetry; compact disks containing instruction manuals in welding; comparators; compiler software; component parts of batteries, namely, vent caps; component video cables; compressed air bailout units for diving; computed radiography phosphor scanners not for medical use; computer accelerator boards; computer anti-virus software; computer application software for accessing an online marketplace for buyers and sellers of goods and services; computer application software for handheld computers that allow users to

access and browse available nearby housing resources; computer application software for handheld computers that allows users to access and browse online profiles of pet care service providers; computer application software for live streaming user-generated audio and video messages on an online social networking portal via the internet; computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and to receive alert notifications; computer application software for mobile phones for use in database management; computer application software for mobile phones that allow users to access and browse available nearby housing resources; computer application software for mobile phones that allows users to access and browse online profiles of pet care service providers; computer application software for mobile phones that allows users to remotely manage and control advertisements on electronic advertising displays; computer application software for mobile phones to allow users to view menu selections and pay for orders by scanning a quick response code; computer application software for mobile phones, namely, software for logistics management in the fields of freight, supply chain and transportation; computer application software for online chatting and messaging; computer application software for operating multi function printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating photocopiers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for operating printers and inkjet printers from mobile telephones, tablet computers, handheld computers, and personal digital assistants; computer application software for processing and analysis of magnetic resonance imaging (MRI); computer application software for providing access to an online database containing information in the field of laundry; computer application software for route planning and driver assistance, for use on mobile phones, portable media players, handheld computers and in automobiles; computer application software for searching, retrieving, viewing, booking, renting and leasing of meeting rooms; computer application software for searching, retrieving, viewing, booking, renting and leasing of office space; computer application software for searching, retrieving, viewing, booking, renting and leasing of real estate; computer application software for searching, retrieving, viewing, booking, renting and leasing of workspace; computer application software for smart phones, tablets and handheld computers, namely, software for users to obtain, access and coordinate physical fitness training; computer application software for streaming audio-visual media recordings featuring topics of instruction in the field of material science via the internet; computer application software for streaming audio-visual media recordings featuring topics of instruction in the fields of mechanical engineering, chemical engineering and electrical engineering via the internet; computer application software for tablet devices that allow users to access and browse available nearby housing resources; computer application software for tablet devices that allows users to access and browse online profiles of pet care service providers; computer application software for use in making reservations of laundry washing machines; computer application software for use with mobile phones that enables users to search and retrieve environmental information on interactive electronic map; computer application software in playing video and computer games; computer application software that gives computer users the ability to upload, exchange and share videos via the internet; computer application software to access casino services, gambling services and betting services; computer application software to allow merchants to manage and track customer payments, track staff performance, and create promotional campaigns; computer application software to allow users to perform online payment transactions; computer assisted medical interventions information database recorded on computer media; computer bags; computer buffers; computer cables; computer card adapters; computer carrying cases; computer cases; computer central processing units; computer chassis; computer chatbot software for simulating conversations; computer chips; computer chipsets for use in digital subscriber line [DSL] data

transmission systems; computer chipsets for use in transmitting data to and from a central processing unit; computer circuit boards; computer communications software to allow customers to access bank account information and transact bank business; computer communications software to allow users to book appointments and conduct video conferences; computer database servers; computer daughterboards; computer digital maps; computer digital maps and software for gps navigation receivers; computer digital maps and software for radio transceivers; computer digital maps and software for wireless telephones; computer disc drives; computer disk drives and drivers; computer disk/disc drives; computer display monitors; computer display screens; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer expansion boards; computer fax modem cards; computer fingerprint imaging software; computer fingerprint scanning software; computer firewall software; computer firmware for programming of function of hardware computer network; computer firmware for remote monitoring of function of hardware and computer network; computer firmware for the delivery of automated business processes in the field of customer relationship management; computer firmware for use in customer relationship management; computer firmware for use in the delivery of automated business processes in the field of financial investment services; computer game cartridges; computer game cartridges and discs; computer game cassettes; computer game discs; computer game programmes; computer game programs; computer game programs downloadable via the Internet; computer game software; computer game software downloadable from a global computer network; computer game software for game machines; computer game software for playing online betting games; computer game software for playing online casino games; computer game software for playing online gambling games; computer game software for playing online games of skill; computer game software for playing online lottery games; computer game software for playing online prize games; computer game software for use on cellular phones; computer game software for use on handheld computers and tablet computers; computer game software for use on mobile and cellular phones; computer game software for use on mobile phones; computer game software, downloadable; computer game software, recorded or downloadable; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on cell phones and other handheld wireless devices; computer games for use on gaming machines; computer games for use on mobile and cellular phones; computer games for use on notebook computers; computer games for use on personal computers; computer games for use on slot machines; computer games for use on tablet computers; computer games for use on video lottery terminals; computer games for use with computers; computer games in the field of basketball; computer gaming software for recreational game playing purposes; computer glasses being anti-blue light eyeglasses; computer graphics boards; computer graphics cards; computer hard drive enclosures; computer hardware; computer hardware and computer network servers for conducting financial transaction; computer hardware and computer software for database management; computer hardware and computer software for retail inventory management, sold as a unit; computer hardware and downloadable software for human biometric data collection using sensors for medical use; computer hardware and downloadable software for receiving, processing, transmitting, and displaying data from medical testing devices, namely, in vitro diagnostic devices; computer hardware and downloadable software systems for detecting traffic in real time; computer hardware and embedded operating software for automating, managing, and controlling the production of mushrooms; computer hardware and software and sensors for controlling and regulating engine, clutch and transmission functions in order to optimize fuel consumption in land vehicles; computer hardware and software for charging electric storage batteries and electric batteries for vehicles; computer hardware and software for charging electric vehicle batteries; computer hardware and software for controlling and regulating activation and deactivation of a freewheel function in order to reduce fuel consumption

in land vehicles; computer hardware and software for database management; computer hardware and software for processing digital music files; computer hardware and software for processing financial payments for electric vehicle charging stations; computer hardware and software for processing financial payments for electricity; computer hardware and software for setting up and configuring local area networks; computer hardware and software for setting up and configuring wide area networks; computer hardware and software for the management of child care businesses; computer hardware and software system for tracking people and pets using GPS data on a device on the tracked people and pets; computer hardware and software to view virtual images in augmented reality; computer hardware device for hologram projection; computer hardware for accessing, transmitting and displaying audio-visual data between digital media streaming devices and televisions and monitors; computer hardware for cryptocurrency mining; computer hardware for data processing; computer hardware for network access servers; computer hardware for supply chain management systems; computer hardware for telecommunications; computer hardware for tracking driver behavior; computer hardware for tracking driver behaviour; computer hardware for use in accessing, viewing and controlling streaming and static audiovisual content over digital media streaming devices; computer hardware for use in unmanned aerial vehicles (UAVs); computer hardware linking paint mixing scales with colour management computer software for industrial use; computer hardware memory modules for use in electronic devices using the internet of things; computer hardware modules for use in electronic devices using the internet of things; computer hardware to allow users to perform electronic business transactions via a global computer network; computer hardware, namely, wireless network extenders; computer hardware, namely, wireless network repeaters; computer heat sinks; computer housings; computer interface boards; computer interface cards; computer keyboard covers; computer keyboard keycaps; computer keyboards; computer keypads; computer memory boards; computer memory expansion modules; computer mice; computer monitor arms; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards; computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating software for operating set-top boxes and digital video recorders and players; computer operating software for x-ray screening in the field of security; computer operating system interface software; computer operating system programs for wearable electronic devices; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer power supplies plug adapters protective films adapted for smartphones; computer printers; computer program for the compilation of credit reporting data; computer programmes for document management; computer programmes for printing purposes; computer programming software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer programs (cad/cam) designed for use in construction and automated manufacturing; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs featuring badges for use in online virtual worlds; computer programs featuring characters for use in online virtual worlds; computer programs featuring clothes and accessories for use in online virtual worlds; computer programs featuring emojis for use in online virtual worlds; computer programs featuring food for use in online virtual worlds and food ordering and delivery in the real world; computer programs featuring Proof of Attendance Protocols (POAPs) and non-fungible token (NFT) badges; computer programs featuring stickers for use in online virtual worlds; computer programs featuring virtual beauty products being cosmetics for use

in an online virtual world; computer programs featuring virtual beauty products being skin care preparations for use in an online virtual world; computer programs featuring virtual beauty products being skin care preparations, sun care preparations and cosmetics for use in an online virtual world; computer programs featuring virtual beauty products being sun care preparations for use in an online virtual world; computer programs for accessing information in the field of dietary supplements; computer programs for accessing information in the field of skin care information; computer programs for connecting to remote computers and computer networks; computer programs for editing images, sound and video; computer programs for enterprise resource planning (ERP) in the field of supply chain management; computer programs for language translations and training; computer programs for network management; computer programs for processing digital music files; computer programs for project management; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for use in electronic commerce for processing electronic payments and authenticating the identity of payers; computer programs for use in teaching children to read; computer programs for use in the operation of non-medical ultrasound detectors; computer programs for use in the operation of sensors for medical use to gather human biometric data; computer programs for user interface design; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer routers; computer scanners; computer screen covers; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screen savers; computer screens; computer screensaver software; computer search engine software; computer security hardware for firewall and anti-virus protection; computer security hardware for network traffic analysis and security management systems; computer security hardware for network vulnerability assessment; computer security hardware for virus intrusion prevention; computer security software for firewall and anti-virus protection; computer security software for network traffic analysis and network security management systems; computer security software for network vulnerability assessment; computer security software for virus intrusion prevention; computer serial ports; computer servers; computer shells; computer simulation game software for playing golf; computer skins, namely, fitted plastic film for covering and providing a scratch proof barrier for computers; computer software and applications for aircraft navigation; computer software and applications for electric vehicle navigation; computer software and computer hardware for scheduling, planning, organizing, and managing heavy equipment reservations; computer software and computer programs for use in credit card and debit card payment processing; computer software and databases for use in diagnosis, repair and configuration of computers; computer software and firmware for playing games of chance on dedicated gaming consoles; computer software and firmware for playing games of chance on reel based slot machines; computer software and firmware for playing games of chance on video based slot machines; computer software and firmware for playing games of chance on video lottery terminals; computer software and hardware platforms for cooperative intelligent transport systems; computer software and hardware platforms for intelligent transport systems; computer software and mobile application for providing information on coating compositions in the nature of paint for industrial applications; computer software and software applications for accessing medical and health information; computer software and software applications for controlling and managing access to patient medical information; computer software and software applications for use in the diagnosis, monitoring and treatment of oncological diseases and disorders; computer software application for electric vehicle chargers; computer software application for ordering and purchasing convenience store items; computer software application for reserving and purchasing electric vehicle charging services; computer software applications for mobile phones and handheld computers for coordinating live

