Trademarks Journal

Vol. 73 No. 3726

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 01

(1) Coolants; antifreeze; hydraulic fluids; chemical motor oil additives; chemical additives for engine oil; chemical additives for fuel treatment; chemical treatments for internal combustion engines, namely, anti-knock substances; chemical additives for use with internal combustion engine fuels

Class 07

(2) Diesel and gasoline-driven internal combustion engines for boats, other than land vehicles, and parts therefor; diesel and gasoline-driven internal combustion engines for mining equipment and parts therefor, and replacement parts for all the aforesaid; diesel engines for mining machines, and replacement parts therefor; engines, other than for land vehicles, namely, boat engines, airplane engines, marine engines, engines for industrial machinery; engines for boats; motors for boats; compressed air engines for other than land vehicles, namely, compressed air engines for industrial machinery, and replacement parts therefor; driving motors other than for land vehicles for use in agricultural machinery, industrial machinery, remote controlled robots, and replacement parts therefor; oil filters; oil, gasoline, diesel fuel and air filters for motors and engines; filters for cleaning cooling air for engines; fuel filters and structural parts thereof; air filters for engines and motors and oil filters and structural parts thereof; oil, gasoline, air and fuel filters for motors and engines of land and marine vehicles; engine parts, namely, turbochargers and parts thereof; canisters and housing for air filters for engines and motors and oil filters, and replacement parts therefor; filters for the reduction of emissions from exhaust and the reduction of noise for use with engines; machine parts, namely, heavy-duty starting fluid pumping systems comprised of electrical and mechanical mounting kits containing valves and valve fittings, cylinder clamps, switches, control cables, compression nuts and sleeves, starting fluid cylinders and gaskets, starting fluid spray cans and injectors, sprayers and atomizers, and replacement parts therefor; parts of machines, namely, compressed air pumps, air condensers, starter alternators, anti-friction bearings for machines, anti-friction pads for machines, machine aprons, axles for machines, ball rings for bearings, ball-bearings for use in industrial machinery, and replacement parts therefor; bearing brackets for machines, bearings for transmission shafts, engine bearings; machine parts, namely, bearings and bushings, roller bearings, bearing housings and bearing inserts; engine parts, namely, fan belts for

motors and engines, belt conveyors, belts for conveyors, belts for machines, belts for motors and engines; cartridges for filtering machines being air filters, fuel filters, and lubricant filters used in heavy-duty diesel engines, and replacement parts therefor; centrifugal grinding machines; centrifugal compressing machines; centrifugal machines being centrifugal blowers, centrifugal casting machines; machines for the centrifugal separation of fluids for industrial use, and replacement parts therefor; compressed air machines, namely, compressed air dryers for vehicle engines, compressed air pumps, and replacement parts therefor; compressed air pumps; connecting rods for machines, motors and engines; fuel conversion kits for internal combustion engines comprising supply lines, fuel cylinders, fuel-specific injectors, and replacement parts therefor; crank shafts; crankcases for machines, motors and engines; cranks being parts of machines, and replacement parts therefor; cylinder heads for engines; cylinders for motors and engines; pistons; pistons for cylinders; exhaust pipes for motors and engines and replacement parts therefor; fans for motors and engines; fuel injection devices for internal combustion engines; gear boxes other than for land vehicles, namely, gear boxes for motors, gear boxes for engines, gear boxes for industrial machinery, and replacement parts therefor; Planetary gears, other than for land vehicles, and replacement parts therefor; Bearing housings for machines; and replacement parts therefor; igniting devices for internal combustion engines, namely, ignitions for vehicles, and replacement parts therefor; injectors for engines; joints for engines; lubricating pumps; control cables for machines, engines and motors for use in industry, and replacement parts therefor; control mechanisms being control valves for regulating the flow of gasses and liquids for machines, engines and motors other than for land vehicles, and replacement parts therefor; pneumatic controls being pneumatic valves for machines, motors and engines other than for land vehicles, and replacement parts therefor; Chaser machine tools used to assemble, disassemble, repair, service and maintain machines, motors and engines in vehicles for land use, and replacement parts therefor; Chaser machine tools used to assemble, disassemble, repair, service and maintain machines, motors and engines in vehicles other than for land use, and replacement parts therefor; mufflers for motors and engines; pumps, namely, axial pumps, lubricating pumps, air compressor pumps, circulating pumps, bilge pumps, engine fuel pumps, hydraulic pumps, pneumatic pumps for machines, engines and motors, and replacement parts for all the aforesaid; cooling radiators for motors and engines; reduction gears other than for land vehicles; piston rings; sealing joints for engines; machine shaft couplings; silencers for motors and engines; sparking plugs for internal combustion engines; starters for motors and engines; transmission chains other than for land vehicles, for industrial machinery, and replacement parts therefor; transmission shafts, other than for land vehicles, namely, for boats, for industrial machinery, and replacement parts therefor; transmissions for machines; transmissions, other than for land vehicles, namely, transmissions for machines, and replacement parts therefor; turbo compressors for engines; valves for machines, namely, valves being parts of machines, ball valves being parts of machines, back pressure valves being parts of machines, butterfly valves being parts of machines, angle valves being parts of machines, hydraulic valves being parts of machines, pressure regulating valves being parts of machines, and replacement parts for all the aforesaid; emission pollution control systems for machines, motors and engines other than for land vehicles, namely, electrostatic emission control devices being precipitators for reducing particular emission in industrial applications; engine parts for vehicles, namely, camshafts, fuel nozzles, compressors, crankcases, crankcase breathers, exhaust manifolds, exhaust silencers, ignition parts, namely, condensers and points, radiators, starters, oil tanks, oil tank plugs and caps, push rods, rocker arms, water pumps, and engine cases; power tools and attachments therefor for automotive and industrial use, namely, vacuum pumps; power tools for industrial use in measuring and testing engines and generators in connection with automotive, engine and vehicle diagnostics, maintenance and repair, namely, valves being parts of machines for regulating pressure; machine

