Published under the authority of the Speaker of the House of Commons

SPEAKER'S PERMISSION

The proceedings of the House of Commons and its Committees are hereby made available to provide greater public access. The parliamentary privilege of the House of Commons to control the publication and broadcast of the proceedings of the House of Commons and its Committees is nonetheless reserved. All copyrights therein are also reserved.

Reproduction of the proceedings of the House of Commons and its Committees, in whole or in part and in any medium, is hereby permitted provided that the reproduction is accurate and is not presented as official. This permission does not extend to reproduction, distribution or use for commercial purpose of financial gain. Reproduction or use outside this permission or without authorization may be treated as copyright infringement in accordance with the *Copyright Act*. Authorization may be obtained on written application to the Office of the Speaker of the House of Commons.

Reproduction in accordance with this permission does not constitute publication under the authority of the House of Commons. The absolute privilege that applies to the proceedings of the House of Commons does not extend to these permitted reproductions. Where a reproduction includes briefs to a Standing Committee of the House of Commons, authorization for reproduction may be required from the authors in accordance with the *Copyright Act*.

Nothing in this permission abrogates or derogates from the privileges, powers, immunities and rights of the House of Commons and its Committees. For greater certainty, this permission does not affect the prohibition against impeaching or questioning the proceedings of the House of Commons in courts or otherwise. The House of Commons retains the right and privilege to find users in contempt of Parliament if a reproduction or use is not in accordance with this permission.

INTRODUCTION

Each year, parliamentary committees undertake numerous studies based on the permanent or specific mandates given to them by the House of Commons. For instance, they study bills and may amend them before sending them back to the House of Commons. They are involved in the review of the government's spending by examining departmental estimates, reports on plans and priorities (departmental plans) and performance reports. They also participate in the review of Order in Council appointments by calling nominees to appear. Furthermore, committees may initiate their own studies on issues related to the subject areas of their mandates. In conducting these studies, committees will hear from witnesses and, in most cases, will present a report of their findings and recommendations back to the House of Commons. Given the number and scope of their studies, it is clear that committees play an essential role in the work of the House of Commons.

The [Liaison Committee](#), composed of the Chairs of all standing committees and the House Co-Chairs of standing joint committees, is empowered to deliberate on administrative matters relating to the standing committee system. Its main responsibility is to apportion funds to standing committees from the money allocated for that purpose by the Board of Internal Economy. To this end, a global envelope in the amount of \$4 million for the 2025–26 fiscal year, is available to committees for their activities.

The [Reports on Committee Activities and Expenditures](#), which are usually prepared three times per fiscal year by the Liaison Committee, present cumulative financial information on committees' expenditures and the work they are doing. When required, they also include information on special committees. They serve as essential reporting and accountability mechanisms, not only for activities, but also for the use of the resources at committees' disposal. By summarizing and consolidating statistics regarding the number of meetings, meeting hours, reports, briefs and witnesses for each committee, these reports, presented in a format intended to help readers better understand the work of committees, provide readers with a concise summary of committee mandates, activities and expenditures. Finally, they complement other reports and disclosure tools available to Canadians on the Board of Internal Economy [website](#).

Following the adoption by the House, in June 2023, of a number of permanent changes to the Standing Orders to allow committee members and witnesses to continue participating virtually in committee meetings (except for the member presiding over the meeting, typically the committee chair, who is required to be in person), a rigorous process to onboard witnesses continues to be followed, to ensure that the audio quality of their

interventions meets the standard required for simultaneous interpretation. More detail concerning participation by videoconference at committee meetings is available in Appendix A.

This report covers the period from April 1, 2025, to March 31, 2026. During this period, committees held a total of 773 meetings, heard from 3,355 witnesses, received 2,037 briefs and presented 117 reports to the House. It should be noted that a general election was held on April 28, 2025. Parliament reconvened on May 26, 2025, and committee activities began on June 10, 2025.

We hope this report provides helpful and concise information on the activities of committees, thus giving a better sense of their important work on behalf of Canadians.