video and social media feeds; computer software applications for mobile phones and handheld computers for producing notifications in the field of sports and sports competitions; computer software applications for the management and provision of customer relationship management; computer software applications for the management and provision of financial investment services; computer software applications for the sale, order and delivery of restaurant and take-away restaurant meals; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for accessing email and text messages; computer software for accessing financial accounts on the internet and sharing financial account information with others; computer software for accessing information directories that may be downloaded from the global computer network; computer software for accessing information in the field of skin care; computer software for accessing student information; computer software for accessing, browsing and searching online databases; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for accessing, querying and analyzing information stored in databases, namely data in the field of chemistry and chemical biology experiments; computer software for administering employee payroll; computer software for administration of computer local area networks; computer software for administration of computer networks; computer software for allowing players to exchange text messages using chat lines via the internet; computer software for allowing players to exchange text messages using chatrooms via the internet; computer software for allowing players to exchange text messages using Internet forums via the internet; computer software for allowing users to upload personal and medical information into online databases accessible via scanning quick response barcodes; computer software for application and database integration; computer software for assessing cognitive brain function and detection of memory deficit for use in providing medical diagnosis and course of treatment for individuals with memory impairments; computer software for assisting developers in creating program code for use in mobile internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs; computer software for authorising access to data bases; computer software for authorising access to databases; computer software for biometric gait recognition analysis; computer software for bitcoin data mining; computer software for blockchain data mining; computer software for business data mining; computer software for calculation of operational and status data collected from metalworking machines and metalworking tools for use in determining the status of such machines and tools and for optimizing the use and efficiency of such machines and tools; computer software for collecting health and wellness data during training exercise and golf playing; computer software for collecting processing, extracting and analyzing magnetometric and geophysical data; computer software for collecting, processing, extracting and analysing data for farm management; computer software for computer-aided design/computer-aided manufacturing [CAD/CAM]; computer software for connecting computers and for enabling cloud computing; computer software for contact tracing and tracking of COVID-19 and other infectious diseases; computer software for controlling an automated blood collection and separation system; computer software for controlling and managing access server applications; computer software for controlling and managing high-altitude platform systems; computer software for controlling and managing patient medical information; computer software for controlling and operating laser rangefinders; computer software for controlling point-of-sale terminals; computer software for converting document images into electronic formats; computer software for creating 3d virtual reality plans, models, and technical specifications for use in construction and architectural design; computer software for creating advertising signage content for third parties; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating and managing

requests for proposals [RFPs] in the field of business performance management; computer software for creating computer games; computer software for creating crypto currency accounts; computer software for creating digitized patterns; computer software for creating maps; computer software for creating music; computer software for creating searchable databases; computer software for creating searchable databases of information and data; computer software for creating video games; computer software for creating, managing, and exchanging crypto-collectibles; computer software for creating, sending and receiving e-mail; computer software for cross blockchain transfers; computer software for cryptocurrency asset management; computer software for customizing wireless network access for end users; computer software for data deduplication; computer software for data security; computer software for database management; computer software for designing, planning and executing experiments in the fields of chemistry and chemical biology; computer software for developing, building, and operating consumer blockchain applications; computer software for digital animation and special effects of images; computer software for digital messaging for accessing live online chat services; computer software for displaying orders and driver locations on maps; computer software for document management; computer software for editing images, sound, and video; computer software for editing music and for editing digital audio recordings; computer software for electronic trading of currency; computer software for electronic trading of virtual currency; computer software for facilitating online communications between parents and child care professionals via a global computer network; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for formulating animal feed; computer software for global positioning systems; computer software for graphic designing and editing; computer software for image processing; computer software for interacting with blockchain platforms; computer software for inventory management; computer software for language training; computer software for language translations; computer software for logistics management of delivery sequencing and capacity planning in the field of freight transportation; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for logistics, namely, software for tracking food deliveries; computer software for logistics, namely, software for tracking perishable food products; computer software for maintaining and managing information about financial transactions on distributed public ledgers; computer software for maintaining and managing information about financial transactions on peer-to-peer payment networks; computer software for managing and controlling shipment information of consumer goods in the field of purchase order processing for shipping; computer software for managing and controlling computer games and computer video games on an online social networking platform; computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; computer software for managing medical staff information; computer software for managing retail store customer accounts; computer software for managing transactional data, providing statistical analysis, and producing notifications and reports in the field of warehousing and distribution; computer software for mathematical calculation; computer software for medical imaging; computer software for monitoring air quality in an indoor environment; computer software for monitoring and controlling electric current and torque in electric assembly tools; computer software for monitoring computer network access and activity; computer software for monitoring patient medical information; computer software for oil and gas reservoir analysis; computer software for operating an electronic coffee maker; computer software for operating automobile fuel cell batteries; computer software for operating computer games on the internet; computer software for operating fuel cell system stacks; computer software for operating printers, inkjet printers, multi function printers, and photocopiers; computer software for operating system programs; computer software for operating three dimensional printers; computer software for optical character recognition; computer software for ordering, tracking, and reviewing whole bean and ground coffees; computer software for

organising food recipes, monitoring calorie intake, and weight control; computer software for organizing and viewing digital images and photographs; computer software for organizing, archiving and searching information about consumers' prior purchases of consumer products; computer software for photogrammetry data collection; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for processing, testing and measuring data collected from meters which measure values of electrical parameters; computer software for producing financial models; computer software for project management; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for pulmonary, cardiovascular and edema analysis for use in small animal research studies; computer software for recording and displaying motor racing information; computer software for redistricting, namely, aggregating smaller geographical areas into multiple larger areas; computer software for running computer games on the internet; computer software for running development programs and application programs in a common development environment; computer software for scanning, digitizing, altering and retouching of photographs; computer software for scientific analysis of genetic sequences; computer software for staffing medical professionals and healthcare providers; computer software for storing, managing, tracking, analyzing, and reporting data in the fields of chemistry experiments and chemical biology experiments; computer software for streaming audio-visual media content via a global computer network and to mobile and digital electronic devices; computer software for synchronizing data between hand-held or portable computers and host computers; computer software for tax planning, tax calculation, tax return preparation and tax return filing; computer software for text editing; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for the design, development and updating of digital electronic labels; computer software for the integration of chemical data from experiments in the fields of chemistry and chemical biology; computer software for the management of commercial printing companies; computer software for the management of cryptographic security of electronic transmissions across computer networks; computer software for the management of sales; computer software for the operation of camera drones; computer software for the presentation of interactive visual maps and the creation of geofence areas on an interactive map; computer software for tracking and displaying shipment information of consumer goods in the field of purchase order processing for shipping; computer software for training in the field of computer repair; computer software for training in the field of electronics repair; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use as an application programming interface (API) for creation of online retail stores; computer software for use as an application programming interface (API) for use in the fields of image content analysis; computer software for use as an application programming interface (API) for use in the fields of natural language processing; computer software for use as an application programming interface (API) for use in the fields of speech recognition; computer software for use as an application programming interface (API) for use in the fields of virtualization; computer software for use in analyzing and benchmarking cybersecurity risk; computer software for use in cancer diagnosis; computer software for use in clearing of financial transactions; computer software for use in cognitive training and teaching new skills to individuals with learning and memory impairments; computer software for use in conducting psychological and neurological assessments and examinations; computer software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in creating and designing websites; computer software for use in customer

relationship management (CRM); computer software for use in database management; computer software for use in electronic storage and display of financial transactions and exchange of data in the field of foreign exchange services; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in heavy equipment rental, leasing, auctioning and purchasing services; computer software for use in integrated circuit design; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in map making; computer software for use in migrating between different computer network operating systems; computer software for use in navigation for and location identification of a delivery vehicle; computer software for use in operating and programming computer printers, thermal printers and electronic label printing machines; computer software for use in planning and booking competency tests; computer software for use in processing semiconductor wafers; computer software for use in producing testing data and reports in the field of neuropsychology, psychology, and cognitive function; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for use in testing, monitoring, research, analysis and assessment of cognitive function for medical purposes and for purposes of conducting clinical trials; computer software for use in testing, monitoring, research, analysis and assessment of cognitive function in the fields of psychology, neuropsychology, and cognition; computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity; computer software for use in the encryption and decryption of digital files; computer software for use in the management of payroll; computer software for use in tracking of shopping carts; computer software for use in tracking the intellectual property rights of composers of music; computer software for use in tracking the location and maintenance history of shopping carts; computer software for use of processing financial payments for student fees and programs; computer software for validating address and zone information; computer software for video editing; computer software for virtual telephone cards; computer software for visual art designing and editing; computer software for visualization in the nature of graphical representation and analysis of satellites; computer software for voice recognition for use in connection with the transmission of voice; computer software for word processing; computer software in the field of human resource management; computer software in the field of personnel management; computer software in the field of retrieval and delivery of recyclable material, and recycling services; computer software namely non-fungible tokens for facilitating commercial transactions; computer software platform, namely software allowing users to aggregate their financial, banking and business data; computer software platforms for hosting an electronic contact centre; computer software platforms for providing access to crypto-collectibles; computer software platforms for providing access to cryptocurrencies and digital and blockchain assets; computer software platforms for providing access to non-fungible tokens; computer software platforms for social networking; computer software that allows transmission of graphics to mobile telephones; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software to allow users to perform electronic payment transactions; computer software to automate data warehousing; computer software to calculate and charge sales tax and to create reports to pay sales tax to appropriate tax agencies; computer software to create and manage budgets; computer software to create price quote estimates and transfer price quote estimates to invoices; computer software to create, customize, import and export magnetometric and geophysical data; computer software to create, customize, print, export, and e-mail financial reports, business reports, balance sheets, profit and loss statements, cash flow statements, and taxable sales reports; computer software to create, customize, print, export, and e-mail purchase orders; computer software to create, print, and track checks and purchase orders; computer software to design and monitor