tools in the nature of metal spring tensioning bars for providing and maintaining tension between two engine components; power tool accessories in the nature of barring socket adaptors being parts of machines to connect a power operated rotator to the drive gears of an engine to enable the power rotator to operate the drive gears and facilitate assembly and synchronization of engine components for automotive and industrial use in measuring and testing the function of engines and generators in automotive, engine and vehicle diagnostics, maintenance and repair; oil, gasoline, diesel fuel and air filters for the reduction of emissions in for motors and engines; air filters for pneumatic controls being parts of machines and oil filters for mechanical purposes, and replacement parts therefor; hydraulic fluid filters for mechanical purposes, namely, hydraulic filters for vehicle engines, and replacement parts therefor; emission reduction filters for the reduction of emissions from exhaust and the reduction of noise for use with engines; Air filters for engines; fuel economizers for motors and engines, lubricating pumps and oil refining machines, namely, oil separators; emission pollution control systems, namely, emission reduction units for motors and engines, namely, EGR valves, PCV valves, catalytic converters; alternators, for trains; alternators for boats, alternators for motor vehicles, and replacement parts therefor; hydraulic controls being hydraulic valves for machines, engines and motors; fan belts for motors and engines; diesel engines for boats; motors, electric other than for land vehicles, namely, electric motors for machines, and replacement parts therefor; dynamos; automobile engine spark plugs; turbochargers, superchargers, replacement spares of turbochargers and superchargers, air compressors and wastegate valves for machines and for engines other than for land vehicles; machines and machine tools for removing waste materials and motors for such machines; fuel vending pumps for service stations; engines for air cushion vehicles

Class 12

(3) Internal combustion engines for land vehicles; engines for land vehicles; motors and engines for land vehicles; transmissions for land vehicles; air pumps for automobiles; driving chains for land vehicles; couplings and belting for land vehicles, namely, trailer couplings, drive belts, belts for vehicle transmissions; replacement parts for the aforesaid goods

Class 16

(4) Decorative decals for vehicles; pens; gift bags, of paper, gift bags of plastic, gift bags of cardboard; desktop business card holders; blank journals; note pads; note paper; presentation folders; manuals and brochures in the fields of operation and maintenance of engines, power generators, and alternators; catalogs in the field of replacement parts for engines, power generators, and alternators; calendars

Class 25

(5) Men's and women's clothing, namely, sweatshirts, hooded sweatshirts, aprons, shirts, jackets, baseball caps and hats, ski caps, fleece caps, gloves, headbands, scarves, quilted vests, and coveralls; t-shirts for toddlers and children

Services

Class 37

Maintenance, repair and servicing of aviation engines, internal combustion engines and of parts thereof; maintenance, repair and servicing of turbochargers and air compressors and parts and fittings therefor; vehicle maintenance; motor vehicle maintenance and repair services; vehicle engine maintenance and repair services; servicing of internal combustion engines and of parts thereof; rebuilding machine engines that have been worn or partially destroyed; rebuilding engines that have been worn or partially destroyed; vehicle lubrication; electrical generator maintenance and repair services; repair and maintenance of generating plants and generator sets; vehicle fleet

maintenance services; servicing, repairing, reconditioning and rebuilding of small engines and parts thereof; information and advisory services relating to maintenance, repair, servicing, reconditioning, and rebuilding of engines, motors, and parts thereof