For further information, please contact the Liaison Committee at LIAI@parl.gc.ca.

NOTE TO READER

This is the second and final report for the 2025–26 fiscal year. In this report, information about each committee’s activities and expenditures is presented through a combination of descriptive text and tables containing statistical and financial information. The section for each committee includes a short overview of committee activities, tables on committee expenditures, travel expenditures (if applicable) and statistical information on the number of committee meetings, witnesses, briefs and reports. This “Note to Reader” provides contextual information to assist the reader in interpreting the information in each table.

EXPENDITURES

The “Expenditures” table summarizes committee expenditures for the period from April 1, 2025, to March 31, 2026. Committee studies are listed in chronological order. Expenditures are broken down by “Witness Expenses,” “Videoconferences,” “Working Meals,” “Hospitality” and “Other.” “Other” may include expenditures such as reports, professional services, audio-visual equipment and minor miscellaneous expenses. The row “Operational Budget” contains expenditures for which no separate funding request was made in relation to a study or an activity of a committee. The “Expenditures” table for special joint committees also includes “Revenues.” Special joint committees are funded jointly by the House of Commons and the Senate, and “Revenues” reflect the recovery of the Senate’s portion of the expenses. Differences in totals are due to rounding.

TRAVEL EXPENDITURES

The “Travel Expenditures” table summarizes committee travel expenditures for the period from April 1, 2025, to March 31, 2026. Expenditures are broken down by “Transportation,” “Accommodation,” “Per Diems,” “Working Meals,” “Hospitality” and “Other.” “Other” may include expenditures such as audio-visual equipment, meeting rooms, passport and visa processing, conference fees and other minor miscellaneous expenses. This table is only included for committees that incurred travel expenses in the specified period. If a trip was cancelled, this is noted instead of dates of travel. Expenses for cancelled travel include only those expenses incurred prior to cancellation that could not be reimbursed. Differences in totals are due to rounding.

In relation to travel expenditures, following a decision of the Liaison Committee at its meeting of June 5, 2019, detailed travel expenditure reports are prepared and

published consistent with the manner provided for in Bill C-58, An Act to amend the Access to Information Act and the Privacy Act and to make consequential amendments to other Acts, which received Royal Assent on June 21, 2019. Detailed travel expenditure reports, broken down by travel activity and by individual or group, when available, are found online at <https://www.ourcommons.ca/Committees/en/TravelExpenditures>.

MEETINGS, WITNESSES, BRIEFS AND REPORTS

The “Meetings, Witnesses, Briefs and Reports” table contains information about committee meetings, witnesses, briefs and reports presented to the House for the period from April 1, 2025, to March 31, 2026. In addition to the total number of committee meetings in this period, the table identifies the number of committee meetings that were televised and the number of meetings that were webcast (audio or video of public meetings is available on an archival basis through the committees website) and the number of meetings where videoconferencing technology was used to allow the committee to hear from witnesses appearing remotely. The table also includes the number of briefs received by each committee. Briefs are written submissions from individuals and organizations that provide opinions, comments and recommendations on a subject being studied by a parliamentary committee. Statistics for each standing committee and, if applicable, each of its subcommittees, are presented in separate rows. In practice, most committees create a subcommittee on agenda and procedure, commonly referred to as a “steering committee,” to help them plan their work. The establishment of subcommittees is usually designed to relieve parliamentary committees of planning and administrative tasks or to address important issues relating to their mandate. Subcommittees are not empowered to report to the House; they only present reports to their standing committee.

COMPARISON OF COMMITTEE EXPENDITURES

The following table and figure show the total expenditures by all committees in each of the last five fiscal years. Expenditures for standing and standing joint committees are covered by the global envelope for committee activities, allocated by the Board of Internal Economy and managed by the Liaison Committee. Expenditures for legislative, special and special joint committees are covered by funds approved by the Board of Internal Economy. Standing committee expenditures include all expenditures by any related subcommittees. Differences in totals are due to rounding.