pharmaceutical treatment plans, track patient compliance and verify treatment outcomes of prescription medication; computer software to enable accessing information in electronic form via computer and communication networks in the field of news; computer software to enable downloading information in electronic form via computer and communication networks in the field of news; computer software to enable providing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of news; computer software to enable sharing information in electronic form via computer and communication networks in the field of heavy equipment rental, auction and acquisition; computer software to enable teleconferencing services; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer software to enable uploading information in electronic form via computer and communication networks in the field of news; computer software to enable videoconferencing services; computer software to manage customer lists, e-mail and print sales forms, and track running balances; computer software to track sales, expenses, and payments; computer software used for running cloud computing based applications; computer software used to manage and avoid the risk of operator distraction and fatigue by sending real time alerts to operator in the vehicle; computer software, namely cryptocurrency blockchain for peer-to-peer sharing of financial data; computer software, namely cryptocurrency tokens for facilitating commercial transactions; computer software, namely, game engine software for video game development and operation; computer speakers; computer stands; computer stands specially designed for holding a computer, printer and accessories; computer storage area network (SAN) servers; computer stylus; computer styluses; computer system on a module (SOM); computer system software for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; computer systems for driverless cars with intelligent driver assistance system; computer systems for vehicle safety and security for autonomous vehicles; computer terminals for banking purposes; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer virtualization software; computer virtualization software for running a virtual desktop infrastructure (VDI) through a computer network; computer whiteboards; computer workstations comprising computer, monitor, and printer; computer x-ray image interpretation software for the training and certification of x-ray screening operators in the field of security; computer-aided manufacturing (CAM) software for general use; computer-controlled steering system for recreational vehicles featuring smart technology; computer-generated holograms; computerised personal organisers; computerized interactive indoor training golf simulators; computerized time clocks with fingerprint recognition; computerized vehicle engine analyzers; computers; computers and computer hardware; computers and computer hardware for installation within a motor vehicle for wirelessly transmitting and receiving information and data about the vehicle, its occupants, and its environment; computers and instructional manuals in electronic format sold as a unit; computers

for managing control devices for aircraft; computers for use in data management; computers to read periodicals; computing hardware consisting of tactile and touch screens, central processing units and cameras; concentration meters; concrete testing machines; conductive fibers, namely, fluoride glass fibers; conference microphone speakers; conference phones; connecting electrical cables; connections for electric lines; connectors for electronic circuits; constant humidity incubators for laboratory use; constant temperature incubators for laboratory use; contact lens blanks; contact lens cases; contact lens containers; contact lens containers and carrying cases; contact lenses; containers for contact lenses; containers for microscope slides; continuity testers; contour gauges; contoured prism eyeglass lenses to alleviate symptoms of misalignment and to provide relief for hard-working eyes; contrast enhancement filters for electronic display readout windows; control boards being electrical circuit boards; control cabinets specially adapted for vehicle traffic control equipment; control panels for elevators; control panels for security alarms; controller circuit boards; conventional electricity meters; conversational robot software for simulating conversations and buying and selling cryptocurrency; conversational robot software to simulate conversations and provide advice in the areas of cryptocurrency investing, and cryptocurrency account creation; converters for electric plugs; convex security mirrors; coolant-temperature sensors; cooling pads for laptop computers; coordinate-measuring machines; copper panels for circuit boards; corded telephones; cordless telephone holders; cordless telephones; cords for eyeglasses; cords for eyeglasses and sunglasses; cords for pince-nez; cords for spectacles; cords for sunglasses; correcting lenses; corrective eyeglasses; corrective glasses; corrective spectacles; cotton swabs for laboratory use; counterfeit coin detectors; counterfeit money detection light to be used in retail stores and banks; cover for an electric door bell that attaches to the doorbell to block its use; cover glass for microscope slides; covers for binoculars; covers for camcorders; covers for cameras; covers for cellular phones; covers for cellular telephones; covers for compact discs; covers for computer keyboards; covers for digital media players; covers for electric outlets; covers for electronic agendas; covers for electronic diaries; covers for laptop computers; covers for laptops; covers for mobile telephones; covers for MP3 players; covers for personal digital assistants; covers for personal digital assistants [PDAs]; covers for smartphones; covers for tablet computers; covers for telephone receivers; covers for the prongs of electric plugs; covers for video cameras; crack meters; craft magnets; crash helmets; crash helmets for motorcyclists; crash test dummies; credit card and debit card readers and scanners; credit card encoding machines; credit card reading machines; credit card terminals; credit card-style USB flash drives; credit screening software; cross beam depth gauges; crossbow scopes; crucibles for laboratory use; cruise controls for motor vehicles; cruise controls for motorcycles; cryptocurrency hardware wallets; crystalline silicon solar cells; cupels for laboratory use; currency counting machines; currency detectors; currency recognition machines; currency sorting machines; current breakers; current collectors; current converters; current limiters; current limiting reactors; current meters; current plugs; current pulse generators; current rectifiers; current switches; current testers; current transformers; customer self service electronic checkout stations for point of sale; customer self-service electronic checkout stations for point of sale using artificial intelligence; cut-out switches; cut-resistant stockings for wear by skaters for protection against accident or injury; cuvettes for laboratory use; cycle computers; cycle meters; cycling computers; cyclists' glasses; cyclocomputers; cyclometers; cyclotrons; cryogenic turbine meters; D-cell batteries; daisy wheel printers; darkroom lamps; dashboard cameras; dashboard mats adapted for holding cell phones and smartphones; dashboard mats adapted for holding mobile telephones and smartphones; data cables; data compression software; data gloves for wireless interaction with a computer or remote device; data gloves incorporating haptic sensors; data gloves incorporating motion sensors; data gloves incorporating position sensors; data loggers; data meters; data multiplexer; data storage devices being cassettes; data storage devices being floppy disks; data

storage devices being magnetic tapes; data synchronization cables; data transfer software being computer operating software; data transmission cables; database management software; database management software in the field of baseball cards; daughterboards; DC input power supplies; DC to AC converters; DC to AC inverters; DC/AC inverters; DC/DC converters; decantation pears for laboratory use; decibel meters; decision circuits; decoder software; decompression chambers; decorative covers for smoke detectors; decorative dials for thermostats; decorative fridge magnets; decorative magnets; decorative magnets in the shape of animals; decorative magnets in the shape of letters; decorative magnets in the shape of numbers; decorative refrigerator magnets; decorative switch plate covers; decorative wind socks for indicating wind direction; dedicated servers; dedicated short range communications (DSRC) antenna; degaussers; demagnetizers; demagnetizers for magnetic tapes; demagnetizing apparatus for magnetic tapes; demodulators; demultiplexers; densimeters; densitometers; densitometers, not for medical purposes; depth gauges; desk and car mounted units incorporating a loudspeaker to allow audio cassette and compact disc players to be used hands-free; desk and car mounted units incorporating a loudspeaker to allow digital music players to be used hands-free; desk mounted unit incorporating a loudspeaker to allow a telephone handset to be used hands-free; desk or car mounted units incorporating a loudspeaker to allow a telephone handset to be used hands-free; desktop computers; desktop printers; desktop publishing software; devices for generating smoke for signaling; devices for measurement of the flow rate and volume of liquid hydrogen; diagnostic biomolecule and DNA sequence detection devices for scientific research purposes; diagnostic biomolecule and DNA sequence readers of biomolecule and DNA sequence testing results for scientific research purposes; diagnostic computer software for processing and reporting fuel cell current and voltage testing information for use in fuel cell test stations; diagnostic instrument composed of video and still image cameras and mirrors for use in the collection of vehicle condition and diagnostic data; diagrams for model aircraft circuits; dial gauges; diaphragm separators for use in water electrolyzers; dictating machines; dictation machines; dictionaries in electronic form; diesel fuel injector testers; diesel injector testers; diesel oil emission testers; diesel-engine exhaust test instruments; differential switches; digital audio broadcasting [DAB] radios; digital audio receivers used for streaming audio data to hearing aids; digital audio tape players; digital audio tape recorders; digital audiotape players; digital bathroom scales; digital book readers; digital books downloadable from the Internet; digital camcorders; digital camera cases; digital camera lights; digital camera memory cards; digital cameras; digital cameras for industrial use; digital cellular phones; digital cellular telephones; digital color copiers; digital color photocopiers; digital color printers; digital colour copiers; digital colour photocopiers; digital colour printers; digital compact disc players; digital computer-based training modules in the field of reading and study skills; digital disc drives; digital disk drives; digital door lock; digital door locks; digital egg timers; digital electronic labels; digital event recorders for seismic data; digital film scanners; digital force gauges; digital function generators; digital humidity sensors; digital indicators; digital input and output scanners; digital karaoke mixers; digital laser levels; digital liquid level sensors; digital load board for carriers in form of computer software for database management in the shipping industry; digital locks; digital maps for autonomous vehicles; digital meat thermometers; digital media, namely, downloadable audio and audiovisual recordings in the field of exercise and fitness; digital mixing desks; digital mobile phones; digital mobile telephones; digital music downloadable from internet; digital music downloadable from the Internet; digital music players; digital notepads; digital organizers; digital padlocks; digital panel meters; digital pH meters; digital photo cameras; digital photo frames; digital photo printers; digital photo viewers; digital photo-optical systems; digital plotters; digital radios incorporating clocks; digital school yearbooks; digital signage display panels; digital signage monitors; digital signal processors; digital single lens reflex cameras; digital single-lens reflex (dslr) cameras; digital sound processors; digital