Colour Claim

Colour is claimed as a feature of the trademark. Colours red, green and white are claimed as a feature of the mark. The mark consists of an upside-down sauce bottle. From bottom to top (the "bottom" of the trademark would be the "top" of the bottle if it was standing upright): at the bottom right, two red drops of sauce are pouring from the image of bottle. The body of the bottle is red and features two labels: a first label on the neck of the bottle in green bearing the inscription "TABASCO" in white; A second diamond-shaped label appears on the body of the bottle featuring a white background. This second label is outlined by a thin red line along its edges, defining its diamond shape. From bottom to top, the label contains the following text elements, arranged within a circular shape formed by two red lines: "MADE IN U.S.A." in red, "McILHENNY CO" in green, "AVERY ISLAND LA" in red, "TABASCO" in green, "BRAND" in red and "PEPPER SAUCE" in green.

executive and leadership development; provision of business information in the nature of contact information of customers, suppliers, partners and intermediaries, sales figures, sales history; commercial information and advice for consumers in the choice of products and services relating to the field of harnessing renewable energy resources, electrical and electronic equipment, namely apparatus for lighting and power tools; provision of commercial advice in the field of software; sales promotion for others in the field of alternative energy sources, electricity and energy conservation, industrial machinery and construction; tracking and monitoring of energy consumption for others; tracking and monitoring of energy consumption for others for auditing purposes; assistance and advisory services in the field of business management for companies in the energy sector; compilation of information into computer databases for the production of statistics; computerized file management services; website traffic optimization; business management services relating to information and data compilation and analysis; technical and commercial data analysis in the nature of customer contact information, website traffic statistics; computer file management; systematization of information into a database; updating and maintenance of data in computer databases; preparation of statistics; wholesale and retail of apparatus and instruments for conducting, switching, connecting, transforming, accumulating, regulating, measuring and controlling electric current, namely electrical current meters, electrical cables and conduits for use in electrical work; wholesale and retail of appliances and products for lighting, heating, air conditioning, air cooling, and household appliances; wholesale and retail of manually or electrically operated tools and instruments for cutting, drilling, measuring, tightening, setting, unrolling, stripping and pulling wires, sheaths and cables, soldering, filing, building; wholesale and retail of screwing and bolting products and fasteners, mechanical or chemical, namely metal screws, metal bolts; wholesale and retail of plastic plumbing and air conditioner hoses, insulation and insulating products and materials, namely thermal insulation, electrical insulation; wholesale and retail of apparatus and instruments for the surveillance, safety and security of people, property, access and sites, namely personal and safety security alarms, biometric sensors for access control systems, safety glasses, safety helmets for use on construction sites; wholesale and retail of apparatus and installations for the remote control of electrical apparatus, namely alarms vehicles, apparatus for lighting, apparatus and installations for heating and air conditioning, apparatus and installations for home automation and building automation, namely systems for home security and for the remote control of industrial automation systems; wholesale and retail of apparatus for recording, transmitting, reproducing sound, images or data, including apparatus and instruments for communications, namely digital recorders, digital cameras, video cameras, televisions, loudspeaker enclosures, disc players, audio and video receivers, mobile telephones; wholesale and retail of computer hardware, including computer peripherals, cables and connection plugs for computer hardware and installations; wholesale services for computer software; retail services in the field of computer software; procurement of energy supply contracts; recording of data regarding energy consumption in buildings; data search in computer files in connection with the field of alternative energy sources, electricity and energy conservation, industrial machines and construction for others.

Class 37

(2) Installation of automation equipment for construction; maintenance of buildings, cleaning of commercial premises; laundry services; installation, maintenance and repair of apparatus for lighting; repair of apparatus for lighting; installation and repair of apparatus for heating; installation and repair of apparatus for air conditioning; installation and repair of apparatus for air cooling; installation and repair of electric apparatus, namely installation of home appliances, repair and maintenance of electrical systems; installation, maintenance and repair of computer networking and information technology equipment, namely, computer hardware; installation of residential solar

panel energy systems; installation of industrial and commercial solar panel energy systems; installation and maintenance of photovoltaic installations; maintenance and repair of air purification units, maintenance and repair of heat and energy recovery ventilators, installation, maintenance and repair of control equipment for heating, ventilation and air conditioning; installation, maintenance and repair of ducts for the transport, distribution and storage of energy; installation, commissioning, maintenance and servicing of equipment for protecting property and individuals, namely fire protection systems; information, inspection and advice related to the construction of residential and commercial buildings and the supervision of construction and renovation work in homes, industrial and tertiary buildings and equipment for the improvement and control of energy consumption; advisory services related to the maintenance and repair of mechanical and electrical equipment in connection with the field of alternative energy sources, electricity and energy conservation, industrial machines and construction, namely meters for measuring electric current; advice related to civil engineering [construction]; construction of public works in the nature of government buildings, bridges and roadways, schools, libraries; rental of construction tools; rental of cranes [construction machines]; provision of information related to building construction, repair and maintenance.

