Minister's message

I am pleased to present Transport Canada's Fees Report for the 2024-25 fiscal year.

This report, under the *Service Fees Act*, provides a detailed overview of departmental fees and revenues, and reflects the Government of Canada's commitment to transparency and service accountability.

The fees collected by Transport Canada support a range of important transportation services, such as:

- licensing of commercial pilots and aircraft maintenance engineers
- vessel registration and
- marine safety inspections

These fees help offset the cost of delivering high-quality regulatory and inspection services to Canadians.

By maintaining transparent fee practices, we continue to support a safe, secure, efficient, competitive, and environmentally responsible transportation system for all Canadians.

Minister of Transport and Leader of the
Government in the House of Commons

About this report

This report, which is tabled under section 20 of the *Service Fees Act*, the *Low Materiality Fees Regulations*, and subsection 4.2.9 of the Treasury Board *Directive on Charging and Special Financial Authorities*, contains information about the fees Transport Canada had the authority to charge in fiscal year 2024–25.

The report covers fees that are subject to the *Service Fees Act* and exempted from the *Service Fees Act*.

For reporting purposes, fees are categorized by fee-setting mechanism. There are three mechanisms:

1. Act, regulation or fees notice
The authority to set these fees is delegated to a department, minister or Governor in Council pursuant to an act of Parliament.
2. Contract
Ministers have the inherent authority to enter into contracts, which are usually negotiated between the minister and an individual or organization, and which cover fees and other terms and conditions. In some cases, that authority may also be provided by an act of Parliament.
3. Market rate or auction
The authority to set these fees comes from an act of Parliament or a regulation, and the minister, department or Governor in Council has no control in determining the fee amount.

For fees set by act, regulation or fees notice, the report provides totals for fee groupings, as well as detailed information for each fee. For fees set by contract and fees set by market rate or auction, the report provides totals only.

Fees charged by Transport Canada under the *Access to Information Act* are not subject to the *Service Fees Act* and are not included in this report. Information on Transport Canada's access to information fees can be found in our [annual report to Parliament](#) on the administration of the *Access to Information Act*.

Remissions

In 2024–25, Transport Canada was subject to the requirements to issue remissions under section 7 of the *Service Fees Act* and subsection 4.2.4 of the Treasury Board *Directive on Charging and Special Financial Authorities* to remit a fee, in whole or in part, to a fee payer when a service standard was not met. Transport Canada’s remission policy and procedures, pursuant to the *Service Fees Act*, are on the following web page: [Transport Canada’s Policy on remissions](#).

The other sections of this report provide detailed amounts for Transport Canada’s remissions for 2024–25.