spoon scales; digital still cameras; digital subscriber line access multiplexers; digital tablets; digital taxi top advertising display units; digital telephones; digital thermometers, not for medical purposes; digital to analogue converters; digital torque gauges; digital versatile disc drives; digital versatile disc player; digital versatile disc players; digital versatile disc recorders; digital versatile discs containing recordings of television shows and movies; digital video and audio recordings of courses, and downloadable podcasts in the field of legal matters and for continuing legal education; digital video and audio recordings of instructional courses in the field of reading and study skills; digital video cameras; digital video disk players; digital video eyewear; digital video players; digital video recorders; digital video recording software for IP (Internet protocol) video surveillance; digital voice recorders; digital voice signal processors; digital weather stations; digital-to-analog converters; digital-to-analogue converters; digitizer tablets; digitizing tablets; dimmer switches; diode AC switches; diode alternating current switches; diode arrays; diode assemblies; direct current converters; direct electrical current monitoring modules; direct-to-home satellite receivers; direction beacons; direction-finders; directional compasses; disc storage containers; discs bearing computer game software; discs bearing video recordings; dish aerials; dish antennas; disk drive arrays and enclosures; disk drives for computers; dispensers of predetermined portions of fluids for dosing purposes; dispensers of predetermined portions of powder for dosing purposes; dispensers of predetermined portions of solid granules for dosing purposes; dispersion shifted optical fibres; display monitors; display screen filters; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; display screen filters adapted for use with televisions; displays for mobile phones; displays for smartphones; disposable cameras; disposable computer keyboard covers; disposable dispenser syringes for laboratory use; disposable gloves for laboratory use; disposable latex gloves for laboratory use; disposable plastic bioreactors for cell culture; disposable plastic bioreactors for culturing cells; disposable plastic gloves for laboratory use; distance sensors; distillation columns for laboratory use; distribution amplifiers; distribution boxes for electrical power; distribution transformers; dive computers; dive skins; divers masks; divers' face masks; divers' masks; diving boots; diving gloves; diving goggles; diving heel straps; diving helmets; diving masks; diving regulators; diving snorkels; diving suits; diving weight belts; diving weights; DMB (Digital Multimedia Broadcasting) televisions; DMB televisions; DNA chips; DNA microarrays for laboratory use; docking stations for cell phones; docking stations for cellular phones; docking stations for digital music players; docking stations for laptops; docking stations for mobile phones; docking stations for MP3 players; docking stations for smartphones; dog training devices in the nature of retrieving bumpers; dog training devices in the nature of retrieving dummies; dog whistles; dongles being computer hardware for preventing the unauthorized copying or use of computer software; door alarms; door chimes; dosage dispensers; dosimeters; dosimeters for liquids; dosimeters for solids; dot matrix printers; downloadable and recorded computer application security software for protecting people from identity theft for use on mobile devices; downloadable and recorded computer security software for guarding users of computers and remote access devices from identity theft using anti-keyboard logger and keyboard stroke encryption; downloadable and recorded computer software for encryption of digital files; downloadable and recorded computer software for medical diagnostic imaging for use in diagnosis and treatment of lung diseases and conditions; downloadable and recorded computer software for processing and analysis of ultrasound images for medical diagnostic imaging; downloadable and recorded computer software for receiving digital video over a communication network; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing audio files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing image files; downloadable and recorded computer software for use in organizing, transmitting, receiving, playing, storing and reviewing

video files; downloadable and recorded computer software for use in the detection, analysis, mitigation and resolution of threats in the field of cybersecurity assessment and protection; downloadable animated cartoons; downloadable application for mobile phones that allows users to access and search for emergency roadside services; downloadable application for mobile phones to download video games via the internet; downloadable application programming interface financial technology (fintech) software used for collecting financial information, metadata and metrics of customers; downloadable application programming interface financial technology (fintech) software used for connecting users to financial information from financial software providers; downloadable application programming interface software used for connecting businesses to their customers financial software, payroll and point of sale systems; downloadable applications for handheld computers for performing diagnostic analyses of telecommunications equipment; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to edit photographs; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for handheld computers, tablet computers and mobile phones to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the downloading and playing of video games; downloadable applications for laptop computers to enable the streaming of movies and television shows; downloadable applications for laptop computers to enable the streaming of music; downloadable applications for laptop computers to provide access to the internet; downloadable applications for laptop computers to read periodicals; downloadable applications for mobile phones and tablet computers for accessing, monitoring and tracking personalized electricity usage and billing information; downloadable applications for mobile phones to access online auctions; downloadable applications for mobile phones to download and play video games; downloadable applications for mobile phones to download course materials in the form of digital files in the field of theological lessons and teachings; downloadable applications for mobile phones to download course materials in the form of digital files in the field of welding; downloadable applications for mobile phones to download e-books in the field of theological lessons and teachings; downloadable applications for mobile phones to download music, movie and television graphics; downloadable applications for mobile phones to download video games; downloadable applications for mobile phones to edit photographs; downloadable applications for mobile phones to enable the streaming of audio and video files via the internet in the field of theological lessons and teachings; downloadable applications for mobile phones to enable the streaming of movies and television shows; downloadable applications for mobile phones to enable the streaming of music; downloadable applications for mobile phones to enable the streaming of pre-recorded audio and video files via the internet in the field of theological lessons and teachings; downloadable applications for mobile phones to provide access to the internet; downloadable applications for mobile phones to read periodicals; downloadable applications for mobile phones to take and edit photographs; downloadable applications for tablet computers to download music, movie and television graphics; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the downloading and playing of video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of music; downloadable applications for tablet computers to provide access to the internet; downloadable applications for tablet computers to read periodicals; downloadable

applications for tablet computers to take and edit photographs; downloadable applications for the collection of donations for charitable purposes; downloadable architectural blueprints, plans, specifications and models; downloadable artificial intelligence software for digital audio generation; downloadable artificial intelligence software for digital image generation; downloadable artificial intelligence software for digital image to digital image generation; downloadable artificial intelligence software for digital video generation; downloadable artificial intelligence software for text to digital image generation; downloadable artworks; downloadable audio and video recordings featuring and promoting religious topics, lessons and teachings; downloadable audio and video recordings featuring computer video game play; downloadable audio and video recordings featuring theological lessons and teachings; downloadable audio and video recordings featuring video game characters authenticated by non-fungible tokens (NFTs); downloadable audio and video recordings of musical performances and sports competitions; downloadable audio and video recordings relating to theological topics and religious prayer services; downloadable audio recordings featuring literary anthologies; downloadable audio recordings featuring music anthologies; downloadable audiovisual presentations in the field of responsible gambling; downloadable audiovisual recordings featuring music; downloadable booklets; downloadable books on the subjects of business leadership, interpersonal communications, team-building, advertising, marketing, general health and well-being in life and in business, business management; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable business automation software for the secure operation and integration of network based business computer applications of others hosted on public and private virtual servers; downloadable business automation software for the secure operation and integration of network based mobile applications of others hosted on cloud-based virtual servers; downloadable calendaring software; downloadable cartoon strips; downloadable catalogs in the field of sports products; downloadable children's educational mobile applications; downloadable cloud-based search engine software specifically for use in the marketing of art, collectibles, luxury goods and branded products; downloadable cloud-based software for database management in the field of marketing art, collectibles, luxury goods and branded products; downloadable cloud-based software for monitoring, controlling and optimizing the power usage for cameras and parts thereof; downloadable cloud-based software for use in operation of blood and blood plasma processing equipment; downloadable cloud-based software to provide access to database content in the field of marketing art, collectibles, luxury goods and branded products; downloadable comic strips; downloadable computer agronomic and agricultural software for collecting, organizing, tracking, and analyzing agronomic and weather information; downloadable computer and video game software and programs; downloadable computer anti-virus software; downloadable computer application interface [API] integration software for online marketplaces; downloadable computer application software for developing computer games; downloadable computer application software for maintaining and updating computer games; downloadable computer application software for managing medical staff information; downloadable computer application software for medical staff recruitment; downloadable computer application software for mobile phones, namely, software for providing information in the field of golf; downloadable computer application software for playing video games; downloadable computer application software for use by painters to choose and match paint colours and identify the properties of various paints; downloadable computer application software for use in tracking the location and maintenance history of shopping carts; downloadable computer application software to track and monitor agricultural and horticultural crop yield; downloadable computer applications for mobile phones, tablets and handheld computers in the field of mass transit services for the general public through buses, subway trains, streetcars and commuter trains; downloadable computer applications for