Class 39

(3) Information related to the transport of goods by motor vehicle, airplane, boat, train and truck; services for the transport of goods by automobile, airplane, boat, train and truck; transport of goods by motor vehicle, airplane, boat, train and truck; rental of vehicles; rental of loading and unloading machines and apparatus; packaging and storage of goods; storage services; freight and loading services; rental of containers; rental of storage units; rental of packaging and wrapping machines for the storage, transportation and distribution of goods; distribution [delivery] of goods by motor vehicle, airplane, boat, train and truck.

Class 41

(4) Entertainment services in the nature of non-downloadable television programs, radio programs, documentaries and movies in the field of alternative energy sources, electricity and energy conservation, industrial machinery and construction; education services in the nature of the provision of tutoring sessions in the field of alternative energy sources, electricity and energy conservation, industrial machinery and construction; education and training in the field of business, industry and information technology in connection with the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; organization and conduct of colloquia, conferences and conventions in the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; organization of shows in the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; organization and conduct of seminars in the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; organization and conduct of educational fairs in the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; organization and conduct of entertainment events, namely shows in the field of alternative energy sources, electricity and energy conservation, industrial machinery and construction; publishing of books and magazines.

Class 42

(5) Technical advice, consultation and research in the field of testing and evaluation of materials and installations for conducting, switching, transforming, accumulating, regulating, measuring and controlling electric current; technical advice, consultation and research, namely design and development of equipment and systems for heating, ventilation and air conditioning; technical advice, consultation and research in the field of home automation, building automation and

industrial automation; technical advice, consultation and research in the field of home security and the remote monitoring of individuals and property, industrial facilities, service activities and private homes; technical advice and studies for the evaluation of technical performance in the field of renewable energy resources for the analysis of compatibility and integration opportunities of electrical equipment in complex electrical installations; technical advice in the choice of electrical and industrial equipment likely to meet the technical needs defined in the technical specifications; provision of quality control for the computer software development industry and for the electrical installation development industry; technical design and expertise in the fields of production of electric, wind, solar, hydraulic, geothermal, thermal, climatic energy, renewable energy; advice related to product development; advisory services related to technological research in the field of building construction materials and in the field of computer hardware systems; technical advice in the field of environmental engineering; technical consultant services in the field of pollution detection; technical advisory services related to information technology, namely assessment services relating to information technology security as well as to computer and network vulnerability; computer services for information technology security, protection and restoration in the nature of computer security services for restricting unauthorized access to computer networks, computer security threat analysis for data protection, and computer data recovery services; advisory services related to software human machine interfaces, namely advisory services in the field of software development; advisory services related to computer programming; advisory services related to computer database programs; advisory services related to energy consumption; advice related to energy savings; technical advice and information related to energy and energy management, namely energy auditing, energy engineering; environmental risk assessment; technical project studies in the fields of computer hardware and software; materials testing; research in the field of environmental protection; technological research in the field of building construction materials, specifically in connection with electrical installations and in the field of computer hardware systems; apparatus analysis and testing services, namely research and design in the field of electrical engineering; engineering services in the field of environmental compliance, carbon dioxide emissions and energy efficiency; research in the field of artificial intelligence technology; technical industrial analysis and research related to home automation and smart networks; energy auditing; technical design for new goods and services in the field of electrical equipment and installations, and in the field of tools; technical design and technical project management for the development of lighting equipment; design and development of photovoltaic systems; design, development and programming of software; design of diagnostic equipment and apparatus, namely software for diagnosing breakdowns, in connection with the field of energy management and the field of the distribution of electrical equipment to professionals; graphic art design services; project management in the field of information technology in connection with the field of renewable energy resources and electrical equipment and installations, namely industrial machines; management of computer software and hardware projects for data centres; engineering project management services in connection with the field of renewable energy resources and electrical equipment and installations, namely industrial machines; computer project management in the field of electronic data processing [EDP] relating to the field of renewable energy resources and electrical equipment and installations; engineering services as well as analysis, research and technical expertise services in the field of energy in connection with the fields of energy management and distribution of electrical material to professionals, namely apparatus for lighting; provision of virtual computer systems and virtual computer environments through cloud computing; cloud computing services in the nature of technical advice relating to artificial intelligence; artificial intelligence advice; remote monitoring of computer systems; development of computer hardware; data mining services in connection with the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; server hosting; electronic data storage,

namely archiving of business documents, personal documents and corporate documents; digitization of sound and image; analysis of computer systems; rental of computers; integration of computer systems and networks; rental of software; management of computer servers; computer services provided in the context of the rental of access time to a database server centre; technical advisory services related to information technology in connection with the field of alternative energy sources, electricity and energy conservation, industrial machines and construction; installation, programming and maintenance of home automation systems and programmable controllers for energy performance, consumption management or smart network management; remote management services for gas, heat or electricity storage facilities and distribution networks.