sending, receiving, buying, selling, trading and exchanging virtual digital currency; downloadable computer chatbot software for providing business management information; downloadable computer chatbot software for simulating conversations; downloadable computer connectivity software for the secure operation and integration of network based business computer applications of others hosted on cloud-based virtual servers; downloadable computer data privacy protection software to create, implement, assign and manage the computer business practices of others; downloadable computer data privacy protection software to provide assessments and reports to users; downloadable computer desktop wallpaper; downloadable computer digital maps for gps navigation devices; downloadable computer game instruction manuals; downloadable computer game programs; downloadable computer game software; downloadable computer game software for gambling machines; downloadable computer game software for gaming machines; downloadable computer game software for use on mobile and cellular phones; downloadable computer game software via a global computer network and wireless devices; downloadable computer games; downloadable computer games delivered digitally to personal computers, video game consoles, handheld computers and tablet computers; downloadable computer games via a global computer network; downloadable computer graphics; downloadable computer graphing software for use in the field of genomics; downloadable computer graphing software for use in the field of transcriptomics; downloadable computer operating software for data discovery and data classification and to create security and privacy reports; downloadable computer programs for accounting; downloadable computer programs for blockchain data storage; downloadable computer programs for data authentication via blockchain; downloadable computer programs for video and computer games; downloadable computer programs in the field of non-fungible tokens (NFTs) for use in authenticating virtual ownership of digital files; downloadable computer search engine software; downloadable computer security software; downloadable computer security software in the field of data management for ingesting, storing, organizing and maintaining data created and collected by third party businesses; downloadable computer software allowing teachers to monitor student performance and use of tutoring services by students; downloadable computer software and mobile application software for monitoring and controlling chemical monitoring and sanitation systems for hot tubs; downloadable computer software and mobile application software for use in tracking, processing, and displaying oral hygiene data and educating consumers in the field of oral hygiene; downloadable computer software and mobile application software to train computers to predict user behaviour in the field of machine learning models and artificial intelligence; downloadable computer software application for mobile phones and tablets for use in improving communication in interpersonal relationships; downloadable computer software applications for accessing dietary supplement information; downloadable computer software applications for accessing skin care information; downloadable computer software applications for minting non-fungible tokens [nfts]; downloadable computer software applications for smartphones and handheld computers that allows users to create and manage team rosters; downloadable computer software applications for smartphones and handheld computers that allows users to view availability and to reserve sports facilities; downloadable computer software applications for social networking services; downloadable computer software applications to manage uninterruptible power supplies and batteries; downloadable computer software applications to search, order, browse menus, rate, comment and track the delivery of takeout food; downloadable computer software development programs for creating and developing business applications for others; downloadable computer software development programs for creating and developing computer databases for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be

used on cloud-based servers; downloadable computer software development programs for creating and developing computer programs for others to be used on public and private virtual servers; downloadable computer software for accepting, managing, and paying out funds via a computer network; downloadable computer software for accessing and using databases in the fields of biotechnology; downloadable computer software for accessing and using databases in the fields of genomics; downloadable computer software for accessing and using databases in the fields of medicine; downloadable computer software for accessing and using databases in the fields of proteomics; downloadable computer software for accessing and using databases in the fields of transcriptomics; downloadable computer software for accessing digital tokens and non-fungible tokens (NFTs); downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable computer software for administering insurance coverage; downloadable computer software for analyzing molecular and clinical data for research in the fields of genomics; downloadable computer software for analyzing molecular and clinical data for research in the fields of medicine; downloadable computer software for analyzing molecular and clinical data for research in the fields of transcriptomics; downloadable computer software for assisting developers in creating interactive computer games; downloadable computer software for broadcasting and streaming of digital media content sessions; downloadable computer software for building information modelling (bim); downloadable computer software for building information modelling (BIM) and building construction management; downloadable computer software for computers and mobile phones for the management and electronic delivery of insurance documents and insurance claims information; downloadable computer software for computers and mobile phones to provide access to and to manage insurance billing; downloadable computer software for computers and mobile phones to provide access to insurance quotes and providing access to insurance claims assessment and information; downloadable computer software for creating and tracking lease-purchase financing agreements; downloadable computer software for creating digital images; downloadable computer software for creating digital tokens and non-fungible tokens (NFTs); downloadable computer software for creating music videos; downloadable computer software for creating, accessing, reading, and tracking non-fungible tokens ownership information on a blockchain; downloadable computer software for customers for tracking and posting reviews on their experience with insurance companies; downloadable computer software for customizing computer application user interfaces for managing financial investment software; downloadable computer software for daily tasks management; downloadable computer software for developing, configuring, and operating decentralized cloud storage facilities; downloadable computer software for editing cinematographic film; downloadable computer software for enabling hands-free use of a mobile phone through voice recognition; downloadable computer software for evaluation and analysis of rig performance in the field of oil and gas; downloadable computer software for exchanging digital tokens and non-fungible tokens (NFTs); downloadable computer software for facilitating blockchain-based financial transactions; downloadable computer software for facilitating electronic cash transactions with others; downloadable computer software for generating and storing quick response barcodes; downloadable computer software for graphing proteomes for use in medical; downloadable computer software for graphing proteomes for use in scientific diagnostics; downloadable computer software for hosting web-based meetings and classes; downloadable computer software for implementing engineering analysis of structure against applied loads; downloadable computer software for industrial process control; downloadable computer software for interpreting, displaying, managing, and sharing healthcare information, namely, test results from in vitro diagnostic devices; downloadable computer software for logistics management for use in scheduling departure points and transit schedules in the field of freight transportation; downloadable computer software for managing and organizing meal orders; downloadable

computer software for managing and verifying cryptocurrency transactions on a blockchain; downloadable computer software for managing cryptocurrency transactions using blockchain technology; downloadable computer software for managing digital tokens and non-fungible tokens (NFTs); downloadable computer software for managing electronic payment transactions using distributed ledger technology (DLT); downloadable computer software for managing insurance policies; downloadable computer software for managing subscription services for pet products; downloadable computer software for managing user health information, namely, tracking, compliance and motivation to keep a consistent sleep schedule for optimal user health; downloadable computer software for matching computer game spectators with live digital media content sessions; downloadable computer software for mobile phones for providing classified advertising space accessible via a global computer network; downloadable computer software for model-less multivariable process control and optimization; downloadable computer software for monitoring blood ketone and lactate levels and transmitting medical data; downloadable computer software for monitoring glucose levels and transmitting medical data; downloadable computer software for monitoring, benchmarking and evaluating the environmental footprint of agricultural farming; downloadable computer software for online appointment scheduling; downloadable computer software for operating smart home hubs for connecting, integrating and controlling networked consumer electronic devices, home devices and temperature controls via a wireless computer network; downloadable computer software for operating, monitoring and managing decentralized cloud storage facilities; downloadable computer software for process optimization; downloadable computer software for processing insurance payments, claims and policies; downloadable computer software for producing cryptocurrency wallets built on the blockchain to allow consumers to earn, use and trade non-fungible tokens for facilitating commercial transactions; downloadable computer software for providing a virtual office for collaborative work by multiple parties; downloadable computer software for rate-predictive process control; downloadable computer software for receiving, processing, analyzing, transmitting and displaying user sleep information, namely, motion, position, breathing, heart rate, respiration, quality of sleep, hours slept, and heart and respiration issues; downloadable computer software for reviewing and purchasing pet products; downloadable computer software for rig quality management in the oil and gas field; downloadable computer software for searching databases featuring songs, music and audio content; downloadable computer software for secure online meal ordering free and reduced meals; downloadable computer software for selling digital tokens and non-fungible tokens (NFTs); downloadable computer software for sending and receiving digital tokens and non-fungible tokens (NFTs); downloadable computer software for smart home hubs for the operation of smart home devices; downloadable computer software for storing digital tokens and non-fungible tokens (NFTs); downloadable computer software for storing research and development information in the fields of biotechnology; downloadable computer software for storing research and development information in the fields of genomics; downloadable computer software for storing research and development information in the fields of medicine; downloadable computer software for storing research and development information in the fields of proteomics; downloadable computer software for storing research and development information in the fields of transcriptomics; downloadable computer software for streaming audio data to hearing aids; downloadable computer software for streaming videos from digital media content sessions; downloadable computer software for the analysis of individual personality characteristics and prediction of individual employment performance; downloadable computer software for the analysis of proteins, proteomes, and biological data in the fields of genomics; downloadable computer software for the analysis of proteins, proteomes, and biological data in the fields of transcriptomics; downloadable computer software for the creation and management of personal information online; downloadable computer software for the distribution, storage, and sharing of music and sounds; downloadable

software for the automation of electric control systems for lighting; downloadable software and mobile applications for requesting insurance quotes, managing insurance policies, and for the submission of insurance claims for administrative processing; downloadable software application for a mobile device or computer that provides customized information about the functions and features of a motor vehicle; downloadable software application for a mobile device or computer that provides users the ability to remotely control features of their motor vehicle; downloadable software application that applies artificial intelligence programming for use in automation of machines for building construction; downloadable software applications using artificial intelligence to assist in construction project management; downloadable software as a medical device [SaMD] for calibrating and changing the settings of a cochlear implant based on personalized patient data; downloadable software as a medical device [SaMD] for remote monitoring of labor progress by processing uterine contraction and fetal heart rate data during labor and child birth; downloadable software as a medical device [SaMD] for wireless remote control of and synchronization of computed tomography [CT] apparatus; downloadable software as a medical device [SaMD] for wireless remote control of and synchronization of x-ray machines; downloadable software associated with the operation of a Pilates reformer and for fitness training; downloadable software development kits (SDK) for accepting, managing, and paying out funds via a computer network; downloadable software development kits (SDK) for tracking body movements via a smart bracelet and smart wristband; downloadable software for accessing, browsing and searching for recipes and information in the field of food, cooking, wine and beverages; downloadable software for accessing, reading, and tracking health, safety, and regulatory information and for providing educational instruction for employees of bars; downloadable software for accessing, reading, and tracking information and for providing educational instruction in the field of alcoholic beverages; downloadable software for accessing, reading, and tracking information and for providing educational instruction in the field of restaurant services; downloadable software for assisting developers in sharing and collaboratively developing computer software programming code; downloadable software for blockchain-based inventory management; downloadable software for conducting vehicle inspections; downloadable software for configuring, quoting and ordering electrical distribution products; downloadable software for creating and publishing recipes and information in the field of food, cooking, wine, and beverages; downloadable software for creating avatars, building virtual objects, and interacting with users and objects in virtual worlds; downloadable software for detecting and reporting water leaks; downloadable software for digital sharing of blockchain; downloadable software for editing photos; downloadable software for electronic funds transfer and currency conversion; downloadable software for enabling users to customize hardware settings, namely voltage power; downloadable software for evaluation and analysis of rig performance in the field of oil and gas; downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; downloadable software for improving efficiency of the online purchase of goods and services through securely stored account information; downloadable software for instant messaging and electronic mail services; downloadable software for language translation; downloadable software for managing a loyalty program, rewards and offers to support retailers' sales; downloadable software for managing information in the field of real estate ; downloadable software for measuring, monitoring and conserving water usage; downloadable software for monitoring user sleep patterns and heart and respiration activity patterns, for recording and regulating ambient room temperature to be integrated with users smart phone through a wireless computer network; downloadable software for monitoring wearable sleep monitors; downloadable software for note-taking; downloadable software for online retail shopping for nail care, hair care, skincare and make-up products in the field of beauty; downloadable software for online retail shopping in the field of clothing; downloadable software for online retail shopping in the field of consumer electronics;

downloadable software for online retail shopping in the field of food and groceries; downloadable software for online retail shopping in the field of office supplies; downloadable software for online retail shopping in the field of pet supply products; downloadable software for online retail shopping of pharmaceutical products; downloadable software for online sports betting; downloadable software for playing computer games via web browser, gaming console, and cellular phone for playing video games; downloadable software for providing access via a secure electronic portal to insurance products and services; downloadable software for providing information on available same-day transportation and delivery of goods; downloadable software for recording and analyzing real-time location data to predict the spread of an illness in a community; downloadable software for reporting computer, electronic and video game problems; downloadable software for rig quality management in the oil and gas field; downloadable software for routing customer support and customer service telephone calls; downloadable software for taking notes; downloadable software for the collection of donations for charitable purposes; downloadable software for the home automation of electric control systems for electrical power switches; downloadable software for the home automation of electric control systems for home security systems; downloadable software for the home automation of electric control systems for HVAC; downloadable software for the home automation of electric control systems for kitchen appliances; downloadable software for the home automation of electric control systems for lighting; downloadable software for the monitoring, tracking and analysis of vehicle movement, location, status, and behavior; downloadable software for the monitoring, tracking, and analysis of vehicle movement, status, and behavior for purposes of offering vehicle maintenance, purchasing, sharing, loan and rental services; downloadable software for the operation of a mobile application for grocery delivery and ordering; downloadable software for the purchase and sale of vehicles; downloadable software for the redirection of electronic messages to alternate addresses; downloadable software for the visualization, computation, reporting, extraction, integration and analysis of biomechanical data from motion capture technologies; downloadable software for tracking and managing energy and fuel consumption by buildings, industrial equipment, and machinery; downloadable software for tracking and managing fuel consumption by vehicles; downloadable software for tracking and managing regulatory compliance by vehicles; downloadable software for tracking and managing vehicle maintenance; downloadable software for tracking and managing vehicle repair; downloadable software for tracking vehicles and managing vehicle maintenance; downloadable software for translating phrases into various languages; downloadable software for updating computer digital maps for gps navigation devices; downloadable software for uploading photos; downloadable software for use in displaying and printing digital typeface designs, typographical ornaments and character fonts; downloadable software for use in inputting and accessing real estate data; downloadable software for use in making and receiving offers in the field of real estate; downloadable software for use in managing portfolios of virtual currencies, digital and blockchain assets; downloadable software for use in scheduling inspections in the field of real estate; downloadable software for use in unmanned aerial vehicles (UAVs) for 3D geological modelling and geophysical inversion; downloadable software for use in unmanned aerial vehicles (UAVs) for detecting, discovering, reporting, logging and analysing landmines; downloadable software for use in unmanned aerial vehicles (UAVs) for detecting, discovering, reporting, logging and analyzing data relating to minerals and elements; downloadable software for use in unmanned aerial vehicles (UAVs) for detecting, discovering, reporting, logging and analyzing elevation data; downloadable software for viewing information about and interacting with insurance companies; downloadable software for viewing real estate images and comparable properties ; downloadable software in the nature of a mobile application for delivering sales enablement and sales management proprietary product feature information to recreational vehicle dealers and recreational vehicle channel partners; downloadable software in the nature of a mobile application

for facilitating crowdfunding; downloadable software in the nature of a mobile application for food delivery and ordering; downloadable software in the nature of a mobile application for providing beauty related articles covering the latest styles and trends in the field of cosmetics and make-up; downloadable software in the nature of a mobile application for providing beauty related articles covering the latest styles and trends in the field of hair care, skincare, and nail care; downloadable software in the nature of a mobile application for use in vehicle rental and leasing services; downloadable software in the nature of a mobile application for virtual kitchen delivery and ordering; downloadable software in the nature of an application in the field of exercise and fitness; downloadable software in the nature of desktop software for delivering sales enablement and sales management proprietary product feature information to recreational vehicle dealers and recreational vehicle channel partners; downloadable software in the nature of mobile applications for providing information and making reservations for temporary lodging and accommodations; downloadable software in the nature of mobile applications for providing information and making reservations for transportation, travel, flights, vacations, holidays and bookings for temporary lodging and accommodations; downloadable software in the nature of mobile applications for use in the electronic storage and display of transportation, travel, flight, vacation, holiday, hotel, resort, and temporary lodging reservations, bookings, and itineraries; downloadable software that enables a community of computer, electronic and video game users to prioritize computer, electronic and video game problems to be resolved; downloadable software to enable communication between insurance companies and its customers via an online portal; downloadable software to enable computer and video game users to interact in online communities and virtual worlds; downloadable software to enable the sending of insurance information and insurance packages between insurance companies and its customers via an online portal; downloadable software used for collecting and analyzing financial information of customers; downloadable software used for computer system analysis and optimization; downloadable software used for managing large scale data centers; downloadable software with age verification and product authentication features for ensuring a secure user experience; downloadable speech recognition software; downloadable sports tournament webcasts; downloadable strategy guides for video games; downloadable telephone ring tones; downloadable television shows and movies; downloadable templates for creating delivery workflow maps; downloadable templates for designing audiovisual presentations; downloadable templates for designing audiovisual presentations, websites and marketing materials; downloadable templates for designing books; downloadable templates for journals to record events, personal thoughts, ideas, creative writing and art work; downloadable text files in the field of video and computer games; downloadable trivia game software; downloadable vaccine administration record forms; downloadable video and audio recordings in the field of whisky and cuisine; downloadable video clips from soccer games; downloadable video game assets sold individually, namely downloadable digital files containing videogame avatars, clothing, pets, vehicles, items, tools, toys, terrain, 3D objects, textures, meshes, animations, sound effects, music, emotes, and gestures for use in video game development; downloadable video game character textures and models; downloadable video game characters; downloadable video game programs; downloadable video games; downloadable video games via a global computer network; downloadable video recordings featuring animation, comedy, drama, action and adventure; downloadable video recordings featuring avatars authenticated by non-fungible tokens (NFTs); downloadable video recordings featuring live musical performances; downloadable video recordings featuring movie clips authenticated by non-fungible tokens (NFTs); downloadable video recordings featuring music; downloadable video recordings featuring music videos; downloadable video recordings featuring musical sound recordings; downloadable video recordings in the field of art instruction; downloadable video recordings of television shows; downloadable video recordings of web television shows; downloadable video series featuring and promoting skilled trade and

technologies for youth; downloadable video series promoting skilled trade and technologies for youth to help Canada lead in world skill development; downloadable videos for training educators in the use of an interactive digital learning platform for the delivery and management of online courses; downloadable virtual assistant software; downloadable virtual assistant software for the purchase of home entertainment electronics; downloadable virtual assistant software for the purchase of indoor and outdoor furniture; downloadable virtual goods, namely, casino games for use online, in online virtual worlds and metaverses; downloadable virtual goods, namely, computer games for use online, in online virtual worlds and metaverses; downloadable virtual goods, namely, video games for use online, in online virtual worlds and metaverses; downloadable virtual reality game software; downloadable virtual wardrobe styling assistant software; downloadable wallpaper for handheld computers; downloadable wallpaper for mobiles telephones; downloadable wallpaper for tablet computers; downloadable web application software for use in search and reference of medical conditions for medical diagnostic services; downloadable curriculum materials in the field of diversity ; drainers for use in photography; dressmakers' measures; driver assistance systems for autonomous vehicles, including advanced driver assistance systems (ADAS); driver systems for autonomous vehicles; drivers' helmets; droppers for laboratory use; droppers for measuring, other than for household purposes; droppers for measuring, other than for medical purposes; dry cells; dry suits; drying ovens for laboratory use; drying racks for photography; DSL Router; dual amplifier balancers; ductility testers; ducting for electric cables; ducts for electric cables; ducts for housing electrical wires; ducts specially adapted for holding and spacing electricity conduits; duplexer; durometers; dust covers for cameras; dust covers for computers; dust emission monitors; dust goggles; dust masks; dust measuring apparatus; dust proof plugs for earphone jacks; dust protection masks; dust protective goggles; dust protective goggles and masks; dust protective masks; dustproof glasses; dustproof plugs for cell phone jacks; dustproof plugs for cellular phone jacks; dustproof plugs for cellular telephone jacks; dustproof plugs for jacks of mobile phones; dustproof plugs for mobile phone jacks; dustproof plugs for mobile telephone jacks; DVD burners; DVD cases; DVD drives; DVD players; DVD players and recorders; DVD recorders; DVD sleeves; DVDs containing instruction manuals in welding; DVDs containing movie recordings; dvds containing recordings of television shows; DVDs containing recordings of television shows and movies; dvds containing recordings of web television shows; DVDs featuring painting instruction; DVR cards; dye-sublimation printers; dynamic random-access memory [DRAM] modules; dynamometers; e-book readers; e-commerce software to allow users to perform electronic business transactions via a global computer network; e-mail security software; e-passports; ear buds; ear pads for earphones; ear pads for eyeglass frames; ear pads for headphones; ear pads for spectacle frames; ear pads specially adapted for protective sports helmets; ear phones; ear plugs for divers; ear strap for anti-pollution masks for respiratory protection; ear strap for dust protective masks; ear strap for respiratory masks for the prevention of accident or injury; earbud cases; earbuds; earphone accessories, namely, earphone cases; earphone accessories, namely, earphone cushions; earphone shells; earphones; earphones and headphones; earphones and headsets for mobile phones; earphones for mobile telephones; earphones for smartphones; earpieces for remote communication; earth cables; earth satellites for use in earth observation; earth satellites for use in geolocation navigation; earth satellites for use in the security surveillance of national spacecraft; earth terminals; earth wire; echo sounders; echo sounding devices; editing appliances for cinematographic films; editing machines for cinematographic films; editing machines for movie films; education software containing topics of instruction in the field of materials science; educational electronic publications for children in the fields of science, technology, engineering and mathematics; educational electronic publications in the field of humanities; educational electronic publications in the fields of financial services, investing and securities; educational kit comprising DVDs featuring secondary level curriculum on