Class 07

(2) Automated machines for customized, secured and controlled storage, management, tracking, purchasing and dispensing of consumer products, namely, personal care products, and healthcare products, namely, medications, pharmaceuticals, and medical supplies; agricultural machinery and robotic mechanisms used in agriculture, livestock, agricultural sectors and grain, fruit, vegetable, food processing; computerized machines for separating livestock into different pens by physical criteria, namely, weight, dimensions or other physical characteristics; computerized livestock feed mixing machines; apparatus for batching animal feeds in a feedmill, namely, a batching machine that includes a programmable feedmill control system comprising a computer and computer software for batching feed from individual ingredient bins to the finished feeds.

Class 09

(3) Automated machines designed to measure out a pre-determined amount of consumer products, namely, personal care products, healthcare products and supplies, namely, medications, pharmaceuticals, and medical supplies for customized, secured and controlled storage, management, tracking, purchasing and dispensing of such products; downloadable computer software for the management, operation of, and data reporting for automated dispensing equipment for the management, purchasing and dispensing of consumer products, namely, personal care products, healthcare products, namely, medications, pharmaceuticals, and medical supplies; computer software for use in pharmacy management, namely, computer software for inventory management; software for modeling data, analyzing data, namely, text, graphics, video, and audio, interfacing with databases, namely, digital databases, presenting data and creating learning tools for understanding data, namely, text, graphics, video, and audio, all of the aforementioned for use in the healthcare, namely, medical care, medical devices, pharmaceutical and biotechnology fields; downloadable electronic instructional and marketing publications, namely, published research abstracts, namely, printed research papers, research posters, slides, namely, presentation slides, reports, namely, printed medical reports, reports, user manuals, instructional brochures, marketing brochures, handouts, namely, flyers, brochures, periodicals, newsletters, reprint articles, training guides and tutorials, namely, journal articles, instructional resource cards, namely, printed instruction materials, flow charts and diagrams, namely, printed diagrams, all of the aforementioned for use in the healthcare, namely medical care, medical devices, pharmaceutical and biotechnology fields; hand held bar code reader and software to be used therewith by which to track the shipment, receipt, stocking and ordering of medical and pharmaceutical inventory for hospital and retail pharmacies; measuring instruments, instruments, gauges and materials used in laboratories, namely, beakers, centrifuge tubes, flasks, calipers, burettes, thermometers, petri dishes, all of the aforementioned for scientific and laboratory use;

electronic publications that can be downloaded via computer networks, namely, downloadable electronic publications of books, journals, catalogues, brochures, directories, magazines and recorded on magnetic and optical media, namely, blank recordable DVDs; cards with magnetic and optical readers, namely, magnetic encoded card readers; protective clothing and equipment for protection and life saving, namely protective face masks and gloves especially made for laboratory use and for protection against accident or injury; payment processing systems, namely, electronic payment terminals and computer software to allow users to perform electronic payment transactions and credit and debit transactions; downloadable educational and training materials and resources, namely, downloadable electronic publications of books, journals, catalogues, brochures, directories, magazines; computer software for recording and tracking drug orders, checking doses of drugs on a single, multiple and cumulative basis, and for tracking information for reimbursement of medication costs; computer hardware and software which allow electronic communications between pharmacy and nursing in a hospital or clinical setting; data, namely, text, graphics, video and audio apparatus comprised of video screens, video cameras, speakers and telecommunications transmitters, namely, radio transmitters and video transmitters for communications between a customer and a pharmacist; workflow management systems, namely, software for accessing and integrating data and workflows in the field of healthcare, namely, medical care, medical devices, pharmaceutical and biotechnology for use in pharmacies and in pharmacy-like settings, namely, hospitals; computer software, computer hardware, scanners, printers and peripherals, namely, bar code readers, hand-held electronic label printers for use in managing the process of prescription order fulfilment; automated dispensing machines for dispensing veterinary medications and computer operating software therefor for managing inventory of said medications and sold as a unit therewith, for veterinary healthcare facilities; downloadable electronic publications in the field of oncology, namely, periodical magazines and newsletters featuring articles about cancer treatments, and featuring business and industry news of interest in the operation of oncology practices; downloadable procurement and inventory management software that enables users to requisition, track the location of, monitor use, and automatically create electronic purchase orders to suppliers with regard to medical, surgical and hospital products; computer software program for use with courier services, namely, the communications software used by the applicant for communicating with the courier network operated by applicant and for communicating and interfacing with the inhouse equipment of applicant's clients, namely, computer software for facilitating online communications between logistics service providers and customers via a global computer network; automated machines, namely, automated temperature control storage units for customized, secured and controlled storage, management, tracking, purchasing and dispensing of healthcare medications and pharmaceuticals; computerized livestock feedlot management systems, namely, computer hardware, computer programs and associated instructional materials for managing feedlot business, financial and operational functions including accounting and billing, drug inventory and usage, animal treatment and health histories, feed inventory and consumption, microingredient feed additive inventory and usage, operation and control of feed ration batching equipment, operation and control of microingredient feed additive formulating and delivery equipment, feed ration consumption assessment and feed quality planning, and feed ration production and delivery scheduling and routing; computers and computer programs sold separately and together for recording livestock data on an individual animal and herd basis and for managing livestock, namely, individual animals and herds of animals that produce dairy and meat products, such programs comprised of computer programs for managing inventories of pharmaceuticals, feed and other consumed products, for managing quality assurance by monitoring the background, birth, weaning weights, health histories, measurements and performance of individual animals with milk or meat withholds, for providing individual animal identification, tracking and trace-back through