all scientific disciplines, along with teacher guides, sold as a unit; educational software containing topics of instruction in astronomy; educational software containing topics of instruction in math; educational software containing topics of instruction in nutrition; educational software containing topics of instruction in the field of regenerative agriculture; educational software containing topics of instruction in the fields of mechanical engineering, chemical engineering and electrical engineering; educational software containing topics of instruction in welding; educational software for children; effects pedals for use with electrical musical instruments; effects units for electric musical instruments; effects units for electric or electronic musical instruments; effects units for electronic musical instruments; egg timers; egg-candlers; elastic wave meters; electric accumulators for vehicles; electric adapter cables; electric adapter cables for headsets; electric and electronic effects units for musical instruments; electric and electronic musical effects equipment; electric and electronic phasers for electric or electronic musical instruments; electric and electronic video surveillance installations; electric automatic valves; electric batteries for cameras; electric batteries for e-book readers; electric batteries for personal digital assistants; electric batteries for portable computers; electric batteries for powering electric vehicles; electric batteries for smartphones; electric batteries for tablet computers; electric batteries for vehicles; electric batteries for watches; electric breakers; electric buzzers; electric cable and wire; electric cable assemblies; electric cable channels; electric cable connectors; electric cable extensions; electric cables; electric cables and wires; electric cables for the transmission of sounds and images; electric call bells; electric capacitors; electric capacitors for telecommunication apparatus; electric circuit closers; electric coils; electric connectors; electric control panels; electric control systems for airport baggage handling systems; electric controllers for the remote control of linear motors for use in automated manufacturing; electric controls for programmable sound generators; electric converters; electric current breakers; electric current collectors; electric current control devices; electric current meters; electric current shunts; electric current switches; electric discharge tubes; electric door bells; electric door chimes; electric doorbells; electric double layer capacitors; electric fence chargers; electric fence controllers; electric fence energizers; electric fences; electric flasher switches; electric fuse boxes; electric fuses; electric heat sequencers; electric igniters used in connection with ballasts to start discharge lamps; electric light dimmers; electric light switches; electric linear actuators; electric locks for vehicles; electric motor control units for swimming pool, spa, water park and fountain pumps; electric operators for vehicle windows; electric outlet covers; electric outlets incorporating timers; electric phasers for electric musical instruments; electric phasers for electronic musical instruments; electric phonographs; electric plugs; electric plugs for charging electronic cigarettes; electric pocket translators; electric power converters; electric power distribution units; electric power supplies for electronic cigarettes; electric power supply sockets; electric power switches; electric relays; electric resistors; electric resistors for telecommunication apparatus; electric rotary switches; electric shaver chargers; electric sirens for the mining industry; electric sockets; electric strikes; electric striking plates being controls for lock release in buildings; electric striking plates for locks; electric switch plates; electric switchboards; electric switchbox; electric tactile switches; electric toggle switches; electric toy train transformers; electric transformers; electric transformers for toy trains; electric valve actuators; electric vehicle chargers; electric voltage transformers; electric water levelers for ponds, fountains, and artificial lakes; electric whistles for the mining industry; electric wire and cable; electric wire harnesses for automobiles; electric wires; electric wires and cables; electric wires and connection fittings therefor; electrical and electronic burglar alarms; electrical and electronic components, namely, front-end modules; electrical and optical cables; electrical annunciators; electrical bare wires; electrical cables; electrical cables for projectors; electrical cables with integrated fittings, namely, cordsets; electrical cabling; electrical charge controllers; electrical charging station meters for electrical monitoring; electrical circuit boards; electrical circuit testers; electrical circuits;

electrical coils; electrical conductor cables; electrical conductors for electric motors; electrical conductors for transformers; electrical conductors, namely, electric bus bars; electrical connection boxes; electrical connector housings; electrical connectors; electrical connectors for heat pumps and air conditioners; electrical connectors for junction boxes; electrical connectors for power converters; electrical contactors; electrical control systems for heating and air conditioning systems; electrical control systems for lighting systems; electrical controllers for air conditioning units; electrical controllers for diesel engines; electrical controllers for governing the electrical output of rechargeable batteries; electrical controllers for pizza ovens; electrical controllers for traffic lights; electrical controls for heating, ventilation and air conditioning systems; electrical controls for irrigation sprinkler systems; electrical converters; electrical cord storage reels; electrical cords; electrical current detectors for hydrogen generators; electrical disconnect switches; electrical disconnects for stopping the flow of electricity in an electrical circuit; electrical distribution boxes; electrical distribution substation; electrical ducts; electrical energy utilization meters; electrical extension cords; electrical fuse boxes; electrical fuses; electrical ground fault detectors; electrical humidifier controls; electrical inductors; electrical industrial controls for conveyor systems in underground mines; electrical industrial controls for monitoring waste water treatment; electrical leak detection hardware with embedded operating system software; electrical network analyzers; electrical outlet plates; electrical outlet testers; electrical outlets; electrical overload relays; electrical phonograph record turntable cartridges; electrical pickups for use with musical instruments; electrical plugs; electrical plugs and sockets; electrical power connectors; electrical power distribution blocks; electrical power door lock switches for motor vehicles; electrical power extension cords; electrical power testers; electrical power window switches for motor vehicles; electrical raceways; electrical reactors; electrical receptacles; electrical relays; electrical relays and transformers; electrical resistors; electrical resolvers; electrical signal attenuators; electrical sockets; electrical surge arresters; electrical switches for activating and deactivating vehicle airbags; electrical switchgear, namely, voltage boosting devices for electric power lines; electrical terminal blocks; electrical terminal boxes; electrical terminators; electrical transformers; electrical transformers for telecommunication apparatus; electrical wire; electrical wires; electricity conduits; electricity distribution consoles; electricity limiter; electricity meters; electricity winding wires; electrified fences; electrified rails for mounting spot lights; electro-optic transducers; electroacoustic transducers; electrodes for laboratory research; electrodynamic apparatus for the remote control of railway points; electroluminescent display panels; electrolysis apparatus for producing hydrogen and oxygen from water; electrolytic cells; electrolytic cells for generating hydrogen and oxygen; electromagnetic coils; electromagnetic coils for electric vehicles; electromagnetic coils sold as a component part of a wearable device that delivers electromagnetic frequency waves to humans and animals; electromagnetic flow meters; electromagnetic frequency detectors; electromagnetic locks; electromagnetic measuring detectors; electromagnetic relays; electromagnetic switches; electromagnetic valves; electromagnetic wave generators; electromagnets; electromechanical controls for airplanes; electromechanical controls for room thermostats; electromechanical controls for swimming pools; electromechanical controls for water heaters; electron capture detectors; electron guns; electron microscopes; electron multipliers; electron paramagnetic resonance (EPR) spectrometers; electron tubes; electron-beam tubes; electronic access control systems for interlocking doors; electronic advertising displays; electronic agendas; electronic alarm for providing notice of bed-wetting; electronic alert system for scuba divers comprised primarily of computer software, electric transducer, vibrating motor, antenna and lights; electronic apparatus to practice hockey puck control and hockey stick handling; electronic apparatus to practice precision shooting of a hockey puck by indicating the area of the net where the puck needs to be shot; electronic appointment agendas; electronic appointment diaries; electronic audio signal processors for compensating sound distortion in speakers; electronic auto