supply chains and for compliance with process, age, source and N.A.I.S. requirements for creating and managing feed rations and monitoring the nutrients in components of such rations, for creating management reports concerning the foregoing on an individual animal and herd basis, such reports containing financial reports and graphs, profit and loss statements, milk and meat production reports and graphs, medical and health reports including vaccinations, treatment histories and future protocol treatments, feed ration intake and adjustment reports, and individual animal expense reports; downloadable computer software for measuring the distance and area of images retrieved from a video source, namely, computer software for processing digital images, and operating manuals sold therewith; apparatus for batching animal feeds, namely, a programmable feed mill control system consisting of a computer, computer software to control the batch size, mix, schedule, and delivery of animal feed; electronic isolation relays, uninterruptible power supply, computer monitors, and manual and electronic controls therefore, all sold as a unit; livestock bunk reading and feed truck feeding system comprising a computer program for use within a computer in a truck and in a feed truck, the program for maintaining feed records for livestock pens at a feedyard and for recording the feed required to fill the feed bunks in the pens to a desired level; micro-ingredient formulating machine, namely, a programmable measuring, dispensing and mixing apparatus for dispensing and delivering micro-ingredient feed additives in weighed amounts for mixing with animal feeds; In-line flow control and flow monitoring device in the nature of computer hardware for dispensing and blending feed materials and flowable dry materials, namely, animal feed, oilseeds, pulses and cereal grain; computer software for use by the livestock industry that utilizes a uniform set of database standards for use in tracking and tracing back movements of individual animals through a supply chain from producers to processor to market, namely, software for traceback compliance and management; web-based software program, namely, downloadable computer software for cattle owners to help them manage their risk, namely, software for reducing inefficiencies and optimizing performance, namely, feed management, namely, operations management computer software for animal feed mills, health management, information management in the field of animal health care, and marketing management, and National Animal Identification System (NAIS) Compliance.

Class 10

(4) Products, devices, tools and implants comprised of artificial material for use in veterinary orthopedics, namely, titanium pins, surgical clamps and carbon fiber rods for immobilizing bones; specialty tools, namely, templates for orthopedic purposes; orthopedic instruments, namely, surgical instruments for use in orthopedic surgery, power drills, headlamps; orthopedic instruments, namely, surgical instruments for use in orthopedic surgery, surgical power drills, headlamps for use during surgery; devices, tools and implants comprised of artificial material for use in external skeletal fixation, namely, external fixators, cranial cruciate ligament repair, skeletal fixation pin and wire management, internal skeletal fixation and equine skeletal transfixation, all of the aforesaid being surgical instruments; orthopedic drill bits, self-centering drill bits, connecting bars, namely, bits for surgical drills, carbon fiber rings, drill sleeves, swaged on monofilament with cruciate needles, swaged on surgical sutures with cruciate needles, tibial plateau leveling osteotomy plate (tplo), tibial tuberosity advancement implants (tta) comprised of artificial material, bone anchors, all of the aforesaid being surgical instruments; surgical apparatus, namely, surgical instruments; home diagnostic and medical testing equipment, namely, thermometers to measure body temperature, glucose level testing apparatus, and apparatus to measure blood pressure; surgical, medical, paramedical, oxygen therapy, dental and veterinary apparatus, namely, surgical instruments, dental instruments, veterinary instruments, artificial limbs, artificial eyes and artificial teeth; suture material; air mattresses for medical purposes; prostheses, namely, bone prostheses, dental prostheses, joint prostheses, orthopaedic hip prostheses; syringes for medical purposes;