shut-off timer switch that provides circuit protection for vehicles power system; electronic automatic coin dispensers; electronic automatic ticket examination machines; electronic ballasts for lamps; electronic black boxes for recording data; electronic book reader covers; electronic book readers; electronic books; electronic burglar alarms; electronic buzzers; electronic cables; electronic calculators; electronic calendars; electronic call bells; electronic carbon dioxide monitors, other than for medical purposes; electronic card readers; electronic cash registers; electronic chips for the manufacture of integrated circuits; electronic cigar batteries; electronic cigarette batteries; electronic cigarette chargers; electronic circuit board; electronic circuit boards; electronic circuit cards; electronic circuits; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; electronic collars for animals; electronic collars to train animals; electronic colour analyzers; electronic combiners for connecting antennas and receivers; electronic components for integrated circuit cards; electronic computers; electronic computers for use in motor vehicles; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control circuits for electric fans; electronic control circuits for electric heaters; electronic control circuits for electronic musical instruments; electronic control gears [ECGs] for LED lamps and light fixtures; electronic control system for lighting systems; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controller for operating electronically alterable window tinting; electronic controllers for flight control systems; electronic controllers for fuel supply to vehicle engines; electronic controllers for furnaces; electronic controllers for HVAC systems; electronic controllers for refrigerators; electronic controllers for use with augmented reality headsets; electronic controllers for use with power converters; electronic controllers for use with virtual reality headsets; electronic controllers for walk in evaporators and condensing units; electronic controllers for walk in refrigeration condensers and evaporators; electronic currency converters; electronic data gloves; electronic data recorders for air vehicles; electronic data recorders for land vehicles; electronic data recorders for vehicles; electronic data recorders for water vehicles; electronic database management software in the field of agriculture and horticulture; electronic databases containing information in the field of allergies recorded on computer media; electronic databases containing information in the field of financial transactions management with financial institutions; electronic databases containing topics related to financial planning recorded on computer media; electronic databases in the field of dentistry recorded on computer media; electronic databases in the field of financial planning recorded on computer media; electronic databases in the field of language training recorded on computer media; electronic databases in the field of law; electronic databases in the field of public infrastructure recorded on computer media; electronic desk calculators; electronic desk calendars; electronic desktop calendars; electronic devices being wireless item locators; electronic devices being wireless peer-to-peer bag finders; electronic devices being wireless peer-to-peer bag locators; electronic devices being wireless peer-to-peer key finders; electronic devices being wireless peer-to-peer mobile phone finders; electronic devices being wireless peer-to-peer wallet finders; electronic devices being wireless peer-to-peer wallet locators; electronic devices being wireless radio-based item finders; electronic devices being wireless radio-based item locators; electronic devices for activating and resetting TPMS (tire pressure monitoring system) sensors; electronic devices for mounting in vehicles and having sensors for tracking operation of advanced driving automation systems; electronic devices for reading, encoding and programming transponder keys; electronic diaries; electronic dictionaries; electronic digital signboards; electronic digital signboards, namely, luminous signs and neon signs; electronic disc title printers; electronic distance meters; electronic door alarms; electronic door locks; electronic drum triggers; electronic effects pedals for musical instruments; electronic effects pedals for use with musical instruments; electronic effects pedals for use with sound amplifiers;

electronic encryption units; electronic equipment for detecting mines; electronic equipment for mine detection; electronic exit alarms; electronic flashing rescue flares; electronic frequency converters for high velocity electro motors; electronic game cartridges; electronic game programs; electronic game software; electronic game software for cellular phones; electronic game software for handheld electronic devices; electronic gift cards; electronic glass break detectors; electronic glossaries; electronic identification cards; electronic in-vehicle parking meters; electronic indicator boards; electronic indicator panels; electronic industrial controls for digital timers; electronic industrial controls for infrared sensors; electronic industrial controls for motion failure detectors; electronic instrument clusters; electronic instruments, namely, logic analyzers; electronic integrated circuits; electronic interactive whiteboards; electronic key fobs being remote control apparatus; electronic keys for automobiles; electronic keys for vehicles; electronic kitchen timers; electronic labels; electronic LED signs; electronic legal publications; electronic load modules; electronic lock assemblies; electronic locking mechanisms for safes; electronic machines for reading credit cards; electronic machines for reading credit cards and recording financial operations; electronic machines for recording financial operations; electronic magazines; electronic magnetostrictive equipment, namely, a wave generator, wave sensor and wave analyzer; electronic mail servers; electronic mail software; electronic marine navigation products, namely, chart plotters; electronic marine navigation products, namely, sonar depth sounders; electronic measuring device that displays a manual wheelchair user's propulsion activity, namely, number of pushes, distance traveled, speed, and cadence; electronic medical publications; electronic metering devices for faucets; electronic metronomes; electronic microphone splitters; electronic Morse code keyers; electronic motion sensitive switches; electronic motor switches for switching off motors; electronic newspapers; electronic notebooks and agendas; electronic notice boards; electronic numeric blackboard; electronic organizers; electronic oscillators; electronic pagers; electronic paper displays; electronic parking information terminals; electronic parking lot ticket dispensers; electronic payment terminals; electronic pens; electronic pens for visual display units; electronic periodicals; electronic personal identification number (PIN) pads; electronic personal organisers; electronic personal organizers; electronic photometers; electronic pipette battery chargers; electronic pipettes; electronic pipettes for laboratory use; electronic planners; electronic plant moisture sensor; electronic plotters; electronic pocket agendas; electronic pocket calculators; electronic pocket diaries; electronic pocket translators; electronic point of sale (epos) systems comprising computer hardware and computer software for processing electronic payments; electronic point of sale (epos) systems comprising telecommunications apparatus and instruments, namely, point of sale printers and terminals; electronic position indicator for onboard boat pontoon lifts; electronic position indicators; electronic power converters; electronic power transformers; electronic publications concerning the standards of qualification, competencies, and conduct of patent agents and trademark agents; electronic publications in the fields of child care, child development and child psychology; electronic publications, namely, newsletters in the field of accounting recorded on computer media; electronic publications, namely, newsletters, brochures, reports and guides in the field of cannabis; electronic questionnaires, reports, manuals, checklists, videos, and presentations, all in the field of detecting and treating behavioural disorders; electronic random number indicator equipment [ERNIE]; electronic recorders for storing and archiving information related to power system faults; electronic scalers for audio and video signals; electronic scoreboards; electronic semi-conductors; electronic semiconductors; electronic sensors for detecting microbes; electronic sensors for measuring solar radiation; electronic servo motor controllers; electronic shelf labels; electronic simulators for firearms training; electronic simulators for training police, security guards, and armed personnel regarding the use of force; electronic slag detectors for use in the metal smelting and steelmaking process; electronic slide calipers; electronic sliding callipers; electronic sound pickups for guitars and basses; electronic speed

controllers; electronic stud finders; electronic switchers for audio and video signals; electronic tags for goods; electronic tags for inventory control purposes; electronic taximeters; electronic telephone dialers; electronic telephone number displays; electronic temperature controllers for industrial furnaces; electronic terminals for generating lottery tickets; electronic terminals for highway toll collection; electronic timers; electronic toll smart cards; electronic touch screen displays; electronic transformers for use in motor vehicles; electronic transit information signs; electronic vehicle lock system including remote control; electronic virtual reality gloves; electronic warning bells; electronic warning signal chimes; electronic water control devices, namely, control units for use in the monitoring and conservation of water usage; electronic water control devices, namely, control units for use in the timing and operation of irrigation systems; electronic waveform generators; electronic waveguides; electronic weighing scales for kitchen use; electronic weighing scales for personal use; electronic window alarms; electronic writing tablets; electronically encoded badges and swipe cards for use with time clocks; electronically encoded identity wristbands; electrophoretic displays; electroplating parameter testers; electrostatic copying machines; electrostatic emission control devices, namely, electrostatic precipitators for reducing particulate emission in industrial applications; electrotechnical vibration meters; elevator control panels; elevator performance monitoring system, namely, embedded software in controllers for monitoring elevator functions; elevator switches; embedded operating software; embedded operating software for banking management; embedded operating software for financial management; embedded SIM cards; embedded software for analyzing, measuring, reporting and limiting the startup current in electric motors sold as a component of electronic soft starters; embedded software for controlling the status of electrical distribution in electric motors sold as a component of electronic soft starters; embedded software for managing power of cameras and parts thereof; embedded software for monitoring, controlling, and energy optimizing of electric motors in industrial machines sold as a component of electronic controllers and electronic motor drives; embedded software for optimizing the power usage for cameras and parts thereof; embedded software for use in automation of industrial machines sold as a component of electronic controllers and electronic motor drives; emergency alert paging system consisting of led message boards with text messaging capabilities; emergency drench showers; emergency eyewash station; emergency light bars for vehicles; emergency lights; emergency locator transmitter (ELT); emergency position-indicating radio beacons; emergency signal transmitters; emergency thermal blankets for retaining body heat; emergency thermal blankets for retaining body heat, not for medical purposes; emergency warning lights; encoded bank cards; encoded bar code labels; encoded charge cards; encoded consumer coupons; encoded credit cards; encoded debit cards; encoded electronic chip cards for identifying particular users of computers and cell phones; encoded electronic chip cards for identifying particular users of computers and cellular telephones; encoded electronic chip cards for identifying particular users of computers and mobile phones; encoded gift cards; encoded holograms for genuine product certification; encoded identity cards; encoded integrated circuit cards; encoded key cards; encoded key cards, namely, encoded identity cards, identification cards with embedded chips, identification smart cards; encoded loyalty cards; encoded magnetic identification bracelets; encoded membership cards; encoded payment cards; encoded prepaid credit cards; encoded prepaid magnetic cards; encoded prepaid payment cards; encoded reward cards; encoded smart cards for accessing and making payments at charging stations; encoded telephone cards; end switch; endoscopy cameras for industrial purposes; energy meters for tracking and monitoring energy usage; engine hour meters; enterprise software featuring technology to analyze and govern application provisioning and use for purposes of optimizing performance, engagement and efficiencies; entry door systems comprising touch pads and security doors; environmental test chamber, namely, temperature simulation equipment; epidiascopes; equatorial telescopes; erasing magnets; ergometers; escape hoods; ethernet adapters; ethernet cables; ethernet cards; ethernet

Trademark Description

The mark consists of the stylized words "PACK WARS" in a stacked formation. "PACK" is colored white featuring gray shading. "WARS" is colored yellow and outlined in blue. To the left of "PACK" is the stacked yellow wording "UPPER D E C K", with three yellow circles separating the letters in the word "D E C K", all appearing across a tilted rectangle design superimposed over a diamond shape. The top half of the tilted rectangle design superimposed over a diamond shape is colored yellow and the bottom half is colored orange. The center of the rectangle and a portion of the top and bottom diamond shape featuring extending horizontal lines is colored blue. All of this is on a black background that roughly follows the contours of the above described elements.