instruments and devices for surgery, medicine, dentistry and veterinary medicine, namely, surgical instruments, veterinary instruments, and dental instruments; injection needles; surgical sutures (catgut); artificial respiration devices, namely, apparatus for artificial respiration; blood pressure monitors; hearing aids; medical analysis instruments and devices, namely, medical instruments for general examination; medical radiological devices, namely, radiological equipment for medical purposes; stretchers, namely, medical stretchers; artificial organs and prostheses, namely, artificial eyes and artificial teeth; orthopedic bandages; medical corsets; compression stockings; orthopedic shoes; supportive bandages and dressings; suspensory bandages; birth control devices, namely, contraceptive implants; electric bed warmers and blankets for medical purposes; steam baths for therapeutic purposes, massagers and instruments for patient gymnastics, namely, manually-operated resistance bands for physical therapy purposes; operating room clothes, namely, clothing especially for operating rooms, surgical caps, surgical gloves and masks, sterile sheets, absorbent sheets for patient beds; automatic dispensing machines for chemotherapeutics; home diagnostic and medical testing equipment, namely, thermometers to measure body temperature, namely, fever thermometers, glucose level testing apparatus, namely, blood glucose meters and apparatus to measure blood pressure; surgical apparatus and instruments, namely, surgical crimping tools, universal tensioning device, implant crimp clamps comprised of artificial material, saw and blade attachments to power drill, screws, needles, retractors, pin and wire cutters, punches, wire twisters, ruler, screw fixation plates, reconstructive plates, lengthening plates, drill guides, benders, pliers, mallets, and transfixation pin placement device for placement of transfixation pins; veterinary apparatus, tools, instruments and parts thereof, namely, surgical instruments for veterinary use; goods of metal for medical use, namely, screws, namely, bone screws, plates for dental use, pins and pivots for artificial teeth; animal health and veterinary supplies, namely, anesthesia bags, endotracheal tubes, padding for orthopedic casts, Elizabethan collars for veterinary purposes, splints, prophy angles, prophy cup, mats for examinations, specimen devices in the nature of loops for the collection of fecal matter, fecal diagnostic kits comprised of specimen containers and lids, fecal flotation media for use in fecal collection, specimen devices in the nature of tubes for the collection of milk, digital thermometers for medical use, tonometer pen tip covers, chambers for inhalers, catheters and parts and fittings therefore, medical apparatus for intravenous administration of fluids and parts and fittings therefore, intravenous bags sold empty for intravenous therapy, needles for medical use, medical syringes and syringe caps; medical gloves, medical gowns, medical ice packs, medical devices for closing wounds, namely, sutures, surgical staples, support bandages; medical protective devices, namely, elizabethan collars for dogs; products, devices, tools and implants comprised of artificial material for use in veterinary orthopedics, namely, light sources and products, namely, surgical headlights; devices, tools, and implants comprised of artificial material for use in external skeletal fixation, cranial cruciate ligament repair, skeletal fixation pin and wire management, internal skeletal fixation and equine skeletal transfixation pin management, namely, polymer compound, fixation clamps, pin placement devices, bolts, axial fixators, pins, and steel rods; kit set of metal bone plates and metal screws for medical use; medical veterinary crimping instruments for surgical use; needles and syringes for veterinary use, namely, hypodermic needles, injection syringes, hypodermic syringes, dental syringes; veterinary clinic supplies and equipment, namely, surgical instruments and supplies, namely, knives for surgical purposes, latex gloves for surgical purposes, face masks for surgical use, disposable surgical caps, disposable surgical masks, testing and diagnostic equipment and supplies used in the treatment of small and large animals, namely, x-ray diagnostic apparatus, ultrasonic medical diagnostic apparatus, blood collection bags for veterinary purposes; products used for oral hygiene, ear and eye care, grooming and the home care of small and large animals, namely, oral irrigators for use in dentistry, tongue depressors, ear picks, medical apparatus, namely, an ear wash device in the nature of a container to be filled with appropriate fluid by the

user for flushing ear wax from the ear, eye droppers for medical purposes.

Class 11

(5) Apparatus for maintaining a temperature-controlled liquid suspension of live probiotic anaerobic bacteria and delivering the suspension into animal feed, namely, temperature controlled dispensers for dispensing liquid suspensions of live probiotic anaerobic bacteria into animal feed.

Class 12

(6) Wheelchairs; chairlifts.

Class 16

(7) Printed periodic publications, namely, newsletters and pamphlets featuring health and wellness topics; publications in the nature of printed reports for medical professionals featuring human disease treatment protocols, and business and industry news in the operation of medical practices, including oncology practices; printed instructional and marketing publications, namely, published research abstracts, namely, printed research papers, research posters, slides, namely, presentation slides, reports, namely, printed medical reports, user manuals, instructional brochures, marketing brochures, handouts, namely, flyers, brochures, periodicals, newsletters, reprint articles, namely, journal articles, training guides and tutorials, namely, training manuals, instructional resource cards, namely, printed instruction materials, flow charts and diagrams, namely, printed diagrams, all of the aforementioned for use in the healthcare, namely, medical care, medical devices, pharmaceutical and biotechnology fields.

Class 31

(8) Edible non-medicated canine and feline dental chews; edible soft chews for pets; edible pet treats.

Services

Class 35

(1) Wholesale distributorship services in the field of pharmaceuticals, medical and healthcare products, namely, veterinary and sanitary preparations and medical supplies; wholesale ordering services featuring pharmaceutical, medical and healthcare products, namely, veterinary and sanitary preparations and medical supplies; wholesale distributorship services in the field of specialty pharmaceutical products, namely, disease specific pharmaceuticals; wholesale ordering services featuring specialty pharmaceutical products, namely, disease specific pharmaceuticals; wholesale distributorship services featuring specialty healthcare products in the nature of pharmaceuticals and chemotherapeutics supplied in accordance with specially developed protocols to health-care providers and their patients; wholesale ordering services featuring specialty healthcare products in the nature of pharmaceuticals and chemotherapeutics supplied in accordance with specially developed protocols to health-care providers and their patients; wholesale distributorship services featuring pharmaceuticals, medical and surgical supplies, healthcare products, namely, veterinary and sanitary preparations and beauty aid products, namely, beauty and hair care products; wholesale pharmaceutical and medical supply distributorship services; mail order retail ordering services featuring pharmaceutical products; mail order retail ordering services featuring biotechnological products, namely, vaccines, biologic drugs and biotherapeutics; wholesale distributorship services in the field of animal health and veterinary products, namely, retail services for veterinary preparations, animal grooming preparations, and hygienic and beauty implements for animals; wholesale distributorship services in the field of veterinary supplies featuring animal care and grooming products, animal nutritional supplements and medication; wholesale ordering services featuring veterinary supplies featuring animal care and grooming products, animal nutritional supplements and medication; ordering services for

purchasing pharmaceutical preparations, namely, computerized online ordering featuring pharmaceutical preparations; business consulting, namely, business consultancy in the field of development and commercialization of biotechnological products, namely, vaccines, biologic drugs, and biotherapeutics; providing information about consumer product sales at retail locations, about wholesale product sales to outlets, and about inventory management to commercial entities via an online computer database, all of the foregoing relating to consumer products, namely personal care products, and healthcare products, namely medications, pharmaceuticals, and medical supplies; business consulting in the field of veterinary practice management; business consulting in the field of livestock management; business consulting services in the field of pharmaceuticals and other healthcare technologies, namely, medical devices; business consulting services, namely, the application of analytical and statistical methodology to the study of healthcare products and their impact on the overall healthcare market in the field of pharmaceuticals and health care technologies, namely, medical devices, veterinary and sanitary preparations, and medical supplies; advertising and marketing services in the field of healthcare products and services, namely, pharmaceuticals, medications, medical devices, veterinary and sanitary preparations, and medical supplies of others using catalogs; cost containment services in the field of healthcare providers and pharmacies relating to containing drug acquisition costs and recovering allowable reimbursements; healthcare business administration services; business management consulting services in the field of pharmaceutical and healthcare products and services; business management consulting services in the field of pharmaceutical and healthcare product manufacturing, distribution, and logistics, namely, analyzing data about product inventory and sales, managing formularies, and marketing such products; healthcare business administration services in the healthcare field for pharmaceutical, biotechnology and medical device suppliers; business consulting services in the field of cost and payment management of health care cost containment, namely, providing expedited review, processing and follow-up of prior authorization requests initiated by physicians' offices and pharmacies, providing group purchasing of pharmaceuticals and chemotherapeutics for community-based providers including oncologists and oncology practices; business consulting services in the field of cost and payment management of health care cost containment; business consulting services in the field of reimbursement for medical services rendered; conducting market research surveys in the field of healthcare costs and delivery cooperative advertising and marketing for others in the field of biotechnological products, namely, vaccines, biologic drugs, and biotherapeutics; providing information from an online non-downloadable database featuring information about consumer product sales at retail locations, about wholesale product sales to outlets, and about inventories of health-care products for use by commercial entities, namely, providing information on consumer products in the field of pharmaceuticals through global computer networks with an advertising and sales purpose for others; retail pharmacy services featuring specialty pharmaceuticals and chemotherapeutics; temporary staffing for pharmacies; temporary staffing for pharmacies, namely, providing, recruiting, retaining pharmacy personnel, and interim managing of pharmacy operational and clinical functions; business management of customs brokers; tracking and monitoring import agency compliance for business purposes; customs clearance services, namely, administrative services relating to customs clearance; computerized tracking and tracing of documents, packages and freight in transit to ensure on-time delivery for business purposes; preparing business reports to insurance agencies regarding drug therapy efficacy; organization and conducting of business meetings and conventions for the purpose of disseminating information about the development, commercialization, and distribution of products and services in the field of healthcare; providing business information via a global computer network and the Internet to commercial companies in the fields of wholesaling of goods at sales outlets, pharmaceutical preparation and healthcare preparation stock, and product performance for market research purposes; pharmaceutical
